Visit www.iclega.org

for information regarding current and future Internet CLE opportunities...to "attend" a seminar on the Web...to find out what you need to view a seminar on the Web...even to see a list of upcoming seminars to attend in person!

You are able to satisfy one half of Georgia's annual MCLE requirement by individual participation in approved SELF-STUDY CLE activities, which includes Internet seminars. ICLE will offer about a dozen live Internet seminars each year and many more archived events over our Web site.

This seminar is available for self-study CLE through our web site (www.iclega.org). The web CLE is available as a live simulcast the day of the program or as an archived online course one week after the live broadcast. Once you register for an ICLE web cast, you have one month to complete viewing of the seminar, which is available 24 hours a day. This seminar will also be available on VHS/DVD rental approximately two weeks after its rebroadcast.
