Reference: Revised SERC Reliability Corporation Regional Reliability Standards
Development Procedure

On February 25, 2021, North American Electric Reliability Corporation (NERC) submitted proposed revisions to the SERC Reliability Corporation (SERC) regional reliability standards development procedure (RSDP). NERC states that the proposed revisions (1) account for the amended and restated bylaws of SERC, effective January 1, 2021; (2) reflect changes to the current SERC technical committee structure; and (3) make a number of non-substantive revisions to improve the consistency of abbreviations used throughout the procedure.

Notice of this filing was published in the *Federal Register*, with protests and interventions due on or before March 18, 2021. Notices of intervention and unopposed timely filed motions to intervene are granted pursuant to the operation of Rule 214 of the Commission's Rules of Practice and Procedure. 18 C.F.R. § 385.214. No adverse comments were received.

NERC's uncontested filing is approved pursuant to the relevant authority delegated to the Director, Office of Energy Market Regulation, under 18 C.F.R. § 375.307, as of the date of this order.

This action shall not be construed as approving any other application, including proposed revisions of Electric Reliability Organization or Regional Entity rules or procedures pursuant to 18 C.F.R. § 375.307(a)(2)(vi). This action does not constitute approval of any service, rate, charge, classification, or any rule, regulation, contract, or practice affecting such rate or service provided for in the filed documents.
