North American Electric Reliability Corporation  
Docket No. RD20-8-000

June 10, 2020

North American Electric Reliability Corporation  
1325 G Street N.W., Suite 600  
Washington, D.C. 20005

Attention: Lauren A. Perotti  
Senior Counsel for North American Electric Reliability Corporation

Reference: Petition of the North American Electric Reliability Corporation for  
Approval of Erratum to Reliability Standard TPL-001-5

Dear Ms. Perotti:

On April 23, 2020, the North American Electric Reliability Corporation (NERC) filed a petition seeking approval of a proposed erratum to Reliability Standard TPL-001-5 (Transmission System Planning Performance Requirements). Reliability Standard TPL-001-5 was approved by the Commission in Order No. 867, issued on January 23, 2020.<sup>1</sup>

NERC states that it has since identified an error in Reliability Standard TPL-001-5 Requirement R2, Part 2.7; specifically, a cross-reference had not been updated when the referenced Requirement Part was revised. Reliability Standard TPL-001-5, Requirement R2, Part 2.7 incorrectly references Requirements R2, Parts 2.1.4 and 2.4.3. Requirement R2, Part 2.7 should instead reference Requirement R2, Parts 2.1.3 and 2.4.3, which are the two Requirement R2 Parts in Reliability Standard TPL-001-5 that refer to sensitivity cases.<sup>2</sup> Consistent with NERC's Reliability Standards numbering convention, the proposed erratum version is numbered Reliability Standard TPL-001-5.1.
