Reference: Revised Standard Processes Manual

On November 19, 2018, North American Electric Reliability Corporation (NERC) submitted proposed amendments to Appendix 3A of the NERC Rules of Procedure, the Standard Processes Manual. NERC states that the proposed amendments (1) enhance processes for field tests to support standards development and for posting supporting technical documents; (2) improve processes for appeals and interpretations; (3) provide language to clarify existing standard processes; and (4) streamline language, correct capitalization or titles of documents, and make other necessary updates.

Notice of this filing was published in the *Federal Register*, with protests and interventions due on or before December 10, 2018. Notices of intervention and unopposed timely filed motions to intervene are granted pursuant to the operation of Rule 214 of the Commission's Rules of Practice and Procedure. 18 C.F.R. § 385.214. No adverse comments were received.

NERC's uncontested filing is accepted pursuant to the relevant authority delegated to the Director, Office of Energy Market Regulation, under 18 C.F.R. § 375.307, effective as of the date of this order.

This action shall not be construed as approving any other application, including proposed revisions of Electric Reliability Organization or Regional Entity rules or procedures pursuant to 18 C.F.R. § 375.307(a)(2)(vi). This action does not constitute approval of any service, rate, charge, classification, or any rule, regulation, contract, or practice affecting such rate or service provided for in the filed documents. Such action shall not be deemed as recognition of any claimed right or obligation associated therewith.
