(i) whether the disposition is supported by a sufficient record compiled by ~~[REGIONAL ENTITY]~~ReliabilityFirst in accordance with the NERC Rules of Procedure, NERC directives and Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction,

determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by ~~{REGIONAL ENTITY}~~ ReliabilityFirst and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. ~~{REGIONAL ENTITY}~~ ReliabilityFirst may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of ~~{REGIONAL ENTITY}~~ ReliabilityFirst's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by ~~{REGIONAL ENTITY}~~ ReliabilityFirst as a result of a decision by ~~{REGIONAL ENTITY}~~ ReliabilityFirst's Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under

Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review ~~REGIONAL ENTITY~~ [ReliabilityFirst](#)'s compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

7. Delegation-Related Activities.

NERC will engage ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) and other Regional Entities. ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) shall provide timely and accurate information

relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. ~~REGIONAL ENTITY~~ ReliabilityFirst shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. ~~REGIONAL ENTITY~~ ReliabilityFirst shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by ~~REGIONAL ENTITY~~ ReliabilityFirst and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. ~~REGIONAL ENTITY~~ ReliabilityFirst shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and ~~REGIONAL ENTITY~~ ReliabilityFirst shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, ~~REGIONAL ENTITY~~ ReliabilityFirst shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. ~~REGIONAL ENTITY~~ ReliabilityFirst may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) ~~{REGIONAL ENTITY}~~ReliabilityFirst shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) ~~{REGIONAL ENTITY}~~ReliabilityFirst shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of ~~{REGIONAL ENTITY}~~ReliabilityFirst's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and ~~{REGIONAL ENTITY}~~ReliabilityFirst that matters relating to NERC's oversight of ~~{REGIONAL ENTITY}~~ReliabilityFirst's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and ~~{REGIONAL ENTITY}~~ReliabilityFirst and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with ~~{REGIONAL ENTITY}~~ReliabilityFirst and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and ~~{REGIONAL ENTITY}~~ReliabilityFirst's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. ~~{REGIONAL ENTITY}~~ReliabilityFirst shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate ~~{REGIONAL ENTITY}~~ReliabilityFirst's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate ~~{REGIONAL ENTITY}~~ ReliabilityFirst's performance of its delegated functions and related activities and to provide advice and direction to ~~{REGIONAL ENTITY}~~ ReliabilityFirst on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, ~~{REGIONAL ENTITY}~~ ReliabilityFirst and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of ~~{REGIONAL ENTITY}~~ ReliabilityFirst's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring ~~{REGIONAL ENTITY}~~ ReliabilityFirst to adopt and implement an action plan or other remedial action, NERC shall issue a notice to ~~{REGIONAL ENTITY}~~ ReliabilityFirst of the need and basis for an action plan or other remedial action and provide an opportunity for ~~{REGIONAL ENTITY}~~ ReliabilityFirst to submit a written response contesting NERC's evaluation of ~~{REGIONAL ENTITY}~~ ReliabilityFirst's performance and the need for an action plan. ~~{REGIONAL ENTITY}~~ ReliabilityFirst may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall work collaboratively as needed in the development and implementation of ~~{REGIONAL ENTITY}~~ ReliabilityFirst's action plan. A final action plan submitted by ~~{REGIONAL ENTITY}~~ ReliabilityFirst to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to ~~{REGIONAL ENTITY}~~ ReliabilityFirst standardized training and education programs, which shall be designed taking into account input from ~~{REGIONAL ENTITY}~~ ReliabilityFirst and other Regional Entities, for ~~{REGIONAL ENTITY}~~ ReliabilityFirst personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to ~~[REGIONAL ENTITY]~~ReliabilityFirst concerning the manner in which ~~[REGIONAL ENTITY]~~ReliabilityFirst shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered “directives.” NERC shall initiate the development of a directive through a collaborative process with ~~[REGIONAL ENTITY]~~ReliabilityFirst and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and ~~[REGIONAL ENTITY]~~ReliabilityFirst and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), ~~[REGIONAL ENTITY]~~ReliabilityFirst and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, ~~[REGIONAL ENTITY]~~ReliabilityFirst, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by ~~[REGIONAL ENTITY]~~ReliabilityFirst, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without ~~[REGIONAL ENTITY]~~ReliabilityFirst's agreement, *provided*, that ~~[REGIONAL ENTITY]~~ReliabilityFirst shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and ~~[REGIONAL ENTITY]~~ReliabilityFirst and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the

NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which ~~{REGIONAL ENTITY}~~ ReliabilityFirst, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. ~~{REGIONAL ENTITY}~~ ReliabilityFirst, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with ~~{REGIONAL ENTITY}~~ ReliabilityFirst, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of ~~{REGIONAL ENTITY}~~ ReliabilityFirst performed by NERC shall be limited to an examination of ~~{REGIONAL ENTITY}~~ ReliabilityFirst's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. ~~{REGIONAL ENTITY}~~ ReliabilityFirst and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) ~~{REGIONAL ENTITY}~~ ReliabilityFirst shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. ~~{REGIONAL ENTITY}~~ ReliabilityFirst's proposed business plan and budget shall

describe the activities necessary for, and provide a budget with adequate resources for, ~~[REGIONAL ENTITY]~~ReliabilityFirst to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. ~~[REGIONAL ENTITY]~~ReliabilityFirst's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) ~~[REGIONAL ENTITY]~~ReliabilityFirst and NERC agree that the portion of ~~[REGIONAL ENTITY]~~ReliabilityFirst's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by ~~[REGIONAL ENTITY]~~ReliabilityFirst and approved by NERC and the Commission. If ~~[REGIONAL ENTITY]~~ReliabilityFirst proposes to use a formula other than Net Energy for Load beginning in the following year, ~~[REGIONAL ENTITY]~~ReliabilityFirst shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and ~~[REGIONAL ENTITY]~~ReliabilityFirst to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide ~~[REGIONAL ENTITY]~~ReliabilityFirst with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) ~~{REGIONAL ENTITY}~~ReliabilityFirst shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of ~~{REGIONAL ENTITY}~~ReliabilityFirst, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund ~~{REGIONAL ENTITY}~~ReliabilityFirst's performance of its Delegated Authority and related activities in accordance with ~~{REGIONAL ENTITY}~~ReliabilityFirst's Commission-approved business plan and budget, in the amount of ~~{REGIONAL ENTITY}~~ReliabilityFirst's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting ~~{REGIONAL ENTITY}~~ReliabilityFirst's approved assessments from end users and other entities and payment of the approved assessment amount to ~~{REGIONAL ENTITY}~~ReliabilityFirst, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon ~~{REGIONAL ENTITY}~~ReliabilityFirst that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without ~~{REGIONAL ENTITY}~~ReliabilityFirst's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and ~~{REGIONAL ENTITY}~~ReliabilityFirst fiscal year budget with the actual results at the NERC and Regional Entity levels. ~~{REGIONAL ENTITY}~~ReliabilityFirst shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) ~~{REGIONAL ENTITY}~~ReliabilityFirst shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) ~~{REGIONAL ENTITY}~~ReliabilityFirst shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which ~~{REGIONAL ENTITY}~~ReliabilityFirst shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of ~~{REGIONAL ENTITY}~~ReliabilityFirst) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which ~~{REGIONAL ENTITY}~~ReliabilityFirst shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of ~~{REGIONAL ENTITY}~~ReliabilityFirst. *Provided*, that, subject to approval by NERC and the Commission, ~~{REGIONAL ENTITY}~~ReliabilityFirst may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. ~~{REGIONAL ENTITY}~~ReliabilityFirst may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit ~~{REGIONAL ENTITY}~~ReliabilityFirst from contracting with other entities to assist it in carrying out its Delegated Authority, provided ~~{REGIONAL ENTITY}~~ReliabilityFirst retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and

diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on [January 1, 2011] (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~[REGIONAL ENTITY]~~ReliabilityFirst continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If ~~[REGIONAL ENTITY]~~ReliabilityFirst meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~[REGIONAL ENTITY]~~ReliabilityFirst continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of ~~[REGIONAL ENTITY]~~ReliabilityFirst’s Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time ~~[REGIONAL ENTITY]~~ReliabilityFirst may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the ~~REGIONAL ENTITY~~ [ReliabilityFirst](#)'s or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) or NERC is found liable for gross negligence or intentional misconduct, in which case ~~REGIONAL ENTITY~~ [ReliabilityFirst](#) or NERC shall

not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of ~~[REGIONAL ENTITY]~~ReliabilityFirst under this Agreement without first obtaining the consent of ~~[REGIONAL ENTITY]~~ReliabilityFirst, which consent shall not be unreasonably withheld or delayed. To the extent ~~[REGIONAL ENTITY]~~ReliabilityFirst does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of ~~[REGIONAL ENTITY]~~ReliabilityFirst under this Agreement, ~~[REGIONAL ENTITY]~~ReliabilityFirst shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by ~~[REGIONAL ENTITY]~~ReliabilityFirst to NERC and the Commission, or at such other time as may be mutually agreed by ~~[REGIONAL ENTITY]~~ReliabilityFirst and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and ~~[REGIONAL ENTITY]~~ReliabilityFirst (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to ~~[REGIONAL ENTITY]~~ReliabilityFirst's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. ~~[REGIONAL ENTITY]~~ReliabilityFirst shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative

for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however*, that: (i) it is the intent of the Parties that unresolved disputes shall be

presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. **Headings.** The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.
22. **Savings Clause.** Nothing in this Agreement shall be construed to preempt or limit any authority that ~~[REGIONAL ENTITY]~~ReliabilityFirst may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.
23. **Entire Agreement.** This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.
24. **Execution of Counterparts.** This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

Exhibit A — ~~Regional Boundaries-~~ Boundaries of Delegation Agreement

~~Exhibit A to the delegation agreement for each Regional Entity receiving Delegated Authority shall describe the geographic or electrical boundaries covered by the proposed delegation of authority. Exhibit A for each Regional Entity shall reflect coordination with neighboring Regional Entities, as appropriate, to ensure that all relevant areas are either included within the geographic boundaries of a Regional Entity or specifically identified as not being within the geographic boundaries of any Regional Entity. Any exclusions of geographic or electrical areas or of Registered Entities from the scope of the Regional Entity's Delegated Authority within the geographic or electrical boundaries shown on Exhibit A, and any additions of geographic or electrical areas or of Registered Entities located outside the boundaries shown on Exhibit A to the scope of the Regional Entity's Delegated Authority, shall be specifically stated or described in Exhibit A.~~

The Boundaries of **ReliabilityFirst** Corporation (**ReliabilityFirst**) are defined by the service territories of Load Serving Entities (LSEs) and include all of New Jersey, Delaware, Pennsylvania, Maryland, District of Columbia, West Virginia, Ohio, Indiana, Lower Michigan and portions of Upper Michigan, Wisconsin, Illinois, Kentucky, Tennessee and Virginia as shown on the map below. In addition, transmission systems and generation within the metered boundaries of the LSEs are within **ReliabilityFirst** even if outside the respective service territories shown. The area is electrically contiguous.

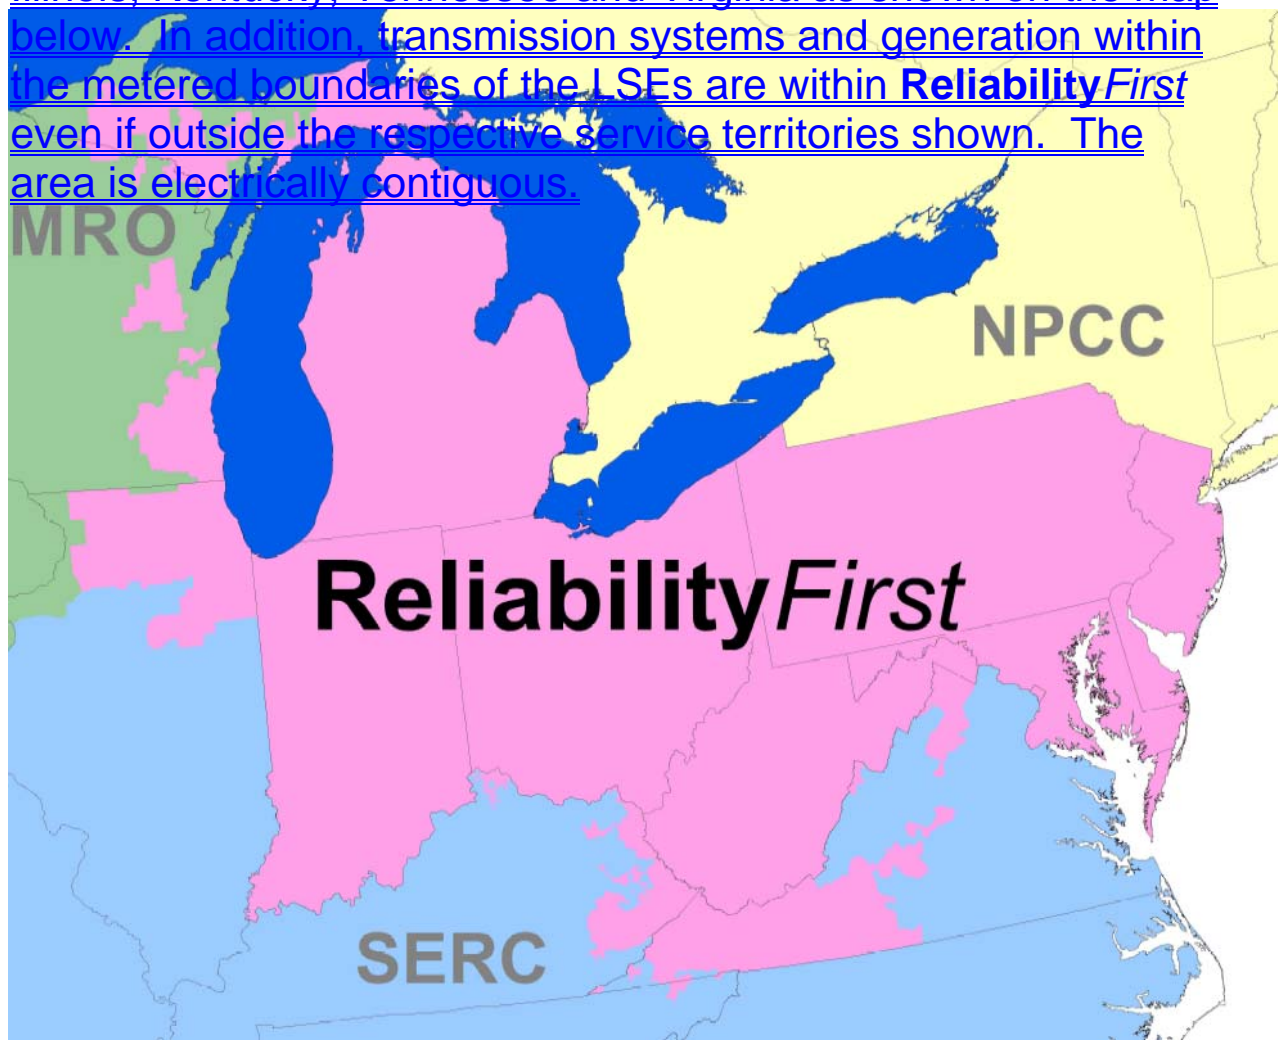

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity's bylaws, which, along with portions of the Standards Development Process as set out in Exhibit C, NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

**AMENDED AND RESTATED
BYLAWS OF
ReliabilityFirst Corporation
a Delaware nonprofit corporation
(the “Corporation”)**

[As adopted by the Members on December 19, 2006,
amended by the Board of Directors on September 21, 2007,
amended by the Members on December 6, 2007,
amended by the Board of Directors on May 22, 2008,
and amended by the Members on December 4, 2008]

**ARTICLE I.
DEFINITIONS**

Section 1.1. Act. “Act” shall mean Section 215 of the Federal Power Act (16 U.S.C. §824n).

Section 1.2. Adjunct Member. “Adjunct Member” shall mean any entity that does not qualify to join an Industry Sector but has been approved for membership. Adjunct Members may include Regulatory Participants.

Section 1.3. Affiliate. “Affiliate” shall mean, with respect to any entity, any other entity that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such entity, as determined in the sole discretion of the Board of the Corporation. For this purpose, “control” may be presumed by the direct or indirect ownership of ten percent (10%) or more of the outstanding voting capital stock or other equity interests having ordinary voting power.

Section 1.4. Associate Member. “Associate Member” shall mean any entity that has joined an Industry Sector and is an Affiliate or Related Party of a Regular Member.

Section 1.5. Board. “Board” shall mean the Board of Directors of the Corporation.

Section 1.6. Bulk Power System. “Bulk Power System” shall mean facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof) and electric energy from generation facilities needed to maintain transmission system reliability, but does not include facilities used in the local distribution of electricity.

Section 1.7. Certificate of Incorporation. “Certificate of Incorporation” shall mean the Certificate of Incorporation of the Corporation filed with the Delaware Secretary of State, as from time to time amended.

Section 1.8. Commission. “Commission” shall mean the Federal Energy Regulatory Commission.

Section 1.9. Delegation Agreement. “Delegation Agreement” shall mean the delegation agreement, as supplemented or amended from time to time, between NERC and the Corporation pursuant to which NERC has delegated its authority to the Corporation to propose and enforce Reliability Standards within the Region.

Section 1.10. Electronic Transmission. “Electronic transmission” shall mean any form of communication, not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved and reviewed by a recipient thereof, and that may be directly reproduced in paper form by such a recipient through an automated process.

Section 1.11. ERO. “ERO” shall mean the electric reliability organization established under the Act to enforce Reliability Standards applicable to all owners, operators and users of the Bulk Power System in North America.

Section 1.12. Hearing Body. “Hearing Body” shall mean a group established with authority to conduct and render decisions in a formal compliance hearing of an entity registered in the NERC compliance registry who is the subject of a notice of alleged violation, proposed penalty or sanction, contested mitigation plan or contested remedial action directive.

Section 1.13. Industry Sector. “Industry Sector” shall mean a group of Bulk Power System owners, operators or users in the Region with substantially similar interests as pertinent to the purposes and operations of the Corporation of the Bulk Power System. The Industry Sectors shall consist of the following: (1) Suppliers, (2) Transmission Companies, (3) RTOs, (4) Small LSEs, (5) Medium LSEs, and (6) Large LSEs.

Section 1.14. Large LSEs. “Large LSEs” shall mean entities that serve, or whose Related Parties serve, end use load with annual energy delivery to such load in the Region of 50,000 GWh or greater.

Section 1.15. Medium LSEs. “Medium LSEs” shall mean entities that serve, or whose Related Parties serve, end use load with annual energy delivery to such load in the Region between 10,000 GWh and 50,000 GWh.

Section 1.16. Members. “Members” shall mean Regular Members, Associate Members and Adjunct Members.

Section 1.17. NERC. “NERC” shall mean the North American Electric Reliability Corporation, or any successor entity, which has been certified by the Commission as the ERO pursuant to the Act to establish and enforce Reliability Standards for the Bulk Power System.

Section 1.18. NERC Rules. “NERC Rules” shall mean the NERC Rules of Procedure as approved by the Commission.

Section 1.19. Net Energy for Load. “Net Energy for Load” shall mean net generation of an electric system plus energy received from others less energy delivered to others through interchange. It includes system losses, but excludes energy required for storage of energy at energy storage facilities. Calculations of net energy for load for all purposes under these Bylaws shall be based on the most recent calendar year for which data on net energy for load of the Region is available.

Section 1.20. Person. “Person” shall mean a natural person, corporation, cooperative, partnership, association, or other private or public entity.

Section 1.21. Region. “Region” shall mean the geographic boundaries of the Corporation described in the Delegation Agreement.

Section 1.22. Regional Entity. “Regional Entity” shall mean any entity with which NERC has entered into a delegation agreement to delegate, or which the Commission or a governmental authority in Canada or Mexico has directly assigned, enforcement authority for reliability standards for the Bulk Power System in a defined geographic area of North America.

Section 1.23. Regional Variance. “Regional Variance” shall mean an aspect of a Reliability Standard that applies only within a particular Regional Entity or group of Regional Entities. A Regional Variance may be used to qualify how a particular Regional Entity or Regional Entities achieves the objectives of a Reliability Standard or may establish different measures or performance criteria as necessary to achieve reliability within the particular Regional Entity or group of Regional Entities. A Regional Variance may not be inconsistent with any Reliability Standard as it would otherwise exist without the Regional Variance. Such a Regional Variance may be proposed by a Regional Entity and, if adopted by NERC and approved by the Commission, shall be enforced within the applicable Regional Entity or Regional Entities pursuant to delegated authority.

Section 1.24. Regional Reliability Standard. “Regional Reliability Standard” shall mean a type of Reliability Standard that is applicable only within a particular Regional Entity or group of Regional Entities. A Regional Reliability Standard may augment, add detail to, or implement another Reliability Standard or cover matters not addressed by other Reliability Standards. Regional Reliability Standards, upon adoption by NERC and approval by the Commission, shall be Reliability Standards and shall be enforced within the applicable Regional Entity or Regional Entities pursuant to delegated authorities.

Section 1.25. Regular Member. “Regular Member” shall mean any entity that has joined an Industry Sector that either (i) has no Affiliates or Related Parties that are Members or (ii) is the entity designated to be the Regular Member by any related group of Associate Members.

Section 1.26. Regulatory Participant. “Regulatory Participant” shall mean any state, District of Columbia or any provincial regulatory agency in the Region exercising authority over the rates, terms or conditions of electric service of an entity other than itself within the Region, or the planning, siting, construction or operation of electric

facilities of an entity other than itself within the Region, as well as the Commission, regional advisory bodies that may be established by the Commission, or any federal regulator or agency or any entity authorized by any state, the District of Columbia or any province to represent utility consumers.

Section 1.27. Related Party. “Related Party” shall mean, solely for purposes of the governance provisions of these Bylaws, any entity that is registered as part of another entity or is registered for other entities in the NERC Compliance Registry. For purposes of these Bylaws, a representative of a state or federal government agency shall not be deemed a Related Party with respect to each other, and a public body’s regulatory authority, if any, over a Member shall not be deemed to make it a Related Party with respect to that Member.

Section 1.28. Reliability Coordinator. “Reliability Coordinator” shall mean any entity that is recognized as a reliability coordinator by NERC in the Region that does not otherwise qualify as a Transmission Company or RTO.

Section 1.29. Reliability Standard. “Reliability Standard” shall mean a requirement to provide for Reliable Operation of the Bulk Power System, including, without limitation, the foregoing requirements for the operation of existing Bulk Power System facilities, including cyber security protection, and the design of planned additions or modifications to such facilities to the extent necessary for reliable operation of the Bulk Power System, but shall not include any requirement to enlarge Bulk Power System facilities or to construct new transmission capacity or generation capacity.

Section 1.30. Reliable Operation. “Reliable Operation” shall mean operating the elements of the Bulk Power System within equipment and electric system thermal, voltage and stability limits so that instability, uncontrolled separation, or cascading failure of the Bulk Power System will not occur as a result of a sudden disturbance, including a cyber security incident, or unanticipated failure of system elements.

Section 1.31. RTOs. “RTOs” shall mean PJM Interconnection L.L.C. and Midwest Independent Transmission System Operator, Inc., or such other entity that has been recognized by the Commission as a regional transmission operator or recognized functional equivalent in the Region.

Section 1.32. Small LSEs. “Small LSEs” shall mean (i) owners or operators of entities (or their representatives) that serve, or whose Related Parties serve, end use load with annual energy delivery to such load in the Region of 10,000 GWh or less, and (ii) end-use customers interconnected with the Bulk Power System with load of at least 100 MW at one location in the Region.

Section 1.33. Suppliers. “Suppliers” shall mean owners or operators of electric generation connected to the transmission system and wholesale power marketers in the Region.

Section 1.34. Transmission Companies. “Transmission companies” shall mean (i) owners (or those with ownership entitlement), planners and operators of

transmission facilities included in the Bulk Power System in the Region and (ii) Reliability Coordinators.

ARTICLE II. PURPOSE AND ACTIVITIES

Section 2.1. Purpose. The business or purposes to be conducted or promoted by the Corporation are:

- (a) to be a Regional Entity and exercise enforcement authority for Reliability Standards for the Bulk Power System in the Region pursuant to the Delegation Agreement;
- (b) to carry out certain of NERC's activities that are in furtherance of NERC's responsibilities as the ERO under the Act or in support of delegated functions, as specified in the NERC Rules or the Delegation Agreement; and
- (c) to engage in any other lawful act or activity for which not for profit corporations may be organized under the Delaware General Corporation Law.

The Corporation shall be exempt from federal income taxation pursuant to Section 501(c) of the Internal Revenue Code of 1986, as amended (hereinafter the "Code") as an organization described in Section 501(c)(6) of the Code. The Corporation shall not engage directly or indirectly in any activity which would invalidate its status as an organization exempt from taxation under Section 501(a) of the Code as an organization described in Section 501(c)(6) of the Code. No part of the net income to the Corporation shall inure to the benefit of or be distributed to its directors, officers, members or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services actually rendered.

Section 2.2. Activities. In support and furtherance of its purpose, and in accordance with and at all times subject to the NERC Rules and the Delegation Agreement, the Corporation's responsibilities shall include, but not be limited to, the following:

- (a) Reliability Standards. The Corporation shall:
 - (1) propose Reliability Standards, Regional Variances or modifications thereof to NERC; and
 - (2) develop Regional Reliability Standards through the Corporation's standards development procedure.
- (b) Enforcement. The Corporation shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the Region through the Corporation's compliance enforcement program.

(c) Delegation-Related Services. The Corporation, on behalf of NERC, shall carry out certain of NERC's activities that are in furtherance of NERC's responsibilities as the ERO under the Act or in support of delegated functions, including:

- (1) Organization registration and certification.
- (2) Reliability readiness audit and improvement.
- (3) Reliability assessment and performance analysis.
- (4) Training and education.
- (5) Situational awareness and infrastructure security.

(d) Budget. The Corporation shall prepare and submit a budget to NERC for the amount of costs the Corporation will incur in support of delegated functions that are in furtherance of NERC's responsibilities as the ERO under the Act.

(e) Non-delegated Functions. The Corporation may conduct such other activities for or on behalf of the Members that are not delegated to the Corporation by NERC under the Delegation Agreement if authorized by the Board and not inconsistent with the Act, NERC Rules, the Delegation Agreement or these Bylaws.

Section 2.3. Not-for-Profit Corporation. The Corporation is operated as a Delaware non-stock nonprofit corporation and is organized pursuant to the general corporation law of the State of Delaware.

ARTICLE III. POWERS

Section 3.1. Powers. The Corporation shall have the power to engage in any lawful act or activity for which corporations may be organized under the general corporation law of the State of Delaware, subject to any limitations provided in applicable federal, provincial or state law or in the Certificate of Incorporation or these Bylaws.

ARTICLE IV. OFFICES

Section 4.1. Principal Office. The principal office of the Corporation shall be located initially within the Region, at such location as the Board may from time to time determine, giving consideration to the total cost to the Corporation and convenience of travel for staff, Members and Regulatory Participants. Once established, the principal office may remain in its location, even if outside the Region.

ARTICLE V. MEMBERS

Section 5.1. General. The terms and conditions of membership in the Corporation shall be as provided in the Certificate of Incorporation and these Bylaws if not inconsistent therewith. All Regular Members and Associate Members shall be required to join a single Industry Sector.

Section 5.2. Classes of Members. The Corporation shall have three (3) classes of Members: Regular Members, Associate Members and Adjunct Members.

5.2.1 Regular Members. Except as set forth in Sections 5.5 and 6.5 of these Bylaws, Regular Members shall have the right to vote on all matters within their Industry Sector. Regular Members shall have all the rights and obligations of being a Member in the Corporation.

5.2.2 Associate Members. Associate Members shall not be entitled to vote within their Industry Sector or for any other purpose as a Member. Associate Members shall otherwise have all the rights and obligations of being a Member in the Corporation.

5.2.3 Adjunct Members. Adjunct Members shall not be entitled to vote for any purpose as a Member. Adjunct Members shall otherwise have all the rights of being a Member in the Corporation.

Section 5.3. Qualifications of Members. Any entity eligible to join an Industry Sector may be a Regular Member or Associate Member of the Corporation. Any entity not eligible to join an Industry Sector may be an Adjunct Member of the Corporation.

Section 5.4. Admission of Members. New Members may join the Corporation upon submittal of an application, in a form approved by the Board, and upon payment of such fees or charges, if any, as may be established by the Board or required by NERC. Each Regular Member and Associate Member shall designate the Industry Sector it wishes to join. A Regular Member and Associate Member may change its Industry Sector designation once each calendar year upon notice to the Corporation. Such notice must be provided to the Secretary of the Corporation at least sixty (60) days before an annual or other meeting of Members if the change is to be effective for such meeting. The President shall review a membership application and may request demonstration by the applicant that it qualifies for membership in a particular Industry Sector. Any dispute with respect to a Regular Member's or Associate Member's qualifications for a particular Industry Sector shall be resolved by the Board. The President shall have authority to approve an application for membership, subject to review by the Board.

Section 5.5. Voting Rights. Each Regular Member in good standing shall be entitled to one vote in the Industry Sector in which it belongs on all matters submitted to a vote of Members. The Board may suspend voting rights for a Regular Member delinquent by more than 60 days in payment of any penalties or because of the Regular Member's failure to meet other obligations to the Corporation. Except with respect to the election of Industry Sector directors as described elsewhere in the Certificate of

Incorporation and these Bylaws, matters properly brought before the Members at an annual or special meeting shall be acted upon by the Industry Sectors voting together as a single class. The vote of each Industry Sector shall be split into an affirmative component based on votes for the matter(s) presented, and a negative component based on votes against the matter(s) presented, in direct proportion to the votes cast within the Industry Sector for and against the matter presented, rounded to two decimal places. If authorized in advance by the Board, voting may be held electronically under such terms and conditions as are approved by the Board.

Section 5.6. Transfer of Membership. A Member of the Corporation may not transfer its membership or a right arising from it except to any Person succeeding to all or substantially all of the assets of the Member. If challenged, the President shall have authority to approve any such transfer, subject to review by the Board.

Section 5.7. Obligations of Members. By applying for and becoming a Regular or Associate Member of the Corporation, each Member agrees to comply with all Reliability Standards, all NERC standards and requirements, and the other obligations of Members of the Corporation set forth in these Bylaws or duly adopted by the Board in order to achieve the purposes of the Corporation. A Regular or Associate Member also agrees to obligate all of its Affiliates that have an impact on reliability in the Region to comply with all Reliability Standards and NERC standards and requirements. These obligations include but are not limited to: (a) obligations to provide data and information needed to perform the functions of the Corporation, (b) payment of any authorized penalties resulting from non-compliance with Reliability Standards, (c) in the case of Regular Members, electing the Board, and (d) providing qualified candidates to serve on organizational working groups. Adjunct Members agree to provide data and information needed to perform the functions of the Corporation.

Section 5.8. Withdrawal. A Member may withdraw from participation in the Corporation upon notice given in writing or by electronic transmission to the Corporation. Such notice shall specify a date, not earlier than thirty (30) days from the date of notice, on which the withdrawal shall become effective.

Section 5.9. Funding and Dues.

5.9.1 NERC Funding. In accordance with and at all times subject to the NERC Rules and the Delegation Agreement, the Corporation shall equitably allocate its dues, fees and other charges for the delegated functions conducted by the Corporation among all end users. The Corporation shall submit to NERC annually a list of all load-serving entities within the Region. NERC will bill all load-serving entities in the Region for the Corporation's costs for the delegated functions based on Net Energy for Load and be responsible for collection.

5.9.2 Application Fee, User-Fees and Other Charges. The Corporation may charge a nominal fee, which shall be determined by the President, for the submission of

applications for membership. The Board of Directors may from time to time fix the amount of user-fees or other charges, if any, for activities that are not delegated to the Corporation by NERC under the Delegation Agreement and determine the methods of collection from entities that choose to participate in such activities.

Section 5.10. Penalties. If the Corporation initiates an investigation that leads to the imposition of a penalty, the Corporation shall receive any penalty monies that results from the investigation. All monies which the Corporation collects from the issuance of penalties shall be applied as a general offset to the Corporation's budget requirements for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the Corporation.

ARTICLE VI. MEETING OF MEMBERS

Section 6.1. Annual Meeting of Members. The Members shall hold an annual meeting in December of each year, or at such other time specified by the Board. At the annual meeting of Members: (i) each Industry Sector shall elect the successor(s), if any, for any director(s) from their Industry Sector whose term will expire before the next annual meeting of the Members, provided however, that any Industry Sector may elect a successor director representing such Industry Sector prior to such annual meeting, in accordance with the provisions of this Article VI, in which case the election of such succeeding director(s) shall be reported to the Corporation at such annual meeting; (ii) the President and Treasurer shall report on the activities and financial condition of the Corporation; (iii) the Industry Sectors shall elect a slate of at-large and independent directors to fill vacancies or expiring terms; and (iv) the Industry Sectors shall consider and act upon such other matters as are consistent with the notice of the annual meeting. The failure to hold an annual meeting in accordance with these Bylaws shall not affect the validity of a corporate action.

Section 6.2. Special Meetings of Members. Special meetings of the Members may be called by six (6) directors on the Board, by the President, or by Members if at least ten percent (10%) of the Regular Members sign, date, and deliver to the President one or more written demands for a special meeting describing the purpose for which it is to be held. Within fifteen (15) days after receipt of a demand for a special meeting from Regular Members, the President shall cause a special meeting to be called and held on notice in accordance with Section 6.4 of these Bylaws. If the President fails to cause a special meeting to be called and held as required by this Section 6.2, a Regular Member making the demand may call the meeting by giving notice under Section 6.4. In either event, notice of the meeting and the costs of the meeting shall be at the expense of the Corporation. The business transacted at a special meeting is limited to the purposes stated within the notice of the meeting. Business transacted at a special meeting that is not included in those stated purposes is voidable by or on behalf of the Corporation, unless ninety percent (90%) of the Regular Members entitled to vote were present at such meeting or have waived notice of the meeting under Section 6.4.

Section 6.3. Location of Meetings of Members. Meetings of Members shall be held at a location designated by the President or the Board. If a Regular Member calls

a meeting pursuant to Section 6.2, the Regular Members making the demand for the meeting may designate the location, provided the meeting must be held within the Region and in a facility of appropriate size to accommodate the Members.

Section 6.4. Notice of Meetings.

6.4.1 Notice Requirements. Notice of meetings of Members must be given at least five (5) days before the date of a meeting and not more than sixty (60) days before the date of a meeting. The notice must contain the date, time and place of the meeting, instructions for electronic attendance or voting, if applicable, and an agenda of the matters upon which action may be taken at the meeting. A matter may be added to the agenda of a meeting at the meeting upon the affirmative vote of three-quarters (3/4) of the Industry Sector votes cast on a motion to amend the agenda. If the meeting is an adjourned meeting and the date, time and place of the meeting were announced at the time of the adjournment, notice is not required unless a new record date for the adjourned meeting is or must be fixed. Notice shall be deemed given by the Corporation to the Members when (a) posted on the Corporation's public website in a reasonably prominent location, and (b) sent by mail, facsimile or reputable overnight delivery service or by electronic transmission to each Member's representative authorized pursuant to Section 6.10.1

6.4.2 Waiver of Notice; Objections. A Member may waive notice of a meeting of Members. A waiver of notice by a Member entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing, or by attendance. Attendance by a Member at a meeting is a waiver of notice of that meeting, unless the Member objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened, or objects before a vote on an item of business because the item may not lawfully be considered at that meeting and does not participate in the consideration of the item at that meeting.

Section 6.5. Record Date. The Board may fix a date not more than sixty (60) days before the date of a meeting of Members as the date for the determination of the Members entitled to notice of and entitled to vote at the meeting. When a date is so fixed, only Members on that date are entitled to notice and to vote at the meeting unless the Board fixes a new date for determining the right to notice and to vote, which it must do if the meeting is adjourned to a date more than sixty (60) days after the record date for determining Members entitled to notice of the original meeting.

Section 6.6. Right to Vote; Act of Members.

6.6.1 Industry Sector Voting. Voting of the Members shall be by Industry Sector, with each Industry Sector entitled to cast one vote. Each Member entitled to vote in an Industry Sector shall be entitled to cast one vote in its Industry Sector. The vote of each Industry Sector shall be split into an affirmative component based on votes for the pending motion, and a negative component based on votes against the pending motion, in direct proportion to the votes cast within the Industry Sector for and against the pending motion, rounded to two decimal places. To the extent practicable, all Member votes may be held electronically under such terms and conditions as are approved by the Board.

6.6.2 Act of Members. If a quorum is present, except with respect to any matter described in Section 6.6.3, a majority of the Industry Sector votes cast on the matter shall be the act of the Members.

6.6.3 Special Voting Requirements. Notwithstanding any other provision of these Bylaws, and except as set forth in the Certificate of Incorporation and Section 13.2 of these Bylaws, two-thirds (2/3) of the Industry Sector votes cast shall be required to:

(a) Amend the Bylaws, except as otherwise provided in Section 19.1 of these Bylaws. The substance of the proposed amendment must be contained in the notice of the meeting at which the vote will be taken; however, the Members may modify a proposed Bylaw amendment at the meeting.

(b) Approve any proposal to terminate the Corporation.

Section 6.7. Quorum. A quorum for a meeting of Members is a majority of the Regular Members entitled to vote in each Industry Sector at the meeting. A quorum for a meeting of an Industry Sector is a majority of the Regular Members of that Industry Sector entitled to vote at the meeting. In both cases, electronic participation is acceptable if authorized by the Board. A quorum is necessary for the transaction of business at a meeting of Members or of any Industry Sector. If a quorum is not present, a meeting may be adjourned for that reason by the Industry Sectors or Regular Members then represented or present.

Section 6.8. Action by Ballot. All elections of directors shall be by written ballot. Any other action that may be taken at a regular or special meeting of Members or any Industry Sector may be taken without a meeting or during a meeting if the Corporation mails or delivers a written ballot to every Regular Member entitled to vote on the matter. Approval by written ballot is valid only when the number of votes cast by ballot equals or exceeds the quorum required to be present at a meeting authorizing the action, and the number of approvals equals or exceeds the number of votes that would be required to approve the matter at a meeting at which the total number of votes cast was the same as the number of votes cast by ballot. Solicitations for votes by written ballot must: (i) indicate the number of responses needed to meet the quorum requirements; (ii) state the percentage of approvals necessary to approve the matter; (iii) specify the time by which a ballot must be received by the Corporation in order to be counted; and (iv) may not be revoked once received. If authorized by the Board, the requirement of a written ballot shall be satisfied by a ballot submitted by electronic transmission provided that any such electronic transmission must either set forth or be submitted with information from which it can be determined that the electronic transmission was authorized by the Member.

Section 6.9. Action by Electronic Communication. A conference among Members by a means of communication through which the participants may simultaneously hear each other during the conference is a meeting of the Members, if the same notice is given of the conference as would be required for a meeting and if the number of persons participating in the conference is a quorum. Participation in a meeting by this means is personal presence at the meeting. A Member may participate

in a meeting of the Members by a means of communication through which the Member, other persons participating, and all persons physically present at the meeting may simultaneously communicate with each other during the meeting. Participation in a meeting by this means constitutes personal presence at the meeting.

Section 6.10. Member Representatives; Proxies.

6.10.1 Designation of Representative. Each year prior to the annual meeting of Members, each Regular Member shall designate the individual authorized to vote on Corporation matters on behalf of the Member, in accordance with procedures approved by the Board. A Regular Member may change such designation at any time by providing at least twenty-four (24) hour written notice to the Secretary of the Corporation. Such notice may be provided by electronic transmission.

6.10.2 Authorization. The individual designated to vote by a Regular Member may appoint a proxy to vote or otherwise act for the Regular Member at any meeting by signing an appointment form either personally or by an attorney so designated by the Regular Member. Such authorization may be in writing or by means of electronic transmission to the person who will be the holder of the proxy, provided that such electronic transmission must either set forth or be submitted with information from which it can be determined that the electronic transmission was authorized by the Member representative.

6.10.3 Effective Period. An appointment of a proxy is effective when received by the Secretary or other officer or agent authorized to tabulate votes. An appointment is valid for the next regular or specially scheduled meeting or ballot by electronic transmission. However, a proxy is not valid for more than sixty (60) days from its date of execution.

6.10.4 Revocation. An appointment of a proxy is revocable by a Regular Member. Appointment of a proxy is revoked by the person appointing the proxy either by open declaration at a meeting or by signing and delivering a revocation in writing or by electronic transmission to the Secretary or other officer or agent authorized to tabulate proxy votes. This may be done either in a statement that the appointment of the proxy is revoked or by a subsequent appointment that shall serve to cancel all prior proxies.

Section 6.11. Public Notice of Member Meetings. Notice to the public of the dates, times and places of meetings of the Members, and all nonconfidential material provided to the Members, shall be posted on the Corporation's website at approximately the same time that notice is given to the Members. Meetings of the Members shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the meeting may be held in or adjourn to closed session to discuss matters of a confidential nature, including, but not limited to, personnel matters, compliance and enforcement matters, litigation or commercially sensitive or critical infrastructure information of a Member or other Person.

Section 6.12. Posting of Minutes. Minutes of meetings of Members shall be posted on the Corporation's website when available.

Section 6.13. Reimbursement of Member Expenses. The Corporation will be under no obligation to reimburse Members for expenses associated with their attendance at regular or special Member meetings.

ARTICLE VII. BOARD OF DIRECTORS

Section 7.1. General. The composition of the Board and the terms of office of the directors, the manner of their nomination, election or appointment, and other terms and conditions of their service, shall be as provided in the Certificate of Incorporation and these Bylaws if not inconsistent therewith.

Section 7.2. Management of Corporation. The business of the Corporation shall be managed under the direction of the Board. Specific functions of the Board shall include, but not be limited to:

- (a) govern the Corporation and oversee all of its activities;
- (b) establish and oversee all organizational groups;
- (c) approve, revise and enforce Reliability Standards utilizing a fair, open, balanced and inclusive process;
- (d) establish compliance monitoring procedures and requirements, and penalties and sanctions for non-compliance consistent with applicable NERC Rules;
- (e) impose penalties and sanctions consistent with the NERC Rules and the procedures approved by the Board;
- (f) establish and approve an annual budget for submission to NERC;
- (g) hire the Corporation's president and approve his or her salary;
- (h) annually at the first regular Board meeting following the annual meeting of Members, elect a Chair ("Chair") and a vice-chair from among the directors on the Board; and
- (i) establish Board committees as appropriate.

Section 7.3. Voting. Each director shall have one vote with respect to decisions of the Board.

Section 7.4. Composition of the Board.

- (a) The Board shall consist of fourteen (14) or fifteen (15) directors which number shall be established from time to time by resolution of the Board,

which resolution shall in no event have the effect of terminating the term of any incumbent director.

(b) Eight directors shall be elected by the Industry Sectors as follows:

- (i) Suppliers shall elect two (2) directors;
- (ii) Transmission Companies shall elect two (2) directors;
- (iii) RTOs shall select one (1) director;
- (iv) Small LSEs shall elect one (1) director;
- (v) Medium LSEs shall elect one (1) director; and
- (vi) Large LSEs shall elect one (1) director.

(c) Three (3) directors shall be at-large. At-large directors shall be elected by all of the Industry Sectors voting together as a single class.

(d) Three (3) directors, if the Board consists of fourteen (14) directors, and four (4) directors, if the Board consists of fifteen (15) directors, shall be independent from the Corporation and any Member or any Affiliate or Related Party of any Member. Independent directors shall be elected by all of the Industry Sectors voting together as a single class.

(e) Industry Sectors shall elect their respective sector and at-large directors from among individuals holding senior management positions in Member organizations. Any sector-elected or at-large director whose Member organization changes Industry Sectors or who ceases to hold a senior management position in a Member organization shall continue to serve out his or her remaining term, unless such director resigns or is removed. When selecting at-large directors, Industry Sectors shall consider such factors as the geographic and functional representation of the Board. No two directors may be employees of a single Member or any Affiliate or Related Party of a Member or any Affiliate.

(f) An independent director is a person (i) who is not an officer or employee of the Corporation, an officer, director, or employee of a Member, or an officer, director or employee of any entity that would reasonably be perceived as having a direct financial interest in the outcome the Board's decisions, or (ii) who does not have a relationship that would interfere with the exercise of independent judgment in carry out the responsibilities of a director. The Board may adopt additional standards for director independence not inconsistent herewith.

(g) At-large and independent directors shall be nominated by the nominating and governance committee of the Board. The nominating and governance committee shall seek out for nomination independent directors from diverse backgrounds, who will contribute to the effective functioning of the Board and the Corporation by bringing a broad range of industry expertise, viewpoints,

experiences, skill sets and knowledge. If an incumbent independent director is not re-nominated, the nominating and governance committee will use reasonable efforts to ensure that diverse candidates are in the pool of potential nominees for the open independent director position and may retain an independent consultant to identify individuals qualified and willing to serve as an independent director.

(h) Any director which the full Board has determined has a conflict of interest on any compliance or enforcement matter brought before the Board shall not vote on such matter and shall recuse himself or herself from all Board deliberations concerning such matter.

(i) There will be no alternates or proxies for directors.

Section 7.5. Terms of Directors. The directors will be divided into three classes. The number of directors in each class shall be as nearly equal as possible. The term of office of the first class will expire at the second annual meeting of Members; the term of office of the second class will expire one year thereafter; and the term of office of the third class two years thereafter. At each annual meeting of Members, directors shall be chosen for a three year term to succeed those whose term expires. No two at-large directors and no two directors of the same Industry Sector shall be in the same class. At least one (1) independent director shall be in each class. Each director shall hold office until (a) the expiration of the term for which he or she was elected and until his or her successor is elected and qualified, or (b) his or her earlier death, resignation or removal. Any director may be removed at any time by the affirmative vote of two-thirds of the Industry Sector or Industry Sectors, as applicable, electing such director. A director may be removed by the Board for non-attendance at three consecutive Board meetings.

Section 7.6. Reimbursement. Independent directors shall have the right to reimbursement by the Corporation of their actual reasonable travel expenses to Board meetings or when specifically selected to represent the Corporation at a business meeting. The directors elected by the Industry Sectors and the at-large directors shall not be reimbursed by the Corporation for any expenses, unless specifically approved in advance by resolution of the Board.

Section 7.7. Resignations; Vacancies.

(a) Resignations. A director may resign at any time from the Board upon notice given in writing or by electronic transmission to the Corporation. Such resignation shall take effect at the time of its receipt by the Corporation.

(b) Vacancies. If an Industry Sector or at-large director resigns, dies or otherwise becomes incapacitated or is removed during the term of office for which elected, the directorship shall thereupon be vacant and shall be filled by the Industry Sector or Industry Sectors, as applicable, by written or electronic ballot in accordance with the procedures and requirements set forth above. The successor director elected by the Industry Sector shall hold office for the unexpired term of the vacated directorship replaced. If an independent director resigns, dies or otherwise becomes incapacitated or is removed during the term

of office for which elected or ceases to be independent, as determined by the Board, his or her directorship shall thereupon be vacant and may be filled by the Board until the next annual meeting of Members, at which time a permanent successor shall be elected by the Industry Sectors for the remainder of the unexpired term. Upon an increase in the number of directors on the Board in accordance with Section 7.4(a) of these Bylaws, the independent directorship created thereby may be filled by resolution of the Board and any independent director so chosen shall hold office until the next annual meeting of Members, at which time a permanent successor shall be elected by the Industry Sectors for the remainder of such director's unexpired term.

Section 7.8. Meetings; Notice; Waiver.

(a) Meetings. An annual meeting of the Board shall be held without notice immediately following the annual meeting of the Members. The Board shall elect the Chair and Vice-Chair for the next year at the annual meeting. In addition, regular meetings may be held at such time or times as fixed by the Board. Special meetings of the Board may be called by the Board's Chair, the President or by any three directors and shall be held at the principal office of the Corporation, or such other place within the Region as determined by the Chair or the President after consultation with the Board.

(b) Notice. Notice of the dates, times, and places of all regular and special meetings of the Board shall be published by the Secretary and provided to all directors and Members not less than three (3) days prior to the date of the meeting. Notice shall be deemed given by the Corporation to directors and the Members when (a) posted on the Corporation's public website in a reasonably prominent location, and (b) sent by mail, facsimile or reputable overnight delivery service or by electronic transmission to each director and each Member's representative authorized pursuant to Section 6.10.1.

(c) Waiver. Any person entitled to notice of a regular or special meeting of the Board may waive notice thereof. A waiver of notice by a person entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing or by attendance. Attendance by a director at a meeting of the Board is a waiver of notice of that meeting, unless the director objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened, or objects before a vote on an item of business because the item may not lawfully be considered at that meeting and does not participate in the consideration of the item at that meeting.

Section 7.9. Quorum. For the Board to take action at a meeting, a quorum of directors must be present. A quorum is a majority of the directors then in office, provided that: (a) if there are three or four independent directors holding office, two independent directors must be present to constitute a quorum, or (b) if there are two independent directors holding office, one independent director must be present to constitute a quorum. If there is only one independent director or no independent directors holding office, there is no requirement that an independent director be present

in order for the Board to have a quorum. In the absence of a quorum, a majority of the directors present may adjourn a meeting, without notice, except as may be given at such meeting, until a quorum is present.

Section 7.10. Board Action. The act of a majority of the directors present at a meeting at which a quorum is present shall be the act of the Board, unless the act of a greater number is required by law or these Bylaws.

Section 7.11. Action Without a Meeting. Any action required or permitted to be taken at any meeting of the Board or any committee thereof may be taken without a meeting if all members of the Board or committee, as the case may be, consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceeding of the Board or the committee. Any nonconfidential material provided to the Board or a committee in connection with such action shall be posted on the Corporation's website at approximately the same time that it is given to the Board or the committee. The results of all actions taken by the Board or any committee thereof without a meeting shall be promptly posted on the Corporation's website.

Section 7.12. Action by Electronic Communication. A conference among directors by a means of communication through which the directors may simultaneously hear each other during the conference is a Board meeting if the same notice is given of the conference as would be required for a meeting and if the number of directors participating in the conference is a quorum. Participation in a meeting by this means constitutes personal presence at the meeting. A director may participate in a Board meeting by any means of communication through which the director, other directors participating, and all directors physically present at the meeting may simultaneously communicate with each other during the meeting.

Section 7.13. Board Committees. The Board shall have an audit committee, compensation committee, nominating and governance committee and compliance committee, and such other committees the Board deems necessary and appropriate. Each committee shall be comprised of not less than three directors. The compliance committee shall be comprised of a minimum of five directors, a majority of whom are independent directors. All independent directors shall serve on the compliance committee. The Board may require that a minimum number of independent directors serve on any or all other Board committees. The Board shall have the power to appoint, and to delegate authority to, such other committees of the Board as it determines to be appropriate from time to time. The Board may require any committee to adopt a charter, subject to approval by the Board, governing the activities and authority of the committee and the composition of its members.

Section 7.14. Hearing Body. The Hearing Body shall consist of the Board compliance committee.

7.14.1 Quorum. For the Hearing Body to take action at a hearing, a quorum of members must be present. A quorum is a majority of members of the Hearing Body, provided that two independent directors are present. If a quorum of the Hearing Body does not remain after any recusals and rulings on motions for disqualification, the

compliance committee shall appoint a new member to the Hearing Body from among other directors to create a quorum, provided that the requirement that at least two independent directors are present for a quorum shall at all times continue to be met. Such new member shall serve on the Hearing Body for purposes of the subject hearing through the conclusion of the hearing but not thereafter.

7.14.2 Voting. Each Hearing Body member shall have one vote with respect to matters presented at a hearing. Action may be taken at a hearing at which a quorum is present upon the vote of the majority of members present.

Section 7.15. Public Notice of Board Meetings. Notice to the public of the dates, times and places of Board meetings, including committees thereof, and all nonconfidential material provided to the Board or the committees, shall be posted on the Corporation's website, and notice of Board and committee meetings shall be sent by electronic transmission to Members, at approximately the same time that notice is given to the Board or the committee, as the case may be. Board and committee Meetings shall be open to all Members and the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that any meeting may be held in or adjourn to closed session to discuss matters of a confidential nature, including, but not limited to, personnel matters, compliance and enforcement matters, litigation or commercially sensitive or critical infrastructure information of a Member or other Person.

Section 7.16. Posting of Minutes. Minutes of Board and committee meetings shall be posted on the Corporation's website when available.

Section 7.17. Compensation of Directors. The directors elected by the Industry Sectors and the at-large directors shall not receive compensation for their service to the Corporation as directors on the Board. The independent directors shall be entitled to such compensation as the Board may from time to time determine. Nothing contained in these Bylaws shall preclude any director from receiving compensation for services to the Corporation in any other capacity.

ARTICLE VIII. ORGANIZATIONAL GROUPS

Section 8.1. Establishment of Organizational Groups. The Board shall establish such organizational groups, consisting of committees, sub-committees, task forces and working groups of Members, as are necessary and appropriate to accomplish the purposes of the Corporation in an efficient and cost-effective manner. All organizational groups shall be subject to the direction and control of the Board. The membership of organizational groups shall be determined based upon experience, expertise and geographic diversity and to the extent practicable shall include balanced representation of the Industry Sectors. The Board shall establish policies and procedures governing the creation of organizational groups, how they are populated, how voting and related matters are conducted, how they may be reorganized and the direction and termination of such groups. The Board shall conduct a review of all

organizational groups of the Corporation on an annual basis to ensure that the business of the Corporation is conducted in an efficient, cost-effective manner.

Section 8.2. Reimbursement. The Board may authorize reimbursement for persons acting on behalf of the Corporation, as necessary in the interests of the Corporation.

ARTICLE IX. OFFICERS

Section 9.1. Officers. The officers of the Corporation shall include a President, one or more Vice Presidents, a Secretary, a Treasurer and any other officers as may be elected or appointed in accordance with the provisions of this Article. The Board may elect or appoint any additional officers that it deems desirable, such other officers to have the authority and perform the duties prescribed by the Board. The same individual may hold any number of offices, except that of President.

Section 9.2. Election and Term of Office. The officers of the Corporation shall be elected annually by the Board at the annual meeting of the Board. Each officer shall hold office at the pleasure of the Board. If the election of officers is not held at such meeting, such election shall be held as soon thereafter as is convenient. New officers may be created and the positions filled at any meeting of the Board. Each elected officer shall hold office until his or her successor has been duly elected and qualified or upon his or her earlier resignation or removal.

Section 9.3. Removal. Any officer elected by the Board may be removed by the affirmative vote of two-thirds (2/3) of the Board whenever in its judgment the best interests of the Corporation would be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the officer so removed. Election or appointment of an officer or agent shall not of itself create contract rights.

Section 9.4. Vacancies. A vacancy in any office because of death, incapacity, resignation, removal, disqualification, or otherwise, may be filled by the Board for the unexpired portion of the term.

Section 9.5. President. The President shall:

- (a) be the principal executive and operating officer of the Corporation;
- (b) sign certificates of membership, and may sign any deeds, mortgages, deeds of trust, notes, bonds, contracts or other instruments authorized by the Board to be executed, except in cases in which the signing and execution thereof shall be expressly delegated by the Board or by these Bylaws to some other officer or agent of the Corporation; and
- (c) perform all duties incident to the office of President, including hiring and directing staff, and such other duties as may be prescribed by the Board from time to time.

Section 9.6. Vice Presidents. The Vice President(s) shall perform such duties and have such powers as the Board or President may from time to time prescribe. At the request of the Board, the Vice President (or in the event there be more than one Vice President, the Vice Presidents in the order designated, or in the absence of any designation, then in the order of their election) shall perform the duties of the President, and when so acting, shall have all the powers of and be subject to all the restrictions upon the President.

Section 9.7. Secretary. The Secretary shall ensure that the following duties are carried out:

- (a) the minutes of the meetings of the Members and of the Board, and each committee thereof, are recorded;
- (b) all required notices are duly given in accordance with these Bylaws and as required by law;
- (c) a register of the current names and addresses of all Members is maintained and posted on the Corporation's website;
- (d) a complete copy of the Certificate of Incorporation and Bylaws of the Corporation containing all amendments thereto are kept on file at all times and posted on the Corporation's website, which copies shall always be open to the inspection of any Member; and
- (e) generally perform all duties incident to the office of Secretary and such other duties as may be prescribed by the Board from time to time.

Section 9.8. Treasurer. The Treasurer shall be responsible for the following activities:

- (a) maintain custody of all funds and securities of the Corporation;
- (b) receipt of and the issuance of receipts for all monies due and payable to the Corporation and for deposit of all such monies in the name of the Corporation in such bank or banks or financial institutions as shall be selected by the Board; and
- (c) generally perform all duties incident to the office of Treasurer and such other duties as may be prescribed by the Board from time to time.

ARTICLE X. CERTIFICATES OF MEMBERSHIP

Section 10.1. Certificates of Membership. The Board may, but need not, provide for the issuance of certificates evidencing membership in the Corporation, which certificates shall be in such form as may be determined by the Board.

ARTICLE XI.
BOOKS AND RECORDS

Section 11.1. Books and Records; Financial Statements. The Corporation shall keep at such office selected by the Board correct and complete copies of its Certificate of Incorporation and Bylaws, accounting records, and minutes of meetings of Members, Board, and committees having any of the authority of the Board. A Member, or the agent or attorney of a Member, may inspect all books and records for any proper purpose at any reasonable time. Upon request, the Corporation shall give the Member a statement showing the financial result of all operations and transactions affecting income and expenses during its last annual accounting period and a balance sheet containing a summary of its assets and liabilities as of the closing date of the accounting period.

ARTICLE XII.
FISCAL YEAR

Section 12.1. Fiscal Year. The fiscal year of the Corporation shall be the calendar year.

ARTICLE XIII.
TRANSFER OF ASSETS

Section 13.1. Member Approval Not Required. Subject to restrictions set forth in the Certificate of Incorporation, the Corporation, by affirmative vote of the Board, may sell, lease, transfer, or dispose of its property and assets in the usual and regular course of its activities and grant a security interest in all or substantially all of its property and assets in the usual and regular course of its activities, upon those terms and conditions and for those considerations, which may be money, securities, or other instruments for the payment of money or other property, as the Board considers expedient, in which case no Member approval is required.

Section 13.2. Member Approval Required. Subject to restrictions set forth in the Certificate of Incorporation, the Corporation may sell, lease, transfer, or dispose of all or substantially all of its property and assets, including its good will, not in the usual and regular course of its activities, upon those terms and conditions and for those considerations, which may be money, securities, or other instruments for the payment of money or other property, as the Board considers expedient only when approved at a regular or special meeting of the Members by the affirmative vote of two-thirds (2/3) of all the Members. Notice of the meeting must be given to the Members. The notice must state that a purpose of the meeting is to consider the sale, lease, transfer, or other disposition of all or substantially all of the property and assets of the Corporation.

ARTICLE XIV.
CONTRACTS, CHECKS, DEPOSITS, AND GIFTS

Section 14.1. Contracts. The Board may authorize any officer or officers or agent or agents of the Corporation, in addition to the officers so authorized by these Bylaws, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or may be confined to specific instances.

Section 14.2. Checks, Drafts, or Orders. All checks, drafts, or orders for the payment of money, notes, or other evidences of indebtedness issued in the name of the Corporation, may be signed by such officer or officers or agent or agents of the Corporation, and in such manner, as shall from time to time be determined by resolution of the Board.

Section 14.3. Deposits. All funds of the Corporation shall be deposited to the credit of the Corporation in such banks, trust companies, or other depositories as the Board may select.

Section 14.4. Gifts. The Board may accept on behalf of the Corporation any contribution, gift, bequest, or devise for any purpose of the Corporation.

ARTICLE XV.
INSURANCE, LIMITATION ON LIABILITY AND INDEMNIFICATION

Section 15.1. Insurance. The President is authorized to procure insurance to protect the Corporation against damages arising out of or related to any directive, order, procedure, action or requirement of the Corporation.

Section 15.2. Limitations on Liability. As provided in Article Fourteenth of the Certificate of Incorporation, a director of the Corporation shall not be personally liable to the Corporation or its Members for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its Members, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the Delaware General Corporation Law or (iv) for any transaction from which the director derived any improper personal benefit. If the Delaware General Corporation Law is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the Delaware General Corporation Law, as so amended. Any repeal or modification of Article Fifteenth of these Bylaws by the Members of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.

Section 15.3. Right to Indemnification.

15.3.1 Indemnified Persons. Each person who was or is made a party or is threatened to be made a party to or is involved in or called as a witness in any Proceeding because he or she is an Indemnified Person shall be indemnified and held

harmless by the Corporation to the fullest extent permitted under the Delaware General Corporation Law (the “DGCL”), as the same now exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than the DGCL permitted the Corporation to provide prior to such amendment). Such indemnification shall cover all expenses incurred by an Indemnified Person (including, but not limited to, attorneys’ fees and other expenses of litigation) and all liabilities and losses (including, but not limited to, judgments, fines, ERISA or other excise taxes or penalties and amounts paid or to be paid in settlement) incurred by such person in connection therewith.

15.3.2 Denial of Authorization for Certain Proceedings. Notwithstanding anything to the contrary in this Section 15.3, except with respect to indemnification of Indemnified Persons specified in paragraph 15.3.3 of this Section 15.3, the Corporation shall indemnify an Indemnified Person in connection with a Proceeding (or part thereof) initiated by such person only if authorization for such Proceeding (or part thereof) was not denied by the Board of the Corporation prior to the earlier of 60 days after receipt of notice thereof from such Indemnified Person.

15.3.3 Certain Defined Terms. For purposes of this Section 15.3, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the terms defined):

(1) a “Proceeding” is any investigation, action, suit or proceeding, whether civil, criminal, administrative or investigative, and any appeal therefrom.

(2) an “Indemnified Person” is a person who is, was, or had agreed to become a Director of the Corporation (including, in the case of such person seeking indemnification while serving as a Director who is or was an officer of the Corporation, such person in his capacity as an officer.)

15.3.4 Expenses. Expenses, including attorneys’ fees, incurred by a person indemnified pursuant to paragraph 15.3.1 in defending or otherwise being involved in a Proceeding shall be paid by the Corporation in advance of the final disposition of such Proceeding, including any appeal therefrom, upon receipt of an undertaking (the “Undertaking”) by or on behalf of such person to repay such amount if it shall ultimately be determined that he or she is not entitled to be indemnified by the Corporation; provided that in connection with a Proceeding (or part thereof) initiated by such person, except a Proceeding authorized by paragraph 15.3.5, the Corporation shall pay said expenses in advance of final disposition only if authorization for such Proceeding (or part thereof) was not denied by the Board of the Corporation prior to the earlier of 60 days after receipt of a request for such advancement accompanied by the Undertaking. A person to whom expenses are advanced pursuant hereto shall not be obligated to repay such expenses until the final determination of any pending Proceeding in a court of competent jurisdiction concerning the right of such person to be indemnified or the obligation of such person to repay such expenses.

15.3.5 Protection of Rights. If a claim by an Indemnified Person under paragraph 15.3.1 is not promptly paid in full by the Corporation after a written claim has been

received by the Corporation or if expenses pursuant to paragraph 15.3.4 have not been promptly advanced after a written request for such advancement by an Indemnified Person (accompanied by the Undertaking required by paragraph 15.3.4) has been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim or the advancement of expenses. If successful, in whole or in part, in such suit, such claimant shall also be entitled to be paid the reasonable expense thereof. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending any Proceeding in advance of its final disposition where the Undertaking has been tendered to the Corporation that indemnification of the claimant is prohibited by law, but the burden of proving such defense shall be on the Corporation. Neither the failure of the Corporation (including the Board, independent legal counsel, or the Members) to have made a determination, if required, prior to the commencement of such action that indemnification of the claimant is proper in the circumstances, nor an actual determination by the Corporation (including the Board, independent legal counsel, or the Members) that indemnification of the claimant is prohibited, shall be a defense to the action or create a presumption that indemnification of the claimant is prohibited.

15.3.6 Miscellaneous.

(a) Non-Exclusivity of Rights. The rights conferred on any person by this Section 15.3 shall not be exclusive of any other rights which such person may have or hereafter acquire under any statute, provision of the Certificate of Incorporation, Bylaw, agreement, vote of Members or disinterested directors or otherwise. The Board shall have the authority, by resolution, to provide for such other indemnification of directors, and such indemnification of officers, delegates, employees, agents, or others of the Corporation as it shall deem appropriate.

(b) Insurance, contracts, and funding. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee, delegate or agent of the Corporation against any expenses, liabilities or losses, whether or not the Corporation would have the power to indemnify such person against such expenses, liabilities or losses under the DGCL. The Corporation may enter into contracts with any director, officer, or employee of the Corporation in furtherance of the provisions of this Section 15.3 and may create a trust fund, grant a security interest or use other means (including, without limitation, a letter of credit) to ensure the payment of such amounts as may be necessary to effect the advancing of expenses and indemnification as provided in such contracts or as otherwise provided in this Section 15.3.

(c) Contractual nature. The provisions of this Section 15.3 shall continue as to a person who has ceased to be a director and shall inure to the benefit of the heirs, executors and administrators of such person. This Section 15.3 shall be deemed to be a contract between the Corporation and each person who, at any time that this Section 15.3 is in effect, serves or agrees to serve in any capacity which entitles him to indemnification and advancement of expenses hereunder and any repeal or other modification of this Section 15.3 or any repeal

or modification of the DGCL or any other applicable law shall not limit any rights of indemnification for Proceedings then existing or arising out of events, acts or omissions occurring prior to such repeal or modification, including, without limitation, the right to indemnification and advancement of expenses for Proceedings commenced after such repeal or modification to enforce this Section 15.3 with regard to Proceedings arising out of acts, omissions or events arising prior to such repeal or modification.

(d) Cooperation. Each Indemnified Person shall cooperate with the person, persons or entity making the determination with respect to such Indemnified Person's entitlement to indemnification under this Section 15.3, including providing to such person, persons or entity upon reasonable advance request any documentation or information which is not privileged or otherwise protected from disclosure and which is reasonably available to such Indemnified Person and reasonably necessary to such determination. Any costs or expenses (including attorneys' fees and disbursements) incurred by such Indemnified Person in so cooperating with the person, persons or entity making such determination shall be borne by the Corporation (irrespective of the determination as to such Indemnified Person's entitlement to indemnification) and the Corporation hereby indemnifies and agrees to hold such Indemnified Person harmless therefrom.

(e) Subrogation. In the event of any payment under this Section 15.3 to an Indemnified Person, the Corporation shall be subrogated to the extent of such payment to all of the rights of recovery of such Indemnified Person, who shall execute all papers required and take all action necessary to secure such rights, including execution of such documents as are necessary to enable the Corporation to bring suit to enforce such rights.

(f) Severability. If this Section 15.3 or any portion hereof shall be invalidated or held to be unenforceable on any ground by any court of competent jurisdiction, the decision of which shall not have been reversed on appeal, this Section 15.3 shall be deemed to be modified to the minimum extent necessary to avoid a violation of law and, as so modified, this Section 15.3 and the remaining provisions hereof shall remain valid and enforceable in accordance with their terms to the fullest extent permitted by law.

ARTICLE XVI. TRANSITION

Section 16.1. Transition Standards. The Corporation will use the existing standards, criteria, rules or guides from each existing reliability council region for those Members that join the Corporation as in effect immediately prior to formation of the Corporation until such standards, criteria, rules or guides are adopted, superseded, or rejected by the Corporation. The Corporation will establish any necessary transition committees, subcommittees, working groups or task forces to administer the existing regional reliability standards, criteria, rules and guides until they are adopted, superseded, or rejected by the Corporation. The Corporation will employ its best

efforts, within two (2) years of its formation, to work toward a uniform set of Reliability Standards for the entire Region. The Board will develop and implement a standards process and a plan for transition to new Reliability Standards. This process will include a requirement that two-thirds of the directors present at a meeting must vote to adopt new Reliability Standards.

ARTICLE XVII.
PARTICIPATION BY REGULATORY PARTICIPANTS

Section 17.1. Regulatory Participants. All Regulatory Participants shall be entitled to and be provided with the same rights to notice of and participation in meetings or other activities of the Corporation as are provided to Members, but shall not have the right to vote.

ARTICLE XVIII.
BUDGET AND BUSINESS PLAN

Section 18.1. Budget and Business Plan. Each annual budget and business plan of the Corporation shall be approved by the Board in sufficient time in each fiscal year to allow for timely submittal of the approved annual budget and business plan to NERC in accordance with the NERC Rules. The Corporation shall post a draft of each budget and business plan on the Corporation's website for purposes of review and comment by the Members at least ten (10) days prior to the Board meeting at which the budget and business plan are to be approved.

ARTICLE XIX.
AMENDMENT OF BYLAWS

Section 19.1. Amendment Of Bylaws. The power to adopt, amend or repeal these Bylaws is vested in the Members as set forth in Section 6.6.3 of these Bylaws; provided, however, that upon the passage of any federal electric reliability legislation, and/or the adoption of any rules or regulations of the Commission, NERC or other governmental entity with jurisdiction, the Board shall have authority to amend these Bylaws as necessary and appropriate to comply with such law, legislation, rules and regulations.

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth the Regional Entity's standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA [add reference to any applicable authorities in Canada and Mexico]. No regional reliability standard shall be effective within the [Regional Entity Name] area unless filed by NERC with FERC [and applicable authorities in Canada and Mexico] and approved by FERC [and applicable authorities in Canada and Mexico].

COMMON ATTRIBUTE 2

[Regional Entity Name] regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A [Regional Entity Name] reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

[Regional Entity Name] regional reliability standards, when approved by FERC [add applicable authorities in Canada], shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the [Regional Entity Name] area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of [Regional Entity Name], or group within [Regional Entity Name] shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the [Regional Entity Name] area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

[Standards or other named] committee — The [Regional Entity Name] [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the [Regional Entity Name] board on standards presented for adoption.

COMMON ATTRIBUTE 6

[Alternative 6A: For a Regional Entity that chooses to vote using a balanced stakeholder committee.]

The [standards] committee is a balanced stakeholder committee, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. [The [standards] committee votes to approve standards.] See Appendix A for the representation model of the [standards] committee.

[Alternative 6B: For a Regional Entity that chooses to vote using a balanced ballot body of stakeholders.]

[Registered ballot body] — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with [Regional Entity Name] as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.]

COMMON ATTRIBUTE 7

[Regional Entity Name] will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the [Regional Entity Name] and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within [no greater than 60] days of receipt of a completed standard request, the [standards] committee shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The [standards] committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The [standards] committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The [standards] committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the [standards] committee rejects a standard request, a written explanation for rejection will be delivered to the requester within [no greater than 30] days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the [standards] committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the [standards] committee.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the [Regional Entity Name] website within [no greater than 30] days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the [Regional Entity Name] website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day comment period. The standards process manager shall provide notice to [Regional Entity Name] stakeholders and other potentially interested entities, both within and outside of the [Regional Entity Name] area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the [Regional Entity Name] website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the [Regional Entity Name] [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

[Alternative 17A: For an RE that chooses to vote using a balanced stakeholder committee.]

The [standards] committee shall give due consideration to the work of the drafting team, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard for submittal to the [Regional Entity Name] board. The [standards]

committee may vote to approve or not approve the standard. Alternatively, the [standards] committee may remand the standard to the drafting team for further work or form a new drafting team for that purpose.

[Alternative 17B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

The [Regional Entity Name] registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.

COMMON ATTRIBUTE 18

[Alternative 18A: For an RE that chooses to vote using a balanced stakeholder committee.]

The [standards] committee may not itself modify the standard without issuing a new notice to stakeholders regarding a vote of the modified standard.

[Alternative 18B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

All members of [Regional Entity Name] are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively: Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]

COMMON ATTRIBUTE 19

[Alternative 19A: For an RE that chooses to vote using a balanced stakeholder committee.]

Actions by the committee shall be recorded in the regular minutes of the committee.

[Alternative 19B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%] of the members of the [registered ballot body/ballot pool] submitted a ballot.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC [and applicable authorities in Canada and Mexico.]

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the [Regional Entity Name] bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in [Regional Entity Name], and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the [Regional Entity Name] members and others.

COMMON ATTRIBUTE 23

- **Balanced** - The [Regional Entity Name] standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the [Regional Entity Name] area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire [Regional Entity Name] area, then a clear identification of the portion of the bulk power system to which the standard applies.</p> <p>Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
----------------------	--

COMMON ATTRIBUTE 33

Measure(s)	<p>Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.</p>
-------------------	---

COMMON ATTRIBUTE 34

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none"> • The specific data or information that is required to measure performance or outcomes. • The entity that is responsible for providing the data or information for measuring performance or outcomes. • The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes. • The entity that is responsible for evaluating data or
--------------------------------------	---

	<p>information to assess performance or outcomes.</p> <ul style="list-style-type: none">• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Reliability*First* Corporation Reliability Standards Development Procedure

Introduction

This procedure establishes the process for adoption of a Regional Reliability Standard¹ (hereinafter referred to as “Standard”) of the Reliability*First* Corporation (Reliability*First*) and the development of consensus for adoption, approval, revision, reaffirmation, and deletion of such Standards¹. Reliability*First* Standards provide for the reliable regional and sub-regional planning and operation of the Bulk Power System² (BPS), consistent with Good Utility Practice² within the Reliability*First* geographical footprint.

This procedure was developed under the direction of the Reliability*First* Board of Directors (Board), who may request changes to this Reliability*First* Reliability Standards Development Procedure (hereinafter referred to as “this Procedure”) as deemed appropriate. A procedure for revising this Procedure is contained in Appendix A. This Procedure is consistent with the North American Electric Reliability Council (NERC) Reliability Standards Development Procedure.

Proposed Standards shall be subject to approval by NERC, as the electric reliability organization, and by the Federal Energy Regulatory Commission (FERC) before becoming mandatory and enforceable under Section 215 of the FPA. No Standard shall be effective within the Reliability*First* area unless filed by NERC with FERC and approved by FERC.

Reliability*First* Standards shall provide for as much uniformity as possible with NERC reliability standards across the interconnected BPS. A Reliability*First* Standard shall be more stringent than a NERC reliability standard, including a regional difference that addresses matters that the NERC reliability standard does not, or shall be a regional difference necessitated by a physical difference in the BPS. A Reliability*First* Standard that satisfies the statutory and regulatory criteria for approval of proposed NERC reliability standards, and that is more stringent than a NERC reliability standard, would generally be acceptable.

Reliability*First* Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable BPS owners, operators, and users within the Reliability*First* area, regardless of membership in the region.

¹ Legacy standards, such as ECAR Documents, MAIN Guides, and MAAC Procedures shall be considered Reliability*First* Regional Reliability Standards for the purposes of this document until otherwise acted upon by the Reliability*First* Board

² As defined in the Reliability*First* By-laws Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Background

Regions may develop, through their own processes, separate “Regional Standards” (Reliability*First* Standards) that go beyond, add detail to, or implement NERC reliability standards, or otherwise address issues that are not addressed in NERC reliability standards.

As a condition of Reliability*First* membership, all Reliability*First* Members² agree to adhere to the NERC reliability standards. As such, the Reliability*First* and its Members will adhere to the NERC reliability standards in addition to the Reliability*First* Standards. NERC reliability standards and the Reliability*First* Standards are both to be included within the Reliability*First* Compliance Program.

Reliability*First* Standards are intended to apply only to that part of the Eastern Interconnection within the Reliability*First* geographical footprint. The development of these Reliability*First* Standards is developed according to the following principles via the process contained within this Procedure:

- Developed in a fair and open process that provided an opportunity for all interested parties to participate;
- Does not have an adverse impact on commerce that is not necessary for reliability;
- Provides a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and would not have a significant adverse impact on reliability; and
- Based on a justifiable difference between Regions or between sub-Regions within the Regional geographic area.

² As defined in the Reliability*First* By-laws
Board Approval December 6th, 2007
Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Regional Reliability Standard Definition, Characteristics, and Elements

Definition of a Reliability Standard

As contained in the ReliabilityFirst By-laws, ReliabilityFirst “Regional Reliability Standard” shall mean a type of Reliability Standard that is applicable only within a particular Regional Entity or group of Regional Entities. A Regional Reliability Standard may augment, add detail to, or implement another Reliability Standard or cover matters not addressed by other Reliability Standards. Regional Reliability Standards, upon adoption by NERC and approval by the Commission, shall be Reliability Standards and shall be enforced within the applicable Regional Entity or Regional Entities pursuant to delegated authorities.

Inherent in this definition, a ReliabilityFirst Standard will define certain obligations or requirements of entities that own, operate, plan, and use the BPS within the ReliabilityFirst geographical footprint. These obligations or requirements as contained in the ReliabilityFirst Standards are to be measurable consistent with Good Utility Practice. Standards are not to include processes or procedures that implement a Standard. In addition, obligations, requirements or procedures imposed upon ReliabilityFirst by NERC reliability standards are not to be ReliabilityFirst Standards, unless those obligations, requirements or procedures require the establishment of a “policy or standard” as defined by the ReliabilityFirst By-laws.

Characteristics of a Regional Reliability Standard

A Standard is policy or standard, including adequacy criteria to provide for the reliable regional and sub-regional planning and operation of the BPS, consistent with Good Utility Practice

A Standard shall generally have the following characteristics:

- **Measurable** - A Standard shall establish technical or performance requirements that can be practically measured.
- **Relative to NERC Reliability Standards** - A Standard generally must go beyond, add detail to, or implement NERC Reliability Standards, or cover matters not addressed in NERC Reliability Standards.

Format Requirements of a Regional Reliability Standard

A Standard shall consist of the format requirements shown in the Regional Reliability Standard Template. These requirements apply to the development and revision of Standards. These requirements are necessary to achieve Standards that are measurable,

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

enforceable, and consistent. Supporting documents to aid in the implementation of a Standard may be referenced by the Standard but are not part of the Standard itself.

Regional Reliability Standard Format Requirement Template

Identification Number	A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference ReliabilityFirst documentation.
Title	A brief, descriptive phrase identifying the topic of the Standard.
Applicability	Clear identification of the functional classes of entities responsible for complying with the Standard, noting any specific additions or exceptions. If not applicable to the entire ReliabilityFirst area, then a clear identification of the portion of the BPS to which the Standard applies. Any limitation on the applicability of the Standard based on electric facility requirements should be described.
Effective Date and Status	The effective date of the Standard or, prior to approval of the Standard, the proposed effective date.
Purpose	The purpose of the Standard. The purpose shall explicitly state what outcome will be achieved or is expected by this Standard.
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.

Risk Factor(s)	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to BPS instability, separation, or a cascading sequence of failures, or could place the BPS at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to BPS instability, separation, or a cascading sequence of failures, or could place the BPS at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to abnormal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the BPS, or the ability to effectively monitor and control the BPS, but is unlikely to lead to BPS instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the BPS, or the ability to effectively monitor, control, or restore the BPS, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to BPS instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p> <p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the BPS, or the ability to effectively monitor and control the BPS; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the BPS, or the ability to effectively monitor, control, or restore the BPS.</p>
Measure(s)	<p>Each requirement shall be addressed by one or more measurements. Measurements that will be used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measurement identifies to whom the measurement applies. Each measurement shall be tangible, practical, and as objective as is practical. Achieving the full compliance level of each measurement should be a necessary and sufficient indicator that the requirement was met.</p>

Compliance Administration Elements

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Compliance Monitoring Process	Defines for each measure: <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible to provide the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.• Violation severity levels.
--------------------------------------	--

Supporting Information Elements

Interpretations	Any Reliability <i>First</i> interpretations of the Standards that were developed, and approved in accordance with the “Interpretation of Standards” section of this Procedure, to expound on the application of the Standard for unusual or unique situations or provide clarifications.
Implementation Plan	Each Reliability <i>First</i> Standard shall have an associated implementation plan describing the effective date of the Standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the Standard in the compliance program and other considerations in the initial use of the Standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	This section references related documents that support reasons for, or otherwise provide additional information related to the Standard Examples include, but are not limited to: <ul style="list-style-type: none"> • Glossary of Terms • Developmental history of the Standard and prior versions • Subcommittee(s) responsible for Standard • Notes pertaining to implementation or compliance • Standard references • Procedures/Practices • Training and/or Technical Reference

Roles in the Regional Reliability Standards Development Process

Process Roles

Originator - Any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the Reliability*First* BPS, is allowed to request a Standard be developed or an existing Standard is modified, or deleted, by creating a Standards Authorization Request (SAR). See Appendix B.

Board – The Reliability*First* Board shall act on any proposed Standard that has gone through the process contained in this Procedure. Once the Reliability*First* Board approves a Standard, compliance with the Standard will be enforced consistent with the By-laws and the terms of the Standard.

Standards Committee (SC) - The Reliability*First* SC will consider which requests for new or revised Standards shall be assigned for development (or existing Standards considered for deletion). The SC manages the Standards development process. The SC

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

will advise the ReliabilityFirst Board on Standards presented for adoption by the ReliabilityFirst Board.

Standards Process Manager (SPM) – A person or persons on the ReliabilityFirst staff assigned the task of ensuring that the development, revision or deletion of Standards is in accordance with this Procedure. The SPM works to ensure the integrity of the process and consistency of quality and completeness of the Standards. The SPM facilitates the administration of all actions contained in all steps in the process.

Standards Process Staff – Employees of the ReliabilityFirst that work with or for the SPM.

Interim Compliance Committee (ICC) – The ReliabilityFirst committee responsible for the administration of the ReliabilityFirst Compliance Program. The duties of this committee includes, but not limited to, providing inputs and comments during the standards development process to ensure the measures will be effective and other aspects of the Compliance Program can be practically implemented.

Standard Drafting Team (SDT) – Normally a team of technical experts, and typically includes a member of the ReliabilityFirst Standards staff and the Originator, assigned the task of developing a proposed Standard based upon an approved SAR using the Standard development process contained in this Procedure.

Ballot Body (BB) – The Ballot Body comprises all entities that qualify for one or more of the categories and are registered with ReliabilityFirst as potential ballot participants in the voting on standards. The categories of registration within the Ballot Body and the registration process are described in Appendix D.

Ballot Pool – The Ballot Pool is comprised of those members of the Ballot Body that register to vote for each particular standard that is up for vote. A separate Ballot Pool is established for each standard up for vote. Only individuals who have joined the Ballot Pool for that particular standard are eligible to vote on a standard.

Regional Reliability Standard Development Process (Flow chart of Process shown in Appendix C)

Assumptions and Prerequisites

The ReliabilityFirst Regional Reliability Standards Development Process has the following characteristics:

- **Fair due process** - The ReliabilityFirst standards development process shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

- **Openness** - Participation is open to all Organizations who are directly and materially affected by the Reliability*First* region BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in the Reliability*First*, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDTs are open to the Reliability*First* membership and to others.
- **Balanced** - The Reliability*First* standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.
- **Inclusive** - Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the BPS in the Reliability*First* area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.
- **Transparent** - All actions material to the development of Reliability*First* Standards shall be transparent. All standards development meetings shall be open and publicly noticed on Reliability*First*'s Web site.
- Does not unnecessarily delay development of the proposed Standard.

Note: The term “days” refers to calendar days.

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional BPS. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

While Reliability*First* Standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Reliability*First* Standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

ReliabilityFirst will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the ReliabilityFirst and NERC websites.

Step 1 - Development of a Standards Authorization Request (SAR) to Develop, Revise or Delete a Regional Reliability Standard

Any individual representing an organization (Originator) which is directly or materially impacted by the operation of the BPS within the geographical footprint of the ReliabilityFirst may request, via a submittal of a Standard Authorization Request (SAR) form, the development, modification, or deletion of a ReliabilityFirst Standard. Any such request shall be submitted to the ReliabilityFirst SPM, or his/her designee, or by another process as otherwise posted on the ReliabilityFirst website. The SAR form may be downloaded from the ReliabilityFirst website.

The SAR contains a description of the proposed Standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed Standard. The SPM will verify that the submitted SAR form has been adequately completed. The SPM may offer the Originator suggestions regarding changes and/or improvements to improve clarity and assist the ReliabilityFirst community to understand the Originator's intent and objectives. The Originator is free to accept or reject these suggestions. Within 15 days the SPM will electronically acknowledge receipt of the SAR.

The SPM will forward all adequately completed SARs to the ReliabilityFirst SC. Within 60 days of receipt of an adequately completed SAR, the SC shall determine the disposition of the SAR. The disposition decision and decision process shall use the normal "business rules and procedures" of the SC then in effect. The SC may take one of the following actions:

- Accept the SAR as a candidate for: development of a new Standard, revision of an existing Standard or deletion of an existing Standard. The SC may, in its sole discretion, expand or narrow the scope of the SAR under consideration. The SC shall prioritize the development of SARs as may be required based on the number of SARs under development at any time.
- Reject the SAR. If the SC rejects a SAR, a written explanation for rejection will be delivered to the Originator within 30 days of the decision.
- Remand the SAR back to the Originator for additional work. The SPM will make reasonable efforts to assist the Originator in addressing the deficiencies identified by the SC. The Originator may then resubmit the modified SAR using the process above. The Originator may choose to withdraw the SAR from further consideration prior to re-submittal to the SC

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Any SAR that is accepted by the SC for development of a Standard (or modification or deletion of an existing Standard) shall be posted for public viewing on the ReliabilityFirst website within no greater than 30 days of acceptance by the SC. The status of posted SARs will be publicly noted at regularly scheduled (appropriately two weeks) intervals.

Any documentation of the deliberations of the SC concerning SARs shall be made available according to the “ReliabilityFirst Standards Committee Governance” document then in effect.

The SC shall submit a written report to the ReliabilityFirst Board on a periodic basis (at least at every regularly scheduled ReliabilityFirst Board meeting) showing the status of all SARs that have been brought to the SC for consideration.

Step 2 – Formation of the Standard Drafting Team and Declaration of Milestone Date

Upon acceptance by the SC of a SAR for development of a new Standard (or modification or deletion of an existing Standard), the SC shall direct the SPM to develop a qualified balance slate for the SDT using the specific directions and preferences of the SC. The SPM will send out self-nomination forms to solicit SDT nominees. The SDT will consist of a group of people (members of ReliabilityFirst and, as appropriate, non-members) who collectively have the necessary technical expertise and work process skills. The SPM will recommend a slate of ad-hoc individuals or a preexisting task force, work group or similar for the SDT based upon the SC’s desired SDT capabilities.

The SC may also direct the SPM to designate an existing ReliabilityFirst committee (or subset thereof) as the SDT augmented by other persons as may be appropriate for the subject matter. The SC will insure that SDT membership includes all necessary administrative support. This support typically includes a ReliabilityFirst staff member and the Originator if he/she chooses to participate. The SC appoints the interim chair (should not be a staff person) of the SDT. The SDT will elect the permanent Chair and Vice-chair at its first meeting.

The SPM submits the proposed list of names of the SDT to the SC. The SC will either accept the recommendations of the SPM or modify the SDT slate, as it deems appropriate within 60 days of accepting a SAR for development.

Upon approval of the SDT slate, the SC will declare a preliminary date on which the SDT is expected to have ready a completed draft Standard and associated supporting documentation available for consideration by the ReliabilityFirst membership.

Step 3 – Work and Work Product of the Standard Drafting Team

The SDT will then develop a work plan for completing the Standard development work, including the establishment of milestones for completing critical elements of the work in sufficient detail to ensure that the SDT will meet the date objective established by the SC

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

or the SDT shall propose an alternative date. This plan is then delivered to the SC for its concurrence.

The SDT is to meet, either in person or via electronic means as necessary, establish sub-work teams (made up of members of the SDT) as necessary, and performs other activities to address the parameters of the SAR and the milestone date(s) established by the SC.

The work product of the SDT will consist of the following:

- A draft Standard consistent with the SAR on which it was based.
- An assessment of the impact of the SAR on neighboring regions, and appropriate input from the neighboring regions if the SAR is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Standard that will be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard.
- Technical reports, white papers and/or work papers that provide technical support for the draft Standard under consideration.
- Document the perceived reliability impact should the Standard be approved.

Upon completion of these tasks, the SDT submits these documents to the SC, which will verify that the proposed Standard is consistent with the SAR on which it was developed

The SDT regularly (at least once each month) informs the SC of its progress in meeting a timely completion of the draft Standard. The SDT may request of the SC scope changes of the SAR at any point in the Standard development process.

The SC may, at any time, exercise its authority over the Standards development process by directing the SDT to move to Step 4 and post for comment the current work product. If there are competing drafts, the SC may, at its sole discretion, have posted the version(s) of the draft Standard for comment on the *ReliabilityFirst* website. The SC may take this step at any time after a SDT has been commissioned to develop the Standard.

Step 4 – *Comment Posting Period*

At the direction from the SC, the SPM then facilitates the posting of the draft Standard on the *ReliabilityFirst* website, along with a draft implementation plan and supporting documents, for a 30-day comment period. The SPM shall also inform *ReliabilityFirst* Members and other potentially interested entities inside or outside of *ReliabilityFirst* of the posting using typical membership communication procedures then currently in effect or by other means as deemed appropriate. As early as the start of the first posting for comment, entities may join one of the five categories of the Ballot Pool established for the eventual voting on the proposed standard being posted. The Ballot Pool category description and associated requirements are in Appendix D.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Within 30 days of the conclusion of 30-day comment posting period the SDT shall convene and consider changes to the draft Standard, the implementation plan and/or supporting technical documents based upon comments received. Based upon these comments, the SDT may elect to return to step 3 to revise the draft Standard, implementation plan and/or supporting technical documentation.

The SDT shall prepare a “modification report” summarizing the comments received and the changes made as a result of these comments. The modification report also summarizes comments that were rejected by the SDT and the reason(s) that these comments were rejected, in part or whole. Responses to all comments will be posted on the ReliabilityFirst website no later than the next posting of the proposed Standard.

Step 5 – Posting for Voting by ReliabilityFirst Registered Ballot Body

Upon recommendation of the SDT, and if the SC concurs that all of the requirements for development of the Standard have been met, the SPM will post the revised draft Standard, implementation plan, supporting technical documentation and the “modification report”. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

Entities may register in the BB at any time during the Standards process. The BB category description and associated rules are in Appendix D.

By 11:59 PM Central Prevailing Time (CPT) of the seventh day of the 15 day pre ballot posting period, registered BB entities intending to vote on the proposed standard must have joined one of the five categories of the Ballot Pool established for the eventual voting on the proposed standard being posted. The SPM will schedule a Vote by the Ballot Pool which is to be scheduled to commence no sooner than 15 days and no later than 30 days following this posting. The Vote by the Ballot Pool is an advisory to the ReliabilityFirst Board.

The Ballot Pool shall be allowed to vote over a period of 15 days. It is expected that votes will be submitted electronically, but may be submitted through other means as approved by the SC.

All entities registered as part of the BB are eligible to participate in voting on proposed new Standards, Standard revisions or Standard deletions. There is a requirement to separately join a Ballot Pool to participate in voting for each standard. Each entity can join only in one category of the Ballot Pool and shall have one vote.

The voting results will be composed of only the votes from BB entities that have joined the Ballot Pool for the standard being voted on and responding within the 15 day voting period. Votes may be accompanied by comments explaining the vote, but are not required. All comments shall be responded to and posted to the ReliabilityFirst website prior to going to the SC or Board.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Step 6A – Voting Receives Simple Majority of Affirmative Category Votes

A simple majority³ of votes within a category determines the vote for that category. If there is a simple affirmative majority of category votes (only those categories with votes cast will be considered) during the 15-day voting period and a quorum is met (a quorum consists of a simple majority of individuals who have joined the Ballot Pool), the SC will forward the Standard to the Reliability*First* Board for action (Step 7).

Step 6B – Voting Does Not Receive Simple Majority of Affirmative Category Votes or a Quorum is Not Met

If a draft Standard does not receive a simple affirmative majority of votes determined for each category (only those categories with votes cast will be considered) during the 15-day voting period or a quorum is not met during the 15-day voting period, the SC may:

- Direct the existing SDT to reconsider or modify certain aspects of the draft Standard and/or implementation plan. The resulting draft Standard and/or implementation plan will be posted for a second voting period. The SC may require a second comment period prior to the second voting period. The second posting of the draft Standard, implementation plan, and supporting documentation shall be within 60 days of the SC action.
 - If there is a simple affirmative majority of categories with votes cast and a quorum is met during the second voting period, the SC will forward it to the Reliability*First* Board for action (Step 7).
 - If a draft Standard does not receive a simple majority of affirmative category votes cast during the second voting period or a quorum is not met, the SC will refer the draft Standard and implementation plan to the Reliability*First* Board. The SC may also submit an assessment, opinion and recommendations to the Reliability*First* Board (Step 7).
- Revise the SAR on which the draft Standard was based and remand the development work back to the original SDT or a newly appointed SDT. The resulting draft Standard and/or implementation plan will be posted for a second voting period. The SC may require a second comment period prior to a second voting period. The second posting of the draft Standard, implementation plan, and supporting documentation shall be within 60 days of the SC action.
 - If there is a simple affirmative majority of categories with votes cast during the second voting period and a quorum is met, the SC will forward it to the Reliability*First* Board for action (Step 7).

³ For the purposes of determining majority within a category, an abstention is not considered a vote.
Board Approval December 6th, 2007
Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008
Page 14 of 31

- If a draft Standard does not receive a simple majority of affirmative category votes cast during the second voting period or a quorum is not met, the SC will refer the draft Standard and implementation plan to the *ReliabilityFirst* Board. The SC may also submit an assessment, opinion and recommendations to the *ReliabilityFirst* Board (Step 7).
- Recommend termination of all work on the development of the Standard action under consideration and so notify the *ReliabilityFirst* Board.

Step 7 – Action by the ReliabilityFirst Board

A draft Standard submitted to the *ReliabilityFirst* Board for action must be publicly posted at least 30 days prior to action by the Board. At a regular or special meeting, the *ReliabilityFirst* Board shall consider adoption of the draft Standard. The Board will consider the results of the voting and dissenting opinions. The Board will consider any advice offered by the SC.

Draft Standards that received a simple affirmative majority of categories with votes cast shall be delivered to the *ReliabilityFirst* Board for their action. The *ReliabilityFirst* Board shall be provided with an “informational package” which includes:

- The draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommending field testing and effective dates)
- Technical Documentation supporting the draft Standard
- A summary of the vote and summary of the comments and responses that accompanied the votes.

The *ReliabilityFirst* Board is expected to either:

- Approve the draft Standard action with only minor or no modification. Under no circumstances may the Board substantively modify the proposed regional reliability standard.
- Remand to the SC with comments and instructions, or
- Disapprove the draft Standard action without recourse.

Draft Standards that did not receive a simple affirmative majority of categories with votes cast in the second voting period shall be delivered to the *ReliabilityFirst* Board for their action. The *ReliabilityFirst* Board shall be provided with an “informational package”.

The *ReliabilityFirst* Board is expected to either:

- Approve the draft Standard action with only minor or no modification. Under no circumstances may the Board substantively modify the proposed regional reliability standard.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

- Remand to the SC with comments and instructions, or
- Disapprove the draft Standard action without recourse.

Once a regional Reliability*First* Standard is approved by the Board, the standard will be submitted to NERC for approval and filing with FERC.

Step 8 - Implementation of a Regional Reliability Standard

Upon approval of a draft Standard action by FERC, the SPM will notify the membership of the effective date through the normal and customary membership communication procedures and processes then in effect. The SPM will also notify the Reliability*First* Compliance Staff for integration into the Reliability*First* Compliance Program.

Appendix A

Maintenance of Regional Reliability Standards Development Process

Significant changes to this Procedure shall begin with the preparation of a SAR and be handled using the same procedure as a request to add, modify, or delete a Standard.

The Reliability*First* SC has the authority to make ‘minor’ changes to this Procedure as deemed appropriate by the SC and subject to the SC voting practices and procedures according to the “Reliability*First* Standards Committee Governance” document then in effect. The SC shall promptly notify the Reliability*First* Board of such ‘minor’ changes to this Procedure for their review and concurrence at the next Reliability*First* Board meeting.

Maintenance of Regional Reliability Standards

The SC shall ensure that each Standard shall be reviewed at least once every five years from the effective date of the Standard or the latest revision to the Standard, whichever is the later. The review process shall be conducted by soliciting comments from the stakeholders. If no changes are warranted, the SC shall recommend to the Reliability*First* Board that the Standard be reaffirmed. If the review indicates a need to revise or delete a Standard, a SAR shall be prepared and submitted in accordance with the standards development process contained in this Procedure.

Urgent Action

Under certain conditions, the SC may designate a proposed Standard or revision to a Standard as requiring urgent action. Urgent action may be appropriate when a delay in implementing a proposed Standard or revision could materially impact reliability of the BPS. The SC must use its judgment carefully to ensure an urgent action is truly necessary and not simply an expedient way to change or implement a Standard.

A requester prepares a SAR and a draft of the proposed Standard and submits both to the SPM. The SAR must include a justification for urgent action. The SPM submits the request to the SC for its consideration. If the SC designates the requested Standard or revision as an urgent action item, then the SPM shall immediately post the draft for pre-ballot review. This posting requires a minimum 30-day posting period before the ballot and applies the same voting procedure as detailed in Step 5. Processing will continue as outlined in the subsequent steps. In the event additional drafting is required, a SDT will be assembled as outlined in the Procedure.

Any Standard approved as an urgent action shall have a termination date specified that shall not exceed one year from the approval date. Should there be a need to make the Standard permanent, then the Standard would be required to go through the full Standard

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

development process. All urgent action Standards require ReliabilityFirst Board, NERC and FERC approval, as outlined for Standards in the regular process.

Urgent actions that expire may be renewed using the urgent action process again, in the event a permanent Standard is not adopted. In determining whether to authorize an urgent action Standard for a renewal ballot, the SC shall consider the impact of the Standard on the reliability of the BPS and whether expeditious progress is being made toward a permanent replacement Standard. The SC shall not authorize a renewal ballot if there is insufficient progress toward adopting a permanent replacement Standard or if the SC lacks confidence that a reasonable completion date is achievable. The intent is to ensure that an urgent action Standard does not in effect take on a degree of permanence due to the lack of an expeditious effort to develop a permanent replacement Standard. With these principles, there is no predetermined limit on the number of times an urgent action may be renewed. However, each urgent action Standard renewal shall be effective only upon approval by the ReliabilityFirst Board, NERC and FERC.

Any person or entity, including the SDT working on a permanent replacement Standard, may at any time submit a SAR proposing that an urgent action Standard become a permanent Standard by following the full Standards process.

Interpretations of Standards

All persons who are directly and materially affected by the reliability of ReliabilityFirst BPS shall be permitted to request an interpretation of the standard. The person requesting an interpretation will send a request to the SPM explaining the specific circumstances surrounding the request and what clarifications are required as applied to those circumstances. The request should indicate the material impact to the requesting party or others caused by the lack of clarity or a possibly incorrect interpretation of the standard.

The SPM, along with guidance from the SC, will assemble a team with the relevant expertise to address the request. The Interpretation Drafting Team (IDT) typically consists of members from the original SDT. The SPM submits the proposed list of names of the IDT to the SC. The SC will either accept the recommendations of the SPM or modify the IDT slate.

As soon as practical (not more than 45 days), the team will draft a written interpretation to the standard addressing the issues raised. Once the IDT has completed a draft interpretation to the Standard addressing only the issues raised, the team will forward the draft interpretation to the SPM. The SPM will forward the draft interpretation to the Interim Compliance Committee (ICC). The ICC is to assess if the inclusion of the interpretation lessens the measurability of the Standard. In addition, the SPM will forward the interpretation to the Reliability Committee (RC). Barring receipt of an opinion from either the ICC or RC within 21 calendar days, that the interpretation sufficiently lessens measurability or is not technically appropriate for the Standard, respectively, the SPM will forward the interpretation to the SC. The SC will determine if

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

the interpretation is consistent with the Standard. The SC will forward the interpretation to the Reliability *First* Board for informational purposes as being appended to the approved Standard.

Note: In the event that the ICC determines that measurability is lessened, the ICC shall provide an explanation of its reasoning to the SPM and IDT for inclusion in a subsequent revision. The RC shall in a similar manner provide an explanation of its reasoning if it determines that the interpretation makes the standard technically inappropriate. In either case, the IDT and SPM will continue to re-circulate the interpretation as stated above.

The interpretation will stand until such time as the standard is revised through the normal process, at which time the standard will be modified to incorporate the clarifications provided by the interpretation.

Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of a Standard shall have the right to appeal. This appeals process applies only to the Standards process as defined in this Procedure.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The final decisions of any appeal shall be documented in writing and made public.

The appeals process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in the appeals process. The appellant submits a complaint in writing to the SPM that describes the substantive or procedural action or inaction associated with a Standard or the standards process. The appellant describes in the complaint the actual or potential adverse impact to the appellant. Assisted by any necessary staff and committee resources, the SPM shall prepare a written response addressed to the appellant as soon as practical but not more than 45-days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the issue, both the complaint and response will be made a part of the public record associated with the standard.

Level 2 Appeal

Board Approval December 6th, 2007
Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

If after the Level 1 Appeal the appellant remains unsatisfied with the resolution, as indicated by the appellant in writing to the SPM, the SPM shall convene a Level 2 Appeals Panel. This panel shall consist of five members total appointed by the Reliability*First* Board.

In all cases, Level 2 Appeals Panel members shall have no direct affiliation with the participants in the appeal.

The SPM shall post the complaint and other relevant materials and provide at least 30-days notice of the meeting of the Level 2 Appeals Panel. In addition to the appellant, any person that is directly and materially affected by the substantive or procedural action or inaction referenced in the complaint shall be heard by the panel. The panel shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal. The panel may in its decision find for the appellant and remand the issue to the SC with a statement of the issues and facts in regard to which fair and equitable action was not taken. The panel may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections. The panel may not, however, revise, approve, disapprove, or adopt a reliability standard. The actions of the Level 2 Appeals Panel shall be publicly posted.

In addition to the foregoing, a procedural objection that has not been resolved may be submitted to the Reliability*First* Board for consideration at the time the Board decides whether to adopt a particular reliability standard. The objection must be in writing, signed by an officer of the objecting entity, and contain a concise statement of the relief requested and a clear demonstration of the facts that justify that relief. The objection must be filed no later than 30-days after the announcement of the vote on the Standard in question.

Appendix B

Standard Authorization Request

The SC shall be responsible for implementing and maintaining this form as needed to support the information requirements of the standards development process in this Procedure. Changes to this form are considered minor, and therefore subject to only the approval of the SC.

Purpose (Provide one or two sentences.)

Industry Need (Provide one or two sentences.)

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Brief Description (A few sentences or a paragraph.)

Reliability Functions

The Standard will Apply to the Following Functions (Check box for each one that applies.)

	Reliability Authority	Ensures the reliability of the bulk transmission system within its Reliability Authority area. This is the highest reliability authority.
	Balancing Authority	Integrates resource plans ahead of time, and maintains load-interchange-resource balance within its metered boundary and supports system frequency in real time
	Generator Owner	Owns and maintains generating units
	Interchange Authority	Authorizes valid and balanced Interchange Schedules
	Planning Authority	Plans the BPS
	Resource Planner	Develops a long-term (generally one year and beyond) plan for the resource adequacy of specific loads (customer demand and energy requirements) within a Planning Authority Area
	Transmission Planner	Develops a long-term (generally one year and beyond) plan for the reliability (adequacy) of the interconnected bulk electric transmission systems within its portion of the Planning Authority Area
	Transmission Service Provider	Provides transmission services to qualified market participants under applicable transmission service agreements
	Transmission Owner	Owns transmission facilities
	Transmission Operator	Operates and maintains the transmission facilities, and executes switching orders
	Distribution Provider	Provides and operates the “wires” between the transmission system and the customer

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

	Generator Operator	Operates generating unit(s) and performs the functions of supplying energy and Interconnected Operations Services
	Purchasing-Selling Entity	The function of purchasing or selling energy, capacity and all necessary Interconnected Operations Services as required
	Load-Serving Entity	Secures energy and transmission (and related generation services) to serve the end user
	Market Operator	Integrates energy, capacity, balancing, and transmission resources to achieve an economic, reliability-constrained dispatch of resources. The dispatch may be either cost-based or bid-based
	Regional Reliability Organizations	An entity that ensures that a defined area of the BPS is reliable, adequate and secure. A member of the North American Electric Reliability Council. The Regional Reliability Organization can serve as the Compliance Monitor

NOTE: The SDT may find it necessary to modify the initial reliability function responsibility assignment as a result of the standards development and comments received.

Reliability Principles

<i>Applicable Reliability Principles (Check box for all that apply.)</i>	
	1. Interconnected BPS shall be planned and operated in a coordinated manner to perform reliably under normal and abnormal conditions as defined in the NERC Standards.
	2. The frequency and voltage of interconnected BPS shall be controlled within defined limits through the balancing of real and reactive power supply and demand.
	3. Information necessary for the planning and operation of interconnected BPS shall be made available to those entities responsible for planning and operating the systems reliably.
	4. Plans for emergency operation and system restoration of interconnected BPS shall be developed, coordinated, maintained, and implemented.
	5. Facilities for communication, monitoring, and control shall be provided, used, and maintained for the reliability of interconnected BPS.
	6. Personnel responsible for planning and operating interconnected BPS shall be trained, qualified, and have the responsibility and authority to implement actions.
	7. The security of the interconnected BPS shall be assessed, monitored, and maintained on a wide-area basis.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Market Interface Principles

<i>Does the proposed Standard comply with all of the following Market Interface Principles?</i>	
Recognizing that reliability is an essential requirement of a robust North American economy:	
yes or no	1. A reliability standard shall not give any market participant an unfair competitive advantage.
yes or no	2. A reliability standard shall neither mandate nor prohibit any specific market structure.
yes or no	3. A reliability standard shall not preclude market solutions to achieving compliance with that standard.
yes or no	4. A reliability standard shall not require the public disclosure of commercially sensitive information. All market participants shall have equal opportunity to access commercially non-sensitive information that is required for compliance with reliability standards.

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Appendix C

Flowchart for Standards Process

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

Appendix D

Ballot Pool Categories

For the purposes of category Ballot Pool registration and voting, an entity shall register in only one of the following categories for each standard that will be voted on (only one vote is allowed per entity per vote):

Category 1 – Transmission Owner, Transmission Operator, Transmission Service Provider

Category 2 – Generator Owner, Generator Operator

Category 3 – Load Serving Entity, Purchasing and Selling Entity, End User

Category 4 – Reliability Coordinator, Planning Coordinator, Transmission Planner, Resource Planner, Regional Transmission Organization, Balancing Authority, regulatory or governmental agency

Category 5 – Distribution Provider

Ballot Body Registration

Entities may register in the BB at any time during the Standards process. The SPM shall review all applications for joining the BB, and make a determination of whether they qualify for the self-selection category(ies). In order to comment or vote you must have an active membership in the BB. When you submit your registration request to join the BB, you are placed in a “pending stage” until your account is activated. Activation of your account may take up to 24 hours. You will be unable to submit comments or join a Ballot Pool until your account is activated. The contact designated as primary representative to ReliabilityFirst is the voting member with the secondary contact as the backup.

Note: Registration for a BB is not the same as registration for the compliance registry. Although the terminology used to describe the BB categories in most cases has the same meaning as the terms used in the NERC Functional Model, registration in a BB goes beyond the compliance registry in that entities smaller than those stated in the compliance registry guidelines are allowed to register in a BB. Entities shall have evidence that they qualify for the BB category they register in. Such evidence shall be available for the SPM review to verify BB registration and may include compliance registration.

Ballot Pool Formation

Board Approval December 6th, 2007

Standards Committee Modified April 1st, 2008 - Board Concurrence May 22nd, 2008

In order to participate in voting on a particular standard, an entity must join the Ballot Pool being established for the standard as follows:

1 – As early as the start of the first posting for comment, entities may join one of the five categories of the Ballot Pool established for the eventual voting on the proposed standard being posted.

2 - By close of business of the seventh day of the 15 day pre ballot posting period, entities wishing to vote must have joined one of the five categories of the Ballot Pool established for the eventual voting on the proposed standard being posted.

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

~~[REGIONAL ENTITY]~~ReliabilityFirst will implement the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures), to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within ~~[REGIONAL ENTITY]~~ReliabilityFirst's geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

~~[REGIONAL ENTITY]~~ReliabilityFirst shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be either ~~[REGIONAL ENTITY]~~ReliabilityFirst's board or a balanced compliance panel reporting directly to ~~[REGIONAL ENTITY]~~ReliabilityFirst's board. ~~[REGIONAL ENTITY]~~ReliabilityFirst's hearing body is ~~[its board] [if not the board, insert the name of the committee or group serving as the hearing body]~~a composition of members of the ReliabilityFirst Compliance Committee as established by the Board of Directors of ReliabilityFirst as set out in the ReliabilityFirst Compliance Committee Charter. No two industry sectors may control any decision and no single segment may veto any matter brought before the Hearing Body either before or after any recusals or disqualifications.

~~[If the hearing body is a compliance panel other than the board, provide here a description of how the members of the compliance panel are selected and the qualifications to be selected for the compliance panel.]~~

~~[REGIONAL ENTITY]~~ReliabilityFirst shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any: ~~[Describe any deviations, or state "None". If there are deviations from the NERC pro forma Hearing Procedures, [REGIONAL ENTITY]'s Hearing Procedures shall be included as a separate attachment to this Exhibit D.]~~

3.0 OTHER DECISION-MAKING BODIES

~~If [Regional Entity] uses other decision-making bodies within its compliance program, provide here a description of the function of that body to the extent not described elsewhere in the Agreement or exhibits, how the members of that body are selected, and the qualifications to be selected for that body.]~~

None.

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

~~{Regional Entity}~~ReliabilityFirst shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) NERC and ~~{Regional Entity}~~ReliabilityFirst, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of ~~{Regional Entity}'s}~~ReliabilityFirst's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require ~~{Regional Entity}~~ReliabilityFirst (i) to submit to NERC draft(s) of ~~{Regional Entity}~~ReliabilityFirst's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by ~~{Regional Entity}~~ReliabilityFirst Board of Trustees to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of ~~{Regional Entity}~~ReliabilityFirst's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The ~~{Regional Entity}~~ReliabilityFirst business plan and budget submission shall include supporting materials, including ~~{Regional Entity}~~ReliabilityFirst's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. ~~{Regional Entity}~~ReliabilityFirst's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(b) NERC shall review and approve ~~{Regional Entity}~~ReliabilityFirst's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct ~~{Regional Entity}~~ReliabilityFirst to make such revisions as NERC deems appropriate prior to approval. NERC shall submit ~~{Regional Entity}~~ReliabilityFirst's approved business plan and budget and proposed assessments to the

Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of ~~[REGIONAL ENTITY]~~ReliabilityFirst's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. ~~[Regional Entity]~~ReliabilityFirst shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying ~~[Regional Entity's]~~ReliabilityFirst's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of ~~[Regional Entity's]~~ReliabilityFirst's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.

4. Collection of Funding

~~[IF NERC WILL BILL AND COLLECT ASSESSMENTS DIRECTLY FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):]~~

(a) NERC shall submit invoices to the load-serving entities or designees identified by ~~[Regional Entity]~~ReliabilityFirst covering the NERC and ~~[Regional Entity]~~ReliabilityFirst assessments approved for collection.

~~[IF THE REGIONAL ENTITY WILL ACT AS THE BILLING AND COLLECTION AGENT ON BEHALF OF NERC TO BILL AND COLLECT ASSESSMENTS FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):]~~

~~(a) NERC and [Regional Entity] agree that [Regional Entity] shall act as the billing and collection agent on behalf of NERC to bill and collect [Regional Entity]'s assessments from load-serving entities and designees (or such other entities as agreed by NERC and [Regional Entity]). [Regional Entity] agrees that it shall (i) issue all invoices to load-serving entities and other entities in a prompt and timely manner after receipt from NERC of the information needed to issue the invoices; (ii) exercise commercially reasonable efforts to collect invoices that are not paid as of the due date(s); and (iii) transfer all funds collected to NERC in a timely manner, as follows: Prior to the start of each calendar quarter, and once per week thereafter until all billings for the quarter are collected, [Regional Entity] will electronically transfer to NERC, in immediately available funds, all payments received by [Regional Entity] from load-serving entities or other entities for payment of invoices. On the same day that [Regional Entity] makes each electronic transfer of funds to NERC, [Regional Entity] shall send an e-mail to the Chief Financial Officer or Controller of NERC detailing the collections being transmitted, including a listing of the load-serving entities or~~

~~other entities from which payments were collected and the amount collected from each entity. [Note: If NERC and Regional Entity have a different collection and payment arrangement, the preceding two sentences will be modified accordingly to describe it.]~~

~~[Regional Entity] agrees that it shall not in any way use its position as billing and collection agent for NERC to attempt to influence NERC's policies or decisions on matters relating to adoption of Reliability Standards (including Regional Reliability Standards and Regional Variances), administration of the compliance monitoring and enforcement program and other compliance and enforcement matters, determination and imposition of penalties and sanctions, budgeting matters including review and approval of [Regional Entity's] budgets and business plans, or any other NERC decisions, including by issuing invoices, engaging in collection activities or transferring funds collected to NERC in an untimely manner or other than in accordance with this Agreement.~~

(b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, ~~[Regional Entity]~~ReliabilityFirst shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, ~~[Regional Entity]~~ReliabilityFirst is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within ~~[REGIONAL ENTITY]~~ReliabilityFirst's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within ~~[Regional Entity]~~ReliabilityFirst's region.

(c) Upon approval by ERO Governmental Authorities of ~~[Regional Entity]~~ReliabilityFirst's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay ~~[Regional Entity's]~~ReliabilityFirst's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by ~~[Regional Entity]~~ReliabilityFirst, other than penalty monies received from an operational function or division or affiliated entity of ~~[Regional Entity]~~ReliabilityFirst, shall be applied as a general offset to ~~[Regional Entity]~~ReliabilityFirst's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of ~~[Regional Entity]~~ReliabilityFirst shall be transmitted to or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.

6. Budget and Funding for ~~[Regional Entity]~~ReliabilityFirst's Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as “statutory activities”), ~~[Regional Entity]~~ReliabilityFirst performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"): ~~[List and describe all non-statutory activities performed by Regional Entity, or state “None”.]~~None

~~[Regional Entity]~~ReliabilityFirst shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions: ~~[List and describe the methods and procedures Regional Entity employs to keep costs and funding of statutory activities separate from costs and funding of non-statutory activities, including at a minimum a description of how Regional Entity’s bank accounts and receivables/payables procedures are set up for both statutory and non-statutory functions, a description of how Regional Entity ensures each employee involved in both statutory and non-statutory functions keeps accurate time records reflecting his/her activities, and a description of how Regional Entity’s general and administrative costs are allocated between statutory activities and non-statutory activities. If the necessary descriptions are lengthy they may be provided in a separate attachment labeled “Attachment E-1”, and state here “See Attachment E-1.”~~ ~~If Regional Entity has listed no non-statutory functions in the preceding paragraph, state here “Not applicable.”]~~

~~[Regional Entity]~~ReliabilityFirst shall provide its budget for such non-statutory activities to NERC at the same time that ~~[Regional Entity]~~ReliabilityFirst submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. ~~[Regional Entity's]~~ReliabilityFirst's budget for non-statutory activities that is provided to NERC shall contain a detailed list of ~~[Regional Entity's]~~ReliabilityFirst's non-statutory activities and a description of the funding sources for the non-statutory activities. ~~[Regional Entity]~~ReliabilityFirst agrees that no costs (which shall include a reasonable allocation of ~~[Regional Entity]~~ReliabilityFirst's general and administrative costs) of non-statutory activities are to be included in the calculation of ~~[Regional Entity's]~~ReliabilityFirst's assessments, dues, fees, and other charges for its statutory activities. Not applicable

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if ~~[Regional Entity]~~ReliabilityFirst determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, ~~[Regional Entity]~~ReliabilityFirst shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in ~~[Regional Entity]~~ReliabilityFirst's approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct ~~[Regional Entity]~~ReliabilityFirst to make such revisions as NERC deems appropriate prior to approval.

NERC shall submit ~~{Regional Entity}~~ReliabilityFirst's approved amended or supplemental business plan and budget and proposed supplemental assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by ~~{Regional Entity}~~ReliabilityFirst pursuant to Section 9(h) and (i) of the Agreement. ~~{Regional Entity}~~ReliabilityFirst shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

ATTACHMENT 5C

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

RELIABILITY*FIRST* CORPORATION

COMPLIANCE COMMITTEE CHARTER

COMPLIANCE COMMITTEE CHARTER

The Board of Directors of ReliabilityFirst Corporation ("ReliabilityFirst") has established a Compliance Committee (the "Committee") with the general responsibilities and specific duties as described below. Capitalized terms used herein and defined shall have the meanings set forth in the Bylaws of ReliabilityFirst.

COMPOSITION

The Committee shall be comprised of five (5) directors, three (3) of whom shall be independent directors according to independence standards established under the governance guidelines adopted by the Board. Committee members shall be elected by the Board at its annual meeting and shall serve until their successors are duly elected and qualified. The Committee shall have a chair and a vice chair. The vice chair shall assume the duties of the chair in the absence of the chair at any meeting. The Committee's chair and vice chair shall both be independent directors designated by the full Board upon the recommendation of the Nominating and Governance Committee.

RESPONSIBILITY

The primary purpose of the Committee will be to: (i) oversee the processes and procedures used by ReliabilityFirst to monitor compliance with and enforce Reliability Standards (including Regional Standards) in the Region, (ii) review and evaluate ReliabilityFirst's compliance and enforcement program, (iii) monitor the compliance and enforcement activities of ReliabilityFirst, and (iv) serve as the Hearing Body for disputes relating to noncompliance with Reliability Standards in accordance with ReliabilityFirst's hearing procedures.

ATTENDANCE AND VOTING

Members of the Committee should endeavor to be present, in person or by telephone, at all meetings; however, three (3) Committee members shall constitute a quorum, provided a majority of the members at a meeting are independent directors. Each member of the Committee, including the chair, shall be entitled to one vote on each matter presented before the Committee. Action by the Committee may be taken at any duly called meeting at which a quorum is present upon the vote of a majority of the members present.

MINUTES OF MEETINGS

Minutes of each meeting shall be prepared and sent to Committee members and presented to ReliabilityFirst Directors who are not members of

the Committee at the next regularly scheduled Board meeting. The Committee's minutes will be kept by the person so designated by the chair with a copy retained by the Secretary of ReliabilityFirst.

SPECIFIC DUTIES

The Committee will:

1. Review and evaluate ReliabilityFirst's compliance monitoring and enforcement program, including the hearing and settlement procedures included therein.
2. Recommend for adoption by the Board amendments to or modifications of the compliance monitoring and enforcement program as necessary or appropriate.
3. Review the status of the ReliabilityFirst compliance registry for Registered Entities in the Region.
4. Solicit, receive, and review on a regular basis information from the ReliabilityFirst compliance staff regarding: (i) compliance audits conducted by the compliance staff, (ii) self-certification and self-reporting by Registered Entities, (iii) complaints received by ReliabilityFirst alleging violations of Reliability Standards, and (iv) compliance violation investigations conducted by the compliance staff.
5. Act as the Hearing Body under the compliance monitoring and enforcement program's hearing procedures.
6. Oversee ReliabilityFirst's annual compliance implementation plan.
7. Review the sanctions and penalties imposed by the compliance staff in connection with violations of Reliability Standards.
8. Consider any input provided by Registered Entities on compliance issues and ReliabilityFirst's compliance and enforcement activities.
9. Review information from the compliance staff regarding significant compliance issues.
10. Perform other activities as requested by the Board.
11. Conduct an evaluation of the Committee's performance and charter at least annually, and adopt such Committee Charter changes, as the Committee deems appropriate, subject to approval by the Board
12. Report regularly to the Board regarding the Committee's activities.

APPOINTMENT OF ADVISORS

The Committee shall have the sole authority to retain, and approve the fees and other retention terms of, legal and other advisors, as it deems necessary for the fulfillment of its responsibilities.

ADOPTION AND APPROVAL

As adopted by the Compliance Committee and approved by the Board of Directors on February 25, 2010.

May 3, 2010

Mr. David Cook
Vice President & General Counsel
NERC
1120 G St. NW, Suite 990
Washington, DC 20005

Re: Revised SERC Reliability Corporation Regional Delegation Agreement

Dear David:

The SERC Reliability Corporation (SERC) Board of Directors passed the motion below regarding the Revised and Amended Regional Delegation Agreement during the April 28, 2010 SERC Board of Directors meeting:

The SERC Board of Directors approves the revised Delegation Agreement under the terms and conditions set forth therein and authorizes the SERC Board Executive Committee to make any necessary non-substantive changes and amendments.

Pursuant to your request, SERC is hereby providing the final SERC Regional Delegation Agreement to you for presentation to the NERC Board of Trustees.

Please do not hesitate to contact me with questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'T.J. Galloway', is written over a light blue horizontal line.

T.J. Galloway
Interim President and CEO

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND SERC RELIABILITY CORPORATION**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of [January 1, 2011], between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and SERC Reliability Corporation (“SERC”), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and SERC may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as SERC provided that:

(A) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, SERC is not organized on an Interconnection-wide basis and therefore is not entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through SERC to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that SERC meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and SERC, having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective

responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and SERC agree as follows:

1. **Definitions.** The capitalized terms used in this Agreement shall be defined as set forth in the Act, the ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) **Breach** means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) **Cross-Border Regional Entity** means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) **Delegated Authority** means the authority delegated by NERC to SERC to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. **Representations.**

(a) For purposes of its Delegated Authority, SERC hereby represents and warrants to NERC that:

(i) SERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. SERC is governed in accordance with its bylaws by a balanced stakeholder board. Pursuant to these bylaws, no two industry sectors can control any SERC decision and no single industry sector can veto any SERC decision. The relevant portions of such bylaws are attached hereto in **Exhibit B¹**, and as so attached are in full force and effect. No other such corporate governance documents are binding upon SERC.

(ii) As set forth in **Exhibit C** hereto², SERC has developed a standards development procedure, which provides the process that SERC may use to develop Regional Reliability Standards [and Regional Variances, if the regional entity is organized on an Interconnection-wide basis] that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, SERC has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within SERC's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to SERC that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. **Covenants.**

(a) During the term of this Agreement, SERC shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of SERC under this Agreement without first obtaining the consent of SERC, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and SERC

¹ The **Exhibit B** from SERC shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from SERC shall meet the requirements contained in **Exhibit C** to this Agreement.

shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. Delegation of Authority.

(a) Based upon the representations, warranties and covenants of SERC in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to SERC for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that SERC shall not monitor and enforce compliance with Reliability Standards for SERC or an affiliated entity with respect to reliability functions for which SERC or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to SERC within, or additions to this delegation of authority to SERC beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where SERC or an affiliated entity is a Registered Entity, SERC shall enter into an agreement with another Regional Entity or NERC for the other Regional Entity or NERC to monitor and enforce SERC's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit SERC from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both SERC and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, SERC shall comply with the applicable provisions of NERC's

Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, SERC shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords SERC reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards [and Regional Variances, if Regional Entity is organized on an Interconnection-wide basis] through SERC's process as set forth in **Exhibit C**. Proposals approved through SERC's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. SERC may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, SERC shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and SERC agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. SERC may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, SERC agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) SERC shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by SERC. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and SERC shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation,

or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by SERC of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review SERC's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by SERC in accordance with the NERC Rules of Procedure, NERC directives and Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by SERC and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. SERC may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of SERC's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board

Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by SERC as a result of a decision by SERC's Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) SERC shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) SERC shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, SERC shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review SERC's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

(j) SERC may also perform compliance monitoring and enforcement activities outside of the Region shown on **Exhibit A**, on behalf of NERC and/or other Regional Entities, such activities to be undertaken pursuant to a contract between SERC and each such other Regional Entity that is approved by NERC and by the Commission.

7. Delegation-Related Activities.

NERC will engage SERC on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. SERC shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by SERC and other Regional Entities. SERC shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. SERC shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. SERC shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by SERC and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. SERC shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and SERC shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, SERC shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. SERC may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) SERC shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) SERC shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of SERC's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and SERC that matters relating to NERC's oversight of SERC's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and SERC and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with SERC and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and

parameters), and performance reports, which shall be used to measure NERC's and SERC's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. SERC shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate SERC's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate SERC's performance of its delegated functions and related activities and to provide advice and direction to SERC on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, SERC and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, SERC shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of SERC's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring SERC to adopt and implement an action plan or other remedial action, NERC shall issue a notice to SERC of the need and basis for an action plan or other remedial action and provide an opportunity for SERC to submit a written response contesting NERC's evaluation of SERC's performance and the need for an action plan. SERC may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and SERC shall work collaboratively as needed in the development and implementation of SERC's action plan. A final action plan submitted by SERC to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to SERC standardized training and education programs, which shall be designed taking into account input from SERC and other Regional Entities, for SERC personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to SERC concerning the manner in which SERC shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a

collaborative process with SERC and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and SERC and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), SERC and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, SERC, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by SERC, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without SERC's agreement, *provided*, that SERC shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and SERC and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which SERC, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a

specific reason for maintaining particular guidance or directions as non-public. SERC, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with SERC, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of SERC performed by NERC shall be limited to an examination of SERC's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding.

SERC and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) SERC shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. SERC's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, SERC to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. SERC's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) SERC and NERC agree that the portion of SERC's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by SERC and approved by NERC and the Commission. If SERC proposes to use a formula other than Net Energy for Load beginning in the following year, SERC shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May

15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and SERC to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide SERC with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) SERC shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of SERC, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund SERC's performance of its Delegated Authority and related activities in accordance with SERC's Commission-approved business plan and budget, in the amount of SERC's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting SERC's approved assessments from end users and other entities and payment of the approved assessment amount to SERC, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon SERC that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without SERC's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and SERC fiscal year budget with the actual results at the NERC and Regional Entity levels. SERC shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts.

NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) SERC shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) SERC shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which SERC shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of SERC) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which SERC shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of SERC. *Provided*, that, subject to approval by NERC and the Commission, SERC may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment.

This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. SERC may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit SERC from contracting with other entities to assist it in carrying out its Delegated Authority, provided SERC retains control and responsibility for such Delegated Authority.

11. Default and Cure.

Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such

time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on [January 1, 2011] (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that SERC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If SERC meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that SERC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of SERC’s Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time SERC may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the

relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by SERC and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. SERC and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and SERC shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the SERC's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the SERC or NERC is found liable for gross negligence or intentional misconduct, in which case SERC or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other

directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of SERC under this Agreement without first obtaining the consent of SERC, which consent shall not be unreasonably withheld or delayed. To the extent SERC does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of SERC under this Agreement, SERC shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by SERC to NERC and the Commission, or at such other time as may be mutually agreed by SERC and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and SERC (including disputes relating to NERC's performance of its obligations under

this Agreement and/or disputes relating to SERC's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. SERC shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however,* that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice.

Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

If to NERC:

North American Electric
Reliability Corporation
116-390 Village Blvd.
Princeton, NJ 08540-5721
Attn: General Counsel
Facsimile: (609) 452-9550

If to SERC:

SERC Reliability Corporation
2815 Coliseum Centre Drive
Suite 500
Charlotte, NC 28217
Attn: President and CEO
Facsimile: (704) 357-7914

20. Governing Law.

When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or

primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings.

The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause.

Nothing in this Agreement shall be construed to preempt or limit any authority that SERC may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement.

This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts.

This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

SERC Regional Boundaries

Exhibit A to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

1.0 Regional Boundaries

The geographic boundaries of SERC Reliability Corporation (SERC) are determined by the service areas of its membership, comprised of investor-owned utilities, municipal, cooperative, state and federal systems, merchant electricity generators and power marketers.

SERC covers an area of approximately 560,000 square miles in sixteen states: all of Alabama, Georgia, Mississippi, North Carolina and South Carolina, and portions of Arkansas, Florida, Illinois, Iowa, Kentucky, Louisiana, Missouri, Oklahoma, Tennessee, Texas and Virginia.

Service provided by SERC members in areas which overlap with neighboring regions:

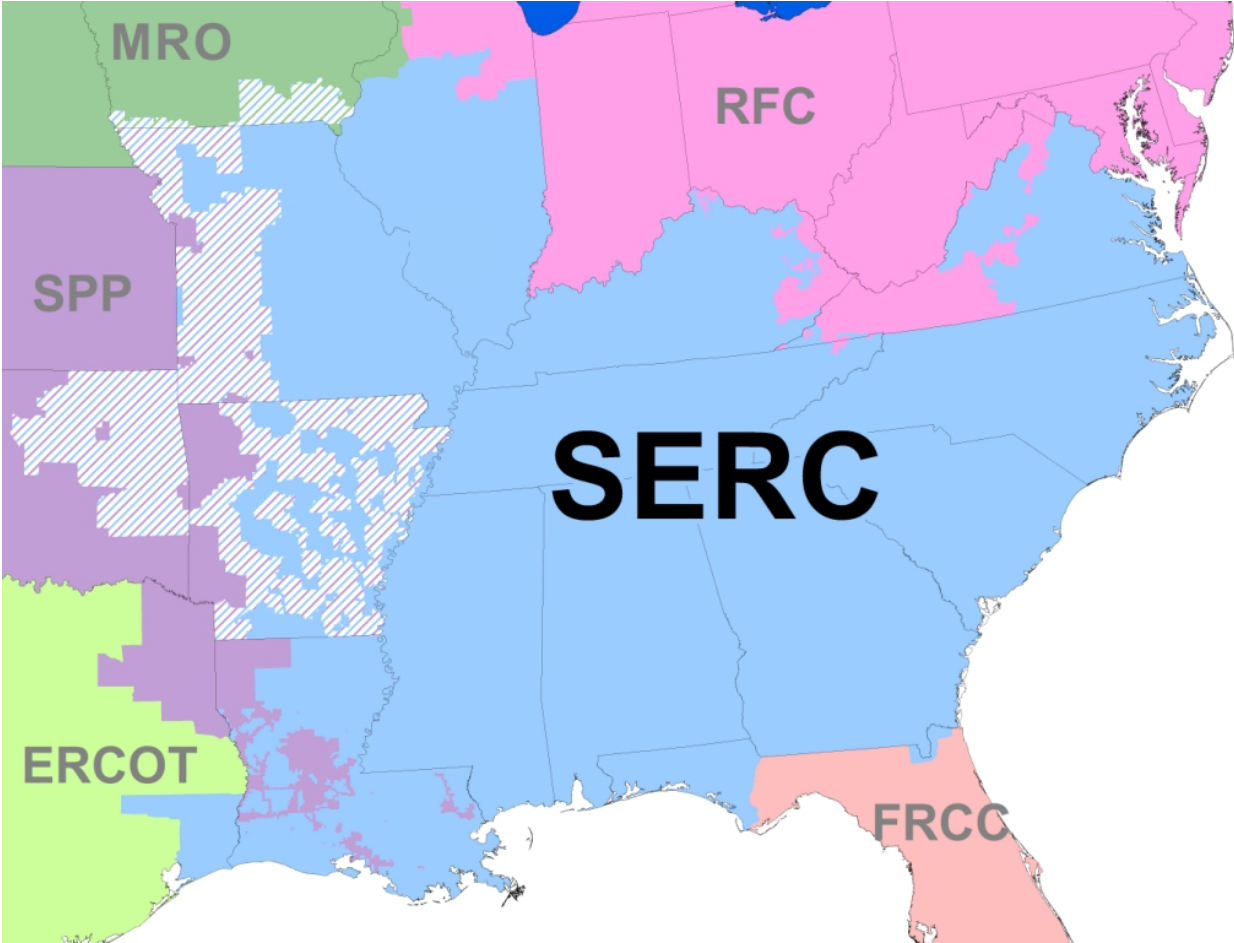

- The area in southern Iowa is served by N.E. Missouri Electric Power Cooperative, a member of Associated Electric Cooperative, Inc., and N.W. Electric Power Cooperative, a member of Associated Electric Cooperative, Inc.
- The area in eastern Oklahoma is served by KAMO Electric Cooperative, Inc., a member of Associated Electric Cooperative, Inc.
- The area in Arkansas is served by Entergy Arkansas.
- The area in western Missouri is served by N.W. Electric Power Cooperative, a member of Associated Electric Cooperative, Inc., and KAMO Electric Cooperative, Inc., a member of Associated Electric Cooperative, Inc.
- The area in N.E. Florida (part of Baker and Nassau counties) served by Okefenoke Rural Electric Membership Corporation (OREMC), a member of Georgia System Operations Corporation, and facilities physically located in Baker County, Florida owned by Georgia Transmission Corporation (GTC) are part of the SERC Region and not the FRCC Region.

A regional map is shown in Section 1.1.

SERC may also perform compliance and enforcement activities outside of the Region, on behalf of NERC and/or other Regional Entities, such activities to be undertaken pursuant to a contract between the Regional Entities that is approved by the Board Executive Committee, NERC and the Federal Energy Regulatory Commission.

SERC Governance

Exhibit B to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

Exhibit B – Governance

Exhibit B sets forth SERC Reliability Corporation's bylaws, which NERC agrees demonstrate that SERC meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

AMENDED AND RESTATED
BYLAWS
OF
SERC RELIABILITY CORPORATION
[Hereinafter referred to as the "Corporation"]
An Alabama Nonprofit Corporation

ARTICLE I
OFFICES

1.1 **Principal Office**. The principal office of the Corporation shall be located in the City of Charlotte, Mecklenburg County, North Carolina. The Board of Directors may by resolution change the location of this office from time to time.

1.2 **Other Offices**. The Corporation may have other offices, either within or outside of the State of Alabama, at such place or places as the Board of Directors may from time to time appoint or the business of the Corporation may require.

ARTICLE II
SEAL

2.1 **Seal**. The corporate seal shall be in circular form and shall have inscribed thereon the name of the Corporation, the words "Corporate Seal", and such other word or words, if any, as may be determined by the Board of Directors to be inscribed thereon.

ARTICLE III

MEMBERSHIP

3.1 **General.** The Corporation shall be a membership corporation. Members shall hereinafter be referred to collectively as "Members" or "Member Systems."

3.2 **Eligibility.** Membership in the Corporation is open to any entity that is a user, owner or operator of the Bulk-Power System and subject to the jurisdiction of the Federal Energy Regulatory Commission for the purpose of complying with Reliability Standards established under Section 215 of the Federal Power Act and all amendments thereto. Membership in the Corporation is voluntary; however, membership is predicated on mandatory acceptance of the responsibility to promote, support, and comply with Reliability Standards of the Corporation and the North American Electric Reliability Corporation ("NERC"), and to assist the Corporation in its compliance with the terms and provisions of a Delegation Agreement (a "Delegation Agreement") with NERC, by which NERC delegates authority to propose and enforce Reliability Standards, pursuant to 16 U.S.C. § 824n. For purposes of these Bylaws, the terms "Bulk-Power System," "Reliability Standards" and "Regional Entity" shall be as defined in 16 U.S.C. § 824n.

3.3 **Termination.** Members may cease to be a member of the Corporation by giving the Board of Directors at least 30 days written notice of their intention to cease such membership (such members shall hereinafter be referred to as "Terminated Members"). Terminated Members shall nevertheless continue to be liable for any and all obligations they may have had to pay of a share of the expenses of the Corporation incurred prior to the end of the calendar year in which such notice is given. In addition to termination of membership by the Member, the Board of Directors, following notice to the Member, may terminate the membership of a Member if in the judgment of the Board of Directors that Member has violated its obligations and responsibilities to the Corporation. This termination shall require a Bicameral Supermajority vote.

3.4 **Sectors.** Each Member and the Customer Representatives shall be classified by the Executive Committee in one of the following seven Sectors (each a "Sector", and collectively, the "Sectors"):

- (a) Investor-Owned Utility Sector – This Sector includes any investor-owned entity with substantial business interest in ownership and/or operation in any of the asset categories of generation, transmission or distribution.
- (b) Federal/State Sector – This Sector includes any U.S. federal entity that owns and/or operates electric facilities and/or provides balancing authority services, in any of the asset categories of generation, transmission, or distribution; or any entity that is owned by or subject to the governmental authority of a state and that is engaged in the generation, delivery, and/or sale of electric power to end use customers primarily with the political boundaries of the state.
- (c) Cooperative Sector – This Sector includes any non-governmental entity

that is incorporated under the laws of the state in which it operates, is owned by and provides electric service to end-use customers at cost, and is governed by a board of directors that is elected by the membership of the entity; and any non-governmental entity owned by and which provides generation and/or transmission service to such entities.

- (d) Municipal Sector – This Sector includes any entity owned by or subject to the governmental authority of a municipality, that is engaged in the generation, delivery, and/or sale of electric power to end-use customers primarily within the political boundaries of the municipality; and any entity, whose members are municipalities, formed under state law for the purpose of generating or purchasing electricity for sale at wholesale to their members.
- (e) Marketer Sector– This Sector includes any entity that is engaged in the activity of buying and selling of wholesale electric power in the Region on a physical or financial basis.
- (f) Merchant Electricity Generator Sector – This Sector includes any entity that owns or operates an electricity generating facility or provides balancing authority services for such entities. This includes, but is not limited to, small power producers and all other non-utility producers such as exempt wholesale generators who sell electricity at wholesale.
- (g) ISO-RTO/Customer Sector– This Sector includes (i) any entity that operates a FERC approved ISO or RTO and (ii) the Customer Representatives.

The Executive Committee's classification of a Member in a particular Sector may only be changed by the Executive Committee. For purposes of these bylaws, the term "Customer Representative" shall mean a person who represents an entity that receives service at retail and does not otherwise sell, purchase, or transmit power over the Bulk-Power System or own, operate or maintain, control or operate facilities or systems that are part of the Bulk-Power System.

3.5 **Transfer of Membership.** A Member may not give or otherwise transfer its membership, except to a successor that becomes a Member, and provided that the successor continues to meet its predecessor's obligations.

ARTICLE IV

PURPOSES

4.1 **General Purposes.** The purpose of the Corporation is to promote effective and efficient administration of Bulk-Power System reliability in the areas serviced by its Member Systems. In pursuant of this goal, the Corporation will:

- (a) enter into a Delegation Agreement to serve as a Regional Entity pursuant to 16 U.S.C. § 824n;
- (b) promote the development of reliability and adequacy arrangements among the systems within the Region;
- (c) participate in the establishment of Reliability Standards;
- (d) participate in the measurement of performance relative to these Reliability Standards;
- (e) promote conformance to and compliance with these Reliability Standards;
- (f) develop and exchange information with respect to planning and operating matters relating to the reliability and adequacy of the Bulk-Power System;
- (g) review as necessary activities within the Region on reliability and adequacy in order to meet Reliability Standards;
- (h) provide a mechanism to resolve disputes on reliability issues in a manner that meets the needs of the parties and the Region;
- (i) provide information with respect to matters considered by the Corporation, where appropriate, to the Federal Energy Regulatory Commission ("FERC") and to other federal and state agencies concerned with reliability and adequacy; and

4.2 **Geographic Area.** The Corporation accomplishes its purposes in a geographic area of approximately 560,000 square miles in a sixteen state area in the southeastern and central United States (the "Region"). The Region is currently geographically divided into five subregions that are identified as Southeastern, Central, VACAR, Delta, and Gateway. The number of subregions and the geographic area are subject to change upon approval of the Board of Directors.

4.3 **Other Statutory Activities.** The Corporation may also perform statutory functions outside of the Region, on behalf of NERC or other Regional Entities, such activities to be undertaken pursuant to a contract that is approved by the Board Executive Committee.

ARTICLE V

BOARD OF DIRECTORS

5.1 **General Powers.** The affairs of the Corporation shall be managed by its Board of Directors. Directors need not be residents of the State of Alabama.

5.2 **Number.** The Board of Directors shall consist of the principal officer or other authorized representative from each Member and shall also include two (2) Board of Director

positions for Customer Representatives. The Board shall consist of no fewer than three (3) directors and no more than one hundred (100) directors. The current number of directors shall be fifty-four (54). Each Director shall serve until otherwise replaced by the applicable Member.

5.3 **Regular Meetings of the Board.** Unless otherwise determined by the Chairman, a regular meeting of the Board of Directors shall be held without other notice than this bylaw on the fourth Wednesday in the months of April and October in each year, beginning with the year 2005. Notwithstanding the foregoing, the Chairman may elect to hold a regular semi-annual meeting of the Board of Directors on another date provided that the Board receives at least the (10) days' advance notice. If the day fixed for the meeting shall be a legal holiday in the State of Alabama, the meeting shall be held on the next succeeding business day. The Board of Directors may designate any place, either within or outside of the State of Alabama, as the place of meeting for any meeting. The Board of Directors may provide by resolution the time and place, either within or outside of the State of Alabama, for the holding of additional regular meetings of the Board without other notice than the resolution. Members of the Board of Directors or any committee designated thereby may participate in a meeting of such Board or committee by means of a telephone conference, webcast or any other communication by means of which all persons participating in the meeting can hear each other at the same time, and participation by such means shall constitute presence in person at such meeting.

5.4 **Special Meetings of the Board.** Special meetings of the Board of Directors may be called by or at the request of the Chairman, or by directors holding (20%) or more of the Individual Votes. The Chairman may fix any place, either within or outside of the State of Alabama, as the place for holding any special meeting of the Board.

5.5 **Notice of Special Meetings.** Notice of any special meeting of the Board of Directors shall be given at least two days previously by written notice delivered personally or sent by mail to each director at the address as shown by the records of the Corporation. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail in a sealed envelope so addressed, with postage prepaid. Any director may waive notice of any meeting. The attendance of a director at any meeting shall constitute a waiver of notice of such meeting, except where a director attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any special meeting of the board need be specified in the notice or waiver of notice of such meeting, unless specifically required by law or by these Bylaws.

5.6 **Election of Officers and Executive Committee.** Biennially, at the April meeting, the Board of Directors shall elect one of their directors to serve as Chairman, one as Vice Chairman, and one as Secretary-Treasurer, each for a term of two years. The Chairman shall conduct all meetings and shall be responsible for the preparation of the agenda. In the Chairman's absence, the Vice Chairman shall serve as Chairman. In the event that an officer cannot complete a term, a special election may be held. At the same time, the Board shall also approve members to the Executive Committee elected by the Sectors to serve for a period of two years. Each Sector may also elect alternate members to the Executive Committee, and, if a Sector has more than one member on the Executive Committee, such Sector shall designate the priority of succession by such alternates.

5.7 **Agenda.** As far in advance of each regular and special meeting as practical, an

agenda shall be distributed to each Board member and representative.

5.8 **Certain Definitions.**

(a) "Adjusted Weighted Vote" shall mean the number of votes of each director determined in the manner set forth in Section 5.9 hereof.

(b) "Bicameral Simple Majority" shall require the presence of a quorum and the (i) concurrence of directors whose combined Individual Votes are greater than fifty (50) percent of the total Individual Votes of all directors present at the meeting and entitled to vote on the issue (the "Individual Vote Test"), (ii) concurrence of directors whose combined Adjusted Weighted Votes are greater than fifty (50) percent of the total Adjusted Weighted Vote of all directors at the meeting and entitled to vote on the issue (the "Adjusted Weighted Vote Test"), and (iii) for at least one of the Individual Vote Test or the Adjusted Weighted Vote Test, on a individual Sector basis, the positive vote must outweigh the negative vote for at least three Sectors.

(c) "Bicameral Supermajority" shall require the presence of a quorum and the concurrence of (i) directors whose combined Individual Votes equal or exceed two-thirds of the total Individual Votes of all directors present at the meeting and entitled to vote on the issue, provided that a quorum is present, and (ii) directors whose combined Adjusted Weighted Votes are greater than two-thirds of the total Adjusted Weighted Vote of all directors present at the meeting and entitled to vote on the issue.

(d) "Individual Vote" shall mean a single vote accorded to each director.

(e) "Given Year" shall mean the applicable fiscal year for which the Adjusted Weighted Votes are calculated.

(f) "Reporting Year" shall mean the fiscal year immediately preceding the Given Year.

(g) "Previous Year" shall mean the fiscal year immediately preceding the Reporting Year.

5.9 **Determination of Adjusted Weighted Vote.** The directors' Adjusted Weighted Votes for a Given Year shall be determined by the following formula:

$$V = 10(1/N) + 30(B/C) + 30(D/E) + 30(F/G)$$

V = % of Adjusted Weighted Vote

N = total number of Members

B = Member's Previous Year internal peak demand

C = total of factor B for all Members

D = Member's owned generating capacity as of January 1 of the

Reporting Year

E = total of factor D for all Members

F = Member's sum of circuit miles of transmission times the respective operating voltage for facilities of 69 kV and above as of December 31 of the Previous Year

G = total of factor F for all Members

5.10 **Voting; Manner of Acting; Voting Rights; Quorum; Proxies.**

(a) Except for amendments to these Bylaws, which require approval by a Bicameral Supermajority, all other actions require approval by a Bicameral Simple Majority.

(b) Notwithstanding anything else in these Bylaws, a motion is still deemed to have passed if either (but not both) the Individual Vote Test or the Adjusted Weighted Vote Test is satisfied (such test that is not satisfied is referred to as the "Failed Test"), and, for purposes of the Failed Test, on an individual Sector basis, the positive votes outweigh the negative votes in every Sector but one.

(c) Members holding two-thirds of the Individual Votes shall constitute a quorum for action by the Board; but if directors holding less than two-thirds of the Individual Votes are present at the meeting, a majority of the directors present may adjourn the meeting from time to time without further notice.

(d) Any director may designate an alternate from that Member to represent the director at any meeting by written notification to the Corporation's office; however, directors may not otherwise use proxy votes.

(e) The intent of Section 5.8(b)(iii) and Section 5.10(b) is to ensure that no two Sectors should be able to control any decision and that a single Sector should not be able to veto any matter, respectively (other than amendments to these Bylaws). In the event that either of the foregoing shall nevertheless occur, the Members will promptly revise the provisions of these Bylaws so that no two Sectors will be able to control any decision and no single Sector will be able to veto any matter.

5.11 **Customer Representative Vacancies.** Should the Board of Directors, at any time, not include two Customer Representatives, the Board of Directors shall elect (or designate the Executive Committee to elect) additional representatives to fill such vacancies. The term of these Customer Representatives shall be for a two-year period.

5.12 **Compensation.** Directors as such shall not receive any stated salaries for their services.

5.13 **Informal Action by Directors.** Any action required by law to be taken at a meeting of directors, or any action which may be taken at a meeting of directors, may be taken without a meeting if a consent in writing, setting out the action so taken, shall be signed by all of the directors.

5.14 **Duties.** The duties of the Board of Directors shall include:

- (a) Periodically review the Reliability Standards with respect to matters affecting the reliability and adequacy of the Bulk-Power System power supply within the Region;
- (b) Manage the business and affairs of the Corporation;
- (c) Adopt rules, regulations and policies to implement and accomplish the purposes and provisions of these Bylaws, as necessary;
- (d) Recommend and approve any amendments to these Bylaws;
- (e) Exercise general supervision over such committees as may be established in accordance with Article VII and Article VIII of these Bylaws;
- (f) Consider any matters relating to the general administration of the Corporation proposed by any Member;
- (g) Form or dissolve committees, subcommittees, or task forces as it deems necessary to carry out the business of the Corporation;
- (h) Delegate appropriate duties or responsibilities to any committee established pursuant to these Bylaws;
- (i) Periodically establish and approve an annual budget and any revisions thereto;
- (j) Require that adequate bond be provided covering all officers, agents, employees charged by the Corporation with responsibility for the custody of any of its funds and property;
- (k) Have power to select one or more banks or other financial institutions to act as depositories of the funds of the Corporation;
- (l) Provide for the coordination of planning activities within the Corporation;
- (m) Provide for the coordination of interconnected system operations within the Corporation;
- (n) Provide for the coordination of critical infrastructure protection activities within the Corporation;
- (o) Provide for the Corporation's membership certification;
- (p) If the membership authorizes the use of the Corporation's employees, other than contract personnel, to conduct the administrative affairs of the Corporation, the Board shall set policies for selecting, compensating and

reviewing the performance of the employees; and

- (q) Resolve any disputes regarding the Members and the Corporation, if those issues cannot be resolved by the standing committees/subcommittees of the Corporation and are not otherwise subject to NERC's dispute provisions for non-compliance with Reliability Standards.

5.15 **Vacancies.** Any vacancy occurring in the Board of Directors shall be filled by the applicable Member, except for Customer Representative vacancies which shall be filled in accordance with Section 5.11.

ARTICLE VI

EXECUTIVE COMMITTEE / CORPORATE OFFICERS

6.1 **Executive Committee Voting Members.** The Executive Committee shall consist of the following twelve (12) voting members:

- (a) The Investor-Owned Utility Sector shall have three (3) representatives;
- (b) The Federal/State Sector shall have two (2) representatives;
- (c) The Cooperative Sector shall have two (2) representatives;
- (d) The Municipal Sector shall have two (2) representatives;
- (e) The Marketer Sector shall have one (1) representative;
- (f) The Merchant Electricity Generator Sector shall have one (1) representative; and
- (g) The ISO-RTO/Customer Sector shall have one (1) representative.

It is the desire of the Board of Directors that the Cooperative and Municipal sectors have representation from both transmission dependent and transmission owning Members. Each Sector will be responsible for nominating their representative(s) and alternates from among Board Members. The Chairman, Vice Chairman, and Secretary-Treasurer shall also be ex officio members of the Executive Committee, but shall not have voting rights (unless such Board officer is also elected by a Sector to the Executive Committee pursuant to Section 6.1(a)-6.1(g)). The Chairman will serve as chairman of the Executive Committee and shall conduct all meetings and shall be responsible for the preparation of the agenda. In the event that a member of the Executive Committee is unable to complete a term, the Sector's alternate representative will replace such member.

6.2 **Authority of Executive Committee.** Except as limited by Section 10-3A-38 of the Alabama Nonprofit Corporation Act, the Executive Committee is empowered to make such

decisions and take such actions as are deemed to be required between meetings of the Board of Directors to include reviewing and acting upon applications for membership in and resignations from the Corporation.

6.3 **Action.** Each voting member of the Executive Committee shall have one vote. The presence of three quarters of the members of the Executive Committee shall constitute a quorum. The positive vote of two-thirds of Executive Committee voting members present and voting is necessary to pass a particular action.

6.4 **Nominating Committee.** Biennially, the Executive Committee will appoint a Nominating Committee for the purpose of recommending individuals to serve as Officers of the Corporation. The Nominating Committee will report to the Board at the Board's April meeting.

6.5 **Corporate Officers.** The Executive Committee shall arrange for the services of a President/Chief Executive Officer, Vice President, Secretary and Treasurer of the Corporation. Two or more of such offices may be held by the same person, except for the offices of President/Chief Executive Officer and Secretary.

6.6 **President/Chief Executive Officer.** Under general direction, the President shall be the Chief Executive Officer of the Corporation and shall manage the operations of the Corporation to the end that its purposes will be accomplished. The Board Officers shall determine the compensation and benefits for the President and Chief Executive Officer. The President shall:

- (a) Attend all Board of Directors and standing committee meetings of the Corporation and NERC Stakeholder, Board of Trustees, and Standing Committee meetings, as these committees may change from time to time and as appropriate;
- (b) Assist and coordinate the preparation of testimony and reports;
- (c) Coordinate subregional activities and interregional affairs, to include data collection;
- (d) Install and maintain an adequate system of accounts and records;
- (e) Arrange for meetings as directed;
- (f) Assist the Corporation Committee Chairmen as appropriate;
- (g) Manage the business affairs of the Corporation, including the Corporation staff;
- (h) Maintain minutes of all the Corporation-related meetings; and
- (i) Provide other assistance to the Corporation and NERC, as appropriate.

6.7 **Vice President.** The Vice President shall perform such duties and exercise such powers as may be assigned to him from time to time by the Board of Directors, the Executive

Committee or the President. In the absence of the President, or in the case of the President's inability to act, the Vice President shall perform the duties and exercise the powers of the President, but subject to the control of the Board of Directors and the Executive Committee. The Board Officers shall determine the compensation and benefits of the Vice President.

6.8 **Secretary.** The Secretary shall be custodian of the records and of the seal of the Corporation and in general shall perform all duties incident to the office of Secretary and such other duties as may, from time to time, be assigned to him by the Board of Directors, the Executive Committee or the President.

6.9 **Treasurer.** The Treasurer shall have charge and custody of, and be responsible for, all funds and securities of the Corporation and deposit all such funds in the name of the Corporation in such banks, trust companies or other depositories as shall be selected in accordance with the provisions of these Bylaws; and in general, perform all of the duties incident to the office of Treasurer and such other duties as from time to time may be assigned to him by the Board of Directors, the Executive Committee or the President.

ARTICLE VII

COMPLIANCE COMMITTEE

7.1 **Authority of Committee.** The Corporation's Compliance Committee will be vested with the authority for the Corporation Compliance Program and granted the ability to impose penalties and sanctions on behalf of NERC. The Compliance Committee shall review violations known to the Corporation's Compliance Staff discovered from audits, compliance documentation, or any other source whether self-reported, alleged, or confirmed, for the most recent period. The Compliance Committee shall review and advise the Board on the progress of the Corporation and its members in mitigating confirmed violations, and the progress of the Corporation in dealing with all unconfirmed violations. The Compliance Committee shall review the progress of the Corporation and its Members in implementing recommendations, as appropriate. The Compliance Committee shall report to the Board at each regularly scheduled meeting of the Board, and shall recommend to the Board such actions (i) as may further the purposes of the Delegation Agreement; or (ii) that extend beyond the scope of authority delegated to a Hearing Body in Section 7.3. Additionally, the Compliance Committee shall perform such other functions as may be delegated from time to time by the Board.

7.2 **Composition of Committee.** The Compliance Committee shall be composed of not more than twelve (12) members of the Corporation's Board of Directors. The members of the Compliance Committee shall be appointed by the Board of Directors at its April biennial meeting. The Compliance Committee shall consist of the following members:

- (a) The Investor-Owned Utility Sector shall have three (3) representatives;
- (b) The Federal/State Sector shall have two (2) representatives;
- (c) The Cooperative Sector shall have two (2) representatives;

- (d) The Municipal Sector shall have two (2) representatives;
- (e) The Marketer Sector shall have on (1) representative;
- (f) The Merchant Electricity Generator Sector shall have one (1) representative;
- (g) The ISO-RTO/Customer Sector shall have one (1) representative.

The Chairman of the Board of Directors shall appoint a chair from among the Compliance Committee members. The Chairman shall conduct all meetings of the Compliance Committee and shall be responsible for the preparation of the agenda. The Corporation Compliance Manager shall serve as the non-voting secretary. Each Sector will be responsible for nominating their representative(s) and alternates from among Board Members. In the event that a member of the Compliance Committee is unable to complete a term, the Sector's alternate representative will replace such member.

The Compliance Committee shall meet as determined by the members of the Compliance Committee and, except when acting as a Hearing Body as described in Article 7.3, shall use the same meeting and voting procedures as established for the Executive Committee. Each member of the Compliance Committee shall have one (1) vote. The presence of three quarters of the members of the Compliance Committee shall constitute a quorum. The positive vote of two-thirds of voting members of the Compliance Committee present and voting is necessary to pass a particular action.

7.3 Hearings. The Compliance Committee shall conduct hearings in accordance with Hearing Procedures approved by the Federal Energy Regulatory Commission (Hearing Procedures). In compliance hearings in which an entity may contest a finding of alleged violation, proposed penalty or sanction, a proposed mitigation plan, a remedial directive, or other such matters as allowed by the Hearing Procedures, the Compliance Committee shall establish and maintain a hearing body with authority to conduct and render decisions on the matter.

In accordance with the NERC Compliance Monitoring and Enforcement Program Hearing Procedures ("Hearing Procedures"), a quorum for the purpose of constituting a hearing body shall be (after any recusals or disqualifications and including any alternates) fifty (50) percent of the Compliance Committee. In addition to a quorum, the chair of the Compliance Committee shall declare the Hearing Body duly constituted only if no two sectors can control and no one sector can veto the actions of the Hearing Body (the "Sector Control Requirements"). Approval of all actions before a duly constituted Hearing Body shall require a simple majority of the votes cast, which number of members voting shall not be less than a quorum, with each member of the Hearing Body having one vote.

To ensure that the Sector Control Requirements are met in the formation of a Hearing Body, the Chair shall adhere to the following in declaring the Hearing Body duly constituted:

- If the Hearing Body is made up of six (6) members of the Compliance Committee, then each sector shall have no more than one (1) representative on the Hearing Body.

- If the Hearing Body is made up of seven (7) or eight (8) members of the Compliance Committee, then only one sector can have two (2) representatives on the Hearing Body, and each other sector can have only one (1) representative on the Hearing Body.
- If the Hearing Body is made up of nine (9) or ten (10) members of the Compliance Committee, then no sector can have more than two (2) representatives on the Hearing Body.
- If the Hearing Body is made up of eleven (11) or twelve (12) members of the Compliance Committee, then the Sector Control Requirements are met, as no two sectors would have enough votes to control, and no one sector would have the ability to veto.

The chair, in his or her sole discretion, shall have the authority to determine whether the Hearing Body meets the quorum requirements and Sector Control requirements and is therefore duly constituted.

The decision of any duly constituted Hearing Body pursuant to these requirements shall be final and binding on the Corporation, without requiring either the Compliance Committee or the Corporation to ratify the Hearing Body's actions.

7.4 **Conflicts of Interest.** Compliance Committee members shall comply with the Corporation's Standards of Conduct policy that prohibits conflicts of interest associated with the compliance program, as such conflicts could cast doubt on the ability of the Compliance Committee members to act with total objectivity with regard to the overall interests of the compliance program.

7.5 **Ad-Hoc Support Committees.** The Compliance Committee may, from time to time, appoint ad-hoc committees of technical experts to research and/or advise it on compliance or technical issues or matters, among other things. Such ad-hoc committees of technical experts may be formed on an as-needed basis and may vary in makeup depending on the needs of the Compliance Committee. Each member (or another entity) that requests that the Compliance Committee review a compliance finding against it may request that an ad-hoc committee be formed to assist the Compliance Committee in its review.

ARTICLE VIII

OTHER COMMITTEES

8.1 **Designation by Board.** The Board of Directors, by resolution adopted by a Bicameral Simple Majority, may designate standing and special (ad hoc) committees, as shall be necessary to address the purposes of the Corporation. Such committees shall include, but are not limited to the following:

- (a) Engineering Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the planning and engineering of electric systems. The committee shall provide a mechanism for the coordination of activities in the areas of planning and engineering.

- (b) Operating Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the operation of electric systems. The committee shall provide a mechanism for the coordination of activities in the area of operations.
- (c) Critical Infrastructure Protection Committee -- The purpose of this committee shall be to promote the advancement of the physical and cyber security of the Bulk-Power System. It serves as an expert advisory panel in the areas of physical and cyber security, establishes and maintains an information reporting procedure, provides a liaison with state government agencies, and conducts forums and workshops related to Critical Infrastructure Protection.

Each Member is entitled, but not required, to name both a representative and alternate to the committees designated in this Section 8.1.

8.2 **Voting Rights for Committees.** Except as otherwise provided for in these Bylaws, voting rights for the Committees established pursuant to Section 8.1 shall be based on the same method as adopted by the Board of Directors of the Corporation. Operating procedures, definitions for quorum, and votes for approval are contained in the Organization and Procedures Manual for the Corporation's Standing Committees.

8.3 **Dispute Resolution Process.** The Standing Committees shall have a Dispute Resolution process in place to accommodate disputes (other than disputes regarding Reliability Standards that are handled between the applicable Member and NERC, as more fully described in Article XII). The Members are encouraged to utilize these dispute processes prior to seeking legal action. More specific details of these Committees are outlined in their respective Handbooks.

8.4 **Rules.** Each committee will adopt rules for its own governance not inconsistent with these Bylaws or with rules adopted by the Board of Directors.

8.5 **Reliability Standards Development.** While the development of Reliability Standards shall be administered by the Corporation's Standing Committees, a registered ballot body of interested stakeholders will vote to approve Reliability Standards, in accordance with the Corporation's Regional Reliability Standards Development Procedure.

ARTICLE IX

MISCELLANEOUS

9.1 **Contracts.** The Board of Directors may authorize any officer or officers, agent or agents of the Corporation, in addition to the officers so authorized by these Bylaws, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or confined to specific instances.

9.2 **Checks, Drafts, etc.** All checks, drafts, or orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Corporation, shall be signed by such officer or officers, agent or agents of the Corporation and in such manner as shall from time to time be determined by resolution of the Board of Directors. In the absence of such determination by the Board of Directors, such instruments shall be signed by the Secretary-Treasurer, President, or Finance Director, as stipulated by the Executive Committee. The Secretary-Treasurer shall arrange audits of financial records, sign appropriate documents, and perform such duties normally performed by Secretary-Treasurer, except duties assigned to the President or Finance Director.

9.3 **Deposits.** All funds of the Corporation shall be deposited from time to time to the credit of the Corporation in such banks, trust companies or other depositories as the Board of Directors may select.

9.4 **Gifts.** The Board of Directors may accept on behalf of the Corporation any contribution, gift, bequest or devise for the general purpose or for any special purpose of the Corporation.

ARTICLE X

BOOKS AND RECORDS

10.1 **Books and Records.** The Corporation shall keep correct and complete books and records of account and shall also keep minutes of the proceedings of the Board of Directors and committees having any of the authority of the Board of Directors, and shall keep at its registered or principal office a record giving the names and addresses of the directors. All books and records of the Corporation may be inspected by any director, or agent or attorney representing any director, for any proper purpose at any reasonable time.

ARTICLE XI

FISCAL YEAR

11.1 **Fiscal Year.** The fiscal year of the Corporation shall begin on the first day of January and end on the last day of December in each year.

ARTICLE XII

EXPENSES

12.1 **Allocation of Specific Expenses.** The expenses of directors and officers of the Board shall be borne by that person's regular employer.

12.2 **Statutory Functions.** The Corporation anticipates that as a general rule all of its expenses will be incurred in the furtherance of statutory activities pursuant to FPA Section 215, and that all such expenses will be funded by NERC, subject to FERC approval.

12.3 **Non-Statutory Functions.** Notwithstanding Section 12.2, the Board of Directors may from time to time authorize the Corporation to participate in non-statutory activities (i.e., activities not described in FPA Section 215). In the event that the Corporation proposes to engage in non-statutory activities, such activities will be identified in the Corporation's annual business plan that is submitted to NERC and, if approved by NERC, will be submitted to FERC for approval in advance of engaging in such non-statutory activities. The expenses incurred by the Corporation for any such approved non-statutory activities will be allocated by the Board of Directors among the Members of the Corporation who have participated in such non-statutory activities on a basis proposed in the business plan submitted for NERC and FERC approval. All participation in non-statutory activities by Members of the Corporation shall be voluntary.

ARTICLE XIII

DISPUTE RESOLUTION PROCESS

13.1 **General.** All disputes regarding non-compliance with Reliability Standards shall be handled between the applicable Member and NERC. The organizational units of the Corporation will deal with all other disputes within the framework of their respective organizations. For such other disputes, Members of the Corporation are encouraged to utilize the appropriate Dispute Resolution Process within the Corporation prior to seeking resolution at NERC, FERC, or with legal counsel.

13.2 **Terms of Process.** Details of the Corporation Dispute Resolution Process are provided to each Member and are available at the Corporation's offices.

ARTICLE XIV

DISSOLUTION

14.1 **Dissolution**. The Corporation may be voluntarily dissolved upon unanimous consent of Members, and in accordance with Section 10-3A-140 of the Alabama Nonprofit Corporation Act, as amended from time to time.

14.2 **Distribution of Assets**. Upon dissolution of the Corporation as provided in Section 14.1, the residual assets, after payment of all just obligations, shall be distributed exclusively for the common business interest of its Members or to organizations which are exempt from federal income tax under the Internal Revenue Code of 1986, or corresponding provisions of any subsequent federal tax laws.

ARTICLE XV

REGULATORY COMMISSION PARTICIPATION

15.1 **Terms of Participation** To implement the purpose of this organization, the Chairman of FERC and the Chairman or President of any State Utility Commission in a state in which electric service is provided by a Member of the Corporation shall be invited to designate a representative to attend meetings of the Board as observers.

ARTICLE XVI

WAIVER OF NOTICE

16.1 **Waiver**. Whenever any notice is required to be given under the provisions of the Alabama Nonprofit Corporation Act or under the provisions of the articles of incorporation or the Bylaws of the Corporation, a waiver thereof in writing signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice.

ARTICLE XVII

INDEMNIFICATION

17.1 **Indemnification of Directors, Officers, Employees and Agents**. Every person who is, or has been, a director, officer, employee or agent of the Corporation shall be

indemnified by the Corporation in the manner and to the extent authorized by the Alabama Nonprofit Corporation Act. The foregoing rights of indemnification shall be without prejudice to any other rights to which any such director, officer, employee or agent may be entitled as a matter of law.

SERC Regional Standards Development Procedure

Exhibit C to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

SERC Regional Reliability Standard Development Procedure

Exhibit C – Regional Standard Development Procedure

Exhibit C sets forth SERC Reliability Corporation's standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA [add reference to any applicable authorities in Canada and Mexico]. No regional reliability standard shall be effective within the [Regional Entity Name] area unless filed by NERC with FERC [and applicable authorities in Canada and Mexico] and approved by FERC [and applicable authorities in Canada and Mexico].

COMMON ATTRIBUTE 2

[Regional Entity Name] regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A [Regional Entity Name] reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

[Regional Entity Name] regional reliability standards, when approved by FERC [add applicable authorities in Canada], shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the [Regional Entity Name] area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request may assist in the development of the standard. Any member of [Regional Entity Name], or group within [Regional Entity Name] shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of

SERC Regional Reliability Standard Development Procedure

the bulk power system in the [Regional Entity Name] area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

[Standards or other named] committee — The [Regional Entity Name] [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the [Regional Entity Name] board on standards presented for adoption.

COMMON ATTRIBUTE 6A [REGISTERED BALLOT BODY APPROACH]

The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with [Regional Entity Name] as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.]

COMMON ATTRIBUTE 7

[Regional Entity Name] will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the [Regional Entity Name] and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within [no greater than 60] days of receipt of a completed standard request, the [standards] committee shall determine the disposition of the standard request.

SERC Regional Reliability Standard Development Procedure

COMMON ATTRIBUTE 10

The [standards] committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The [standards] committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The [standards] committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the [standards] committee rejects a standard request, a written explanation for rejection will be delivered to the requester within [no greater than 30] days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the [standards] committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the [standards] committee.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the [Regional Entity Name] website within [no greater than 30] days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the [Regional Entity Name] website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day comment period. The standards process manager shall provide notice to [Regional Entity Name] stakeholders and other potentially interested entities, both within and outside of the [Regional Entity Name] area, of

SERC Regional Reliability Standard Development Procedure

the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the [Regional Entity Name] website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the [Regional Entity Name] [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

The [standards] committee shall give due consideration to the work of the drafting team, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard for submittal to the [Regional Entity Name] board. The [standards] committee may vote to approve or not approve the standard. Alternatively, the [standards] committee may remand the standard to the drafting team for further work or form a new drafting team for that purpose.

COMMON ATTRIBUTE 18

The [standards] committee may not itself modify the standard without issuing a new notice to stakeholders regarding a vote of the modified standard.

SERC Regional Reliability Standard Development Procedure

COMMON ATTRIBUTE 19

Actions by the committee shall be recorded in the regular minutes of the committee.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC [and applicable authorities in Canada and Mexico.]

COMMON ATTRIBUTE 22

Open - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the [Regional Entity Name] bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in [Regional Entity Name], and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the [Regional Entity Name] members and others.

COMMON ATTRIBUTE 23

Balanced - The [Regional Entity Name] standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

Inclusive — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the [Regional Entity Name] area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

Fair due process — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a

SERC Regional Reliability Standard Development Procedure

standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

Transparent — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

SERC Regional Reliability Standard Development Procedure

COMMON ATTRIBUTE 32

Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.

If not applicable to the entire [Regional Entity Name] area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.

COMMON ATTRIBUTE 33

Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.

COMMON ATTRIBUTE 34

Defines for each measure:

- The specific data or information that is required to measure performance or outcomes.
- The entity that is responsible for providing the data or information for measuring performance or outcomes.
- The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.
- The entity that is responsible for evaluating data or information to assess performance or outcomes.
- The time period in which performance or outcomes is measured, evaluated, and then reset.
- Measurement data retention requirements and assignment of responsibility for data archiving.

SERC Regional Reliability Standard Development Procedure

Revision History

Revision	Date	Comments
0	October 25, 2006	Document Origination
1	October 10, 2007	Document revised to change to a registered ballot body approach to approve standards, changed "Manager of Reliability Services" to Manager of Reliability Standards," changed the RSS meeting notice period to 21 days, changed the review period for this procedure from five to three years, and moved from the Standing Committee Executive Committees to the Standards Committee the ability to remand a SAR back to the Requester for additional work.

Introduction

This procedure defines the process for development, revision, reaffirmation, and withdrawal of a regional reliability standard by the SERC Reliability Corporation (SERC). SERC is a regional entity authorized through an approved delegation agreement with the North American Electric Reliability Corporation (NERC) to propose regional reliability standards in accordance with Section 215 of the Federal Power Act (FPA), the U.S. Federal Energy Regulatory Commission (FERC) Order No. 672, and Title 18 § 39 of the U.S. Code of Federal Regulations (C.F.R. 18 § 39).

SERC Regional Reliability Standards apply to the planning, operation, and critical infrastructure protection of the Bulk Power System in the SERC Region. Proposed SERC Regional Reliability Standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA. No SERC Regional Reliability Standard shall be effective within the SERC area unless filed by NERC with FERC and approved by FERC.

SERC Regional Reliability Standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A SERC Regional Reliability Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or regional difference necessitated by a physical difference in the bulk power system. A SERC Regional Reliability Standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

SERC Regional Reliability Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the SERC area, regardless of membership in the region.

Process Roles

Requester: The requester is the sponsor of the SERC Regional Reliability Standard request and may assist in the development of the standard. Any member of SERC, or any group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), shall be allowed to request that a SERC Regional Reliability Standard be developed, modified, or withdrawn. Additionally, any entity that is directly and materially affected by the reliability of the SERC Bulk Power System shall be allowed to request that a SERC Regional Reliability Standard be developed, modified, or withdrawn.

SERC Board of Directors: The SERC Board of Directors shall consider for adoption as SERC Regional Reliability Standards, those Standards that have been developed and approved by this procedure. Once the Board adopts a SERC Regional Reliability Standard, such Standard shall be submitted to NERC for approval. When approved by NERC, it shall be submitted to FERC for approval.

SERC Staff: The SERC Manager of Reliability Standards is responsible for forwarding a request for the development, modification or withdrawal of SERC Regional Reliability Standards to the SERC Standards Committee. The SERC Staff shall facilitate all steps in this process.

SERC Standards Committee: The SERC Regional Reliability Standard Development Procedure shall be administered by the SERC Standards Committee (SC). The SERC SC is responsible for ensuring that the development, modification or withdrawal of SERC Regional Reliability Standards is in accordance with the steps in this procedure. The SERC SC will ensure the integrity of the process and the consistency of quality and completeness of the SERC Regional Reliability Standards.

SERC Standing Committees: The SERC Standing Committees will perform a high level technical review of the SAR to determine which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The Standing Committees will appoint the standard drafting team (Responsible SERC Subgroup).

The current SERC Standing Committees are the Engineering Committee (EC), Operating Committee (OC), and Critical Infrastructure Protection Committee (CIPC). The Standing Committees are balanced stakeholder committees, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. See Appendix A for the representation model of the Standing Committees.

SERC Regional Reliability Standard Development Procedure

Compliance Advisory Groups: The SERC Compliance Advisory Groups provide inputs and comments during the standards development process to ensure the measures will be effective and other aspects of the compliance program can be practically implemented.

Responsible SERC Subgroup (RSS): Responsible SERC Subgroups are teams, responsible for drafting the standard. The RSS may include technical experts and be based around a permanent SERC Standing Committee subgroup. An RSS is established expressly to draft the standard. Membership on an RSS will be assigned by the SERC EC, OC, and/or CIPC. The requester may act as the RSS, serve on the RSS, or otherwise assist the RSS. SERC membership is not a prerequisite for serving on an RSS. The RSS will:

- Develop the details of the SERC Regional Reliability Standard,
- Consider and respond to industry comments,
- Participate in forums to help build consensus on draft SERC Regional Reliability Standards,
- Assist in the implementation of approved SERC Regional Reliability Standards,
- Provide technical oversight in response to changing industry conditions, and
- Assist in the identification of the need for new SERC Regional Reliability Standards.

Registered Ballot Body (RBB): The registered ballot body votes to approve standards. The RBB comprises all entities or individuals that qualify for one of the SERC industry Sectors, and are registered with SERC as potential ballot participants in the voting on standards. SERC membership is not a prerequisite for registering with SERC as a potential ballot participant. Any entity that is directly and materially affected by the reliability of the SERC Bulk Power System shall be allowed to register as a potential ballot participant.

Each member of the registered ballot body is eligible to vote on standards. Each standard action has its own ballot pool formed of interested members of the registered ballot body.

Ballot Pool: Each standard action has its own ballot pool formed of interested members of the Registered Ballot Body. The ballot pool comprises those members of the Registered Ballot Body that respond to a pre-ballot survey for that particular standard action. The ballot pool will ensure, through its vote, the need for and technical merits of a proposed standard action and the appropriate consideration of views and objections received during the development process. The ballot pool votes to approve each standards action.

Process Steps

Note: The term “days” below refers to calendar days.

SERC will coordinate with NERC such that the acknowledgement of receipt of an accepted standard request identified in step 4, notice of comment posting period identified in step 7, and notice for vote identified in step 9 below are concurrently posted on both the SERC and NERC websites.

Step 1: Request for a new SERC Regional Reliability Standard or modification to, or withdrawal of an existing SERC Regional Reliability Standard

A request to develop, modify or withdraw a SERC Regional Reliability Standard shall be submitted, using the SERC Regional Reliability Standard Authorization Request (SAR) Form (see Appendix C), to the SERC Manager of Reliability Standards (via e-mail to regstd@serc1.org) by any member of SERC, or any group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), or any entity that is directly and materially affected by reliability of the SERC Bulk Power System. The SERC SAR Form can be downloaded from the SERC website (www.serc1.org).

An acceptable SAR shall contain a description of the proposed regional reliability standard subject matter with sufficient descriptive detail of the proposed standard to clearly define the purpose, scope, impacted parties, and other relevant information. SERC Staff shall verify that the SAR Form has been adequately completed. Within 15 days of receiving the SAR, the SERC Manager of Reliability Standards or his designee will electronically acknowledge receipt of the SAR, and will forward the SAR to the SERC Standards Committee. The SERC Manager of Reliability Standards may offer the Requester suggestions regarding changes or improvements to enhance the clarity of the proposed standards work and to assist the SERC Standards Committee in understanding the requester’s intent and objectives. The requester is free to accept or reject these suggestions.

Step 2: Assignment of SERC Regional Reliability Standard Request

The Standards Committee will review the SAR to ensure it is not in conflict with or duplication of a current standard or a standards drafting effort already proposed or in progress. Within 15 days after receiving the SAR from the SERC Manager of Reliability Standards, the Standards Committee will take one of the two following actions:

SERC Regional Reliability Standard Development Procedure

- Assign the SAR to the appropriate SERC Standing Committee(s). SERC Staff will forward the SAR to the appropriate SERC Standing Committee Chair(s) and Standing Committee(s) Executive Committee.
- Remand the SAR back to the Requester for additional work. The SERC Manager of Reliability Standards will make reasonable efforts to assist the Requester in addressing the deficiencies identified by the Standards Committee. The Requester may then resubmit the modified SAR using the process above. The requester may choose to withdraw the SAR from further consideration.

Step 3: Acceptance of a SERC Regional Reliability Standard Request

Within 60 days of receipt of a completed SAR, the assigned SERC Standing Committee(s) Executive Committee(s) shall determine the disposition of the SAR. The committee may take one of the two following actions:

- Accept the SAR as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The committee(s) may, at its discretion, expand or narrow the scope of the SAR under consideration. The committee(s) shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the SAR. If the committee(s) rejects a SAR, a written explanation for rejection will be delivered to the Requester within 30 days of the decision.

Deliberations and decisions of the assigned SERC Standing Committee(s) Executive Committee(s) concerning requests shall be made and documented in accordance with the SERC Standing Committee rules and procedures then in effect.

Step 4: Posting of SERC Regional Reliability Standard Request

Any SAR that is accepted by the assigned SERC Standing Committee(s) Executive Committee(s) for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the SERC website within 30 days of acceptance by the committee. A notice of the posting for a 30-day comment period will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the proposed SAR. SERC Staff will perform this

SERC Regional Reliability Standard Development Procedure

posting on the SERC website and coordinate or send correspondences described in this and other steps of the process.

Step 5: Formation of a Responsible SERC Subgroup

Within 60 days of accepting a SAR for development, the assigned SERC Standing Committee(s) Executive Committee(s) shall assign and direct the proposal to the appropriate Responsible SERC Subgroup (RSS) to develop the draft Regional Reliability Standard. The RSS may be a permanent Standing Committee subgroup (augmented by other persons as may be appropriate to address the subject matter of the proposed standard), or a task force established expressly by the Executive Committee(s) for drafting the standard. SERC membership is not a prerequisite for serving on an RSS.

After consulting with the assigned SERC Standing Committee(s) Executive Committee(s) as necessary, the SERC Standards Committee (SC) will assign a preliminary date on which the RSS is expected to have ready a completed draft Standard and associated supporting documentation available for consideration.

Step 6: Drafting of a SERC Regional Reliability Standard

The RSS shall develop a work plan for completing the regional reliability standard, including the establishment of a milestone schedule for completing critical elements of the work in sufficient detail to ensure that the RSS will meet the objectives established by the SC. The RSS shall submit its work plan to the SC for its concurrence.

The RSS shall convene periodically, either in person or by electronic means as necessary, establish work teams (made up of members of the RSS) as necessary, and perform other activities to complete the proposed standard within the milestone date(s) agreed upon by the SC. All RSS meetings or portions of meetings associated with development of the draft standard shall be open and publicly noticed on the SERC website for a minimum of twenty-one (21) calendar days prior to the meeting. All RSS meeting attendees are required to register via the SERC website.

The RSS shall consider all comments received on the posting of the SAR and shall develop a draft SERC Regional Reliability Standard that will address the accepted SAR. The RSS shall use the SERC Regional Reliability Standards Format Template as the format for the draft standard (see Appendix D). The SERC Regional Reliability Standards Format Template can be downloaded from the SERC website (www.serc1.org).

The work product of the RSS will consist of the following:

- A draft Standard consistent with the SAR on which it was based.

SERC Regional Reliability Standard Development Procedure

- An assessment of the impact of the standard on neighboring regions, and appropriate input from the neighboring regions if the standard is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Standard that will be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard
- Technical reports, white papers and/or work papers that provide technical support for the draft Standard under consideration.
- Documentation of the perceived reliability impact should the Standard be approved.

The RSS shall regularly inform the SC, at a frequency determined by the SC, of its progress in meeting a timely completion of the draft standard. The RSS may, with justification, request of the SC scope changes from the SAR at any point in the standard development process.

The RSS shall submit the draft SERC Regional Reliability Standard and supporting documentation to the SC for review. The RSS will send any revised SERC Regional Reliability Standard to the SC in both “Clean” and “Tracking” formats. The RSS shall also send the SC an accompanying Comments Form which may include specific questions addressing the major issues associated with the new or revised standard. In any event, the Comments Form must also allow for general comments on the standard (see Appendix E for sample form). The SC will verify that the proposed standard is consistent with the SAR on which it was based. The SERC Regional Reliability Draft Standards Comments Form can be downloaded from the SERC website (www.serc1.org).

Step 7: Posting of a Draft SERC Regional Reliability Standard

The SERC Standards Committee shall send to the SERC Manager of Reliability Standards the draft SERC Regional Reliability Standard, along with a draft implementation plan and supporting documents, for comments. SERC Staff will post these documents on the SERC website for thirty (30) calendar days. A notice of the posting for comment will be sent to all SERC Standing Committees representatives and alternates. In addition, the request will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the draft SERC Regional Reliability Standard. Comments shall be submitted electronically (via e-mail) to regstd@serc1.org. All comments are due by the close of business on the 30th calendar day of posting. If the comment due date falls on a weekend or nationally recognized holiday, the comments shall be due by the close of business on the next regularly scheduled business day.

Step 8: Standard Drafting Team Review of Comments

SERC Staff shall forward all comments received to the RSS and SC. The SC may review comments and make recommendations concerning them. Any SC recommendation will be forwarded to the RSS. The RSS shall review the comments received and revise the draft SERC Regional Reliability Standard as needed. The RSS shall develop a written response to each comment received using the Consideration of Comments Form Template (see Appendix F). The SERC Consideration of Comments Form Template can be downloaded from the SERC website (www.serc1.org). The completed Consideration of Comments Form will be posted on the SERC website.

The RSS shall summarize comments that were rejected by the RSS and the reason(s) that these comments were rejected, in part or whole. The RSS shall submit to the SC the summary of comments rejected, the completed Consideration of Comments form, and any resulting revisions to the draft SERC Regional Reliability Standard.

If needed, a second draft of the SERC Regional Reliability Standard (along with the summary of comments rejected and the Consideration of Comments from the previous posting) will be posted for another comment period. Such comment period shall be for thirty (30) calendar days. A notice of the posting for comment will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Reliability Organizations adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the revised draft SERC Regional Reliability Standard.

Based on comments received to the posting, Step 7 will be repeated as necessary until the RSS and the SC believe the draft SERC Regional Reliability Standard is ready to submit to the SERC Ballot Body for approval.

Step 9: Notice of Vote to Approve a SERC Regional Reliability Standard

The Responsible SERC Subgroup shall submit the summary of comments rejected and the Consideration of Comments document along with the final draft of the proposed SERC Regional Reliability Standard (both "Tracking" and "Clean" versions for standard revisions) to the SERC Manager of Reliability Standards for posting on the SERC website at least 15 days prior to requesting approval of the standard.

The SERC Manager of Reliability Standards shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

SERC Regional Reliability Standard Development Procedure

Ballot Pool: The SERC Manager of Reliability Standards shall establish a ballot pool for a standard action at least 15 days prior to the start of a ballot. The SERC Manager of Reliability Standards shall send a notice to every entity in the Registered Ballot Body. The purpose of this notice is to establish a ballot pool to participate in the ballot of the proposed standards action.

Any member of the Registered Ballot Body may join or drop out of a ballot pool until the ballot period begins (Step 10). No Registered Ballot Body member may join or leave the ballot pool once the first ballot starts. The SERC Manager of Reliability Standards shall coordinate changes to the membership of the ballot pool and publicly post the standard ballot pool for each standard action.

The SERC Manager of Reliability Standards shall schedule a vote by the ballot pool for approval. The vote shall commence no sooner than 15 days and no later than 30 days following the issuance of the notice for the vote.

Step 10: SERC Ballot Pool of Registered Ballot Body Approval

The Ballot Pool shall have a minimum of ten (10) days to vote on a standards action. The Ballot Pool should give due consideration to the work of the RSS, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard. The Ballot Pool may vote to approve or not approve the standard.

Once approved, the SERC Regional Reliability Standard along with the proposed implementation plan and supporting documentation will be submitted by the SERC President, or the President's designee, to the SERC Board of Directors for adoption.

If approval by the RBB is not obtained, the Standing Committee(s) will determine if the draft SERC Regional Reliability Standard is to be sent back to the RSS to repeat Step 8 to incorporate any RBB or SERC Standing Committee(s) comments, form a new RSS for that purpose, or to take no further action on the proposed SERC Regional Reliability Standard.

If no further action is taken, the reason for such will be posted on the SERC website. A notice of the posting will be sent to all SERC Standing Committee representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives.

Step 11: Adoption of SERC Regional Reliability Standards by the SERC Board of Directors

The SERC Board of Directors shall consider adoption of any SERC Regional Reliability Standard that has been approved by the SERC RBB. A SERC Regional Reliability Standard submitted for adoption by the SERC Board of Directors must be posted for notification on the SERC website at least 15 days prior to action by the SERC Board of Directors. A notice of the posting will be sent to all SERC Board of Directors representatives and alternates, and to all SERC Standing Committee representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

The SERC Board of Directors shall consider the comments received, the responses provided, and any dissenting opinions. The SERC Board of Directors shall adopt or reject a SERC Regional Reliability Standard as submitted, but may not substantively modify the proposed SERC Regional Reliability Standard.

If the SERC Board of Directors chooses to reject a SERC Regional Reliability Standard as submitted, it shall provide its reasons for doing so. The reasons for such decision will be posted on the SERC website. A notice of the posting will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives. The assigned Standing Committee(s) will determine if the draft standard should be resubmitted with modifications. If so, the draft standard will be remanded back to the RSS in Step 8 above.

Step 12: Submission of SERC Regional Reliability Standards to NERC and FERC

Once the SERC Regional Reliability Standard is adopted by the SERC Board of Directors, the SERC President, or the President's designee shall submit the SERC Regional Reliability Standard to NERC for approval and filing with FERC. NERC will post the SERC Regional Reliability Standard for comments. The Responsible SERC Subgroup will develop a response to any comments and submit it to the Standards Committee for approval. When the Responsible SERC Subgroup response is approved by the Standards Committee, the SERC President, or the President's designee will forward the comments to NERC for consideration by the NERC Board. If the NERC Board rejects the SERC Regional Reliability Standard the SERC Board will determine if the SERC Regional Reliability Standard is to be sent back to the assigned SERC

SERC Regional Reliability Standard Development Procedure

Standing Committee(s) to incorporate the NERC Board comments or to take no further action on the standard.

When approved by the NERC Board, NERC will submit the SERC Regional Reliability Standard to FERC for approval. If FERC rejects the SERC Regional Reliability Standard, the SERC Board will determine if the SERC Regional Reliability Standard is to be sent back to the assigned SERC Standing Committee(s) to incorporate the FERC comments or to take no further action on the standard.

Step 13: Implementation of SERC Regional Reliability Standards

A SERC Regional Reliability Standard that is adopted by the SERC Board of Directors, NERC, and FERC, shall become effective on a date designated by FERC. In developing the standard, the RSS should consider the time needed for NERC and FERC approval in the proposed implementation date.

Appendix A: Stakeholder Representation

A.1 SERC Standing Committees and Member Representation

Membership in SERC is open to any entity that is a user, owner or operator of the Bulk-Power System and subject to the jurisdiction of the Federal Energy Regulatory Commission for the purpose of complying with Reliability Standards established under Section 215 of the Federal Power Act and all amendments thereto. SERC's membership policy permits full and fair participation of all members through their representatives, including in the development of and voting on Regional Reliability Standards. The SERC standing committees have a role in developing standards, a ballot pool of the SERC Registered Ballot Body vote to approve Regional Reliability Standards, and the SERC Board of Directors adopts all standards. Since each member is entitled to representation on both the Board and the Standing Committees, SERC's membership policy permits full and fair participation of its members.

The following are excerpts from the SERC Reliability Corporation Bylaws. Section 8.1 establishes the Standing Committees and SERC Member representation on those committees. Section 8.2 specifies committee voting rights will be based on the same method as adopted by the SERC Board of Directors, and refers to the Organization and Procedures Manual for SERC Standing Committees for more specific details.

8.1 Designation by Board. The Board of Directors, by resolution adopted by a Bicameral Simple Majority, may designate standing and special (ad hoc) committees, as shall be necessary to address the purposes of the Corporation. Such committees shall include, but are not limited to the following:

(a) Engineering Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the planning and engineering of electric systems. The committee shall provide a mechanism for the coordination of activities in the areas of planning and engineering.

b) Operating Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the operation of electric systems. The committee shall provide a mechanism for the coordination of activities in the area of operations.

(c) Critical Infrastructure Protection Committee -- The purpose of this committee shall be to promote the advancement of the physical and cyber security of the Bulk-Power System. It serves as an expert advisory panel in the areas of physical and cyber security, establishes and maintains an information reporting procedure, provides a liaison with state government agencies, and conducts forums and workshops related to Critical Infrastructure Protection.

SERC Regional Reliability Standard Development Procedure

Each Member is entitled, but not required, to name both a representative and alternate to the committees designated in this Section 8.1.

8.2 Voting Rights for Committees. Except as otherwise provided for in these Bylaws, voting rights for the Committees established pursuant to Section 8.1 shall be based on the same method as adopted by the Board of Directors of the Corporation. Operating procedures, definitions for quorum, and votes for approval are contained in the Organization and Procedures Manual for the Corporation's Standing Committees.

A.2 SERC Regional Reliability Standards Voting Procedures

The following are the voting procedures for the SERC Registered Ballot Body:

1. Registration Procedures

The Registered Ballot Body (RBB) comprises all organizations and entities that:

- Qualify for one of the SERC Sectors, and
- Are registered with SERC as potential ballot participants in the voting on standards.

All registrations will be done electronically. Each participant, when initially registering to join the RBB will self-select to belong to one of the Sectors and will also name their RBB representative. The Executive Committee of the Board of Directors will review all applications for joining the Registered Ballot Body, and make a determination of whether the self-selection satisfies the criteria to belong to that sector. The Sectors shall be identical to those in Section 3.4 of the SERC's Bylaws.

All registered organizations and entities that qualify for a Sector with SERC may vote on a standard. Voting is in writing with each registered stakeholder (a "stakeholder") having one vote. The stakeholder's RBB representative will have the right to register to participate in ballot pools and cast the stakeholder's vote.

2. Sector Qualification Guidelines

The sector qualification guidelines are inclusive; i.e., any entity with a legitimate interest in the reliability of the SERC bulk power system that can meet the criteria for a sector as defined in Section 3.4 of the SERC's Bylaws is entitled to belong to and vote in that sector. The general guidelines are:

- Corporations or organizations with affiliates that qualify to belong to more than one sector (e.g., Investor-Owned Utility and Merchant Electricity Generator) may belong to each of the sectors in which they qualify, provided that each sector constitutes a separate membership and is represented by a

different representative.

- At any given time, affiliated entities may collectively be registered only once within a sector.
- Any individual currently employed by an organization that is eligible to join one of the other seven sectors, shall not be qualified to join as a “customer” in the ISO-RTO/Customer sector.

3. Definitions

Individual Vote – shall mean a single vote accorded to each stakeholder.

4. Quorum

Two-thirds of the Individual Votes of the Ballot Pool shall constitute a quorum.

5. SERC Registered Ballot Body Voting Requirements

A ballot pool will be established to participate in the ballot of any proposed standards action. Approval of a reliability standard or revision to a reliability standard requires the affirmative vote of a two thirds majority of the weighted Sector votes cast. The number of votes cast in each Sector is the sum of affirmative and negative votes, excluding abstentions and non-response.

The following process is used to determine if there are sufficient affirmative votes.

- The number of affirmative votes cast in each Sector will be divided by the sum of affirmative and negative votes cast to determine the fractional affirmative vote for each Sector. Abstentions and non-responses will not be counted for the purposes of determining the fractional affirmative vote for a Sector.
- The fractional affirmative vote for a Sector is then multiplied by the Sector weight factor, to determine the weighted fractional affirmative vote for a Sector. The weight factors for the Sectors are:
 - Investor-Owned Utility Sector: weight factor is 3.
 - Federal/State Sector: weight factor is 2.
 - Cooperative Sector: weight factor is 2.
 - Municipal Sector: weight factor is 2.
 - Marketer Sector: weight factor is 1.
 - Merchant Electricity Generator Sector: weight factor is 1.
 - ISO-RTO/Customer Sector: weight factor is 1.
- The sum of the weighted fractional affirmative votes from all Sectors divided by the sum of the weights of the Sectors voting will be used to determine if a two-thirds majority has been achieved. (A Sector will be considered as “voting” if any member of the Sector in the ballot pool casts either an

SERC Regional Reliability Standard Development Procedure

- affirmative or a negative vote.)
- A standard will be approved if the sum of weighted fractional affirmative votes from all Sectors divided by the sum of the weights of the voting Sectors is two-thirds or greater.

Appendix B: Principles, Characteristics, and Special Procedures

Principles

SERC develops regional standards with due consideration of the following principles, in accordance with the steps outlined in this procedure. This procedure has been designed to ensure that any SERC Regional Reliability Standard is technically sound and the technical specifications proposed will achieve a valuable reliability objective.

The SERC Regional Reliability Standards Development Procedure has the following characteristics:

- **Open:** Participation in the development of a SERC Regional Reliability Standard shall be open to all organizations that are directly and materially affected by the SERC bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in SERC, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of the Responsible SERC Subgroup assigned to draft a standard shall be open to the SERC members and others.
- **Balanced:** The SERC Regional Reliability Standards Development Procedure strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.
- **Inclusive:** Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the SERC area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, c) registering as a potential ballot participant and voting on a proposed standard; and d) having the right to appeal.
- **Fair due process:** The SERC Regional Reliability Standards Development Procedure provides for reasonable notice and opportunity for public comment. This procedure includes public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.
- **Transparent:** All actions material to the development of SERC Regional Reliability Standards shall be transparent. All standards development meetings shall be open and publicly noticed on the SERC Web site.
- **Due Course:** Does not unnecessarily delay development of the proposed SERC Regional Reliability Standard.

SERC Regional Reliability Standard Development Procedure

NERC has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are to be used to guide the development of reliability standards, including regional reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards.

- Each SERC Regional Reliability Standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.
- While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all SERC Regional Reliability Standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

Regional Reliability Standard Characteristics and Elements

Characteristics of a SERC Regional Reliability Standard

The following characteristics describe objectives to be considered in the development of SERC Regional Reliability Standards:

1. **Applicability:** Each SERC Regional Reliability Standard clearly identifies the functional classes of entities responsible for complying with the standard, with any specific additions or exceptions noted. Such functional classes include: reliability coordinators, balancing authorities, transmission operators, transmission owners, generator operators, generator owners, interchange authorities, transmission service providers, market operators, planning authorities, transmission planners, resource planners, load-serving entities, purchasing-selling entities, and distribution providers. Each SERC Regional Reliability Standard identifies the geographic applicability of the standard. A standard may also identify any limitations on the applicability of the standard based on electric facility characteristics.
2. **Reliability Objectives:** Each SERC Regional Reliability Standard has a clear statement of purpose that describes how the standard contributes to the reliability of

SERC Regional Reliability Standard Development Procedure

the bulk power system.

3. **Requirement or Outcome:** Each SERC Regional Reliability Standard states one or more requirements, which if achieved by the applicable entities, will provide for a reliable bulk power system, consistent with good utility practices and the public interest.
4. **Measurability:** Each performance requirement is stated so as to be objectively measurable by a third party with knowledge or expertise in the area addressed by that requirement. Each performance requirement has one or more associated measures used to objectively evaluate compliance with the requirement. If performance can be practically measured quantitatively, metrics are provided to determine satisfactory performance.
5. **Technical Basis in Engineering and Operations:** Each regional reliability standard is based upon sound engineering and operating judgment, analysis, or experience, as determined by expert practitioners in that particular field.
6. **Completeness:** Each SERC Regional Reliability Standard is complete and self-contained. Supporting references may be provided with standards, but they are not part of the standard and do not impose mandatory requirements.
7. **Clear Language:** Each SERC Regional Reliability Standard is stated using clear and unambiguous language. Responsible entities, using reasonable judgment and in keeping with good utility practice, are able to arrive at a consistent understanding of the required performance.
8. **Practicality:** Each SERC Regional Reliability Standard establishes requirements that can be practically implemented by the assigned responsible entities within the specified effective date and thereafter.
9. **Consistent Terminology:** To the extent possible, SERC Regional Reliability Standards use a set of standard terms and definitions that are approved through the SERC Regional Reliability Standard Development Procedure.

Although regional reliability standards have a common format and process, several types of standards may exist, each with a different approach to measurement:

- Technical standards are related to the provision, maintenance, operation, or state of electric systems, and will likely contain measures of physical parameters that are technical in nature.
- Performance standards are related to the actions of entities providing for or impacting the reliability of the bulk power system, and will likely contain measures of

SERC Regional Reliability Standard Development Procedure

the results of such actions or qualities of performance of such actions.

- Preparedness standards are related to the actions of entities to be prepared for conditions that are unlikely to occur, but are nonetheless critical to reliability, and will likely contain measures of such preparations or the state of preparedness.

Elements of a SERC Regional Reliability Standard

To ensure uniformity of SERC Regional Reliability Standards, a SERC Regional Reliability Standard shall consist of the elements identified in Appendix D of this procedure. However, the most current version of the approved NERC Reliability Standard template and its associated elements posted on the NERC website will be used at the time of the development of the SERC Regional Reliability Standard if different from the elements listed in Appendix D. This is to ensure all essential elements are contained in the SERC standard to achieve consistency and uniformity and meet all statutory requirements. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

All mandatory requirements of a SERC Regional Reliability Standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

Maintenance of the SERC Regional Reliability Standards Development Procedure

Any member of SERC, or group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), or any entity that is directly and materially affected by the reliability of the SERC Bulk Power System may submit a written request to modify the SERC Regional Reliability Standard Development Procedure. The Manager of Reliability Standards shall oversee the handling of the request.

Significant changes to this procedure shall be addressed using the same procedure as a request to develop, modify, or withdraw a SERC Regional Reliability Standard.

For any minor changes to this procedure, the SERC Standards Committee shall review the request and submit recommendations to the SERC Board of Directors for consideration. The SERC Board of Directors, on its own motion, may amend the SERC Regional Reliability Standard Procedure.

Maintenance of SERC Regional Reliability Standards

Each SERC Regional Reliability Standard shall be reviewed at least once every five (5) years. The review date will be determined from the effective date or the latest revision

SERC Regional Reliability Standard Development Procedure

date, whichever is later. The review process shall be conducted in accordance with Steps 1 through 13 of the SERC Regional Reliability Standard Development Procedure. As a result of this review, a SERC Regional Reliability Standard shall be reaffirmed, revised, or withdrawn.

Interpretations of Standards

Any member of SERC, or group within SERC, or an entity that is directly and materially affected by reliability of the SERC Bulk Electric System shall be permitted to request an interpretation of a SERC Regional Reliability Standard or regional criteria documented in a SERC Standing Committee Document. Any such entity shall also be permitted to request implementation guidance regarding how the SERC compliance program will be measuring and enforcing a NERC Reliability Standard¹. The entity requesting an interpretation or implementation guidance shall send a request to regstd@serc1.org explaining the specific circumstances surrounding the request and what clarifications are required as applied to those circumstances. The request should indicate the material impact to the requesting party, or others, caused by the lack of clarity or a possible incorrect interpretation. SERC Staff will forward requests for interpretations to the appropriate SERC Standing Committee Chair(s), who will assign a Responsible SERC Subgroup with the relevant expertise to address the clarification.

As soon as practical [but not more than forty-five (45) calendar days following the receipt of the request], the assigned subgroup will draft a written interpretation of the SERC Regional Reliability Standard or regional criteria addressing the issues raised. The interpretation will be submitted to the appropriate SERC Standing Committee(s) Executive Committee for review.

As soon as practical [but not more than twenty (20) calendar days following the receipt of the written interpretation from the RSS], the SERC Standing Committee Executive Committee will develop a written recommendation to the SERC Executive Committee concerning approval of the interpretation. The SERC Standing Committee Executive Committee must recommend either that 1) the RSS written interpretation; or 2) a revision of that interpretation be approved. The recommendation, the RSS written interpretation, and any revised interpretation will be forwarded to the SERC Executive Committee.

If approved by the SERC Executive Committee, the interpretation is appended to the SERC Regional Reliability Standard or SERC regional criteria and is effective immediately. The interpretation will stand until such time as the SERC Regional Reliability Standard or SERC Standing Committee Document is revised through the normal process, at which time the SERC Regional Reliability Standard or SERC

¹ This is different than requesting an interpretation of the meaning of a NERC Reliability Standard itself, which must be addressed through the NERC process by submitting a request for interpretation to NERC.

SERC Regional Reliability Standard Development Procedure

Standing Committee Document will be modified to incorporate the clarifications provided by the interpretation.

Requests for implementation guidance regarding how the SERC compliance program will be measuring and enforcing a NERC Reliability Standard will be forwarded to the SERC Compliance staff. The SERC Compliance staff will assign the request to the applicable compliance advisory group to develop appropriate implementation guidance. As soon as practical [but not more than forty-five (45) calendar days following the receipt of the request], the assigned compliance advisory group will draft written implementation guidance for review by the SERC Compliance staff. The SERC Compliance staff will notify the requestor of the approved implementation guidance.

Appeals

Any member of SERC or any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System that believes it has been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, or withdrawal of a SERC Regional Reliability Standard shall have the right to appeal. This appeals process applies only to the SERC Regional Reliability Standards Process as defined in this manual. The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within thirty (30) calendar days of the date of the action purported to cause the adverse effect. The final decisions of any appeal shall be documented in writing and posted on the SERC Member website. A notice of the posting will be sent to all SERC Board of Directors representatives and alternates, and to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

The appeals process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in this appeals process. The appellant submits to the SERC President a complaint in writing that describes the substantive or procedural action associated with a SERC Regional Reliability Standard or the SERC Regional Reliability Standards Process. The appellant must describe in the complaint the actual or potential adverse impact to the appellant.

Assisted by any necessary staff and the Standards Committee, the SERC President, or the President's designee shall prepare a written response addressed to the appellant as soon as practical but not more than forty-five (45) calendar days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the

SERC Regional Reliability Standard Development Procedure

issue, both the complaint and response will be made a part of the record associated with the SERC Regional Reliability Standard.

Level 2 Appeal

If after the Level 1 Appeal, the appellant remains unsatisfied with the resolution, notification shall be made in writing to the SERC President within fifteen (15) calendar days of the affected entity's Level 2 Appeal to the SERC Executive Committee. In all cases, no SERC Executive Committee members that have any direct affiliation with the participants in the appeal will participate in the Level 2 Appeal.

SERC Staff shall post on the SERC website the notice of the Level 2 appeal and other relevant materials at least fifteen (15) calendar days prior to consideration of the Level 2 appeal by the SERC Executive Committee.

In addition to the appellant, any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System, and who is directly and materially affected by the substantive or procedural action referenced in the complaint shall be heard by the SERC Executive Committee. The SERC Executive Committee shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal.

The Executive Committee may direct the Standards Committee to research and/or advise it on technical issues or matters related to the appeal. Each appellant, any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System, and who is directly and materially affected by the substantive or procedural action referenced in the complaint may request that an ad-hoc committee be formed to assist the Executive Committee in its review.

The SERC Executive Committee may in its decision find for the appellant and remand the issue to the SERC Standards Committee for resolution with a statement of the issues and facts in regard to which fair and equitable action was not taken.

The SERC Executive Committee may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections.

The actions of the SERC Executive Committee shall be posted on the SERC website. A notice of the posting will be sent to the appellant, all SERC Board of Directors representatives and alternates, and all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

Authorized for Development

Title of Proposed Standard:
Request Date:

SAR Originator Information

Name	SAR Type (Check box for one of these selections.)	
Company	<input type="checkbox"/>	New Standard
Telephone	<input type="checkbox"/>	Revision to Existing Standard
Fax	<input type="checkbox"/>	Withdrawal of Existing Standard
E-mail	---	-----

Purpose (Describe the purpose of the proposed Standard — what the Standard will achieve in support of reliability.)
--

Industry Need (Provide a detailed statement justifying the need for the proposed Standard, along with any supporting documentation.)

SERC Regional Reliability Standard Development Procedure

Brief Description (Describe the proposed standard in sufficient detail to clearly define the scope in a manner that can be easily understood by others.)

Justification for Regional Variation (Provide a detailed statement justifying the need for the proposed Standard specifically identifying the need for a regional variation.)

Reliability Functions

The Standard will Apply to the Following Functions (Check box for each one that applies.)

	Reliability Authority	The entity that is the highest level of authority who is responsible for the reliable operation of the Bulk Electric System, has the Wide Area view of the Bulk Electric System, and has the operating tools, processes and procedures, including the authority to prevent or mitigate emergency operating situations in both next-day analysis and real-time operations. The Reliability Coordinator has the purview that is broad enough to enable the calculation of Interconnection Reliability Operating Limits, which may be based on the operating parameters of transmission systems beyond any Transmission Operator's vision.
	Balancing Authority	The responsible entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a Balancing Authority Area, and supports Interconnection frequency in real time.
	Interchange Authority	Authorizes valid and balanced Interchange Schedules
	Planning Authority	The responsible entity that coordinates and integrates transmission facility and service plans, resource plans, and protection systems.
	Transmission Service Provider	The entity that administers the transmission tariff and provides Transmission Service to Transmission Customers under applicable transmission service agreements.
	Transmission Owner	The entity that owns and maintains transmission facilities.

SERC Regional Reliability Standard Development Procedure

	Transmission Operator	The entity responsible for the reliability of its "local" transmission system, and that operates or directs the operations of the transmission facilities.
	Transmission Planner	The entity that develops a long-term (generally one year and beyond) plan for the reliability (adequacy) of the interconnected bulk electric transmission systems within its portion of the Planning Authority Area.
	Resource Planner	The entity that develops a long-term (generally one year and beyond) plan for the resource adequacy of specific loads (customer demand and energy requirements) within a Planning Authority Area.
	Generator Operator	The entity that operates generating unit(s) and performs the functions of supplying energy and Interconnected Operations Services.
	Generator Owner	Entity that owns and maintains generating units.
	Purchasing-Selling Entity	The entity that purchases or sells, and takes title to, energy, capacity, and Interconnected Operations Services. Purchasing-Selling Entities may be affiliated or unaffiliated merchants and may or may not own generating facilities.
	Distribution Provider	Provides and operates the "wires" between the transmission system and the customer.
	Load-Serving Entity	Secures energy and transmission service (and related Interconnected Operations Services) to serve the electrical demand and energy requirements of its end-use customers.

NOTE: The RSS may find it necessary to modify the initial reliability function responsibility assignment as a result of the standards development and comments received.

Applicable Reliability Principles <i>(Check all boxes that apply.)</i>	
<input type="checkbox"/>	1. Interconnected bulk power systems shall be planned and operated in a coordinated manner to perform reliably under normal and abnormal conditions as defined in the NERC Standards.
<input type="checkbox"/>	2. The frequency and voltage of interconnected bulk power systems shall be controlled within defined limits through the balancing of real and reactive power supply and demand.
<input type="checkbox"/>	3. Information necessary for the planning and operation of interconnected bulk power systems shall be made available to those entities responsible for planning and operating the systems reliably.

SERC Regional Reliability Standard Development Procedure

<input type="checkbox"/>	4. Plans for emergency operation and system restoration of interconnected bulk power systems shall be developed, coordinated, maintained, and implemented.
<input type="checkbox"/>	5. Facilities for communication, monitoring, and control shall be provided, used, and maintained for the reliability of interconnected bulk power systems.
<input type="checkbox"/>	6. Personnel responsible for planning and operating interconnected bulk power systems shall be trained, qualified, and have the responsibility and authority to implement actions.
<input type="checkbox"/>	7. The security of the interconnected bulk power systems shall be assessed, monitored, and maintained on a wide-area basis.
Does the proposed Standard comply with all of the following Market Interface Principles? (Select 'yes' or 'no' from the drop-down box.)	
Recognizing that reliability is an Common Attribute of a robust North American economy:	
1. A reliability standard shall not give any market participant an unfair competitive advantage. Yes	
2. A reliability standard shall neither mandate nor prohibit any specific market structure. Yes	
3. A reliability standard shall not preclude market solutions to achieving compliance with that standard. Yes	
4. A reliability standard shall not require the public disclosure of commercially sensitive information. All market participants shall have equal opportunity to access commercially non-sensitive information that is required for compliance with reliability standards. Yes

Appendix D: Elements of a SERC Regional Reliability Standard

Title	A brief, descriptive phrase identifying the topic of the standard.
Identification Number	A unique identification number assigned to facilitate tracking and reference to SERC Regional Reliability Standards. The identification number will be consistent with the Numbering Convention for NERC Regional Reliability Standards. The latest approved version of the convention will be posted on the SERC website (www.serc1.org).
Effective Date and Status	The effective date of the standard or, prior to adoption of the standard by the Board of Directors, the proposed effective date.
Purpose	The purpose of the standard. The purpose shall explicitly state what outcome is expected by this standard.
Applicability	Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire SERC area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.
Violation Severity Levels	Defines the degree to which compliance with a requirement was not achieved. The violation severity levels, are part of the standard and are balloted with the standard, and developed by the NERC and SERC compliance programs in coordination with the Responsible SERC Subgroup.

SERC Regional Reliability Standard Development Procedure

Risk Factor(s)	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to abnormal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p> <p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>
-----------------------	--

SERC Regional Reliability Standard Development Procedure

Measure(s)	Each requirement shall be addressed by one or more measurements. Measurements that will be used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measurement identifies to whom the measurement applies and the expected level of performance or outcomes required demonstrating compliance. Each measurement shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the full compliance level of each measurement should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.
Compliance Monitoring Process	Defines for each measure: <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.• Violation severity levels.

SERC Regional Reliability Standard Development Procedure

Attached Supporting Information Elements

Interpretations	Any interpretations of the SERC Regional Reliability Standards that were developed, and approved by the SERC Executive Committee, to expound on the application of the standard for unusual or unique situations.
Implementation Plan	Each SERC Regional Reliability Standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	This section references related documents that support reasons for, or otherwise provide additional information related to the standard. Examples include, but are not limited to: <ul style="list-style-type: none">• Glossary of Terms• Developmental history of the standard and prior versions• Responsible SERC Subgroup• Notes pertaining to implementation or compliance• Standard references• Procedures/Practices• Training and/or Technical Reference• Frequently Asked Questions Document

Appendix G: SERC Process Flow Diagram

SERC Regional Reliability Standard Development Procedure

SERC Regional Reliability Standard Development Procedure

SERC Compliance Monitoring and Enforcement Program

Exhibit D to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

SERC Reliability Corporation will implement the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures), to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within SERC Reliability Corporation's geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

SERC Reliability Corporation shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be a balanced compliance panel reporting directly to SERC Reliability Corporation's board.

SERC Reliability Corporation's Hearing Body is the Board Compliance Committee, or a subset of the Board Compliance Committee. The Board Compliance Committee is comprised of SERC board members appointed by the Board of Directors. The Board Compliance Committee representation is as follows:

- The Investor-Owned Utility Sector shall have three (3) representatives;
- The Federal/State Sector shall have two (2) representatives;
- The Cooperative Sector shall have two (2) representatives;
- The Municipal Sector shall have two (2) representatives;
- The Marketer Sector shall have one (1) representative;
- The Merchant Electricity Sector shall have one (1) representative;
- The ISO-RTO/Customer Sector shall have one (1) representative

Consistent with the Hearing Procedures, a quorum for the purpose of constituting a Hearing Body shall be half of SERC's Board Compliance Committee, or six members including alternates. In addition to the quorum requirement, the chair of the Board Compliance Committee shall declare the Hearing Body duly constituted only if no two sectors can control and no one sector can veto the actions of the Hearing Body (the "Sector Control Requirements"). To ensure that the Sector Control Requirements are met in the formation of a Hearing Body, the Chair shall adhere to the following in declaring the Hearing Body duly constituted:

- If the Hearing Body is made up of six (6) members of the BCC, then each sector shall have no more than one (1) representative on the Hearing Body.

- If the Hearing Body is made up of seven (7) or eight (8) members of the BCC, then only one sector can have two (2) representatives on the Hearing Body, and each other sector can have only one (1) representative on the Hearing Body.
- If the Hearing Body is made up of nine (9) or ten (10) members of the BCC, then no sector can have more than two (2) representatives on the Hearing Body.
- If the Hearing Body is made up of eleven (11) or twelve (12) members of the BCC, then the Sector Control Requirements are met, as no two sectors would have enough votes to control, and no one sector would have the ability to veto.

Approval of all actions before a duly constituted Hearing Body shall require a simple majority of the votes cast, with each member of the Hearing Body having one vote. The decision of any duly constituted Hearing Body pursuant to these requirements shall be final and binding on the Corporation, without requiring either the full Compliance Committee or the Corporation to ratify the Hearing Body's actions.

3.0 OTHER DECISIONMAKING BODIES

SERC Reliability Corporation does not use decision making bodies within its compliance program other than the Board Compliance Committee described in Section 2.0.

SERC Funding

Exhibit E to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

SERC shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) NERC and SERC, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of SERC's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require SERC (i) to submit to NERC draft(s) of SERC's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by SERC Board of Trustees to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of SERC's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The SERC business plan and budget submission shall include supporting materials, including SERC's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. SERC's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(b) NERC shall review and approve SERC's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct SERC to make such revisions as NERC deems appropriate prior to approval. NERC shall submit SERC's approved business plan and budget and proposed assessments to the Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of SERC's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in

accordance with Section 9(b) of the Agreement. SERC shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying SERC's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of SERC's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.

4. Collection of Funding

(a) NERC shall submit invoices to the load-serving entities or designees identified by SERC covering the NERC and SERC assessments approved for collection.

(b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, SERC shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, SERC is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within SERC's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within SERC's region.

(c) Upon approval by ERO Governmental Authorities of SERC's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay SERC's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by SERC, other than penalty monies received from an operational function or division or affiliated entity of SERC, shall be applied as a general offset to SERC's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of SERC shall be transmitted to or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.

6. Budget and Funding for SERC's Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), SERC performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"): None.

SERC shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-

statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions:
Not applicable.

SERC shall provide its budget for such non-statutory activities to NERC at the same time that SERC submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. SERC's budget for non-statutory activities that is provided to NERC shall contain a detailed list of SERC's non-statutory activities and a description of the funding sources for the non-statutory activities. SERC agrees that no costs (which shall include a reasonable allocation of SERC's general and administrative costs) of non-statutory activities are to be included in the calculation of SERC's assessments, dues, fees, and other charges for its statutory activities.

Costs associated with Cross-Regional Compliance Monitoring. The costs associated with any Cross-Regional Compliance Monitoring performed by SERC pursuant to section 6(j) of this Agreement with respect to registered functions of another Regional Entity are to be funded by payments from the NERC or the Regional Entity contracting with SERC for such services, in accordance with the contract between SERC and NERC or the other Regional Entity. Where such a contract has been entered into SERC will include a description of the resources it has budgeted to perform such services, and its estimated costs (including an appropriate allocation of SERC's General and Administrative costs) to perform such services, in each budget year, in SERC's annual business plan and budget that is submitted to NERC and to the Commission for approval.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if SERC determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, SERC shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in SERC's approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct SERC to make such revisions as NERC deems appropriate prior to approval. NERC shall submit SERC's approved amended or supplemental business plan and budget and proposed supplemental assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by SERC pursuant to Section 9(h) and (i) of the Agreement. SERC shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

REVISED DELEGATION AGREEMENT

WITH

SERC RELIABILITY CORPORATION

REDLINED AGAINST

REVISED PRO FORMA DELEGATION AGREEMENT

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND [REGIONAL ENTITY] AND SERC RELIABILITY CORPORATION**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of [January 1, 2011], between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and [REGIONAL ENTITY], SERC Reliability Corporation (“SERC”), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and [REGIONAL ENTITY], SERC may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as [REGIONAL ENTITY], SERC provided that:

(A) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, ~~[REGIONAL ENTITY]~~ [is/SERC] is not organized on an Interconnection-wide basis and therefore ~~[is/is not]~~ entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through ~~[REGIONAL ENTITY]~~ [SERC] to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that ~~[REGIONAL ENTITY]~~ [SERC] meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and ~~[REGIONAL ENTITY]~~ [SERC], having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated

Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and ~~[REGIONAL ENTITY]~~SERC agree as follows:

1. **Definitions.** The capitalized terms used in this Agreement shall be defined as set forth in the Act, the ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to ~~[REGIONAL ENTITY]~~SERC to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. **Representations.**

(a) For purposes of its Delegated Authority, ~~[REGIONAL ENTITY]~~SERC hereby represents and warrants to NERC that:

(i) ~~[REGIONAL ENTITY]~~SERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. ~~[REGIONAL ENTITY]~~SERC is governed in accordance with its bylaws by ~~[select appropriate: an independent board/a balanced stakeholder board/a combination independent and balanced stakeholder board]~~. Pursuant to these bylaws, no two industry sectors can control any ~~[REGIONAL ENTITY]~~SERC decision and no single industry sector can veto any ~~[REGIONAL ENTITY]~~SERC

[\[ENTITY\]SERC](#) decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon [\[REGIONAL ENTITY\]SERC](#).

(ii) As set forth in **Exhibit C** hereto², [\[REGIONAL ENTITY\]SERC](#) has developed a standards development procedure, which provides the process that [\[REGIONAL ENTITY\]SERC](#) may use to develop Regional Reliability Standards [and Regional Variances, if the regional entity is organized on an Interconnection-wide basis] that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, [\[REGIONAL ENTITY\]SERC](#) has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within [\[REGIONAL ENTITY\]SERC](#)'s geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to [\[REGIONAL ENTITY\]SERC](#) that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. Covenants.

(a) During the term of this Agreement, [\[REGIONAL ENTITY\]SERC](#) shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

¹ The **Exhibit B** from [\[REGIONAL ENTITY\]SERC](#) shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from [\[REGIONAL ENTITY\]SERC](#) shall meet the requirements contained in **Exhibit C** to this Agreement.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of [\[REGIONAL ENTITY\]SERC](#) under this Agreement without first obtaining the consent of [\[REGIONAL ENTITY\]SERC](#), which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and [\[REGIONAL ENTITY\]SERC](#) shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. **Delegation of Authority.**

(a) Based upon the representations, warranties and covenants of [\[REGIONAL ENTITY\]SERC](#) in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to [\[REGIONAL ENTITY\]SERC](#) for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that [\[REGIONAL ENTITY\]SERC](#) shall not monitor and enforce compliance with Reliability Standards for [\[REGIONAL ENTITY\]SERC](#) or an affiliated entity with respect to reliability functions for which [\[REGIONAL ENTITY\]SERC](#) or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to [\[REGIONAL ENTITY\]SERC](#) within, or additions to this delegation of authority to [\[REGIONAL ENTITY\]SERC](#) beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where [\[REGIONAL ENTITY\]SERC](#) or an affiliated entity is a Registered Entity, [\[REGIONAL ENTITY\]SERC](#) shall enter into an agreement with another Regional Entity or NERC for the other Regional Entity or NERC to monitor and enforce [\[REGIONAL ENTITY\]SERC](#)'s or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit [\[REGIONAL ENTITY\]SERC](#) from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC

and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both [\[REGIONAL ENTITY\]SERC](#) and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, [\[REGIONAL ENTITY\]SERC](#) shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, [\[REGIONAL ENTITY\]SERC](#) shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords [\[REGIONAL ENTITY\]SERC](#) reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards [and Regional Variances, if Regional Entity is organized on an Interconnection-wide basis] through [\[REGIONAL ENTITY\]SERC](#)'s process as set forth in **Exhibit C**. Proposals approved through [\[REGIONAL ENTITY\]SERC](#)'s process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. [\[REGIONAL ENTITY\]SERC](#)

may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. **Enforcement of Compliance with Reliability Standards.**

(a) In connection with its delegated authority pursuant to this Agreement, ~~[REGIONAL ENTITY]~~SERC shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and ~~[REGIONAL ENTITY]~~SERC agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. ~~[REGIONAL ENTITY]~~SERC may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, ~~[REGIONAL ENTITY]~~SERC agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) ~~[REGIONAL ENTITY]~~SERC shall report promptly to NERC any -Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by ~~[REGIONAL ENTITY]~~SERC. Such report shall include the owner's,

operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and ~~[REGIONAL ENTITY]~~SERC shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by ~~[REGIONAL ENTITY]~~SERC of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review ~~[REGIONAL ENTITY]~~SERC's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by ~~[REGIONAL ENTITY]~~SERC in accordance with the NERC Rules of Procedure, NERC directives and Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability

Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by [\[REGIONAL ENTITY\]SERC](#) and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. [\[REGIONAL ENTITY\]SERC](#) may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of [\[REGIONAL ENTITY\]SERC](#)'s disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by [\[REGIONAL ENTITY\]SERC](#) as a result of a decision by [\[REGIONAL ENTITY\]SERC](#)'s Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) [\[REGIONAL ENTITY\]SERC](#) shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) [\[REGIONAL ENTITY\]SERC](#) shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, [\[REGIONAL ENTITY\]SERC](#) shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or

decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review ~~[REGIONAL ENTITY]~~SERC's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

(j) SERC may also perform compliance monitoring and enforcement activities outside of the Region shown on Exhibit A, on behalf of NERC and/or other Regional Entities, such activities to be undertaken pursuant to a contract between SERC and each such other Regional Entity that is approved by NERC and by the Commission.

7. Delegation-Related Activities.

NERC will engage ~~[REGIONAL ENTITY]~~SERC on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. ~~[REGIONAL ENTITY]~~SERC shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by [\[REGIONAL ENTITY\]SERC](#) and other Regional Entities. [\[REGIONAL ENTITY\]SERC](#) shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. [\[REGIONAL ENTITY\]SERC](#) shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. [\[REGIONAL ENTITY\]SERC](#) shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by [\[REGIONAL ENTITY\]SERC](#) and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. [\[REGIONAL ENTITY\]SERC](#) shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and [\[REGIONAL ENTITY\]SERC](#) shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, [\[REGIONAL ENTITY\]SERC](#) shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. [\[REGIONAL ENTITY\]SERC](#) may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) [REGIONAL ENTITY]SERC shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) [REGIONAL ENTITY]SERC shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of [REGIONAL ENTITY]SERC's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and [REGIONAL ENTITY]SERC that matters relating to NERC's oversight of [REGIONAL ENTITY]SERC's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and [REGIONAL ENTITY]SERC and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with [REGIONAL ENTITY]SERC and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and [REGIONAL ENTITY]SERC's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. [REGIONAL ENTITY]SERC shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate [REGIONAL ENTITY]SERC's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate [REGIONAL ENTITY]SERC's performance of its delegated functions and related activities and to provide advice and direction to [REGIONAL ENTITY]SERC on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, [REGIONAL ENTITY]SERC and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, [REGIONAL ENTITY]SERC shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of [REGIONAL ENTITY]SERC's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring [REGIONAL ENTITY]SERC to adopt and implement an action plan or other remedial action, NERC shall issue a notice to [REGIONAL ENTITY]SERC of the need and basis for an action plan or other remedial action and provide an opportunity for [REGIONAL ENTITY]SERC to submit a written response contesting NERC's evaluation of [REGIONAL ENTITY]SERC's performance and the need for an action plan. [REGIONAL ENTITY]SERC may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and [REGIONAL ENTITY]SERC shall work collaboratively as needed in the development and implementation of [REGIONAL ENTITY]SERC's action plan. A final action plan submitted by [REGIONAL ENTITY]SERC to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to [REGIONAL ENTITY]SERC standardized training and education programs, which shall be designed taking into account input from [REGIONAL ENTITY]SERC and other Regional Entities, for [REGIONAL ENTITY]SERC personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to [REGIONAL ENTITY]SERC concerning the manner in which [REGIONAL ENTITY]SERC shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO

Rule requiring approval of the Commission, shall not be considered “directives.” NERC shall initiate the development of a directive through a collaborative process with [REGIONAL ENTITY]SERC and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and [REGIONAL ENTITY]SERC and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), [REGIONAL ENTITY]SERC and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, [REGIONAL ENTITY]SERC, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by [REGIONAL ENTITY]SERC, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without [REGIONAL ENTITY]SERC's agreement, *provided*, that [REGIONAL ENTITY]SERC shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and [REGIONAL ENTITY]SERC and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which [REGIONAL ENTITY]SERC, and, if applicable, other

Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. [\[REGIONAL ENTITY\]SERC](#), either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with [\[REGIONAL ENTITY\]SERC](#), either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of [\[REGIONAL ENTITY\]SERC](#) performed by NERC shall be limited to an examination of [\[REGIONAL ENTITY\]SERC](#)'s compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. [\[REGIONAL ENTITY\]](#)

[SERC](#) and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) [\[REGIONAL ENTITY\]SERC](#) shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. [\[REGIONAL ENTITY\]SERC](#)'s proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, [\[REGIONAL ENTITY\]SERC](#) to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. [\[REGIONAL ENTITY\]SERC](#)'s business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) [REGIONAL ENTITY]SERC and NERC agree that the portion of [REGIONAL ENTITY]SERC's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by [REGIONAL ENTITY]SERC and approved by NERC and the Commission. If [REGIONAL ENTITY]SERC proposes to use a formula other than Net Energy for Load beginning in the following year, [REGIONAL ENTITY]SERC shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and [REGIONAL ENTITY]SERC to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equity requirement.

(d) NERC shall provide [REGIONAL ENTITY]SERC with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) [REGIONAL ENTITY]SERC shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of [REGIONAL ENTITY]SERC, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund [REGIONAL ENTITY]SERC's performance of its Delegated Authority and related activities in accordance with [REGIONAL ENTITY]SERC's Commission-approved business plan and budget, in the amount of [REGIONAL

ENTITYSERC's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting REGIONAL ENTITYSERC's approved assessments from end users and other entities and payment of the approved assessment amount to REGIONAL ENTITYSERC, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon REGIONAL ENTITYSERC that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without REGIONAL ENTITYSERC's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and REGIONAL ENTITYSERC fiscal year budget with the actual results at the NERC and Regional Entity levels. REGIONAL ENTITYSERC shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) REGIONAL ENTITYSERC shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) REGIONAL ENTITYSERC shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which REGIONAL ENTITYSERC shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of REGIONAL ENTITYSERC) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which REGIONAL ENTITYSERC shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of REGIONAL ENTITYSERC. *Provided*, that, subject to approval by NERC and the Commission, REGIONAL ENTITYSERC may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment.

This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. ~~[REGIONAL ENTITY]~~SERC may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit ~~[REGIONAL ENTITY]~~SERC from contracting with other entities to assist it in carrying out its Delegated Authority, provided ~~[REGIONAL ENTITY]~~SERC retains control and responsibility for such Delegated Authority.

11. Default and Cure.

Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on [January 1, 2011] (the "Effective Date").

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that

[REGIONAL ENTITY]SERC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If [REGIONAL ENTITY]SERC meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that [REGIONAL ENTITY]SERC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of [REGIONAL ENTITY]SERC's Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time [REGIONAL ENTITY]SERC may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by [REGIONAL ENTITY]SERC and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. **Limitation of Liability.** [REGIONAL ENTITY]SERC and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and [REGIONAL ENTITY]SERC shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the [REGIONAL ENTITY]SERC's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the [REGIONAL ENTITY]SERC or NERC is found liable for gross negligence or intentional misconduct, in which case [REGIONAL ENTITY]SERC or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. **No Third Party Beneficiaries.** Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. **Confidentiality.** During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that

confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of [\[REGIONAL ENTITY\]SERC](#) under this Agreement without first obtaining the consent of [\[REGIONAL ENTITY\]SERC](#), which consent shall not be unreasonably withheld or delayed. To the extent [\[REGIONAL ENTITY\]SERC](#) does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of [\[REGIONAL ENTITY\]SERC](#) under this Agreement, [\[REGIONAL ENTITY\]SERC](#) shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by [\[REGIONAL ENTITY\]SERC](#) to NERC and the Commission, or at such other time as may be mutually agreed by [\[REGIONAL ENTITY\]SERC](#) and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and [\[REGIONAL ENTITY\]SERC](#) (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to [\[REGIONAL ENTITY\]SERC](#)'s performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. [\[REGIONAL ENTITY\]SERC](#) shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to

comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution

mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however,* that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice.

Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

<p>If to NERC:</p> <p>North American Electric <u>Reliability Corporation</u> 116-390 Village Blvd. Princeton, NJ 08540-5721 Attn: General Counsel Facsimile: (609) 452-9550</p>	<p>If to [REGIONAL ENTITY]<u>SERC</u>:</p> <p><u>SERC Reliability Corporation</u> <u>2815 Coliseum Centre Drive</u> <u>Suite 500</u> <u>Charlotte, NC 28217</u> Attn: <u>President and CEO</u> Facsimile: <u>— (704) 357-7914</u></p>
---	--

20. Governing Law.

When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the

jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings.

The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause.

Nothing in this Agreement shall be construed to preempt or limit any authority that ~~[REGIONAL ENTITY]~~SERC may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement.

This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts.

This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

SERC Regional Boundaries

Exhibit A to the Amended and Restated Regional Entity Delegation Agreement between

**North American Electric Reliability Corporation
and
SERC Reliability Corporation**

1.0 Regional Boundaries

The geographic boundaries of SERC Reliability Corporation (SERC) are determined by the service areas of its membership, comprised of investor-owned utilities, municipal, cooperative, state and federal systems, merchant electricity generators and power marketers.

SERC covers an area of approximately 560,000 square miles in sixteen states: all of Alabama, Georgia, Mississippi, North Carolina and South Carolina, and portions of Arkansas, Florida, Illinois, Iowa, Kentucky, Louisiana, Missouri, Oklahoma, Tennessee, Texas and Virginia.

Service provided by SERC members in areas which overlap with neighboring regions:

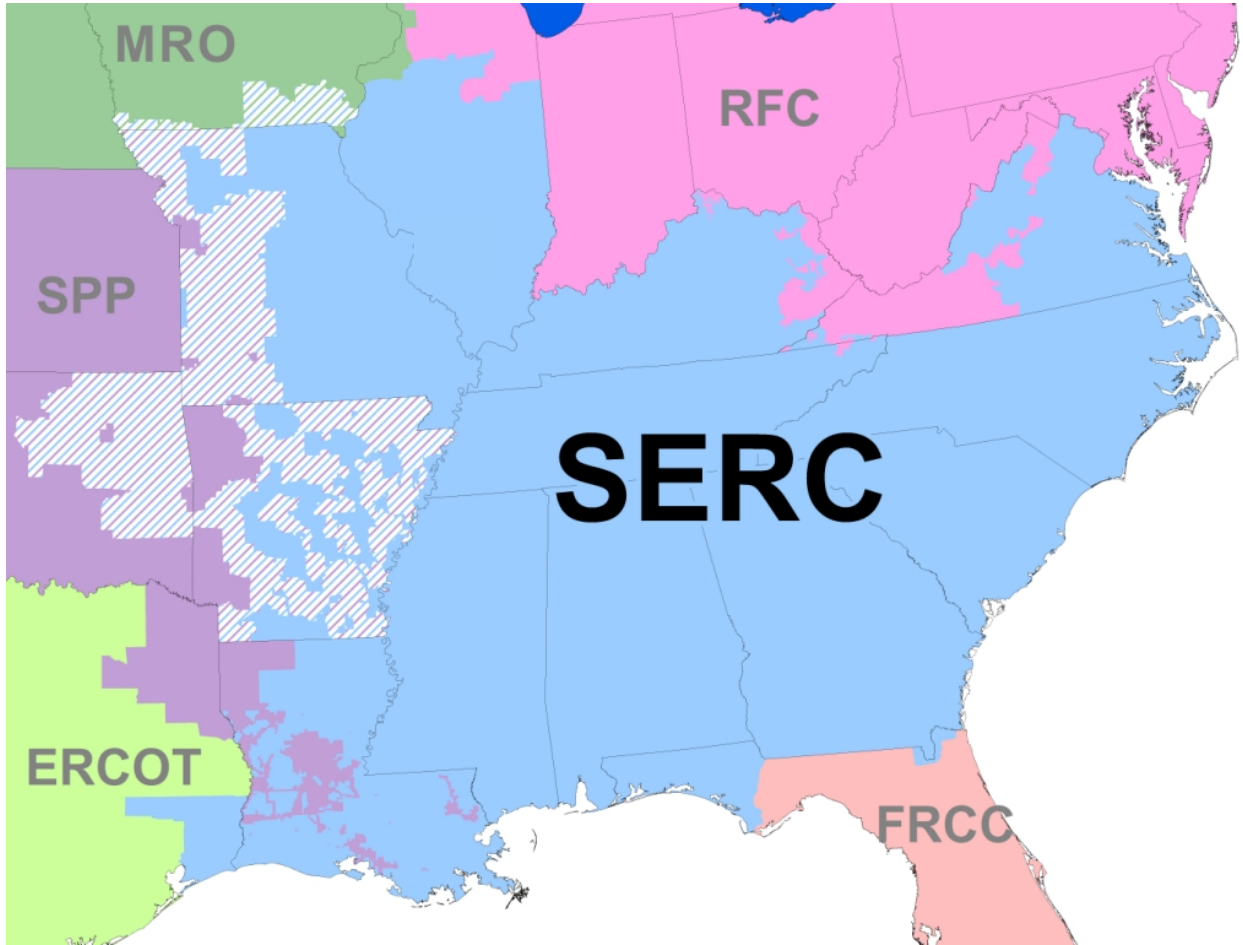

- The area in southern Iowa is served by N.E. Missouri Electric Power Cooperative, a member of Associated Electric Cooperative, Inc., and N.W. Electric Power Cooperative, a member of Associated Electric Cooperative, Inc.
- The area in eastern Oklahoma is served by KAMO Electric Cooperative, Inc., a member of Associated Electric Cooperative, Inc.
- The area in Arkansas is served by Entergy Arkansas.
- The area in western Missouri is served by N.W. Electric Power Cooperative, a member of Associated Electric Cooperative, Inc., and KAMO Electric Cooperative, Inc., a member of Associated Electric Cooperative, Inc.
- The area in N.E. Florida (part of Baker and Nassau counties) ~~is~~ served by Okefenoke Rural Electric Membership Corporation (OREMC), a member of Georgia System Operations Corporation, and facilities physically located in Baker County, Florida owned by Georgia Transmission Corporation (GTC) are ~~and is therefore~~ part of the SERC Region and not the FRCC Region.

A regional map is shown in Section 1.1.

SERC may also perform compliance and enforcement activities outside of the Region, on behalf of NERC and/or other Regional Entities, such activities to be undertaken pursuant to a contract between the Regional Entities that is approved by the Board Executive Committee, NERC and the Federal Energy Regulatory Commission.

SERC Governance

Exhibit B
to the
Amended and Restated
Regional Entity Delegation Agreement
between

North American Electric Reliability Corporation
and
SERC Reliability Corporation

Exhibit B – Governance

Exhibit B ~~shall set~~sets forth ~~the Regional Entity's~~[SERC Reliability Corporation's](#) bylaws, which NERC agrees demonstrate that ~~the Regional Entity~~[SERC](#) meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

AMENDED AND RESTATED
BYLAWS
OF
SERC RELIABILITY CORPORATION
[Hereinafter referred to as the "Corporation"]
An Alabama Nonprofit Corporation

ARTICLE I
OFFICES

1.1 **Principal Office**. The principal office of the Corporation shall be located in the City of Charlotte, Mecklenburg County, North Carolina. The Board of Directors may by resolution change the location of this office from time to time.

1.2 **Other Offices**. The Corporation may have other offices, either within or outside of the State of Alabama, at such place or places as the Board of Directors may from time to time appoint or the business of the Corporation may require.

ARTICLE II
SEAL

2.1 **Seal**. The corporate seal shall be in circular form and shall have inscribed thereon the name of the Corporation, the words "Corporate Seal", and such other word or words, if any, as may be determined by the Board of Directors to be inscribed thereon.

ARTICLE III

MEMBERSHIP

3.1 **General.** The Corporation shall be a membership corporation. Members shall hereinafter be referred to collectively as "Members" or "Member Systems."

3.2 **Eligibility.** Membership in the Corporation is open to any entity that is a user, owner or operator of the Bulk-Power System and subject to the jurisdiction of the Federal Energy Regulatory Commission for the purpose of complying with Reliability Standards established under Section 215 of the Federal Power Act and all amendments thereto. Membership in the Corporation is voluntary; however, membership is predicated on mandatory acceptance of the responsibility to promote, support, and comply with Reliability Standards of the Corporation and the North American Electric Reliability Corporation ("NERC"), and to assist the Corporation in its compliance with the terms and provisions of a Delegation Agreement (a "Delegation Agreement") with NERC, by which NERC delegates authority to propose and enforce Reliability Standards, pursuant to 16 U.S.C. § 824n. For purposes of these Bylaws, the terms "Bulk-Power System," "Reliability Standards" and "Regional Entity" shall be as defined in 16 U.S.C. § 824n.

3.3 **Termination.** Members may cease to be a member of the Corporation by giving the Board of Directors at least 30 days written notice of their intention to cease such membership (such members shall hereinafter be referred to as "Terminated Members"). Terminated Members shall nevertheless continue to be liable for any and all obligations they may have had to pay of a share of the expenses of the Corporation incurred prior to the end of the calendar year in which such notice is given. In addition to termination of membership by the Member, the Board of Directors, following notice to the Member, may terminate the membership of a Member if in the judgment of the Board of Directors that Member has violated its obligations and responsibilities to the Corporation. This termination shall require a Bicameral Supermajority vote.

3.4 **Sectors.** Each Member and the Customer Representatives shall be classified by the Executive Committee in one of the following seven Sectors (each a "Sector", and collectively, the "Sectors"):

- (a) Investor-Owned Utility Sector – This Sector includes any investor-owned entity with substantial business interest in ownership and/or operation in any of the asset categories of generation, transmission or distribution.
- (b) Federal/State Sector – This Sector includes any U.S. federal entity that owns and/or operates electric facilities and/or provides balancing authority services, in any of the asset categories of generation, transmission, or distribution; or any entity that is owned by or subject to the governmental authority of a state and that is engaged in the generation, delivery, and/or sale of electric power to end use customers primarily with the political boundaries of the state.
- (c) Cooperative Sector – This Sector includes any non-governmental entity

that is incorporated under the laws of the state in which it operates, is owned by and provides electric service to end-use customers at cost, and is governed by a board of directors that is elected by the membership of the entity; and any non-governmental entity owned by and which provides generation and/or transmission service to such entities.

- (d) Municipal Sector – This Sector includes any entity owned by or subject to the governmental authority of a municipality, that is engaged in the generation, delivery, and/or sale of electric power to end-use customers primarily within the political boundaries of the municipality; and any entity, whose members are municipalities, formed under state law for the purpose of generating or purchasing electricity for sale at wholesale to their members.
- (e) Marketer Sector– This Sector includes any entity that is engaged in the activity of buying and selling of wholesale electric power in the Region on a physical or financial basis.
- (f) Merchant Electricity Generator Sector – This Sector includes any entity that owns or operates an electricity generating facility or provides balancing authority services for such entities. This includes, but is not limited to, small power producers and all other non-utility producers such as exempt wholesale generators who sell electricity at wholesale.
- (g) ISO-RTO/Customer Sector– This Sector includes (i) any entity that operates a FERC approved ISO or RTO and (ii) the Customer Representatives.

The Executive Committee's classification of a Member in a particular Sector may only be changed by the Executive Committee. For purposes of these bylaws, the term "Customer Representative" shall mean a person who represents an entity that receives service at retail and does not otherwise sell, purchase, or transmit power over the Bulk-Power System or own, operate or maintain, control or operate facilities or systems that are part of the Bulk-Power System.

3.5 **Transfer of Membership.** A Member may not give or otherwise transfer its membership, except to a successor that becomes a Member, and provided that the successor continues to meet its predecessor's obligations.

ARTICLE IV

PURPOSES

4.1 **General Purposes.** The purpose of the Corporation is to promote effective and efficient administration of Bulk-Power System reliability in the areas serviced by its Member Systems. In pursuant of this goal, the Corporation will:

- (a) enter into a Delegation Agreement to serve as a Regional Entity pursuant to 16 U.S.C. § 824n;
- (b) promote the development of reliability and adequacy arrangements among the systems within the Region;
- (c) participate in the establishment of Reliability Standards;
- (d) participate in the measurement of performance relative to these Reliability Standards;
- (e) promote conformance to and compliance with these Reliability Standards;
- (f) develop and exchange information with respect to planning and operating matters relating to the reliability and adequacy of the Bulk-Power System;
- (g) review as necessary activities within the Region on reliability and adequacy in order to meet Reliability Standards;
- (h) provide a mechanism to resolve disputes on reliability issues in a manner that meets the needs of the parties and the Region;
- (i) provide information with respect to matters considered by the Corporation, where appropriate, to the Federal Energy Regulatory Commission ("FERC") and to other federal and state agencies concerned with reliability and adequacy; and

4.2 **Geographic Area.** The Corporation accomplishes its purposes in a geographic area of approximately 560,000 square miles in a sixteen state area in the southeastern and central United States (the "Region"). The Region is currently geographically divided into five subregions that are identified as Southeastern, Central, VACAR, Delta, and Gateway. The number of subregions and the geographic area are subject to change upon approval of the Board of Directors.

4.3 **Other Statutory Activities.** The Corporation may also perform statutory functions outside of the Region, on behalf of NERC or other Regional Entities, such activities to be undertaken pursuant to a contract that is approved by the Board Executive Committee.

ARTICLE V

BOARD OF DIRECTORS

5.1 **General Powers.** The affairs of the Corporation shall be managed by its Board of Directors. Directors need not be residents of the State of Alabama.

5.2 **Number.** The Board of Directors shall consist of the principal officer or other authorized representative from each Member and shall also include two (2) Board of Director

positions for Customer Representatives. The Board shall consist of no fewer than three (3) directors and no more than one hundred (100) directors. The current number of directors shall be fifty-four (54). Each Director shall serve until otherwise replaced by the applicable Member.

5.3 **Regular Meetings of the Board.** Unless otherwise determined by the Chairman, a regular meeting of the Board of Directors shall be held without other notice than this bylaw on the fourth Wednesday in the months of April and October in each year, beginning with the year 2005. Notwithstanding the foregoing, the Chairman may elect to hold a regular semi-annual meeting of the Board of Directors on another date provided that the Board receives at least the (10) days' advance notice. If the day fixed for the meeting shall be a legal holiday in the State of Alabama, the meeting shall be held on the next succeeding business day. The Board of Directors may designate any place, either within or outside of the State of Alabama, as the place of meeting for any meeting. The Board of Directors may provide by resolution the time and place, either within or outside of the State of Alabama, for the holding of additional regular meetings of the Board without other notice than the resolution. Members of the Board of Directors or any committee designated thereby may participate in a meeting of such Board or committee by means of a telephone conference, webcast or any other communication by means of which all persons participating in the meeting can hear each other at the same time, and participation by such means shall constitute presence in person at such meeting.

5.4 **Special Meetings of the Board.** Special meetings of the Board of Directors may be called by or at the request of the Chairman, or by directors holding (20%) or more of the Individual Votes. The Chairman may fix any place, either within or outside of the State of Alabama, as the place for holding any special meeting of the Board.

5.5 **Notice of Special Meetings.** Notice of any special meeting of the Board of Directors shall be given at least two days previously by written notice delivered personally or sent by mail to each director at the address as shown by the records of the Corporation. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail in a sealed envelope so addressed, with postage prepaid. Any director may waive notice of any meeting. The attendance of a director at any meeting shall constitute a waiver of notice of such meeting, except where a director attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any special meeting of the board need be specified in the notice or waiver of notice of such meeting, unless specifically required by law or by these Bylaws.

5.6 **Election of Officers and Executive Committee.** Biennially, at the April meeting, the Board of Directors shall elect one of their directors to serve as Chairman, one as Vice Chairman, and one as Secretary-Treasurer, each for a term of two years. The Chairman shall conduct all meetings and shall be responsible for the preparation of the agenda. In the Chairman's absence, the Vice Chairman shall serve as Chairman. In the event that an officer cannot complete a term, a special election may be held. At the same time, the Board shall also approve members to the Executive Committee elected by the Sectors to serve for a period of two years. Each Sector may also elect alternate members to the Executive Committee, and, if a Sector has more than one member on the Executive Committee, such Sector shall designate the priority of succession by such alternates.

5.7 **Agenda.** As far in advance of each regular and special meeting as practical, an

agenda shall be distributed to each Board member and representative.

5.8 **Certain Definitions.**

(a) "Adjusted Weighted Vote" shall mean the number of votes of each director determined in the manner set forth in Section 5.9 hereof.

(b) "Bicameral Simple Majority" shall require the presence of a quorum and the (i) concurrence of directors whose combined Individual Votes are greater than fifty (50) percent of the total Individual Votes of all directors present at the meeting and entitled to vote on the issue (the "Individual Vote Test"), (ii) concurrence of directors whose combined Adjusted Weighted Votes are greater than fifty (50) percent of the total Adjusted Weighted Vote of all directors at the meeting and entitled to vote on the issue (the "Adjusted Weighted Vote Test"), and (iii) for at least one of the Individual Vote Test or the Adjusted Weighted Vote Test, on a individual Sector basis, the positive vote must outweigh the negative vote for at least three Sectors.

(c) "Bicameral Supermajority" shall require the presence of a quorum and the concurrence of (i) directors whose combined Individual Votes equal or exceed two-thirds of the total Individual Votes of all directors present at the meeting and entitled to vote on the issue, provided that a quorum is present, and (ii) directors whose combined Adjusted Weighted Votes are greater than two-thirds of the total Adjusted Weighted Vote of all directors present at the meeting and entitled to vote on the issue.

(d) "Individual Vote" shall mean a single vote accorded to each director.

(e) "Given Year" shall mean the applicable fiscal year for which the Adjusted Weighted Votes are calculated.

(f) "Reporting Year" shall mean the fiscal year immediately preceding the Given Year.

(g) "Previous Year" shall mean the fiscal year immediately preceding the Reporting Year.

5.9 **Determination of Adjusted Weighted Vote.** The directors' Adjusted Weighted Votes for a Given Year shall be determined by the following formula:

$$V = 10(1/N) + 30(B/C) + 30(D/E) + 30(F/G)$$

V = % of Adjusted Weighted Vote

N = total number of Members

B = Member's Previous Year internal peak demand

C = total of factor B for all Members

D = Member's owned generating capacity as of January 1 of the

Reporting Year

E = total of factor D for all Members

F = Member's sum of circuit miles of transmission times the respective operating voltage for facilities of 69 kV and above as of December 31 of the Previous Year

G = total of factor F for all Members

5.10 **Voting; Manner of Acting; Voting Rights; Quorum; Proxies.**

(a) Except for amendments to these Bylaws, which require approval by a Bicameral Supermajority, all other actions require approval by a Bicameral Simple Majority.

(b) Notwithstanding anything else in these Bylaws, a motion is still deemed to have passed if either (but not both) the Individual Vote Test or the Adjusted Weighted Vote Test is satisfied (such test that is not satisfied is referred to as the "Failed Test"), and, for purposes of the Failed Test, on an individual Sector basis, the positive votes outweigh the negative votes in every Sector but one.

(c) Members holding two-thirds of the Individual Votes shall constitute a quorum for action by the Board; but if directors holding less than two-thirds of the Individual Votes are present at the meeting, a majority of the directors present may adjourn the meeting from time to time without further notice.

(d) Any director may designate an alternate from that Member to represent the director at any meeting by written notification to the Corporation's office; however, directors may not otherwise use proxy votes.

(e) The intent of Section 5.8(b)(iii) and Section 5.10(b) is to ensure that no two Sectors should be able to control any decision and that a single Sector should not be able to veto any matter, respectively (other than amendments to these Bylaws). In the event that either of the foregoing shall nevertheless occur, the Members will promptly revise the provisions of these Bylaws so that no two Sectors will be able to control any decision and no single Sector will be able to veto any matter.

5.11 **Customer Representative Vacancies.** Should the Board of Directors, at any time, not include two Customer Representatives, the Board of Directors shall elect (or designate the Executive Committee to elect) additional representatives to fill such vacancies. The term of these Customer Representatives shall be for a two-year period.

5.12 **Compensation.** Directors as such shall not receive any stated salaries for their services.

5.13 **Informal Action by Directors.** Any action required by law to be taken at a meeting of directors, or any action which may be taken at a meeting of directors, may be taken without a meeting if a consent in writing, setting out the action so taken, shall be signed by all of the directors.

5.14 **Duties.** The duties of the Board of Directors shall include:

- (a) Periodically review the Reliability Standards with respect to matters affecting the reliability and adequacy of the Bulk-Power System power supply within the Region;
- (b) Manage the business and affairs of the Corporation;
- (c) Adopt rules, regulations and policies to implement and accomplish the purposes and provisions of these Bylaws, as necessary;
- (d) Recommend and approve any amendments to these Bylaws;
- (e) Exercise general supervision over such committees as may be established in accordance with Article VII and Article VIII of these Bylaws;
- (f) Consider any matters relating to the general administration of the Corporation proposed by any Member;
- (g) Form or dissolve committees, subcommittees, or task forces as it deems necessary to carry out the business of the Corporation;
- (h) Delegate appropriate duties or responsibilities to any committee established pursuant to these Bylaws;
- (i) Periodically establish and approve an annual budget and any revisions thereto;
- (j) Require that adequate bond be provided covering all officers, agents, employees charged by the Corporation with responsibility for the custody of any of its funds and property;
- (k) Have power to select one or more banks or other financial institutions to act as depositories of the funds of the Corporation;
- (l) Provide for the coordination of planning activities within the Corporation;
- (m) Provide for the coordination of interconnected system operations within the Corporation;
- (n) Provide for the coordination of critical infrastructure protection activities within the Corporation;
- (o) Provide for the Corporation's membership certification;
- (p) If the membership authorizes the use of the Corporation's employees, other than contract personnel, to conduct the administrative affairs of the Corporation, the Board shall set policies for selecting, compensating and

reviewing the performance of the employees; and

- (q) Resolve any disputes regarding the Members and the Corporation, if those issues cannot be resolved by the standing committees/subcommittees of the Corporation and are not otherwise subject to NERC's dispute provisions for non-compliance with Reliability Standards.

5.15 **Vacancies.** Any vacancy occurring in the Board of Directors shall be filled by the applicable Member, except for Customer Representative vacancies which shall be filled in accordance with Section 5.11.

ARTICLE VI

EXECUTIVE COMMITTEE / CORPORATE OFFICERS

6.1 **Executive Committee Voting Members.** The Executive Committee shall consist of the following twelve (12) voting members:

- (a) The Investor-Owned Utility Sector shall have three (3) representatives;
- (b) The Federal/State Sector shall have two (2) representatives;
- (c) The Cooperative Sector shall have two (2) representatives;
- (d) The Municipal Sector shall have two (2) representatives;
- (e) The Marketer Sector shall have one (1) representative;
- (f) The Merchant Electricity Generator Sector shall have one (1) representative; and
- (g) The ISO-RTO/Customer Sector shall have one (1) representative.

It is the desire of the Board of Directors that the Cooperative and Municipal sectors have representation from both transmission dependent and transmission owning Members. Each Sector will be responsible for nominating their representative(s) and alternates from among Board Members. The Chairman, Vice Chairman, and Secretary-Treasurer shall also be ex officio members of the Executive Committee, but shall not have voting rights (unless such Board officer is also elected by a Sector to the Executive Committee pursuant to Section 6.1(a)-6.1(g)). The Chairman will serve as chairman of the Executive Committee and shall conduct all meetings and shall be responsible for the preparation of the agenda. In the event that a member of the Executive Committee is unable to complete a term, the Sector's alternate representative will replace such member.

6.2 **Authority of Executive Committee.** Except as limited by Section 10-3A-38 of the Alabama Nonprofit Corporation Act, the Executive Committee is empowered to make such

decisions and take such actions as are deemed to be required between meetings of the Board of Directors to include reviewing and acting upon applications for membership in and resignations from the Corporation.

6.3 **Action.** Each voting member of the Executive Committee shall have one vote. The presence of three quarters of the members of the Executive Committee shall constitute a quorum. The positive vote of two-thirds of Executive Committee voting members present and voting is necessary to pass a particular action.

6.4 **Nominating Committee.** Biennially, the Executive Committee will appoint a Nominating Committee for the purpose of recommending individuals to serve as Officers of the Corporation. The Nominating Committee will report to the Board at the Board's April meeting.

6.5 **Corporate Officers.** The Executive Committee shall arrange for the services of a President/Chief Executive Officer, Vice President, Secretary and Treasurer of the Corporation. Two or more of such offices may be held by the same person, except for the offices of President/Chief Executive Officer and Secretary.

6.6 **President/Chief Executive Officer.** Under general direction, the President shall be the Chief Executive Officer of the Corporation and shall manage the operations of the Corporation to the end that its purposes will be accomplished. The Board Officers shall determine the compensation and benefits for the President and Chief Executive Officer. The President shall:

- (a) Attend all Board of Directors and standing committee meetings of the Corporation and NERC Stakeholder, Board of Trustees, and Standing Committee meetings, as these committees may change from time to time and as appropriate;
- (b) Assist and coordinate the preparation of testimony and reports;
- (c) Coordinate subregional activities and interregional affairs, to include data collection;
- (d) Install and maintain an adequate system of accounts and records;
- (e) Arrange for meetings as directed;
- (f) Assist the Corporation Committee Chairmen as appropriate;
- (g) Manage the business affairs of the Corporation, including the Corporation staff;
- (h) Maintain minutes of all the Corporation-related meetings; and
- (i) Provide other assistance to the Corporation and NERC, as appropriate.

6.7 **Vice President.** The Vice President shall perform such duties and exercise such powers as may be assigned to him from time to time by the Board of Directors, the Executive

Committee or the President. In the absence of the President, or in the case of the President's inability to act, the Vice President shall perform the duties and exercise the powers of the President, but subject to the control of the Board of Directors and the Executive Committee. The Board Officers shall determine the compensation and benefits of the Vice President.

6.8 **Secretary.** The Secretary shall be custodian of the records and of the seal of the Corporation and in general shall perform all duties incident to the office of Secretary and such other duties as may, from time to time, be assigned to him by the Board of Directors, the Executive Committee or the President.

6.9 **Treasurer.** The Treasurer shall have charge and custody of, and be responsible for, all funds and securities of the Corporation and deposit all such funds in the name of the Corporation in such banks, trust companies or other depositories as shall be selected in accordance with the provisions of these Bylaws; and in general, perform all of the duties incident to the office of Treasurer and such other duties as from time to time may be assigned to him by the Board of Directors, the Executive Committee or the President.

ARTICLE VII

COMPLIANCE COMMITTEE

7.1 **Authority of Committee.** The Corporation's Compliance Committee will be vested with the authority for the Corporation Compliance Program and granted the ability to impose penalties and sanctions on behalf of NERC. The Compliance Committee shall review violations known to the Corporation's Compliance Staff discovered from audits, compliance documentation, or any other source whether self-reported, alleged, or confirmed, for the most recent period. The Compliance Committee shall review and advise the Board on the progress of the Corporation and its members in mitigating confirmed violations, and the progress of the Corporation in dealing with all unconfirmed violations. The Compliance Committee shall review the progress of the Corporation and its Members in implementing recommendations, as appropriate. The Compliance Committee shall report to the Board at each regularly scheduled meeting of the Board, and shall recommend to the Board such actions (i) as may further the purposes of the Delegation Agreement; or (ii) that extend beyond the scope of authority delegated to a Hearing Body in Section 7.3. Additionally, the Compliance Committee shall perform such other functions as may be delegated from time to time by the Board.

7.2 **Composition of Committee.** The Compliance Committee shall be composed of not more than twelve (12) members of the Corporation's Board of Directors. The members of the Compliance Committee shall be appointed by the Board of Directors at its April biennial meeting. The Compliance Committee shall consist of the following members:

- (a) The Investor-Owned Utility Sector shall have three (3) representatives;
- (b) The Federal/State Sector shall have two (2) representatives;
- (c) The Cooperative Sector shall have two (2) representatives;

- (d) The Municipal Sector shall have two (2) representatives;
- (e) The Marketer Sector shall have on (1) representative;
- (f) The Merchant Electricity Generator Sector shall have one (1) representative;
- (g) The ISO-RTO/Customer Sector shall have one (1) representative.

The Chairman of the Board of Directors shall appoint a chair from among the Compliance Committee members. The Chairman shall conduct all meetings of the Compliance Committee and shall be responsible for the preparation of the agenda. The Corporation Compliance Manager shall serve as the non-voting secretary. Each Sector will be responsible for nominating their representative(s) and alternates from among Board Members. In the event that a member of the Compliance Committee is unable to complete a term, the Sector's alternate representative will replace such member.

The Compliance Committee shall meet as determined by the members of the Compliance Committee and, except when acting as a Hearing Body as described in Article 7.3, shall use the same meeting and voting procedures as established for the Executive Committee. Each member of the Compliance Committee shall have one (1) vote. The presence of three quarters of the members of the Compliance Committee shall constitute a quorum. The positive vote of two-thirds of voting members of the Compliance Committee present and voting is necessary to pass a particular action.

7.3 Hearings. The Compliance Committee shall conduct hearings in accordance with Hearing Procedures approved by the Federal Energy Regulatory Commission (Hearing Procedures). In compliance hearings in which an entity may contest a finding of alleged violation, proposed penalty or sanction, a proposed mitigation plan, a remedial directive, or other such matters as allowed by the Hearing Procedures, the Compliance Committee shall establish and maintain a hearing body with authority to conduct and render decisions on the matter.

In accordance with the NERC Compliance Monitoring and Enforcement Program Hearing Procedures ("Hearing Procedures"), a quorum for the purpose of constituting a hearing body shall be (after any recusals or disqualifications and including any alternates) fifty (50) percent of the Compliance Committee. In addition to a quorum, the chair of the Compliance Committee shall declare the Hearing Body duly constituted only if no two sectors can control and no one sector can veto the actions of the Hearing Body (the "Sector Control Requirements"). Approval of all actions before a duly constituted Hearing Body shall require a simple majority of the votes cast, which number of members voting shall not be less than a quorum, with each member of the Hearing Body having one vote.

To ensure that the Sector Control Requirements are met in the formation of a Hearing Body, the Chair shall adhere to the following in declaring the Hearing Body duly constituted:

- If the Hearing Body is made up of six (6) members of the Compliance Committee, then each sector shall have no more than one (1) representative on the Hearing Body.

- If the Hearing Body is made up of seven (7) or eight (8) members of the Compliance Committee, then only one sector can have two (2) representatives on the Hearing Body, and each other sector can have only one (1) representative on the Hearing Body.
- If the Hearing Body is made up of nine (9) or ten (10) members of the Compliance Committee, then no sector can have more than two (2) representatives on the Hearing Body.
- If the Hearing Body is made up of eleven (11) or twelve (12) members of the Compliance Committee, then the Sector Control Requirements are met, as no two sectors would have enough votes to control, and no one sector would have the ability to veto.

The chair, in his or her sole discretion, shall have the authority to determine whether the Hearing Body meets the quorum requirements and Sector Control requirements and is therefore duly constituted.

The decision of any duly constituted Hearing Body pursuant to these requirements shall be final and binding on the Corporation, without requiring either the Compliance Committee or the Corporation to ratify the Hearing Body's actions.

7.4 **Conflicts of Interest.** Compliance Committee members shall comply with the Corporation's Standards of Conduct policy that prohibits conflicts of interest associated with the compliance program, as such conflicts could cast doubt on the ability of the Compliance Committee members to act with total objectivity with regard to the overall interests of the compliance program.

7.5 **Ad-Hoc Support Committees.** The Compliance Committee may, from time to time, appoint ad-hoc committees of technical experts to research and/or advise it on compliance or technical issues or matters, among other things. Such ad-hoc committees of technical experts may be formed on an as-needed basis and may vary in makeup depending on the needs of the Compliance Committee. Each member (or another entity) that requests that the Compliance Committee review a compliance finding against it may request that an ad-hoc committee be formed to assist the Compliance Committee in its review.

ARTICLE VIII

OTHER COMMITTEES

8.1 **Designation by Board.** The Board of Directors, by resolution adopted by a Bicameral Simple Majority, may designate standing and special (ad hoc) committees, as shall be necessary to address the purposes of the Corporation. Such committees shall include, but are not limited to the following:

- (a) Engineering Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the planning and engineering of electric systems. The committee shall provide a mechanism for the coordination of activities in the areas of planning and engineering.

- (b) Operating Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the operation of electric systems. The committee shall provide a mechanism for the coordination of activities in the area of operations.
- (c) Critical Infrastructure Protection Committee -- The purpose of this committee shall be to promote the advancement of the physical and cyber security of the Bulk-Power System. It serves as an expert advisory panel in the areas of physical and cyber security, establishes and maintains an information reporting procedure, provides a liaison with state government agencies, and conducts forums and workshops related to Critical Infrastructure Protection.

Each Member is entitled, but not required, to name both a representative and alternate to the committees designated in this Section 8.1.

8.2 **Voting Rights for Committees.** Except as otherwise provided for in these Bylaws, voting rights for the Committees established pursuant to Section 8.1 shall be based on the same method as adopted by the Board of Directors of the Corporation. Operating procedures, definitions for quorum, and votes for approval are contained in the Organization and Procedures Manual for the Corporation's Standing Committees.

8.3 **Dispute Resolution Process.** The Standing Committees shall have a Dispute Resolution process in place to accommodate disputes (other than disputes regarding Reliability Standards that are handled between the applicable Member and NERC, as more fully described in Article XII). The Members are encouraged to utilize these dispute processes prior to seeking legal action. More specific details of these Committees are outlined in their respective Handbooks.

8.4 **Rules.** Each committee will adopt rules for its own governance not inconsistent with these Bylaws or with rules adopted by the Board of Directors.

8.5 **Reliability Standards Development.** While the development of Reliability Standards shall be administered by the Corporation's Standing Committees, a registered ballot body of interested stakeholders will vote to approve Reliability Standards, in accordance with the Corporation's Regional Reliability Standards Development Procedure.

ARTICLE IX

MISCELLANEOUS

9.1 **Contracts.** The Board of Directors may authorize any officer or officers, agent or agents of the Corporation, in addition to the officers so authorized by these Bylaws, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or confined to specific instances.

9.2 **Checks, Drafts, etc.** All checks, drafts, or orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Corporation, shall be signed by such officer or officers, agent or agents of the Corporation and in such manner as shall from time to time be determined by resolution of the Board of Directors. In the absence of such determination by the Board of Directors, such instruments shall be signed by the Secretary-Treasurer, President, or Finance Director, as stipulated by the Executive Committee. The Secretary-Treasurer shall arrange audits of financial records, sign appropriate documents, and perform such duties normally performed by Secretary-Treasurer, except duties assigned to the President or Finance Director.

9.3 **Deposits.** All funds of the Corporation shall be deposited from time to time to the credit of the Corporation in such banks, trust companies or other depositories as the Board of Directors may select.

9.4 **Gifts.** The Board of Directors may accept on behalf of the Corporation any contribution, gift, bequest or devise for the general purpose or for any special purpose of the Corporation.

ARTICLE X

BOOKS AND RECORDS

10.1 **Books and Records.** The Corporation shall keep correct and complete books and records of account and shall also keep minutes of the proceedings of the Board of Directors and committees having any of the authority of the Board of Directors, and shall keep at its registered or principal office a record giving the names and addresses of the directors. All books and records of the Corporation may be inspected by any director, or agent or attorney representing any director, for any proper purpose at any reasonable time.

ARTICLE XI

FISCAL YEAR

11.1 **Fiscal Year.** The fiscal year of the Corporation shall begin on the first day of January and end on the last day of December in each year.

ARTICLE XII

EXPENSES

12.1 **Allocation of Specific Expenses.** The expenses of directors and officers of the Board shall be borne by that person's regular employer.

12.2 **Statutory Functions.** The Corporation anticipates that as a general rule all of its expenses will be incurred in the furtherance of statutory activities pursuant to FPA Section 215, and that all such expenses will be funded by NERC, subject to FERC approval.

12.3 **Non-Statutory Functions.** Notwithstanding Section 12.2, the Board of Directors may from time to time authorize the Corporation to participate in non-statutory activities (i.e., activities not described in FPA Section 215). In the event that the Corporation proposes to engage in non-statutory activities, such activities will be identified in the Corporation's annual business plan that is submitted to NERC and, if approved by NERC, will be submitted to FERC for approval in advance of engaging in such non-statutory activities. The expenses incurred by the Corporation for any such approved non-statutory activities will be allocated by the Board of Directors among the Members of the Corporation who have participated in such non-statutory activities on a basis proposed in the business plan submitted for NERC and FERC approval. All participation in non-statutory activities by Members of the Corporation shall be voluntary.

ARTICLE XIII

DISPUTE RESOLUTION PROCESS

13.1 **General.** All disputes regarding non-compliance with Reliability Standards shall be handled between the applicable Member and NERC. The organizational units of the Corporation will deal with all other disputes within the framework of their respective organizations. For such other disputes, Members of the Corporation are encouraged to utilize the appropriate Dispute Resolution Process within the Corporation prior to seeking resolution at NERC, FERC, or with legal counsel.

13.2 **Terms of Process.** Details of the Corporation Dispute Resolution Process are provided to each Member and are available at the Corporation's offices.

ARTICLE XIV

DISSOLUTION

14.1 **Dissolution**. The Corporation may be voluntarily dissolved upon unanimous consent of Members, and in accordance with Section 10-3A-140 of the Alabama Nonprofit Corporation Act, as amended from time to time.

14.2 **Distribution of Assets**. Upon dissolution of the Corporation as provided in Section 14.1, the residual assets, after payment of all just obligations, shall be distributed exclusively for the common business interest of its Members or to organizations which are exempt from federal income tax under the Internal Revenue Code of 1986, or corresponding provisions of any subsequent federal tax laws.

ARTICLE XV

REGULATORY COMMISSION PARTICIPATION

15.1 **Terms of Participation** To implement the purpose of this organization, the Chairman of FERC and the Chairman or President of any State Utility Commission in a state in which electric service is provided by a Member of the Corporation shall be invited to designate a representative to attend meetings of the Board as observers.

ARTICLE XVI

WAIVER OF NOTICE

16.1 **Waiver**. Whenever any notice is required to be given under the provisions of the Alabama Nonprofit Corporation Act or under the provisions of the articles of incorporation or the Bylaws of the Corporation, a waiver thereof in writing signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice.

ARTICLE XVII

INDEMNIFICATION

17.1 **Indemnification of Directors, Officers, Employees and Agents**. Every person who is, or has been, a director, officer, employee or agent of the Corporation shall be

indemnified by the Corporation in the manner and to the extent authorized by the Alabama Nonprofit Corporation Act. The foregoing rights of indemnification shall be without prejudice to any other rights to which any such director, officer, employee or agent may be entitled as a matter of law.

**SERC Regional Standards Development
Procedure**

**Exhibit C
to the
Amended and Restated
Regional Entity Delegation Agreement
between**

North American Electric Reliability Corporation
and
SERC Reliability Corporation

Exhibit C – Regional Standard Development Procedure

Exhibit C ~~shall set~~sets forth ~~the Regional Entity's~~SERC Reliability Corporation's standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA [add reference to any applicable authorities in Canada and Mexico]. No regional reliability standard shall be effective within the [Regional Entity Name] area unless filed by NERC with FERC [and applicable authorities in Canada and Mexico] and approved by FERC [and applicable authorities in Canada and Mexico].

COMMON ATTRIBUTE 2

[Regional Entity Name] regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A [Regional Entity Name] reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

[Regional Entity Name] regional reliability standards, when approved by FERC [add applicable authorities in Canada], shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the [Regional Entity Name] area, regardless of membership in the region.

COMMON ATTRIBUTE 4

SERC Regional Reliability Standard Development Procedure

Requester — The requester is the sponsor of the regional reliability standard request ~~and~~ may assist in the development of the standard. Any member of [Regional Entity Name], or group within [Regional Entity Name] shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the [Regional Entity Name] area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

[Standards or other named] committee — The [Regional Entity Name] [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the [Regional Entity Name] board on standards presented for adoption.

COMMON ATTRIBUTE 6

~~[Alternative 6A: For a Regional Entity that chooses to vote using a balanced stakeholder committee.]~~ [REGISTERED BALLOT BODY APPROACH]

~~The [standards] committee is a balanced stakeholder committee, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. [The [standards] committee votes to approve standards.] See Appendix A for the representation model of the [standards] committee.~~

~~[Alternative 6B: For a Regional Entity that chooses to vote using a balanced ballot body of stakeholders.]~~

[Registered ballot body]—The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with [Regional Entity Name] as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.]

COMMON ATTRIBUTE 7

[Regional Entity Name] will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the [Regional Entity Name] and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within [no greater than 60] days of receipt of a completed standard request, the [standards] committee shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The [standards] committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The [standards] committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The [standards] committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the [standards] committee rejects a standard request, a written explanation for rejection will be delivered to the requester within [no greater than 30] days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the [standards] committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the [standards] committee.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the [Regional Entity Name] website within [no greater than 30] days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the [Regional Entity Name]

website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day] comment period. The standards process manager shall provide notice to [Regional Entity Name] stakeholders and other potentially interested entities, both within and outside of the [Regional Entity Name] area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the [Regional Entity Name] website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the [Regional Entity Name] [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

~~[Alternative 17A: For an RE that chooses to vote using a balanced stakeholder committee.]~~

SERC Regional Reliability Standard Development Procedure

The [standards] committee shall give due consideration to the work of the drafting team, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard for submittal to the [Regional Entity Name] board. The [standards] committee may vote to approve or not approve the standard. Alternatively, the [standards] committee may remand the standard to the drafting team for further work or form a new drafting team for that purpose.

~~*[Alternative 17B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]*~~

~~The [Regional Entity Name] registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.~~

COMMON ATTRIBUTE 18

~~*[Alternative 18A: For an RE that chooses to vote using a balanced stakeholder committee.]*~~

The [standards] committee may not itself modify the standard without issuing a new notice to stakeholders regarding a vote of the modified standard.

~~*[Alternative 18B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]*~~

~~All members of [Regional Entity Name] are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively: Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]~~

COMMON ATTRIBUTE 19

~~*[Alternative 19A: For an RE that chooses to vote using a balanced stakeholder committee.]*~~

Actions by the committee shall be recorded in the regular minutes of the committee.

~~*[Alternative 19B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]*~~

SERC Regional Reliability Standard Development Procedure

~~Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%] of the members of the [registered ballot body/ballot pool] submitted a ballot.~~

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC [and applicable authorities in Canada and Mexico.]

COMMON ATTRIBUTE 22

Open - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the [Regional Entity Name] bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in [Regional Entity Name], and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the [Regional Entity Name] members and others.

COMMON ATTRIBUTE 23

Balanced - The [Regional Entity Name] standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

Inclusive — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the [Regional Entity Name] area shall have a right to participate by: a) expressing a

position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

Fair due process — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

Transparent — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets

SERC Regional Reliability Standard Development Procedure

are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire [Regional Entity Name] area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
----------------------	--

Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.

If not applicable to the entire [Regional Entity Name] area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.

COMMON ATTRIBUTE 33

SERC Regional Reliability Standard Development Procedure

Measure(s)	<p>Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.</p>
-------------------	---

Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.

COMMON ATTRIBUTE 34

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none"> • The specific data or information that is required to measure performance or outcomes. • The entity that is responsible for providing the data or information for measuring performance or outcomes. • The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes. • The entity that is responsible for evaluating data or information to assess performance or outcomes. • The time period in which performance or outcomes is measured, evaluated, and then reset. • Measurement data retention requirements and

	assignment of responsibility for data archiving.
--	--

Defines for each measure:

- The specific data or information that is required to measure performance or outcomes.
- The entity that is responsible for providing the data or information for measuring performance or outcomes.
- The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.
- The entity that is responsible for evaluating data or information to assess performance or outcomes.
- The time period in which performance or outcomes is measured, evaluated, and then reset.
- Measurement data retention requirements and assignment of responsibility for data archiving.

SERC Regional Reliability Standard Development Procedure

Revision History

Revision	Date	Comments
0	October 25, 2006	Document Origination
1	October 10, 2007	Document revised to change to a registered ballot body approach to approve standards, changed "Manager of Reliability Services" to Manager of Reliability Standards," changed the RSS meeting notice period to 21 days, changed the review period for this procedure from five to three years, and moved from the Standing Committee Executive Committees to the Standards Committee the ability to remand a SAR back to the Requester for additional work.

Responsible SERC Group(s)

SERC Standards Committee (SC)

Review and Re-Approval Requirements

This document will be reviewed every three years or as appropriate by the SERC Standards Committee for possible revision. The existing or revised document will be re-certified and distributed to all members of SERC.

List of Appendices

- Appendix A: Stakeholder Representation
- Appendix B: Principles, Characteristics, and Special Procedures
- Appendix C: SERC Regional Reliability Standard Authorization Request Form
- Appendix D: Elements of a SERC Regional Reliability Standard
- Appendix E: Comment Form for Draft SERC Regional Reliability Standard
- Appendix F: SERC Consideration of Comments Form
- Appendix G: SERC Process Flow Diagram

Introduction

This procedure defines the process for development, revision, reaffirmation, and withdrawal of a regional reliability standard by the SERC Reliability Corporation (SERC). SERC is a regional entity authorized through an approved delegation agreement with the North American Electric Reliability Corporation (NERC) to propose regional reliability standards in accordance with Section 215 of the Federal Power Act (FPA), the U.S. Federal Energy Regulatory Commission (FERC) Order No. 672, and Title 18 § 39 of the U.S. Code of Federal Regulations (C.F.R. 18 § 39).

SERC Regional Reliability Standards apply to the planning, operation, and critical infrastructure protection of the Bulk Power System in the SERC Region. Proposed SERC Regional Reliability Standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA. No SERC Regional Reliability Standard shall be effective within the SERC area unless filed by NERC with FERC and approved by FERC.

SERC Regional Reliability Standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A SERC Regional Reliability Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or regional difference necessitated by a physical difference in the bulk power system. A SERC Regional Reliability Standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

SERC Regional Reliability Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the SERC area, regardless of membership in the region.

Process Roles

Requester: The requester is the sponsor of the SERC Regional Reliability Standard request and may assist in the development of the standard. Any member of SERC, or any group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), shall be allowed to request that a SERC Regional Reliability Standard be developed, modified, or withdrawn. Additionally, any entity that is directly and materially affected by the reliability of the SERC Bulk Power System shall be allowed to request that a SERC Regional Reliability Standard be developed, modified, or withdrawn.

SERC Board of Directors: The SERC Board of Directors shall consider for adoption as SERC Regional Reliability Standards, those Standards that have been developed and approved by this procedure. Once the Board adopts a SERC Regional Reliability Standard, such Standard shall be submitted to NERC for approval. When approved by NERC, it shall be submitted to FERC for approval.

SERC Staff: The SERC Manager of Reliability Standards is responsible for forwarding a request for the development, modification or withdrawal of SERC Regional Reliability Standards to the SERC Standards Committee. The SERC Staff shall facilitate all steps in this process.

SERC Standards Committee: The SERC Regional Reliability Standard Development Procedure shall be administered by the SERC Standards Committee (SC). The SERC SC is responsible for ensuring that the development, modification or withdrawal of SERC Regional Reliability Standards is in accordance with the steps in this procedure. The SERC SC will ensure the integrity of the process and the consistency of quality and completeness of the SERC Regional Reliability Standards.

SERC Standing Committees: The SERC Standing Committees will perform a high level technical review of the SAR to determine which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The Standing Committees will appoint the standard drafting team (Responsible SERC Subgroup).

The current SERC Standing Committees are the Engineering Committee (EC), Operating Committee (OC), and Critical Infrastructure Protection Committee (CIPC). The Standing Committees are balanced stakeholder committees, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. See Appendix A for the representation model of the Standing Committees.

SERC Regional Reliability Standard Development Procedure

Compliance Advisory Groups: The SERC Compliance Advisory Groups provide inputs and comments during the standards development process to ensure the measures will be effective and other aspects of the compliance program can be practically implemented.

Responsible SERC Subgroup (RSS): Responsible SERC Subgroups are teams, responsible for drafting the standard. The RSS may include technical experts and be based around a permanent SERC Standing Committee subgroup. An RSS is established expressly to draft the standard. Membership on an RSS will be assigned by the SERC EC, OC, and/or CIPC. The requester may act as the RSS, serve on the RSS, or otherwise assist the RSS. SERC membership is not a prerequisite for serving on an RSS. The RSS will:

- Develop the details of the SERC Regional Reliability Standard,
- Consider and respond to industry comments,
- Participate in forums to help build consensus on draft SERC Regional Reliability Standards,
- Assist in the implementation of approved SERC Regional Reliability Standards,
- Provide technical oversight in response to changing industry conditions, and
- Assist in the identification of the need for new SERC Regional Reliability Standards.

Registered Ballot Body (RBB): The registered ballot body votes to approve standards. The RBB comprises all entities or individuals that qualify for one of the SERC industry Sectors, and are registered with SERC as potential ballot participants in the voting on standards. SERC membership is not a prerequisite for registering with SERC as a potential ballot participant. Any entity that is directly and materially affected by the reliability of the SERC Bulk Power System shall be allowed to register as a potential ballot participant.

Each member of the registered ballot body is eligible to vote on standards. Each standard action has its own ballot pool formed of interested members of the registered ballot body.

Ballot Pool: Each standard action has its own ballot pool formed of interested members of the Registered Ballot Body. The ballot pool comprises those members of the Registered Ballot Body that respond to a pre-ballot survey for that particular standard action. The ballot pool will ensure, through its vote, the need for and technical merits of a proposed standard action and the appropriate consideration of views and objections received during the development process. The ballot pool votes to approve each standards action.

Process Steps

Note: The term “days” below refers to calendar days.

SERC will coordinate with NERC such that the acknowledgement of receipt of an accepted standard request identified in step 4, notice of comment posting period identified in step 7, and notice for vote identified in step 9 below are concurrently posted on both the SERC and NERC websites.

Step 1: Request for a new SERC Regional Reliability Standard or modification to, or withdrawal of an existing SERC Regional Reliability Standard

A request to develop, modify or withdraw a SERC Regional Reliability Standard shall be submitted, using the SERC Regional Reliability Standard Authorization Request (SAR) Form (see Appendix C), to the SERC Manager of Reliability Standards (via e-mail to regstd@serc1.org) by any member of SERC, or any group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), or any entity that is directly and materially affected by reliability of the SERC Bulk Power System. The SERC SAR Form can be downloaded from the SERC website (www.serc1.org).

An acceptable SAR shall contain a description of the proposed regional reliability standard subject matter with sufficient descriptive detail of the proposed standard to clearly define the purpose, scope, impacted parties, and other relevant information. SERC Staff shall verify that the SAR Form has been adequately completed. Within 15 days of receiving the SAR, the SERC Manager of Reliability Standards or his designee will electronically acknowledge receipt of the SAR, and will forward the SAR to the SERC Standards Committee. The SERC Manager of Reliability Standards may offer the Requester suggestions regarding changes or improvements to enhance the clarity of the proposed standards work and to assist the SERC Standards Committee in understanding the requester’s intent and objectives. The requester is free to accept or reject these suggestions.

Step 2: Assignment of SERC Regional Reliability Standard Request

The Standards Committee will review the SAR to ensure it is not in conflict with or duplication of a current standard or a standards drafting effort already proposed or in progress. Within 15 days after receiving the SAR from the SERC Manager of Reliability Standards, the Standards Committee will take one of the two following actions:

SERC Regional Reliability Standard Development Procedure

- Assign the SAR to the appropriate SERC Standing Committee(s). SERC Staff will forward the SAR to the appropriate SERC Standing Committee Chair(s) and Standing Committee(s) Executive Committee.
- Remand the SAR back to the Requester for additional work. The SERC Manager of Reliability Standards will make reasonable efforts to assist the Requester in addressing the deficiencies identified by the Standards Committee. The Requester may then resubmit the modified SAR using the process above. The requester may choose to withdraw the SAR from further consideration.

Step 3: Acceptance of a SERC Regional Reliability Standard Request

Within 60 days of receipt of a completed SAR, the assigned SERC Standing Committee(s) Executive Committee(s) shall determine the disposition of the SAR. The committee may take one of the two following actions:

- Accept the SAR as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The committee(s) may, at its discretion, expand or narrow the scope of the SAR under consideration. The committee(s) shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the SAR. If the committee(s) rejects a SAR, a written explanation for rejection will be delivered to the Requester within 30 days of the decision.

Deliberations and decisions of the assigned SERC Standing Committee(s) Executive Committee(s) concerning requests shall be made and documented in accordance with the SERC Standing Committee rules and procedures then in effect.

Step 4: Posting of SERC Regional Reliability Standard Request

Any SAR that is accepted by the assigned SERC Standing Committee(s) Executive Committee(s) for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the SERC website within 30 days of acceptance by the committee. A notice of the posting for a 30-day comment period will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the proposed SAR. SERC Staff will perform this

SERC Regional Reliability Standard Development Procedure

posting on the SERC website and coordinate or send correspondences described in this and other steps of the process.

Step 5: Formation of a Responsible SERC Subgroup

Within 60 days of accepting a SAR for development, the assigned SERC Standing Committee(s) Executive Committee(s) shall assign and direct the proposal to the appropriate Responsible SERC Subgroup (RSS) to develop the draft Regional Reliability Standard. The RSS may be a permanent Standing Committee subgroup (augmented by other persons as may be appropriate to address the subject matter of the proposed standard), or a task force established expressly by the Executive Committee(s) for drafting the standard. SERC membership is not a prerequisite for serving on an RSS.

After consulting with the assigned SERC Standing Committee(s) Executive Committee(s) as necessary, the SERC Standards Committee (SC) will assign a preliminary date on which the RSS is expected to have ready a completed draft Standard and associated supporting documentation available for consideration.

Step 6: Drafting of a SERC Regional Reliability Standard

The RSS shall develop a work plan for completing the regional reliability standard, including the establishment of a milestone schedule for completing critical elements of the work in sufficient detail to ensure that the RSS will meet the objectives established by the SC. The RSS shall submit its work plan to the SC for its concurrence.

The RSS shall convene periodically, either in person or by electronic means as necessary, establish work teams (made up of members of the RSS) as necessary, and perform other activities to complete the proposed standard within the milestone date(s) agreed upon by the SC. All RSS meetings or portions of meetings associated with development of the draft standard shall be open and publicly noticed on the SERC website for a minimum of twenty-one (21) calendar days prior to the meeting. All RSS meeting attendees are required to register via the SERC website.

The RSS shall consider all comments received on the posting of the SAR and shall develop a draft SERC Regional Reliability Standard that will address the accepted SAR. The RSS shall use the SERC Regional Reliability Standards Format Template as the format for the draft standard (see Appendix D). The SERC Regional Reliability Standards Format Template can be downloaded from the SERC website (www.serc1.org).

The work product of the RSS will consist of the following:

- A draft Standard consistent with the SAR on which it was based.

SERC Regional Reliability Standard Development Procedure

- An assessment of the impact of the standard on neighboring regions, and appropriate input from the neighboring regions if the standard is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Standard that will be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard
- Technical reports, white papers and/or work papers that provide technical support for the draft Standard under consideration.
- Documentation of the perceived reliability impact should the Standard be approved.

The RSS shall regularly inform the SC, at a frequency determined by the SC, of its progress in meeting a timely completion of the draft standard. The RSS may, with justification, request of the SC scope changes from the SAR at any point in the standard development process.

The RSS shall submit the draft SERC Regional Reliability Standard and supporting documentation to the SC for review. The RSS will send any revised SERC Regional Reliability Standard to the SC in both “Clean” and “Tracking” formats. The RSS shall also send the SC an accompanying Comments Form which may include specific questions addressing the major issues associated with the new or revised standard. In any event, the Comments Form must also allow for general comments on the standard (see Appendix E for sample form). The SC will verify that the proposed standard is consistent with the SAR on which it was based. The SERC Regional Reliability Draft Standards Comments Form can be downloaded from the SERC website (www.serc1.org).

Step 7: Posting of a Draft SERC Regional Reliability Standard

The SERC Standards Committee shall send to the SERC Manager of Reliability Standards the draft SERC Regional Reliability Standard, along with a draft implementation plan and supporting documents, for comments. SERC Staff will post these documents on the SERC website for thirty (30) calendar days. A notice of the posting for comment will be sent to all SERC Standing Committees representatives and alternates. In addition, the request will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the draft SERC Regional Reliability Standard. Comments shall be submitted electronically (via e-mail) to regstd@serc1.org. All comments are due by the close of business on the 30th calendar day of posting. If the comment due date falls on a weekend or nationally recognized holiday, the comments shall be due by the close of business on the next regularly scheduled business day.

Step 8: Standard Drafting Team Review of Comments

SERC Staff shall forward all comments received to the RSS and SC. The SC may review comments and make recommendations concerning them. Any SC recommendation will be forwarded to the RSS. The RSS shall review the comments received and revise the draft SERC Regional Reliability Standard as needed. The RSS shall develop a written response to each comment received using the Consideration of Comments Form Template (see Appendix F). The SERC Consideration of Comments Form Template can be downloaded from the SERC website (www.serc1.org). The completed Consideration of Comments Form will be posted on the SERC website.

The RSS shall summarize comments that were rejected by the RSS and the reason(s) that these comments were rejected, in part or whole. The RSS shall submit to the SC the summary of comments rejected, the completed Consideration of Comments form, and any resulting revisions to the draft SERC Regional Reliability Standard.

If needed, a second draft of the SERC Regional Reliability Standard (along with the summary of comments rejected and the Consideration of Comments from the previous posting) will be posted for another comment period. Such comment period shall be for thirty (30) calendar days. A notice of the posting for comment will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Reliability Organizations adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives to seek input on the revised draft SERC Regional Reliability Standard.

Based on comments received to the posting, Step 7 will be repeated as necessary until the RSS and the SC believe the draft SERC Regional Reliability Standard is ready to submit to the SERC Ballot Body for approval.

Step 9: Notice of Vote to Approve a SERC Regional Reliability Standard

The Responsible SERC Subgroup shall submit the summary of comments rejected and the Consideration of Comments document along with the final draft of the proposed SERC Regional Reliability Standard (both “Tracking” and “Clean” versions for standard revisions) to the SERC Manager of Reliability Standards for posting on the SERC website at least 15 days prior to requesting approval of the standard.

The SERC Manager of Reliability Standards shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

SERC Regional Reliability Standard Development Procedure

Ballot Pool: The SERC Manager of Reliability Standards shall establish a ballot pool for a standard action at least 15 days prior to the start of a ballot. The SERC Manager of Reliability Standards shall send a notice to every entity in the Registered Ballot Body. The purpose of this notice is to establish a ballot pool to participate in the ballot of the proposed standards action.

Any member of the Registered Ballot Body may join or drop out of a ballot pool until the ballot period begins (Step 10). No Registered Ballot Body member may join or leave the ballot pool once the first ballot starts. The SERC Manager of Reliability Standards shall coordinate changes to the membership of the ballot pool and publicly post the standard ballot pool for each standard action.

The SERC Manager of Reliability Standards shall schedule a vote by the ballot pool for approval. The vote shall commence no sooner than 15 days and no later than 30 days following the issuance of the notice for the vote.

Step 10: SERC Ballot Pool of Registered Ballot Body Approval

The Ballot Pool shall have a minimum of ten (10) days to vote on a standards action. The Ballot Pool should give due consideration to the work of the RSS, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard. The Ballot Pool may vote to approve or not approve the standard.

Once approved, the SERC Regional Reliability Standard along with the proposed implementation plan and supporting documentation will be submitted by the SERC President, or the President's designee, to the SERC Board of Directors for adoption.

If approval by the RBB is not obtained, the Standing Committee(s) will determine if the draft SERC Regional Reliability Standard is to be sent back to the RSS to repeat Step 8 to incorporate any RBB or SERC Standing Committee(s) comments, form a new RSS for that purpose, or to take no further action on the proposed SERC Regional Reliability Standard.

If no further action is taken, the reason for such will be posted on the SERC website. A notice of the posting will be sent to all SERC Standing Committee representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives.

Step 11: Adoption of SERC Regional Reliability Standards by the SERC Board of Directors

The SERC Board of Directors shall consider adoption of any SERC Regional Reliability Standard that has been approved by the SERC RBB. A SERC Regional Reliability Standard submitted for adoption by the SERC Board of Directors must be posted for notification on the SERC website at least 15 days prior to action by the SERC Board of Directors. A notice of the posting will be sent to all SERC Board of Directors representatives and alternates, and to all SERC Standing Committee representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

The SERC Board of Directors shall consider the comments received, the responses provided, and any dissenting opinions. The SERC Board of Directors shall adopt or reject a SERC Regional Reliability Standard as submitted, but may not substantively modify the proposed SERC Regional Reliability Standard.

If the SERC Board of Directors chooses to reject a SERC Regional Reliability Standard as submitted, it shall provide its reasons for doing so. The reasons for such decision will be posted on the SERC website. A notice of the posting will be sent to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to NERC, the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC), individuals listed as entity contacts in the SERC Compliance Registry, and the SERC Registered Ballot Body representatives. The assigned Standing Committee(s) will determine if the draft standard should be resubmitted with modifications. If so, the draft standard will be remanded back to the RSS in Step 8 above.

Step 12: Submission of SERC Regional Reliability Standards to NERC and FERC

Once the SERC Regional Reliability Standard is adopted by the SERC Board of Directors, the SERC President, or the President's designee shall submit the SERC Regional Reliability Standard to NERC for approval and filing with FERC. NERC will post the SERC Regional Reliability Standard for comments. The Responsible SERC Subgroup will develop a response to any comments and submit it to the Standards Committee for approval. When the Responsible SERC Subgroup response is approved by the Standards Committee, the SERC President, or the President's designee will forward the comments to NERC for consideration by the NERC Board. If the NERC Board rejects the SERC Regional Reliability Standard the SERC Board will determine if the SERC Regional Reliability Standard is to be sent back to the assigned SERC

SERC Regional Reliability Standard Development Procedure

Standing Committee(s) to incorporate the NERC Board comments or to take no further action on the standard.

When approved by the NERC Board, NERC will submit the SERC Regional Reliability Standard to FERC for approval. If FERC rejects the SERC Regional Reliability Standard, the SERC Board will determine if the SERC Regional Reliability Standard is to be sent back to the assigned SERC Standing Committee(s) to incorporate the FERC comments or to take no further action on the standard.

Step 13: Implementation of SERC Regional Reliability Standards

A SERC Regional Reliability Standard that is adopted by the SERC Board of Directors, NERC, and FERC, shall become effective on a date designated by FERC. In developing the standard, the RSS should consider the time needed for NERC and FERC approval in the proposed implementation date.

Appendix A: Stakeholder Representation

A.1 SERC Standing Committees and Member Representation

Membership in SERC is open to any entity that is a user, owner or operator of the Bulk-Power System and subject to the jurisdiction of the Federal Energy Regulatory Commission for the purpose of complying with Reliability Standards established under Section 215 of the Federal Power Act and all amendments thereto. SERC's membership policy permits full and fair participation of all members through their representatives, including in the development of and voting on Regional Reliability Standards. The SERC standing committees have a role in developing standards, a ballot pool of the SERC Registered Ballot Body vote to approve Regional Reliability Standards, and the SERC Board of Directors adopts all standards. Since each member is entitled to representation on both the Board and the Standing Committees, SERC's membership policy permits full and fair participation of its members.

The following are excerpts from the SERC Reliability Corporation Bylaws. Section 8.1 establishes the Standing Committees and SERC Member representation on those committees. Section 8.2 specifies committee voting rights will be based on the same method as adopted by the SERC Board of Directors, and refers to the Organization and Procedures Manual for SERC Standing Committees for more specific details.

8.1 Designation by Board. The Board of Directors, by resolution adopted by a Bicameral Simple Majority, may designate standing and special (ad hoc) committees, as shall be necessary to address the purposes of the Corporation. Such committees shall include, but are not limited to the following:

(a) Engineering Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the planning and engineering of electric systems. The committee shall provide a mechanism for the coordination of activities in the areas of planning and engineering.

b) Operating Committee -- The purpose of this committee shall be to promote the reliability and adequacy of the Bulk-Power System, as related to the operation of electric systems. The committee shall provide a mechanism for the coordination of activities in the area of operations.

(c) Critical Infrastructure Protection Committee -- The purpose of this committee shall be to promote the advancement of the physical and cyber security of the Bulk-Power System. It serves as an expert advisory panel in the areas of physical and cyber security, establishes and maintains an information reporting procedure, provides a liaison with state government agencies, and conducts forums and workshops related to Critical Infrastructure Protection.

SERC Regional Reliability Standard Development Procedure

Each Member is entitled, but not required, to name both a representative and alternate to the committees designated in this Section 8.1.

8.2 Voting Rights for Committees. Except as otherwise provided for in these Bylaws, voting rights for the Committees established pursuant to Section 8.1 shall be based on the same method as adopted by the Board of Directors of the Corporation. Operating procedures, definitions for quorum, and votes for approval are contained in the Organization and Procedures Manual for the Corporation's Standing Committees.

A.2 SERC Regional Reliability Standards Voting Procedures

The following are the voting procedures for the SERC Registered Ballot Body:

1. Registration Procedures

The Registered Ballot Body (RBB) comprises all organizations and entities that:

- Qualify for one of the SERC Sectors, and
- Are registered with SERC as potential ballot participants in the voting on standards.

All registrations will be done electronically. Each participant, when initially registering to join the RBB will self-select to belong to one of the Sectors and will also name their RBB representative. The Executive Committee of the Board of Directors will review all applications for joining the Registered Ballot Body, and make a determination of whether the self-selection satisfies the criteria to belong to that sector. The Sectors shall be identical to those in Section 3.4 of the SERC's Bylaws.

All registered organizations and entities that qualify for a Sector with SERC may vote on a standard. Voting is in writing with each registered stakeholder (a "stakeholder") having one vote. The stakeholder's RBB representative will have the right to register to participate in ballot pools and cast the stakeholder's vote.

2. Sector Qualification Guidelines

The sector qualification guidelines are inclusive; i.e., any entity with a legitimate interest in the reliability of the SERC bulk power system that can meet the criteria for a sector as defined in Section 3.4 of the SERC's Bylaws is entitled to belong to and vote in that sector. The general guidelines are:

- Corporations or organizations with affiliates that qualify to belong to more than one sector (e.g., Investor-Owned Utility and Merchant Electricity Generator) may belong to each of the sectors in which they qualify, provided that each sector constitutes a separate membership and is represented by a

different representative.

- At any given time, affiliated entities may collectively be registered only once within a sector.
- Any individual currently employed by an organization that is eligible to join one of the other seven sectors, shall not be qualified to join as a “customer” in the ISO-RTO/Customer sector.

3. Definitions

Individual Vote – shall mean a single vote accorded to each stakeholder.

4. Quorum

Two-thirds of the Individual Votes of the Ballot Pool shall constitute a quorum.

5. SERC Registered Ballot Body Voting Requirements

A ballot pool will be established to participate in the ballot of any proposed standards action. Approval of a reliability standard or revision to a reliability standard requires the affirmative vote of a two thirds majority of the weighted Sector votes cast. The number of votes cast in each Sector is the sum of affirmative and negative votes, excluding abstentions and non-response.

The following process is used to determine if there are sufficient affirmative votes.

- The number of affirmative votes cast in each Sector will be divided by the sum of affirmative and negative votes cast to determine the fractional affirmative vote for each Sector. Abstentions and non-responses will not be counted for the purposes of determining the fractional affirmative vote for a Sector.
- The fractional affirmative vote for a Sector is then multiplied by the Sector weight factor, to determine the weighted fractional affirmative vote for a Sector. The weight factors for the Sectors are:
 - Investor-Owned Utility Sector: weight factor is 3.
 - Federal/State Sector: weight factor is 2.
 - Cooperative Sector: weight factor is 2.
 - Municipal Sector: weight factor is 2.
 - Marketer Sector: weight factor is 1.
 - Merchant Electricity Generator Sector: weight factor is 1.
 - ISO-RTO/Customer Sector: weight factor is 1.
- The sum of the weighted fractional affirmative votes from all Sectors divided by the sum of the weights of the Sectors voting will be used to determine if a two-thirds majority has been achieved. (A Sector will be considered as “voting” if any member of the Sector in the ballot pool casts either an

SERC Regional Reliability Standard Development Procedure

- affirmative or a negative vote.)
- A standard will be approved if the sum of weighted fractional affirmative votes from all Sectors divided by the sum of the weights of the voting Sectors is two-thirds or greater.

Appendix B: Principles, Characteristics, and Special Procedures

Principles

SERC develops regional standards with due consideration of the following principles, in accordance with the steps outlined in this procedure. This procedure has been designed to ensure that any SERC Regional Reliability Standard is technically sound and the technical specifications proposed will achieve a valuable reliability objective.

The SERC Regional Reliability Standards Development Procedure has the following characteristics:

- **Open:** Participation in the development of a SERC Regional Reliability Standard shall be open to all organizations that are directly and materially affected by the SERC bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in SERC, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of the Responsible SERC Subgroup assigned to draft a standard shall be open to the SERC members and others.
- **Balanced:** The SERC Regional Reliability Standards Development Procedure strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.
- **Inclusive:** Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the SERC area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, c) registering as a potential ballot participant and voting on a proposed standard; and d) having the right to appeal.
- **Fair due process:** The SERC Regional Reliability Standards Development Procedure provides for reasonable notice and opportunity for public comment. This procedure includes public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.
- **Transparent:** All actions material to the development of SERC Regional Reliability Standards shall be transparent. All standards development meetings shall be open and publicly noticed on the SERC Web site.
- **Due Course:** Does not unnecessarily delay development of the proposed SERC Regional Reliability Standard.

SERC Regional Reliability Standard Development Procedure

NERC has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are to be used to guide the development of reliability standards, including regional reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards.

- Each SERC Regional Reliability Standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.
- While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all SERC Regional Reliability Standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

Regional Reliability Standard Characteristics and Elements

Characteristics of a SERC Regional Reliability Standard

The following characteristics describe objectives to be considered in the development of SERC Regional Reliability Standards:

1. **Applicability:** Each SERC Regional Reliability Standard clearly identifies the functional classes of entities responsible for complying with the standard, with any specific additions or exceptions noted. Such functional classes include: reliability coordinators, balancing authorities, transmission operators, transmission owners, generator operators, generator owners, interchange authorities, transmission service providers, market operators, planning authorities, transmission planners, resource planners, load-serving entities, purchasing-selling entities, and distribution providers. Each SERC Regional Reliability Standard identifies the geographic applicability of the standard. A standard may also identify any limitations on the applicability of the standard based on electric facility characteristics.
2. **Reliability Objectives:** Each SERC Regional Reliability Standard has a clear statement of purpose that describes how the standard contributes to the reliability of

SERC Regional Reliability Standard Development Procedure

the bulk power system.

3. **Requirement or Outcome:** Each SERC Regional Reliability Standard states one or more requirements, which if achieved by the applicable entities, will provide for a reliable bulk power system, consistent with good utility practices and the public interest.
4. **Measurability:** Each performance requirement is stated so as to be objectively measurable by a third party with knowledge or expertise in the area addressed by that requirement. Each performance requirement has one or more associated measures used to objectively evaluate compliance with the requirement. If performance can be practically measured quantitatively, metrics are provided to determine satisfactory performance.
5. **Technical Basis in Engineering and Operations:** Each regional reliability standard is based upon sound engineering and operating judgment, analysis, or experience, as determined by expert practitioners in that particular field.
6. **Completeness:** Each SERC Regional Reliability Standard is complete and self-contained. Supporting references may be provided with standards, but they are not part of the standard and do not impose mandatory requirements.
7. **Clear Language:** Each SERC Regional Reliability Standard is stated using clear and unambiguous language. Responsible entities, using reasonable judgment and in keeping with good utility practice, are able to arrive at a consistent understanding of the required performance.
8. **Practicality:** Each SERC Regional Reliability Standard establishes requirements that can be practically implemented by the assigned responsible entities within the specified effective date and thereafter.
9. **Consistent Terminology:** To the extent possible, SERC Regional Reliability Standards use a set of standard terms and definitions that are approved through the SERC Regional Reliability Standard Development Procedure.

Although regional reliability standards have a common format and process, several types of standards may exist, each with a different approach to measurement:

- Technical standards are related to the provision, maintenance, operation, or state of electric systems, and will likely contain measures of physical parameters that are technical in nature.
- Performance standards are related to the actions of entities providing for or impacting the reliability of the bulk power system, and will likely contain measures of

SERC Regional Reliability Standard Development Procedure

the results of such actions or qualities of performance of such actions.

- Preparedness standards are related to the actions of entities to be prepared for conditions that are unlikely to occur, but are nonetheless critical to reliability, and will likely contain measures of such preparations or the state of preparedness.

Elements of a SERC Regional Reliability Standard

To ensure uniformity of SERC Regional Reliability Standards, a SERC Regional Reliability Standard shall consist of the elements identified in Appendix D of this procedure. However, the most current version of the approved NERC Reliability Standard template and its associated elements posted on the NERC website will be used at the time of the development of the SERC Regional Reliability Standard if different from the elements listed in Appendix D. This is to ensure all essential elements are contained in the SERC standard to achieve consistency and uniformity and meet all statutory requirements. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

All mandatory requirements of a SERC Regional Reliability Standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

Maintenance of the SERC Regional Reliability Standards Development Procedure

Any member of SERC, or group (or member of a group) within SERC (i.e., committee, subcommittee, working group, study group, task force, or SERC staff), or any entity that is directly and materially affected by the reliability of the SERC Bulk Power System may submit a written request to modify the SERC Regional Reliability Standard Development Procedure. The Manager of Reliability Standards shall oversee the handling of the request.

Significant changes to this procedure shall be addressed using the same procedure as a request to develop, modify, or withdraw a SERC Regional Reliability Standard.

For any minor changes to this procedure, the SERC Standards Committee shall review the request and submit recommendations to the SERC Board of Directors for consideration. The SERC Board of Directors, on its own motion, may amend the SERC Regional Reliability Standard Procedure.

Maintenance of SERC Regional Reliability Standards

Each SERC Regional Reliability Standard shall be reviewed at least once every five (5) years. The review date will be determined from the effective date or the latest revision

SERC Regional Reliability Standard Development Procedure

date, whichever is later. The review process shall be conducted in accordance with Steps 1 through 13 of the SERC Regional Reliability Standard Development Procedure. As a result of this review, a SERC Regional Reliability Standard shall be reaffirmed, revised, or withdrawn.

Interpretations of Standards

Any member of SERC, or group within SERC, or an entity that is directly and materially affected by reliability of the SERC Bulk Electric System shall be permitted to request an interpretation of a SERC Regional Reliability Standard or regional criteria documented in a SERC Standing Committee Document. Any such entity shall also be permitted to request implementation guidance regarding how the SERC compliance program will be measuring and enforcing a NERC Reliability Standard¹. The entity requesting an interpretation or implementation guidance shall send a request to regstd@serc1.org explaining the specific circumstances surrounding the request and what clarifications are required as applied to those circumstances. The request should indicate the material impact to the requesting party, or others, caused by the lack of clarity or a possible incorrect interpretation. SERC Staff will forward requests for interpretations to the appropriate SERC Standing Committee Chair(s), who will assign a Responsible SERC Subgroup with the relevant expertise to address the clarification.

As soon as practical [but not more than forty-five (45) calendar days following the receipt of the request], the assigned subgroup will draft a written interpretation of the SERC Regional Reliability Standard or regional criteria addressing the issues raised. The interpretation will be submitted to the appropriate SERC Standing Committee(s) Executive Committee for review.

As soon as practical [but not more than twenty (20) calendar days following the receipt of the written interpretation from the RSS], the SERC Standing Committee Executive Committee will develop a written recommendation to the SERC Executive Committee concerning approval of the interpretation. The SERC Standing Committee Executive Committee must recommend either that 1) the RSS written interpretation; or 2) a revision of that interpretation be approved. The recommendation, the RSS written interpretation, and any revised interpretation will be forwarded to the SERC Executive Committee.

If approved by the SERC Executive Committee, the interpretation is appended to the SERC Regional Reliability Standard or SERC regional criteria and is effective immediately. The interpretation will stand until such time as the SERC Regional Reliability Standard or SERC Standing Committee Document is revised through the normal process, at which time the SERC Regional Reliability Standard or SERC

¹ This is different than requesting an interpretation of the meaning of a NERC Reliability Standard itself, which must be addressed through the NERC process by submitting a request for interpretation to NERC.

SERC Regional Reliability Standard Development Procedure

Standing Committee Document will be modified to incorporate the clarifications provided by the interpretation.

Requests for implementation guidance regarding how the SERC compliance program will be measuring and enforcing a NERC Reliability Standard will be forwarded to the SERC Compliance staff. The SERC Compliance staff will assign the request to the applicable compliance advisory group to develop appropriate implementation guidance. As soon as practical [but not more than forty-five (45) calendar days following the receipt of the request], the assigned compliance advisory group will draft written implementation guidance for review by the SERC Compliance staff. The SERC Compliance staff will notify the requestor of the approved implementation guidance.

Appeals

Any member of SERC or any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System that believes it has been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, or withdrawal of a SERC Regional Reliability Standard shall have the right to appeal. This appeals process applies only to the SERC Regional Reliability Standards Process as defined in this manual. The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within thirty (30) calendar days of the date of the action purported to cause the adverse effect. The final decisions of any appeal shall be documented in writing and posted on the SERC Member website. A notice of the posting will be sent to all SERC Board of Directors representatives and alternates, and to all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

The appeals process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in this appeals process. The appellant submits to the SERC President a complaint in writing that describes the substantive or procedural action associated with a SERC Regional Reliability Standard or the SERC Regional Reliability Standards Process. The appellant must describe in the complaint the actual or potential adverse impact to the appellant.

Assisted by any necessary staff and the Standards Committee, the SERC President, or the President's designee shall prepare a written response addressed to the appellant as soon as practical but not more than forty-five (45) calendar days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the

SERC Regional Reliability Standard Development Procedure

issue, both the complaint and response will be made a part of the record associated with the SERC Regional Reliability Standard.

Level 2 Appeal

If after the Level 1 Appeal, the appellant remains unsatisfied with the resolution, notification shall be made in writing to the SERC President within fifteen (15) calendar days of the affected entity's Level 2 Appeal to the SERC Executive Committee. In all cases, no SERC Executive Committee members that have any direct affiliation with the participants in the appeal will participate in the Level 2 Appeal.

SERC Staff shall post on the SERC website the notice of the Level 2 appeal and other relevant materials at least fifteen (15) calendar days prior to consideration of the Level 2 appeal by the SERC Executive Committee.

In addition to the appellant, any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System, and who is directly and materially affected by the substantive or procedural action referenced in the complaint shall be heard by the SERC Executive Committee. The SERC Executive Committee shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal.

The Executive Committee may direct the Standards Committee to research and/or advise it on technical issues or matters related to the appeal. Each appellant, any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System, and who is directly and materially affected by the substantive or procedural action referenced in the complaint may request that an ad-hoc committee be formed to assist the Executive Committee in its review.

The SERC Executive Committee may in its decision find for the appellant and remand the issue to the SERC Standards Committee for resolution with a statement of the issues and facts in regard to which fair and equitable action was not taken.

The SERC Executive Committee may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections.

The actions of the SERC Executive Committee shall be posted on the SERC website. A notice of the posting will be sent to the appellant, all SERC Board of Directors representatives and alternates, and all SERC Standing Committees representatives and alternates. In addition, the notice will be sent (via e-mail) to the Region Managers of the Regional Entities adjoining SERC (RFC, MRO, SPP, and FRCC) and to any entity that is directly and materially affected by the reliability of the SERC Bulk Electric System.

SERC Regional Reliability Standard Development Procedure

Appendix C: SERC Regional Reliability Standard Authorization Request Form (Latest approved version of form is posted on the SERC website: www.serc1.org)

SERC to complete

Fax	<input type="checkbox"/>	Withdrawal of Existing Standard
E-mail	---	-----

Purpose (Describe the purpose of the proposed Standard — what the Standard will achieve in support of reliability.)
--

Industry Need (Provide a detailed statement justifying the need for the proposed Standard, along with any supporting documentation.)

SERC Regional Reliability Standard Development Procedure

Brief Description (Describe the proposed standard in sufficient detail to clearly define the scope in a manner that can be easily understood by others.)

Justification for Regional Variation (Provide a detailed statement justifying the need for the proposed Standard specifically identifying the need for a regional variation.)

Reliability Functions

The Standard will Apply to the Following Functions (Check box for each one that applies.)

	Reliability Authority	The entity that is the highest level of authority who is responsible for the reliable operation of the Bulk Electric System, has the Wide Area view of the Bulk Electric System, and has the operating tools, processes and procedures, including the authority to prevent or mitigate emergency operating situations in both next-day analysis and real-time operations. The Reliability Coordinator has the purview that is broad enough to enable the calculation of Interconnection Reliability Operating Limits, which may be based on the operating parameters of transmission systems beyond any Transmission Operator's vision.
	Balancing Authority	The responsible entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a Balancing Authority Area, and supports Interconnection frequency in real time.
	Interchange Authority	Authorizes valid and balanced Interchange Schedules
	Planning Authority	The responsible entity that coordinates and integrates transmission facility and service plans, resource plans, and protection systems.
	Transmission Service Provider	The entity that administers the transmission tariff and provides Transmission Service to Transmission Customers under applicable transmission service agreements.
	Transmission Owner	The entity that owns and maintains transmission facilities.

SERC Regional Reliability Standard Development Procedure

	Transmission Operator	The entity responsible for the reliability of its "local" transmission system, and that operates or directs the operations of the transmission facilities.
	Transmission Planner	The entity that develops a long-term (generally one year and beyond) plan for the reliability (adequacy) of the interconnected bulk electric transmission systems within its portion of the Planning Authority Area.
	Resource Planner	The entity that develops a long-term (generally one year and beyond) plan for the resource adequacy of specific loads (customer demand and energy requirements) within a Planning Authority Area.
	Generator Operator	The entity that operates generating unit(s) and performs the functions of supplying energy and Interconnected Operations Services.
	Generator Owner	Entity that owns and maintains generating units.
	Purchasing-Selling Entity	The entity that purchases or sells, and takes title to, energy, capacity, and Interconnected Operations Services. Purchasing-Selling Entities may be affiliated or unaffiliated merchants and may or may not own generating facilities.
	Distribution Provider	Provides and operates the "wires" between the transmission system and the customer.
	Load-Serving Entity	Secures energy and transmission service (and related Interconnected Operations Services) to serve the electrical demand and energy requirements of its end-use customers.

NOTE: The RSS may find it necessary to modify the initial reliability function responsibility assignment as a result of the standards development and comments received.

Applicable Reliability Principles <i>(Check all boxes that apply.)</i>	
<input type="checkbox"/>	1. Interconnected bulk power systems shall be planned and operated in a coordinated manner to perform reliably under normal and abnormal conditions as defined in the NERC Standards.
<input type="checkbox"/>	2. The frequency and voltage of interconnected bulk power systems shall be controlled within defined limits through the balancing of real and reactive power supply and demand.
<input type="checkbox"/>	3. Information necessary for the planning and operation of interconnected bulk power systems shall be made available to those entities responsible for planning and operating the systems reliably.

SERC Regional Reliability Standard Development Procedure

<input type="checkbox"/>	4. Plans for emergency operation and system restoration of interconnected bulk power systems shall be developed, coordinated, maintained, and implemented.
<input type="checkbox"/>	5. Facilities for communication, monitoring, and control shall be provided, used, and maintained for the reliability of interconnected bulk power systems.
<input type="checkbox"/>	6. Personnel responsible for planning and operating interconnected bulk power systems shall be trained, qualified, and have the responsibility and authority to implement actions.
<input type="checkbox"/>	7. The security of the interconnected bulk power systems shall be assessed, monitored, and maintained on a wide-area basis.
Does the proposed Standard comply with all of the following Market Interface Principles? (Select 'yes' or 'no' from the drop-down box.)	
Recognizing that reliability is an Common Attribute of a robust North American economy:	
1. A reliability standard shall not give any market participant an unfair competitive advantage. Yes	
2. A reliability standard shall neither mandate nor prohibit any specific market structure. Yes	
3. A reliability standard shall not preclude market solutions to achieving compliance with that standard. Yes	
4. A reliability standard shall not require the public disclosure of commercially sensitive information. All market participants shall have equal opportunity to access commercially non-sensitive information that is required for compliance with reliability standards. Yes

Appendix D: Elements of a SERC Regional Reliability Standard

Title	A brief, descriptive phrase identifying the topic of the standard.
Identification Number	A unique identification number assigned to facilitate tracking and reference to SERC Regional Reliability Standards. The identification number will be consistent with the Numbering Convention for NERC Regional Reliability Standards. The latest approved version of the convention will be posted on the SERC website (www.serc1.org).
Effective Date and Status	The effective date of the standard or, prior to adoption of the standard by the Board of Directors, the proposed effective date.
Purpose	The purpose of the standard. The purpose shall explicitly state what outcome is expected by this standard.
Applicability	Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire SERC area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.
Violation Severity Levels	Defines the degree to which compliance with a requirement was not achieved. The violation severity levels, are part of the standard and are balloted with the standard, and developed by the NERC and SERC compliance programs in coordination with the Responsible SERC Subgroup.

SERC Regional Reliability Standard Development Procedure

Risk Factor(s)	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to abnormal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p> <p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>
-----------------------	--

SERC Regional Reliability Standard Development Procedure

Measure(s)	Each requirement shall be addressed by one or more measurements. Measurements that will be used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measurement identifies to whom the measurement applies and the expected level of performance or outcomes required demonstrating compliance. Each measurement shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the full compliance level of each measurement should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.
Compliance Monitoring Process	Defines for each measure: <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.• Violation severity levels.

SERC Regional Reliability Standard Development Procedure

Attached Supporting Information Elements

Interpretations	Any interpretations of the SERC Regional Reliability Standards that were developed, and approved by the SERC Executive Committee, to expound on the application of the standard for unusual or unique situations.
Implementation Plan	Each SERC Regional Reliability Standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	This section references related documents that support reasons for, or otherwise provide additional information related to the standard. Examples include, but are not limited to: <ul style="list-style-type: none">• Glossary of Terms• Developmental history of the standard and prior versions• Responsible SERC Subgroup• Notes pertaining to implementation or compliance• Standard references• Procedures/Practices• Training and/or Technical Reference• Frequently Asked Questions Document

SERC Regional Reliability Standard Development Procedure

SERC Regional Reliability Standard Development Procedure

**SERC Compliance Monitoring and
Enforcement Program**

**Exhibit D
to the
Amended and Restated
Regional Entity Delegation Agreement
between**

North American Electric Reliability Corporation
and
SERC Reliability Corporation

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

SERC Reliability Corporation will implement the NERC Compliance Monitoring and Enforcement Program, ~~Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures),~~ to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within ~~SERC's~~ SERC Reliability Corporation's geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

SERC Reliability Corporation shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be ~~either SERC's board or a balanced compliance panel reporting directly to SERC's board. SERC's hearing body is [its board] [if not the board, insert the name of the committee or group serving as the hearing body].~~

~~[If the hearing body is a compliance panel other than the board, provide here a description of how the members of the compliance panel are selected and the qualifications to be selected for the compliance panel.]~~

~~SERC shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any: [Describe any deviations, or state "None". If there are deviations from the NERC pro forma Hearing Procedures, SERC's Hearing Procedures shall be included as a separate attachment to this Exhibit D.]~~ Reliability Corporation's board.

3.0 ~~OTHER DECISION-MAKING BODIES~~

~~If SERC uses other decision-making bodies within its compliance program, provide here a description of the function of that body to the extent not described elsewhere in the Agreement or exhibits, how the members of that body are selected, and the qualifications to be selected for that body.]~~

SERC Reliability Corporation's Hearing Body is the Board Compliance Committee, or a subset of the Board Compliance Committee. The Board Compliance Committee is comprised of SERC board members appointed by the Board of Directors. The Board Compliance Committee representation is as follows:

- The Investor-Owned Utility Sector shall have three (3) representatives;
- The Federal/State Sector shall have two (2) representatives;
- The Cooperative Sector shall have two (2) representatives;
- The Municipal Sector shall have two (2) representatives;
- The Marketer Sector shall have one (1) representative;
- The Merchant Electricity Sector shall have one (1) representative;
- The ISO-RTO/Customer Sector shall have one (1) representative

Consistent with the Hearing Procedures, a quorum for the purpose of constituting a Hearing Body shall be half of SERC's Board Compliance Committee, or six members including alternates. In addition to the quorum requirement, the chair of the Board Compliance Committee shall declare the Hearing Body duly constituted only if no two sectors can control and no one sector can veto the actions of the Hearing Body (the "Sector Control Requirements"). To ensure that the Sector Control Requirements are met in the formation of a Hearing Body, the Chair shall adhere to the following in declaring the Hearing Body duly constituted:

- If the Hearing Body is made up of six (6) members of the BCC, then each sector shall have no more than one (1) representative on the Hearing Body.
- If the Hearing Body is made up of seven (7) or eight (8) members of the BCC, then only one sector can have two (2) representatives on the Hearing Body, and each other sector can have only one (1) representative on the Hearing Body.
- If the Hearing Body is made up of nine (9) or ten (10) members of the BCC, then no sector can have more than two (2) representatives on the Hearing Body.
- If the Hearing Body is made up of eleven (11) or twelve (12) members of the BCC, then the Sector Control Requirements are met, as no two sectors would have enough votes to control, and no one sector would have the ability to veto.

Approval of all actions before a duly constituted Hearing Body shall require a simple majority of the votes cast, with each member of the Hearing Body having one vote. The decision of any duly constituted Hearing Body pursuant to these requirements shall be final and binding on the Corporation, without requiring either the full Compliance Committee or the Corporation to ratify the Hearing Body's actions.

3.0 OTHER DECISIONMAKING BODIES

SERC Reliability Corporation does not use decision making bodies within its compliance program other than the Board Compliance Committee described in Section 2.0.

SERC Funding

Exhibit E to the Amended and Restated Regional Entity Delegation Agreement between

North American Electric Reliability Corporation
and
SERC Reliability Corporation

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

[Regional Entity]SERC shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) NERC and [Regional Entity]SERC, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of [Regional Entity]sSERC's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require [Regional Entity]SERC (i) to submit to NERC draft(s) of [Regional Entity]sSERC's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by [Regional Entity]SERC Board of Trustees to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of [Regional Entity]sSERC's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The [Regional Entity]SERC business plan and budget submission shall include supporting materials, including [Regional Entity]sSERC's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. ~~[Regional Entity]sSERC's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.~~

(b) NERC shall review and approve [Regional Entity]sSERC's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct [Regional Entity]SERC to make such revisions as NERC deems appropriate prior to approval. NERC shall submit [Regional Entity]sSERC's approved business plan and budget and proposed assessments to the Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of ~~[REGIONAL ENTITY]'s~~SERC's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. ~~[Regional Entity]~~SERC shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying ~~[Regional Entity's]~~SERC's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of ~~[Regional Entity's]~~SERC's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.

4. Collection of Funding

~~IF NERC WILL BILL AND COLLECT ASSESSMENTS DIRECTLY FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):~~

~~(a) (a)~~ NERC shall submit invoices to the load-serving entities or designees identified by ~~[Regional Entity]~~SERC covering the NERC and ~~[Regional Entity]~~SERC assessments approved for collection.

~~IF THE REGIONAL ENTITY WILL ACT AS THE BILLING AND COLLECTION AGENT ON BEHALF OF NERC TO BILL AND COLLECT ASSESSMENTS FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):~~

~~(a) NERC and [Regional Entity] agree that [Regional Entity] shall act as the billing and collection agent on behalf of NERC to bill and collect [Regional Entity]'s assessments from load-serving entities and designees (or such other entities as agreed by NERC and [Regional Entity]). [Regional Entity] agrees that it shall (i) issue all invoices to load-serving entities and other entities in a prompt and timely manner after receipt from NERC of the information needed to issue the invoices; (ii) exercise commercially reasonable efforts to collect invoices that are not paid as of the due date(s); and (iii) transfer all funds collected to NERC in a timely manner, as follows: Prior to the start of each calendar quarter, and once per week thereafter until all billings for the quarter are collected, [Regional Entity] will electronically transfer to NERC, in immediately available funds, all payments received by [Regional Entity] from load-serving entities or other entities for payment of invoices. On the same day that [Regional Entity] makes each electronic transfer of funds to NERC, [Regional Entity] shall send an e-mail to the Chief Financial Officer or Controller of NERC detailing the collections being transmitted, including a listing of the load-serving entities or other entities from which payments were collected and the amount collected from each entity. [Note: If NERC and Regional Entity have a different collection and payment arrangement, the preceding two sentences will be modified accordingly to describe it.]~~

~~[Regional Entity] agrees that it shall not in any way use its position as billing and collection agent for NERC to attempt to influence NERC's policies or decisions on matters relating to adoption of Reliability Standards (including Regional Reliability Standards and Regional Variances), administration of the compliance monitoring and enforcement program and~~

~~other compliance and enforcement matters, determination and imposition of penalties and sanctions, budgeting matters including review and approval of [Regional Entity's] budgets and business plans, or any other NERC decisions, including by issuing invoices, engaging in collection activities or transferring funds collected to NERC in an untimely manner or other than in accordance with this Agreement.~~

(b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, ~~[Regional Entity]SERC~~ shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, ~~[Regional Entity]SERC~~ is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within ~~[REGIONAL ENTITY]'sSERC's~~ region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within ~~[Regional Entity]'sSERC's~~ region.

(c) Upon approval by ERO Governmental Authorities of ~~[Regional Entity]'sSERC's~~ annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay ~~[Regional Entity]'sSERC's~~ annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by ~~[Regional Entity]SERC~~, other than penalty monies received from an operational function or division or affiliated entity of ~~[Regional Entity]SERC~~, shall be applied as a general offset to ~~[Regional Entity]'sSERC's~~ budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of ~~[Regional Entity]SERC~~ shall be transmitted to or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.

6. Budget and Funding for ~~[Regional Entity]'sSERC's~~ Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), ~~[Regional Entity]SERC~~ performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"): ~~[List and describe all non-statutory activities performed by Regional Entity, or state "None".]None.~~

~~[Regional Entity]SERC~~ shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions: ~~[List and describe the methods and procedures Regional Entity employs to keep costs and funding of statutory activities separate from costs and funding of non-statutory~~

~~activities, including at a minimum a description of how Regional Entity's bank accounts and receivables/payables procedures are set up for both statutory and non-statutory functions, a description of how Regional Entity ensures each employee involved in both statutory and non-statutory functions keeps accurate time records reflecting his/her activities, and a description of how Regional Entity's general and administrative costs are allocated between statutory activities and non-statutory activities. If the necessary descriptions are lengthy they may be provided in a separate attachment labeled "Attachment E-1", and state here "See Attachment E-1." If Regional Entity has listed no non-statutory functions in the preceding paragraph, state here "Not applicable."~~Not applicable.

~~[Regional Entity]SERC~~ shall provide its budget for such non-statutory activities to NERC at the same time that ~~[Regional Entity]SERC~~ submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. ~~[Regional Entity's]SERC's~~ budget for non-statutory activities that is provided to NERC shall contain a detailed list of ~~[Regional Entity's]SERC's~~ non-statutory activities and a description of the funding sources for the non-statutory activities. ~~[Regional Entity]SERC~~ agrees that no costs (which shall include a reasonable allocation of ~~[Regional Entity]'sSERC's~~ general and administrative costs) of non-statutory activities are to be included in the calculation of ~~[Regional Entity's]SERC's~~ assessments, dues, fees, and other charges for its statutory activities.

Costs associated with Cross-Regional Compliance Monitoring. The costs associated with any Cross-Regional Compliance Monitoring performed by SERC pursuant to section 6(j) of this Agreement with respect to registered functions of another Regional Entity are to be funded by payments from the NERC or the Regional Entity contracting with SERC for such services, in accordance with the contract between SERC and NERC or the other Regional Entity. Where such a contract has been entered into SERC will include a description of the resources it has budgeted to perform such services, and its estimated costs (including an appropriate allocation of SERC's General and Administrative costs) to perform such services, in each budget year, in SERC's annual business plan and budget that is submitted to NERC and to the Commission for approval.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if ~~[Regional Entity]SERC~~ determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, ~~[Regional Entity]SERC~~ shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in ~~[Regional Entity]'sSERC's~~ approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct ~~[Regional Entity]SERC~~ to make such revisions as NERC deems appropriate prior to approval. NERC shall submit ~~[Regional Entity]'sSERC's~~ approved amended or supplemental business plan and budget and proposed supplemental- assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by ~~[Regional Entity]SERC~~ pursuant to Section 9(h) and (i) of the Agreement. ~~[Regional~~

Entity SERC shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

ATTACHMENT 7A

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

REVISED DELEGATION AGREEMENT

WITH

SOUTHWEST POWER POOL REGIONAL ENTITY

CLEAN VERSION

April 29, 2010

David Cook
Vice President & General Counsel
NERC
1120 G St. NW, Suite 990
Washington, DC 20005

Re: REVISED SPP REGIONAL DELEGATION AGREEMENT

Dear David,

The Southwest Power Pool Regional Entity (SPP RE) Trustees passed the motion below regarding the Revised Regional Delegation Agreement at the SPP RE Trustee April 26, 2010 meeting:

Motion to approve the draft of the SPP Regional Delegation Agreement, in substantially the form presented; and authorize the SPP RE General Manager, Stacy Dochoda, to make all non-substantive changes and amendments necessary to finalize the document for filing with NERC.

Pursuant to your request, I plan to provide the final SPP Regional Delegation Agreement to you on or before April 30, 2010 for presentation to the NERC Board.

Please do not hesitate to contact me with questions.

Regards,

Stacy Dochoda
Regional Entity General Manager

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND SOUTHWEST POWER POOL, INC**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of January 1, 2011, between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and Southwest Power Pool, Inc., on behalf of Southwest Power Pool Regional Entity (SPP), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and SPP may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as SPP provided that:

- (a) The Regional Entity is governed by —
 - (i) an independent board;
 - (ii) a balanced stakeholder board; or
 - (iii) a combination independent and balanced stakeholder board.
- (b) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and
- (c) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, SPP is not organized on an Interconnection-wide basis and therefore is not entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through SPP to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that SPP meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and SPP having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and SPP, agree as follows:

1. Definitions. The capitalized terms used in this Agreement shall be defined as set forth in the Act, ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to SPP to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. Representations.

(a) For purposes of its Delegated Authority, SPP hereby represents and warrants to NERC that:

(i) SPP is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. SPP is governed in accordance with its bylaws by an independent board. Pursuant to these bylaws, no two industry sectors can control any SPP decision and no single industry sector can veto any SPP decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon SPP

(ii) As set forth in **Exhibit C** hereto², SPP has developed a standards development procedure, which provides the process that SPP may use to develop Regional Reliability Standards that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, SPP has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within SPP's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to SPP that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

¹ The **Exhibit B** from SPP shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from SPP shall meet the requirements contained in **Exhibit C** to this Agreement.

3. Covenants.

(a) During the term of this Agreement, SPP shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of SPP under this Agreement without first obtaining the consent of SPP, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and SPP shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. Delegation of Authority.

(a) Based upon the representations, warranties and covenants of SPP in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to SPP for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that SPP shall not monitor and enforce compliance with Reliability Standards for SPP or an affiliated entity with respect to reliability functions for which SPP or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to SPP within, or additions to this delegation of authority to SPP beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where SPP or an affiliated entity is a Registered Entity, SPP shall enter into an agreement with another Regional Entity or NERC for the other Regional

Entity or NERC to monitor and enforce SPP's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit SPP from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both SPP and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, SPP shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, SPP shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords SPP reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards through SPP's process as set forth in **Exhibit C**. Proposals approved through SPP's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in

subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. SPP may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, SPP shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and SPP agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. SPP may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, SPP agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c)

of this Agreement, and with any guidance and directions issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) SPP shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by SPP. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and SPP shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by SPP of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review SPP's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by SPP in accordance with the NERC Rules of Procedure, NERC directives and Commission

requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by SPP and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. SPP may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of SPP's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by SPP as a result of a decision by SPP's Hearing Body shall be filed with, heard by and disposed of by, NERC, in accordance with the NERC Rules of Procedure.

(f) SPP shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) SPP shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, SPP shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review SPP's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

7. Delegation-Related Activities. NERC will engage SPP on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) **Certification of Bulk-Power System Entities.** The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. SPP shall issue certifications in accordance with the NERC Rules of Procedure.

(b) **Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.**

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by SPP and other Regional Entities. SPP shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. SPP shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. SPP shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by SPP and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. SPP shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and SPP shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, SPP shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. SPP may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions

and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) SPP shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) SPP shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of SPP's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and SPP that matters relating to NERC's oversight of SPP's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and SPP and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with SPP and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and SPP's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. SPP shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate SPP's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate SPP's performance of its delegated functions and related

activities and to provide advice and direction to SPP on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, SPP and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, SPP shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of SPP's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring SPP to adopt and implement an action plan or other remedial action, NERC shall issue a notice to SPP of the need and basis for an action plan or other remedial action and provide an opportunity for SPP to submit a written response contesting NERC's evaluation of SPP's performance and the need for an action plan. SPP may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and SPP shall work collaboratively as needed in the development and implementation of SPP's action plan. A final action plan submitted by SPP to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to SPP standardized training and education programs, which shall be designed taking into account input from SPP and other Regional Entities, for SPP personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to SPP concerning the manner in which SPP shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a collaborative process with SPP and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and SPP and, if applicable, other Regional Entities are unable to reach agreement on the

contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), SPP and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, SPP, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by SPP, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without SPP's agreement, *provided*, that SPP shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and SPP and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which SPP, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. SPP, either

individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with SPP, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of SPP performed by NERC shall be limited to an examination of SPP's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. SPP and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) SPP shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. SPP's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, SPP to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. SPP's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) SPP and NERC agree that the portion of SPP's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by SPP and approved by NERC and the Commission. If SPP proposes to use a formula other than Net Energy for Load beginning in the following year, SPP shall submit the proposed formula to NERC in sufficient time that NERC may review

and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide SPP with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) SPP shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of SPP, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund SPP's performance of its Delegated Authority and related activities in accordance with SPP's Commission-approved business plan and budget, in the amount of SPP's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting SPP's approved assessments from end users and other entities and payment of the approved assessment amount to SPP, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon SPP that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without SPP's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to

compare each Commission-approved NERC and SPP fiscal year budget with the actual results at the NERC and Regional Entity levels. SPP shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) SPP shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) SPP shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which SPP shall offset penalty monies it receives against its next year's annual budget for carrying out functions under this Agreement, *provided*, that, subject to approval by NERC and the Commission, SPP may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. SPP may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit SPP from contracting with other entities to assist it in carrying out its Delegated Authority, provided SPP retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and

diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this, Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on January 1, 2011 (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that SPP continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If SPP meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that SPP continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of SPP’s Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time SPP may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be

invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by SPP and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. SPP and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and SPP shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the SPP's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the SPP or NERC is found liable for gross negligence or intentional misconduct, in which case SPP or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of SPP under this Agreement without first obtaining the consent of SPP, which consent shall not be unreasonably withheld or delayed. To the extent SPP does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of

Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of SPP under this Agreement, SPP shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by SPP to NERC and the Commission, or at such other time as may be mutually agreed by SPP and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and SPP, (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to SPP's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. SPP shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated

representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however*, that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in

writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

If to NERC:

North American Electric
Reliability Corporation
116-390 Village Blvd.
Princeton, NJ 08540-5721
Attn: General Counsel
Facsimile: (609) 452-9550

If to SPP:

Southwest Power Pool, Inc.
415 N. McKinley
Suite 140
Little Rock, AR 72211
Attn: Alison Hayes
Facsimile: (501) 821-8726

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings. The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause. Nothing in this Agreement shall be construed to preempt or limit any authority that SPP may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement. This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts. This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

Exhibit A Regional Boundaries

The geographic boundaries of Southwest Power Pool (SPP) are determined by the service areas of its membership, comprised of investor-owned utilities, municipal, cooperative, state and federal systems, merchant electricity generators and power marketers.

The SPP Regional Entity covers an area of approximately 255,000 square miles of service territory (purple region depicted below) in all or part of eight states: Arkansas, Kansas, Louisiana, New Mexico, Mississippi, Missouri, Oklahoma, and Texas.

Service provided by SPP members in areas which overlap with neighboring regions:

- ◆ The area in northeastern Oklahoma is served by Western Farmers Electric Cooperative, Oklahoma Gas & Electric Company, Oklahoma Municipal Power Authority, Grand River Dam Authority, and AEP West.
- ◆ The area in Arkansas is served by Arkansas Electric Cooperative Corporation, Oklahoma Gas & Electric Company, and AEP West.
- ◆ The area in western Missouri is served by Aquila, Empire District Electric Company, City Power & Light (Independence, MO), City Utilities (Springfield, MO), Grand River Dam Authority, Kansas City Power & Light Company, City Power & Light (Independence, MO), and Southwestern Power Administration.

Within the SPP region, compliance monitoring and enforcement functions with respect to reliability functions for which SPP is the registered entity are performed by SERC Reliability Corporation (SERC) pursuant to a contract between SPP and SERC dated as of (DATE).

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity’s bylaws, which NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

PREAMBLE

The values and principles upon which SPP is incorporated and formed include: a relationship-based organization; member-driven processes; independence through diversity of Organizational Group membership; recognition that reliability and economic/equity issues are inseparable; and, deliberate evolutionary, as opposed to revolutionary, implementation of new concepts. These values and principles should guide those serving this organization. The Board of Directors will endeavor to ensure equity to all Members while also assuring the continuous adaptation to controlling conditions within these stated values and principles.

1.0 DEFINITIONS

1.1 Affiliate Relationships

Affiliate Relationships are relationships between SPP Members that have one or more of the following attributes in common:

- (a) are subsidiaries of the same company;
- (b) one Member is a subsidiary of another Member;
- (c) have, through an agency agreement, turned over control of a majority of their generation facilities to another Member;
- (d) have, through an agency agreement, turned over control of a majority of their transmission system to another Member, except to the extent that the facilities are turned over to an independent transmission company recognized by FERC;
- (e) have an exclusive marketing alliance between Members; or
- (f) ownership by one Member of ten percent or greater of another Member.

1.2 Articles of Incorporation

SPP's articles of incorporation as filed with the state of Arkansas.

1.3 Board of Directors

The Board of Directors of SPP, which shall manage the general business of SPP pursuant to these Bylaws.

1.4 Bylaws

These bylaws.

1.5 Criteria

Planning and operating standards and procedures as approved by the Board of Directors.

1.5a Existing Obligations

Certain financial obligations as defined in Section 8.7.1 of these Bylaws.

1.5b ERO

The Electric Reliability Organization under FERC jurisdiction that regulates reliability of the electric power grid.

1.6 Member

An entity that has met the requirements of Section 2.2 of these Bylaws.

1.7 Membership

The collective Members of SPP.

1.8 Membership Agreement

The contract, that specifies the rights and obligations of the parties, executed between SPP and an entity seeking to become an SPP member.

1.9 NERC

The North American Electric Reliability Corporation or successor organizations.

1.10 Net Energy for Load

The electrical energy requirements of an electric system are defined as system net generation plus energy received from others, less energy delivered to others through interchange. It includes system losses but excludes energy required for the storage at energy storage facilities.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008
Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000,
Letter Order, Issued October 6, 2008.

Effective: May 18, 2007

1.11 Officers

The officers of SPP as elected by the Board of Directors. The Officers consist of the President and the Corporate Secretary, at a minimum. Any Officer must be independent of any Member organization.

1.12 Organizational Group

A group, other than the Board of Directors, comprising a committee or working group that is charged with specific responsibilities toward accomplishing SPP's mission.

1.13 Regional Criteria

SPP planning and operating standards and procedures as approved by the Board of Directors.

1.14 Regional Entity Trustees

A governing body of SPP, independent of the Board of Directors, which specifically oversees SPP's function as an ERO Regional Entity pursuant to the Delegation Agreement between SPP and the ERO.

1.15 Regional Reliability Standards

Electric reliability requirements submitted to the ERO by the Regional Entity Trustees; and once approved, implemented and enforced by SPP under authority as the Regional Entity.

1.16 Registered Entity(ies)

A bulk electric system owner, operator or user that is required to comply with ERO reliability standards pursuant to the Energy Policy Act of 2005.

1.17 SPP

Southwest Power Pool, Inc.

1.18 SPPgional Entity

That part of SPPsponsible for the delegated functions pursuant to the Delegation Agreement between SPP and the ERO.

1.19 SPP Compliance Monitoring and Enforcement Program

The program used by the North American Electric Reliability Corporation ("NERC") and the Regional Entities to monitor, assess, and enforce compliance with Reliability Standards within the United States.

1.20 Staff

The technical and administrative staff of SPP as hired by the Officers to accomplish SPP's mission.

1.21 Standards Development Team

An SPP Organizational Group assigned or choosing to develop an SPPgional Reliability Standard for submission to the ERO for approval for enforcement.

1.22 Transmission Owning Member

A Member that has placed more than 500 miles of non-radial facilities operated at or above 60 kV under the independent administration of SPP for the provision of regional transmission service as set forth in the Membership Agreement.

1.23 Transmission Using Member

A Member that does not meet the definition of a Transmission Owning Member.

2.0 MEMBERSHIP

2.1 Qualifications

Membership in SPP is voluntary and is open to any electric utility, Federal power marketing agency, transmission service provider, any entity engaged in the business of producing, selling and/or purchasing electric energy for resale, and any entity willing to meet the membership requirements, including execution of the Membership Agreement. Membership also is open to any entity eligible to take service under the SPP Open Access Transmission Tariff (OATT). These entities desire the greater efficiency and service reliability gained through better coordination by voluntary association in SPP as constituted herein and in the SPP Articles of Incorporation. Members recognize that such association has a significant effect upon the availability and reliability of the bulk electric power supply of the region, and thereby affects the reliability of the nation's electric power supply.

2.2 Applications

Membership by an entity shall be obtained upon meeting the following requirements:

- (a) Meeting membership qualifications;
- (b) Providing an application for membership to the SPP President; and
- (c) Executing the Membership Agreement and delivering a signed copy to the President.

The President shall review applications, approve those meeting membership qualifications and promptly give written notice of the new Member to all other Members. The Board of Directors will review any disputes arising as to the qualifications of the new Member. Membership will commence at the beginning of the next calendar month following completion of these requirements or some other date as may be mutually agreed upon.

2.3 Member Responsibilities and Obligations

Members recognize that SPP exists and operates for the benefit of the bulk electric transmission system and to ensure the reliability of the nation's power supply. As such, Members are required to act to further these goals by participating in projects, and complying with regulatory requirements. Failure to comply with these provisions will be considered a violation of these Bylaws and the Member may be removed in accordance with the provisions for *Removal of Members* in the Membership Agreement.

2.4 Termination, Removal and Reinstatement

The Board of Directors may terminate the membership of any Member in accordance with the Membership Agreement. The President shall promptly give written notice of the removal to all other Members. Any former Member seeking to rejoin SPP shall apply to the Board of Directors for reinstatement. In its application for reinstatement, the former Member shall:

- (a) provide evidence that it has fully paid any accrued financial obligation to SPP;
- (b) demonstrate it has corrected the reason for its removal;
- (c) establish that it will be in compliance with SPP membership requirements; and
- (d) deliver an executed Membership Agreement to the President.

2.5 Participation in Regional Entity Activities

Participation in SPPgional Entity activities is open to the public and does not require membership in SPP, Inc. nor any of the obligations of membership, including SPP, Inc.'s annual fee.

3.0 ORGANIZATIONAL ADMINISTRATION

3.1 Structure

Member input on decision-making shall be accomplished primarily through Membership participation in Organizational Groups. Members are expected to provide representation to Organizational Groups as requested. Unless otherwise provided in these Bylaws, Organizational Group representation will be appointed by the Board of Directors, who shall consider the various types and expertise of Members and their geographic locations, to achieve a widespread and effective representation of the Membership. The Chair of any Organizational Group may appoint any ad hoc task forces as necessary to fulfill its mission. Task force appointments shall be made with due consideration of the various types and expertise of Members and their geographic locations. Criteria for serving on an Organizational Group will be determined in the group's scope. Except for any full representation group, an appointment to an Organizational Group is for an individual, not a corporate entity. Participation in certain sessions of Organizational Group meetings where market sensitive issues are discussed may be restricted to persons representing entities that have executed ERO's Confidentiality Agreement. Representatives on all Organizational Groups will be documented in the SPP directory maintained by the Staff. Organizational Group vacancies will be filled on an interim basis by appointment of the President unless otherwise provided for in these Bylaws.

3.2 Attendance and Proxy

Except for the Market and Operations Policy Committee (MOPC), if a representative does not attend three consecutive Organizational Group meetings, he/she will be considered to have resigned from the group, absent express waiver of this requirement by the chair of the group. Any appeal of removal from the roster of an Organizational Group should be directed to the Corporate Secretary. Any resulting vacancy will be filled in accordance with Section 3.1 *Structure* of these Bylaws.

If a representative is unable to attend an Organizational Group meeting, he/she may in writing appoint a substitute representative who shall have such rights to participate and vote as the representative specifies. The substitute representative may be another member of the Organizational Group or another person who has the authority to act on behalf of the representative. A representative may not grant a proxy for more than three consecutive meetings without the express consent of the chair of the Organizational Group. If a representative exceeds the proxy limit, he/she will be considered to have resigned from the Organizational Group and the vacancy will be filled in accordance with these Bylaws; except, in the case of any full representation Organizational Group, in which case a new representative will be solicited from the member company.

A proxy provided to another representative of the Organizational Group will not be recorded as attendance at the meeting and will not serve to meet or maintain the quorum requirements. A proxy provided to another person with the authority to act on behalf of the representative will be recorded as attendance at a meeting for the purpose of meeting or maintaining the quorum requirements.

3.3 Leadership

3.3.1 Appointment

The Chair of all Organizational Groups shall be nominated by the Corporate Governance Committee for consideration and appointment by the Board of Directors. A Vice Chair shall be elected by the members of an Organizational Group, unless provided otherwise in these Bylaws. A Vice Chair shall act for a Chair:

- (a) at the request of the Chair;
- (b) if the Chair becomes incapacitated and unable to discharge the functions of the position; or
- (c) if the position of the Chair becomes vacant, until a new Chair takes office.

3.3.2 Terms

The terms of the Chair and Vice Chair of all Organizational Groups shall coincide with the two-year term of the Chair of the Board of Directors. Organizational Group representation will be reviewed annually for compliance with the Bylaws by the Corporate Governance Committee.

3.3.3 Vacancies

Should any individual having been appointed as a Chair of any Organizational Group be unable to serve for the term specified, or be unable to serve on a NERC Organizational Group under provisions of these Bylaws, a replacement shall be appointed by the Chair of the Board of Directors for the unexpired term of office.

3.4 Executive Authority

The Officers shall carry out the rights, duties, and obligations of SPP pursuant to the authority granted by the Board of Directors. Officers will execute the SPP Standards of Conduct upon employment. The Standards of Conduct outline the independence requirements for all employees of SPP. The Officers shall be empowered to:

- (a) employ qualified technical and administrative employees;
- (b) engage office space;
- (c) employ outside technical and special service organizations;
- (d) execute contracts;
- (e) provide for independent regional reliability coordination, transmission service administration, and other services as may be directed by the Board of Directors;
- (f) serve as SPP's representative before regulatory bodies, NERC, and in other public forums;
- (g) incur reasonable expenses; and
- (h) make Staff resources available to individual Members or groups of Members on a non-firm, non-priority, first-come-first-serve basis so as not to interfere with current or future needs and priorities established by SPP.

3.5 Meetings

Organizational Groups shall meet as necessary. SPP meetings shall be open, however, any Organizational Group may limit attendance at a meeting by an affirmative vote of the Organizational Group as necessary to safeguard confidentiality of sensitive information, including but not limited to Order 889 Code of Conduct requirements, personnel, financial, or legal matters. Representatives shall be given at least fifteen days written notice of the date, time, place and purpose of each regular or special meeting. Telephone conference meetings may be called as appropriate by the Chair of any Organizational Group with at least one-day prior notice.

3.6 Order of Business

The latest edition of Robert's Rules of Order will generally govern all SPP meetings on any point not specifically covered in these Bylaws.

3.7 Expenses

The expenses of a representative participating in the activities of SPP Organizational Groups and task forces shall be borne by that representative.

3.8 Quorum

The quorum for a meeting of the Markets and Operations Policy Committee or the Membership shall be those Members present. The quorum for any other Organizational Group or task force shall be one-half of the representatives thereof, but not less than three representatives; provided, that a lesser number may adjourn the meeting to a later time. The quorum for a meeting must be established and maintained throughout the meeting in order for the Organizational Group to take any binding action(s). Notwithstanding the above, any actions taken before a quorum is lost are considered valid and binding. A proxy will serve to meet the quorum requirements as described in Section 3.2 *Proxy* of these Bylaws.

3.9 Voting

3.9.1 Markets and Operations Policy Committee and Membership

Upon joining, Members shall be assigned to one of two Membership sectors for the sole purpose of voting on matters before the Markets and Operations Policy Committee or the Membership: Transmission Owning Members, or Transmission Using Members. Each sector votes separately with the result for that sector being a percent of approving votes to the total number of Members voting. An action is approved if the average of these two percentages is at least sixty-six percent. If no Members are present within a sector, the single present sector-voting ratio will determine approval. Unless otherwise stated in these Bylaws, the Markets and Operations Policy Committee or the Membership may determine to vote on an issue by email. The outcome of any email vote must be recorded in the minutes for the group.

3.9.2 Organizational Groups and Task Forces

Each representative of an Organizational Group or Task Force shall have one vote. A simple majority of participants present or represented by proxy and voting shall be required for approval of an action for all other Organizational Group and Task Force action(s). Unless otherwise stated in these Bylaws, an Organizational Group or Task Force may determine to vote on an issue by email. The outcome of any email vote must be recorded in the minutes for the group.

If an Organizational Group is acting as a Standards Development Team as defined in Section 9.5 *Regional Reliability Standards Development Process* of these Bylaws, it will vote in accordance with the SPP Standards Development Process as approved by FERC.

3.10 Appeal

Should any Member or group of Members disagree on an action taken or recommended by any Organizational Group, such Member(s) may, in writing, appeal and submit an alternate recommendation to the Board of Directors prior to the meeting at which consideration of the action by the Board of Directors is scheduled.

3.11 Staff Independence and Support

SPP Staff members will be required to execute the SPP Standards of Conduct upon employment and annually thereafter. The Standards of Conduct outline the independence requirements for employees of SPP. The President shall assign to each Organizational Group an SPP Staff member, who shall attend all meetings and act as secretary to the Organizational Group and any ad hoc task forces of that group. Staff secretaries of all Organizational Groups and task forces shall be non-voting. Minutes shall be kept of pertinent discussion, business transacted, decisions reached, and actions taken at each meeting of SPP Organizational Groups or task forces by the secretary. Minutes shall be published within seven calendar days following a meeting but in any event in advance of the next meeting, and considered final documents upon their approval by the Organizational Group or task force.

3.12 Publications and Data Bases

SPP shall publish and distribute reports as necessary to fulfill the SPP mission. SPP shall also develop and maintain electronic databases of relevant technical information. The release of member-specific proprietary information will be governed by the appropriate SPP governing document (the OATT, the Membership Agreement, the Bylaws, the SPP Criteria) and/or a properly executed confidentiality agreement. Standard publications and standard forms of non-proprietary information will be made available at no charge

3.13 Dispute Resolution

These procedures are established for the equitable, efficient and expeditious resolution of disputes. These procedures are intended to cover disputes between any two or more Members, between Members and consenting non-members, or between SPP and any Member(s) or consenting non-member(s). SPP and Members are strongly encouraged to take part in the complete process herein described prior to litigation or the utilization of other dispute resolution processes. SPP administrative involvement in the proceeding is to coordinate with an appropriate firm or panel to facilitate the resolution of the dispute and to provide meeting coordination and facilities. These procedures do not apply to disputes that are covered by the dispute resolution procedures of the SPP OATT or the SPP Compliance Monitoring and Enforcement Program.

3.13.1 Instigation

Any Member may begin these dispute resolution procedures by making a request in writing to the President. The President will inform the Board of Directors of the initiation of any dispute resolution proceedings. This written request must contain the authorized signatures of all parties to the dispute. The request must contain:

- (a) a statement of the issues in dispute;
- (b) the positions of each of the parties relating to each of the issues;
- (c) the specific dispute resolution procedure desired; and
- (d) any agreed-upon modifications or specific additions to the proceedings described in these Bylaws by which the dispute may be resolved.

3.13.2 Dispute Resolution Process

In the event SPP is a party to the dispute, the parties shall engage a firm specializing in alternative dispute resolution to administer the dispute resolution process. The firm will be mutually determined by the parties and the process will be administered in accordance with these Bylaws and such other SPP governing documents as may be relevant to the proceeding. In the event the parties cannot mutually agree to the engagement of a firm, the dispute resolution process will be abandoned and other available means for resolution will be pursued.

In the event SPP is not a party to the dispute, the parties to the dispute may engage a firm specializing in alternative dispute resolution to administer the dispute resolution process. The firm will be mutually determined by the parties and the process will be administered in accordance with these Bylaws and such other SPP governing documents as may be relevant to the proceeding. In the event the parties cannot mutually agree to the engagement of a firm, and do not determine some other mutually acceptable procedure, the President of SPP shall provide to each party to the dispute a list of candidates to be used in forming a three-person dispute resolution panel. The candidates shall be persons meeting the requirements for directors. The President shall then call a telephone conference meeting during which each party shall alternate striking names from the list

until those remaining constitute the dispute resolution panel. This panel shall select a chair from its membership. Should any candidate decline to serve or resign from a current appointment for any reason, the candidate whose name was last struck from the list shall be contacted to serve. The President shall assign a Staff representative to assist the panel as secretary. The President shall manage the panel selection process to ensure its timely completion.

3.13.3 Resolution Procedures

The types of proceedings available for the resolution of disputes are:

- (a) An Advisory Proceeding to assist each party through discussion and advice, on a separate and individual basis without active participation in the joint discussions and negotiations, to resolve the dispute informally by mutual agreement;
- (b) A Mediation Proceeding to assist the parties through active participation in the joint discussions and negotiations (including specific recommendations of the issues in dispute) through which the parties indirectly attempt to resolve the dispute informally by mutual agreement;
- (c) A non-binding Dispute Resolution Proceeding to hear formal evidence on factual matters related to the issues submitted, make written findings and conclusions of fact, and issue specific written recommendations for resolution of each issue in dispute.
- (d) A binding Dispute Resolution Proceeding to hear formal evidence on factual matters related to the issues submitted, make written findings and conclusions of fact, and issue directives and awards for resolution of each issue in dispute.

The panel chair shall determine meeting arrangements and format necessary to efficiently expedite the resolution of the dispute, and the Staff secretary shall notify the parties of these details. Each party to the dispute must have at least one representative present at all related meetings with full authority to resolve the dispute. Upon conclusion of this process, the panel chair shall notify the President of its outcome. After consultation with the parties to the dispute and the panel chair to determine the completion of the process as described herein, and/or as modified by the parties, the President shall discharge the panel, and notify the Board of Directors of the results. The parties to the dispute agree to complete the process within 90 days from selection of the panel. Final determinations may be subject to corporate or regulatory approvals, which the parties should disclose at the outset of the process. The Staff secretary shall maintain minutes of the panel meetings, which shall become part of SPP's historical records.

3.13.4 Expenses

The parties to the dispute shall share equally all reasonable charges for the meeting location, administrative costs, and related travel expenses of panel members. The parties to the dispute shall also share equally all reasonable compensation for time and service of panel members and related incremental expenses of the SPP Staff. The President shall determine reasonableness of time and service costs for panel members prior to process implementation. The SPP Staff secretary shall account for these expenses. Each party to the dispute shall be responsible for their respective associated expenses.

3.13.5 Liability

The parties to any dispute which is the subject of these dispute resolution procedures shall hold harmless SPP, its Members, Organizational Groups and each of their directors, officers, agents, employees or other representatives, and the panel members from any liabilities, claims, or damages resulting from any agreement or lack of agreement as a result of the dispute resolution proceedings. The foregoing hold harmless right shall not be extended to the parties to any given dispute or to their directors, officers, agents, employees or other representatives.

3.14 Meeting of Members

The Chair of the Board of Directors shall convene and preside over meetings of Members for the purpose of electing Directors, Members Committee representatives, and Regional Entity Trustees to positions becoming vacant in the ensuing year, and any other necessary business. The Membership shall meet at least once per calendar year.

3.15 Liability, Insurance and Indemnification

For purposes of this section “SPP” refers to SPP and its officers, directors, Regional Entity Trustees, employees or agents, and “Member” refers to the Members of SPP as defined in these Bylaws. None of the provisions of this section, including the waiver of liability in Section 3.15.1 below, absolving SPP or its Members, directors, Regional Entity Trustees, officer, agents, employees or other representatives of liability or any provisions for insurance or indemnification apply to actions which are unlawful, undertaken in bad faith, or are the result of gross negligence or willful misconduct.

3.15.1 Waiver of Liability

- (a) SPP shall not be liable to any Member for damages arising out of or related to any directive, order, procedure, action, or requirement of SPP, under the then effective Bylaws and Criteria.
- (b) No Member shall be liable to any other Member or to SPP for damages arising out of or related to any action by the Member pursuant to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.
- (c) Each Member waives any future claim it might have against SPP or other Members arising out of or resulting from any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.
- (d) SPP waives any future claim it might have against any Member arising out of or resulting from any actions taken by a Member pursuant to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.

3.15.2 Insurance

The President is authorized to procure insurance to protect SPP, its directors, Regional Entity Trustees, officers, agents, employees, or other representatives against damages arising out of or related to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria or pursuant to the OATT.

3.15.3 Indemnification of Directors, Officers, Agents and Employees

Except for actions which are unlawful, undertaken in bad faith, or are the result of gross negligence or willful misconduct, SPP shall indemnify its directors, officers, agents, employees, or other representatives to the maximum extent allowed by law consistent with these Bylaws. Each director, Regional Entity Trustee, officer, agent, employee, or other representative of SPP shall be indemnified by SPP against all judgments, penalties, fines, settlements, and reasonable expenses, including legal fees, incurred as a result of, or in connection with, any threatened, pending or completed civil, criminal, administrative, or investigative proceedings to which the incumbent may be made a party by reason of acting or having acted in official capacity as a director, Regional Entity Trustee, officer, agent, employee, or representative of SPP, or in any other capacity which the incumbent may hold at the request of SPP, as its representative in any other organization, subject to the following conditions:

- (a) Such director, Regional Entity Trustee, officer, agent, employee, or other representative must have acted in good faith and, in the case of criminal proceedings, must have had no reasonable cause to believe that conduct was unlawful; provided, that SPP shall not provide indemnification of any conduct judged unlawful in criminal proceedings. When acting in official capacity, the incumbent must have reasonably believed that conduct was in the best interests of SPP, and, when acting in any other capacity, must have reasonably believed that conduct was at least not opposed to the best interests of SPP.
- (b) If the proceeding was brought by or on behalf of SPP, however, indemnification shall be made only with respect to reasonable expenses referenced above. No indemnification of any kind shall be made in any such proceeding in which the director, Regional Entity Trustee, officer, agent, employee, or other representative shall have been adjudged liable to SPP.

- (c) In no event, however, will indemnification be made with respect to any described proceeding which charges or alleges improper personal benefit to a director, Regional Entity Trustee, officer, agent, employee, or other representative and where liability is imposed on the basis of the receipt of such improper personal benefit.
- (d) In order for any director, Regional Entity Trustee, agent, employee, or other representative to receive indemnification under this provision, the person shall vigorously assert and pursue any and all defenses to those claims, charges, or proceedings covered herein which are reasonable and legally available and shall fully cooperate with SPP or any attorneys involved in the defense of any such claim, charges, or proceedings on behalf of SPP.
- (e) No indemnification shall be made in any specific instance until it has been determined by SPP that indemnification is permissible in that specific case, under the standards set forth herein and that any expenses claimed or to be incurred are reasonable. These two (2) determinations shall be made by a majority vote of at least a quorum of the Board of Directors consisting solely of directors who were not parties to the proceeding for which indemnification or reimbursement of expenses is claimed. If such a quorum cannot be obtained, a majority of at least a quorum of the full Board of Directors, including directors who are parties to said proceeding, shall designate a special legal counsel who shall make said determinations on behalf of SPP.
- (f) Any reasonable expenses, as shall be determined above, that have been incurred by a director, Regional Entity Trustee, officer, agent, employee, or other representative who has been made a party to a proceeding as defined herein, may be paid or reimbursed in advance upon a majority vote of a quorum of the full Board of Directors, including those who may be a party to the same proceeding. However, such director, Regional Entity Trustee, officer, agent, employee, or other representative shall have provided SPP with (i) a written affirmation under oath that the incumbent, in good faith, believes the

conditions of indemnification herein have been met; and (ii) a written undertaking that the incumbent shall repay any amounts advanced, with interest accumulated at a reasonable rate, if it is ultimately determined that such conditions are not met. **3.15.4 Limitations**

The provisions of this section 3.15 are subject to applicable state and federal laws, if any, which limit the ability of a Member to waive liability or enter into agreements of indemnity. Any benefits under this Section 3.15 shall not extend to any Member so limited by state or federal law in complying with the provisions thereof.

3.16 Compliance with Membership Requirements

Compliance monitoring of Members and Staff shall be performed to ensure compliance with all requirements of Membership. Certain SPP compliance monitoring and enforcement functions, as detailed in Section 9.0, shall be performed in concert with related ERO programs, and will be overseen by the Regional Entity Trustees. Other monitoring functions shall be provided by appropriate SPP staff under the oversight of the Oversight Committee and the Board of Directors. Compliance monitoring shall be an after-the-fact investigative and assessment function.

Monitoring functions shall include but are not limited to:

- (a) Investigation of all reports or discoveries of non-compliance with approved Bylaws, Regional Criteria, OATT, and agreements between SPP and its Members;
- (b) Obtaining all information needed to investigate all facets of possible non-compliance with Membership requirements;
- (c) Performance of in-depth reviews of operations in order to investigate non-compliance with Membership requirements upon approval from the Oversight Committee;
- (d) Comprehensive audits when recurring issues covering a broad spectrum of violations of Membership requirements are determined and documented;
- (e) Imposition of financial penalties and/or sanctions for non-compliance associated with the results of investigations or audits pursuant to approved standards, policies and/or Criteria;
- (f) Confirmation that SPP is conforming to its own Regional Criteria, OATT, business practices, and reliability operations in a manner that does not stifle the efficiency of the energy markets;
- (g) Utilization of dispute resolution procedures as necessary to resolve conflicts or appeals; and
- (h) Coordination of policy modifications to clearly define requirements and penalties in order to objectively monitor compliance with Membership requirements.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: April 5, 2008

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000,
Letter Order, Issued October 6, 2008.

3.17 Market Monitoring

SPP shall establish and provide appropriate support to a market monitoring function in accordance with its OATT. Market monitoring functions shall be carried out in a manner consistent with the safe and reliable operation of the SPP transmission system, the operation of a robust, competitive and non-discriminatory electric power market, and the principle that a Market Participant as defined in the SPP OATT, or group of Market Participants, shall not have undue influence or impact.

The market monitoring unit shall report to the Board of Directors. Any public reports submitted shall be provided to the Board of Directors and concurrently to the appropriate regulatory body or bodies. The President shall ensure that the market monitoring entity has adequate resources, access to information, and the full cooperation of Staff and Organizational Groups for the effective execution of its duties.

Market monitoring functions shall include but are not limited to:

- (a) Monitoring and reporting on compliance and market power issues relating to transmission services, including compliance and market power issues involving congestion management and ancillary services and the potential of any market participant(s) to exercise market power within the region by affecting available transmission capacity;
- (b) Evaluation and recommendation of any required modifications to the OATT, standards or Criteria;

- (c) Ensuring that the monitoring program is conducted in an independent and objective manner;
- (d) Development of reporting procedures to inform governmental agencies and others concerning market monitoring activities;
- (e) Monitoring the behavior of market participants to determine whether there is any behavior that hinders the reliable, efficient and non-discriminatory provision of transmission service by SPP;
- (f) Ensuring that SPP's involvement in markets does not discriminate in favor of any market participant or its own interests; and
- (g) Recommend plans for mitigating market power, subject to appropriate regulatory approval.

4.0 BOARD OF DIRECTORS

4.1 Duties

The Board of Directors shall at all times act in the best interest of SPP in its management, control and direction of the general business of SPP. The Board of Directors shall solicit and consider a straw vote from the Members Committee as an indication of the level of consensus among Members in advance of taking any actions other than those occurring in executive session. Its duties shall include, but are not limited to the following:

- (a) Direct activities of all SPP Organizational Groups;
- (b) Serve on SPP Organizational Groups;
- (c) Remove Members, and approve the re-entry of Members that have been removed;
- (d) Authorize all substantive contracts and debt instruments;
- (e) Select and review the performance of SPP Officers, who shall serve at the pleasure of the Board of Directors;
- (f) Approve policies by which positions, duties, qualifications, salaries, benefits and other necessary matters pertaining to the SPP Officers are determined;
- (g) Review, approve, disapprove or recommend revision to the actions of any Organizational Group;
- (h) Act on appeals pursuant to Section 3.10;

- (i) Approve and implement Regional Criteria for enforcement under the terms and conditions of the SPP Membership Agreement;
- (j) Provide input with the Members Committee to the Regional Entity Trustees, on SPPgional Reliability Standards presented by the MOPC to the Trustees or otherwise developed under the auspices of the Trustees for submission to the ERO for its approval;
- (k) Approve or revise the operating and capital budgets and any additional expenditures;
 - (l) Convene a meeting of Members at least annually;
 - (m) Approve amendments to these Bylaws as permitted by these Bylaws;
 - (n) Approve amendments to the Membership Agreement as permitted by the Membership Agreement;
 - (o) Approve Regional Criteria pertaining to planning and operating standards and policies and penalties for non-compliance with such Criteria; and
 - (p) Authorize filings with regulatory bodies.

4.2 Composition and Qualifications

4.2.1 Composition

The Board of Directors shall consist of seven persons. The seven directors shall be independent of any Member; one director shall be the President of SPP. A Director shall not be limited in the number of terms he/she may serve. The President shall be excluded from voting on business related to the office of President or the incumbent of that office. No other Staff member shall be permitted to serve as a director

4.2.2 Qualifications

Directors shall have recent and relevant senior management expertise and experience in one or more of the following disciplines: finance, accounting, electric transmission or generation planning or operation, law and regulation, commercial markets, and trading and associated risk management.

4.2.3 Conflicts of Interest

Directors shall not be a director, officer, or employee of, and shall have no direct business relationship, financial interest in, or other affiliation with, a Member or customer of services provided by SPP. Directors may invest in accordance with SPP's Standards of Conduct. Participation in a pension plan of a Member or customer shall not be deemed to be a direct financial benefit if the Member's or customer's financial performance has no material effect on such pension plan.

4.3 Term and Election

Except for the President, a director shall be elected at the meeting of Members to a three-year term commencing upon election and continuing until his/her duly elected successor takes office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members when election of new directors is required, the Corporate Governance Committee shall commence the process to nominate persons equal in number to the directors to be elected;
- (b) At least 45 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the persons it nominates for election as directors, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly and shall deliver same to Members at least 30 calendar days prior to the meeting of Members;
- (c) For purposes of electing or removing directors only, each group of Members with Affiliate Relationships shall be considered a single Member;
- (d) Any additional nominee(s) may be added to the ballot if a petition is received by the Corporate Secretary at least 15 calendar days prior to the meeting of Members and evidencing support of at least 20 percent of the existing Membership; and

- (e)
- 1) If only one candidate is nominated for a seat, each Member shall be entitled to cast a vote for or against the nominee. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, which requires a super majority. In the event a director position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting;
 - 2) If multiple candidates are nominated for a seat, each Member shall be entitled to cast a vote for only one nominee, but may vote against each candidate. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, with the exception that a simple majority of votes cast will determine which nominee is elected. In the event a director position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting.

4.4 Resignation and Removal of Directors

Any director may resign by written notice to the President noting the effective date of the resignation. The Membership may remove a director with cause by vote in accordance with Section 3.9 *Voting* of these Bylaws. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A director who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

4.5 Vacancies

If a vacancy occurs, the Corporate Governance Committee will present a nominee to the Membership for consideration and election to fill the vacancy for the unexpired term at a special meeting of Members following 30 calendar days notice from the Corporate Secretary. The election will be held in accordance with Section 4.3 *Term and Election* of these Bylaws. The replacement director shall take office immediately upon election.

4.6 Functioning of the Board of Directors

In reaching any decision and in considering the recommendations of any Organizational Group or task force, the Board of Directors shall abide by the principles in these Bylaws.

4.6.1 Meetings and Notice of Meetings

The Board of Directors shall meet at least three times per calendar year and additionally upon the call of the Chair or upon concurrence of at least four directors. At least fifteen days' written notice shall be given by the President to each director, the Members Committee, and the Regional State Committee of the date, time, place and purpose of a meeting of the Board of Directors, unless such notice is waived by the Board of Directors. Telephone conference meetings may be called as appropriate by the Chair with at least one-day prior notice. Board of Directors' meetings shall include the Members Committee, a representative from the Regional Entity Trustees, and a representative from the Regional State Committee (as defined in Section 7.2) for all meetings except when in executive

session; provided however, the failure of representatives of the Members Committee and/or of the Regional Entity Trustees and/or of the Regional State Committee to attend, in whole or in part, shall not prevent the Board of Directors from convening and conducting business, and taking binding votes. The Chair shall grant any Member's request to address the Board of Directors.

4.6.2 Chair and Vice Chair; Election and Terms

The Board of Directors shall elect from its membership a Chair and Vice Chair for two-year terms commencing upon election and continuing until their duly elected successors take office or until their term as a director expires without re-election. The President of SPP may not serve as the Chairman of the Board of Directors. The Vice Chair shall act for the Chair:

- (a) at the request of the Chair;
- (b) in the event the Chair should become incapacitated and unable to discharge the functions of the office; or
- (c) if the office of Chair becomes vacant, until the next regularly scheduled meeting of the Board of Directors, at which meeting a new Chair shall be elected by the Board of Directors to fill the vacancy. The Chair shall appoint a director to fill a vacant Vice Chair position until the next meeting of the Board of Directors, at which meeting a new Vice Chair shall be elected by the Board of Directors to fill the vacancy.

4.6.3 Quorum and Voting

Five of the directors shall constitute a quorum of the Board of Directors; provided, that a lesser number may adjourn the meeting to a later time. Decisions of the Board of Directors shall be by simple majority vote of the directors present and voting. Directors must be present at a meeting to vote; no votes by proxy are permitted. Voting will be by secret ballot. The Corporate Secretary will collect and tally the ballots, and announce the results of a vote. Only voting results will be announced and recorded in the minutes; individual votes will not be announced or recorded.

4.6.4 Compensation of Directors

Directors shall receive compensation as recommended by the Corporate Governance Committee, and approved by the Membership, and shall be reimbursed for actual expenses reasonably incurred or accrued in the performance of their duties.

4.6.5 Executive Session

Executive sessions (open only to directors and to parties invited by the Chair) shall be held as necessary upon agreement of the Board of Directors to safeguard confidentiality of sensitive information regarding employee, financial, or legal matters.

5.0 COMMITTEES ADVISING THE BOARD OF DIRECTORS

5.1 Members Committee

The Members Committee shall work with the Board of Directors to manage and direct the general business of SPP. Its duties shall include, but are not limited to the following:

- (a) Provide individual and collective input to the Board of Directors, including but not limited to a straw vote from the Members Committee representatives as an indication of the level of consensus among Members, on all actions pending before the Board of Directors; and
- (b) Serve on committees reporting to the Board of Directors as appointed by the Board of Directors.
- (c) Provide input with the Board of Directors to the Regional Entity Trustees on SPP Regional Reliability Standards presented by the MOPC to the Trustees or otherwise developed under the auspices of the Trustees for submission to the ERO for its approval.

5.1.1 Composition and Qualifications

5.1.1.1 Composition

Provided that Membership is sufficient to accommodate these provisions, the Members Committee shall consist of up to 19 persons. Four representatives shall be investor owned utilities Members; four representatives shall be cooperatives Members; two representatives shall be municipals Members (including municipal joint action agencies); three representatives shall be independent power producers/marketers Members; two representatives shall be state/federal power agencies Members; two representatives shall be alternative power/public interest Members; one representative shall be a large retail customer Member, defined as non-residential end-use customers with individual or aggregated loads of 1-MW or more; and one representative shall be a small retail customer Member, defined as residential customers and other customers with individual or aggregated loads of less than 1-MW. Representatives will be elected in accordance with Section 5.1.2 of these Bylaws.

5.1.1.2 Qualifications

A representative shall be an officer or employee of a Member with decision-making responsibility over SPPlated activities, and must be the Member's representative to the Membership.

5.1.2 Term and Election

Representatives shall be nominated by the Corporate Governance Committee and elected each year at the meeting of Members to staggered three-year terms commencing upon election and continuing until their duly elected successors take office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members at which election of new representatives is required, the Corporate Governance Committee shall nominate persons equal in number to the representatives to be elected;
- (c) At least 30 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the persons it nominates for election as representatives, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly, leaving space for additional names, and shall deliver same to Members at least two weeks prior to the meeting of Members;
- (c) For purposes of electing and removing representatives only, each group of Members with Affiliate Relationships shall be considered a single vote;
- (d) At the meeting of Members, any additional nominee or nominees may be added to the ballot if a motion is made and seconded to add such nominee or nominees; and
- (e) The required number of representatives shall be elected by written ballot. A Member shall be entitled to cast a number of votes equal to the number of representatives to be elected. A Member may not cumulate votes. The candidates in each sector receiving the greatest number of votes will fill vacancies.

5.1.3 Resignation and Removal of Members Committee Representatives

Any representative may resign by written notice to the President noting the effective date of the resignation. A representative may be removed, with cause, by the affirmative vote of a majority of the Members at a meeting of Members. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A representative who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

5.1.4 Vacancies

If a vacancy occurs the Corporate Governance Committee may elect an interim representative from the same sector to serve until a replacement representative from the same sector is elected and takes office. A special election shall be held at the next meeting of Members to fill the vacancy for the unexpired term. The replacement representative shall take office immediately following the election.

5.1.5 Meetings

The Members Committee shall meet only with the Board of Directors.

6.0 COMMITTEES REPORTING TO THE BOARD OF DIRECTORS

This section describes the general scopes and responsibilities of the Organizational Groups reporting directly to the Board of Directors. Nothing in this section is meant to limit these responsibilities or activities in the effort to fulfill SPP's mission.

6.1 Markets and Operations Policy Committee

Each SPP Member shall appoint a representative to the Markets and Operations Policy Committee (MOPC). Each representative designated shall be an officer or employee of

the Member. The Board of Directors will appoint the Chair and Vice Chair of the MOPC. Each member of the MOPC may continue to be a member thereof until the appropriate Member appoints a successor.

The MOPC shall meet at least three times per calendar year, and additionally as needed. The MOPC shall report to the Board of Directors following each MOPC meeting with respect to its activities and with such recommendations, as the MOPC deems necessary.

The responsibilities of the Markets and Operations Policy Committee shall include:

- (a) Recommend practices for system design, planning, adequacy, regional transmission service tariff, interconnections, operation, reliability, market designs and efficiency, and market power mitigation that will help to assure efficient and reliable power supply among the systems in SPP and SPP transmission customers;
- (b) Coordinate and review with ERO Policies and Standards and their applicability to SPP, its Members, and Registered Entities in the SPP footprint;
- (c) Present any Regional Reliability Standards for ERO adoption in accordance with SPP's Standards Development Process.
- (d) Coordinate and oversee the work of any Standards Development Team(s).
- (e) Report to the Trustees on all standards recommended by working groups reporting to the MOPC.
- (f) Make appropriate recommendations to the Board of Directors and Regional Entity Trustees regarding SPP's compliance with ERO Policies and Standards;
- (g) Review Member operating plans and problems that are pertinent to SPP planning and operation;
- (h) Maintain an annual series of load flow and short circuit models and associated stability data bases representing the current and planned electric network of the region, and maintain a data base of all transmission, generation, and supporting facilities within SPP;
- (i) Review and assess the current and planned electric system of the region;
- (j) Make use of studies available from other regions;
- (k) Recommend to the Board of Directors criteria for planning, operations, and to assist in the efficiency and vitality of the wholesale electricity market;

- (l) Coordinate inter-regional and intra-regional plans and facilitate planning, information exchange, and operations between inter-regional and intra-regional groups;
- (m) Develop a coordinated plan for intra-regional transmission for greater efficiency and reliability of electric power supply;
- (n) Recommend to the Board of Directors and Members individual or joint action to improve the operation of the systems comprising SPP;
- (o) Respond to activities as requested by the Strategic Planning Committee and the Board of Directors;
- (p) Monitor the current state and evolution of the electric energy supply industry and proactively recommend commercial practices that meet industry needs and promote commerce;
- (q) Work with all SPP Organizational Groups to promote a high standard of operational reliability;
- (r) Continue coordination of its efforts with the efforts of North American Energy Standards Board (NAESB) and the ISO/RTO Council (IRC), including periodic review of NAESB business practices and IRC policies and their applicability to SPP and its Members;
- (s) Complete a self-assessment annually to determine how effectively the MOPC is meeting its responsibilities; and
- (t) Perform such other functions as the Board of Directors may delegate or direct.

6.2 Strategic Planning Committee

The Strategic Planning Committee (SPC) shall be comprised of eleven members. Three representatives shall be from the Board of Directors; four representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and four representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the SPC. Each representative of the SPC shall continue to be a representative thereof until the Board of

Directors appoints his/her successor. Where a vacancy occurs, the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The SPC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The SPC shall report to the Board of Directors following each SPC meeting with respect to its activities and with such recommendations, as the SPC deems necessary.

The responsibilities of the Strategic Planning Committee shall include:

- (a) Gather information from SPP Members, customers, Staff, regulatory jurisdictions, market monitors, and legislative bodies on industry trends, forecasts and directions;
- (b) Assess the industry environment in which SPP will be operating;
- (c) Assess SPP's capabilities and competencies against the industry environment, including coordination with neighboring entities;
- (d) Develop and recommend to the Board of Directors a mission and vision statement and accompanying goals and objectives;
- (e) Formulate strategies to ensure achievement of SPP's mission statement, goals, objectives, and responsibilities, and recommend necessary modifications to SPP processes to carry out these strategies;
- (f) Work with other Organizational Groups in developing related action plans, schedules and budgets;
- (g) Complete a self-assessment annually to determine how effectively the SPC is meeting its responsibilities; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.3 Human Resources Committee

The Human Resources Committee (HRC) shall be comprised of six members. Two representatives shall be from the Board of Directors, one of whom shall serve as the Chair; two representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and two representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the HRC. Each representative of the HRC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The HRC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The HRC shall report to the Board of Directors following each HRC meeting with respect to its activities and with such recommendations, as the HRC deems necessary.

The responsibilities of the Human Resources Committee shall include assistance to the Board of Directors in fulfilling its responsibility to the Members, and investment community with respect to the oversight of:

- (a) The development and administration of employee benefit programs;
- (b) The effectiveness of SPP's compensation plan for employees;
- (c) The activities of investment managers charged with managing employee benefit assets, including evaluation of performance;
- (d) Approve and monitor SPP staffing structure to ensure it accomplishes organizational mission;
- (e) Maintain current job description for the President and conduct annual performance evaluation;
- (f) Recommend policies by which positions, duties, qualifications, salaries, benefits and other necessary matters pertaining to the SPP Officers are determined;

- (g) Other duties and responsibilities detailed in the Human Resources Committee charter; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.4 Oversight Committee

The Oversight Committee (OC) shall be comprised of three members from the Board of Directors.

The Board of Directors shall appoint the representatives of the OC. Each representative of the OC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs, the Board of Directors will fill the vacancy.

The OC shall meet as needed, provided that a quorum, as defined in these Bylaws, is present. The OC shall report to the Board of Directors following each OC meeting with respect to its activities and with such recommendations, as the OC deems necessary.

The responsibilities of the Oversight Committee shall include:

- (a) Oversee the process of monitoring compliance to SPP and NERC policies other than that assigned to the Regional Entity Trustees under these Bylaws;
- (b) Independently review activities of the Staff;
- (c) Hear and rule on appeals from Members regarding penalty assessment or fine distribution prior to dispute resolution proceedings;
- (d) Recommend Regional Criteria changes necessary for enforcement of mandatory compliance and in response to unclear enforcement provisions of Regional Criteria;
- (e) Grant specific additional authority to the Staff responsible for the oversight monitoring function when needed to perform challenging investigations;
- (f) Oversee the Internal Audit function and receive regular reports, except for that work associated with SAS70 Audit requirements and other financial matters;
- (g) Complete a self-assessment annually to determine how effectively the OC is meeting its responsibilities; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.5 Finance Committee

The Finance Committee (FC) shall be comprised of six members. Two representatives shall be from the Board of Directors, one of whom shall serve as the Chair; two representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and two representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the FC. Each representative of the FC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The FC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The FC shall report to the Board of Directors following each FC meeting with respect to its activities and with such recommendations, as the FC deems necessary.

The responsibilities of the Finance Committee shall include assistance to the Board of Directors in fulfilling its responsibility to the Members, and investment community with respect to its oversight of:

- (a) The quality and integrity of SPP's financial statements;
- (b) SPP's compliance with financially-based legal and regulatory requirements;
- (c) The independent auditor's qualifications, selection, and independence;
- (d) The performance of SPP's internal audit function and independent auditors as relates to SAS70 Audit requirements;
- (e) The development and implementation of annual and long-term operating and capital budgets;
- (f) The management of risk;
- (g) Develop policies for management of debt financing and for long-term contracting;
- (h) Monitoring methodology for cost recovery to ensure continuing equity for Members;

- (i) Other duties and responsibilities detailed in the Finance Committee charter; and
- (j) Perform such other functions as the Board of Directors may delegate or direct.

6.6 Corporate Governance Committee

To the extent that the membership allows, the Corporate Governance Committee (CGC) shall be comprised of nine members. One representative shall be the President of SPP who will serve as the Chair; one representative shall be the Chairman of the Board, unless his/her position is under consideration, in which case the Vice Chairman of the Board; one representative shall be representative of and selected by investor owned utilities Members; one representative shall be representative of and selected by co-operatives Members; one representative shall be representative of and selected by municipals Members; one representative shall be representative of and selected by independent power producers/marketers Members; one representative shall be representative of and selected by state/federal power agencies Members; one representative shall be representative of and selected by alternative power/public interest Members; and one representative shall be representative of and selected by large/small retail Members.

Where a vacancy occurs with respect to a representative of a sector, the representatives from the appropriate sector will fill the vacancy.

The CGC shall meet at least once per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The CGC shall report to the Board of Directors following each CGC meeting with respect to its activities and with such recommendations, as the CGC deems necessary.

The responsibilities of the Corporate Governance Committee shall include:

- (a) Seek input from the Board of Directors, the Members Committee, or the Trustees as to the skills needed to fill any vacancy under consideration;
- (b) In the event of a vacancy or the replacement of an existing director, provide candidates identified by an independent executive search firm for consideration to the Members for election to the Board of Directors;
- (c) In the event of a vacancy or the replacement of an existing Trustee, provide candidates for consideration to the Members for election to the Regional Entity Trustees;

- (d) In the event of a vacancy or the replacement of an existing Members Committee representative, provide candidates for consideration to the Membership for election to the Members Committee;
- (e) Fill vacancies for Organizational Groups in accordance with these Bylaws;
- (f) Monitor the composition of the Board of Directors to ensure balance, independence, maintenance of qualifications under any applicable laws, avoidance of conflict of interest, and periodic review of the criteria for independence set out in the Bylaws and appropriate regulatory bodies, recommending changes, as appropriate;
- (g) Recommend to the Board of Directors the appointment of Organizational Group representatives and leadership except for the Corporate Governance Committee, whose representatives are elected by members in each category; the Members Committee, whose representatives are elected by the Membership; and the Market and Operations Policy Committee, whose representatives are appointed by the Members;
- (h) Develop criteria governing the overall composition of the Board of Directors for recommendation to the Membership;
- (i) Develop criteria governing the overall composition of the Regional Entity Trustees for recommendation to the Membership;
- (j) Coordinate an annual review and assessment of the effectiveness of the Board of Directors, its structure, and process;
- (k) Coordinate an annual review and assessment of the effectiveness of the Regional Entity Trustees, its structure, and process;
- (l) Review annually the structure of the Organizational Groups, and together with the Organizational Group Chairs, the charters of each Organizational Group, and recommend changes to the Board of Directors, as appropriate;
- (m) Review the self-assessments of the Organizational Groups to assure that they are being done on a consistent basis;

- (n) Develop recommendations for the Board of Directors regarding a Chair/Vice Chair succession policy;
- (o) Recommend compensation levels for the Board of Directors and Regional Entity Trustees to the Membership;
- (p) Complete a self-assessment annually to determine how effectively the CGC is meeting its responsibilities; and
- (q) Perform such other functions as the Board of Directors may delegate or direct.

7.0 REGULATORY INVOLVEMENT AND REGIONAL STATE COMMITTEE

Any regulatory agency having utility rates or services jurisdiction over a Member may participate fully in all SPP activities, including participation at the SPP Board of Directors meetings. These representatives shall have all the same rights as Members except the right to vote. Participation includes the designation of representatives by each of the regulatory jurisdictions to participate in any type of committee, working group, task force, and Board of Directors meetings.

7.1 Retention of State Regulatory Jurisdiction

Nothing in the formation or operation of SPP as a FERC recognized regional transmission organization is in any way intended to diminish existing state regulatory jurisdiction and authority. Each state regulatory agency is expressly reserved the right to exercise all lawful means available to protect its existing jurisdiction and authority.

7.2 Regional State Committee

An RSC, to be comprised of one designated commissioner from each state regulatory commission having jurisdiction over an SPP Member, shall be established to provide both direction and input on all matters pertinent to the participation of the Members in SPP. This direction and input shall be provided within the context of SPP's organizational group meetings as well as Board of Directors meetings. The SPP Staff will assist the RSC in its collective responsibilities and requests by providing information and analysis. SPP will fund the costs of the RSC pursuant to an annual budget developed by the RSC and submitted to SPP as part of its budgeting process, which budget must ultimately be approved by the Board of Directors.

The RSC has primary responsibility for determining regional proposals and the transition process in the following areas:

- (a) whether and to what extent participant funding will be used for transmission enhancements;
- (b) whether license plate or postage stamp rates will be used for the regional access charge;
- (c) FTR allocation, where a locational price methodology is used; and
- (d) the transition mechanism to be used to assure that existing firm customers receive FTRs equivalent to the customers' existing firm rights.

The RSC will also determine the approach for resource adequacy across the entire region. In addition, with respect to transmission planning, the RSC will determine whether transmission upgrades for remote resources will be included in the regional transmission planning process and the role of transmission owners in proposing transmission upgrades in the regional planning process.

As the RSC reaches decisions on the methodology that will be used to address any of these issues, SPP will file this methodology pursuant to Section 205 of the Federal Power Act. However, nothing in this section prohibits SPP from filing its own related proposal(s) pursuant to Section 205 of the Federal Power Act.

Issued by: L. Patrick Bourne, Manager
Transmission and Regulatory Policy

Effective: May 1, 2004

Issued on: August 2, 2004

Filed to comply with order of the Federal Energy Regulatory Commission, Docket Nos. RT04-1-002 and ER04-48-002, issued July 2, 2004, 108 FERC ¶ 61,003.

7.3 Retention of Other Regulatory Jurisdiction

Nothing in the formation or operation of SPP as a FERC recognized regional transmission organization is in any way intended to diminish the jurisdiction or authority of any other regulatory body. Any regulatory agency having utility rates or services jurisdiction over a Member or the regional transmission organization reserves the right to exercise all lawful means available to protect its existing jurisdiction and authority.

8.0 FISCAL ADMINISTRATION

The fiscal year shall coincide with the calendar year.

8.1 Operating Budget

SPP Staff and the Finance Committee will prepare an annual budget of expenditures for the next fiscal year and an estimate for an additional two years. The proposed budget shall be submitted to the Board of Directors not less than two weeks prior to the meeting at which the budget is to be considered for approval. Except as addressed in Section 9.0 *Regional Entity Function*, once approved by the Board of Directors, the budget shall constitute the authority required by the Officers for expenditures for the ensuing year. Modifications to the budget during the fiscal year must be recommended to the Board of Directors by the Finance Committee. The President shall have the authority to approve expenditures in accordance with SPP policy as approved by the Board of Directors.

8.2 Annual Membership Fee

All SPP Members will be subject to an annual membership fee in the amount of \$6,000, or other amount established by the Board of Directors. Unless otherwise agreed, Membership fees for new Members are due at the execution of the Membership Agreement. Membership fees are not subject to refund. The Board of Directors shall determine the annual membership fee for the upcoming year in advance of the last meeting of Members in a calendar year. Legitimate public interest groups (e.g. consumer advocates, environmental groups, or citizen participation groups) may seek a waiver of the annual membership fee. The request for waiver must be directed to the President in writing 90 days in advance of the start of each fiscal year.

8.3 ERO and Regional Entity Costs

SPP is a Regional Entity of the Electric Reliability Organization and is subject to the terms of the Delegation Agreement executed by SPP and the ERO. SPP will have certain functions as signatory to the Delegation Agreement related to the establishment and submission of annual budgets related to fulfillment of Regional Entity functions as well as participation in the costs incurred by ERO. The Delegation Agreement may specify SPP's responsibility to collect ERO costs from SPP's Regional Entity footprint, and may specify ERO's responsibility to fund SPP's Regional Entity budget.

SPP will clearly set out the costs associated with its operation as a Regional Entity within SPP's annual budget.

8.4 Monthly Assessments

SPP will assess certain Members described herein on a monthly basis all costs not otherwise collected. Costs recovered under the assessment will include but are not limited to all operating costs, financing costs, debt repayment, and capital expenditures associated with the performance of SPP's functions as assigned by the Board of Directors. Significant among these are costs associated with regional reliability coordination and the provision of transmission service. SPP shall determine the assessment rate based on its annual budgeted net expenditures divided by estimated annual Schedule 1 billing units for service sold under SPP's OATT and Member load eligible to take, but not taking, Network Integration Transmission Service under SPP's OATT. The Board of Directors may review the assumptions used in determining the assessment rate at any time and may adjust the assessment rate appropriately should conditions warrant. Each load-serving Member shall then be assessed the monthly assessment rate applied to its load eligible to take Network Integration Transmission Service under the SPP OATT. Further, each load-serving Member shall receive a credit against the monthly assessment for that month's Schedule 1 fees paid for Network Integration Transmission Service and for Point-to-Point Transmission Service that had a delivery point within the SPP region, under the SPP OATT.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: May 18, 2007

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000, Letter Order, Issued October 6, 2008.

8.5 Fiscal Agent

The President shall serve as the fiscal agent of SPP. The President shall keep an up-to-date record of receipts and disbursements and furnish reports to the Board of Directors and the Finance Committee.

8.6 Auditors

The Board of Directors shall annually engage an independent certified public accounting firm to perform an annual audit of SPP's financial records and prepare a report on the financial condition of SPP. The Finance Committee shall present the audit report to the Board of Directors upon completion.

8.7 Financial Obligation of Withdrawing Members

8.7.1 Existing Obligations

"Existing Obligations" are the following:

- a. Member's unpaid annual membership fee.
- b. Member's unpaid dues, assessments, and other amounts charged under Section 3.8 or otherwise under the Bylaws, plus the Member's share of costs SPP customarily includes in such dues, assessments or other charges, but which as of the Termination Date SPP had not included in such dues, assessments or other charges.
- c. Member's share (computed in accordance with the Bylaws) of the entire principal amounts of all SPP Financial Obligations outstanding as of the Termination Date. "Financial Obligations" are all long-term (in excess of six (6) months) financial obligations of SPP, including but not limited to the following:
 - i. debts under all loans, loan agreements, borrowings, promissory notes, bonds, and credit lines, under which SPP is obligated, including principal and interest;
 - ii. all payment obligations under equipment leases, financing leases, capital leases, real estate and office space leases, consulting contracts, and contracts for outsourced services;

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: May 18, 2007

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000, Letter Order, Issued October 6, 2008.

- iii. any unfunded liabilities of any SPP employee pension funds, whether or not liquidated or demanded; and
- iv. the general and administrative overhead of SPP for a period of three (3) months.
- d. Any costs, expenses or liabilities incurred by SPP directly due to the Termination, regardless of when incurred or payable, and including without limitation prepayment premiums or penalties arising under SPP Financial Obligations.
- e. Member's share (computed in accordance with the Bylaws) of all interest that will become due for payment with respect to all interest bearing Financial Obligations after the Termination Date and until the maturity of all Financial Obligations in accordance with their respective terms ("Future Interest"). In the event that a Financial Obligation carries a variable interest rate, the interest rate in effect at the Termination Date shall be used to calculate the applicable Future Interest. In determining the Member's share of Future Interest, SPP shall take into account any reduction of Financial Obligations due to mitigation under this Section.

Issued by: L. Patrick Bourne, Director
Transmission and Regulatory Policy

Effective: August 10, 2005

Issued on: December 12, 2005

Filed to comply with order of the Federal Energy Regulatory Commission, Docket Nos. RT04-1, ER04-48 and ER05-1352, issued October 7, 2005, 113 FERC ¶ 61,014 (2005).

8.7.2 Computation of a Member's Existing Obligations

For purposes of computing the Existing Obligations of any withdrawing or terminated Member in accordance with the Membership Agreement, such "Member's share" is a percentage calculated as follows:

$$A = 100 [0.25(1/N) + 0.75(B/C)]$$

- Where: A = Member's share (expressed as a percentage)
N = Total number of Members
B = The Member's previous year Net Energy for Load within SPP
C = Total of factor B for all Members

The Finance Committee shall have the discretion to reduce the Existing Obligations of any withdrawing or terminated Member, to reflect any SPP costs or expenses that may be mitigated in connection with such Member's withdrawal or termination. In the event of consolidation of affiliate memberships or the transfer of membership from one corporate entity to another, whereby one entity remains a member of SPP, the withdrawal obligation for the departing company(ies) may be waived at SPP's sole discretion.

9.0 REGIONAL ENTITY FUNCTION

9.1 Regional Entity

SPP operates as a Regional Entity under FERC jurisdiction with oversight powers delegated to it by the ERO. The Regional Entity Trustees shall appoint representatives to ERO organizational groups as necessary to represent the interests of the SPPgional Entity. SPP may pay appropriate associated travel expenses of those appointed representatives upon receipt by the Secretary to the Trustees of an expense report as normally filed within the representative's system.

9.2 Regional Entity Staff

The Regional Entity Trustees will oversee staffing requirements for the SPPgional Entity. All SPPgional Entity staff shall report through the Regional Entity (RE) General Manager to the Trustees.

9.3 RE General Manager

The RE General Manager shall be selected by and report to the SPPgional Entity Trustees, and will provide leadership and vision, oversee the execution of RE strategic direction, and direct the day-to-day operations of the RE. The RE General Manager shall carry out the rights, duties and obligations of the SPP pursuant to the authority granted by these Bylaws, the Regional Entity Trustees, and SPP corporate policies. The RE General Manager's responsibilities shall include but are not limited to:

- (a) Providing guidance and oversight of the execution of the performance of delegated statutory functions from the ERO;
- (b) Developing and managing an appropriate organizational structure and staffing levels to accomplish the RE functions;
- (c) Developing an annual RE business plan and budget for RE Trustee, NERC and FERC approval;
- (d) Providing sound fiscal management;
- (e) Ensuring compliance with SPP's Bylaws and Regional Entity Delegation Agreement, as well as other applicable federal, state, and local laws; and
- (f) Interfacing with SPP members and stakeholders, federal and state regulators, other Regional Entities, and NERC on matters related to the reliability of the bulk power system.

The President shall ensure that the RE General Manager has adequate resources, access to information, and the full cooperation of Staff and Organizational Groups for the effective execution of his/her duties.

9.4 Duties of Regional Entity Staff

Regional Entity functions related to compliance monitoring and enforcement shall include but are not limited to:

- (a) Investigation of all reports or discoveries of non-compliance with approved ERO policies and standards;
- (b) Obtaining all information needed to investigate all facets of possible noncompliance with ERO policies and standards;
- (c) Performance of in-depth reviews of operations in conjunction with the Compliance Monitoring and Enforcement Program (CMEP);
- (d) Comprehensive audits when recurring issues covering a broad spectrum of violations of ERO policies and standards are determined and documented;
- (e) Recommendation of financial penalties and/or sanctions for non-compliance with ERO policies and standards pursuant to ERO guidelines;
- (f) Assist the Regional Entity Trustees with third party audits to confirm that SPP is conforming to ERO policies and standards;
- (g) Utilization of dispute resolution procedures as necessary to resolve conflicts or appeals; and
- (h) Coordination of policy modifications to clearly define ERO requirements, and penalties in order to objectively monitor compliance.

9.5 Regional Reliability Standards Development Process

When an SPP working group or task force is considering an SPPgional Reliability Standard, it will be designated the Standards Development Team (SDT) for that Standard in accordance with the SPPgional Entity Standards Development Process Manual. For purposes of an SDT, participation and voting will be open to any interested party in accordance with the Standards Development Process and without regard to membership status in SPP.

9.6 Compliance Monitoring and Enforcement Program

The Regional Entity Trustees will oversee SPP's Compliance Monitoring and Enforcement Program (CMEP). The CMEP will enforce compliance according to ERO reliability standards

for Registered Entities. Regional Entity staff shall oversee compliance auditing of registered entities, and will report audit results to the Regional Entity Trustees. All audits of SPP's compliance with ERO reliability standards will be performed by external third party auditors as coordinated and managed by the Regional Entity Trustees.

9.7 Regional Entity Trustees

9.7.1 Functions and Duties of the Regional Entity Trustees

The Regional Entity Trustees shall at all times act in the best interests of SPP's role as the SPPgional Entity in its management, control, and direction of the general business of the Regional Entity functions. In reaching any decision and in considering the recommendations of an appropriate entity, the Regional Entity Trustees shall abide by the principles in these Bylaws. Its duties shall include, but are not limited to oversight of the following:

- (a) Select, oversee and review the performance of the SPP General Manager in carrying out the statutory functions and duties as defined in the Delegation Agreement between ERO and SPP;
- (b) Approve the annual RE business plan and budget;
- (c) Perform function assigned by the SPP Compliance Monitoring and Enforcement Program;
- (d) Track and review Regional Standards from MOPC for submission to the ERO and FERC for approval and implementation.
- (e) Complete a self-assessment annually to determine how effectively the Regional Entity Trustees are meeting their responsibilities; and
- (f) Provide an annual report to the Board of Directors regarding the effectiveness of the Regional Entity function and processes.

9.7.2 Composition and Qualifications

9.7.2.1 Composition

The Regional Entity Trustees shall consist of three (3) persons. The trustees shall be independent of the SPP Board of Directors, any Member, industry stakeholder, or SPP organizational group. Regional Entity Trustees do not serve as members of the SPP Board of Directors. A trustee shall not be limited in the number of terms he/she may serve.

9.7.2.2 Qualifications

Regional Entity Trustees shall have relevant senior management expertise and experience in the reliable operation of the bulk electric transmission system in North America.

9.7.2.3 Conflicts of Interest

Regional Entity Trustees shall not be a director, officer, or employee of, and shall have no direct business relationship, financial interest in, or other affiliation with, a Member, a customer of services provided by SPP, or a Registered Entity in the SPP footprint. Trustees may invest in accordance with the SPP Standards of Conduct. Participation in a pension plan of a Member, customer, or Registered Entity in the SPP footprint shall not be deemed to be a direct financial benefit if the Member's, customer's, or Registered Entity's financial performance has no material effect on such pension plan.

9.7.3 Term and Election

Regional Entity Trustees shall be elected at the meeting of Members to a three-year term commencing upon election and continuing until his/her duly elected successor takes office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members when election of a new trustee is required, the Corporate Governance Committee shall commence the process to nominate persons for the position to be elected;

- (b) At least 45 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the person it nominates for election as a trustee, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly, leaving space for additional names, and shall deliver same to Members at least 30 calendar days prior to the meeting of Members;
- (c) For purposes of electing or removing trustees only, Members with Affiliate Relationships shall be considered a single Member;
- (d) Any additional nominee(s) may be added to the ballot if a petition is received by the Corporate Secretary at least 15 calendar days prior to the meeting of Members and evidencing support of at least 20 percent of the existing Membership; and
- (e) 1) If only one candidate is nominated for a seat, each Member shall be entitled to cast a vote for or against the nominee. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, which requires a super majority. In the event a trustees position is not filled the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held but no later than the next regular Board of Directors/Members Committee meeting;

2) If multiple candidates are nominated for a seat, each Member shall be entitled to cast a vote for only one nominee, but may vote against each candidate. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, with the exception that a simple majority of votes cast will determine which nominee is elected. In the event a trustee position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting.

9.7.4 Resignation and Removal of Regional Entity Trustees

Any Regional Entity Trustee may resign by written notice to the President noting the effective date of the resignation. The Membership may remove a trustee with cause in accordance with Section 3.9 *Voting* of these Bylaws. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A trustee who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

9.7.5 Vacancies

If a vacancy occurs, the Corporate Governance Committee will present a nominee to the Membership for consideration and election to fill the vacancy for the unexpired term at a special meeting of Members following 30 calendar days notice from the corporate Secretary. The election will be held in accordance with Section 9.7.3 *Term and Election* of these Bylaws. The replacement trustee shall take office immediately upon election.

9.7.6 Meetings and Notice of Meetings

Regular Regional Entity Trustees' meetings will be scheduled in conjunction with the regularly scheduled SPP Board of Directors meetings, provided the meeting schedule may be adjusted for good cause and with sufficient notice, and additionally upon the call of the chair or upon concurrence of at least two trustees. Except as otherwise provided in these Bylaws, all meetings will be open to any interested party. At least fifteen days' written notice shall be given by the chair to each trustee, the Board of Directors, and the Members Committee of the date, time, place and purpose of a meeting, unless such notice is waived by the trustees. Telephone conference meetings may be called as appropriate by the chair with at least one-day prior notice. The chair shall grant any party's request to address the Regional Entity Trustees.

9.7.7 Chair

The Regional Entity Trustees shall elect from its membership a chair for a two-year term commencing upon election and continuing until the chair's duly elected successor takes office or until the chair's term as a trustee expires without re-election. The panel may elect to rotate the chair to the senior member of the panel when the initial, or subsequent, chair's term expires.

9.7.8 Quorum and Voting

Two trustees shall constitute a quorum of the Regional Entity Trustees necessary for a binding vote. Decisions of the Regional Entity Trustees require two affirmative votes. Trustees must be present at a meeting to vote; no votes by proxy are permitted. All Regional Entity Trustee decisions regarding the Regional Entity are final except as subject to oversight by the ERO and FERC.

9.7.9 Compensation of Regional Entity Trustees

Regional Entity Trustees shall receive compensation as recommended by the Corporate Governance Committee, and approved by the Membership submitted for approval as part of the ERO budget process. Trustees shall be reimbursed for actual expenses reasonably incurred or accrued in the performance of their duties.

9.7.10 Executive Session

Executive sessions (open only to Trustees and parties invited by the chair of the Regional Entity Trustees) shall be held as necessary upon agreement of the Regional Entity Trustees to safeguard confidentiality of sensitive information regarding employee, financial or legal matters, or confidential information related to compliance matters.

10.0 AMENDMENTS TO THESE BYLAWS, THE ARTICLES OF INCORPORATION, AND MEMBERSHIP AGREEMENT

Except for modifications to Section 4.0 BOARD OF DIRECTORS, Section 5.0 COMMITTEES ADVISING THE BOARD OF DIRECTORS, Section 9.0 REGIONAL ENTITY FUNCTION and Section 10.0 AMENDMENTS, these Bylaws may be amended, repealed, or added to by the Board of Directors only upon 30 days written notice to the Membership of the proposed modification(s). Approval of amendments to the Bylaws by the Board of Directors must be by an affirmative vote of at least five directors. Sections 4.0, 5.0, 9.0, and 10.0 of these Bylaws and the Articles of Incorporation may be amended, repealed, or added to only by approval of the Membership. All amendments are subject to the requisite regulatory approval(s).

11.0 EFFECTIVE DATE AND TRANSITION PROVISIONS

These Bylaws shall become effective the day following acceptance at FERC and remain in force thereafter as may be amended. These Bylaws hereby cancel and supersede SPP Bylaws; provided, that these Bylaws do not relieve any Member from any financial obligation incurred thereunder. Binding obligations entered into by authority of Officers or the Board of Directors, or the Regional Entity Trustees under these Bylaws are hereby assumed and confirmed as obligations of SPP under these Bylaws.

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth the Regional Entity’s standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA [add reference to any applicable authorities in Canada and Mexico]. No regional reliability standard shall be effective within the SPP area unless filed by NERC with FERC [and applicable authorities in Canada and Mexico] and approved by FERC [and applicable authorities in Canada and Mexico].

COMMON ATTRIBUTE 2

SPP regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. An SPP reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

SPP regional reliability standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the SPP area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of SPP or group within SPP shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the SPP area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

[Standards or other named] committee — The SPP [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the SPP board on standards presented for adoption.

COMMON ATTRIBUTE 6

[Alternative 6B: For a Regional Entity that chooses to vote using a balanced ballot body of stakeholders.]

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with SPP as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.

COMMON ATTRIBUTE 7

SPP will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the SPP and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within [no greater than 60] days of receipt of a completed standard request, the [standards] committee shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The [standards] committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The [standards] committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The [standards] committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.

- Reject the standard request. If the [standards] committee rejects a standard request, a written explanation for rejection will be delivered to the requester within [no greater than 30] days of the decision.

- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the [standards] committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the [standards] committee.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the SPP website within [no greater than 30] days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the SPP website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day comment period. The standards process manager shall provide notice to SPP stakeholders and other potentially interested entities, both within and outside of the SPP area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the SPP website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the SPP [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

[Alternative 17B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

The SPP registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.

COMMON ATTRIBUTE 18

[Alternative 18B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

All members of SPP are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively: Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]

COMMON ATTRIBUTE 19

[Alternative 19B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%] of the members of the [registered ballot body/ballot pool] submitted a ballot.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC [and applicable authorities in Canada and Mexico.]

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the SPP bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in SPP, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the SPP members and others.

COMMON ATTRIBUTE 23

- **Balanced** – The SPP standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the SPP

area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire SPP area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
----------------------	---

COMMON ATTRIBUTE 33

Measure(s)	Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.
-------------------	--

COMMON ATTRIBUTE 34

<p>Compliance Monitoring Process</p>	<p>Defines for each measure:</p> <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.

I. Introduction

This manual defines the fair and open process for adoption, approval, revision, reaffirmation, and deletion of a regional reliability standard (Standard) by Southwest Power Pool, a regional entity (RE). Standards provide for the reliable regional and sub-regional planning and operation of the Bulk Power System (BPS), consistent with Good Utility Practice within an RE's geographical footprint.

Due process is the key to ensuring that Standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in a Standard's development.

Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the Bulk Power System has a right to participate by: a) expressing a position and its basis, b) having that position considered, c) voting on a proposed regional reliability standard through a segment weighted balanced process, and d) having the right to appeal.

II. Background

An RE may develop, through its own processes, separate Standards that go beyond, add detail to, or implement NERC reliability standards, or otherwise address issues that are not addressed in NERC reliability standards.

NERC reliability standards and the RE's Standards are all to be included within the RE's Compliance Program.

RE Standards are developed consistent with the following philosophies and according to the process defined in this manual:

- A fair and open process that provides an opportunity for all interested parties to participate;
- Avoid any impact on commerce that is not necessary for reliability;
- Provide a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and do not have a significant adverse impact on reliability; and
- A justifiable difference between regions or between sub-regions within the Regional geographic area.

The NERC Board of Trustees has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are fundamental to reliability and the market interface, and provide a constant beacon to guide the development of reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards. Persons and committees that are responsible for the RE Standards process shall consider these NERC principles in the execution of those duties.

NERC reliability standards are based on certain reliability principles that define the foundation of reliability for the North American BPS. Each Standard shall enable or support one or more of the reliability principles, thereby ensuring that it serves a purpose in support of reliability of the North American BPS. Each Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Standard undermines reliability through an unintended consequence.

While NERC reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Standards shall be consistent with the market interface principles. Consideration of the market interface principles is intended to ensure that Standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

III. Regional Reliability Standard Definition, Characteristics, and Elements

A. Definition of a Regional Reliability Standard

A NERC reliability standard defines certain obligations or requirements of entities that operate, plan, and use the Bulk Power Systems of North America. The obligations or requirements must be material to reliability and measurable. Each obligation and requirement shall support one or more of the stated reliability principles and shall be consistent with all of the stated reliability and market interface principles in the NERC Standards Process Manual.

SPP RE may develop, through the process described in this manual, separate SPP Regional Reliability Standards (Standard) that go beyond, add detail to, or implement NERC reliability standards, or that cover matters not addressed in NERC continent-wide reliability standards. SPP Regional Reliability Standards may be developed and exist separately from NERC continent-wide reliability standards, or may be proposed as NERC reliability standards. Standards that exist separately from NERC reliability standards shall be more stringent than a NERC continent-wide reliability standard, including a regional difference that addresses matters that the NERC continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. These regional reliability standards, if approved by the RE Trustees, are forwarded to NERC for review and submittal to FERC for approval.

B. Definition of SPP Criteria

SPP Criteria are those requirements used by SPP members that are for purposes others than those specified for SPP Regional Reliability Standards (Standards). SPP Criteria are enforceable only under the terms and conditions of the SPP Membership Agreement. SPP Criteria may be developed in accordance with SPP Bylaws outside the process described within this manual since these criteria are not intended to be used by the SPP Regional Entity for compliance and enforcement under the authority delegated under the NERC – SPP Regional Delegation Agreement.

C. Characteristics of a Regional Reliability Standard

Standards define obligations or requirements for the operation and planning of interconnected systems and market interface practices that will be enforceable under the authority of the SPP RE. The format and process defined by this manual applies to all Standards.

A Standard shall have the following characteristics:

- **Material to Reliability** - A Standard shall be material to the reliability of bulk power systems of the RE's region. If the reliability of the bulk power systems could be compromised without a particular standard or by a failure to comply with that standard, then the standard is material to reliability.
- **Measurable** - A Standard shall establish technical or performance requirements that can be practically measured.

- **Relative to NERC Reliability Standards** - A Standard must go beyond, add detail to, or implement NERC reliability standards, or cover matters not addressed in NERC reliability standards.

D. Elements of a Regional Reliability Standard

An RE Standard shall consist of the elements identified in this section of this manual. These elements are intended to apply a systematic discipline in the development and revision of Standards. This discipline is necessary to achieve standards that are measurable, enforceable, and consistent. The format allows a clear statement of the purpose, requirements, measures, and penalties for non-compliance associated with each Standard. Supporting documents to aid in the implementation of a Standard may be referenced by the Standard but are not part of the Standard itself. All mandatory requirements of a Standard shall be within an element of the standard.

Performance Elements of a Regional Reliability Standard

Identification Number	A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference RE documentation. Format for Regional Standard Request will be: RSR-000
Title	A brief, descriptive phrase identifying the topic of the Standard.
Effective Date and Status	The effective date of the Standard or, prior to adoption of the Standard by the RE through its own processes, the proposed effective date. The status of the standard will be indicated as active or by reference to one of the numbered steps in the standards process.
Purpose	The purpose of the Standard. The purpose shall explicitly state what outcome will be achieved or is expected by this Standard. The purpose is agreed to early in the process as a step toward obtaining approval to proceed with the development of the standard. The purpose should link the standard to the relevant principle(s).
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies the responsible entity and the action to be performed or outcome to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory. Any additional comments or statements for which compliance is not mandatory such as background or explanatory information should be placed in a separate document and referenced. (See Supporting References).

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire SPP area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
Risk Factor(s)	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to a normal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p> <p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>

Measure(s)	Each requirement shall be addressed by one or more measurements. Measurements will be used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measurement identifies to whom the measurement applies and the expected level of performance or outcomes required to demonstrate compliance. Each measurement shall be tangible, practical, and as objective as is practical. Measures are proxies to assess required performance or outcomes. Achieving the measures should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirements(s) to which it applies.
-------------------	--

Compliance Elements of a Regional Reliability Standard

Compliance Monitoring Process	<p>The following compliance elements, which are part of the standard and are balloted with the standard are developed for each measure in a standard by the NERC compliance program in coordination with the standard drafting team:</p> <ul style="list-style-type: none"> • The specific data or information required to measure performance or outcomes. • The entity responsible for providing the data or information for measuring performance or outcomes. • The process used to evaluate data or information for the purpose of assessing performance or outcomes. • The entity responsible for evaluating data or information to assess performance or outcomes. • The time period in which performance or outcomes is measured, evaluated, and then reset. • Measurement data retention requirements and assignment of responsibility for data archiving.
Violation Severity Levels	Defines the degree to which compliance with a requirement was not achieved. The violation severity levels, are part of the standard and are balloted with the standard, and developed by the NERC compliance program in coordination with the standard drafting team.

Supporting Information Elements

Interpretations	Formally approved interpretations of the reliability standard. Interpretations are temporary, as the standard should be revised to incorporate the interpretation. Interpretations are developed and approved through a process described in the section Interpretations of Standards.
Implementation Plan	Each standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	<p>This section references related documents that support reasons for, or otherwise provide additional information related to, the Standard. Examples include, but are not limited to:</p> <ul style="list-style-type: none"> • Development history of the Standard and prior versions • Notes pertaining to implementation or compliance • Standard references • Standard supplements • Procedures • Practices • Training references • Technical references • White papers • Internet links to related information

IV. Roles in the Regional Reliability Standards Development Process

Any member of NERC, including any member of a regional reliability organization, regional entity, or group within NERC shall be allowed to request that a Standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) who is directly and materially affected by the reliability of the North American Bulk Power Systems shall be allowed to request a Standard be developed, modified, or withdrawn.

Originator - Any entity (person, organization, company, governmental agency, individual, etc.) that is directly and materially affected by the operation of an RE's BPS, is allowed to request a Standard be developed or an existing Standard be modified, or deleted.

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the voting segments and are registered with SPP as a ballot participant in the voting of a proposed standard. Membership in SPP is not a requirement for registration. Registration in a ballot body must be done via the SPP website by close of business the day prior to the day voting begins on the standard. [Each standard action has its own registered ballot body.] The representation model of the registered ballot body is provided in Sec V. B. Regional Reliability Standards Development Process Steps, Step 5 – Open Voting.] The outcome of the vote of the registered ballot body is forwarded to the RE Trustees regardless of advisory voting outcomes at the MOPC or SPP Board level.

SPP Regional Entity Trustees (RE Trustees) – The SPP Regional Entity Trustees shall act on any proposed Standard that has gone through the process contained in this manual. Upon approval by the RE Trustees, the Standard will be submitted to NERC for approval under the ERO. RE Trustees are notified of all proposed regional reliability standards requests and receive progress reports from the RE Staff. They also receive notice of the outcome of votes by the ballot body and any recommendations and reports on proposed standards made by the SDT, MOPC and SPP Board.

Regional Entity Staff (RE Staff)- RE Staff shall support the RE Trustees in their oversight authority over the Standards Development Process and any other function or responsibility ascribed to them in the NERC- Southwest Power Pool, Inc. Delegation Agreement.

SPP Markets and Operations Policy Committee (MOPC) - The SPP Markets and Operations Policy Committee will assign Standards to a Standards Development Team for development or revision

SPP Board of Directors and Members Committee (BOD/MC) – The SPP Board of Directors in conjunction with the Members Committee provides advisory votes to the RE Trustees on reliability matters as they pertain to the RE. The BOD/MC votes on proposed regional standards or changes to regional standards for the sole purpose of providing an additional stakeholder forum for review, and valuable input to the RE Trustees decision on a regional standard based on the groups expertise on reliability, operations and market matters as well as its wide diverse representation of the SPP membership.

Compliance Director – The RE office responsible for the administration of the SPP Compliance Program. The duties of this office includes but are not limited to, providing inputs and comments during the standards development process to ensure the measures will be effective and can be practically implemented.

Standard Drafting Team (SDT) – Usually an existing SPP Working Group or Task Force that is comprised of technical experts. Any interested party may attend meetings, provide input and comments, and vote under provisions of the SPP Regional Standards Process Manual.

V. Regional Reliability Standards Development Process

A. Assumptions and Prerequisites

The process for developing and approving Standards is similar to procedures accredited by the American National Standards Institute (ANSI), like that employed by the North American Energy Standards Board (NAESB). The Standards development process has the following characteristics:

- **Inclusive** - Any entity (person, organization, company, governmental agency, individual, etc.) representing an organization with a direct and material interest has a right to participate by:
 - a) Expressing an opinion and its basis,
 - b) Having that position considered,
 - c) Voting on a proposed regional reliability standard through a segment weighted balanced process, and
 - d) Appealing any negative decision

- **Openness** - Participation is open to all organizations that are directly and materially affected by the RE's BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in the RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDT's are open to all interested parties and are noticed on the SPP website at least 15 days in advance. Since pre-existing SPP committees, working groups, or task forces may be assigned the responsibilities of a SDT, the agenda for meetings will note that an SDT activity is being undertaken to distinguish such activity from other non-SDT related agenda items. The openness provisions of this manual apply only and explicitly to the SDT activities. Meetings of subcommittees and working groups serving as a SDT shall follow the SPP Bylaws Sec 3.5 Meetings.
- **Balance** - The RE Standards development process strives to have an appropriate balance of interests. The process prevents any two voting sectors from dominating voting outcomes and no single voting sectors from defeating a proposed reliability standard.
- **Due Process** – The SPP Regional Reliability Standards Development Process provides reasonable notice and opportunity for public comment. At the minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

- **Transparent** – All actions material to the development of a SPP regional reliability standard shall be transparent. All standards development meetings shall be open and publicly noticed on the SPP website.

B. Regional Reliability Standards Development Process Steps

Note: The term “days” below refers to calendar days.

Step 1 – Request to Develop, Revise or Delete a Regional Reliability Standard

Any individual representing an organization (Originator) that is directly or materially impacted by the operation of the BPS within the geographical footprint of the RE may submit a request to the Markets and Operations Policy Committee (MOPC) for the development, modification, or deletion of an RE Standard. Any such request shall be submitted to the MOPC Chairman, or his/her designee, or by another process as otherwise posted on the SPP website. The request should be made using the SPP Regional Standard Request Form (RSR) in Appendix B.

The MOPC or a designee will work with the Originator to develop a description of the proposed Standard subject matter containing sufficient detail to clearly define the purpose, scope, impacted parties, and other relevant information related to the proposed Standard.

Step 2 – Notification to Regional Entity Trustees & Public Notice

The Chairman of the MOPC or his/her designee will forward the request to the RE Trustees. SPP staff will also post the request on the SPP website for public notice and may utilize any appropriate SPP email distribution lists within 30 days. The request is not to be judged as appropriate or useful at this stage.

The MOPC will assign the drafting and scoping responsibility to an appropriate SPP Working Group or Task Force. This group will become the Standards Drafting Team (SDT) for this particular Standard request. The assignment will include any necessary deadlines and due dates for the Standard.

Any documentation of the deliberations of the SDT concerning the Standard shall be made available in accordance with the SPP Bylaws requirements for meeting and organizational groups then in effect. Meetings of the SDT are open to any interested party. Meeting dates and actions on the regional reliability standard are publicly noticed on SPP's public Web site.

The SDT shall provide a report to the RE Trustees and the MOPC on a periodic basis (at least at every regularly scheduled meeting) noting the status of the Standard that has been assigned to it for consideration.

Step 3 – Scoping and Drafting

The SDT will draft the language of the Standard per the Standard description provided by the MOPC and the Originator. The SDT may recommend changes to the scope, purpose, need or other relevant aspects of the Standard through consultation with the MOPC.

The SDT develops a work plan for completing the Standard development work, including the establishment of milestones for completing critical elements of the work in sufficient detail to ensure that the SDT will meet the date objective in the assignment, or an alternative date. This plan will be provided to the RE Trustees and the MOPC.

The SDT may meet in person or via electronic means as necessary; may establish sub-work teams (made up of members of the SDT) as necessary; and perform other activities to address the parameters of the Standard and the established milestone date(s).

The SDT should consider:

- The impact of the Standard on neighboring regions, and seek appropriate input from the neighboring regions if the Standard is determined to have such an impact.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- The need for any existing Standard to be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard.
- Technical reports, white papers and/or work papers that provide technical support for the draft Standard under consideration.
- Documenting the perceived reliability impact should the Standard be approved.

The SDT will regularly (at least at every regularly scheduled meeting) report to the RE Trustees and the MOPC on its progress in meeting a timely completion of the draft Standard. The SDT may request consideration of scope changes of the Standard at any point in the Standard development process.

The RE Trustees or the MOPC may, at any time direct the SDT move to Step 4 and post for comment the current work product, or to terminate the activity if there is no further need for the Standard. If the activity is terminated RE Staff will notify the Originator and the RE Trustees within 30 days.

If there are competing drafts all will be posted on the SPP website for comment. The MOPC may take this step at any time after a SDT has been commissioned to develop the Standard.

For Standards in progress, the MOPC must take action to move to Step 4. *Public Comments*, or to reject the proposal. If the MOPC votes to terminate the activity, the RE Trustees must be notified with supporting reasons provided to them. The proposed standard would then go directly to Step 11. (See Step 11. *RE Trustees Action*)

Step 4 – Post Draft for 30 Day Public Comments

RE Staff will post the draft Standard on the SPP website, along with any supporting documents, for a 30-day comment period. RE Staff shall also inform registered entities and other potentially interested stakeholders of the posting using available SPP communication resources, or by other means deemed appropriate. Comments may be submitted using the RSR Comment Form in Appendix B available on the SPP internet website.

Within 30 days of the conclusion of 30-day comment posting period the SDT shall convene and consider changes to the draft Standard, the implementation plan and/or supporting technical documents. The SDT may elect to return to Step 3. *Scoping and Drafting* to revise the draft Standard, and/or any supporting documentation. The SDT shall summarize the comments received and any changes made as a result. This summary will be and posted on the SPP website when completed.

Step 5 – Open Voting

The SDT shall direct the RE Staff to post the revised draft Standard and other relevant documents including, implementation plan, supporting technical documentation, and summary of comments.

RE Staff will schedule a vote by interested parties to commence no sooner than 15 days and no later than 30 days following the posting of the revised draft.

Members of the ballot body shall be allowed to vote over a period of 15 days. Voting will be through electronic means or other means provided by SPP.

SPP Segment Weighted Voting

Registration in a ballot body created for a specific proposed regional standard is required to vote. Registration for a proposed Standard is noticed on the SPP website and through a Standards email exploder for a period of 15 days prior to the start of the ballot (subscription to the Standards email exploder is open to any interested party through the SPP website). All interested parties who register with the ballot body may vote on the proposed new Standard, Standard revision or Standard deletion. An interested party may only register in one segment.

The five SPP voting segments for Regional Reliability Standards are:

- 1) Transmission
- 2) Generation
- 3) Marketer/Broker
- 4) Distribution/Load Serving Entity
- 5) End User and Public Interest

RE Staff will accept votes any time during the 15-day ballot period for the Standard. Votes will be counted by voting segment. Each voting segment will receive 20% of the vote. A weighted vote of 2/3 affirmative of those voting will pass a Standard for further consideration (Step 7). If the vote fails to achieve a 2/3 majority of those voting, the Standard will be returned to the SDT for consideration for future action (Step 3). The SDT may: revise the Standard; post the Standard again for comments; reballot the Standard; ask the RE Trustees to terminate the request; or any other action it deems appropriate.

The RE Trustees are notified of the outcome of the vote and any actions taken by the SDT as a result of the vote. The RE Trustees will determine any additional action to be taken. (See Step 11. *RE Trustees Action*)

Step 6 – Prepare Consensus Draft & Minority Report

When a Standard is approved, the SDT will prepare a consensus draft representing the version of the Standard to be presented to the MOPC and the BOD/MC before final action by the RE Trustees.

Minority Report and Appeals

- A minority report will be prepared if there are significant issues that cannot be resolved within the SDT during the drafting phase (Step 3) or from the public comments (Step 4).
- A minority report will include any appeals from interested parties that the SPP Standards Procedure Manual was violated in the development of the Standard.
- The minority report remains a part of the record of the Standard and is available to any interested party during any subsequent steps.
- The consensus draft and any minority reports are presented to the MOPC for its consideration and an advisory vote.

Step 7 – Post Draft Standard for Action on the MOPC Agenda

A recommended Standard is noticed for consideration on the MOPC agenda. The agenda materials are made available per the SPP Bylaws, Section 3.5.

If a Standard requires consideration by the MOPC prior to a regularly scheduled meeting, the RE Staff will notify the MOPC Chairman who will notice a special meeting in accordance with the SPP Bylaws.

Step 8 – MOPC Review

The MOPC will provide an advisory vote on the Standard under the governance provisions of the SPP Bylaws, Section 3.9 Voting.

If the MOPC opposes the Standard, the MOPC may request revision of the Standard or termination of further activity on the Standard. If the Standard is terminated, notice is provided (described in Step 9) to the RE Trustees for further action (Step 11).

If the MOPC concurs with the Standard, the Standard proceeds to the SPP Board of Directors and Members Committee for review (Step 9).

The RE Trustees are notified of the outcome of the MOPC review.

Step 9 – SPP Board of Directors/Members Committee Review

A draft Standard submitted to the SPP Board of Directors/Members Committee (BOD/MC) for review must be publicly posted at least 10 days prior to consideration by the BOD/MC. The BOD/MC may consider the Standard at a regularly scheduled meeting, or as determined by the Chairman of the BOD/MC.

The BOD/MC shall be provided:

- The consensus draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommended field testing and effective dates)

- Technical Documentation supporting the draft Standard
- A summary of the registered ballot body vote and summary of the comments and responses that accompanied the votes including a Minority Report if applicable.
- The results of the MOPC advisory vote and any comments
- Any other information relevant to the Standard

The BOD/MC will:

- Provide an advisory vote to the RE Trustees on the Standard (Step 10); or
- Return the Standard to the MOPC with comments

In the case of a second return of a Standard, the proposed Standard is forwarded to the RE Trustees for action. (The proposed Standard would go directly to Step 11).

Step 10 –Presentation to RE Trustees

A draft Standard submitted to the RE Trustees for action must be publicly posted at least 10 days prior to consideration by the RE Trustees.

The RE Trustees shall be provided:

- The consensus draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommended field testing and effective dates)
- Technical Documentation supporting the draft Standard
- A summary of the registered ballot body vote and summary of the comments and responses that accompanied the vote including a Minority Report if applicable
- The results of the MOPC advisory vote and any comments
- The result of the BOD/MC advisory vote and any comments
- Any other information relevant to the Standard

Step 11 - RE Trustees Action

The RE Trustees will:

- Recommend NERC approve the Standard through the NERC process; or
- Remand the Standard to the SDT through the MOPC with comments and instructions; or
- Determine there is no need for the Standard and terminate any future activity.

The RE Trustees may consider the Standard at a regularly scheduled meeting, or as determined by the Chairman of the RE Trustees.

If a Standard is forwarded to the RE Trustees for action as a result of an opposing MOPC vote (Step 8), or if automatically forwarded to them as a result of two or more returns by the MOPC

or SPP Board (Step 9), the RE Trustees will take definitive action, including initiating the process from Step 3, Scoping and Drafting. The RE Trustees may not submit a Standard to NERC for approval without a positive outcome from open and balanced voting in Step 5.

Advisory votes of the MOPC and the BOD/MC do not impact the RE Trustees' authority to submit a Standard to NERC.

Step 12 – Submit to NERC for Approval as Regional Standard

RE Staff will notify interested parties of submission of Standard to NERC by the RE Trustees through the normal and customary communication procedures and processes then in effect.

The RE Staff will publicly notice any further steps necessary to have a Standard reviewed and/or approved through the NERC or any successor organization standards process.

C. Filing of Regional Reliability Standards with Regulatory Agencies

The development of Standards must be administered in coordination with the NERC Standards Development Procedure. At the discretion of the NERC Board of Trustees, adopted Standards may be filed with applicable regulatory agencies in the United States, Canada, and Mexico. Regional Reliability Standards once approved by FERC, are made part of the NERC standards and shall be enforced accordingly.

Appendix A

I. Maintenance of the Regional Reliability Standards Development Process Manual

Any interested party may propose changes to this Manual. Such Process Manual change requests will follow all the steps of the Regional Reliability Standards Process outlined in Section V., Part B of this Manual.

II. Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of a Standard shall have the right to appeal. This appeals process applies only to the Standards process as defined in this procedure.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The appeal will be addressed by the RE Trustees. The appeal is included in a Minority Report of the Standard which remains a part of the record for the Standard throughout the SPP Regional Standards Procedure.

The final decisions of any appeal shall be documented in writing and made public.

A complaint will be noted in a Minority Report including the substantive or procedural action or inaction associated with a reliability standard or the standards process. The complaint should describe the actual or potential adverse impact to the appellant. The RE Trustees will provide a written response to the complaint. The appellants response to the RE Trustees determination will be included in the Minority Report.

The RE Trustees shall provide a response to any remaining open complaints.

Appendix B: SPP Regional Standard Request Form

RSR Number		RSR Title	
SPP Regional Standard Name (include Section No., Title, and existing Standard Version if any)			
Requested Resolution Date (if applicable)			
Description			
Reliability Need or Purpose – Try to identify if known: Technical requirements, reliability risk factor, measurements (refer to SPP Standards Process Manual for descriptions).			
Tariff Implications or Changes (Yes or No; If yes include a summary of impact and/or specific changes)			
Criteria Implications or Changes (Yes or No; If yes include a summary of impact and/or specific changes)			
NERC Standard Implications (Yes or No, and summary of impact)

Appendix D: SPP Standards Development Procedure

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

SPP will implement the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures), to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within **SPP's** geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

SPP shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be either **SPP's** board or a balanced compliance panel reporting directly to **SPP's** board. **SPP's** hearing body is the SPP Regional Entity Trustees.

SPP shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any: None.

3.0 OTHER DECISION-MAKING BODIES

SPP has engaged the SERC Reliability Corporation (SERC) to oversee the compliance monitoring and enforcement responsibility within the SPP Region as related to **SPP's** compliance with Reliability Standards requirements that are applicable to the functions for which **SPP** is a Registered Entity.

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

SPP shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

- (a) NERC and SPP, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of SPP's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require SPP (i) to submit to NERC draft(s) of SPP's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by SPP Board of Trustees to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of SPP's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The SPP business plan and budget submission shall include supporting materials, including SPP's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. SPP's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.
- (b) NERC shall review and approve SPP's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct SPP to make such revisions as NERC deems appropriate prior to approval. NERC shall submit SPP's approved business plan and budget and proposed assessments to the Commission for

approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of SPP's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. SPP shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying SPP's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of SPP's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.

4. Collection of Funding

- (a) NERC shall submit invoices to the load-serving entities or designees identified by SPP covering the NERC and SPP assessments approved for collection.
- (b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, SPP shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, SPP is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within SPP's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within SPP's region.
- (c) Upon approval by ERO Governmental Authorities of SPP's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay SPP's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by SPP, shall be applied as a general offset to SPP's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity.

6. Budget and Funding for SPP's Non-Statutory Activities

In addition to its delegated functions and related activities as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), SPP performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"):

SPP's performs non-statutory activities as a Regional Transmission Organization ("RTO"). As a RTO, SPP is mandated by the Commission to ensure reliable supplies of power, adequate transmission infrastructure, and competitive wholesale prices of electricity. In furtherance of this mandate, SPP's specific non-statutory activities are the following primary services:

1. **Tariff Administration:** Independent administration of the Open Access Transmission Tariff that provides one-stop shopping for regional transmission service with consistent rates and terms.
2. **Reliability Coordination:** SPP monitors power flow throughout our footprint. We anticipate problems and take preemptive action to mitigate operating limit violations. SPP coordinates regional response in emergency situations or blackouts.
3. **Regional Scheduling:** SPP ensures that the amount of power sent is coordinated and matched with power received. SPP's regional scheduling service reduces the number of entities with which SPP members and customers have to coordinate.
4. **Market Operations:** SPP administers an Energy Imbalance Marketplace, monitors resource/load balance and ensures that less expensive power is used to serve load before expensive power, all while ensuring system reliability is met.
5. **Expansion Planning:** SPP's planning process seeks to identify system limitations and develop transmission upgrades for increased capacity.
6. **Contract Services:** SPP provides reliability, tariff administration, and scheduling for non-members on a contract basis.

SPP shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions:

(i) Separation of funding sources for statutory activities and non-statutory activities. As a RTO, SPP is a public utility under the Federal Power Act, and is required to submit its budget to the Commission. The Commission already has approved SPP's RTO activities and has ordered that SPP's budgets be filed with the Commission.

SPP's non-statutory activities are funded separately from its Regional Entity statutory activities through the imposition of a Commission-approved Tariff Administration Fee charged by SPP to all load under the SPP Open Access Tariff, except for Contract Services activities, which are funded by contract fees. Additionally, SPP's members are assessed an annual membership fee.

SPP shall provide its budget for such non-statutory activities to NERC at the same time that SPP submits its annual budget to FERC. SPP agrees that no costs of non-statutory activities are to be included in the calculation of SPP's dues, fees, and other charges for its statutory activities.

As provided in section 4(c) of this Exhibit E, on a quarterly basis, NERC will pay SPP an amount equal to one-fourth of the current year approved annual funding amount for SPP's statutory activities. Upon receipt of payment from NERC, SPP will deposit these funds into an account established solely to receive and hold funding received from NERC pursuant to SPP's performance of statutory activities under the Delegation Agreement. On a monthly basis, all expenses incurred by SPP for statutory activities and for non-statutory activities are recorded and paid from the SPP operating account. Throughout the year, as expenses incurred for SPP statutory activities are paid from the SPP operating account, transfers are made from the account established solely to receive and hold funding received from NERC to the SPP operating account in the amounts of payments made for expenses incurred for SPP statutory activities. The RE General Manager shall have sole authority to approve all withdrawal of funds from the SPP Regional Entity bank account.

(ii) Separation of costs of statutory activities and non-statutory activities. All employees performing functions directly attributed to SPP's delegated responsibilities who also perform functions related to SPP's non-statutory activities will utilize a time tracking system to accurately reflect their time spent on statutory activities. Periodically, but no less frequently than annually, SPP will input the time associated with its direct function staff performing statutory activities into a cost calculation model. Specific, direct costs attributable to the direct function staff performing statutory activities are salary, SPP-paid medical insurance, Medicare and Social Security taxes, and other SPP-paid benefits. These costs are then combined with other directly assignable costs of statutory activities, such as travel, meetings, contractors, professional services, fees and expenses of Regional Entity independent trustees, and other direct administrative expenses, and reported on the NERC Statement of Activities.

In addition, an allocation of SPP overhead costs to statutory activities is calculated and the allocated overhead costs are recorded on the NERC Statement of Activities. These overhead costs are shared throughout the SPP organization and include costs for payroll and accounts payable processing, human resources and benefits management, accounting, information technology, executive leadership, corporate affairs and communications, office costs and other support services and expenditures. This allocation is calculated using a standard hourly rate multiplied by the number of SPP staff hours spent directly performing SPP's statutory activities. The hourly rate for allocated overhead costs is developed using SPP's current year

expenses, by separating SPP's shared services support costs which support all of SPP's functions (*i.e.*, the costs for the activities identified in the second sentence of this paragraph) from SPP's operational resource pool. The total indirect costs are then divided by estimated total annual available work hours for SPP's operational resource pool. The average annual employee utilization rate assumes each employee works an eight-hour work day with adjustments to reflect SPP's employment policies related to vacation allotment, SPP holidays and other non-productive leave. The total expenses for statutory activities in a month as recorded on the NERC Statement of Activities are used to determine the amount of transfer to be made to the SPP operating account to reimburse the SPP operating account for the payment of expenses of SPP's statutory activities. The RE General Manager shall have sole authority to approve all withdrawal of funds from the SPP Regional Entity bank account.

SPP shall provide its budget for such non-statutory activities to NERC at the same time that SPP submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. SPP's budget for non-statutory activities that is provided to NERC shall contain a detailed list of SPP's non-statutory activities and a description of the funding sources for the non-statutory activities. SPP agrees that no costs (which shall include a reasonable allocation of SPP's general and administrative costs) of non-statutory activities are to be included in the calculation of SPP's assessments, dues, fees, and other charges for its statutory activities.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if SPP determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, SPP shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in SPP's approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct SPP to make such revisions as NERC deems appropriate prior to approval. NERC shall submit SPP's approved amended or supplemental business plan and budget and proposed supplemental assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by SPP pursuant to Section 9(h) and (i) of the Agreement. SPP shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

ATTACHMENT 7B

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

REVISED DELEGATION AGREEMENT

WITH

SOUTHWEST POWER POOL REGIONAL ENTITY

REDLINED AGAINST

REVISED PRO FORMA DELEGATION AGREEMENT

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
~~AND REGIONAL ENTITY~~**

AND SOUTHWEST POWER POOL, INC

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of ~~January 1, 2011~~, 2011, between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and ~~REGIONAL ENTITY~~ Southwest Power Pool, Inc., on behalf of Southwest Power Pool Regional Entity (SPP), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and ~~REGIONAL ENTITY~~ SPP may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as ~~[REGIONAL ENTITY]~~SPP provided that:

(Aa) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(Bb) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(Cc) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, ~~[REGIONAL ENTITY]~~ ~~[is/SPP is not]~~ organized on an Interconnection-wide basis and therefore ~~[is/is not]~~ entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through ~~[REGIONAL ENTITY]~~SPP to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that ~~[REGIONAL ENTITY]~~SPP meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and ~~[REGIONAL ENTITY]~~SPP having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and ~~[REGIONAL ENTITY]~~SPP, agree as follows:

1. Definitions. The capitalized terms used in this Agreement shall be defined as set forth in the Act, ~~the~~ ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to ~~[REGIONAL ENTITY]~~SPP to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. Representations.

(a) For purposes of its Delegated Authority, ~~[REGIONAL ENTITY]~~SPP hereby represents and warrants to NERC that:

(i) ~~[REGIONAL ENTITY]~~SPP is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. ~~[REGIONAL ENTITY]~~SPP is governed in accordance with its bylaws by ~~[select appropriate: an independent board/a balanced stakeholder board/ a combination independent and balanced stakeholder board]~~. Pursuant to these bylaws, no two industry sectors can control any ~~[REGIONAL ENTITY]~~SPP decision and no single industry sector can veto any ~~[REGIONAL ENTITY]~~SPP decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon ~~[REGIONAL ENTITY]~~SPP

(ii) As set forth in **Exhibit C** hereto², ~~[REGIONAL ENTITY]~~SPP has developed a standards development procedure, which provides the process that ~~[REGIONAL ENTITY]~~SPP may use to develop Regional Reliability Standards ~~[and Regional Variances, if the regional entity is organized on an Interconnection wide basis]~~ that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, ~~[REGIONAL ENTITY]~~SPP has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within ~~[REGIONAL ENTITY]~~SPP's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to ~~[REGIONAL ENTITY]~~SPP that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

¹~~The **Exhibit B** from [REGIONAL ENTITY]~~¹The **Exhibit B** from SPP shall meet the requirements contained in **Exhibit B** to this Agreement.

²~~The **Exhibit C** from [REGIONAL ENTITY]~~²The **Exhibit C** from SPP shall meet the requirements contained in **Exhibit C** to this Agreement.

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. Covenants.

(a) During the term of this Agreement, ~~[REGIONAL ENTITY]~~SPP shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of ~~[REGIONAL ENTITY]~~SPP under this Agreement without first obtaining the consent of ~~[REGIONAL ENTITY]~~SPP, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and ~~[REGIONAL ENTITY]~~SPP shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. Delegation of Authority.

(a) Based upon the representations, warranties and covenants of ~~[REGIONAL ENTITY]~~SPP in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to ~~[REGIONAL ENTITY]~~SPP for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that ~~[REGIONAL ENTITY]~~ SPP shall not monitor and enforce compliance with Reliability Standards for ~~[REGIONAL ENTITY]~~SPP or an affiliated entity with respect to reliability functions for which

~~[REGIONAL ENTITY]~~SPP or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to ~~[REGIONAL ENTITY]~~SPP within, or additions to this delegation of authority to ~~[REGIONAL ENTITY]~~SPP beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where ~~[REGIONAL ENTITY]~~SPP or an affiliated entity is a Registered Entity, ~~[REGIONAL ENTITY]~~SPP shall enter into an agreement with another Regional Entity or NERC for the other Regional Entity or NERC to monitor and enforce ~~[REGIONAL ENTITY]~~SPP's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit ~~[REGIONAL ENTITY]~~SPP from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both ~~[REGIONAL ENTITY]~~SPP and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, ~~[REGIONAL ENTITY]~~SPP shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, ~~[REGIONAL ENTITY]~~SPP shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process

for proposing and adopting Reliability Standards that affords ~~[REGIONAL ENTITY]~~SPP reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards ~~[and Regional Variances, if Regional Entity is organized on an Interconnection-wide basis]~~ through ~~[REGIONAL ENTITY]~~through SPP's process as set forth in **Exhibit C**. Proposals approved through ~~[REGIONAL ENTITY]~~SPP's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. ~~[REGIONAL ENTITY]~~SPP may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, ~~[REGIONAL ENTITY]~~SPP shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise

specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and ~~[REGIONAL ENTITY]~~SPP agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. ~~[REGIONAL ENTITY]~~SPP may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, ~~[REGIONAL ENTITY]~~SPP agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) ~~[REGIONAL ENTITY]~~SPP shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by ~~[REGIONAL ENTITY]~~SPP. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and ~~[REGIONAL ENTITY]~~SPP shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by ~~[REGIONAL ENTITY]~~SPP of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review ~~[REGIONAL ENTITY]~~SPP's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by ~~[REGIONAL ENTITY]~~SPP in accordance with the NERC Rules of Procedure, NERC directives and Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) ~~—————(iv)———~~ whether the disposition is reasonably consistent with other dispositions by ~~[REGIONAL ENTITY]~~SPP and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. ~~{REGIONAL ENTITY}~~SPP may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of ~~{REGIONAL ENTITY}~~SPP's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by ~~{REGIONAL ENTITY}~~SPP as a result of a decision by ~~{REGIONAL ENTITY}~~SPP's Hearing Body shall be filed with, heard by and disposed of by, NERC₂ in accordance with the NERC Rules of Procedure.

(f) ~~{REGIONAL ENTITY}~~SPP shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) ~~{REGIONAL ENTITY}~~SPP shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, ~~{REGIONAL ENTITY}~~SPP shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review ~~{REGIONAL ENTITY}~~SPP's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority

promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

~~7.~~ 7. Delegation-Related Activities.

7. Delegation-Related Activities. NERC will engage ~~[REGIONAL ENTITY]~~SPP on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) **Certification of Bulk-Power System Entities.** The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. ~~[REGIONAL ENTITY]~~SPP shall issue certifications in accordance with the NERC Rules of Procedure.

(b) **Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.**

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by ~~[REGIONAL ENTITY]~~SPP and other Regional Entities. ~~[REGIONAL ENTITY]~~SPP shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) **Reliability Assessment and Performance Analysis.** ~~[REGIONAL ENTITY]~~SPP shall develop assessments of the reliability of the Bulk-Power System, or ensure

that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. ~~[REGIONAL ENTITY]~~SPP shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by ~~[REGIONAL ENTITY]~~SPP and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) **Event Analysis and Reliability Improvement.** ~~[REGIONAL ENTITY]~~SPP shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and ~~[REGIONAL ENTITY]~~SPP shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, ~~[REGIONAL ENTITY]~~SPP shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) **Training and Education.** ~~[REGIONAL ENTITY]~~SPP may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) **Situation Awareness and Infrastructure Security.**

(i) ~~[REGIONAL ENTITY]~~SPP shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) ~~[REGIONAL ENTITY]~~SPP shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of ~~[REGIONAL ENTITY]~~SPP's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and ~~[REGIONAL ENTITY]~~SPP that matters relating to NERC's oversight of ~~[REGIONAL ENTITY]~~SPP's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and ~~[REGIONAL ENTITY]~~SPP and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) ~~(a)~~ ~~(i)~~ (i) NERC shall develop, in collaboration with ~~[REGIONAL ENTITY]~~SPP and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and ~~[REGIONAL ENTITY]~~SPP's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. ~~[REGIONAL ENTITY]~~SPP shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate ~~[REGIONAL ENTITY]~~SPP's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate ~~[REGIONAL ENTITY]~~SPP's performance of its delegated functions and related activities and to provide advice and direction to ~~[REGIONAL ENTITY]~~SPP on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, ~~[REGIONAL ENTITY]~~SPP and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, ~~[REGIONAL ENTITY]~~SPP shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of

~~[REGIONAL ENTITY]~~SPP's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring ~~[REGIONAL ENTITY]~~SPP to adopt and implement an action plan or other remedial action, NERC shall issue a notice to ~~[REGIONAL ENTITY]~~SPP of the need and basis for an action plan or other remedial action and provide an opportunity for ~~[REGIONAL ENTITY]~~SPP to submit a written response contesting NERC's evaluation of ~~[REGIONAL ENTITY]~~SPP's performance and the need for an action plan. ~~[REGIONAL ENTITY]~~SPP may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and ~~[REGIONAL ENTITY]~~SPP shall work collaboratively as needed in the development and implementation of ~~[REGIONAL ENTITY]~~SPP's action plan. A final action plan submitted by ~~[REGIONAL ENTITY]~~SPP to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to ~~[REGIONAL ENTITY]~~SPP standardized training and education programs, which shall be designed taking into account input from ~~[REGIONAL ENTITY]~~SPP and other Regional Entities, for ~~[REGIONAL ENTITY]~~SPP personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to ~~[REGIONAL ENTITY]~~SPP concerning the manner in which ~~[REGIONAL ENTITY]~~SPP shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a collaborative process with ~~[REGIONAL ENTITY]~~SPP and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and ~~[REGIONAL ENTITY]~~SPP and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), ~~[REGIONAL ENTITY]~~SPP and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on,

and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, ~~[REGIONAL ENTITY]~~SPP, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by ~~[REGIONAL ENTITY]~~SPP, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without ~~[REGIONAL ENTITY]~~SPP's agreement, *provided*, that ~~[REGIONAL ENTITY]~~SPP shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and ~~[REGIONAL ENTITY]~~SPP and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which ~~[REGIONAL ENTITY]~~SPP, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. ~~[REGIONAL ENTITY]~~SPP, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with ~~[REGIONAL ENTITY]~~SPP, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of ~~[REGIONAL ENTITY]~~SPP performed by NERC shall be limited to an examination of ~~[REGIONAL ENTITY]~~SPP's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. ~~[REGIONAL ENTITY]~~SPP and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) ~~[REGIONAL ENTITY]~~SPP shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. ~~[REGIONAL ENTITY]~~SPP's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, ~~[REGIONAL ENTITY]~~SPP to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. ~~[REGIONAL ENTITY]~~SPP's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) ~~[REGIONAL ENTITY]~~SPP and NERC agree that the portion of ~~[REGIONAL ENTITY]~~SPP's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by ~~[REGIONAL ENTITY]~~SPP and approved by NERC and the Commission. If ~~[REGIONAL ENTITY]~~SPP proposes to use a formula other than Net Energy for Load beginning in the following year, ~~[REGIONAL ENTITY]~~SPP shall submit the proposed formula to NERC in

sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and SPP ~~[REGIONAL ENTITY]~~ to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide ~~[REGIONAL ENTITY]~~SPP with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) ~~[REGIONAL ENTITY]~~SPP shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of ~~[REGIONAL ENTITY]~~SPP, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund ~~[REGIONAL ENTITY]~~SPP's performance of its Delegated Authority and related activities in accordance with ~~[REGIONAL ENTITY]~~SPP's Commission-approved business plan and budget, in the amount of ~~[REGIONAL ENTITY]~~SPP's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting ~~[REGIONAL ENTITY]~~SPP's approved assessments from end users and other entities and payment of the approved assessment amount to ~~[REGIONAL ENTITY]~~SPP, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon ~~[REGIONAL ENTITY]~~SPP that has not been provided for in an approved business plan and

budget or an approved amended or supplemental business plan and budget, without ~~[REGIONAL ENTITY]~~SPP's consent.

~~(g)~~(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and ~~[REGIONAL ENTITY]~~SPP fiscal year budget with the actual results at the NERC and Regional Entity levels. ~~[REGIONAL ENTITY]~~SPP shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) ~~[REGIONAL ENTITY]~~SPP shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) ~~[REGIONAL ENTITY]~~SPP shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which ~~[REGIONAL ENTITY]~~SPP shall offset penalty monies it receives ~~(other than penalty monies received from an operational function or division or affiliated entity of [REGIONAL ENTITY])~~ against its next year's annual budget for carrying out functions under this Agreement, ~~and the mechanism by which [REGIONAL ENTITY] shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of [REGIONAL ENTITY].~~ *Provided*provided, that, subject to approval by NERC and the Commission, ~~[REGIONAL ENTITY]~~SPP may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged,

in whole or in part, by reason thereof. ~~[REGIONAL ENTITY]~~SPP may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit ~~[REGIONAL ENTITY]~~SPP from contracting with other entities to assist it in carrying out its Delegated Authority, provided ~~[REGIONAL ENTITY]~~SPP retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on ~~{January 1, 2011}~~ (the "Effective Date").

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~[REGIONAL ENTITY]~~SPP continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If ~~[REGIONAL ENTITY]~~SPP meets such requirements, this Agreement may be renewed for another five (5) year term. This

Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~[REGIONAL ENTITY]~~SPP continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of ~~[REGIONAL ENTITY]~~SPP's Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time ~~[REGIONAL ENTITY]~~SPP may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by ~~[REGIONAL ENTITY]~~SPP and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. ~~[REGIONAL ENTITY]~~SPP and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and

subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and ~~[REGIONAL ENTITY]~~SPP shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the ~~[REGIONAL ENTITY]~~SPP's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the ~~[REGIONAL ENTITY]~~SPP or NERC is found liable for gross negligence or intentional misconduct, in which case ~~[REGIONAL ENTITY]~~SPP or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance

that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of ~~REGIONAL ENTITY~~SPP under this Agreement without first obtaining the consent of ~~REGIONAL ENTITY~~SPP, which consent shall not be unreasonably withheld or delayed. To the extent ~~REGIONAL ENTITY~~SPP does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of ~~REGIONAL ENTITY~~SPP under this Agreement, ~~REGIONAL ENTITY~~SPP shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by ~~REGIONAL ENTITY~~SPP to NERC and the Commission, or at such other time as may be mutually agreed by ~~REGIONAL ENTITY~~SPP and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and ~~REGIONAL ENTITY~~SPP, (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to ~~REGIONAL ENTITY~~SPP's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute.

~~REGIONAL ENTITY~~SPP shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however,* that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings. The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause. Nothing in this Agreement shall be construed to preempt or limit any authority that ~~[REGIONAL ENTITY]~~SPP may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement. This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts. This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

Exhibit A — Regional Boundaries ~~Exhibit A to the delegation agreement for each Regional Entity receiving Delegated~~

~~Authority shall describe the geographic or electrical boundaries covered by the proposed delegation of authority. **Exhibit A** for each Regional Entity shall reflect coordination with neighboring Regional Entities, as appropriate, to ensure that all relevant areas are either included within the geographic boundaries of a Regional Entity or specifically identified as not being within the geographic boundaries of any Regional Entity. Any exclusions of geographic or electrical areas or of Registered Entities from the scope of the Regional Entity's Delegated Authority within the geographic or electrical boundaries shown on **Exhibit A**, and any additions of geographic or electrical areas or of Registered Entities located outside the boundaries shown on **Exhibit A** to the scope of the Regional Entity's Delegated Authority, shall be specifically stated or described in **Exhibit A**.~~

Regional Boundaries

The geographic boundaries of Southwest Power Pool (SPP) are determined by the service areas of its membership, comprised of investor-owned utilities, municipal, cooperative, state and federal systems, merchant electricity generators and power marketers.

The SPP Regional Entity covers an area of approximately 255,000 square miles of service territory (purple region depicted below) in all or part of eight states: Arkansas, Kansas, Louisiana, New Mexico, Mississippi, Missouri, Oklahoma, and Texas.

Service provided by SPP members in areas which overlap with neighboring regions:

- ◆ The area in northeastern Oklahoma is served by Western Farmers Electric Cooperative, Oklahoma Gas & Electric Company, Oklahoma Municipal Power Authority, Grand River Dam Authority, and AEP West.
- ◆ The area in Arkansas is served by Arkansas Electric Cooperative Corporation, Oklahoma Gas & Electric Company, and AEP West.
- ◆ The area in western Missouri is served by Aquila, Empire District Electric Company, City Power & Light (Independence, MO), City Utilities (Springfield, MO), Grand River Dam Authority, Kansas City Power & Light Company, City Power & Light (Independence, MO), and Southwestern Power Administration.

Within the SPP region, compliance monitoring and enforcement functions with respect to reliability functions for which SPP is the registered entity are performed by SERC Reliability Corporation (SERC) pursuant to a contract between SPP and SERC dated as of (DATE).

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity’s bylaws, which NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

PREAMBLE

The values and principles upon which SPP is incorporated and formed include: a relationship-based organization; member-driven processes; independence through diversity of Organizational Group membership; recognition that reliability and economic/equity issues are inseparable; and, deliberate evolutionary, as opposed to revolutionary, implementation of new concepts. These values and principles should guide those serving this organization. The Board of Directors will endeavor to ensure equity to all Members while also assuring the continuous adaptation to controlling conditions within these stated values and principles.

1.0 DEFINITIONS

1.1 Affiliate Relationships

Affiliate Relationships are relationships between SPP Members that have one or more of the following attributes in common:

- (a) are subsidiaries of the same company;
- (b) one Member is a subsidiary of another Member;
- (c) have, through an agency agreement, turned over control of a majority of their generation facilities to another Member;
- (d) have, through an agency agreement, turned over control of a majority of their transmission system to another Member, except to the extent that the facilities are turned over to an independent transmission company recognized by FERC;
- (e) have an exclusive marketing alliance between Members; or
- (f) ownership by one Member of ten percent or greater of another Member.

1.2 Articles of Incorporation

SPP's articles of incorporation as filed with the state of Arkansas.

1.3 Board of Directors

The Board of Directors of SPP, which shall manage the general business of SPP pursuant to these Bylaws.

1.4 Bylaws

These bylaws.

1.5 Criteria

Planning and operating standards and procedures as approved by the Board of Directors.

1.5a Existing Obligations

Certain financial obligations as defined in Section 8.7.1 of these Bylaws.

1.5b ERO

The Electric Reliability Organization under FERC jurisdiction that regulates reliability of the electric power grid.

1.6 Member

An entity that has met the requirements of Section 2.2 of these Bylaws.

1.7 Membership

The collective Members of SPP.

1.8 Membership Agreement

The contract, that specifies the rights and obligations of the parties, executed between SPP and an entity seeking to become an SPP member.

1.9 NERC

The North American Electric Reliability Corporation or successor organizations.

1.10 Net Energy for Load

The electrical energy requirements of an electric system are defined as system net generation plus energy received from others, less energy delivered to others through interchange. It includes system losses but excludes energy required for the storage at energy storage facilities.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008
Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000,
Letter Order, Issued October 6, 2008.

Effective: May 18, 2007

1.11 Officers

The officers of SPP as elected by the Board of Directors. The Officers consist of the President and the Corporate Secretary, at a minimum. Any Officer must be independent of any Member organization.

1.12 Organizational Group

A group, other than the Board of Directors, comprising a committee or working group that is charged with specific responsibilities toward accomplishing SPP's mission.

1.13 Regional Criteria

SPP planning and operating standards and procedures as approved by the Board of Directors.

1.14 Regional Entity Trustees

A governing body of SPP, independent of the Board of Directors, which specifically oversees SPP's function as an ERO Regional Entity pursuant to the Delegation Agreement between SPP and the ERO.

1.15 Regional Reliability Standards

Electric reliability requirements submitted to the ERO by the Regional Entity Trustees; and once approved, implemented and enforced by SPP under authority as the Regional Entity.

1.16 Registered Entity(ies)

A bulk electric system owner, operator or user that is required to comply with ERO reliability standards pursuant to the Energy Policy Act of 2005.

1.17 SPP

Southwest Power Pool, Inc.

1.18 SPPgional Entity

That part of SPPsponsible for the delegated functions pursuant to the Delegation Agreement between SPP and the ERO.

1.19 SPP Compliance Monitoring and Enforcement Program

The program used by the North American Electric Reliability Corporation ("NERC") and the Regional Entities to monitor, assess, and enforce compliance with Reliability Standards within the United States.

1.20 Staff

The technical and administrative staff of SPP as hired by the Officers to accomplish SPP's mission.

1.21 Standards Development Team

An SPP Organizational Group assigned or choosing to develop an SPPgional Reliability Standard for submission to the ERO for approval for enforcement.

1.22 Transmission Owning Member

A Member that has placed more than 500 miles of non-radial facilities operated at or above 60 kV under the independent administration of SPP for the provision of regional transmission service as set forth in the Membership Agreement.

1.23 Transmission Using Member

A Member that does not meet the definition of a Transmission Owning Member.

2.0 MEMBERSHIP

2.1 Qualifications

Membership in SPP is voluntary and is open to any electric utility, Federal power marketing agency, transmission service provider, any entity engaged in the business of producing, selling and/or purchasing electric energy for resale, and any entity willing to meet the membership requirements, including execution of the Membership Agreement. Membership also is open to any entity eligible to take service under the SPP Open Access Transmission Tariff (OATT). These entities desire the greater efficiency and service reliability gained through better coordination by voluntary association in SPP as constituted herein and in the SPP Articles of Incorporation. Members recognize that such association has a significant effect upon the availability and reliability of the bulk electric power supply of the region, and thereby affects the reliability of the nation's electric power supply.

2.2 Applications

Membership by an entity shall be obtained upon meeting the following requirements:

- (a) Meeting membership qualifications;
- (b) Providing an application for membership to the SPP President; and
- (c) Executing the Membership Agreement and delivering a signed copy to the President.

The President shall review applications, approve those meeting membership qualifications and promptly give written notice of the new Member to all other Members. The Board of Directors will review any disputes arising as to the qualifications of the new Member. Membership will commence at the beginning of the next calendar month following completion of these requirements or some other date as may be mutually agreed upon.

2.3 Member Responsibilities and Obligations

Members recognize that SPP exists and operates for the benefit of the bulk electric transmission system and to ensure the reliability of the nation's power supply. As such, Members are required to act to further these goals by participating in projects, and complying with regulatory requirements. Failure to comply with these provisions will be considered a violation of these Bylaws and the Member may be removed in accordance with the provisions for *Removal of Members* in the Membership Agreement.

2.4 Termination, Removal and Reinstatement

The Board of Directors may terminate the membership of any Member in accordance with the Membership Agreement. The President shall promptly give written notice of the removal to all other Members. Any former Member seeking to rejoin SPP shall apply to the Board of Directors for reinstatement. In its application for reinstatement, the former Member shall:

- (a) provide evidence that it has fully paid any accrued financial obligation to SPP;
- (b) demonstrate it has corrected the reason for its removal;
- (c) establish that it will be in compliance with SPP membership requirements; and
- (d) deliver an executed Membership Agreement to the President.

2.5 Participation in Regional Entity Activities

Participation in SPPgional Entity activities is open to the public and does not require membership in SPP, Inc. nor any of the obligations of membership, including SPP, Inc.'s annual fee.

3.0 ORGANIZATIONAL ADMINISTRATION

3.1 Structure

Member input on decision-making shall be accomplished primarily through Membership participation in Organizational Groups. Members are expected to provide representation to Organizational Groups as requested. Unless otherwise provided in these Bylaws, Organizational Group representation will be appointed by the Board of Directors, who shall consider the various types and expertise of Members and their geographic locations, to achieve a widespread and effective representation of the Membership. The Chair of any Organizational Group may appoint any ad hoc task forces as necessary to fulfill its mission. Task force appointments shall be made with due consideration of the various types and expertise of Members and their geographic locations. Criteria for serving on an Organizational Group will be determined in the group's scope. Except for any full representation group, an appointment to an Organizational Group is for an individual, not a corporate entity. Participation in certain sessions of Organizational Group meetings where market sensitive issues are discussed may be restricted to persons representing entities that have executed ERO's Confidentiality Agreement. Representatives on all Organizational Groups will be documented in the SPP directory maintained by the Staff. Organizational Group vacancies will be filled on an interim basis by appointment of the President unless otherwise provided for in these Bylaws.

3.2 Attendance and Proxy

Except for the Market and Operations Policy Committee (MOPC), if a representative does not attend three consecutive Organizational Group meetings, he/she will be considered to have resigned from the group, absent express waiver of this requirement by the chair of the group. Any appeal of removal from the roster of an Organizational Group should be directed to the Corporate Secretary. Any resulting vacancy will be filled in accordance with Section 3.1 *Structure* of these Bylaws.

If a representative is unable to attend an Organizational Group meeting, he/she may in writing appoint a substitute representative who shall have such rights to participate and vote as the representative specifies. The substitute representative may be another member of the Organizational Group or another person who has the authority to act on behalf of the representative. A representative may not grant a proxy for more than three consecutive meetings without the express consent of the chair of the Organizational Group. If a representative exceeds the proxy limit, he/she will be considered to have resigned from the Organizational Group and the vacancy will be filled in accordance with these Bylaws; except, in the case of any full representation Organizational Group, in which case a new representative will be solicited from the member company.

A proxy provided to another representative of the Organizational Group will not be recorded as attendance at the meeting and will not serve to meet or maintain the quorum requirements. A proxy provided to another person with the authority to act on behalf of the representative will be recorded as attendance at a meeting for the purpose of meeting or maintaining the quorum requirements.

3.3 Leadership

3.3.1 Appointment

The Chair of all Organizational Groups shall be nominated by the Corporate Governance Committee for consideration and appointment by the Board of Directors. A Vice Chair shall be elected by the members of an Organizational Group, unless provided otherwise in these Bylaws. A Vice Chair shall act for a Chair:

- (a) at the request of the Chair;
- (b) if the Chair becomes incapacitated and unable to discharge the functions of the position; or
- (c) if the position of the Chair becomes vacant, until a new Chair takes office.

3.3.2 Terms

The terms of the Chair and Vice Chair of all Organizational Groups shall coincide with the two-year term of the Chair of the Board of Directors. Organizational Group representation will be reviewed annually for compliance with the Bylaws by the Corporate Governance Committee.

3.3.3 Vacancies

Should any individual having been appointed as a Chair of any Organizational Group be unable to serve for the term specified, or be unable to serve on a NERC Organizational Group under provisions of these Bylaws, a replacement shall be appointed by the Chair of the Board of Directors for the unexpired term of office.

3.4 Executive Authority

The Officers shall carry out the rights, duties, and obligations of SPP pursuant to the authority granted by the Board of Directors. Officers will execute the SPP Standards of Conduct upon employment. The Standards of Conduct outline the independence requirements for all employees of SPP. The Officers shall be empowered to:

- (a) employ qualified technical and administrative employees;
- (b) engage office space;
- (c) employ outside technical and special service organizations;
- (d) execute contracts;
- (e) provide for independent regional reliability coordination, transmission service administration, and other services as may be directed by the Board of Directors;
- (f) serve as SPP's representative before regulatory bodies, NERC, and in other public forums;
- (g) incur reasonable expenses; and
- (h) make Staff resources available to individual Members or groups of Members on a non-firm, non-priority, first-come-first-serve basis so as not to interfere with current or future needs and priorities established by SPP.

3.5 Meetings

Organizational Groups shall meet as necessary. SPP meetings shall be open, however, any Organizational Group may limit attendance at a meeting by an affirmative vote of the Organizational Group as necessary to safeguard confidentiality of sensitive information, including but not limited to Order 889 Code of Conduct requirements, personnel, financial, or legal matters. Representatives shall be given at least fifteen days written notice of the date, time, place and purpose of each regular or special meeting. Telephone conference meetings may be called as appropriate by the Chair of any Organizational Group with at least one-day prior notice.

3.6 Order of Business

The latest edition of Robert's Rules of Order will generally govern all SPP meetings on any point not specifically covered in these Bylaws.

3.7 Expenses

The expenses of a representative participating in the activities of SPP Organizational Groups and task forces shall be borne by that representative.

3.8 Quorum

The quorum for a meeting of the Markets and Operations Policy Committee or the Membership shall be those Members present. The quorum for any other Organizational Group or task force shall be one-half of the representatives thereof, but not less than three representatives; provided, that a lesser number may adjourn the meeting to a later time. The quorum for a meeting must be established and maintained throughout the meeting in order for the Organizational Group to take any binding action(s). Notwithstanding the above, any actions taken before a quorum is lost are considered valid and binding. A proxy will serve to meet the quorum requirements as described in Section 3.2 *Proxy* of these Bylaws.

3.9 Voting

3.9.1 Markets and Operations Policy Committee and Membership

Upon joining, Members shall be assigned to one of two Membership sectors for the sole purpose of voting on matters before the Markets and Operations Policy Committee or the Membership: Transmission Owning Members, or Transmission Using Members. Each sector votes separately with the result for that sector being a percent of approving votes to the total number of Members voting. An action is approved if the average of these two percentages is at least sixty-six percent. If no Members are present within a sector, the single present sector-voting ratio will determine approval. Unless otherwise stated in these Bylaws, the Markets and Operations Policy Committee or the Membership may determine to vote on an issue by email. The outcome of any email vote must be recorded in the minutes for the group.

3.9.2 Organizational Groups and Task Forces

Each representative of an Organizational Group or Task Force shall have one vote. A simple majority of participants present or represented by proxy and voting shall be required for approval of an action for all other Organizational Group and Task Force action(s). Unless otherwise stated in these Bylaws, an Organizational Group or Task Force may determine to vote on an issue by email. The outcome of any email vote must be recorded in the minutes for the group.

If an Organizational Group is acting as a Standards Development Team as defined in Section 9.5 *Regional Reliability Standards Development Process* of these Bylaws, it will vote in accordance with the SPP Standards Development Process as approved by FERC.

3.10 Appeal

Should any Member or group of Members disagree on an action taken or recommended by any Organizational Group, such Member(s) may, in writing, appeal and submit an alternate recommendation to the Board of Directors prior to the meeting at which consideration of the action by the Board of Directors is scheduled.

3.11 Staff Independence and Support

SPP Staff members will be required to execute the SPP Standards of Conduct upon employment and annually thereafter. The Standards of Conduct outline the independence requirements for employees of SPP. The President shall assign to each Organizational Group an SPP Staff member, who shall attend all meetings and act as secretary to the Organizational Group and any ad hoc task forces of that group. Staff secretaries of all Organizational Groups and task forces shall be non-voting. Minutes shall be kept of pertinent discussion, business transacted, decisions reached, and actions taken at each meeting of SPP Organizational Groups or task forces by the secretary. Minutes shall be published within seven calendar days following a meeting but in any event in advance of the next meeting, and considered final documents upon their approval by the Organizational Group or task force.

3.12 Publications and Data Bases

SPP shall publish and distribute reports as necessary to fulfill the SPP mission. SPP shall also develop and maintain electronic databases of relevant technical information. The release of member-specific proprietary information will be governed by the appropriate SPP governing document (the OATT, the Membership Agreement, the Bylaws, the SPP Criteria) and/or a properly executed confidentiality agreement. Standard publications and standard forms of non-proprietary information will be made available at no charge

3.13 Dispute Resolution

These procedures are established for the equitable, efficient and expeditious resolution of disputes. These procedures are intended to cover disputes between any two or more Members, between Members and consenting non-members, or between SPP and any Member(s) or consenting non-member(s). SPP and Members are strongly encouraged to take part in the complete process herein described prior to litigation or the utilization of other dispute resolution processes. SPP administrative involvement in the proceeding is to coordinate with an appropriate firm or panel to facilitate the resolution of the dispute and to provide meeting coordination and facilities. These procedures do not apply to disputes that are covered by the dispute resolution procedures of the SPP OATT or the SPP Compliance Monitoring and Enforcement Program.

3.13.1 Instigation

Any Member may begin these dispute resolution procedures by making a request in writing to the President. The President will inform the Board of Directors of the initiation of any dispute resolution proceedings. This written request must contain the authorized signatures of all parties to the dispute. The request must contain:

- (a) a statement of the issues in dispute;
- (b) the positions of each of the parties relating to each of the issues;
- (c) the specific dispute resolution procedure desired; and
- (d) any agreed-upon modifications or specific additions to the proceedings described in these Bylaws by which the dispute may be resolved.

3.13.2 Dispute Resolution Process

In the event SPP is a party to the dispute, the parties shall engage a firm specializing in alternative dispute resolution to administer the dispute resolution process. The firm will be mutually determined by the parties and the process will be administered in accordance with these Bylaws and such other SPP governing documents as may be relevant to the proceeding. In the event the parties cannot mutually agree to the engagement of a firm, the dispute resolution process will be abandoned and other available means for resolution will be pursued.

In the event SPP is not a party to the dispute, the parties to the dispute may engage a firm specializing in alternative dispute resolution to administer the dispute resolution process. The firm will be mutually determined by the parties and the process will be administered in accordance with these Bylaws and such other SPP governing documents as may be relevant to the proceeding. In the event the parties cannot mutually agree to the engagement of a firm, and do not determine some other mutually acceptable procedure, the President of SPP shall provide to each party to the dispute a list of candidates to be used in forming a three-person dispute resolution panel. The candidates shall be persons meeting the requirements for directors. The President shall then call a telephone conference meeting during which each party shall alternate striking names from the list

until those remaining constitute the dispute resolution panel. This panel shall select a chair from its membership. Should any candidate decline to serve or resign from a current appointment for any reason, the candidate whose name was last struck from the list shall be contacted to serve. The President shall assign a Staff representative to assist the panel as secretary. The President shall manage the panel selection process to ensure its timely completion.

3.13.3 Resolution Procedures

The types of proceedings available for the resolution of disputes are:

- (a) An Advisory Proceeding to assist each party through discussion and advice, on a separate and individual basis without active participation in the joint discussions and negotiations, to resolve the dispute informally by mutual agreement;
- (b) A Mediation Proceeding to assist the parties through active participation in the joint discussions and negotiations (including specific recommendations of the issues in dispute) through which the parties indirectly attempt to resolve the dispute informally by mutual agreement;
- (c) A non-binding Dispute Resolution Proceeding to hear formal evidence on factual matters related to the issues submitted, make written findings and conclusions of fact, and issue specific written recommendations for resolution of each issue in dispute.
- (d) A binding Dispute Resolution Proceeding to hear formal evidence on factual matters related to the issues submitted, make written findings and conclusions of fact, and issue directives and awards for resolution of each issue in dispute.

The panel chair shall determine meeting arrangements and format necessary to efficiently expedite the resolution of the dispute, and the Staff secretary shall notify the parties of these details. Each party to the dispute must have at least one representative present at all related meetings with full authority to resolve the dispute. Upon conclusion of this process, the panel chair shall notify the President of its outcome. After consultation with the parties to the dispute and the panel chair to determine the completion of the process as described herein, and/or as modified by the parties, the President shall discharge the panel, and notify the Board of Directors of the results. The parties to the dispute agree to complete the process within 90 days from selection of the panel. Final determinations may be subject to corporate or regulatory approvals, which the parties should disclose at the outset of the process. The Staff secretary shall maintain minutes of the panel meetings, which shall become part of SPP's historical records.

3.13.4 Expenses

The parties to the dispute shall share equally all reasonable charges for the meeting location, administrative costs, and related travel expenses of panel members. The parties to the dispute shall also share equally all reasonable compensation for time and service of panel members and related incremental expenses of the SPP Staff. The President shall determine reasonableness of time and service costs for panel members prior to process implementation. The SPP Staff secretary shall account for these expenses. Each party to the dispute shall be responsible for their respective associated expenses.

3.13.5 Liability

The parties to any dispute which is the subject of these dispute resolution procedures shall hold harmless SPP, its Members, Organizational Groups and each of their directors, officers, agents, employees or other representatives, and the panel members from any liabilities, claims, or damages resulting from any agreement or lack of agreement as a result of the dispute resolution proceedings. The foregoing hold harmless right shall not be extended to the parties to any given dispute or to their directors, officers, agents, employees or other representatives.

3.14 Meeting of Members

The Chair of the Board of Directors shall convene and preside over meetings of Members for the purpose of electing Directors, Members Committee representatives, and Regional Entity Trustees to positions becoming vacant in the ensuing year, and any other necessary business. The Membership shall meet at least once per calendar year.

3.15 Liability, Insurance and Indemnification

For purposes of this section “SPP” refers to SPP and its officers, directors, Regional Entity Trustees, employees or agents, and “Member” refers to the Members of SPP as defined in these Bylaws. None of the provisions of this section, including the waiver of liability in Section 3.15.1 below, absolving SPP or its Members, directors, Regional Entity Trustees, officer, agents, employees or other representatives of liability or any provisions for insurance or indemnification apply to actions which are unlawful, undertaken in bad faith, or are the result of gross negligence or willful misconduct.

3.15.1 Waiver of Liability

- (a) SPP shall not be liable to any Member for damages arising out of or related to any directive, order, procedure, action, or requirement of SPP, under the then effective Bylaws and Criteria.
- (b) No Member shall be liable to any other Member or to SPP for damages arising out of or related to any action by the Member pursuant to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.
- (c) Each Member waives any future claim it might have against SPP or other Members arising out of or resulting from any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.
- (d) SPP waives any future claim it might have against any Member arising out of or resulting from any actions taken by a Member pursuant to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria.

3.15.2 Insurance

The President is authorized to procure insurance to protect SPP, its directors, Regional Entity Trustees, officers, agents, employees, or other representatives against damages arising out of or related to any directive, order, procedure, action or requirement of SPP, under the then effective Bylaws and Criteria or pursuant to the OATT.

3.15.3 Indemnification of Directors, Officers, Agents and Employees

Except for actions which are unlawful, undertaken in bad faith, or are the result of gross negligence or willful misconduct, SPP shall indemnify its directors, officers, agents, employees, or other representatives to the maximum extent allowed by law consistent with these Bylaws. Each director, Regional Entity Trustee, officer, agent, employee, or other representative of SPP shall be indemnified by SPP against all judgments, penalties, fines, settlements, and reasonable expenses, including legal fees, incurred as a result of, or in connection with, any threatened, pending or completed civil, criminal, administrative, or investigative proceedings to which the incumbent may be made a party by reason of acting or having acted in official capacity as a director, Regional Entity Trustee, officer, agent, employee, or representative of SPP, or in any other capacity which the incumbent may hold at the request of SPP, as its representative in any other organization, subject to the following conditions:

- (a) Such director, Regional Entity Trustee, officer, agent, employee, or other representative must have acted in good faith and, in the case of criminal proceedings, must have had no reasonable cause to believe that conduct was unlawful; provided, that SPP shall not provide indemnification of any conduct judged unlawful in criminal proceedings. When acting in official capacity, the incumbent must have reasonably believed that conduct was in the best interests of SPP, and, when acting in any other capacity, must have reasonably believed that conduct was at least not opposed to the best interests of SPP.
- (b) If the proceeding was brought by or on behalf of SPP, however, indemnification shall be made only with respect to reasonable expenses referenced above. No indemnification of any kind shall be made in any such proceeding in which the director, Regional Entity Trustee, officer, agent, employee, or other representative shall have been adjudged liable to SPP.

- (c) In no event, however, will indemnification be made with respect to any described proceeding which charges or alleges improper personal benefit to a director, Regional Entity Trustee, officer, agent, employee, or other representative and where liability is imposed on the basis of the receipt of such improper personal benefit.
- (d) In order for any director, Regional Entity Trustee, agent, employee, or other representative to receive indemnification under this provision, the person shall vigorously assert and pursue any and all defenses to those claims, charges, or proceedings covered herein which are reasonable and legally available and shall fully cooperate with SPP or any attorneys involved in the defense of any such claim, charges, or proceedings on behalf of SPP.
- (e) No indemnification shall be made in any specific instance until it has been determined by SPP that indemnification is permissible in that specific case, under the standards set forth herein and that any expenses claimed or to be incurred are reasonable. These two (2) determinations shall be made by a majority vote of at least a quorum of the Board of Directors consisting solely of directors who were not parties to the proceeding for which indemnification or reimbursement of expenses is claimed. If such a quorum cannot be obtained, a majority of at least a quorum of the full Board of Directors, including directors who are parties to said proceeding, shall designate a special legal counsel who shall make said determinations on behalf of SPP.
- (f) Any reasonable expenses, as shall be determined above, that have been incurred by a director, Regional Entity Trustee, officer, agent, employee, or other representative who has been made a party to a proceeding as defined herein, may be paid or reimbursed in advance upon a majority vote of a quorum of the full Board of Directors, including those who may be a party to the same proceeding. However, such director, Regional Entity Trustee, officer, agent, employee, or other representative shall have provided SPP with (i) a written affirmation under oath that the incumbent, in good faith, believes the

conditions of indemnification herein have been met; and (ii) a written undertaking that the incumbent shall repay any amounts advanced, with interest accumulated at a reasonable rate, if it is ultimately determined that such conditions are not met. **3.15.4 Limitations**

The provisions of this section 3.15 are subject to applicable state and federal laws, if any, which limit the ability of a Member to waive liability or enter into agreements of indemnity. Any benefits under this Section 3.15 shall not extend to any Member so limited by state or federal law in complying with the provisions thereof.

3.16 Compliance with Membership Requirements

Compliance monitoring of Members and Staff shall be performed to ensure compliance with all requirements of Membership. Certain SPP compliance monitoring and enforcement functions, as detailed in Section 9.0, shall be performed in concert with related ERO programs, and will be overseen by the Regional Entity Trustees. Other monitoring functions shall be provided by appropriate SPP staff under the oversight of the Oversight Committee and the Board of Directors. Compliance monitoring shall be an after-the-fact investigative and assessment function.

Monitoring functions shall include but are not limited to:

- (a) Investigation of all reports or discoveries of non-compliance with approved Bylaws, Regional Criteria, OATT, and agreements between SPP and its Members;
- (b) Obtaining all information needed to investigate all facets of possible non-compliance with Membership requirements;
- (c) Performance of in-depth reviews of operations in order to investigate non-compliance with Membership requirements upon approval from the Oversight Committee;
- (d) Comprehensive audits when recurring issues covering a broad spectrum of violations of Membership requirements are determined and documented;
- (e) Imposition of financial penalties and/or sanctions for non-compliance associated with the results of investigations or audits pursuant to approved standards, policies and/or Criteria;
- (f) Confirmation that SPP is conforming to its own Regional Criteria, OATT, business practices, and reliability operations in a manner that does not stifle the efficiency of the energy markets;
- (g) Utilization of dispute resolution procedures as necessary to resolve conflicts or appeals; and
- (h) Coordination of policy modifications to clearly define requirements and penalties in order to objectively monitor compliance with Membership requirements.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: April 5, 2008

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000, Letter Order, Issued October 6, 2008.

3.17 Market Monitoring

SPP shall establish and provide appropriate support to a market monitoring function in accordance with its OATT. Market monitoring functions shall be carried out in a manner consistent with the safe and reliable operation of the SPP transmission system, the operation of a robust, competitive and non-discriminatory electric power market, and the principle that a Market Participant as defined in the SPP OATT, or group of Market Participants, shall not have undue influence or impact.

The market monitoring unit shall report to the Board of Directors. Any public reports submitted shall be provided to the Board of Directors and concurrently to the appropriate regulatory body or bodies. The President shall ensure that the market monitoring entity has adequate resources, access to information, and the full cooperation of Staff and Organizational Groups for the effective execution of its duties.

Market monitoring functions shall include but are not limited to:

- (a) Monitoring and reporting on compliance and market power issues relating to transmission services, including compliance and market power issues involving congestion management and ancillary services and the potential of any market participant(s) to exercise market power within the region by affecting available transmission capacity;
- (b) Evaluation and recommendation of any required modifications to the OATT, standards or Criteria;

- (c) Ensuring that the monitoring program is conducted in an independent and objective manner;
- (d) Development of reporting procedures to inform governmental agencies and others concerning market monitoring activities;
- (e) Monitoring the behavior of market participants to determine whether there is any behavior that hinders the reliable, efficient and non-discriminatory provision of transmission service by SPP;
- (f) Ensuring that SPP's involvement in markets does not discriminate in favor of any market participant or its own interests; and
- (g) Recommend plans for mitigating market power, subject to appropriate regulatory approval.

4.0 BOARD OF DIRECTORS

4.1 Duties

The Board of Directors shall at all times act in the best interest of SPP in its management, control and direction of the general business of SPP. The Board of Directors shall solicit and consider a straw vote from the Members Committee as an indication of the level of consensus among Members in advance of taking any actions other than those occurring in executive session. Its duties shall include, but are not limited to the following:

- (a) Direct activities of all SPP Organizational Groups;
- (b) Serve on SPP Organizational Groups;
- (c) Remove Members, and approve the re-entry of Members that have been removed;
- (d) Authorize all substantive contracts and debt instruments;
- (e) Select and review the performance of SPP Officers, who shall serve at the pleasure of the Board of Directors;
- (f) Approve policies by which positions, duties, qualifications, salaries, benefits and other necessary matters pertaining to the SPP Officers are determined;
- (g) Review, approve, disapprove or recommend revision to the actions of any Organizational Group;
- (h) Act on appeals pursuant to Section 3.10;

- (i) Approve and implement Regional Criteria for enforcement under the terms and conditions of the SPP Membership Agreement;
- (j) Provide input with the Members Committee to the Regional Entity Trustees, on SPPgional Reliability Standards presented by the MOPC to the Trustees or otherwise developed under the auspices of the Trustees for submission to the ERO for its approval;
- (k) Approve or revise the operating and capital budgets and any additional expenditures;
 - (l) Convene a meeting of Members at least annually;
 - (m) Approve amendments to these Bylaws as permitted by these Bylaws;
 - (n) Approve amendments to the Membership Agreement as permitted by the Membership Agreement;
 - (o) Approve Regional Criteria pertaining to planning and operating standards and policies and penalties for non-compliance with such Criteria; and
 - (p) Authorize filings with regulatory bodies.

4.2 Composition and Qualifications

4.2.1 Composition

The Board of Directors shall consist of seven persons. The seven directors shall be independent of any Member; one director shall be the President of SPP. A Director shall not be limited in the number of terms he/she may serve. The President shall be excluded from voting on business related to the office of President or the incumbent of that office. No other Staff member shall be permitted to serve as a director

4.2.2 Qualifications

Directors shall have recent and relevant senior management expertise and experience in one or more of the following disciplines: finance, accounting, electric transmission or generation planning or operation, law and regulation, commercial markets, and trading and associated risk management.

4.2.3 Conflicts of Interest

Directors shall not be a director, officer, or employee of, and shall have no direct business relationship, financial interest in, or other affiliation with, a Member or customer of services provided by SPP. Directors may invest in accordance with SPP's Standards of Conduct. Participation in a pension plan of a Member or customer shall not be deemed to be a direct financial benefit if the Member's or customer's financial performance has no material effect on such pension plan.

4.3 Term and Election

Except for the President, a director shall be elected at the meeting of Members to a three-year term commencing upon election and continuing until his/her duly elected successor takes office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members when election of new directors is required, the Corporate Governance Committee shall commence the process to nominate persons equal in number to the directors to be elected;
- (b) At least 45 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the persons it nominates for election as directors, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly and shall deliver same to Members at least 30 calendar days prior to the meeting of Members;
- (c) For purposes of electing or removing directors only, each group of Members with Affiliate Relationships shall be considered a single Member;
- (d) Any additional nominee(s) may be added to the ballot if a petition is received by the Corporate Secretary at least 15 calendar days prior to the meeting of Members and evidencing support of at least 20 percent of the existing Membership; and

- (e)
- 1) If only one candidate is nominated for a seat, each Member shall be entitled to cast a vote for or against the nominee. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, which requires a super majority. In the event a director position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting;
 - 2) If multiple candidates are nominated for a seat, each Member shall be entitled to cast a vote for only one nominee, but may vote against each candidate. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, with the exception that a simple majority of votes cast will determine which nominee is elected. In the event a director position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting.

4.4 Resignation and Removal of Directors

Any director may resign by written notice to the President noting the effective date of the resignation. The Membership may remove a director with cause by vote in accordance with Section 3.9 *Voting* of these Bylaws. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A director who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

4.5 Vacancies

If a vacancy occurs, the Corporate Governance Committee will present a nominee to the Membership for consideration and election to fill the vacancy for the unexpired term at a special meeting of Members following 30 calendar days notice from the Corporate Secretary. The election will be held in accordance with Section 4.3 *Term and Election* of these Bylaws. The replacement director shall take office immediately upon election.

4.6 Functioning of the Board of Directors

In reaching any decision and in considering the recommendations of any Organizational Group or task force, the Board of Directors shall abide by the principles in these Bylaws.

4.6.1 Meetings and Notice of Meetings

The Board of Directors shall meet at least three times per calendar year and additionally upon the call of the Chair or upon concurrence of at least four directors. At least fifteen days' written notice shall be given by the President to each director, the Members Committee, and the Regional State Committee of the date, time, place and purpose of a meeting of the Board of Directors, unless such notice is waived by the Board of Directors. Telephone conference meetings may be called as appropriate by the Chair with at least one-day prior notice. Board of Directors' meetings shall include the Members Committee, a representative from the Regional Entity Trustees, and a representative from the Regional State Committee (as defined in Section 7.2) for all meetings except when in executive

session; provided however, the failure of representatives of the Members Committee and/or of the Regional Entity Trustees and/or of the Regional State Committee to attend, in whole or in part, shall not prevent the Board of Directors from convening and conducting business, and taking binding votes. The Chair shall grant any Member's request to address the Board of Directors.

4.6.2 Chair and Vice Chair; Election and Terms

The Board of Directors shall elect from its membership a Chair and Vice Chair for two-year terms commencing upon election and continuing until their duly elected successors take office or until their term as a director expires without re-election. The President of SPP may not serve as the Chairman of the Board of Directors. The Vice Chair shall act for the Chair:

- (a) at the request of the Chair;
- (b) in the event the Chair should become incapacitated and unable to discharge the functions of the office; or
- (c) if the office of Chair becomes vacant, until the next regularly scheduled meeting of the Board of Directors, at which meeting a new Chair shall be elected by the Board of Directors to fill the vacancy. The Chair shall appoint a director to fill a vacant Vice Chair position until the next meeting of the Board of Directors, at which meeting a new Vice Chair shall be elected by the Board of Directors to fill the vacancy.

4.6.3 Quorum and Voting

Five of the directors shall constitute a quorum of the Board of Directors; provided, that a lesser number may adjourn the meeting to a later time. Decisions of the Board of Directors shall be by simple majority vote of the directors present and voting. Directors must be present at a meeting to vote; no votes by proxy are permitted. Voting will be by secret ballot. The Corporate Secretary will collect and tally the ballots, and announce the results of a vote. Only voting results will be announced and recorded in the minutes; individual votes will not be announced or recorded.

4.6.4 Compensation of Directors

Directors shall receive compensation as recommended by the Corporate Governance Committee, and approved by the Membership, and shall be reimbursed for actual expenses reasonably incurred or accrued in the performance of their duties.

4.6.5 Executive Session

Executive sessions (open only to directors and to parties invited by the Chair) shall be held as necessary upon agreement of the Board of Directors to safeguard confidentiality of sensitive information regarding employee, financial, or legal matters.

5.0 COMMITTEES ADVISING THE BOARD OF DIRECTORS

5.1 Members Committee

The Members Committee shall work with the Board of Directors to manage and direct the general business of SPP. Its duties shall include, but are not limited to the following:

- (a) Provide individual and collective input to the Board of Directors, including but not limited to a straw vote from the Members Committee representatives as an indication of the level of consensus among Members, on all actions pending before the Board of Directors; and
- (b) Serve on committees reporting to the Board of Directors as appointed by the Board of Directors.
- (c) Provide input with the Board of Directors to the Regional Entity Trustees on SPP Regional Reliability Standards presented by the MOPC to the Trustees or otherwise developed under the auspices of the Trustees for submission to the ERO for its approval.

5.1.1 Composition and Qualifications

5.1.1.1 Composition

Provided that Membership is sufficient to accommodate these provisions, the Members Committee shall consist of up to 19 persons. Four representatives shall be investor owned utilities Members; four representatives shall be cooperatives Members; two representatives shall be municipals Members (including municipal joint action agencies); three representatives shall be independent power producers/marketers Members; two representatives shall be state/federal power agencies Members; two representatives shall be alternative power/public interest Members; one representative shall be a large retail customer Member, defined as non-residential end-use customers with individual or aggregated loads of 1-MW or more; and one representative shall be a small retail customer Member, defined as residential customers and other customers with individual or aggregated loads of less than 1-MW. Representatives will be elected in accordance with Section 5.1.2 of these Bylaws.

5.1.1.2 Qualifications

A representative shall be an officer or employee of a Member with decision-making responsibility over SPPlated activities, and must be the Member's representative to the Membership.

5.1.2 Term and Election

Representatives shall be nominated by the Corporate Governance Committee and elected each year at the meeting of Members to staggered three-year terms commencing upon election and continuing until their duly elected successors take office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members at which election of new representatives is required, the Corporate Governance Committee shall nominate persons equal in number to the representatives to be elected;
- (c) At least 30 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the persons it nominates for election as representatives, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly, leaving space for additional names, and shall deliver same to Members at least two weeks prior to the meeting of Members;
- (c) For purposes of electing and removing representatives only, each group of Members with Affiliate Relationships shall be considered a single vote;
- (d) At the meeting of Members, any additional nominee or nominees may be added to the ballot if a motion is made and seconded to add such nominee or nominees; and
- (e) The required number of representatives shall be elected by written ballot. A Member shall be entitled to cast a number of votes equal to the number of representatives to be elected. A Member may not cumulate votes. The candidates in each sector receiving the greatest number of votes will fill vacancies.

5.1.3 Resignation and Removal of Members Committee Representatives

Any representative may resign by written notice to the President noting the effective date of the resignation. A representative may be removed, with cause, by the affirmative vote of a majority of the Members at a meeting of Members. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A representative who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

5.1.4 Vacancies

If a vacancy occurs the Corporate Governance Committee may elect an interim representative from the same sector to serve until a replacement representative from the same sector is elected and takes office. A special election shall be held at the next meeting of Members to fill the vacancy for the unexpired term. The replacement representative shall take office immediately following the election.

5.1.5 Meetings

The Members Committee shall meet only with the Board of Directors.

6.0 COMMITTEES REPORTING TO THE BOARD OF DIRECTORS

This section describes the general scopes and responsibilities of the Organizational Groups reporting directly to the Board of Directors. Nothing in this section is meant to limit these responsibilities or activities in the effort to fulfill SPP's mission.

6.1 Markets and Operations Policy Committee

Each SPP Member shall appoint a representative to the Markets and Operations Policy Committee (MOPC). Each representative designated shall be an officer or employee of

the Member. The Board of Directors will appoint the Chair and Vice Chair of the MOPC. Each member of the MOPC may continue to be a member thereof until the appropriate Member appoints a successor.

The MOPC shall meet at least three times per calendar year, and additionally as needed. The MOPC shall report to the Board of Directors following each MOPC meeting with respect to its activities and with such recommendations, as the MOPC deems necessary.

The responsibilities of the Markets and Operations Policy Committee shall include:

- (a) Recommend practices for system design, planning, adequacy, regional transmission service tariff, interconnections, operation, reliability, market designs and efficiency, and market power mitigation that will help to assure efficient and reliable power supply among the systems in SPP and SPP transmission customers;
- (b) Coordinate and review with ERO Policies and Standards and their applicability to SPP, its Members, and Registered Entities in the SPP footprint;
- (c) Present any Regional Reliability Standards for ERO adoption in accordance with SPP's Standards Development Process.
- (d) Coordinate and oversee the work of any Standards Development Team(s).
- (e) Report to the Trustees on all standards recommended by working groups reporting to the MOPC.
- (f) Make appropriate recommendations to the Board of Directors and Regional Entity Trustees regarding SPP's compliance with ERO Policies and Standards;
- (g) Review Member operating plans and problems that are pertinent to SPP planning and operation;
- (h) Maintain an annual series of load flow and short circuit models and associated stability data bases representing the current and planned electric network of the region, and maintain a data base of all transmission, generation, and supporting facilities within SPP;
- (i) Review and assess the current and planned electric system of the region;
- (j) Make use of studies available from other regions;
- (k) Recommend to the Board of Directors criteria for planning, operations, and to assist in the efficiency and vitality of the wholesale electricity market;

- (l) Coordinate inter-regional and intra-regional plans and facilitate planning, information exchange, and operations between inter-regional and intra-regional groups;
- (m) Develop a coordinated plan for intra-regional transmission for greater efficiency and reliability of electric power supply;
- (n) Recommend to the Board of Directors and Members individual or joint action to improve the operation of the systems comprising SPP;
- (o) Respond to activities as requested by the Strategic Planning Committee and the Board of Directors;
- (p) Monitor the current state and evolution of the electric energy supply industry and proactively recommend commercial practices that meet industry needs and promote commerce;
- (q) Work with all SPP Organizational Groups to promote a high standard of operational reliability;
- (r) Continue coordination of its efforts with the efforts of North American Energy Standards Board (NAESB) and the ISO/RTO Council (IRC), including periodic review of NAESB business practices and IRC policies and their applicability to SPP and its Members;
- (s) Complete a self-assessment annually to determine how effectively the MOPC is meeting its responsibilities; and
- (t) Perform such other functions as the Board of Directors may delegate or direct.

6.2 Strategic Planning Committee

The Strategic Planning Committee (SPC) shall be comprised of eleven members. Three representatives shall be from the Board of Directors; four representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and four representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the SPC. Each representative of the SPC shall continue to be a representative thereof until the Board of

Directors appoints his/her successor. Where a vacancy occurs, the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The SPC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The SPC shall report to the Board of Directors following each SPC meeting with respect to its activities and with such recommendations, as the SPC deems necessary.

The responsibilities of the Strategic Planning Committee shall include:

- (a) Gather information from SPP Members, customers, Staff, regulatory jurisdictions, market monitors, and legislative bodies on industry trends, forecasts and directions;
- (b) Assess the industry environment in which SPP will be operating;
- (c) Assess SPP's capabilities and competencies against the industry environment, including coordination with neighboring entities;
- (d) Develop and recommend to the Board of Directors a mission and vision statement and accompanying goals and objectives;
- (e) Formulate strategies to ensure achievement of SPP's mission statement, goals, objectives, and responsibilities, and recommend necessary modifications to SPP processes to carry out these strategies;
- (f) Work with other Organizational Groups in developing related action plans, schedules and budgets;
- (g) Complete a self-assessment annually to determine how effectively the SPC is meeting its responsibilities; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.3 Human Resources Committee

The Human Resources Committee (HRC) shall be comprised of six members. Two representatives shall be from the Board of Directors, one of whom shall serve as the Chair; two representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and two representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the HRC. Each representative of the HRC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The HRC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The HRC shall report to the Board of Directors following each HRC meeting with respect to its activities and with such recommendations, as the HRC deems necessary.

The responsibilities of the Human Resources Committee shall include assistance to the Board of Directors in fulfilling its responsibility to the Members, and investment community with respect to the oversight of:

- (a) The development and administration of employee benefit programs;
- (b) The effectiveness of SPP's compensation plan for employees;
- (c) The activities of investment managers charged with managing employee benefit assets, including evaluation of performance;
- (d) Approve and monitor SPP staffing structure to ensure it accomplishes organizational mission;
- (e) Maintain current job description for the President and conduct annual performance evaluation;
- (f) Recommend policies by which positions, duties, qualifications, salaries, benefits and other necessary matters pertaining to the SPP Officers are determined;

- (g) Other duties and responsibilities detailed in the Human Resources Committee charter; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.4 Oversight Committee

The Oversight Committee (OC) shall be comprised of three members from the Board of Directors.

The Board of Directors shall appoint the representatives of the OC. Each representative of the OC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs, the Board of Directors will fill the vacancy.

The OC shall meet as needed, provided that a quorum, as defined in these Bylaws, is present. The OC shall report to the Board of Directors following each OC meeting with respect to its activities and with such recommendations, as the OC deems necessary.

The responsibilities of the Oversight Committee shall include:

- (a) Oversee the process of monitoring compliance to SPP and NERC policies other than that assigned to the Regional Entity Trustees under these Bylaws;
- (b) Independently review activities of the Staff;
- (c) Hear and rule on appeals from Members regarding penalty assessment or fine distribution prior to dispute resolution proceedings;
- (d) Recommend Regional Criteria changes necessary for enforcement of mandatory compliance and in response to unclear enforcement provisions of Regional Criteria;
- (e) Grant specific additional authority to the Staff responsible for the oversight monitoring function when needed to perform challenging investigations;
- (f) Oversee the Internal Audit function and receive regular reports, except for that work associated with SAS70 Audit requirements and other financial matters;
- (g) Complete a self-assessment annually to determine how effectively the OC is meeting its responsibilities; and
- (h) Perform such other functions as the Board of Directors may delegate or direct.

6.5 Finance Committee

The Finance Committee (FC) shall be comprised of six members. Two representatives shall be from the Board of Directors, one of whom shall serve as the Chair; two representatives from the Transmission Owning Member sector as nominated by the Corporate Governance Committee; and two representatives from the Transmission Using Member sector as nominated by the Corporate Governance Committee.

The Board of Directors shall appoint the representatives of the FC. Each representative of the FC shall continue to be a representative thereof until the Board of Directors appoints his/her successor. Where a vacancy occurs the Corporate Governance Committee will fill the vacancy on an interim basis until the next meeting of the Board of Directors.

The FC shall meet at least twice per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The FC shall report to the Board of Directors following each FC meeting with respect to its activities and with such recommendations, as the FC deems necessary.

The responsibilities of the Finance Committee shall include assistance to the Board of Directors in fulfilling its responsibility to the Members, and investment community with respect to its oversight of:

- (a) The quality and integrity of SPP's financial statements;
- (b) SPP's compliance with financially-based legal and regulatory requirements;
- (c) The independent auditor's qualifications, selection, and independence;
- (d) The performance of SPP's internal audit function and independent auditors as relates to SAS70 Audit requirements;
- (e) The development and implementation of annual and long-term operating and capital budgets;
- (f) The management of risk;
- (g) Develop policies for management of debt financing and for long-term contracting;
- (h) Monitoring methodology for cost recovery to ensure continuing equity for Members;

- (i) Other duties and responsibilities detailed in the Finance Committee charter; and
- (j) Perform such other functions as the Board of Directors may delegate or direct.

6.6 Corporate Governance Committee

To the extent that the membership allows, the Corporate Governance Committee (CGC) shall be comprised of nine members. One representative shall be the President of SPP who will serve as the Chair; one representative shall be the Chairman of the Board, unless his/her position is under consideration, in which case the Vice Chairman of the Board; one representative shall be representative of and selected by investor owned utilities Members; one representative shall be representative of and selected by co-operatives Members; one representative shall be representative of and selected by municipals Members; one representative shall be representative of and selected by independent power producers/marketers Members; one representative shall be representative of and selected by state/federal power agencies Members; one representative shall be representative of and selected by alternative power/public interest Members; and one representative shall be representative of and selected by large/small retail Members.

Where a vacancy occurs with respect to a representative of a sector, the representatives from the appropriate sector will fill the vacancy.

The CGC shall meet at least once per calendar year, and additionally as needed, provided that a quorum, as defined in these Bylaws, is present. The CGC shall report to the Board of Directors following each CGC meeting with respect to its activities and with such recommendations, as the CGC deems necessary.

The responsibilities of the Corporate Governance Committee shall include:

- (a) Seek input from the Board of Directors, the Members Committee, or the Trustees as to the skills needed to fill any vacancy under consideration;
- (b) In the event of a vacancy or the replacement of an existing director, provide candidates identified by an independent executive search firm for consideration to the Members for election to the Board of Directors;
- (c) In the event of a vacancy or the replacement of an existing Trustee, provide candidates for consideration to the Members for election to the Regional Entity Trustees;

- (d) In the event of a vacancy or the replacement of an existing Members Committee representative, provide candidates for consideration to the Membership for election to the Members Committee;
- (e) Fill vacancies for Organizational Groups in accordance with these Bylaws;
- (f) Monitor the composition of the Board of Directors to ensure balance, independence, maintenance of qualifications under any applicable laws, avoidance of conflict of interest, and periodic review of the criteria for independence set out in the Bylaws and appropriate regulatory bodies, recommending changes, as appropriate;
- (g) Recommend to the Board of Directors the appointment of Organizational Group representatives and leadership except for the Corporate Governance Committee, whose representatives are elected by members in each category; the Members Committee, whose representatives are elected by the Membership; and the Market and Operations Policy Committee, whose representatives are appointed by the Members;
- (h) Develop criteria governing the overall composition of the Board of Directors for recommendation to the Membership;
- (i) Develop criteria governing the overall composition of the Regional Entity Trustees for recommendation to the Membership;
- (j) Coordinate an annual review and assessment of the effectiveness of the Board of Directors, its structure, and process;
- (k) Coordinate an annual review and assessment of the effectiveness of the Regional Entity Trustees, its structure, and process;
- (l) Review annually the structure of the Organizational Groups, and together with the Organizational Group Chairs, the charters of each Organizational Group, and recommend changes to the Board of Directors, as appropriate;
- (m) Review the self-assessments of the Organizational Groups to assure that they are being done on a consistent basis;

- (n) Develop recommendations for the Board of Directors regarding a Chair/Vice Chair succession policy;
- (o) Recommend compensation levels for the Board of Directors and Regional Entity Trustees to the Membership;
- (p) Complete a self-assessment annually to determine how effectively the CGC is meeting its responsibilities; and
- (q) Perform such other functions as the Board of Directors may delegate or direct.

7.0 REGULATORY INVOLVEMENT AND REGIONAL STATE COMMITTEE

Any regulatory agency having utility rates or services jurisdiction over a Member may participate fully in all SPP activities, including participation at the SPP Board of Directors meetings. These representatives shall have all the same rights as Members except the right to vote. Participation includes the designation of representatives by each of the regulatory jurisdictions to participate in any type of committee, working group, task force, and Board of Directors meetings.

7.1 Retention of State Regulatory Jurisdiction

Nothing in the formation or operation of SPP as a FERC recognized regional transmission organization is in any way intended to diminish existing state regulatory jurisdiction and authority. Each state regulatory agency is expressly reserved the right to exercise all lawful means available to protect its existing jurisdiction and authority.

7.2 Regional State Committee

An RSC, to be comprised of one designated commissioner from each state regulatory commission having jurisdiction over an SPP Member, shall be established to provide both direction and input on all matters pertinent to the participation of the Members in SPP. This direction and input shall be provided within the context of SPP's organizational group meetings as well as Board of Directors meetings. The SPP Staff will assist the RSC in its collective responsibilities and requests by providing information and analysis. SPP will fund the costs of the RSC pursuant to an annual budget developed by the RSC and submitted to SPP as part of its budgeting process, which budget must ultimately be approved by the Board of Directors.

The RSC has primary responsibility for determining regional proposals and the transition process in the following areas:

- (a) whether and to what extent participant funding will be used for transmission enhancements;
- (b) whether license plate or postage stamp rates will be used for the regional access charge;
- (c) FTR allocation, where a locational price methodology is used; and
- (d) the transition mechanism to be used to assure that existing firm customers receive FTRs equivalent to the customers' existing firm rights.

The RSC will also determine the approach for resource adequacy across the entire region. In addition, with respect to transmission planning, the RSC will determine whether transmission upgrades for remote resources will be included in the regional transmission planning process and the role of transmission owners in proposing transmission upgrades in the regional planning process.

As the RSC reaches decisions on the methodology that will be used to address any of these issues, SPP will file this methodology pursuant to Section 205 of the Federal Power Act. However, nothing in this section prohibits SPP from filing its own related proposal(s) pursuant to Section 205 of the Federal Power Act.

Issued by: L. Patrick Bourne, Manager
Transmission and Regulatory Policy

Effective: May 1, 2004

Issued on: August 2, 2004

Filed to comply with order of the Federal Energy Regulatory Commission, Docket Nos. RT04-1-002 and ER04-48-002, issued July 2, 2004, 108 FERC ¶ 61,003.

7.3 Retention of Other Regulatory Jurisdiction

Nothing in the formation or operation of SPP as a FERC recognized regional transmission organization is in any way intended to diminish the jurisdiction or authority of any other regulatory body. Any regulatory agency having utility rates or services jurisdiction over a Member or the regional transmission organization reserves the right to exercise all lawful means available to protect its existing jurisdiction and authority.

8.0 FISCAL ADMINISTRATION

The fiscal year shall coincide with the calendar year.

8.1 Operating Budget

SPP Staff and the Finance Committee will prepare an annual budget of expenditures for the next fiscal year and an estimate for an additional two years. The proposed budget shall be submitted to the Board of Directors not less than two weeks prior to the meeting at which the budget is to be considered for approval. Except as addressed in Section 9.0 *Regional Entity Function*, once approved by the Board of Directors, the budget shall constitute the authority required by the Officers for expenditures for the ensuing year. Modifications to the budget during the fiscal year must be recommended to the Board of Directors by the Finance Committee. The President shall have the authority to approve expenditures in accordance with SPP policy as approved by the Board of Directors.

8.2 Annual Membership Fee

All SPP Members will be subject to an annual membership fee in the amount of \$6,000, or other amount established by the Board of Directors. Unless otherwise agreed, Membership fees for new Members are due at the execution of the Membership Agreement. Membership fees are not subject to refund. The Board of Directors shall determine the annual membership fee for the upcoming year in advance of the last meeting of Members in a calendar year. Legitimate public interest groups (e.g. consumer advocates, environmental groups, or citizen participation groups) may seek a waiver of the annual membership fee. The request for waiver must be directed to the President in writing 90 days in advance of the start of each fiscal year.

8.3 ERO and Regional Entity Costs

SPP is a Regional Entity of the Electric Reliability Organization and is subject to the terms of the Delegation Agreement executed by SPP and the ERO. SPP will have certain functions as signatory to the Delegation Agreement related to the establishment and submission of annual budgets related to fulfillment of Regional Entity functions as well as participation in the costs incurred by ERO. The Delegation Agreement may specify SPP's responsibility to collect ERO costs from SPP's Regional Entity footprint, and may specify ERO's responsibility to fund SPP's Regional Entity budget.

SPP will clearly set out the costs associated with its operation as a Regional Entity within SPP's annual budget.

8.4 Monthly Assessments

SPP will assess certain Members described herein on a monthly basis all costs not otherwise collected. Costs recovered under the assessment will include but are not limited to all operating costs, financing costs, debt repayment, and capital expenditures associated with the performance of SPP's functions as assigned by the Board of Directors. Significant among these are costs associated with regional reliability coordination and the provision of transmission service. SPP shall determine the assessment rate based on its annual budgeted net expenditures divided by estimated annual Schedule 1 billing units for service sold under SPP's OATT and Member load eligible to take, but not taking, Network Integration Transmission Service under SPP's OATT. The Board of Directors may review the assumptions used in determining the assessment rate at any time and may adjust the assessment rate appropriately should conditions warrant. Each load-serving Member shall then be assessed the monthly assessment rate applied to its load eligible to take Network Integration Transmission Service under the SPP OATT. Further, each load-serving Member shall receive a credit against the monthly assessment for that month's Schedule 1 fees paid for Network Integration Transmission Service and for Point-to-Point Transmission Service that had a delivery point within the SPP region, under the SPP OATT.

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: May 18, 2007

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000, Letter Order, Issued October 6, 2008.

8.5 Fiscal Agent

The President shall serve as the fiscal agent of SPP. The President shall keep an up-to-date record of receipts and disbursements and furnish reports to the Board of Directors and the Finance Committee.

8.6 Auditors

The Board of Directors shall annually engage an independent certified public accounting firm to perform an annual audit of SPP's financial records and prepare a report on the financial condition of SPP. The Finance Committee shall present the audit report to the Board of Directors upon completion.

8.7 Financial Obligation of Withdrawing Members

8.7.1 Existing Obligations

"Existing Obligations" are the following:

- a. Member's unpaid annual membership fee.
- b. Member's unpaid dues, assessments, and other amounts charged under Section 3.8 or otherwise under the Bylaws, plus the Member's share of costs SPP customarily includes in such dues, assessments or other charges, but which as of the Termination Date SPP had not included in such dues, assessments or other charges.
- c. Member's share (computed in accordance with the Bylaws) of the entire principal amounts of all SPP Financial Obligations outstanding as of the Termination Date. "Financial Obligations" are all long-term (in excess of six (6) months) financial obligations of SPP, including but not limited to the following:
 - i. debts under all loans, loan agreements, borrowings, promissory notes, bonds, and credit lines, under which SPP is obligated, including principal and interest;
 - ii. all payment obligations under equipment leases, financing leases, capital leases, real estate and office space leases, consulting contracts, and contracts for outsourced services;

Issued by: L. Patrick Bourne, Director – Regulatory Policy

Issued on: November 3, 2008

Effective: May 18, 2007

Filed to comply with order of the Federal Energy Regulatory Commission, Docket No. ER08-1380-000, Letter Order, Issued October 6, 2008.

- iii. any unfunded liabilities of any SPP employee pension funds, whether or not liquidated or demanded; and
- iv. the general and administrative overhead of SPP for a period of three (3) months.
- d. Any costs, expenses or liabilities incurred by SPP directly due to the Termination, regardless of when incurred or payable, and including without limitation prepayment premiums or penalties arising under SPP Financial Obligations.
- e. Member's share (computed in accordance with the Bylaws) of all interest that will become due for payment with respect to all interest bearing Financial Obligations after the Termination Date and until the maturity of all Financial Obligations in accordance with their respective terms ("Future Interest"). In the event that a Financial Obligation carries a variable interest rate, the interest rate in effect at the Termination Date shall be used to calculate the applicable Future Interest. In determining the Member's share of Future Interest, SPP shall take into account any reduction of Financial Obligations due to mitigation under this Section.

Issued by: L. Patrick Bourne, Director
Transmission and Regulatory Policy

Effective: August 10, 2005

Issued on: December 12, 2005

Filed to comply with order of the Federal Energy Regulatory Commission, Docket Nos. RT04-1, ER04-48 and ER05-1352, issued October 7, 2005, 113 FERC ¶ 61,014 (2005).

8.7.2 Computation of a Member's Existing Obligations

For purposes of computing the Existing Obligations of any withdrawing or terminated Member in accordance with the Membership Agreement, such "Member's share" is a percentage calculated as follows:

$$A = 100 [0.25(1/N) + 0.75(B/C)]$$

- Where: A = Member's share (expressed as a percentage)
N = Total number of Members
B = The Member's previous year Net Energy for Load within SPP
C = Total of factor B for all Members

The Finance Committee shall have the discretion to reduce the Existing Obligations of any withdrawing or terminated Member, to reflect any SPP costs or expenses that may be mitigated in connection with such Member's withdrawal or termination. In the event of consolidation of affiliate memberships or the transfer of membership from one corporate entity to another, whereby one entity remains a member of SPP, the withdrawal obligation for the departing company(ies) may be waived at SPP's sole discretion.

9.0 REGIONAL ENTITY FUNCTION

9.1 Regional Entity

SPP operates as a Regional Entity under FERC jurisdiction with oversight powers delegated to it by the ERO. The Regional Entity Trustees shall appoint representatives to ERO organizational groups as necessary to represent the interests of the SPPgional Entity. SPP may pay appropriate associated travel expenses of those appointed representatives upon receipt by the Secretary to the Trustees of an expense report as normally filed within the representative's system.

9.2 Regional Entity Staff

The Regional Entity Trustees will oversee staffing requirements for the SPPgional Entity. All SPPgional Entity staff shall report through the Regional Entity (RE) General Manager to the Trustees.

9.3 RE General Manager

The RE General Manager shall be selected by and report to the SPPgional Entity Trustees, and will provide leadership and vision, oversee the execution of RE strategic direction, and direct the day-to-day operations of the RE. The RE General Manager shall carry out the rights, duties and obligations of the SPP pursuant to the authority granted by these Bylaws, the Regional Entity Trustees, and SPP corporate policies. The RE General Manager's responsibilities shall include but are not limited to:

- (a) Providing guidance and oversight of the execution of the performance of delegated statutory functions from the ERO;
- (b) Developing and managing an appropriate organizational structure and staffing levels to accomplish the RE functions;
- (c) Developing an annual RE business plan and budget for RE Trustee, NERC and FERC approval;
- (d) Providing sound fiscal management;
- (e) Ensuring compliance with SPP's Bylaws and Regional Entity Delegation Agreement, as well as other applicable federal, state, and local laws; and
- (f) Interfacing with SPP members and stakeholders, federal and state regulators, other Regional Entities, and NERC on matters related to the reliability of the bulk power system.

The President shall ensure that the RE General Manager has adequate resources, access to information, and the full cooperation of Staff and Organizational Groups for the effective execution of his/her duties.

9.4 Duties of Regional Entity Staff

Regional Entity functions related to compliance monitoring and enforcement shall include but are not limited to:

- (a) Investigation of all reports or discoveries of non-compliance with approved ERO policies and standards;
- (b) Obtaining all information needed to investigate all facets of possible noncompliance with ERO policies and standards;
- (c) Performance of in-depth reviews of operations in conjunction with the Compliance Monitoring and Enforcement Program (CMEP);
- (d) Comprehensive audits when recurring issues covering a broad spectrum of violations of ERO policies and standards are determined and documented;
- (e) Recommendation of financial penalties and/or sanctions for non-compliance with ERO policies and standards pursuant to ERO guidelines;
- (f) Assist the Regional Entity Trustees with third party audits to confirm that SPP is conforming to ERO policies and standards;
- (g) Utilization of dispute resolution procedures as necessary to resolve conflicts or appeals; and
- (h) Coordination of policy modifications to clearly define ERO requirements, and penalties in order to objectively monitor compliance.

9.5 Regional Reliability Standards Development Process

When an SPP working group or task force is considering an SPPgional Reliability Standard, it will be designated the Standards Development Team (SDT) for that Standard in accordance with the SPPgional Entity Standards Development Process Manual. For purposes of an SDT, participation and voting will be open to any interested party in accordance with the Standards Development Process and without regard to membership status in SPP.

9.6 Compliance Monitoring and Enforcement Program

The Regional Entity Trustees will oversee SPP's Compliance Monitoring and Enforcement Program (CMEP). The CMEP will enforce compliance according to ERO reliability standards

for Registered Entities. Regional Entity staff shall oversee compliance auditing of registered entities, and will report audit results to the Regional Entity Trustees. All audits of SPP's compliance with ERO reliability standards will be performed by external third party auditors as coordinated and managed by the Regional Entity Trustees.

9.7 Regional Entity Trustees

9.7.1 Functions and Duties of the Regional Entity Trustees

The Regional Entity Trustees shall at all times act in the best interests of SPP's role as the SPPgional Entity in its management, control, and direction of the general business of the Regional Entity functions. In reaching any decision and in considering the recommendations of an appropriate entity, the Regional Entity Trustees shall abide by the principles in these Bylaws. Its duties shall include, but are not limited to oversight of the following:

- (a) Select, oversee and review the performance of the SPP General Manager in carrying out the statutory functions and duties as defined in the Delegation Agreement between ERO and SPP;
- (b) Approve the annual RE business plan and budget;
- (c) Perform function assigned by the SPP Compliance Monitoring and Enforcement Program;
- (d) Track and review Regional Standards from MOPC for submission to the ERO and FERC for approval and implementation.
- (e) Complete a self-assessment annually to determine how effectively the Regional Entity Trustees are meeting their responsibilities; and
- (f) Provide an annual report to the Board of Directors regarding the effectiveness of the Regional Entity function and processes.

9.7.2 Composition and Qualifications

9.7.2.1 Composition

The Regional Entity Trustees shall consist of three (3) persons. The trustees shall be independent of the SPP Board of Directors, any Member, industry stakeholder, or SPP organizational group. Regional Entity Trustees do not serve as members of the SPP Board of Directors. A trustee shall not be limited in the number of terms he/she may serve.

9.7.2.2 Qualifications

Regional Entity Trustees shall have relevant senior management expertise and experience in the reliable operation of the bulk electric transmission system in North America.

9.7.2.3 Conflicts of Interest

Regional Entity Trustees shall not be a director, officer, or employee of, and shall have no direct business relationship, financial interest in, or other affiliation with, a Member, a customer of services provided by SPP, or a Registered Entity in the SPP footprint. Trustees may invest in accordance with the SPP Standards of Conduct. Participation in a pension plan of a Member, customer, or Registered Entity in the SPP footprint shall not be deemed to be a direct financial benefit if the Member's, customer's, or Registered Entity's financial performance has no material effect on such pension plan.

9.7.3 Term and Election

Regional Entity Trustees shall be elected at the meeting of Members to a three-year term commencing upon election and continuing until his/her duly elected successor takes office. The election process shall be as follows:

- (a) At least 90 calendar days prior to the meeting of Members when election of a new trustee is required, the Corporate Governance Committee shall commence the process to nominate persons for the position to be elected;

- (b) At least 45 calendar days prior to the meeting of Members, the Corporate Governance Committee shall determine the person it nominates for election as a trustee, specifying the nominee for any vacancy to be filled. The Corporate Secretary shall prepare the ballot accordingly, leaving space for additional names, and shall deliver same to Members at least 30 calendar days prior to the meeting of Members;
- (c) For purposes of electing or removing trustees only, Members with Affiliate Relationships shall be considered a single Member;
- (d) Any additional nominee(s) may be added to the ballot if a petition is received by the Corporate Secretary at least 15 calendar days prior to the meeting of Members and evidencing support of at least 20 percent of the existing Membership; and
- (e) 1) If only one candidate is nominated for a seat, each Member shall be entitled to cast a vote for or against the nominee. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, which requires a super majority. In the event a trustees position is not filled the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held but no later than the next regular Board of Directors/Members Committee meeting;

2) If multiple candidates are nominated for a seat, each Member shall be entitled to cast a vote for only one nominee, but may vote against each candidate. The votes will be calculated in accordance with Section 3.9 *Voting* of these Bylaws, with the exception that a simple majority of votes cast will determine which nominee is elected. In the event a trustee position is not filled, the Corporate Governance Committee will determine a new nominee for recommendation for election by the Membership at a special meeting of Members to be held no later than the next regular Board of Directors/Members Committee meeting.

9.7.4 Resignation and Removal of Regional Entity Trustees

Any Regional Entity Trustee may resign by written notice to the President noting the effective date of the resignation. The Membership may remove a trustee with cause in accordance with Section 3.9 *Voting* of these Bylaws. Removal proceedings may only be initiated by a petition signed by not less than twenty percent of the Members. The petition shall state the specific grounds for removal and shall specify whether the removal vote is to be taken at a special meeting of Members or at the next regular meeting of Members. A trustee who is the subject of removal proceedings shall be given fifteen days to respond to the Member petition in writing to the President.

9.7.5 Vacancies

If a vacancy occurs, the Corporate Governance Committee will present a nominee to the Membership for consideration and election to fill the vacancy for the unexpired term at a special meeting of Members following 30 calendar days notice from the corporate Secretary. The election will be held in accordance with Section 9.7.3 *Term and Election* of these Bylaws. The replacement trustee shall take office immediately upon election.

9.7.6 Meetings and Notice of Meetings

Regular Regional Entity Trustees' meetings will be scheduled in conjunction with the regularly scheduled SPP Board of Directors meetings, provided the meeting schedule may be adjusted for good cause and with sufficient notice, and additionally upon the call of the chair or upon concurrence of at least two trustees. Except as otherwise provided in these Bylaws, all meetings will be open to any interested party. At least fifteen days' written notice shall be given by the chair to each trustee, the Board of Directors, and the Members Committee of the date, time, place and purpose of a meeting, unless such notice is waived by the trustees. Telephone conference meetings may be called as appropriate by the chair with at least one-day prior notice. The chair shall grant any party's request to address the Regional Entity Trustees.

9.7.7 Chair

The Regional Entity Trustees shall elect from its membership a chair for a two-year term commencing upon election and continuing until the chair's duly elected successor takes office or until the chair's term as a trustee expires without re-election. The panel may elect to rotate the chair to the senior member of the panel when the initial, or subsequent, chair's term expires.

9.7.8 Quorum and Voting

Two trustees shall constitute a quorum of the Regional Entity Trustees necessary for a binding vote. Decisions of the Regional Entity Trustees require two affirmative votes. Trustees must be present at a meeting to vote; no votes by proxy are permitted. All Regional Entity Trustee decisions regarding the Regional Entity are final except as subject to oversight by the ERO and FERC.

9.7.9 Compensation of Regional Entity Trustees

Regional Entity Trustees shall receive compensation as recommended by the Corporate Governance Committee, and approved by the Membership submitted for approval as part of the ERO budget process. Trustees shall be reimbursed for actual expenses reasonably incurred or accrued in the performance of their duties.

9.7.10 Executive Session

Executive sessions (open only to Trustees and parties invited by the chair of the Regional Entity Trustees) shall be held as necessary upon agreement of the Regional Entity Trustees to safeguard confidentiality of sensitive information regarding employee, financial or legal matters, or confidential information related to compliance matters.

10.0 AMENDMENTS TO THESE BYLAWS, THE ARTICLES OF INCORPORATION, AND MEMBERSHIP AGREEMENT

Except for modifications to Section 4.0 BOARD OF DIRECTORS, Section 5.0 COMMITTEES ADVISING THE BOARD OF DIRECTORS, Section 9.0 REGIONAL ENTITY FUNCTION and Section 10.0 AMENDMENTS, these Bylaws may be amended, repealed, or added to by the Board of Directors only upon 30 days written notice to the Membership of the proposed modification(s). Approval of amendments to the Bylaws by the Board of Directors must be by an affirmative vote of at least five directors. Sections 4.0, 5.0, 9.0, and 10.0 of these Bylaws and the Articles of Incorporation may be amended, repealed, or added to only by approval of the Membership. All amendments are subject to the requisite regulatory approval(s).

11.0 EFFECTIVE DATE AND TRANSITION PROVISIONS

These Bylaws shall become effective the day following acceptance at FERC and remain in force thereafter as may be amended. These Bylaws hereby cancel and supersede SPP Bylaws; provided, that these Bylaws do not relieve any Member from any financial obligation incurred thereunder. Binding obligations entered into by authority of Officers or the Board of Directors, or the Regional Entity Trustees under these Bylaws are hereby assumed and confirmed as obligations of SPP under these Bylaws.

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth the Regional Entity’s standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA [add reference to any applicable authorities in Canada and Mexico]. No regional reliability standard shall be effective within the ~~[Regional Entity Name]~~SPP area unless filed by NERC with FERC [and applicable authorities in Canada and Mexico] and approved by FERC [and applicable authorities in Canada and Mexico].

COMMON ATTRIBUTE 2

~~[Regional Entity Name]~~SPP regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A ~~[Regional Entity Name]~~An SPP reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

~~[Regional Entity Name]~~SPP regional reliability standards, when approved by FERC ~~[add applicable authorities in Canada]~~, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the ~~[Regional Entity Name]~~SPP area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of ~~[Regional Entity Name]~~,SPP or group within ~~[Regional Entity Name]~~SPP shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the ~~[Regional Entity Name]~~SPP area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

[Standards or other named] committee — The ~~[Regional Entity Name]~~SPP [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the ~~[Regional Entity Name]~~SPP board on standards presented for adoption.

COMMON ATTRIBUTE 6

~~[Alternative 6A: For a Regional Entity that chooses to vote using a balanced stakeholder committee.]~~

~~The [standards] committee is a balanced stakeholder committee, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. [The [standards] committee votes to approve standards.] See Appendix A for the representation model of the [standards] committee.~~

~~[Alternative 6B: For a Regional Entity that chooses to vote using a balanced ballot body of stakeholders.]~~

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with ~~[Regional Entity Name]~~SPP as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.]

COMMON ATTRIBUTE 7

~~[Regional Entity Name]~~SPP will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the ~~[Regional Entity Name]~~SPP and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within [no greater than 60] days of receipt of a completed standard request, the [standards] committee shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The [standards] committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The [standards] committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The [standards] committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the [standards] committee rejects a standard request, a written explanation for rejection will be delivered to the requester within [no greater than 30] days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the [standards] committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the [standards] committee.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the ~~[Regional Entity Name]~~[SPP](#) website within [no greater than 30] days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the ~~{Regional Entity Name}~~SPP website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day comment period. The standards process manager shall provide notice to ~~{Regional Entity Name}~~SPP stakeholders and other potentially interested entities, both within and outside of the ~~{Regional Entity Name}~~SPP area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the ~~{Regional Entity Name}~~SPP website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the ~~{Regional Entity Name}~~SPP [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

[Alternative *17A: For an RE that chooses to vote using a balanced stakeholder committee.*]

~~The [standards] committee shall give due consideration to the work of the drafting team, as well as the comments of stakeholders and minority objections, in approving a proposed regional~~

~~reliability standard for submittal to the [Regional Entity Name] board. The [standards] committee may vote to approve or not approve the standard. Alternatively, the [standards] committee may remand the standard to the drafting team for further work or form a new drafting team for that purpose.~~*[Alternative 17B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]*

The ~~[Regional Entity Name]~~SPP registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.

COMMON ATTRIBUTE 18

~~*[Alternative 18A: For an RE that chooses to vote using a balanced stakeholder committee.]*~~

~~The [standards] committee may not itself modify the standard without issuing a new notice to stakeholders regarding a vote of the modified standard.~~

[Alternative 18B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

All members of ~~[Regional Entity Name]~~SPP are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively: Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]

COMMON ATTRIBUTE 19

~~*[Alternative 19A: For an RE that chooses to vote using a balanced stakeholder committee.]*~~

~~Actions by the committee shall be recorded in the regular minutes of the committee.~~

[Alternative 19B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]

Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%] of the members of the [registered ballot body/ballot pool] submitted a ballot.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC [and applicable authorities in Canada and Mexico.]

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the ~~[Regional Entity Name]~~SPP bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ~~[Regional Entity Name]~~SPP, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the ~~[Regional Entity Name]~~SPP members and others.

COMMON ATTRIBUTE 23

- **Balanced** — The ~~[Regional Entity Name]~~SPP standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the ~~[Regional Entity Name]~~SPP area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire {Regional—Entity Name}<u>SPP</u> area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
----------------------	--

COMMON ATTRIBUTE 33

Measure(s)	<p>Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.</p>
-------------------	---

COMMON ATTRIBUTE 34

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing
--------------------------------------	---

	<p>performance or outcomes.</p> <ul style="list-style-type: none">• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.

I. Introduction

This manual defines the fair and open process for adoption, approval, revision, reaffirmation, and deletion of a regional reliability standard (Standard) by Southwest Power Pool, a regional entity (RE). Standards provide for the reliable regional and sub-regional planning and operation of the Bulk Power System (BPS), consistent with Good Utility Practice within an RE's geographical footprint.

Due process is the key to ensuring that Standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in a Standard's development.

Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the Bulk Power System has a right to participate by: a) expressing a position and its basis, b) having that position considered, c) voting on a proposed regional reliability standard through a segment weighted balanced process, and d) having the right to appeal.

II. Background

An RE may develop, through its own processes, separate Standards that go beyond, add detail to, or implement NERC reliability standards, or otherwise address issues that are not addressed in NERC reliability standards.

NERC reliability standards and the RE's Standards are all to be included within the RE's Compliance Program.

RE Standards are developed consistent with the following philosophies and according to the process defined in this manual:

- A fair and open process that provides an opportunity for all interested parties to participate;
- Avoid any impact on commerce that is not necessary for reliability;
- Provide a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and do not have a significant adverse impact on reliability; and
- A justifiable difference between regions or between sub-regions within the Regional geographic area.

The NERC Board of Trustees has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are fundamental to reliability and the market interface, and provide a constant beacon to guide the development of reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards. Persons and committees that are responsible for the RE Standards process shall consider these NERC principles in the execution of those duties.

NERC reliability standards are based on certain reliability principles that define the foundation of reliability for the North American BPS. Each Standard shall enable or support one or more of the reliability principles, thereby ensuring that it serves a purpose in support of reliability of the North American BPS. Each Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Standard undermines reliability through an unintended consequence.

While NERC reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Standards shall be consistent with the market interface principles. Consideration of the market interface principles is intended to ensure that Standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

III. Regional Reliability Standard Definition, Characteristics, and Elements

A. Definition of a Regional Reliability Standard

A NERC reliability standard defines certain obligations or requirements of entities that operate, plan, and use the Bulk Power Systems of North America. The obligations or requirements must be material to reliability and measurable. Each obligation and requirement shall support one or more of the stated reliability principles and shall be consistent with all of the stated reliability and market interface principles in the NERC Standards Process Manual.

SPP RE may develop, through the process described in this manual, separate SPP Regional Reliability Standards (Standard) that go beyond, add detail to, or implement NERC reliability standards, or that cover matters not addressed in NERC continent-wide reliability standards. SPP Regional Reliability Standards may be developed and exist separately from NERC continent-wide reliability standards, or may be proposed as NERC reliability standards. Standards that exist separately from NERC reliability standards shall be more stringent than a NERC continent-wide reliability standard, including a regional difference that addresses matters that the NERC continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. These regional reliability standards, if approved by the RE Trustees, are forwarded to NERC for review and submittal to FERC for approval.

B. Definition of SPP Criteria

SPP Criteria are those requirements used by SPP members that are for purposes others than those specified for SPP Regional Reliability Standards (Standards). SPP Criteria are enforceable only under the terms and conditions of the SPP Membership Agreement. SPP Criteria may be developed in accordance with SPP Bylaws outside the process described within this manual since these criteria are not intended to be used by the SPP Regional Entity for compliance and enforcement under the authority delegated under the NERC – SPP Regional Delegation Agreement.

C. Characteristics of a Regional Reliability Standard

Standards define obligations or requirements for the operation and planning of interconnected systems and market interface practices that will be enforceable under the authority of the SPP RE. The format and process defined by this manual applies to all Standards.

A Standard shall have the following characteristics:

- **Material to Reliability** - A Standard shall be material to the reliability of bulk power systems of the RE's region. If the reliability of the bulk power systems could be compromised without a particular standard or by a failure to comply with that standard, then the standard is material to reliability.
- **Measurable** - A Standard shall establish technical or performance requirements that can be practically measured.

- **Relative to NERC Reliability Standards** - A Standard must go beyond, add detail to, or implement NERC reliability standards, or cover matters not addressed in NERC reliability standards.

D. Elements of a Regional Reliability Standard

An RE Standard shall consist of the elements identified in this section of this manual. These elements are intended to apply a systematic discipline in the development and revision of Standards. This discipline is necessary to achieve standards that are measurable, enforceable, and consistent. The format allows a clear statement of the purpose, requirements, measures, and penalties for non-compliance associated with each Standard. Supporting documents to aid in the implementation of a Standard may be referenced by the Standard but are not part of the Standard itself. All mandatory requirements of a Standard shall be within an element of the standard.

Performance Elements of a Regional Reliability Standard

Identification Number	A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference RE documentation. Format for Regional Standard Request will be: RSR-000
Title	A brief, descriptive phrase identifying the topic of the Standard.
Effective Date and Status	The effective date of the Standard or, prior to adoption of the Standard by the RE through its own processes, the proposed effective date. The status of the standard will be indicated as active or by reference to one of the numbered steps in the standards process.
Purpose	The purpose of the Standard. The purpose shall explicitly state what outcome will be achieved or is expected by this Standard. The purpose is agreed to early in the process as a step toward obtaining approval to proceed with the development of the standard. The purpose should link the standard to the relevant principle(s).
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies the responsible entity and the action to be performed or outcome to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory. Any additional comments or statements for which compliance is not mandatory such as background or explanatory information should be placed in a separate document and referenced. (See Supporting References).

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire SPP area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
Risk Factor(s)	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to a normal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p> <p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>

Measure(s)	Each requirement shall be addressed by one or more measurements. Measurements will be used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measurement identifies to whom the measurement applies and the expected level of performance or outcomes required to demonstrate compliance. Each measurement shall be tangible, practical, and as objective as is practical. Measures are proxies to assess required performance or outcomes. Achieving the measures should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirements(s) to which it applies.
-------------------	--

Compliance Elements of a Regional Reliability Standard

Compliance Monitoring Process	<p>The following compliance elements, which are part of the standard and are balloted with the standard are developed for each measure in a standard by the NERC compliance program in coordination with the standard drafting team:</p> <ul style="list-style-type: none"> • The specific data or information required to measure performance or outcomes. • The entity responsible for providing the data or information for measuring performance or outcomes. • The process used to evaluate data or information for the purpose of assessing performance or outcomes. • The entity responsible for evaluating data or information to assess performance or outcomes. • The time period in which performance or outcomes is measured, evaluated, and then reset. • Measurement data retention requirements and assignment of responsibility for data archiving.
Violation Severity Levels	Defines the degree to which compliance with a requirement was not achieved. The violation severity levels, are part of the standard and are balloted with the standard, and developed by the NERC compliance program in coordination with the standard drafting team.

Supporting Information Elements

Interpretations	Formally approved interpretations of the reliability standard. Interpretations are temporary, as the standard should be revised to incorporate the interpretation. Interpretations are developed and approved through a process described in the section Interpretations of Standards.
Implementation Plan	Each standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	This section references related documents that support reasons for, or otherwise provide additional information related to, the Standard. Examples include, but are not limited to: <ul style="list-style-type: none">• Development history of the Standard and prior versions• Notes pertaining to implementation or compliance• Standard references• Standard supplements• Procedures• Practices• Training references• Technical references• White papers• Internet links to related information

IV. Roles in the Regional Reliability Standards Development Process

Any member of NERC, including any member of a regional reliability organization, regional entity, or group within NERC shall be allowed to request that a Standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) who is directly and materially affected by the reliability of the North American Bulk Power Systems shall be allowed to request a Standard be developed, modified, or withdrawn.

Originator - Any entity (person, organization, company, governmental agency, individual, etc.) that is directly and materially affected by the operation of an RE's BPS, is allowed to request a Standard be developed or an existing Standard be modified, or deleted.

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the voting segments and are registered with SPP as a ballot participant in the voting of a proposed standard. Membership in SPP is not a requirement for registration. Registration in a ballot body must be done via the SPP website by close of business the day prior to the day voting begins on the standard. [Each standard action has its own registered ballot body.] The representation model of the registered ballot body is provided in Sec V. B. Regional Reliability Standards Development Process Steps, Step 5 – Open Voting.] The outcome of the vote of the registered ballot body is forwarded to the RE Trustees regardless of advisory voting outcomes at the MOPC or SPP Board level.

SPP Regional Entity Trustees (RE Trustees) – The SPP Regional Entity Trustees shall act on any proposed Standard that has gone through the process contained in this manual. Upon approval by the RE Trustees, the Standard will be submitted to NERC for approval under the ERO. RE Trustees are notified of all proposed regional reliability standards requests and receive progress reports from the RE Staff. They also receive notice of the outcome of votes by the ballot body and any recommendations and reports on proposed standards made by the SDT, MOPC and SPP Board.

Regional Entity Staff (RE Staff)- RE Staff shall support the RE Trustees in their oversight authority over the Standards Development Process and any other function or responsibility ascribed to them in the NERC- Southwest Power Pool, Inc. Delegation Agreement.

SPP Markets and Operations Policy Committee (MOPC) - The SPP Markets and Operations Policy Committee will assign Standards to a Standards Development Team for development or revision

SPP Board of Directors and Members Committee (BOD/MC) – The SPP Board of Directors in conjunction with the Members Committee provides advisory votes to the RE Trustees on reliability matters as they pertain to the RE. The BOD/MC votes on proposed regional standards or changes to regional standards for the sole purpose of providing an additional stakeholder forum for review, and valuable input to the RE Trustees decision on a regional standard based on the groups expertise on reliability, operations and market matters as well as its wide diverse representation of the SPP membership.

Compliance Director – The RE office responsible for the administration of the SPP Compliance Program. The duties of this office includes but are not limited to, providing inputs and comments during the standards development process to ensure the measures will be effective and can be practically implemented.

Standard Drafting Team (SDT) – Usually an existing SPP Working Group or Task Force that is comprised of technical experts. Any interested party may attend meetings, provide input and comments, and vote under provisions of the SPP Regional Standards Process Manual.

V. Regional Reliability Standards Development Process

A. Assumptions and Prerequisites

The process for developing and approving Standards is similar to procedures accredited by the American National Standards Institute (ANSI), like that employed by the North American Energy Standards Board (NAESB). The Standards development process has the following characteristics:

- **Inclusive** - Any entity (person, organization, company, governmental agency, individual, etc.) representing an organization with a direct and material interest has a right to participate by:
 - a) Expressing an opinion and its basis,
 - b) Having that position considered,
 - c) Voting on a proposed regional reliability standard through a segment weighted balanced process, and
 - d) Appealing any negative decision

- **Openness** - Participation is open to all organizations that are directly and materially affected by the RE's BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in the RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDT's are open to all interested parties and are noticed on the SPP website at least 15 days in advance. Since pre-existing SPP committees, working groups, or task forces may be assigned the responsibilities of a SDT, the agenda for meetings will note that an SDT activity is being undertaken to distinguish such activity from other non-SDT related agenda items. The openness provisions of this manual apply only and explicitly to the SDT activities. Meetings of subcommittees and working groups serving as a SDT shall follow the SPP Bylaws Sec 3.5 Meetings.
- **Balance** - The RE Standards development process strives to have an appropriate balance of interests. The process prevents any two voting sectors from dominating voting outcomes and no single voting sectors from defeating a proposed reliability standard.
- **Due Process** – The SPP Regional Reliability Standards Development Process provides reasonable notice and opportunity for public comment. At the minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

- **Transparent** – All actions material to the development of a SPP regional reliability standard shall be transparent. All standards development meetings shall be open and publicly noticed on the SPP website.

B. Regional Reliability Standards Development Process Steps

Note: The term “days” below refers to calendar days.

Step 1 – Request to Develop, Revise or Delete a Regional Reliability Standard

Any individual representing an organization (Originator) that is directly or materially impacted by the operation of the BPS within the geographical footprint of the RE may submit a request to the Markets and Operations Policy Committee (MOPC) for the development, modification, or deletion of an RE Standard. Any such request shall be submitted to the MOPC Chairman, or his/her designee, or by another process as otherwise posted on the SPP website. The request should be made using the SPP Regional Standard Request Form (RSR) in Appendix B.

The MOPC or a designee will work with the Originator to develop a description of the proposed Standard subject matter containing sufficient detail to clearly define the purpose, scope, impacted parties, and other relevant information related to the proposed Standard.

Step 2 – Notification to Regional Entity Trustees & Public Notice

The Chairman of the MOPC or his/her designee will forward the request to the RE Trustees. SPP staff will also post the request on the SPP website for public notice and may utilize any appropriate SPP email distribution lists within 30 days. The request is not to be judged as appropriate or useful at this stage.

The MOPC will assign the drafting and scoping responsibility to an appropriate SPP Working Group or Task Force. This group will become the Standards Drafting Team (SDT) for this particular Standard request. The assignment will include any necessary deadlines and due dates for the Standard.

Any documentation of the deliberations of the SDT concerning the Standard shall be made available in accordance with the SPP Bylaws requirements for meeting and organizational groups then in effect. Meetings of the SDT are open to any interested party. Meeting dates and actions on the regional reliability standard are publicly noticed on SPP's public Web site.

The SDT shall provide a report to the RE Trustees and the MOPC on a periodic basis (at least at every regularly scheduled meeting) noting the status of the Standard that has been assigned to it for consideration.

Step 3 – Scoping and Drafting

The SDT will draft the language of the Standard per the Standard description provided by the MOPC and the Originator. The SDT may recommend changes to the scope, purpose, need or other relevant aspects of the Standard through consultation with the MOPC.

The SDT develops a work plan for completing the Standard development work, including the establishment of milestones for completing critical elements of the work in sufficient detail to ensure that the SDT will meet the date objective in the assignment, or an alternative date. This plan will be provided to the RE Trustees and the MOPC.

The SDT may meet in person or via electronic means as necessary; may establish sub-work teams (made up of members of the SDT) as necessary; and perform other activities to address the parameters of the Standard and the established milestone date(s).

The SDT should consider:

- The impact of the Standard on neighboring regions, and seek appropriate input from the neighboring regions if the Standard is determined to have such an impact.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- The need for any existing Standard to be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard.
- Technical reports, white papers and/or work papers that provide technical support for the draft Standard under consideration.
- Documenting the perceived reliability impact should the Standard be approved.

The SDT will regularly (at least at every regularly scheduled meeting) report to the RE Trustees and the MOPC on its progress in meeting a timely completion of the draft Standard. The SDT may request consideration of scope changes of the Standard at any point in the Standard development process.

The RE Trustees or the MOPC may, at any time direct the SDT move to Step 4 and post for comment the current work product, or to terminate the activity if there is no further need for the Standard. If the activity is terminated RE Staff will notify the Originator and the RE Trustees within 30 days.

If there are competing drafts all will be posted on the SPP website for comment. The MOPC may take this step at any time after a SDT has been commissioned to develop the Standard.

For Standards in progress, the MOPC must take action to move to Step 4. *Public Comments*, or to reject the proposal. If the MOPC votes to terminate the activity, the RE Trustees must be notified with supporting reasons provided to them. The proposed standard would then go directly to Step 11. (See Step 11. *RE Trustees Action*)

Step 4 – Post Draft for 30 Day Public Comments

RE Staff will post the draft Standard on the SPP website, along with any supporting documents, for a 30-day comment period. RE Staff shall also inform registered entities and other potentially interested stakeholders of the posting using available SPP communication resources, or by other means deemed appropriate. Comments may be submitted using the RSR Comment Form in Appendix B available on the SPP internet website.

Within 30 days of the conclusion of 30-day comment posting period the SDT shall convene and consider changes to the draft Standard, the implementation plan and/or supporting technical documents. The SDT may elect to return to Step 3. *Scoping and Drafting* to revise the draft Standard, and/or any supporting documentation. The SDT shall summarize the comments received and any changes made as a result. This summary will be and posted on the SPP website when completed.

Step 5 – Open Voting

The SDT shall direct the RE Staff to post the revised draft Standard and other relevant documents including, implementation plan, supporting technical documentation, and summary of comments.

RE Staff will schedule a vote by interested parties to commence no sooner than 15 days and no later than 30 days following the posting of the revised draft.

Members of the ballot body shall be allowed to vote over a period of 15 days. Voting will be through electronic means or other means provided by SPP.

SPP Segment Weighted Voting

Registration in a ballot body created for a specific proposed regional standard is required to vote. Registration for a proposed Standard is noticed on the SPP website and through a Standards email exploder for a period of 15 days prior to the start of the ballot (subscription to the Standards email exploder is open to any interested party through the SPP website). All interested parties who register with the ballot body may vote on the proposed new Standard, Standard revision or Standard deletion. An interested party may only register in one segment.

The five SPP voting segments for Regional Reliability Standards are:

- 1) Transmission
- 2) Generation
- 3) Marketer/Broker
- 4) Distribution/Load Serving Entity
- 5) End User and Public Interest

RE Staff will accept votes any time during the 15-day ballot period for the Standard. Votes will be counted by voting segment. Each voting segment will receive 20% of the vote. A weighted vote of 2/3 affirmative of those voting will pass a Standard for further consideration (Step 7). If the vote fails to achieve a 2/3 majority of those voting, the Standard will be returned to the SDT for consideration for future action (Step 3). The SDT may: revise the Standard; post the Standard again for comments; reballot the Standard; ask the RE Trustees to terminate the request; or any other action it deems appropriate.

The RE Trustees are notified of the outcome of the vote and any actions taken by the SDT as a result of the vote. The RE Trustees will determine any additional action to be taken. (See Step 11. *RE Trustees Action*)

Step 6 – Prepare Consensus Draft & Minority Report

When a Standard is approved, the SDT will prepare a consensus draft representing the version of the Standard to be presented to the MOPC and the BOD/MC before final action by the RE Trustees.

Minority Report and Appeals

- A minority report will be prepared if there are significant issues that cannot be resolved within the SDT during the drafting phase (Step 3) or from the public comments (Step 4).
- A minority report will include any appeals from interested parties that the SPP Standards Procedure Manual was violated in the development of the Standard.
- The minority report remains a part of the record of the Standard and is available to any interested party during any subsequent steps.
- The consensus draft and any minority reports are presented to the MOPC for its consideration and an advisory vote.

Step 7 – Post Draft Standard for Action on the MOPC Agenda

A recommended Standard is noticed for consideration on the MOPC agenda. The agenda materials are made available per the SPP Bylaws, Section 3.5.

If a Standard requires consideration by the MOPC prior to a regularly scheduled meeting, the RE Staff will notify the MOPC Chairman who will notice a special meeting in accordance with the SPP Bylaws.

Step 8 – MOPC Review

The MOPC will provide an advisory vote on the Standard under the governance provisions of the SPP Bylaws, Section 3.9 Voting.

If the MOPC opposes the Standard, the MOPC may request revision of the Standard or termination of further activity on the Standard. If the Standard is terminated, notice is provided (described in Step 9) to the RE Trustees for further action (Step 11).

If the MOPC concurs with the Standard, the Standard proceeds to the SPP Board of Directors and Members Committee for review (Step 9).

The RE Trustees are notified of the outcome of the MOPC review.

Step 9 – SPP Board of Directors/Members Committee Review

A draft Standard submitted to the SPP Board of Directors/Members Committee (BOD/MC) for review must be publicly posted at least 10 days prior to consideration by the BOD/MC. The BOD/MC may consider the Standard at a regularly scheduled meeting, or as determined by the Chairman of the BOD/MC.

The BOD/MC shall be provided:

- The consensus draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommended field testing and effective dates)

- Technical Documentation supporting the draft Standard
- A summary of the registered ballot body vote and summary of the comments and responses that accompanied the votes including a Minority Report if applicable.
- The results of the MOPC advisory vote and any comments
- Any other information relevant to the Standard

The BOD/MC will:

- Provide an advisory vote to the RE Trustees on the Standard (Step 10); or
- Return the Standard to the MOPC with comments

In the case of a second return of a Standard, the proposed Standard is forwarded to the RE Trustees for action. (The proposed Standard would go directly to Step 11).

Step 10 –Presentation to RE Trustees

A draft Standard submitted to the RE Trustees for action must be publicly posted at least 10 days prior to consideration by the RE Trustees.

The RE Trustees shall be provided:

- The consensus draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommended field testing and effective dates)
- Technical Documentation supporting the draft Standard
- A summary of the registered ballot body vote and summary of the comments and responses that accompanied the vote including a Minority Report if applicable
- The results of the MOPC advisory vote and any comments
- The result of the BOD/MC advisory vote and any comments
- Any other information relevant to the Standard

Step 11 - RE Trustees Action

The RE Trustees will:

- Recommend NERC approve the Standard through the NERC process; or
- Remand the Standard to the SDT through the MOPC with comments and instructions; or
- Determine there is no need for the Standard and terminate any future activity.

The RE Trustees may consider the Standard at a regularly scheduled meeting, or as determined by the Chairman of the RE Trustees.

If a Standard is forwarded to the RE Trustees for action as a result of an opposing MOPC vote (Step 8), or if automatically forwarded to them as a result of two or more returns by the MOPC

or SPP Board (Step 9), the RE Trustees will take definitive action, including initiating the process from Step 3, Scoping and Drafting. The RE Trustees may not submit a Standard to NERC for approval without a positive outcome from open and balanced voting in Step 5.

Advisory votes of the MOPC and the BOD/MC do not impact the RE Trustees' authority to submit a Standard to NERC.

Step 12 – Submit to NERC for Approval as Regional Standard

RE Staff will notify interested parties of submission of Standard to NERC by the RE Trustees through the normal and customary communication procedures and processes then in effect.

The RE Staff will publicly notice any further steps necessary to have a Standard reviewed and/or approved through the NERC or any successor organization standards process.

C. Filing of Regional Reliability Standards with Regulatory Agencies

The development of Standards must be administered in coordination with the NERC Standards Development Procedure. At the discretion of the NERC Board of Trustees, adopted Standards may be filed with applicable regulatory agencies in the United States, Canada, and Mexico. Regional Reliability Standards once approved by FERC, are made part of the NERC standards and shall be enforced accordingly.

Appendix A

I. Maintenance of the Regional Reliability Standards Development Process Manual

Any interested party may propose changes to this Manual. Such Process Manual change requests will follow all the steps of the Regional Reliability Standards Process outlined in Section V., Part B of this Manual.

II. Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of a Standard shall have the right to appeal. This appeals process applies only to the Standards process as defined in this procedure.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The appeal will be addressed by the RE Trustees. The appeal is included in a Minority Report of the Standard which remains a part of the record for the Standard throughout the SPP Regional Standards Procedure.

The final decisions of any appeal shall be documented in writing and made public.

A complaint will be noted in a Minority Report including the substantive or procedural action or inaction associated with a reliability standard or the standards process. The complaint should describe the actual or potential adverse impact to the appellant. The RE Trustees will provide a written response to the complaint. The appellants response to the RE Trustees determination will be included in the Minority Report.

The RE Trustees shall provide a response to any remaining open complaints.

Appendix B: SPP Regional Standard Request Form

RSR Number		RSR Title	
SPP Regional Standard Name (include Section No., Title, and existing Standard Version if any)			
Requested Resolution Date (if applicable)			
Description			
Reliability Need or Purpose – Try to identify if known: Technical requirements, reliability risk factor, measurements (refer to SPP Standards Process Manual for descriptions).			
Tariff Implications or Changes (Yes or No; If yes include a summary of impact and/or specific changes)			
Criteria Implications or Changes (Yes or No; If yes include a summary of impact and/or specific changes)			
NERC Standard Implications (Yes or No, and summary of impact)

Revised Regional Standard Language

Appendix D: SPP Standards Development Procedure

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

~~[REGIONAL ENTITY]~~SPP will implement the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures), to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within ~~[REGIONAL ENTITY]~~SPP's geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

~~[REGIONAL ENTITY]~~SPP shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be either ~~[REGIONAL ENTITY]~~SPP's board or a balanced compliance panel reporting directly to ~~[REGIONAL ENTITY]~~SPP's board. ~~[REGIONAL ENTITY]~~SPP's hearing body is ~~[its board] [if not the board, insert the name of the committee or group serving as the hearing body]~~the SPP Regional Entity Trustees.

~~[If the hearing body is a compliance panel other than the board, provide here a description of how the members of the compliance panel are selected and the qualifications to be selected for the compliance panel.]~~

~~[REGIONAL ENTITY]~~SPP shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any: ~~[Describe any deviations, or state "None". If there are deviations from the NERC pro forma Hearing Procedures, [REGIONAL ENTITY]'s Hearing Procedures shall be included as a separate attachment to this Exhibit D.]~~

3.0 OTHER DECISION-MAKING BODIES

~~If [Regional Entity] uses other decision-making bodies within its compliance program, provide here a description of the function of that body to the extent not described elsewhere in the Agreement or exhibits, how the members of that body are selected, and the qualifications to be selected for that body.]~~

SPP has engaged the SERC Reliability Corporation (SERC) to oversee the compliance monitoring and enforcement responsibility within the SPP Region as related to SPP's compliance with Reliability Standards requirements that are applicable to the functions for which SPP is a Registered Entity.

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

~~[Regional Entity]~~SPP shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) ~~—(a)—~~NERC and ~~[Regional Entity]~~SPP, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of ~~[Regional Entity's]~~SPP's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require ~~[Regional Entity]~~SPP (i) to submit to NERC draft(s) of ~~[Regional Entity]~~SPP's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by ~~[Regional Entity]~~SPP Board of Trustees to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of ~~[Regional Entity]~~SPP's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The ~~[Regional Entity]~~SPP business plan and budget submission shall include supporting materials, including ~~[Regional Entity]~~SPP's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. ~~[Regional Entity]~~SPP's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(b) ~~(b)—~~NERC shall review and approve ~~[Regional Entity]~~SPP's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct ~~[Regional Entity]~~SPP to make such revisions as NERC deems appropriate prior

to approval. NERC shall submit ~~[Regional Entity]~~SPP's approved business plan and budget and proposed assessments to the Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of ~~[REGIONAL ENTITY]~~SPP's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. ~~[Regional Entity]~~SPP shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying ~~[Regional Entity's]~~SPP's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of ~~[Regional Entity's]~~SPP's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.

4. Collection of Funding

~~[IF NERC WILL BILL AND COLLECT ASSESSMENTS DIRECTLY FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):]~~

- ~~(a)~~ (a) NERC shall submit invoices to the load-serving entities or designees identified by ~~[Regional Entity]~~SPP covering the NERC and ~~[Regional Entity]~~SPP assessments approved for collection.

~~[IF THE REGIONAL ENTITY WILL ACT AS THE BILLING AND COLLECTION AGENT ON BEHALF OF NERC TO BILL AND COLLECT ASSESSMENTS FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):]~~

~~(a) NERC and [Regional Entity] agree that [Regional Entity] shall act as the billing and collection agent on behalf of NERC to bill and collect [Regional Entity]'s assessments from load-serving entities and designees (or such other entities as agreed by NERC and [Regional Entity]). [Regional Entity] agrees that it shall (i) issue all invoices to load-serving entities and other entities in a prompt and timely manner after receipt from NERC of the information needed to issue the invoices; (ii) exercise commercially reasonable efforts to collect invoices that are not paid as of the due date(s); and (iii) transfer all funds collected to NERC in a timely manner, as follows: Prior to the start of each calendar quarter, and once per week thereafter until all billings for the quarter are collected, [Regional Entity] will electronically transfer to NERC, in immediately available funds, all payments received by [Regional Entity] from load-serving entities or other entities for payment of invoices. On~~

~~the same day that [Regional Entity] makes each electronic transfer of funds to NERC, [Regional Entity] shall send an e-mail to the Chief Financial Officer or Controller of NERC detailing the collections being transmitted, including a listing of the load-serving entities or other entities from which payments were collected and the amount collected from each entity. [Note: If NERC and Regional Entity have a different collection and payment arrangement, the preceding two sentences will be modified accordingly to describe it.]~~

~~[Regional Entity] agrees that it shall not in any way use its position as billing and collection agent for NERC to attempt to influence NERC's policies or decisions on matters relating to adoption of Reliability Standards (including Regional Reliability Standards and Regional Variances), administration of the compliance monitoring and enforcement program and other compliance and enforcement matters, determination and imposition of penalties and sanctions, budgeting matters including review and approval of [Regional Entity's] budgets and business plans, or any other NERC decisions, including by issuing invoices, engaging in collection activities or transferring funds collected to NERC in an untimely manner or other than in accordance with this Agreement.~~

- (b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, ~~[Regional Entity]~~SPP shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, ~~[Regional Entity]~~SPP is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within ~~[REGIONAL ENTITY]~~SPP's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within ~~[Regional Entity]~~SPP's region.
- (c) Upon approval by ERO Governmental Authorities of ~~[Regional Entity]~~SPP's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay ~~[Regional Entity's]~~SPP's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by ~~[Regional Entity], other than penalty monies received from an operational function or division or affiliated entity of [Regional Entity]~~ SPP, shall be applied as a general offset to ~~[Regional Entity]~~SPP's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. ~~Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of [Regional Entity] shall be~~

~~transmitted to or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.~~

6. Budget and Funding for ~~[Regional Entity]~~SPP's Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), ~~[Regional Entity]~~SPP performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"): ~~[List and describe all~~

SPP's performs non-statutory activities performed by Regional Entity, or state "None".] as a Regional Transmission Organization ("RTO"). As a RTO, SPP is mandated by the Commission to ensure reliable supplies of power, adequate transmission infrastructure, and competitive wholesale prices of electricity. In furtherance of this mandate, SPP's specific non-statutory activities are the following primary services:

1. Tariff Administration: Independent administration of the Open Access Transmission Tariff that provides one-stop shopping for regional transmission service with consistent rates and terms.
2. Reliability Coordination: SPP monitors power flow throughout our footprint. We anticipate problems and take preemptive action to mitigate operating limit violations. SPP coordinates regional response in emergency situations or blackouts.
3. Regional Scheduling: SPP ensures that the amount of power sent is coordinated and matched with power received. SPP's regional scheduling service reduces the number of entities with which SPP members and customers have to coordinate.
4. Market Operations: SPP administers an Energy Imbalance Marketplace, monitors resource/load balance and ensures that less expensive power is used to serve load before expensive power, all while ensuring system reliability is met.
5. Expansion Planning: SPP's planning process seeks to identify system limitations and develop transmission upgrades for increased capacity.
6. Contract Services: SPP provides reliability, tariff administration, and scheduling for non-members on a contract basis.

~~[Regional Entity]~~SPP shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions: ~~[List and describe the methods and procedures Regional Entity employs to keep costs and funding of statutory activities separate from costs and funding of non-statutory activities, including at a minimum a description of how Regional Entity's bank accounts and receivables/payables procedures are set up for both statutory and non-statutory functions, a~~

~~description of how Regional Entity ensures each employee involved in both statutory and non-statutory functions keeps accurate time records reflecting his/her activities, and a description of how Regional Entity's general and administrative costs are allocated between statutory activities and non-statutory activities. If the necessary descriptions are lengthy they may be provided in a separate attachment labeled "Attachment E-1", and state here "See Attachment E-1." If Regional Entity has listed no non-statutory functions in the preceding paragraph, state here "Not applicable."}]~~

(i) Separation of funding sources for statutory activities and non-statutory activities. As a RTO, SPP is a public utility under the Federal Power Act, and is required to submit its budget to the Commission. The Commission already has approved SPP's RTO activities and has ordered that SPP's budgets be filed with the Commission.

SPP's non-statutory activities are funded separately from its Regional Entity statutory activities through the imposition of a Commission-approved Tariff Administration Fee charged by SPP to all load under the SPP Open Access Tariff, except for Contract Services activities, which are funded by contract fees. Additionally, SPP's members are assessed an annual membership fee.

SPP shall provide its budget for such non-statutory activities to NERC at the same time that SPP submits its annual budget to FERC. SPP agrees that no costs of non-statutory activities are to be included in the calculation of SPP's dues, fees, and other charges for its statutory activities.

As provided in section 4(c) of this Exhibit E, on a quarterly basis, NERC will pay SPP an amount equal to one-fourth of the current year approved annual funding amount for SPP's statutory activities. Upon receipt of payment from NERC, SPP will deposit these funds into an account established solely to receive and hold funding received from NERC pursuant to SPP's performance of statutory activities under the Delegation Agreement. On a monthly basis, all expenses incurred by SPP for statutory activities and for non-statutory activities are recorded and paid from the SPP operating account. Throughout the year, as expenses incurred for SPP statutory activities are paid from the SPP operating account, transfers are made from the account established solely to receive and hold funding received from NERC to the SPP operating account in the amounts of payments made for expenses incurred for SPP statutory activities. The RE General Manager shall have sole authority to approve all withdrawal of funds from the SPP Regional Entity bank account.

(ii) Separation of costs of statutory activities and non-statutory activities. All employees performing functions directly attributed to SPP's delegated responsibilities who also perform functions related to SPP's non-statutory activities will utilize a time tracking system to accurately reflect their time spent on statutory activities. Periodically, but no less frequently than annually, SPP will input the time associated with its direct function staff performing statutory activities into a cost calculation model. Specific, direct costs attributable to the direct function staff performing statutory activities are salary, SPP-paid medical insurance, Medicare and Social Security taxes, and other SPP-paid benefits. These costs are then combined with other directly assignable costs of statutory activities, such as

travel, meetings, contractors, professional services, fees and expenses of Regional Entity independent trustees, and other direct administrative expenses, and reported on the NERC Statement of Activities.

In addition, an allocation of SPP overhead costs to statutory activities is calculated and the allocated overhead costs are recorded on the NERC Statement of Activities. These overhead costs are shared throughout the SPP organization and include costs for payroll and accounts payable processing, human resources and benefits management, accounting, information technology, executive leadership, corporate affairs and communications, office costs and other support services and expenditures. This allocation is calculated using a standard hourly rate multiplied by the number of SPP staff hours spent directly performing SPP's statutory activities. The hourly rate for allocated overhead costs is developed using SPP's current year expenses, by separating SPP's shared services support costs which support all of SPP's functions (i.e., the costs for the activities identified in the second sentence of this paragraph) from SPP's operational resource pool. The total indirect costs are then divided by estimated total annual available work hours for SPP's operational resource pool. The average annual employee utilization rate assumes each employee works an eighthour work day with adjustments to reflect SPP's employment policies related to vacation allotment, SPP holidays and other non-productive leave. The total expenses for statutory activities in a month as recorded on the NERC Statement of Activities are used to determine the amount of transfer to be made to the SPP operating account to reimburse the SPP operating account for the payment of expenses of SPP's statutory activities. The RE General Manager shall have sole authority to approve all withdrawal of funds from the SPP Regional Entity bank account.

~~[Regional Entity]SPP~~ shall provide its budget for such non-statutory activities to NERC at the same time that ~~[Regional Entity]SPP~~ submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement.—~~[Regional Entity's] SPP's~~ budget for non-statutory activities that is provided to NERC shall contain a detailed list of ~~[Regional Entity's]SPP's~~ non-statutory activities and a description of the funding sources for the non-statutory activities. ~~[Regional Entity]SPP~~ agrees that no costs (which shall include a reasonable allocation of ~~[Regional Entity]SPP's~~ general and administrative costs) of non-statutory activities are to be included in the calculation of ~~[Regional Entity's]SPP's~~ assessments, dues, fees, and other charges for its statutory activities.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if ~~[Regional Entity]SPP~~ determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, ~~[Regional Entity]SPP~~ shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in ~~[Regional Entity]SPP's~~ approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct ~~[Regional Entity]SPP~~ to

make such revisions as NERC deems appropriate prior to approval. NERC shall submit ~~[Regional Entity]~~SPP's approved amended or supplemental business plan and budget and proposed supplemental assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by ~~[Regional Entity]~~SPP pursuant to Section 9(h) and (i) of the Agreement. ~~[Regional Entity]~~SPP shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

ATTACHMENT 8A

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

REVISED DELEGATION AGREEMENT

WITH

TEXAS RELIABILITY ENTITY

CLEAN VERSION

**RESOLUTION OF THE BOARD OF DIRECTORS OF
TEXAS RELIABILITY ENTITY, INC.**

April 27, 2010

WHEREAS, the Board of Directors (Board) of Texas Reliability Entity, Inc. has determined it to be desirable and in the best interest of Texas Reliability Entity, Inc. to approve the Amended and Restated Delegation Agreement between North American Electric Reliability Corporation and Texas Reliability Entity, Inc., including all exhibits, which is attached hereto as Attachment A and incorporated herein for all purposes, with no material changes;

THEREFORE be it RESOLVED, that the Board hereby approves the Amended and Restated Delegation Agreement between North American Electric Reliability Corporation and Texas Reliability Entity, Inc. which is attached hereto as Attachment A and incorporated herein for all purposes, with no material changes.

CORPORATE SECRETARY'S CERTIFICATE

I, Susan Vincent, Corporate Secretary of Texas Reliability Entity, Inc. do hereby certify that, at the April 27, 2010 Texas Reliability Entity, Inc. Board of Directors Meeting, the Board of Directors of Texas Reliability Entity, Inc. approved the above referenced resolution. The motion passed by unanimous voice vote.

IN WITNESS WHEREOF, I have hereunto set my hand this 27th day of April 2010.

A handwritten signature in cursive script, appearing to read "Susan Vincent", written over a solid horizontal line.

Susan Vincent
Corporate Secretary

Exhibit A
Pro Forma Delegation Agreement

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND TEXAS RELIABILITY ENTITY, INC.**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of January 1, 2011, between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and Texas Reliability Entity, Inc. (“Texas RE”), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and Texas RE may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as Texas RE provided that:

(A) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, Texas RE is organized on an Interconnection-wide basis and therefore is entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through Texas RE to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that Texas RE meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and Texas RE, having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and Texas RE agree as follows:

1. Definitions. The capitalized terms used in this Agreement shall be defined as set forth in the Act, the ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to Texas RE to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. Representations.

(a) For purposes of its Delegated Authority, Texas RE hereby represents and warrants to NERC that:

(i) Texas RE is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. Texas RE is governed in accordance with its bylaws by a combination independent and balanced stakeholder board. Pursuant to these bylaws, no two industry sectors can control any Texas RE decision and no single industry sector can veto any Texas RE decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon Texas RE.

(ii) As set forth in **Exhibit C** hereto², Texas RE has developed a standards development procedure, which provides the process that Texas RE may use to develop Regional Reliability Standards and Regional Variances that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, Texas RE has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within Texas RE's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to Texas RE that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. Covenants.

¹ The **Exhibit B** from Texas RE shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from Texas RE shall meet the requirements contained in **Exhibit C** to this Agreement.

(a) During the term of this Agreement, Texas RE shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of Texas RE under this Agreement without first obtaining the consent of Texas RE, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and Texas RE shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. **Delegation of Authority.**

(a) Based upon the representations, warranties and covenants of Texas RE in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to Texas RE for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that Texas RE shall not monitor and enforce compliance with Reliability Standards for Texas RE or an affiliated entity with respect to reliability functions for which Texas RE or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to Texas RE within, or additions to this delegation of authority to Texas RE beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where Texas RE or an affiliated entity is a Registered Entity, Texas RE shall enter into an agreement with another Regional Entity or NERC for the other

Regional Entity or NERC to monitor and enforce Texas RE's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit Texas RE from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both Texas RE and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, Texas RE shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, Texas RE shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords Texas RE reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards and Regional Variances through Texas RE's process as set forth in **Exhibit C**. Proposals approved through Texas RE's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance,

applying the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. Texas RE may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, Texas RE shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and Texas RE agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. Texas RE may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, Texas RE agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued

by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) Texas RE shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by Texas RE. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and Texas RE shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by Texas RE of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review Texas RE's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by Texas RE in accordance with the NERC Rules of Procedure, NERC directives and

Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by Texas RE and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. Texas RE may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of Texas RE's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by Texas RE as a result of a decision by Texas RE's Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) Texas RE shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) Texas RE shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, Texas RE shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review Texas RE's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

7. Delegation-Related Activities.

NERC will engage Texas RE on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. Texas RE shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by Texas RE and other Regional Entities. Texas RE shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. Texas RE shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. Texas RE shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by Texas RE and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. Texas RE shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and Texas RE shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, Texas RE shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. Texas RE may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) Texas RE shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) Texas RE shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of Texas RE's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and Texas RE that matters relating to NERC's oversight of Texas RE's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and Texas RE and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with Texas RE and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and Texas RE's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. Texas RE shall provide data, information and reports to

NERC, in accordance with established schedules, to enable NERC to calculate Texas RE's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate Texas RE's performance of its delegated functions and related activities and to provide advice and direction to Texas RE on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, Texas RE and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, Texas RE shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of Texas RE's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring Texas RE to adopt and implement an action plan or other remedial action, NERC shall issue a notice to Texas RE of the need and basis for an action plan or other remedial action and provide an opportunity for Texas RE to submit a written response contesting NERC's evaluation of Texas RE's performance and the need for an action plan. Texas RE may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and Texas RE shall work collaboratively as needed in the development and implementation of Texas RE's action plan. A final action plan submitted by Texas RE to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to Texas RE standardized training and education programs, which shall be designed taking into account input from Texas RE and other Regional Entities, for Texas RE personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to Texas RE concerning the manner in which Texas RE shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a

collaborative process with Texas RE and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and Texas RE and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), Texas RE and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, Texas RE, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by Texas RE, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without Texas RE's agreement, *provided*, that Texas RE shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and Texas RE and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which Texas RE, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions,

taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. Texas RE, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with Texas RE, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of Texas RE performed by NERC shall be limited to an examination of Texas RE's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. Texas RE and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) Texas RE shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. Texas RE's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, Texas RE to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. Texas RE's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) Texas RE and NERC agree that the portion of Texas RE's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic

boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by Texas RE and approved by NERC and the Commission. If Texas RE proposes to use a formula other than Net Energy for Load beginning in the following year, Texas RE shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and Texas RE to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide Texas RE with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) Texas RE shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of Texas RE, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund Texas RE's performance of its Delegated Authority and related activities in accordance with Texas RE's Commission-approved business plan and budget, in the amount of Texas RE's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting Texas RE's approved assessments from end users and other entities and payment of the approved assessment amount to Texas RE, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon Texas

RE that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without Texas RE's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and Texas RE fiscal year budget with the actual results at the NERC and Regional Entity levels. Texas RE shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) Texas RE shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) Texas RE shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which Texas RE shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of Texas RE) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which Texas RE shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of Texas RE. *Provided*, that, subject to approval by NERC and the Commission, Texas RE may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. Texas RE may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit Texas RE from contracting with other entities to

assist it in carrying out its Delegated Authority, provided Texas RE retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the “Default Notice”). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on January 1, 2011 (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that Texas RE continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If Texas RE meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that Texas RE continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for

delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of Texas RE's Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time Texas RE may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by Texas RE and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. Texas RE and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and Texas RE shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation

costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the Texas RE's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the Texas RE or NERC is found liable for gross negligence or intentional misconduct, in which case Texas RE or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. **Amendment.** Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. **Amendments to the NERC Rules of Procedure.** NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of Texas RE under this Agreement without first obtaining the consent of Texas RE, which consent shall not be unreasonably withheld or delayed. To the extent Texas RE does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of Texas RE under this Agreement, Texas RE shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by Texas RE to NERC and the Commission, or at such other time as may be mutually agreed by Texas RE and NERC.

18. **Dispute Resolution.** In the event a dispute arises under this Agreement between NERC and Texas RE (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to Texas RE's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. Texas RE shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission

requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however*, that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

If to NERC:

North American Electric
Reliability Corporation
116-390 Village Blvd.
Princeton, NJ 08540-5721
Attn: General Counsel
Facsimile: (609) 452-9550

If to Texas RE:

Texas Reliability Entity, Inc.
2700 Via Fortuna
Suite 225
Austin, Texas 78746
Attn: General Counsel
Facsimile:(512) 225-7165

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction

in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings. The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause. Nothing in this Agreement shall be construed to preempt or limit any authority that Texas RE may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement. This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts. This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

Exhibit A — Regional Boundaries

Exhibit A to the delegation agreement for each Regional Entity receiving Delegated Authority shall describe the geographic or electrical boundaries covered by the proposed delegation of authority. **Exhibit A** for each Regional Entity shall reflect coordination with neighboring Regional Entities, as appropriate, to ensure that all relevant areas are either included within the geographic boundaries of a Regional Entity or specifically identified as not being within the geographic boundaries of any Regional Entity. Any exclusions of geographic or electrical areas or of Registered Entities from the scope of the Regional Entity's Delegated Authority within the geographic or electrical boundaries shown on **Exhibit A**, and any additions of geographic or electrical areas or of Registered Entities located outside the boundaries shown on **Exhibit A** to the scope of the Regional Entity's Delegated Authority, shall be specifically stated or described in **Exhibit A**.

EXHIBIT A – REGIONAL BOUNDARIES

The ERCOT Region is the geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas. The ERCOT Region does not interconnect synchronously across state lines to import or export power with neighboring reliability regions. The ERCOT geographic region includes 200,000 square miles, 85% of Texas load, and 75% of Texas land area (does not include the Panhandle, El Paso area, and 2 areas of East Texas). The ERCOT Region includes the following Texas cities and towns: Dallas, Ft. Worth, Houston, San Antonio, Austin, Paris, Tyler, Nacogdoches, Lufkin, Bryan, College Station, Corpus Christi, Harlingen, Brownsville, Laredo, Brownwood, San Angelo, Abilene, Midland, Odessa, Fort Stockton, Monahans, Snyder, Vernon, Wichita Falls, Denton, Garland, Greenville, Waco, Temple, Killeen, Weatherford, and Graham, as indicated on the map below.

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity’s bylaws, which NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

ARTICLE I. DEFINITIONS

Section 1. Definitions. The capitalized terms used in these Bylaws of Texas Reliability Entity, Inc. (the "Corporation" or "Texas RE"), shall have the meanings set forth below, or if not set forth below, shall have the meanings given them in the NERC Rules of Procedure.

(a) "Affiliate" means any entity controlling, controlled by or under common control with the entity under consideration, and includes any entity (i.e., any commercial enterprise) in any of the following relationships: (i) an entity that directly or indirectly owns or holds at least five percent of the voting securities of another entity, (ii) an entity in a chain of successive ownership of at least five percent of the voting securities of another entity, (iii) an entity which shares a common parent with or is under common influence or control with another entity or (iv) an entity that actually exercises substantial influence or control over the policies and actions of another entity. Evidence of influence or control shall include the possession, directly or indirectly, of the power to direct or cause the direction of the management and/or policies and procedures of another, whether that power is established through ownership or voting of at least five percent of the voting securities or by any other direct or indirect means. In cases where the level of control or influence is disputed, the Board shall have discretion to determine whether or not the entities are Affiliates of one another. Membership in Texas RE shall not create an affiliation with Texas RE.

(b) "Board" means the Board of Directors of the Corporation.

(c) "Bulk Power System" or "BPS" means facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof) and facilities generating electric energy as needed to maintain transmission system reliability, but does not include facilities used in the local distribution of electricity.

(d) "Commission" or "FERC" means the Federal Energy Regulatory Commission.

(e) "Delegated Authority" means the authority delegated by NERC to the Corporation to propose and enforce NERC Reliability Standards and perform other reliability-related activities in the ERCOT Region under the Delegation Agreement executed by NERC and the Corporation and approved by FERC, pursuant to Section 215 of the Federal Power Act (16 U.S.C. §824n).

(f) "Delegation Agreement" means the agreement between the Corporation and NERC and approved by the Commission which describes the Delegated Authority and may be amended from time to time.

(g) "Electric Reliability Organization" or "ERO" means the organization that is certified by the Commission pursuant to Section 39.3 of its regulations, and has received recognition by appropriate regulatory authorities in Canada and Mexico, as applicable, to establish and enforce Reliability Standards for the Bulk Power Systems of the respective countries and that has entered into a delegation agreement with the Corporation pursuant to which the Electric Reliability Organization delegates enforcement authority for Reliability Standards for the Bulk Power System in the ERCOT Region. NERC was certified as the ERO on July 20, 2006.

(h) “ERCOT Region” means the geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas.

(i) “Independent Director” means a person who is not (a) an officer or employee of the Corporation; (b) a NERC Registered Entity or Member or an officer, director, or employee of a Member of the Corporation; or (c) an officer, director, or employee of any company or entity that would reasonably be perceived as having a direct financial interest in the outcome of Board decisions or having a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director, as more specifically described in Article IV of these Bylaws.

(j) “Initial Director” means a Director named in the Certificate of Formation and seated for formation of the Corporation.

(k) “Member” means a member of the Corporation pursuant to Article III of these Bylaws.

(l) “NERC” means North American Electric Reliability Corporation, the entity certified by FERC as the ERO on July 20, 2006.

(m) “NERC Rules of Procedure” means the Rules of Procedure that are adopted by NERC and approved by the Commission.

(n) “PUCT” means the Public Utility Commission of Texas.

(o) “OPUC” means the Texas Office of Public Utility Counsel.

(p) “Regional Entity” means an entity with a Delegation Agreement with NERC, as ERO, including the following organizations, in addition to Texas Reliability Entity: Florida Reliability Coordinating Council (FRCC), Midwest Reliability Organization (MRO), Northeast Power Coordinating Council (NPCC), ReliabilityFirst Corporation (RFC), Southeastern Electric Reliability Council (SERC), Southwest Power Pool (SPP), and Western Electricity Coordinating Council (WECC).

(q) “Regional Reliability Standard” means a standard for the ERCOT Region that is proposed and approved in accordance with the Texas RE Standards Development Process, as set forth in Exhibit C to the Delegation Agreement, and either, (i) sets more stringent reliability requirements than a national Reliability Standard, or (ii) covers matters not covered by a national Reliability Standard.

(r) “Registered Entity” means an entity that is registered with NERC and listed on the NERC Compliance Registry (available at www.nerc.com).

(s) “Reliability Standard” means a requirement to provide for Reliable Operation of the Bulk-Power System, which is approved by NERC and the Commission, pursuant to Section 215 of the Federal Power Act and all amendments thereto. This term includes requirements for the operation of existing Bulk-Power System facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for Reliable Operation of the Bulk-Power System.

(t) “Reliable Operation” means operating the elements of the Bulk Power System within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of the Bulk Power System will not occur as a result of a sudden disturbance, including a cybersecurity incident, or unanticipated failure of system elements.

(u) “Sector” means a group of Members of the Corporation that are Bulk Power System owners, operators, or users, as defined in Article III, Section 4 of these Bylaws. Each Sector shall constitute a class of Members for purposes of Chapter 22 (Nonprofit Corporations) of the Texas Business Organizations Code.

ARTICLE II. PURPOSE

Section 1. General Purpose. The purpose of the Corporation is to preserve and enhance reliability in the ERCOT Region. In furtherance of this goal, the Corporation will:

(a) Perform Reliability Standards development, compliance monitoring, compliance enforcement, and other related activities as a Regional Entity, pursuant to 16 U.S.C. §824n, in accordance with the Corporation’s Delegation Agreement with NERC;

(b) Carry out other activities as set forth in the Delegation Agreement, the NERC Rules of Procedure, or as otherwise required or requested by NERC, in support of the Delegated Authority, including but not limited to organization registration and certification, reliability assessment and performance analysis, training and education, and situational awareness and infrastructure security; and

(c) Engage in any other lawful act or activity that is not in conflict with the Corporation’s duties as a Regional Entity and for which non-profit corporations may be organized under the Texas Business Organizations Code.

Section 2. Non-Profit Corporation. The Corporation is a Texas non-profit corporation.

Section 3. Geographic Area. The Corporation will perform its operations primarily within the ERCOT Region. The ERCOT Region includes 200,000 square miles, 85% of Texas load, and 75% of Texas land area (does not include the Panhandle, El Paso area, and 2 areas of East Texas). The ERCOT Region includes the following Texas cities and towns: Dallas, Ft. Worth, Houston, San Antonio, Austin, Paris, Tyler, Nacogdoches, Lufkin, Bryan, College Station, Corpus Christi, Harlingen, Brownsville, Laredo, Brownwood, San Angelo, Abilene, Midland, Odessa, Fort Stockton, Monahans, Snyder, Vernon, Wichita Falls, Denton, Garland, Greenville, Waco, Temple, Killeen, Weatherford, and Graham, and does not interconnect synchronously across state lines to import or export power with neighboring reliability regions.

ARTICLE III. MEMBERSHIP

Section 1. Members. The Corporation is a membership corporation. Membership in the Corporation is voluntary and is open only to any entity that is a user, owner or operator of the ERCOT Region Bulk Power System, registers with the Corporation as a Member, maintains its registration in accordance with this Article III, and complies with the other conditions and obligations of membership specified in these Bylaws. All Members must qualify and be registered in one of the Sectors defined in Article III, Section 4. Membership in the Corporation is not a condition to participating in the development or consideration of proposed Regional Standards.

Section 2. Registration as a Member. Any entity that is eligible to be a Member of the Corporation in accordance with Article III, Section 1 may become a Member by completing and submitting to the secretary of the Corporation a membership registration on a form prescribed by the Corporation. The Member shall designate one representative and an alternative representative with authority to receive notices, cast votes, and execute waivers and consents on behalf of the Member. The secretary of the Corporation shall maintain a current roster of the Members of the Corporation including each Member's designated representative and alternative representative. From time to time, the Board shall establish a date by which Members shall submit their registration renewals. All Members shall be required to renew their registrations annually and within 30 calendar days of a request by an officer of the Corporation, using a registration renewal form prescribed by the Corporation. The secretary of the Corporation shall remove from the roster of Members of the Corporation any Member that has not submitted a registration renewal within 30 days following a date established by the Corporation. The secretary shall inform any Member that is removed from the roster of Members of such removal, by sending notice to such former Member's last known address on the records of the Corporation.

Section 3. Obligations and Conditions of Membership.

(a) Members must agree to promote, support, and comply with Reliability Standards, and assist the Corporation in its compliance with the terms and provisions of the Corporation's Delegation Agreement with NERC. Each Member shall agree, in writing, to accept the responsibility to comply with policies of NERC and the Corporation as set forth in their respective certificates of formation, bylaws, rules of procedure, and Reliability Standards, as applicable, as from time to time adopted, approved, or amended.

(b) As an additional condition of membership in the Corporation, each Member shall be required to execute an agreement with the Corporation, in a form to be specified by the Corporation, that such entity will hold all Directors, officers, employees, and agents of the Corporation, as well as volunteers participating in good faith in the activities of the Corporation, harmless for any injury or damage caused by any act or omission of any director, officer, employee, agent, or volunteer in the course of performance of his or her duties on behalf of the Corporation, other than for willful acts of misconduct.

(c) Consistent with applicable laws and regulations, Members must share nonproprietary information at the Corporation's request as necessary for the furtherance of the Corporation's activities and consistent with NERC, PUCT, or any other applicable rules relating to confidentiality.

Section 4. Membership Sectors. Each Member shall elect to be assigned to one of the following membership Sectors:

(a) **System Coordination and Planning:** An entity that is registered with NERC as a Reliability Coordinator (RC), Balancing Authority (BA), Planning Authority (PA), Resource Planner (RP), or Interchange Authority (IA).

(b) **Transmission and Distribution:** An entity that is registered with NERC as a Transmission Owner (TO), Transmission Planner (TP), Transmission Service Provider (TSP), Distribution Provider (DP), and/or Transmission Operator (TOP) and is not a Cooperative or Municipal Utility.

(c) **Cooperative:** An entity that is (a) a corporation organized under Chapter 161 of the Texas Utilities Code or a predecessor statute to Chapter 161 and operating under that chapter; or (b) a corporation organized as an electric cooperative in a state other than Texas that has obtained a certificate of authority to conduct affairs in the State of Texas; or (c) a cooperative association organized under Tex. Rev. Civ. Stat. 1396-50.01 or a predecessor to that statute and operating under that statute and is registered with NERC for at least one reliability function.

(d) **Municipal Utility:** A municipally owned utility as defined in PURA §11.003 and is registered with NERC for at least one reliability function.

(e) **Generation:** An entity that is registered with NERC as a Generator Owner (GO) or Generator Operator (GOP).

(f) **Load-Serving and Marketing:** An entity that is registered with NERC as a Load Serving Entity (LSE), a Purchasing-Selling Entity, or any newly defined NERC reliability function for demand response.

Section 5. Participation.

(a) There is only one level of Membership, and no company or entity may simultaneously hold more than one Membership.

(b) Members must qualify in and join a Sector.

(c) A Member that is eligible for more than one Sector may join only one Sector and it must be the most appropriate Sector for its business. Any disputes regarding appropriateness of a Member's Sector will be decided by a majority vote of the Board.

(d) A company or entity that is an Affiliate of a Member may hold a separate membership in a different Sector, so long as the legal entities have different NERC Compliance Registry Numbers under which they are currently registered for the applicable NERC reliability function.

(e) A Member must continue to vote in the same Sector for a minimum of the remainder of the fiscal year in which it becomes a Member or until it is no longer eligible to remain in such Sector, and it must give notice to the Corporate secretary when it elects or is required to change Sectors.

(f) The Board may review the Sector qualification of any Member and may determine that a Member does not qualify for, and require them to change Sectors.

(g) A Member which is no longer eligible or not in good standing may not vote on any matters that require membership.

Section 6. Membership Fees. Members must pay an annual Membership Fee of \$250, to offset the expenses of membership qualification, coordination, and meetings, unless the Board waives the fee for any Member for good cause shown. The Board may agree to change the amount or frequency of the Membership Fee, from time to time, by majority vote.

Section 7. Term of Membership. Membership in the Corporation must be renewed on an annual basis and will only be retained as long as a Member meets its respective qualifications, obligations, and conditions of membership as set forth in these Bylaws. Membership is conditioned on the annual payment of Membership Fees, unless the Membership Fees are waived by the Board for good cause shown, as determined in the Board's sole discretion.

Section 8. Removal. No Member or Member representative may be sanctioned, expelled or suspended and no membership in the Corporation may be terminated or suspended except pursuant to a procedure that is fair and reasonable and is carried out in good faith. The Board may, by resolution, establish a procedure to terminate, expel, suspend, or sanction a Member following notice to the Member and exercise of appropriate due process procedures and a determination by the Board in its sole discretion that in its judgment the Member has violated its obligations and responsibilities to the Corporation. In the event that the Board does not adopt procedures, the following procedures shall apply:

(a) Written notice. Written notice of intent to terminate, expel, suspend or sanction a Member shall be delivered at least twenty (20) days in advance of the date when a hearing will be held to determine whether the Member shall be expelled, suspended, terminated or sanctioned. Such notice shall set forth the reasons therefore. Said notice must be given by facsimile (receipt confirmed), e-mail (receipt confirmed) or first class or certified mail sent to the last address of the Member to be expelled, suspended, terminated or sanctioned, as shown in the Corporation's records.

(b) Hearing. An opportunity shall be provided for the Member receiving such notice to be heard by the Board at the hearing, orally and in writing. The Member shall be entitled to have counsel present, and to participate in the hearing, at its own expense, and to present and cross-examine any witnesses.

(c) Liability. A Member which has been sanctioned, expelled, terminated or suspended shall remain liable to the Corporation for fees as a result of obligations incurred or commitments made prior to sanction, expulsion, termination or suspension.

(d) Challenges. Any proceeding challenging an expulsion, suspension, sanction or termination, including a proceeding in which defective notice is alleged, may be submitted to the Board in writing within one year after the effective date of the expulsion, suspension, sanction or termination. If the Board determines to hear such challenge, it shall notify the Member and such proceeding will be subject to the hearing requirements described in subsection (b) above of this Section 8.

Section 9. Resignation. Any other provision of these Bylaws notwithstanding, any Member may withdraw from participation in the activities of the Corporation at any time upon written notice to the chief executive officer or president of the Corporation, whereupon it

shall cease to be a Member, and its representatives shall cease to be entitled or obligated to participate in the activities of the Board or any activities requiring membership.

Section 10. Reinstatement. A former Member may submit a written request for reinstatement of Membership. The Board will reinstate the Membership unless the entity does not meet the Membership qualifications set forth in these Bylaws.

ARTICLE IV. BOARD OF DIRECTORS

Section 1. Board of Directors. The business and affairs of the Corporation shall be managed by the Board. The Board shall consist of (i) four (4) Independent Directors who are nominated and elected in accordance with the requirements and procedures specified in this Article IV (the "Independent Directors"); (ii) the Chairman of the PUCT or another PUCT Commissioner designated by the Chairman, as an *ex officio* non-voting member; (iii) Texas Public Counsel, from OPUC (or another employee of OPUC designated by Texas Public Counsel), as an *ex officio* non-voting member, representing the interests of residential and small commercial electricity consumers; (iv) the CEO of the Corporation as a voting member (the "Management Director"); (v) the chair of the Member Representatives Committee as a voting member; and (vi) the vice chair of the Member Representatives Committee as a voting member. The Directors who are the chair and vice chair of the Member Representatives Committee will be collectively referred to herein as "Affiliated Directors." Each Director, including the Affiliated Directors and excluding the non-voting members of the Board, shall have one (1) vote on any matter brought before the Board for a vote. All Directors are expected to serve the public interest and to represent the reliability concerns of the entire ERCOT Region Bulk Power System.

Section 2. Independent Directors. The Independent Directors shall be elected, shall have the qualifications specified, and shall serve in the manner provided in this Section.

(a) Qualifications:

(1) Experience in one or more of these fields: senior corporate leadership; professional disciplines of finance, accounting, engineering, bulk power systems, or law; regulation of utilities; and/or risk management.

(2) Independence of any NERC registered entity, including ERCOT ISO, and any ERCOT Region Market Participant. Requirements of independence include but are not limited to the following:

(i) Independent Directors and the immediate family (any spouse, mother, father, sibling, or dependent, and any spouse of mother, father, or sibling and including any step and adoptive parents, siblings or children) and household members of Independent Directors and their spouses shall not have current or recent status (within the last two years) as a director, officer or employee of an ERCOT Region NERC Registered Entity or ERCOT Region Market Participant.

(ii) Independent Directors and immediate family and household members of Independent Directors shall not have current status as a director, officer or employee of a non-ERCOT Region NERC Registered Entity.

(iii) Independent Directors and immediate family and household members of Independent Directors shall not have direct business relationships, other than retail customer relationships, with any NERC Registered Entity or Market Participant.

(iv) To the extent that an Independent Director or his or her spouse, dependent child, or any other household member owns stocks or bonds of NERC Registered Entities or Market Participants, these must be divested or placed in a blind trust prior to being seated on the Board.

(v) Independent Directors shall not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Board member, including the Delegated Authority.

(vi) Other criteria as approved by the Board.

(b) Term. Except for the Initial and originally elected Directors, the term for Independent Directors shall be staggered three year terms. An Independent Director may be elected for up to three consecutive terms. Notwithstanding the foregoing, the Directors named as Initial Directors will serve only until the first membership meeting of the Corporation at which Independent Directors are elected. If an Initial Director is qualified to be an Independent Director and elected by the membership, such Director's term as an Initial Director shall not be counted for purposes of term limits. For the originally elected Independent Directors, two positions will have three year terms, one position will have a two year term, and one position will have a one year term. The term for the Affiliated Directors who are chair and vice chair of the Member Representatives Committee shall be one year, and the terms of the *ex officio* Directors will not expire.

(c) Selection.

(1) Except for the selection of the Initial Directors, the Board shall appoint, on an annual basis, or more frequently if needed in the event of a special election pursuant to this subsection, a nominating committee (the "Nominating Committee") to recommend candidates (i) to succeed the Independent Directors whose terms expire during the current year and (ii) to serve the remainder of the term of any Independent Director who ceased to serve as a Director subsequent to the last annual election of Directors. Except for the original Nominating Committee appointed by the Initial Directors ("Initial Nominating Committee"), the Nominating Committee shall consist of all Independent Directors except those whose terms expire during the current year and are seeking re-election and Affiliated Directors and such other persons with such qualifications as the Board shall specify (provided that such other persons may not vote), provided that the Independent Directors shall constitute a majority of the voting members of the Nominating Committee. The Initial Nominating Committee will consist of the Initial Directors except the Management Director (as defined in Article IV, Section 3), and at least two other persons selected by these Initial Directors to represent the interests of the Membership. The PUCT Chair may choose to participate on the Nominating Committee. If any Nominating Committee should have only two eligible Independent Directors for any reason, the requirement that Independent Directors must constitute a majority of the voting members will be removed to allow both Affiliated Directors to participate on the Nominating Committee. The Nominating Committee may retain an executive search

firm to locate and present candidates with the required qualifications, as set forth in Article IV, Section 2(a).

(2) The Nominating Committee shall interview the qualified candidates and select and nominate, by at least a two-thirds majority, qualified candidate(s), consistent with the objectives that the Board as an entirety shall reflect expertise in the areas of technical electric operations and reliability, legal, senior corporate leadership, financial, risk management, and regulatory matters, and familiarity with regional system operation issues in the ERCOT Region, to present to the Membership for its approval.

(3) The Membership shall vote by Sector as described in Article V in favor or against the proposed Independent Director(s). A proposed Independent Director who is approved by a majority of the Sectors shall become an Independent Director.

(d) Director Voting Weights. All voting Directors shall have a single vote each.

(e) Alternates and Proxies. Independent Directors may designate another Independent Director as a proxy if unable to attend a Board meeting. Ex officio Directors may designate a selected proxy or an alternate representative who may attend meetings in the absence of such Director. The chair and vice chair of the Member Representatives Committee may designate each other or may designate an Independent Director as their proxy if unable to attend a Board meeting.

Section 3. Appointment of Management Director. The president and chief executive officer (CEO) of the Corporation shall serve as the Management Director of the Corporation, effective as of the date of his or her appointment by the Board as CEO of the Corporation in accordance with these Bylaws, to serve until such time that he or she ceases to hold the position of CEO. No action of the Members of the Corporation shall be required in connection with the appointment of the CEO as the Management Director of the Corporation.

Section 4. Chair and Vice Chair. Annually, the Board shall elect from the Board's membership, by resolution of the Board, a Chair and a Vice Chair. The Chair and Vice Chair shall each be one of the Independent Directors.

Section 5. Vacancies and Removal.

(a) Should any vacancy on the Board arise from the death, resignation, retirement, disqualification, or removal from office of any Director, or from any other cause, such vacancy shall be filled as follows:

(1) For an Independent Director, by the election of a new Independent Director at the next annual election of Directors to fill the remainder, if any, of the term of the departed Independent Director. provided, that the Board by resolution may in its discretion call a special election to fill any such vacancy for the remainder, if any, of the term of the departed Independent Director.

(2) For the Management Director, by the appointment of a new CEO or interim CEO to fill the vacancy.

(3) For an ex officio Director, by the appointment of a new PUCT Chair or Texas Public Counsel by whomever had the right to appoint such Director.

(4) For an Affiliated Director, by the election of a new chair or vice chair, as applicable, by the Member Representative Committee.

(b) A Director may be removed with or without cause at any time by whomever had the right to appoint such Director (for ex officio Directors), or for the elected Independent Directors, by an affirmative vote of sixty percent (60%) of the Members. In addition, the Board may remove any voting Director for cause, upon at least seventy-five percent (75%) affirmative votes of the eligible, remaining voting Directors. The right to elect Directors may not be assigned, sold, pledged or transferred in any manner.

Section 6. Committees of the Board. The Board shall by resolution create and appoint all committees of the Board as the Board deems necessary to perform its responsibilities. All committees of the Board shall have such duties as are prescribed and delegated by the Board. Committees to which any of the authority of the Board to manage the Corporation is delegated must have at least two Directors, and a majority of the members of the committee must be Directors.

ARTICLE V. MEETINGS OF MEMBERS OF THE CORPORATION

Section 1. Annual and Other Meetings of Members.

(a) An annual meeting of the Members to elect Directors and to conduct such other business as may come before the meeting shall be held on or about December 1 of each year or as soon thereafter as is reasonably practicable.

(b) Meetings of Members of the Corporation may be called for any purpose or purposes by resolution of the Board, by the chair of the Board, the CEO or the secretary of the Corporation, or by a number of Members constituting at least ten (10) percent of all Members on the roster of Members maintained by the secretary of the Corporation, which number shall include Members in at least three of the Sectors. Meetings of Members shall be held at the principal office of the Corporation or at such other place fixed by the Board as shall be specified in the notice of meeting. Meetings shall be called upon written notice of the time, date, place, and purposes of the meeting given to all Members on the roster of Members maintained by the secretary of the Corporation not less than ten (10) nor more than sixty (60) days prior to the date of the meeting. Only Members in good standing with the Corporation, as determined by the Board, have the right to vote at any meeting of the Members. Further, if at any point a Member no longer meets the qualifications for the Sector of which it is a member, the Entity may immediately elect to become a member in any Sector for which it does qualify.

Section 2. Quorum and Voting Requirements for Meetings of Members.

(a) At any meeting of the Members of the Corporation, attendance in person or by proxy by a majority of the Members in each of at least two-thirds of the Sectors on the roster of Members maintained by the secretary of the Corporation shall constitute a quorum.

(b) Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws, or applicable law, Members shall vote by Sector and each Sector shall have one vote.

(c) Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws or applicable law, actions by the Members of the Corporation shall be approved upon receipt of the affirmative vote of a majority of the Sectors of the Corporation at a meeting at which a quorum is present, in person or by proxy. Each Sector's vote shall be determined by the affirmative vote of a majority of the members of the Sector voting at the meeting.

Section 3. Waivers of Notice of Meetings of Members and Member Meeting Adjournments. Notice of a meeting of Members need not be given to any Member who signs a waiver of notice, in person or by proxy, whether before, during, or after the meeting. The attendance of any Member at a meeting, in person or by proxy, without protesting prior to the conclusion of the meeting the lack of proper notice of such meeting, shall constitute a waiver of notice of the meeting by such Member. When any meeting of Members is adjourned to another time or place, it shall not be necessary to give notice of the adjourned meeting if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken, and if at the adjourned meeting only such business is transacted as might have been transacted at the original meeting.

Section 4. Action Without a Meeting of Members. Any action, required or permitted to be taken at a meeting of Members, may be taken without a meeting if the proposed action is posted to all Members (via email to an email distribution list to which Members may subscribe and by posting on the Corporation website) and consented to in writing by the minimum number of Members that would be required to approve the action at a meeting of the Members at which all Members were present. The voting in such a circumstance shall be performed in writing, including via email or other electronic means. The Members shall receive written notice of the results within ten (10) days of the action vote, and all written responses of the Members shall be filed with the Corporate records. The results of such voting will be posted on the Corporation's website.

Section 5. Meetings of the Members to be Open. Notice to the public of the dates, places, and times of meetings of the Members, and all non-confidential material provided to the Members, shall be posted on the Corporation's website at approximately the same time that notice is given to the Members. Meetings of the Members shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the meeting may be held in or adjourned to closed session to discuss matters of a confidential nature, including but not limited to compliance and enforcement matters, personnel matters, litigation, or commercially sensitive or critical infrastructure information of the Corporation or any other entity. The results of any action taken without a meeting, as described above, will be posted on the Corporation's website.

ARTICLE VI. MEETINGS OF THE BOARD OF DIRECTORS

Section 1. Regular Meetings of the Board. Regular meetings of the Board shall be held at least quarterly. By resolution adopted at any meeting of the Board, the Board may provide for additional regular meetings that may be held as needed.

Section 2. Special Meetings of the Board. Special meetings of the Board for any purpose or purposes may be called at any time by the chair or by any two Directors. Such meetings may be held upon notice given to all Directors not less than three (3) days prior to the date of the meeting. Such notice shall specify the time, date, place, and purpose or purposes of

the meeting and may be given by telephone, email or other electronic media, or by express delivery.

Section 3. Quorum and Voting Requirements for Meetings of the Board.

The Board consisting of the Initial Directors (“Initial Board”) may conduct only organizational business of the corporation, including but not limited to approving these Bylaws, authorizing the opening of a bank account, appointing officers, approving the Delegation Agreement and reviewing and approving the Corporation’s business plan and budget. The quorum necessary for transaction of business by the Initial Board shall be a majority of the Initial Directors, either in person or by proxy, at meetings at which a quorum is present. Thereafter, unless otherwise expressly provided in the Corporation’s Certificate of Formation, these Bylaws or applicable law, (i) the quorum necessary for the transaction of business at meetings of the Board shall be a majority of the voting Directors in person or by proxy and at least three Independent Directors, and (ii) actions by the Board shall be deemed approved upon receipt of the affirmative vote of a majority of the Directors present and voting in person or by proxy at a meeting at which a quorum is present but in no case less than four votes.

Section 4. Meetings of the Board to be Open.

Notice to the public of the dates, places, and times of meetings of the Board, and all non-confidential material provided to the Board, shall be posted on the Corporation’s website at approximately the same time that notice or such material is given to the Directors and at least ten (10) business days prior to the scheduled meeting; provided however that the Board may meet on urgent matters on such shorter notice, not less than two (2) hours, as the person(s) calling such meeting may deem necessary or appropriate for urgent matters (emergency conditions threatening health or safety or a reasonably unforeseen situation). Meetings of the Board shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the Board may meet in or adjourn to closed session to discuss matters of a confidential nature, including but not limited to compliance and enforcement matters, personnel matters, litigation, or commercially sensitive or critical infrastructure information of the Corporation or any other entity. Any or all of the Directors or members of a Board committee, may participate in a meeting of the Board, or a meeting of a committee, in person or by proxy, by means of any communications system by which all persons participating in the meeting are able to hear each other.

Section 5. Waivers of Notice of Board Meetings and Board Meeting Adjournments.

Notice of a board meeting need not be given to any Director who signs, or sends an email confirming a waiver of notice, in person or by proxy, whether before, during, or after the meeting, or who attends the meeting without protesting, prior to the conclusion of the meeting, the lack of notice of such meeting. Notice of an adjourned board meeting need not be given if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken and if the period of adjournment does not exceed ten (10) days.

Section 6. Action Without a Meeting.

Any action required or permitted to be taken at a meeting of the Board, or of any committee thereof, may be taken by the Board or by the committee without a meeting if the action is consented to in writing by the number of Directors or members of the committee, as the case may be, entitled to vote on the action that would be required to approve the action at a meeting of the Board or committee with all members of the Board or committee present. The call for action without a meeting of the Board may be initiated by the chair or by any two Directors. Notice of the proposed call for action without a meeting, and all non-confidential material provided to the Board in connection with the call for action without a meeting, shall be posted on the Corporation’s website and sent via email to an email distribution list to which Members and the public may subscribe at

approximately the same time notice of the call for action without a meeting or such material is provided to the Board. The call for action without a meeting of a committee of the Board may be initiated by the chair of the committee or by any two members of the committee. The Directors or members of the committee shall receive written notice of the results of such action within seven (7) days of the action vote. All written responses of the Directors shall be filed with the minutes of the Corporation, and all written responses of members of a committee shall be filed with the minutes of such committee.

ARTICLE VII. OFFICERS

Section 1. Selection of Officers. At a meeting held in accordance with Article VI of these Bylaws, the Board shall elect a CEO and shall approve a corporate secretary and such other officers of the Corporation (collectively, the "Officers") as it shall deem necessary. The CEO shall be nominated and elected by the Board. All of the other Officers shall be selected by the CEO and approved by the Board, and the removal of all Officers shall be confirmed by the Board. The Management Director shall not participate in votes electing, approving, or removing Officers. The duties and authority of the Officers shall be determined from time to time by the Board. Subject to any such determination, the Officers shall have the following duties and authority:

Section 2. Chief Executive Officer ("CEO"). The CEO shall be the chief executive officer of the Corporation. He or she shall be responsible for the day-to-day ongoing activities of the Corporation and shall have such other duties as may be delegated or assigned to him or her by the chair. The CEO may enter into and execute in the name of the Corporation contracts or other instruments not in the regular course of business that are authorized, either generally or specifically, by the Board.

Section 3. Corporate Secretary. The secretary shall maintain the roster of Members of the Corporation, shall cause notices of all meetings to be served as prescribed in these Bylaws, shall keep or cause to be kept the minutes of all meetings of the Members and the Board, and shall have charge of the seal of the Corporation. The secretary shall perform such other duties and possess such other powers as are incident to his or her office or as shall be assigned to him or her by the CEO

Section 4. Chief Financial Officer. If hired and approved, a chief financial officer shall have custody of the funds and securities of the Corporation, shall keep or cause to be kept regular books of account for the Corporation and shall have the duties normally assigned to a treasurer of a corporation. The chief financial officer shall perform such other duties and possess such other powers as are incident to his or her office or as shall be assigned to him or her by the CEO.

Section 5. Vice Presidents. The CEO may select such other Corporate officers as he or she deems appropriate, subject to Board approval. Any such officer shall perform such other duties and possess such powers as are incident to his or her office or as shall be assigned to him or her by the CEO.

ARTICLE VIII. RELIABILITY STANDARDS COMMITTEE

Section 1. Requirement. The Corporation shall have a Reliability Standards Committee, which shall operate in accordance with the Standards Development Process as set

forth in Exhibit C to the Delegation Agreement with NERC and approved by FERC. The chair and vice chair of the Standards Committee must be accepted or approved by the Board, in accordance with said Exhibit C.

ARTICLE IX. MEMBER REPRESENTATIVES COMMITTEE

Section 1. Purpose of Member Representatives Committee. The Corporation shall have a "Member Representatives Committee" that shall provide advice and recommendations to the Board with respect to: annual budgets, business plans and funding mechanisms of the Corporation; other matters relevant to reliability of the ERCOT Bulk Power System; and other matters pertinent to the purpose and operations of the Corporation. The Member Representatives Committee shall provide its advice and recommendation to the Board through its chair and the vice chair, who also serve as the Affiliated Directors on the Board. The Member Representatives Committee may create subcommittees, task forces, or working groups ("subcommittees") as it deems appropriate to study or discuss selected technical or compliance matters and to make recommendations to the Board as requested or required by the Board or as deemed appropriate to its purpose by the Member Representatives Committee. Because it is elected by the Members of the Corporation and not appointed by the Board, the Member Representatives Committee shall not be a standing committee of the Board of Directors of the Corporation, but is authorized to provide advice and recommendations directly to the Board, through its elected chair and vice chair.

Section 2. Composition of the Member Representatives Committee. The Member Representatives Committee shall consist of two representatives from each Sector to serve annually and will annually select a chair and vice chair for the Member Representatives Committee. The representatives of each Sector shall be officers, employees, or directors of Members in that Sector; provided however, except for a Sector that has only one Member, only one officer, employee, or director of a Member in a Sector may be a representative from that Sector. The Board may by resolution create additional non-voting positions on the Member Representatives Committee on its own initiative or at the written request of any group of Members of the Corporation that believes its interests are not adequately represented on the Member Representatives Committee. There shall be no limit on the number of terms that an officer, employee, or director of a Member, may serve on the Member Representatives Committee.

Section 3. Election of Representatives of the Member Representatives Committee. Unless a Sector adopts an alternative election procedure, the annual election of representatives from each Sector to the Member Representatives Committee, and any election to fill a vacancy, shall be conducted in accordance with the following process, which shall be administered by the officers of the Corporation.

(a) During the period beginning no more than ninety (90) days and ending no less than fifteen (15) days prior to an annual meeting, or beginning no more than forty-five (45) days and ending no less than fifteen (15) days prior to a special meeting called in whole or in part to hold an election to fill a vacancy, nominations may be submitted for candidates for election to the Member Representatives Committee. A nominee for election as a Sector representative must be an officer, employee, or director of a Member in that Sector. No more than one nominee who is an officer, employee, or director of a Member may stand for election in any single Sector; if more than one officer, employee, or director of a Member is nominated for election from a Sector, the Member shall designate which such nominee shall stand for election.

The election of representatives shall be conducted over a period of ten (10) days using an electronic process approved by the secretary of the Corporation.

(b) Each Member in a Sector shall have one vote for each Representative to be elected from the Sector in that election and may cast no more than one vote for any nominee. The nominee receiving the highest number of votes in each Sector shall be elected to one Representative position to be filled from that Sector and the nominee receiving the second highest number of votes shall be elected as the second Representative position for that Sector. To be elected on the first ballot, a nominee must receive a number of votes equal to a simple majority of the Members in the Sector casting votes in the election. If no nominee in a Sector receives a simple majority of votes cast in the first ballot, a second ballot shall be conducted which shall be limited to the number of candidates receiving the three (3) highest vote totals on the first ballot. The nominees receiving the two highest totals of votes on the second ballot shall be elected to the Representative positions for the Sector.

(c) A Sector may adopt an alternative procedure to the foregoing to nominate and elect its Representatives to the Member Representatives Committee if the alternative procedure is approved by vote of at least two-thirds of the Members in the Sector, provided, however that any alternative procedure may be reviewed and disapproved by the Board.

(d) A Sector may elect an Alternate to serve in place and at the convenience of the Sector's Member Representatives Committee Representative(s) in the event a Member Representatives Committee Representative cannot attend a Member Representatives Committee meeting.

Section 4. Chair and Vice Chair of the Member Representatives Committee. After the annual selection of its Representatives, the Member Representatives Committee shall select a chair and vice chair from among its voting Representatives by majority vote to serve during the upcoming year and be the Affiliated Directors on the Board. The selected chair and vice chair may not be representatives of the same Sector and may not concurrently serve on the Board of ERCOT ISO. The Board shall be notified of the selection of the chair and vice chair, but the selection will not be subject to approval of the Board. The chair is responsible for ensuring that minutes of the meetings are properly maintained and made available to the public, but the chair may delegate this responsibility to the vice chair or to another Representative of the Member Representatives Committee who may be designated as secretary of the Member Representatives Committee.

Section 5. Vacancies on the Member Representatives Committee. In the event that any Representative of the Member Representatives Committee ceases to serve as a Representative of the Member Representatives Committee as a result of his or her death, resignation, retirement, disqualification, removal, or other cause, the Members in the Sector of which such Representative was a representative shall elect, as soon thereafter as reasonably practicable, and in accordance with the procedures in this Article IX, a new Representative to replace the Representative of the Member Representatives Committee who ceased to serve. For those Sectors that have elected an Alternate, the Alternate will fill a vacancy left by the Sector's Member Representative and a new Alternate will be elected by the Sector.

Section 6. Meetings of the Member Representatives Committee. The Member Representatives Committee will plan and hold quarterly meetings, at a time and place determined by the Member Representatives Committee, normally shortly before the regular meetings of the Board, and posted on the Corporation's website. Except for closed session meetings specifically allowed by this Section, all meetings shall be open to the public. The

Member Representatives Committee shall adopt such procedural rules as are needed to operate in accordance with its purpose and will include procedures for coordinating with employees of the Corporation who provide administrative support, as set forth in subsection 6(c), below.

(a) Notice to the public of the dates, places, and times of meetings of the Member Representatives Committee and any subcommittees thereof, and all non-confidential material provided to the Representatives on the Member Representatives Committee or any subcommittees thereof, shall be posted on the Corporation's website at approximately the same time that notice or such material is given to the Member Representatives Committee, which will normally be at least one week prior to any meeting. Meetings of the Member Representatives Committee shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the Member Representatives Committee may meet in or adjourn to closed session to discuss matters of a confidential nature, including but not limited to confidential planning information, critical infrastructure information, or commercially sensitive information of the Corporation or any other entity. Any or all Representatives of, and any other participants in, the Member Representatives Committee may participate in a meeting of the Member Representatives Committee by means of a communications system by which all persons participating in the meeting are able to hear each other.

(b) Special meetings may be called for any purpose or purposes by the chair of the Member Representatives Committee or by any three (3) Representatives of the Member Representatives Committee, which number shall include representatives from at least three Sectors, and require notice given to all Representatives of the Member Representatives Committee not less than seven (7) days prior to the date of the meeting. Such notice shall specify the time, date, place, and purpose or purposes of the meeting and may be given by telephone, facsimile, or other electronic media, or by express delivery.

(c) The Member Representatives Committee shall effectively coordinate with the employees of the Corporation and adopt procedural rules for the voting for Representatives, scheduling of meetings, and public posting of required meeting information and minutes. The chair or vice chair of the Member Representatives Committee shall provide all meeting agendas, material, minutes and other information required or desired to be posted on the Corporation's website to appropriate Corporation employees at least one business day prior to the time such information should be posted.

Section 7. Waivers of Notice of Meetings of the Member Representative Committee and Meeting Adjournments. Notice of a meeting of the Member Representatives Committee need not be given to any member of the Member Representatives Committee who signs a waiver of notice, in person or by proxy, whether before or after the meeting, or who attends the meeting without protesting, prior to the conclusion of the meeting, the lack of notice of such meeting. Notice of an adjourned meeting of the Member Representatives Committee need not be given if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken and if the period of adjournment does not exceed ten (10) days.

Section 8. Quorums and Voting for Meetings of the Member Representatives Committee. The quorum necessary for the transaction of business at meetings of the Member Representatives Committee shall be the presence, in person or by proxy, of two-thirds of the voting Representatives on the Member Representatives Committee entitled to attend. Each voting member of the Member Representatives Committee shall have one (1) vote on any matter coming before the Member Representatives Committee that requires

a vote. Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws or applicable law, actions by members of the Member Representatives Committee shall be approved upon receipt of the affirmative vote of a majority of the voting members of the Member Representatives Committee present and voting at any meeting at which a quorum is present.

Section 9. Alternates and Proxies. Member Representatives may designate another Member Representative or an employee of the Member Representative's organization as a proxy if both the Member Representative and the Sector Alternate are unable to attend a Member Representatives Committee meeting. A member of the Member Representatives Committee may give a proxy only to a person who is an officer, employee, or director of a Member, registered in the same Sector.

Section 10. Other Procedures of the Member Representatives Committee. The chair of the Board shall preside at the initial meeting of the Member Representatives Committee, until a chair is selected in accordance with Article IX, Section 4. Except as to any matter as to which the procedure to be followed by the Member Representatives Committee is expressly set forth in these Bylaws, the Member Representatives Committee may adopt such additional procedures, not inconsistent with these Bylaws, as it deems appropriate, subject to review and disapproval by the Board.

ARTICLE X. OTHER COMMITTEES AND SUBCOMMITTEES

Section 1. Committees of the Corporation. In addition to those committees specified by these Bylaws, to which the Board shall appoint members in accordance with the requirements of these Bylaws, the Board may by resolution create standing committees of the Corporation; and may in addition by resolution appoint the members of such committees, subcommittees, task forces and Sector-specific forums as the Board deems necessary or desirable to carry out the purposes of the Corporation. The Board shall appoint members to such standing committees and other committees of the Corporation that are representative of Members, other interested parties, and the public, that provide for balanced decision-making and that include persons with sufficient technical knowledge and experience. All committees, subcommittees, task forces and Sector-specific forums shall have such scope and duties, not inconsistent with law, as are specified in these Bylaws and the Rules of Procedure of the Corporation or otherwise determined by the Board.

ARTICLE XI. BUDGETS AND FUNDING

Section 1. Compensation of the Board and Member Representatives Committee. The Board shall have the right to fix from time to time, by resolution adopted by a majority of the Directors including a majority of the Independent Directors then serving as Directors, the amount of the annual retainer fee or other compensation to be paid to the Independent Directors for their services to the Corporation, including any fees to be paid for each meeting of the Board or any Board committee attended by an Independent Director. The Board will evaluate the fee or other compensation at least every three years, to ensure that Director compensation is appropriate. No compensation shall be paid to any Management Director, Affiliated Director, or *ex officio* Director for his or her services on the Board, other than the compensation paid to the Management Director for services as CEO of the Corporation. No compensation shall be paid by the Corporation to any member of the Member Representatives

Committee for his or her services on the Member Representatives Committee. Independent Directors shall be entitled to be reimbursed their reasonable out-of-pocket expenditures for attending meetings and conducting the business of the Corporation.

Section 2. Preparation and Adoption of Annual Budget, Business Plan, and Funding Mechanism. The Board shall require the CEO to prepare for Board approval an annual business plan and budget for the administrative and other expenses of the Corporation, including the expenditures for the fiscal year for any material special projects undertaken by the Corporation and reasonable and proper reserves and provisions for contingencies, in accordance with all NERC and Commission requirements. The annual business plan, budget and funding mechanism of the Corporation shall be for a fiscal year commencing on January 1 and ending on December 31. Each annual business plan, budget, and funding mechanism shall be approved by the Board at a regular meeting or a special meeting of the Board duly called for that purpose. The Board shall approve each annual business plan, budget, and funding mechanism at a time that allows for timely submittal of the approved annual business plan, budget, and funding mechanism to the applicable regulatory authorities.

Section 3. Comments During Preparation of Annual Business Plan and Budget. In preparing the annual business plan and budget, the Board shall require that the CEO post a draft business plan and budget for review and comment by the Members of the Corporation, the Member Representatives Committee, and the standing committees of the Corporation for at least ten (10) days prior to the date of the meeting of the Board at which the annual business plan and budget is to be adopted.

Section 4. Modified or Supplemental Budgets. During the course of a fiscal year, the Board may modify any approved budget or develop and approve a supplemental budget if determined by the Board to be necessary due to such factors as a shortfall in revenues of the Corporation from projected levels, incurred or anticipated expenditures, duties, or new projects not provided for in the annual budget, or such other factors as in the judgment of the Board warrant modification of the budget for the fiscal year or development of a supplemental budget. In preparing a modified or supplemental budget, the Board shall follow the provisions of this Article XI, Section 4 to the extent practicable in the judgment of the Board in light of the urgency of the circumstances necessitating preparation and approval of the modified or supplemental budget. Each modified or supplemental budget shall be approved by the Board at a regular meeting or a special meeting of the Board duly called for that purpose.

Section 5. Submission of Annual Business Plans and Budgets to the Regulatory Authorities. Each annual budget, annual business plan, and annual, modified, or supplemental budget approved by the Board shall be submitted by the Corporation to the ERO and any applicable regulatory authorities for approval in accordance with its regulations, and shall not be effective until approved by the applicable regulatory authorities. If ordered to modify or remand an annual budget, business plan, or annual, modified, or supplemental funding mechanism, the Board shall promptly following such order adopt such modifications to the business plan, budget, or funding mechanism as are required or directed by the order of the ERO and any applicable regulatory authority.

ARTICLE XII. AMENDMENTS TO THE BYLAWS

Section 1. Amendments to the Bylaws. These Bylaws may be altered, amended, or repealed by action of the Membership, as set forth below. Any alteration,

amendment, repeal or adoption of Bylaws shall be subject to any applicable requirements for filing with or approval by the ERO or any other applicable regulatory authority. These Bylaws may be altered, amended, or repealed as follows:

(a) Any Director or Member suggesting amendments to these Bylaws must submit a proposal of the amendment, including any necessary supporting documents, to the CEO.

(b) The CEO shall place the proposal on the agenda for a Board meeting in the time and manner prescribed by the Board and within 95 days of the request.

(c) If the proposal is approved by an act of the Board as set forth in Article VI, Section 3, the Board shall place the proposal on the agenda of the next Annual Meeting of the Corporate Members unless the Board in its discretion calls a Special Meeting of the Corporate Members to vote on the proposal or determines to seek Membership approval without a meeting as provided in Article V, Section 4.

(d) If the proposal is not approved by the Board, the Members of the Corporation may call a meeting, pursuant to Article V, Section 1(b), for the purpose of voting on a proposal not approved by the Board. Any such proposal must be approved by a vote of five of the six Sectors at a meeting of Members called for that purpose or by written consent of five of the Sectors, where the number of votes for and against the proposed alteration, amendment, repeal or adoption of Bylaws shall be determined in accordance with Article V, Section 2.

ARTICLE XIII. INDEMNIFICATION; PROCEDURE; DISSOLUTION

Section 1. Indemnification. The Corporation shall indemnify each person who at any time shall serve, or shall have served, as an officer, Director, employee, or other corporate agent of the Corporation, is or was serving at its request as a director, officer, partner, venturer, proprietor, employee, agent or similar functionary of another foreign or domestic corporation, partnership, joint venture, sole proprietorship, trust, employee benefit plan or other enterprise ("Indemnified Parties"), to the full extent from time to time permitted by the Texas Business Organizations Code and other applicable law. Such right of indemnification shall inure to the benefit of the legal representative of any such Indemnified Party. The foregoing indemnification shall be in addition to, and not in restriction or limitation of, any privilege or power that the Corporation may have with respect to the indemnification or reimbursement of its Indemnified Parties. The Corporation shall also pay or advance reasonable expenses incurred by an Indemnified Party in connection with a proceeding in advance of the final disposition of the proceeding upon receipt of a written affirmation by the Indemnified Party of a good faith belief that the standard of conduct necessary for indemnification under this Article XIII and the Texas Business Organizations Code has been met and a written undertaking by or on behalf of the officer, Director, or other corporate agent to repay the amount if it shall be ultimately determined that the Indemnified Party was not entitled to be indemnified by the Corporation.

Section 2. Parliamentary Rules. In the absence of and to the extent not inconsistent with specific provisions in these Bylaws, meetings or other actions pursuant to these Bylaws shall be governed by procedures that the Board may, from time to time, establish by resolution.

Section 3. Dissolution. Upon dissolution of the Corporation, in accordance with the Certificate of Formation, the remaining assets of the Corporation after payment of debts

shall be distributed in the manner determined by the Board, provided that, (i) no part of the assets shall be distributed to any Director of the Corporation, and (ii) the distribution of assets shall be consistent with the requirements of Section 501(c)(3) of the United States Internal Revenue Code of 1954.

ARTICLE XIV. CONFLICTS OF INTEREST

Section 1. Conflicts of Interest.

(a) Each Director shall have an affirmative duty to disclose to the Board or committee (as the case may be) any actual or potential conflicts of interest of the Director that arise during his or her tenure as a Director where, and to the extent that, such conflicts or potential conflicts directly or indirectly affect any matter that comes before the Board. A Director with a direct or potentially conflicting interest in a matter shall recuse himself from deliberations and actions on the matter in which the conflict arises and shall abstain on any vote on the matter and not otherwise participate in a decision on the matter. Any disclosure of a potential conflict of interest by a Director shall be noted in the minutes of the Board meeting at which the direct interest is disclosed. Mere attendance at the meeting, without participating in discussion of the issue raising the potential conflict, shall not constitute participation.

(b) The Corporation may not make any loan to a Director, committee member or officer of the Corporation. A Member, Director, officer, or committee member of the Corporation may not lend money to, or otherwise transact business with, the Corporation except as otherwise provided by these Bylaws, the Certificate of Formation, and applicable law. A related party transacting business with the Corporation has the same rights and obligations relating to those matters as other persons transacting business with the Corporation, provided the related party nature of the transaction is known to the Board. The Corporation may not borrow money from, or otherwise transact business with, a Member, Director, officer, or committee member of the Corporation unless the transaction is described fully in a legally binding instrument, is in the Corporation's best interests, and is on terms no less favorable to the Corporation than could be obtained in an arms-length transaction. The Corporation may not borrow money from, or otherwise transact business with, a Member, Director, officer, or committee member of the Corporation without full disclosure of all relevant facts and without the Board's approval, not including the vote of any person having a personal interest in the transaction.

Section 2. Prohibited Acts. No Member, Director, officer, or committee member of the Corporation may do any of the below-listed prohibited acts. Engaging in these prohibited acts may lead to sanction, suspension, expulsion or termination after a hearing as described in these Bylaws. The prohibited acts include the following:

- (a) Do any act in violation of these Bylaws.
- (b) Do any act in violation of a binding obligation of the Corporation except with the Board's prior approval.
- (c) Do any act with the intention of harming the Corporation or any of its operations.
- (d) Receive an improper personal benefit from the operation of the Corporation.

(e) Use the Corporation's assets, directly or indirectly, for any purpose other than carrying on the Corporation's business.

(f) Wrongfully transfer or dispose of Corporation property, including intangible property such as goodwill.

(g) Use the Corporation's name (or any substantially similar name) or any trademark or trade name adopted by the Corporation, except on behalf of Corporation in the ordinary course of its business or as a reference to the Corporation or its region.

(h) Disclose any of Corporation's or Members' business practices, trade secrets, or any other confidential or proprietary information not generally known to the business community to any person not authorized to receive it.

Section 3. Loans and Guarantees. Neither participation in the activities of the Corporation nor any provision of these Bylaws or of the Certificate of Formation shall be deemed to constitute a pledge or loan of the credit of any Member for the benefit of the Corporation or a guarantee by any Member of any obligation of the Corporation.

ARTICLE XV. BOOKS AND RECORDS; AUDIT; FISCAL YEAR

Section 1. Access to Books and Records. All Members of the Corporation will have access to the books and records of the Corporation, including financial statements and budgets; however, the Board shall establish procedures by which a Member, upon written demand stating the purpose of the demand may examine and copy the books and records of the Corporation. If necessary to protect the confidential information of the Corporation, a Member requesting examination of any of the Corporation's non-public books and records will be required to sign a confidentiality and non-disclosure agreement before viewing such information. The procedures shall include policies that provide reasonable protection against the unnecessary disclosure of information related to individual employees, including their compensation.

Section 2. Audit. At least annually, an audit of the financial statements of the Corporation shall be performed by the Auditor approved by the Board. The Auditor's opinion and the audited financial statements will be made available to all Members as described in Article XV, Section 1.

Section 3. Fiscal Year. The fiscal year of the Corporation shall be from January 1 through the following December 31, unless otherwise established by resolution of the Board.

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth the Regional Entity’s standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA . No regional reliability standard shall be effective within the Texas RE area unless filed by NERC with FERC and approved by FERC.

COMMON ATTRIBUTE 2

Texas RE regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A Texas RE reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

Texas RE regional reliability standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the Texas RE area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of Texas RE, or group within Texas RE, shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the Texas RE area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

Reliability Standards Committee (RSC) — The Texas RE RSC manages the standards development process. The RSC will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The RSC will advise the Texas RE board on standards presented for adoption.

COMMON ATTRIBUTE 6

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with Texas RE as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool. The representation model of the registered ballot body is provided in Appendix A.

COMMON ATTRIBUTE 7

Texas RE will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the Texas RE and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within no greater than 60 days of receipt of a completed standard request, the RSC shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The RSC may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The RSC may, at its

discretion, expand or narrow the scope of the standard request under consideration. The RSC shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.

- Reject the standard request. If the RSC rejects a standard request, a written explanation for rejection will be delivered to the requester within no greater than 30 days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the RSC. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the RSC.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the RSC for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the Texas RE website within no greater than 30 days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the RSC. The RSC shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the RSC, the standards process manager shall facilitate the posting of the draft standard on the Texas RE website, along with a draft implementation plan and supporting documents, for a no less than a 30-day comment period. The standards process manager shall provide notice to Texas RE stakeholders and other potentially interested entities, both within and outside of the Texas RE area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were

rejected, in part or whole. The summary, along with a response to each comment received will be posted on the Texas RE website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the RSC concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the Texas RE registered ballot body. The vote shall commence no sooner than 15 days and no later than 30 days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

The Texas RE registered ballot body shall be able to vote on the proposed standard during a period of not less than 10 days.

COMMON ATTRIBUTE 18

Each standard action requires formation of a ballot pool of interested members of the registered ballot body.

COMMON ATTRIBUTE 19

Approval of the proposed regional reliability standard shall require a two thirds majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean four (4) of the six (6) Sectors of the members of the registered ballot body submitted a ballot.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC.

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the Texas RE bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in Texas RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the Texas RE members and others.

COMMON ATTRIBUTE 23

- **Balanced** - The Texas RE standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire Texas RE area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
----------------------	---

COMMON ATTRIBUTE 33

Measure(s)	<p>Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.</p>
-------------------	---

COMMON ATTRIBUTE 34

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none"> • The specific data or information that is required to measure performance or outcomes. • The entity that is responsible for providing the data or information for measuring performance or outcomes. • The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes. • The entity that is responsible for evaluating data or information to assess performance or outcomes.
--------------------------------------	--

	<ul style="list-style-type: none">• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.

I. Introduction

This document defines the fair and open process for adoption, approval, revision, and reaffirmation, of a Regional Reliability Standard (Regional Standard) for the ERCOT Region by Texas Reliability Entity, Inc. (Texas RE). Regional Standards provide for the reliable regional and sub-regional planning and operation of the Bulk-Power System (BPS), consistent with Good Utility Practice within a Regional Entity's (RE's) geographical footprint.

The process for obtaining a Texas RE Regional Variance to a NERC Reliability Standard shall be the same as the process for obtaining a Regional Standard. Throughout this document, where the term Regional Standard is used, the same process will be applied to a Regional Variance.

Due process is the key to ensuring that Regional Standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in a Regional Standard's development.

Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the BPS has a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

Proposed Regional Standards shall be subject to approval by North American Electric Reliability Corporation (NERC), as the electric reliability organization, and by the Federal Energy Regulatory Commission (FERC) before becoming mandatory and enforceable under Section 215 of the FPA. No Regional Standard shall be effective within the Texas RE area unless filed by NERC with FERC and approved by FERC.

Regional Standards shall provide for as much uniformity as possible with reliability standards across the interconnected BPS of the North American continent. A Regional Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the BPS. A Regional Standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

Regional Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable BPS owners, operators, and users within the Texas RE area, regardless of membership in the region.

II. Background

The Texas RE may develop, through its own processes, separate Regional Standards that go beyond, add detail to, or implement NERC Reliability Standards; obtain a Regional Variance; or otherwise address issues that are not addressed in NERC Reliability Standards.

NERC Reliability Standards and Regional Standards are all to be included within the Texas RE's Compliance Program.

Regional Standards are developed consistent with the following philosophies according to the process defined within this document:

- Developed in a fair and open process that provides an opportunity for all interested parties to participate;
- Does not have an adverse impact on commerce that is not necessary for reliability;
- Provides a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and does not have a significant adverse impact on reliability; and
- Based on a justifiable difference between regions or between sub-regions within the Regional geographic area.

The NERC Board of Trustees has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. As these principles are fundamental to reliability and the market interface, these principles provide a constant beacon to guide the development of reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards. Persons and committees that are responsible for the Texas RE Standards Process shall consider these NERC Principles in the execution of those duties.

NERC Reliability Standards are based on certain reliability principles that define the foundation of reliability for the North American BPS. Each Regional Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Regional Standard serves a purpose in support of reliability of the North American BPS. Each Regional Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Regional Standard undermines reliability through an unintended consequence.

While NERC Reliability Standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Regional Standards shall be consistent with the market interface principles. Consideration of the market interface principles is intended to ensure that Regional Standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

III. Regional Standards Definition

A NERC Reliability Standard defines certain obligations or requirements of entities that operate, plan, and use the BPS of North America. The obligations or requirements must be material to reliability and measurable. Each obligation and requirement shall support one or more of the stated reliability principles and shall be consistent with all of the stated reliability and market interface principles.

Texas RE may develop, through its own processes: (1) Regional Standards that go beyond, add detail to, or implement NERC Reliability Standards or that cover matters not addressed in NERC Reliability Standards, and (2) Regional Variances that allow an alternative approach to meeting the same reliability objective as the NERC Reliability Standard and are typically necessitated by physical differences.

IV. Roles in the Texas RE Regional Standards Development Process

Originator – Any person, acting as a representative of an organization that is directly and materially affected by the operation of the ERCOT region BPS is allowed to request that a Regional Standard be developed or an existing Regional Standard modified, or deleted, by creating a Regional Standards Authorization Request (SAR) as described in Appendix B to this document.

Texas RE Board of Directors (Texas RE BOD) – The Texas RE BOD shall act on any proposed Regional Standard that has gone through the process. Once the Regional Standard is approved by FERC, compliance with the Regional Standard will be enforced consistent with the terms of the Regional Standard.

Registered Ballot Body (RBB) – The Registered Ballot Body is comprised of all entities or individuals (whether or not they are Texas RE corporate members) that are ERCOT region BPS owners, operators, and users and qualify for one of the below-listed Texas RE Standards Development Sectors, and are registered with the Texas RE as potential ballot participants.

Registered Ballot Pool (RBP) – Each Regional Standard has its own ballot pool formed of interested members of the Registered Ballot Body. Through the voting process, the RBP will ensure that the need for and technical merits of a proposed Regional Standard are appropriately considered. The RBP will also ensure that appropriate consideration of views and objections are received during the development process.

Reliability Standards Committee (RSC) – A balanced committee comprised of entities representing the six Texas RE Standard Development Sectors. The RSC will consist of two representatives from each Sector (except that Sectors with only one member may only have one representative), as elected by the Sector, and the RSC requires a quorum of at least one representative from at least two-thirds (2/3) of the Sectors to take action. The RSC in coordination with the Reliability Standards Manager will review, participate in, and manage the Texas RE Regional Standards Development Process, and develop Texas RE Regional Standards on a schedule as directed by NERC and as needed per the reliability related needs of the ERCOT Region. Where necessary or appropriate, the RSC will coordinate the development of Texas RE Regional Standards and Regional Variances with the development of national standards appearing in the NERC work plan, and the RSC will coordinate and submit comments as a group, to the extent feasible. The RSC will also review FERC Orders pertaining to standards and standards development activities to ensure directives are addressed in regional standard development.

Reliability Standards Manager (RSM) – A Texas RE employee assigned the task of ensuring that the development, revision or deletion of Regional Standards is in accordance with this document. The RSM works with the RSC to ensure the integrity of the process and consistency of quality and completeness of the Regional Standards. The RSM manages the Regional Standards Development Process, and coordinates and facilitates all actions contained in all steps in the process including the management of the Standard Drafting Teams and the facilitation of RSC meetings.

Reliability Standards Staff – Employees of the Texas RE that work with or for the Reliability Standards Manager.

Standard Drafting Team (SDT) – A team of technical experts, assigned by the RSC, and typically includes a Texas RE employee and the Originator, assigned the task of developing a proposed Regional Standard based upon an approved SAR using the Regional Standard Development Process contained in this document.

Texas RE Standards Development Sectors (Sectors) – The six (6) Texas RE Standards Development Sectors are defined as follows:

- **System Coordination and Planning:** An entity that is registered with NERC as a Reliability Coordinator (RC), Balancing Authority (BA), Planning Authority (PA), Resource Planner (RP), or Interchange Authority (IA)
- **Transmission:** An entity that is registered with NERC as a Transmission Owner (TO), Transmission Planner (TP), Transmission Service Provider (TSP), and/or Transmission Operator (TOP).
- **Cooperative or Utility:** An entity that is (a) a corporation organized under Chapter 161 of the Texas Utilities Code or a predecessor statute to Chapter 161 and operating under that chapter; or (b) a corporation organized as an electric cooperative in a state other than Texas that has obtained a certificate of authority to conduct affairs in the State of Texas; or (c) a cooperative association organized under Tex. Rev. Civ. Stat. 1396-50.01 or a predecessor to that statute and operating under that statute.
- **Municipal Utility:** A municipally owned utility as defined in PURA §11.003 and is registered with NERC for at least one registered function.
- **Generation:** An entity that is registered with NERC as a Generator Owner (GO) or Generator Operator (GOP).
- **Load-Serving and Marketing:** An entity that is registered with NERC as a Load Serving Entity (LSE), a Purchasing-Selling Entity, or any newly defined NERC Function for demand response, and any entity with a direct and material interest in the ERCOT region BPS that is not eligible for membership in any other Sector.

V. Texas RE Regional Standards Development Process

A. Assumptions and Prerequisites

The process for developing and approving Standards is generally based on the procedures of the American National Standards Institute (ANSI) and other standards-setting organizations in the United States and Canada. The Regional Standards development process has the following characteristics:

- **Due process** – Any person representing an organization with a direct and material interest has a right to participate by:
 - a) Expressing an opinion and its basis,
 - b) Having that position considered, and
 - c) Appealing any negative decision
- **Openness** – Participation is open to all organizations that are directly and materially affected by ERCOT region's BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in Texas RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such

requirements. Meetings of SDTs are open to all interested parties. All proposed SARs and Regional Standards are posted for comment on the Texas RE Website.

- **Balance** – The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any single interest category.

B. Regional Standards Development Process Steps

Note: The term “days” below refers to calendar days.

Texas RE will coordinate with NERC such that the acknowledgement of receipt of a Regional Standard request identified in Step 1, notice of comment posting period identified in Step 4, and notice for vote identified in Step 5 below are concurrently posted on both the Texas RE and NERC websites.

Step 1 – Development of a Standards Authorization Request (SAR) to Develop, Revise, or Delete a Regional Standard

Any entity (Originator) that is directly or materially impacted by the operation of the BPS (including all users, owners, and operators of the BPS and regardless of whether the entity is a Texas RE member) within the geographical footprint of Texas RE may request, via a submittal of a Standard Authorization Request (SAR) form, the development, modification, or deletion of a Regional Standard or Regional Variance.

Any such request shall be submitted to the Texas RE RSM, or his or her designee in electronic format. The SAR form may be downloaded from the Texas RE Website.

An acceptable SAR contains a description of the proposed Regional Standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed Regional Standard.

The RSM will verify that the submitted SAR form has been adequately completed. The RSM may offer the Originator suggestions regarding changes and/or improvements to enhance clarity of the Originator’s intent and objectives. The Originator is free to accept or reject these suggestions. Within 15 days the RSM will electronically acknowledge receipt of the SAR.

The RSM will post all adequately completed SARs on the Texas RE Website for public viewing and comment. This initial SAR comment period shall be 15 days. After this initial comment period, the RSM will then forward the SAR to the RSC for its consideration at the next regularly scheduled meeting of the RSC. Within 60 days of receipt of an adequately completed SAR that has been through the initial 15-day comment period, the RSC shall determine the disposition of the SAR and, if the RSC deems necessary, direct the RSM to post the revised SAR again for review and comment for another 15-day period.

The disposition decision process shall use the normal “business rules and procedures” of the RSC then in effect. The RSC may vote to take one of the following actions:

- Accept the SAR as a candidate for development of a new Regional Standard, revision of an existing Regional Standard, or deletion of an existing Regional Standard. The RSC may, in its sole discretion, expand or narrow the scope of the SAR under consideration.

The RSC shall prioritize the development of SARs as may be required based on the number of SARs under development at any time.

- Reject the SAR. If the RSC rejects a SAR, a written explanation for rejection will be delivered to the Originator within 30 days of the decision, and the Texas RE BOD will also be notified with such explanation. The Texas RE BOD may, at its discretion, direct the RSC to reconsider any SAR that has been rejected.
- Remand the SAR back to the Originator for additional work. The RSM will make reasonable efforts to assist the Originator in addressing the deficiencies identified by the RSC. The Originator may then resubmit the modified SAR using the process above. The Originator may choose to withdraw the SAR from further consideration prior to re-submittal to the RSC.

Any SAR that is accepted by the RSC for development of a Regional Standard (or modification or deletion of an existing Regional Standard) shall be posted for public viewing on the Texas RE Website, and their status will be updated as appropriate.

Any documentation of the deliberations of the RSC concerning SARs shall be made available according to normal “business rules and procedures” of the RSC then in effect.

Texas RE Staff shall submit a written report to the Texas RE BOD on a periodic basis (at least quarterly at regularly scheduled Texas RE BOD Meetings) showing the status of all SARs that have been brought to the RSC for consideration.

Step 2 – Formation of the Standard Drafting Team and Declaration of Milestone Date

Upon acceptance by the RSC of a SAR for development of a new Regional Standard (or modification or deletion of an existing Regional Standard), the RSC shall direct the RSM to assemble a qualified balanced slate for the SDT. The RSM will solicit drafting team nominees by announcing the opening of nominations to the stakeholders in the region. The SDT shall consist of a group of people who collectively have the necessary technical expertise and work process skills to draft the standard being requested in the SAR. The RSM shall recommend to the RSC a slate of ad-hoc individuals or a pre-existing task force, work group, or similar group for the SDT. The membership of the SDT shall not include more than one individual from any one entity.

The RSM will manage the SDT to ensure that the Texas RE Standards Development Process is followed, and that the team membership receives all necessary administrative support. This support typically includes a Texas RE staff member and the Originator if he/she chooses to participate. The RSM may develop additional guidelines to assist the SDT, but as a general rule, the RSM will follow the then-current NERC SDT Guidelines and associated NERC SDT procedures in the management of the regional SDTs. The RSC shall appoint the SDT interim chair (should not be a Texas RE staff person). The SDT will elect the permanent Chair and Vice-chair at its first meeting.

The RSM shall submit the proposed list of names of the SDT to the RSC. The RSC will either accept the recommendations of the RSM or modify the SDT slate, as it deems appropriate within 60 days of accepting a SAR for development.

Step 3 – Work and Work Product of the Standard Drafting Team

The RSM will collaborate with the SDT to develop a work plan including the establishment of milestones for completing critical elements. This plan shall be delivered and reported to the RSC, and based upon this work plan, the RSC shall declare a preliminary date on which a completed draft Regional Standard and associated supporting documentation will be available for comment.

The SDT is to meet, either in person or via electronic means (such as Web Ex) as necessary, establish sub-work teams or groups (made up of members of the SDT) as necessary, and performs other activities to address the parameters of the SAR and the milestone date(s) established

The work product of the SDT will consist of the following:

- A draft Regional Standard consistent with the SAR on which it was based.
- An assessment of the impact of the SAR on neighboring regions, and appropriate input from the neighboring regions if the SAR is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Regional Standard (or other regional criteria, protocol, or rule) that may be deleted, in part or whole, or otherwise impacted by the implementation of the draft Regional Standard.
- Technical reports and/or work papers that provide technical support for the draft Regional Standard under consideration.
- The perceived reliability impact should the Regional Standard be approved.
- A draft of recommended Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs), in coordination with Texas RE staff.

Upon completion of these tasks, the SDT shall submit these documents to the RSC, which will verify that the proposed Regional Standard is consistent with the SAR on which it was developed.

The SDT shall regularly (at least once each month) report to and inform the RSC of its progress in meeting the timely completion of the draft Regional Standard. The SDT may request of the RSC, at any point in the Regional Standard Development Process, and change in the scope of the SAR.

The RSC may, at any time, exercise its authority over the Regional Standards Development Process by directing the SDT to move to Step 4 (below) and post the current work product for comment. Any interested entity (including the Originator and the RSM) that contends that the SDT is not effectively progressing on a draft standard or variance may notify the RSC. If any entity contends that the RSC has not taken timely action regarding any requested standard, the entity may file a written complaint with the RSM, who will notify the RSC. If the RSC cannot resolve the complaint within sixty days, the complaining entity may request that its complaint be included on the RSM's report to the Texas RE BOD.

Step 4 – Comment Posting Period

At the direction from the RSC, the RSM shall post the draft Regional Standard, VRFs, and VSLs on the Texas RE Website, along with a draft implementation plan and supporting documents, for a 30-day public comment period. The posting of draft VRFs and VSLs for stakeholder comment can be deferred until a second or later posting of the draft standard as determined by the standard drafting team; however, it is recommended that the VRFs and VSLs be posted for comment with the entire draft Regional Standard as early in the standard development process as possible. The RSM shall also give notice of the posting to all potentially interested entities inside or outside of the ERCOT region of which Texas RE is aware. The RSM will give notice using the typical communication procedures in effect or other means as deemed appropriate.

Within 30 days of the conclusion of the 30-day comment posting period, the SDT shall convene and consider changes to the draft Regional Standard, the implementation plan, supporting technical documents, VRFs, and/or VSLs, based upon comments received. The SDT shall also prepare a formal written response to every comment received. The SDT may then elect to return to Step 3 to revise the draft Regional Standard, implementation plan, and/or supporting technical documentation. If the comments received indicate that the VRFs or VSLs should be changed to better conform to the criteria for establishing those elements, then the SDT, working with Texas RE staff, may make revisions.

The SDT shall prepare a “modification report” summarizing the comments received, the team’s responses to the comments, and the changes made to the draft standard as a result of these comments. The modification report shall also summarize comments that were rejected by the SDT and the reason(s) that these comments were rejected, in part or whole. The RSM shall post responses to all comments on the Texas RE Website no later than the next posting of the revised draft standard.

Step 5 – Posting for Voting by the Registered Ballot Pool

Upon recommendation of the SDT, and if the RSC concurs that all of the requirements for development of the standard have been met, the RSM shall post the proposed standard and implementation plan for ballot and the VRFs and VSLs for poll on the Texas RE Website. The RSM shall also announce the vote to approve the standard and the opportunity to provide input into the VRFs and VSLs, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

The RSM will schedule a vote among the Registered Ballot Pool, which is to be scheduled to commence no sooner than 15 days and no later than 30 days following this posting.

The RSM shall send a notice to every entity in the Registered Ballot Body (RBB) to notify them of an opportunity to become a part of the Registered Ballot Pool for this Regional Standard or Regional Variance. Each member of the RBB will be allowed the opportunity to join a single ballot pool to participate in the determination of the approval of the Regional Standard and to provide input to the “non-binding poll” on the VRFs and VSLs associated with the Regional Standard. This notice should precede the start of the ballot by at least 30 days. The purpose of this notice is to establish a ballot pool to participate in the consensus development process and ballot the proposed action. All members of the Registered Ballot Body are eligible to participate in voting on proposed new Regional Standards, Regional Standard revisions, or Regional

Standard deletions. There shall be one person designated as the primary RBB representative of each entity. Those members of the RBB that sign up for the Ballot Pool become that pool.

The Texas RE Registered Ballot Pool shall be able to vote on the proposed standard and participate in the non-binding poll on the VRFs and VSLs during a 15-day period. Votes shall be submitted electronically, or through other means as approved by the RSC.

Voting is an advisory to the Texas RE BOD. The voting results shall be composed of only the votes from the Registered Ballot Pool members who have responded within the 15-day voting period. Votes may be accompanied by comments explaining the vote, but are not required. All comments shall be responded to and posted to the Texas RE Website prior to going to the RSC or Texas RE BOD.

At least one (1) representative from four (4) of the six (6) Sectors must vote to constitute a quorum. Each Sector shall have two (2) Sector votes.

The “poll” taken on the violation risk factors and violation severity levels is “non-binding.” The results of this poll will be reported to the Texas RE BOD and considered by Texas RE staff in forming its recommendations. The results of the poll are one element for the Texas RE BOD to consider when making a determination of whether to approve the compliance elements of the standards. The results of the poll do not determine whether these compliance elements are “approved.” In addition, if stakeholder comments submitted with the non-binding poll indicate specific improvements that would improve consensus, then the SDT, working with Texas RE staff, will revise the VRFs and VSLs to reflect stakeholder comments before the VRFs and VSLs are submitted to the Texas RE BOD.

Step 6A – Registered Ballot Pool Voting Receives 2/3 or Greater Affirmative Votes of the Texas RE Sectors

If a draft Regional Standard receives 2/3 or greater affirmative votes during the 15-day voting period, the RSC will forward the Regional Standard to the Texas RE BOD for action (Step 7).

Step 6B – Membership Voting Does Not Receive 2/3 Affirmative Votes of the Texas RE Sectors

If a draft Regional Standard does not receive 2/3 or greater affirmative votes during the 15-day voting period, the RSC may:

- Revise the SAR on which the draft Regional Standard was based and remand the development work back to the original SDT or a newly appointed SDT. The resulting draft Regional Standard and/or implementation plan shall be posted for a second voting period. The RSC may require a second comment period prior to a second voting period. The second posting of the draft Regional Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
 - If a draft Regional Standard receives 2/3 or greater affirmative votes during the second voting period, the RSC will forward to the Texas RE BOD for action (Step 7).
 - If a draft Regional Standard does not receive 2/3 or greater affirmative votes during the second voting period, the RSC will refer the draft Regional Standard

and implementation plan to the Texas RE BOD. The RSC may also submit an assessment, opinion, and recommendations to the Texas RE BOD (Step 7).

- Direct the existing SDT to reconsider or modify certain aspects of the draft Regional Standard and/or implementation plan. The resulting draft Regional Standard and/or implementation plan shall be posted for a second voting period. The RSC may require a second comment period prior to the second voting period. The second posting of the draft Regional Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
 - If a draft Regional Standard receives 2/3 or greater affirmative votes on the second voting period, the RSC will forward it to the Texas RE BOD for action (Step 7).
 - If a draft Regional Standard does not receive 2/3 or greater affirmative votes on the second voting period, the RSC will refer the draft Regional Standard and implementation plan to the Texas RE BOD. The RSC may also submit an assessment, opinion, and recommendations to the Texas RE BOD (Step 7).

Step 7 – Action by the Texas RE Board of Directors

A proposed Regional Standard and VRFs and VSLs submitted to the Texas RE BOD for action shall be publicly posted at least 10 days prior to action by the Texas RE BOD. At a regular or special meeting, the Texas RE BOD shall consider adoption of the draft Regional Standard and shall approve the associated VRFs and VSLs for any approved Regional Standard. The Texas RE BOD shall be provided with an “informational package” which includes:

- The draft Regional Standard and any modification or deletion of other related existing Regional Standard(s)
- Implementation Plan (including recommending field testing and effective dates)
- Technical Documentation supporting the draft Regional Standard
- The VRFs and VSLs recommended by Texas RE staff
- A summary of the vote and summary of the comments and responses that accompanied the votes and the non-binding poll on the VRFs and VSLs.

The Texas RE BOD will consider the results of the voting and dissenting opinions. The Texas RE BOD will consider any advice offered by the RSC and may:

- Approve the proposed Regional Standard;
- Remand the proposed Regional Standard to the RSC with comments and instructions;
or
- Disapprove the proposed Regional Standard without recourse.

Under no circumstances may the Texas RE BOD substantively modify the proposed Regional Standard.

Separately, the Texas RE BOD shall consider approval of the VRFs and VSLs for the Regional Standard. In making its determination, the BOD shall consider the following:

- The RSC shall present the results of the non-binding poll conducted and a summary of industry comments received on the final posting of the proposed VRFs and VSLs.
- Texas RE staff shall present a set of recommended VRFs and VSLs that considers the views of the standard drafting team, stakeholder comments received on the draft VRFs and VSLs during the posting for comment process, the non-binding poll results, appropriate governmental agency rules and directives, and VRF and VSL assignments for other Regional Standards to ensure consistency and relevance across the entire spectrum of Regional Standards.

Once a Regional Standard and the associated VRFs and VSLs are approved by the Texas RE BOD, the standard and its associated compliance elements will be submitted to NERC for approval and filing with FERC.

Step 8 – Implementation of a Regional Standard

Upon approval of a draft Regional Standard by the Texas RE BOD, the RSM will notify the membership of such action of the Texas RE BOD through the normal and customary membership communication procedures and processes then in effect. The RSM will take whatever steps are necessary to have a Regional Standard reviewed and/or approved by NERC or any successor organization.

C. Regional Standards Integration

Once the Regional Standard is approved by FERC, the RSM shall notify the stakeholders of the effective date. The RSM will also notify the Texas RE Compliance Staff for integration into the Texas RE Compliance Monitoring and Enforcement Program.

Appendix A – Stakeholder Representation

The Texas RE stakeholder representation for Regional Standards development is as follows:

I. Reliability Standards Committee (RSC)

The Reliability Standards Committee (RSC), comprised of two representatives (except for Sectors with only one member, which will have only one representative) from each of the six Texas RE Standards Development Sectors (System Coordination and Planning; Transmission; Generation; Cooperative Utility; Municipal Utility; Load-Serving and Marketing), is to provide balanced decision-making and due process for Regional Standards and Regional Variances. The RSC will receive, consider, and vote upon requests for new or revised Regional Standards and Regional Variances. The RSC requires a quorum of at least one representative from at least two-thirds of the Sectors.

The RSC will consider any requests for Regional Standards or Regional Variances from parties that are directly and materially affected by the operation of the ERCOT Region BPS that have first been submitted to the RSM for initial review.

II. Texas RE Board of Directors (BOD)

Texas RE is a Texas non-profit corporation that is governed by a combination independent and balanced stakeholder board. The Texas RE Board of Directors (BOD) includes the following directors:

- Four independent directors who are independent of any ERCOT region market participant and any NERC registered entity and are nominated and elected in accordance with the requirements and procedures specified in the Texas RE Bylaws;
- Two directors from different Sectors who are selected by the Texas RE Member Representatives Committee as its chair and vice chair;
- CEO of Texas RE;
- Chairman of the Public Utility Commission of Texas (PUCT) or another PUCT Commissioner designated by the Chairman (as *ex officio* non-voting Director); and
- Texas Public Counsel from the Office of Public Utility Counsel (OPUC) or another employee of OPUC designated by Public Counsel (as *ex officio* non-voting Director).

III. Registered Ballot Body (RBB)

A Registered Ballot Body (RBB) will be comprised of representatives from all the Sectors, to provide balanced decision-making on Regional Standards and Regional Variances. The RBB is eligible to vote on all proposed new or revised Regional Standards or Regional Variances. The RBB requires a quorum of at least one vote from at least two-thirds of the Sectors. At all meetings, each Sector shall have one (1) Sector vote, and each voting entity is entitled to only one vote. Each voting entity participating in the vote, shall receive an equal fraction of its Sector's vote. A Registered Ballot Pool (RBP) will be formed for each proposed Regional Standard or Regional Variance and will be a subset of the RBB. The RBP will vote on a particular standard action.

Appendix B – Principles, Characteristics, and Special Procedures

I. Principles

Due process is the key to ensuring that regional reliability standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in the development of a standard.

The Texas RE develops Regional Standards with due consideration of the following principles, in accordance with the steps outlined in this procedure. The process must ensure that any Regional Standard is technically sound and the technical specifications proposed would achieve a valuable reliability objective.

The standards development process has the following characteristics:

- **Open** – Participation in the development of a Regional Standard shall be open to all organizations that are directly and materially affected by ERCOT BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to ERCOT members and others.
- **Balanced** – The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.
- **Inclusive** – Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the ERCOT BPS in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.
- **Fair due process** – The Texas RE Standards Development Process shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.
- **Transparent** – All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the Texas RE Website.
- Does not unnecessarily delay development of the proposed Regional Standard.

NERC has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are to be used to guide the development of reliability standards, including regional reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards.

Each Regional Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Regional Standard serves a purpose in support of the reliability of the ERCOT BPS. Each Regional Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Regional Standard undermines reliability through an unintended consequence.

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Regional Standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

II. Regional Standard Characteristics and Elements

a. Characteristics of a Regional Standard

The following characteristics describe objectives to be considered in the development of Regional Standards:

1. **Applicability** – Each Regional Standard clearly identifies the functional classes of entities responsible for complying with the standard, with any specific additions or exceptions noted. Such functional classes include: Reliability Coordinators, Balancing Authorities, Transmission Operators, Transmission Owners, Generator Operators, Generator Owners, Interchange Authorities, Transmission Service Providers, Planning Authorities, Transmission Planners, Resource Planners, Load-Serving Entities, Purchasing-Selling Entities, and Distribution Providers. Each Regional Standard identifies the geographic applicability of the standard. A standard may also identify any limitations on the applicability of the standard based on electric facility characteristics.
2. **Reliability Objectives** – Each Regional Standard has a clear statement of purpose that describes how the standard contributes to the reliability of the ERCOT BPS.
3. **Requirement or Outcome** – Each Regional Standard states one or more requirements, which if achieved by the applicable entities, will provide for a reliable BPS, consistent with good utility practices and the public interest.
4. **Measurability** – Each performance requirement is stated so as to be objectively measurable by a third party with knowledge or expertise in the area addressed by that requirement. Each performance requirement has one or more associated measures used to objectively evaluate compliance with the requirement. If performance can be practically measured quantitatively, metrics are provided to determine satisfactory performance.
5. **Technical Basis in Engineering and Operations** — Each Regional Standard is based upon sound engineering and operating judgment, analysis, or experience, as determined by expert practitioners in that particular field.

6. **Completeness** — Each Regional Standard is complete and self-contained. Supporting references may be provided with standards, but they are not part of the standard and do not impose mandatory requirements.
7. **Clear Language** — Each Regional Standard is stated using clear and unambiguous language. Responsible entities, using reasonable judgment and in keeping with good utility practice, are able to arrive at a consistent understanding of the required performance.
8. **Practicality** — Each Regional Standard establishes requirements that can be practically implemented by the assigned responsible entities within the specified effective date and thereafter.
9. **Consistent Terminology** — To the extent possible, Regional Standards use a set of standard terms and definitions that are approved through the regional standards development procedure.

Although Regional Standards have a common format and process, several types of standards may exist, each with a different approach to measurement:

- **Technical standards** are related to the provision, maintenance, operation, or state of electric systems, and will likely contain measures of physical parameters that are technical in nature.
- **Performance standards** are related to the actions of entities providing for or impacting the reliability of the BPS, and will likely contain measures of the results of such actions or qualities of performance of such actions.
- **Preparedness standards** are related to the actions of entities to be prepared for conditions that are unlikely to occur, but are nonetheless critical to reliability, and will likely contain measures of such preparations or the state of preparedness.

b. Elements of a Regional Standard

To ensure uniformity of regional reliability standards, a Regional Standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

Table 1 – Performance Elements of a Regional Standard

Identification Number	A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference.
Title	A brief, descriptive phrase identifying the topic of the standard.
Applicability	Clear identification of the functional classes of entities responsible for

	complying with the standard, noting any specific additions or exceptions. If not applicable to the entire Texas RE area, then a clear identification of the portion of the BPS to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
Effective Date and Status	The effective date of the standard or, prior to approval of the standard, the proposed effective date.
Purpose	The purpose of the standard. The purpose shall explicitly state what outcome will be achieved or is expected by this standard.
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.
Measure(s)	Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.

Table 2 – Compliance Elements of a Regional Standard

The following compliance elements are developed for each standard by the standard drafting team and are balloted with the regional standard:

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none"> • Compliance Enforcement Authority: The entity that is responsible for evaluating data or information to assess performance or outcomes. • Compliance Monitoring and Enforcement Processes: The processes that will be used to evaluate data or information for the purpose of assessing performance or outcomes. • Data Retention: Measurement data retention requirements and assignment of responsibility for data archiving. • Additional Compliance Information: Any other information related to assessing compliance such as the criteria or periodicity for filing specific reports.
--------------------------------------	--

The following compliance elements are developed by the SDT, working with Texas RE staff, but are not considered to be part of the standard. These elements will be posted for stakeholder comment concurrent with the associated requirements as early in the standard development process as possible. The standard drafting team, working with Texas RE staff will respond to all

comments received. The drafting team, working with Texas RE staff may make modifications to the Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) based on stakeholder comments.

A non-binding poll will be conducted to assess stakeholders' agreement with VRFs and VSLs. If stakeholder comments submitted with the non-binding poll indicate specific improvements that would improve consensus, then the SDT, working with Texas RE staff, will revise the VRFs and VSLs to reflect stakeholder comments.

The RSC will report the results of the poll and a summary of industry comments received on the final posting of the proposed VRFs and VSLs to the Texas RE BOD. Texas RE staff will develop for BOD approval recommended assignments of VRFs and VSLs associated with Regional Standards being presented for approval by the BOD. In developing the recommended VRF and VSL assignments, Texas RE staff will take into consideration the views of the standard drafting team, stakeholder comments received on the draft VRFs and VSLs during the posting for comment process, the non-binding poll results, regulatory directives, and VRF and VSL assignments for other Regional Standards to ensure consistency and relevance across the entire spectrum of NERC Reliability Standards.

The Texas RE BOD has the authority to approve Violation Risk Factors and Violation Severity Levels and may modify the VRF or VSL proposed by Texas RE staff.

<p>Violation Risk Factors</p>	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to a normal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p>
--------------------------------------	---

	<p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>
<p>Violation Severity Levels (VSLs)</p>	<p>Defines the degree to which compliance with a requirement was not achieved. Each requirement must have at least one VSL. While it is preferable to have four VSLs for each requirement, some requirements do not have multiple “degrees” of noncompliant performance and may have only one, two, or three VSLs.</p> <p>Lower Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing a minor element (or a small percentage) of the required performance <p>Moderate Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing at least one significant element (or a moderate percentage) of the required performance. <p>High Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing more than one significant element (or is missing a high percentage) of the required performance or is missing a single vital component. <p>Severe Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing most or all of the significant elements (or a significant percentage) of the required performance.

Table 3 – Supporting Information Elements

Interpretation	Any interpretation of regional reliability standard that is developed and approved in accordance with Section VI “Interpretation of Regional Standards” in Appendix B of this procedure, to expound on the application of the standard for unusual or unique situations or to provide clarifications.
Implementation Plan	Each regional reliability standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	<p>This section references related documents that support reasons for, or otherwise provide additional information related to the regional reliability standard. Examples include, but are not limited to:</p> <ul style="list-style-type: none"> • Glossary of terms • Developmental history of the standard and prior versions • Notes pertaining to implementation or compliance • Regional Standard references • Regional Standard supplements • Procedures • Practices • Training references • Technical references • White papers • Internet links to related information

III. Maintenance of the Texas RE Regional Standards Development Process

Significant changes to this process which are not made as part of a Texas RE request for an amendment to the Delegation Agreement shall begin with the preparation of a SAR and be addressed using the same procedure as a request to add, modify, or delete a Regional Standard.

The RSC has the authority to make ‘minor’ changes to this process as deemed appropriate by the RSC and subject to the RSC voting practices and procedures then in effect. The RSM, on behalf of the RSC, shall promptly notify the Texas RE BOD of such changes to this process for their review and concurrence at the next Texas RE BOD meeting.

IV. Maintenance of Regional Standards

The RSM shall ensure that each Regional Standard is reviewed at least once every five years from the effective date of the Standard or the latest revision to the Regional Standard, whichever is the later. The review process shall be conducted by soliciting comments from the stakeholders. If no changes are warranted, the RSM shall recommend to the Texas RE BOD that the Regional Standard be reaffirmed. If the review indicates a need to revise or delete a

Regional Standard, a SAR shall be prepared and submitted in accordance with the standards development process contained in this process.

V. Urgent Action

Under certain conditions, the RSC may designate a proposed Regional Standard or revision to a standard as requiring urgent action. Urgent action may be appropriate when a delay in implementing a proposed standard or revision could materially impact reliability of the BPS. The RSC must use its judgment carefully to ensure an urgent action is truly necessary and not simply an expedient way to change or implement a Regional Standard.

An originator shall prepare a SAR and a draft of the proposed standard and submit to the RSM. The standard request must include a justification for urgent action. The RSM submits the request to the RSC for its consideration. If the RSC designates the requested standard or revision as an urgent action item, then the RSM shall immediately post the draft for pre-ballot review. This posting requires a minimum 30-day posting period before the ballot and applies the same voting procedure as detailed in Step 6.

Any Regional Standard approved as an urgent action shall have a termination date specified that shall not exceed one year from the approval date. Should there be a need to make the standard permanent the standard would be required to go through the full Regional Standard Development Process. All urgent action standards require Texas RE BOD, NERC, and FERC approval, as outlined for standards in the regular process.

Urgent actions that expire may be renewed using the urgent action process again, in the event a permanent standard is not adopted. In determining whether to authorize an urgent action standard for a renewal ballot, the RSC shall consider the impact of the standard on the reliability of the BPS and whether expeditious progress is being made toward a permanent replacement standard. The RSC shall not authorize a renewal ballot if there is insufficient progress toward adopting a permanent replacement standard or if the RSC lacks confidence that a reasonable completion date is achievable. The intent is to ensure that an urgent action standard does not in effect take on a degree of permanence due to the lack of an expeditious effort to develop a permanent replacement standard. With these principles, there is no predetermined limit on the number of times an urgent action may be renewed. However, each urgent action standard renewal shall be effective only upon approval by the Texas RE BOD, and approval by applicable governmental authorities.

Any person or entity, including the drafting team working on a permanent replacement standard, may at any time submit a standard request proposing that an urgent action standard become a permanent standard by following the full standards process.

VI. Interpretations of Regional Standards

All persons who are directly and materially affected by ERCOT's BPS reliability shall be permitted to request an interpretation of a Regional Standard or Regional Variance (collectively referred to as Regional Standard). The person requesting an interpretation shall send a request to the RSM electronically using the Interpretation Request Form explaining the specific circumstances surrounding the request and what clarifications are required as applied to those circumstances. The request should indicate the material impact to the requesting party or others caused by the lack of clarity or a possibly incorrect interpretation of the standard.

The RSM shall assemble a team with the relevant expertise to address the clarification. The Interpretation Drafting Team (IDT) typically consists of members from the original SDT. The RSM shall submit the proposed list of names of the IDT to the RSC. The RSC will either accept the recommendations of the RSM or modify the IDT slate.

As soon as practical (not more than 45 days), the team will meet to draft a written interpretation to the Regional Standard addressing the issues raised. Once the IDT has completed a draft interpretation to the Regional Standard addressing only the issues raised, the team will forward the draft interpretation to the RSM. The RSM will forward the draft interpretation to the Texas RE Chief Executive Officer. The Chief Executive Officer shall assess if the inclusion of the interpretation lessens the measurability of the Regional Standard. Barring receipt of an opinion from the Chief Executive Officer within 21 days, that the interpretation lessens measurability or is not technically appropriate for the Regional Standard, the RSM shall forward the interpretation to the RSC. The RSC shall determine if the interpretation is consistent with the Regional Standard. The RSM, on behalf of the RSC, shall forward the interpretation to the Texas RE BOD for informational purposes as being appended to the approved Regional Standard.

Note: In the event that the Chief Executive Officer determines that measurability is lessened, the Chief Executive Officer shall provide an explanation of his/her reasoning to the RSM and IDT for inclusion in a subsequent reversion. In either case, the IDT and RSM will continue to re-circulate the interpretation as stated above.

The interpretation shall stand until such time as the Regional Standard is revised through the normal process, at which time the Regional Standard will be modified to incorporate the clarifications provided by the interpretation.

VII. Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of a Regional Standard shall have the right to appeal. This Appeals Process applies only to this Regional Standards Process.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The final decisions of any appeal shall be documented in writing and made public.

The Appeals Process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in the appeals process. The appellant submits a complaint in writing to the RSM that describes the substantive or procedural action or inaction associated with Regional Standard or the Regional Standards Process. The appellant describes in the complaint the actual or potential adverse impact to the appellant. Assisted by any necessary staff and committee resources, the RSM shall prepare a written response addressed to the appellant as soon as practical, but not more than 45 days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the issue, both the complaint and response will be made a part of the public record associated with the Regional Standard.

Level 2 Appeal

If after the Level 1 Appeal the appellant remains unsatisfied with the resolution, as indicated by the appellant in writing to the RSM, the RSM shall convene a Level 2 Appeals Panel. This panel shall consist of five members total appointed by the Texas RE BOD. In all cases, Level 2 Appeals Panel Members shall have no direct affiliation with the participants in the appeal.

The RSM shall post the complaint and other relevant materials and provide at least 30 days notice of the meeting of the Level 2 Appeals Panel. In addition to the appellant, any person that is directly and materially affected by the substantive or procedural action or inaction referenced in the complaint shall be heard by the panel. The panel shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal. The panel may in its decision find for the appellant and remand the issue to the RSC with a statement of the issues and facts in regard to which fair and equitable action was not taken. The panel may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections. The panel may not, however, revise, approve, disapprove, or adopt a Regional Standard. The actions of the Level 2 Appeals Panel shall be publicly posted.

In addition to the foregoing, a procedural objection that has not been resolved may be submitted to Texas RE BOD for consideration at the time the Texas RE BOD decides whether to adopt a particular Regional Standard. The objection must be in writing, signed by an officer of the objecting entity, and contain a concise statement of the relief requested and a clear demonstration of the facts that justify that relief. The objection must be filed no later than 30 days after the announcement of the vote on the Regional Standard in question.

Appendix C – Regional Standard Authorization Request Form

The tables below provide a representative example of information in a Regional Standard Authorization Request (SAR). The RSM shall be responsible for implementing and maintaining the applicable form as needed to support the information requirements of the Texas RE Standards Process. The latest version of the form will be downloadable from the Texas RE's Standards Development Web page.

Email:	<input type="checkbox"/> Urgent Action

Purpose (Describe the purpose of the proposed regional reliability standard – what the standard will achieve in support of reliability.)

Industry Need (Provide a detailed statement justifying the need for the proposed regional reliability standard, along with any supporting documentation.)
--

Brief Description (Describe the proposed regional reliability standard in sufficient detail to clearly define the scope in a manner that can be easily understood by others.)

Reliability Functions

The Regional Standard will Apply to the Following Functions (Check all applicable boxes.)

<input type="checkbox"/>	Reliability Coordinator	The entity that is the highest level of authority who is responsible for the reliable operation of the BPS, has the Wide Area view of the BPS, and has the operating tools, processes and procedures, including the authority to prevent or mitigate emergency operating situations in both next-day analysis and real-time operations. The Reliability Coordinator has the purview that is broad enough to enable the calculation of Interconnection Reliability Operating Limits, which may be based on the operating parameters of transmission systems beyond any Transmission Operator's vision.
<input type="checkbox"/>	Balancing Authority	The responsible entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a Balancing Authority Area, and supports Interconnection frequency in real time.
<input type="checkbox"/>	Interchange Authority	Authorizes valid and balanced Interchange Schedules.
<input type="checkbox"/>	Planning Authority	The responsible entity that coordinates and integrates transmission facility and service plans, resource plans, and protection systems.
<input type="checkbox"/>	Transmission Service Provider	The entity that administers the transmission tariff and provides Transmission Service to Transmission Customers under applicable transmission service agreements.
<input type="checkbox"/>	Transmission Owner	The entity that owns and maintains transmission facilities.
<input type="checkbox"/>	Transmission Operator	The entity responsible for the reliability of its "local" transmission system, and that operates or directs the operations of the transmission facilities.
<input type="checkbox"/>	Transmission Planner	The entity that develops a long-term (generally one year and beyond) plan for the reliability (adequacy) of the interconnected bulk power transmission systems within its portion of the Planning Authority Area.
<input type="checkbox"/>	Resource Planner	The entity that develops a long-term (generally one year and beyond) plan for the resource adequacy of specific loads (customer demand and energy requirements) within a Planning Authority Area.
<input type="checkbox"/>	Generator Operator	The entity that operates generating unit(s) and performs the functions of supplying energy and Interconnected Operations Services.
<input type="checkbox"/>	Generator Owner	Entity that owns and maintains generating units.
<input type="checkbox"/>	Purchasing-Selling Entity	The entity that purchases or sells, and takes title to, energy, capacity, and Interconnected Operations Services. Purchasing-Selling Entities may be affiliated or unaffiliated merchants and may or may not own generating facilities.

<input type="checkbox"/>	Distribution Provider	Provides and operates the “wires” between the transmission system and the customer.
<input type="checkbox"/>	Load-Serving Entity	Secures energy and transmission service (and related Interconnected Operations Services) to serve the electrical demand and energy requirements of its end-use customers.

Reliability and Market Interface Principles

Applicable Reliability Principles <i>(Check all boxes that apply.)</i>	
<input type="checkbox"/>	1. Interconnected BPSs shall be planned and operated in a coordinated manner to perform reliably under normal and abnormal conditions as defined in the NERC Standards.
<input type="checkbox"/>	2. The frequency and voltage of interconnected BPSs shall be controlled within defined limits through the balancing of real and reactive power supply and demand.
<input type="checkbox"/>	3. Information necessary for the planning and operation of interconnected BPSs shall be made available to those entities responsible for planning and operating the systems reliably.
<input type="checkbox"/>	4. Plans for emergency operation and system restoration of interconnected BPSs shall be developed, coordinated, maintained, and implemented.
<input type="checkbox"/>	5. Facilities for communication, monitoring, and control shall be provided, used, and maintained for the reliability of interconnected BPSs.
<input type="checkbox"/>	6. Personnel responsible for planning and operating interconnected BPSs shall be trained, qualified, and have the responsibility and authority to implement actions.
<input type="checkbox"/>	7. The security of the interconnected BPSs shall be assessed, monitored, and maintained on a wide-area basis.

Does the proposed Regional Standard comply with all of the following Market Interface Principles? *(Select ‘yes’ or ‘no’ from the drop-down box.)*

Recognizing that reliability is an Common Attribute of a robust North American economy:	
1.	A reliability standard shall not give any market participant an unfair competitive advantage. Yes
2.	A reliability standard shall neither mandate nor prohibit any specific market structure. Yes
3.	A reliability standard shall not preclude market solutions to achieving compliance with that standard. Yes
4.	A reliability standard shall not require the public disclosure of commercially sensitive information. All market participants shall have equal opportunity to access commercially non-sensitive information that is required for compliance with reliability standards. Yes

Detailed Description (Provide enough detail so that an independent entity familiar with the industry could draft a standard based on this description.)

**Appendix D – Texas RE Standards Development Process
Diagram**

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

Texas RE will implement the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure (which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures), to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within **Texas RE's** geographic or electrical boundaries, and such other scope, set forth on **Exhibit A** of this Agreement.

2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

Texas RE shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be either **Texas RE's** board or a balanced compliance panel reporting directly to **Texas RE's** board. **Texas RE's** hearing body is the Public Utility Commission of Texas (PUCT).

- A. **Hearing Body.** Texas RE will use the PUCT as its Hearing Body, and the PUCT (as Hearing Body) will issue recommendations to the Texas RE Board of Directors (“Board”) which will make final decisions following regional hearings of compliance matters. The PUCT is comprised of three Commissioners who are appointed by the Governor of the State of Texas. The PUCT has extensive experience in conducting contested case hearings and other adjudicatory proceedings in a manner that assures due process of law to all participants. Texas RE intends to rely upon the PUCT’s experience and expertise in conducting the hearing process under the Delegation Agreement. Texas RE believes that it is more efficient and cost-effective to use existing PUCT procedures than to attempt to establish a redundant hearing process within Texas RE. The PUCT is uniquely well-positioned to perform this function for the ERCOT Region since electric utilities operating in the ERCOT Region do not synchronously interconnect with electric utilities operating outside of Texas, and ERCOT market participants have experience in participating in PUCT proceedings.
- B. **Public Hearings.** The PUCT as Hearing Body will hold public hearings on all matters referred to it by the Texas RE for hearing and recommendation. The PUCT’s performance of Hearing Body responsibilities is fully consistent with the NERC Rules of Procedure and with Section 39.7 of FERC Order 672, with the exception of Section 39.7(b)(4), which requires “[e]ach violation or alleged violation [to] be treated as nonpublic until the matter is filed with [FERC] as a notice of penalty or resolved by an admission ... or by a settlement or other negotiated disposition.” Because the PUCT is a “governmental body” under the Texas Open Meetings Act (Texas Government Code § 551.002), the PUCT is required to conduct any deliberations and render a decision in a meeting that is open to the public. The Texas Open Meetings Act also requires that any evidence or other submissions concerning a PUCT hearing, except for information that is confidential or privileged under law, be publicly available. Texas Attorney General opinions have determined that the need to consider confidential information does not

justify conducting a closed meeting or executive session. Although PUCT hearings, including those contemplated under this Exhibit D, are conducted as open meetings, steps are taken to prevent the disclosure of confidential information during the hearing process. Direct testimony in such cases is generally presented in written question and answer format, with any confidential information redacted, filed under seal and provided to parties pursuant to a protective order. In hearings conducted under these rules, the Hearing Body shall use best efforts to avoid the inadvertent disclosure of confidential information. The Presiding Officer may use the following methods to protect confidential information, in addition to the entry of an appropriate protective order: (1) Requiring the aggregation of confidential information aggregated to eliminate its confidentiality; (2) Permitting or requiring the redaction of testimony where the non-public information is not material to the merits; (3) Closing the public hearings on a temporary basis to those not bound under the terms of any case-specific protective order in place while the specific, confidential data is the subject of testimony or argument; and (4) other reasonable means in the discretion of the Presiding Officer.

Under the Texas Public Utility Regulatory Act (PURA) §39.151(j), market participants in the ERCOT market are required to comply with all scheduling, operating, planning, reliability, and settlement policies, rules, guidelines, and procedures ERCOT establishes. The PUCT is given authority to enforce this obligation through the imposition of penalties, revocation of certifications or other means. In any enforcement proceeding under PURA, PUCT deliberations are conducted in an open meeting in accordance with the procedures outlined above. ERCOT is thus unlike other power regions that may be implementing an enforcement mechanism for the first time. The history of public availability of this information in the ERCOT power region argues in favor of the continued public availability of information considered in enforcement hearings the PUCT conducts as Hearing Body for the Texas RE.

Moreover, elsewhere in Order No. 672, FERC stated that: “If the ERO or a Regional Entity wishes to conduct a public investigation, enforcement audit or permit interventions when determining whether to impose a penalty, the ERO or the Regional Entity must receive advance authorization from the Commission.”³

In response to the request by Texas RE’s predecessor to be permitted to hold public hearings as outlined herein, FERC issued *In the matter of Delegation Agreement Between the North American Electric Reliability Corporation and Texas Regional Entity, a division of ERCOT*, Docket No. RR07-1-000, *Order Accepting ERO Compliance Filing, Accepting ERO/Regional Entity Delegation Agreements and Accepting Regional Entity 2007 Business Plans*, 119 FERC 61,060 at ¶253 (Issued April 19, 2007)(Delegation Agreement Acceptance Order). The Delegation Agreement Acceptance Order provides for open hearings as requested.

- C. **Hearing Administration.** PUCT, as Hearing Body, is authorized to hear cases and render its recommendations through the PUCT Commissioners. The Hearing Body is authorized to use the PUCT staff of Administrative Law Judges (ALJs) and other trained employees to establish the procedures and timelines that will be followed in the regional hearings, including the conduct of hearings and the preparation of draft

³ Order 672, ¶511.

recommendations. These presiding officers will not, however, have any authority to issue a final recommendation on any alleged violation. The ALJs and staff may preside over hearings before the PUCT, may establish the procedural schedule for these proceedings, take evidence, prepare a draft recommendation, and perform all tasks delegated from the PUCT, except the final rendition and approval of the final recommendation to be provided to the Board.

- D. **Regional Hearing of Compliance Matters.** Texas RE shall establish the PUCT as the hearing body, with authority to conduct compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan. The PUCT will issue a final recommendation to the Board rather than a final order.

Texas RE shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any:

Detailed Hearing Procedures. The details of the Texas RE Regional Hearing Process are attached hereto as *Attachment 1 and Attachment 2*. *Attachment 1* consists of a summary of the NERC CMEP procedures that must be altered to accommodate Texas RE's request to have the PUCT act as its Hearing Body. *Attachment 1* is a summary of necessary revisions to Attachment 2 of the CMEP, and together with *Attachment 2* hereto and the incorporated PUCT Chapter 22 Procedural Rules, provides the details of the regional hearing process Texas RE has adopted.

In addition to the requested modifications to procedures set forth in Attachment 2 of the CMEP, Texas RE also varies from Section 5.5 of the main body of the CMEP, allowing the Board's decision (instead of the hearing body's decision) to be appealed to NERC. This language is contained as subsection 9.2 of *Attachment 1*: "The Registered Entity may appeal the Board's decision to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410."

3.0 OTHER DECISION-MAKING BODIES

Texas RE uses only its board as its decision-making body.

ATTACHMENT 1 TO EXHIBIT D – TEXAS RE REGIONAL HEARING PROCESS

1.0 Designation of Hearing Body

All formal compliance hearings shall be held before the Compliance Enforcement Authority's Hearing Body. The Hearing Body shall be the Public Utility Commission of Texas. All hearings shall be conducted under the hearing procedures set forth in Attachment 2 to Exhibit D ("Attachment 2—Rules of Procedure"), supplementing this Attachment 1. As set forth in Attachment 2— Rules of Procedure, the Hearing Body may delegate any hearing-related task to a Presiding Officer, except for the issuance of the final recommendation.

The Compliance Enforcement Authority shall initiate the hearing process following the completion of the Notice of Alleged Violation and proposed sanction and registered entity response processes in accordance with Section 5.1 of the North American Electric Reliability Corporation ("NERC") Compliance Monitoring and Enforcement Program ("NERC CMEP"), as set forth below.

Following the filing of a proceeding contesting an Alleged Violation or a Remedial Action Directive, no person shall engage in ex parte communications with the Hearing Body, including without limitation any appointed Presiding Officer, concerning the matter in dispute until the written decision of the Board of Directors or a compliance committee of the Board of Directors ("Board") is issued pursuant to Section 9.1 is appealed or the deadline for filing an appeal has passed; provided, however, that: (a) a member of the Hearing Body or the Presiding Officer may communicate ex parte with another member of the Hearing Body unless prohibited by other law, and (b) a member of the Hearing Body or the Presiding Officer may communicate ex parte with a Commission employee who has not participated in a hearing in the case for the purpose of using the special skills or knowledge of the agency and its staff in evaluating the evidence.

The Hearing Body may rule on all procedural and discovery matters pursuant to Attachment 2—Rules of Procedure.

The Hearing Body may delegate to a single commissioner, a hearings examiner, or an administrative law judge (a "Presiding Officer") the authority to establish the procedures and dates for the presentation of all materials concerning the alleged violation and the power to hear evidence and to issue a draft recommendation, but the Hearing Body may not delegate its authority to issue a final recommendation on the alleged violation to the Board of the Compliance Enforcement Authority.

In accordance with Attachment 2—Rules of Procedure, the Hearing Body may provide for additional procedures as it deems necessary to effectively carry out a compliance hearing. To the extent permitted by law, any provision in this Attachment 1 may be waived, suspended, or modified by the Presiding Officer or the Hearing Body, as defined in Attachment 2—Rules of Procedure §1.1.5, for good cause shown, either upon the Presiding Officer's or the Hearing Body's own motion or upon the motion of any Party.

2.0 Recusal of Member of Hearing Body

A Hearing Body member, Presiding Officer, or Technical Advisor shall recuse himself or herself if participation in the enforcement proceeding would violate the Compliance Enforcement Authority's Conflict of Interest or Code of Conduct policy.

The Registered Entity may raise an objection to any member of the Hearing Body, a Presiding Officer or Technical Advisor on grounds of a conflict of interest or the existence of other circumstances that could interfere with the that person's impartial performance of his or her duties. Such objections must be provided in writing and filed reasonably in advance of the start of the hearing and the Presiding Officer shall make a decision on the objection promptly. Upon request of the Registered Entity, the Hearing Body (without participation of the Hearing Body member, Presiding Officer, or Technical Advisor) may review the determination and, if so, shall issue a decision on the objection promptly.

3.0 Authorized Representatives

Both the Compliance Enforcement Authority and the Registered Entity shall submit to the Hearing Body the names of the persons authorized to represent them in the Hearing Process pursuant to Attachment 2—Rules of Procedure. Such persons shall be officers or equivalents of the Regional Entity and the Registered Entity that have the authority to act on behalf of the Regional Entity and the Registered Entity, respectively. In addition, a party shall advise the Hearing Body and the other party if the party will be represented by legal counsel.

4.0 Statement of Alleged Violation and Response by Registered Entity

The Registered Entity shall initiate the compliance hearing process in accordance with Section 5.1 of the NERC CMEP and Attachment 2—Rules of Procedure by filing with the Hearing Body Clerk a statement or complaint contesting the written Notice of Alleged Violation and proposed sanction and serving a copy upon the Compliance Enforcement Authority. Specifically, the Registered Entity shall file with the Hearing Body (with service of copies upon the Compliance Enforcement Authority) a written statement of reasons why the Alleged Violation is in error or a written statement of reasons why the proposed penalty or sanction is inappropriate (if applicable in the particular case), along with copies of all documents relied on by the Registered Entity to support its position. If the dispute involves a Registered Entity's proposed mitigation plan ("Registered Entity's Mitigation Proposal") that has not been accepted by the Compliance Enforcement Authority, the Registered Entity may initiate the hearing process by filing a request for hearing with the Hearing Body Clerk and serving a copy upon the Compliance Enforcement Authority.

Within five (5) business days after the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed, the Compliance Enforcement Authority's designated representative shall file with the Hearing Body (with copies to the Registered Entity) a copy of the written Notice of the Alleged Violation and proposed sanction that was originally provided to the Registered Entity, along with copies of any non-privileged or non-exempt documents gathered and reviewed by the Compliance Enforcement Authority in the course of determining an Alleged Violation has occurred and in determining the proposed sanction or penalty.

If the hearing involves the question of whether a Registered Entity's Mitigation Proposal

should be accepted, within twenty (20) days after the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed, the Compliance Enforcement Authority shall file a report stating why the Registered Entity's Mitigation Proposal was not accepted. If the hearing involves a Registered Entity's Mitigation Proposal, the Registered Entity shall file its proposed Mitigation Plan and supporting information stating why the Mitigation Plan should be accepted within thirty (30) days after the date the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed.

5.0 Setting of Hearings and Conferences

The Hearing Body shall set a date for an initial conference within thirty (30) days after the date the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed. At the initial conference, the Hearing Body shall establish specific procedures for the hearing including (1) any procedures for exchange of additional documents, (2) any written testimony, (3) the hearing date(s), and (4) dates for any briefs. Subject to Section 6.0 and the Attachment 2—Rules of Procedure, each party shall be entitled to (1) present the testimony of witnesses, (2) cross-examination of opposing witnesses, (3) make an oral presentation of position, and (4) file a written post-hearing brief.

The Hearing Body may hold additional conferences. All notices of conferences and hearings shall set forth the date, time and place of hearing. The Hearing Body shall issue a written order setting forth the agreements and rulings made at each conference.

By agreement of the parties or order of the Hearing Body, any conference or hearing may be conducted via teleconference, except that, subject to section 6.0 of this hearing process, witnesses shall personally appear at the hearing.

All prehearing conferences and hearings shall be open to the public, except when the use of a closed meeting is authorized by Texas law.

6.0 Conduct of Hearing

The hearing will be conducted under the provisions of this section 6.0 and the Attachment 2— Rules of Procedure.

The hearing need not be held on consecutive days, and shall be held at the offices of the Hearing Body unless the Hearing Body decides on a different location after consulting with the parties.

The party requesting transcription of the hearing, the Registered Entity or Compliance Enforcement Authority, will arrange and pay for transcription of the hearing.

The Hearing Body shall direct the direct testimony of any witnesses be in written form in accordance with Attachment 2— Rules of Procedure. All witnesses shall be required to appear in person, unless waived by the parties and the Hearing Body. Motions shall be made and decided, evidence shall be presented, and a record shall be made in accordance with Attachment 2— Rules of Procedure.

7.0 Submission of Post-Hearing Briefs

The parties may submit post-hearing briefs on a schedule established by the Hearing Body pursuant to Attachment 2— Rules of Procedure. The parties may, and on request of the Hearing Body shall, submit proposed findings of fact and conclusions of law.

8.0 Record of the Compliance Hearing

If applicable, copies of the following documents shall be maintained by the Hearing Body as the record of the hearing process:

- (1) The written notice that a request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive has been filed with the Hearing Body Clerk;
- (2) The Notice of Alleged Violation and sanction issued by the Compliance Enforcement Authority and the response filed by the Registered Entity, including in each case all attachments thereto and documents provided therewith;
- (3) If the hearing involves a Registered Entity's Mitigation Proposal, (a) the Registered Entity's Mitigation Proposal and supporting information as to why the Registered Entity's Mitigation Proposal should be accepted and (b) the report of the Compliance Enforcement Authority stating why the Registrant's Mitigation Proposal was not accepted;
- (4) Any requests for recusal of a member of the Hearing Body, a Presiding Officer, or a Technical Advisor, and any responses to such requests;
- (5) All motions, notices and responses filed by the parties during the hearing process;
- (6) All documents that set forth or that summarize any ex parte communications;
- (7) All notices and rulings issued by the Hearing Body during the hearing process;
- (8) All interlocutory orders;
- (9) All written testimony and all exhibits received into evidence;
- (10) All written testimony and documentary exhibits that were proffered but not admitted into evidence;
- (11) Any transcript(s);
- (12) The parties' post-hearing briefs, any exceptions to the draft recommendation, any motions for reconsideration or rehearing, and any other post-decision briefing or motion;
- (13) The draft recommendation of the Presiding Officer, if any; and
- (14) The final recommendation of the Hearing Body.

9.0 Timing of Written Recommendation to the Board

The Hearing Body shall issue its written final recommendation to the Board within thirty (30) days following the submission of post-hearing briefs, or, if briefing is waived, following the conclusion of the hearing. The Hearing Body may in its discretion extend the time for the issuance of the written final recommendation to the Board for up to an additional sixty (60) days. The written final recommendation shall state the opinion of the Hearing Body with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Registered Entity's Mitigation Proposal, the written final recommendation shall either

propose acceptance or rejection of the Registered Entity's Mitigation Proposal. If the proposed Registered Entity's Mitigation Proposal is recommended for rejection, the Hearing Body may specify the provisions of an alternative plan of mitigation that the Registered Entity should be required to implement. The written final recommendation shall explain the reasons for the Hearing Body's conclusions and cite the testimony and exhibits relied on by the Hearing Body in reaching its opinions. Copies of the written final recommendation shall be served electronically and by certified mail on the Registered Entity and on the Compliance Enforcement Authority's designated representative at the time it is issued to the Board.

9.1 Written Decision by the Board

The Board shall issue its written decision accepting, rejecting or modifying the Hearing Body's recommendation, within twenty (20) business days following the issuance of the Hearing Body's written final recommendation. The Board may extend the date for issuance of its written decision for an additional twenty (20) business days in its sole discretion. The Board's written decision shall state the conclusion of the Board with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Registered Entity's Mitigation Proposal, the written decision shall either accept or reject the Registered Entity's Mitigation Proposal. If the proposed Registered Entity's Mitigation Proposal is rejected, the Board may specify the provisions of the Registered Entity's Mitigation Proposal that the Registered Entity should be required to implement, together with other mitigation measures the Board shall require. The written decision shall explain the reasons for the Board's conclusions and cite the testimony and exhibits relied on by the Board in reaching its conclusions. Copies of the written decision shall be served electronically and by certified mail on the Registered Entity, on the Compliance Enforcement Authority's designated representative, and on the Hearing Body.

9.2 NERC Appeal Process

The Registered Entity may appeal an adverse decision of the Board to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410.

10.0 Expedited Hearing Process for Disputes Concerning Remedial Action Directives

A Registered Entity that disputes a Remedial Action Directive issued by a Compliance Enforcement Authority may request an expedited hearing. To facilitate the expedited hearing, the Compliance Enforcement Authority may request that the Hearing Body convene for purposes of the expedited hearing process. The following expedited procedures shall be followed:

- (1) The Registered Entity shall file its written response the Remedial Action Directive and request for emergency hearing with the Hearing Body, with a copy to the Compliance Enforcement Authority's designated representative within two (2) business days after receipt of the Remedial Action Directive. The Hearing Body may appoint a Presiding Officer to conduct all proceedings under this Section 10.0, except for the issuance of a final recommendation to the Board.
- (2) The Hearing Body shall be convened for purposes of a prehearing, and if requested, for interim relief, not less than two (2) nor more than five (5) business days after receipt of the Registered Entity's request for a hearing.

- (3) The Hearing Body shall conduct a hearing on the matter, in person or by teleconference, within thirty (30) days after the Hearing Body is convened. At the hearing, the Compliance Enforcement Authority shall explain why the Remedial Action Directive should be complied with, and the Registered Entity shall explain why the Remedial Action Directive is not necessary or should be modified.
- (4) The Hearing Body shall issue a summary written recommendation to the Board within twenty (20) business days following the hearing, stating whether the Registered Entity should or should not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.
- (5) The Board shall issue a summary written decision within ten (10) business days following the Hearing Body's issuance of its summary written recommendation, stating whether the Registered Entity shall or shall not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.
- (6) If the Board's summary written decision concludes that the Registered Entity is required to comply with the Remedial Action Directive or any modification to such directive (including adjustments to the timetable for implementation), the Registered Entity shall be required to begin implementing the Remedial Action Directive upon receipt of the summary written decision, if it has not already implemented the Remedial Action Directive.
- (7) Within thirty (30) days following issuance of its summary written decision, the Board shall issue a full written decision regarding the Remedial Action Directive to the requirements of Section 9.0, above, that may be appealed consistent with Section 9.2.
- (8) This Section 10.0 provides procedures for the expeditious determination of the propriety of a contested Remedial Action Directive. Nothing in this Section shall be read to impair the Compliance Enforcement Authority's authority to issue a Notice of Alleged Violation and proposed sanction on alleged violations of standards addressed by a Remedial Action Directive or on other alleged violations occurring contemporaneously with the Remedial Action Directive or at any other time using the non-expedited procedures of this Attachment 1 or Attachment 2— Rules of Procedure.

ATTACHMENT 2 TO EXHIBIT D – TEXAS RE RULES OF PROCEDURE

1.1 Applicability, Definitions and Interpretation

1.1.1 Procedure Governed

The provisions set forth in this Attachment 2 to the Texas Reliability Entity, Inc. (“Texas RE” or “Compliance Enforcement Authority”) (“Rules of Procedure”) shall apply to and govern practice and procedure before the Compliance Enforcement Authority and Hearing Board, as defined herein, in hearings in the ERCOT region of the United States conducted into (a) whether Registered Entities within the Compliance Enforcement Authority’s area of responsibility have violated Reliability Standards, and (b) if so, to determine the appropriate Mitigation Plans as well as any remedial actions, penalties or sanctions in accordance with the NERC *ERO Sanction Guidelines* and other applicable penalty guidelines approved by FERC pursuant to 18 C.F.R. Section 39.7(g)(2). Any hearing conducted pursuant to these Rules of Procedure shall be conducted before the Public Utility Commission of Texas (“Commission”), as is further provided herein.

1.1.2 Deviations and Exceptions

- (a) To the extent permitted by law, any provision in these Rules of Procedure may be waived, suspended or modified by the Presiding Officer or the Hearing Body, as defined in Section 1.1.5, for good cause shown, either upon the Presiding Officer’s or the Hearing Body’s own motion or upon the motion of any Party.
- (b) Where an issue is not addressed by the terms of these Rules, the Hearing Body shall use the Chapter 22 Procedural Rules.
- (c) The following provisions of Chapter 22 shall not be applicable to proceedings brought under these Procedural Rules:
 - (1) P.U.C. PROC. R. § 22.32;
 - (2) P.U.C. PROC. R. § 22.33;
 - (3) P.U.C. PROC. R. § 22.35;
 - (4) P.U.C. PROC. R. §§ 22.51-22.54;
 - (5) P.U.C. PROC. R. § 22.56;
 - (6) P.U.C. PROC. R. § 22.71(j);
 - (7) P.U.C. PROC. R. §§ 22.102(a)(3), (4) and (c);
 - (8) P.U.C. PROC. R. §§ 22.103-22.105;
 - (9) P.U.C. PROC. R. §§ 22.125-22.126;
 - (10) P.U.C. PROC. R. § 22.202(e);
 - (11) P.U.C. PROC. R. §§ 22.206-22.207;
 - (12) P.U.C. PROC. R. §§ 22.241-22.246;
 - (13) P.U.C. PROC. R. §§ 22.251-22.252;
 - (14) P.U.C. PROC. R. § 22.263(d); and

(15) P.U.C. PROC. R. §§ 22.281-22.284.

(d) For purposes of this Attachment 2—Rules of Procedure, the following shall supplement the terms of a Chapter 22 Rule, as specified:

(1) P.U.C. PROC. R. § 22.31. The following subsection (d) shall be added:

“(d) The Hearing Body Clerk shall designate each proceeding brought under these rules as a docket.”

(2) P.U.C. PROC. R. § 22.72(e). The following sentence shall be added at the end of this subsection:

“A party or its authorized representative shall also provide in its signature block one or more electronic mail addresses to which service may be made.”

(3) P.U.C. PROC. R. § 22.74(b). The following sentence shall be added at the end of this subsection:

“(b) . . . Service may be made by electronic mail to the email address included in a signature block of a party or its authorized representative.

* * *

“(4) Service by email shall be complete upon transmission of the communication from the electronic mail server of the serving party.”

(e) All proceedings filed under these rules shall be conducted under the Commission’s Chapter 22 Procedural Rules, as modified herein, but may not be referred to the State Office of Administrative Hearings.

1.1.3 Standards for Discretion

The Hearing Body’s discretion under these Rules of Procedure shall be exercised to accomplish the following goals:

- (a) Integrity of the Fact-Finding Process - The principal goal of the hearing process is to assemble a complete factual record to serve as a basis for a correct and legally sustainable ruling, decision or order.
- (b) Fairness - Persons appearing in Compliance Enforcement Authority proceedings should be treated fairly. To this end, Parties should be given fair notice and opportunity to present explanations, factual information, documentation and legal argument. Action shall be taken as necessary to eliminate any disadvantage or prejudice to a Party that would otherwise result from another Party’s failure to act diligently and in good faith.
- (c) Independence - The hearing process should be tailored to protect against undue influence from any Person, Party or interest group.
- (d) Balanced Decision-Making - Decisions should be based solely on the facts and arguments of record in a proceeding and by individuals who satisfy the Compliance Enforcement Authority’s conflict of interest policy.

- (e) Impartiality - Persons appearing before the Hearing Body should not be subject to discriminatory or preferential treatment. Registered Entities should be treated consistently unless a reasonable basis is shown in any particular proceeding to depart from prior rulings, decisions or orders.
- (f) Expedition - Proceedings shall be brought to a conclusion as swiftly as is possible in keeping with the other goals of the hearing process.

1.1.4 Interpretation

- (a) These Rules of Procedure shall be interpreted in such a manner as will aid in effectuating the Standards for Discretion set forth in Section 1.1.3, and so as to require that all practices in connection with the hearings shall be just and reasonable.
- (b) Unless the context otherwise requires, the singular of a term used herein shall include the plural and the plural of a term shall include the singular.
- (c) To the extent that the text of a rule is inconsistent with its caption, the text of the rule shall control.

1.1.5 Definitions

- (a) Unless otherwise defined, as used in these Rules of Procedure (i) definitions in Section 1.1 of the NERC Compliance Monitoring and Enforcement Program shall apply, and (ii) the following terms shall have the following meanings:

“Board” means the Board of Directors of Texas Reliability Entity.

“Bulk-Power System,” for the purposes of these Rules of Procedure, has the meaning set forth in 16 U.S.C. §824o(a)(1).

“Chapter 22” or “Commission Procedural Rules” shall mean the Chapter 22 Procedural Rules of the Commission, 16 TEX. ADMIN. CODE ch. 22., and be cited as “P.U.C. PROC. R. § [].”

“Commission” means the Public Utility Commission of Texas.

“Compliance Enforcement Authority Clerk,” as designated by the Compliance Enforcement Authority.

“Compliance Enforcement Authority” means the Regional Entity, by and through its Chief Executive Officer.

“Compliance Enforcement Authority’s area of responsibility” means the Texas Reliability Entity’s corporate region.

“Critical Energy Infrastructure Information” means specific engineering, vulnerability, or detailed design information about proposed or existing critical infrastructure that: (i) relates details about the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person in planning an attack on critical infrastructure; and (iii) does not simply give the location of the critical infrastructure.

“Critical infrastructure” means existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters.

“Cybersecurity Incident” means a malicious act or suspicious event that disrupts, or was an attempt to disrupt, the operation of those programmable electronic devices and communications networks including hardware, software, and data that are essential to the Reliable Operation of the Bulk-Power System.

“ERO” means the Electric Reliability Organization, currently the North American Electric Reliability Corporation, or any successor organization, certified by FERC pursuant to 18 C.F.R. §39.3.

“FERC” means the Federal Energy Regulatory Commission.

“Filing Clerk” or “Hearing Body Clerk” means the Central Records filing clerk of the Public Utility Commission of Texas.

“Hearing Body” means the Public Utility Commission of Texas.

“Mitigation Plan” means an action plan developed by a Registered Entity to (i) correct a violation of a Reliability Standard and (ii) prevent reoccurrence of the violation. A Mitigation Plan is required when a Registered Entity violates a Reliability Standard as determined by any means including Compliance Enforcement Authority Decision, settlement agreement, or otherwise.

“Party” means any Person who is allowed or required to participate in a proceeding conducted pursuant to these Rules of Procedure. The term “Party” as used herein shall include the members of the Compliance Staff of the Compliance Enforcement Authority that participate in a proceeding.

“Penalty” as used herein includes all penalties and sanctions that may be imposed pursuant to 16 U.S.C. §824o-1 and applicable regulations, including but not limited to a monetary or non-monetary penalty; a limitation on an activity, function, operation or other appropriate sanction; or the addition of the Registered Entity to a reliability watch list composed of major violators. Penalties must be within the range set forth in the NERC *ERO Sanction Guidelines* approved by FERC pursuant to 18 C.F.R. Section 39.7(g)(2), and shall bear a reasonable relation to the seriousness of a Registered Entity’s violation and take into consideration any timely efforts made by the Registered Entity to remedy the violation.

“Person” means any individual, partnership, corporation, limited liability company, governmental body, association, joint stock company, public trust, organized group of persons, whether incorporated or not, or any other legal entity.

“Presiding Officer” or “Hearing Examiner” means an individual employed or contracted by the Hearing Body and designated by the Hearing Body to preside over hearings conducted pursuant to these Rules of Procedure.

“North American Electric Reliability Council” or “NERC” means North American Electric Reliability Corporation.

“Registered Entity” means each user, owner and operator of the Bulk-Power System within the United States that is required to register with the Regional Entity pursuant to 18 C.F.R. § 39.2.

“Regional Entity” means Texas Reliability Entity or Texas RE.

“Reliable Operation” has the meaning set forth in Section 215 of the Federal Power Act.

“Reliability Standards” means standards approved by FERC pursuant to Section 215 of the Federal Power Act and 18 C.F.R. Section 39.5, as such standards are authorized and in effect from time to time.

“Remedial Action Directive” means an action (other than a penalty or sanction) required that (1) is to bring a Registered Entity into compliance with a Reliability Standard or to avoid a Reliability Standard violation, and (2) is immediately necessary to protect the reliability of the Bulk Power System from an imminent threat of harm.

“Respondent” means the Registered Entity who is the subject of the Notice of Alleged Violation or contested Mitigation Plan that is the basis for the proceeding, whichever is applicable.

“Staff” or “Compliance Staff” means individuals employed or contracted by the Compliance Enforcement Authority who have the authority to make initial determinations of Registered Entities’ compliance with or violation of the Reliability Standards and associated Penalties and Mitigation Plans.

“Technical Advisor” means any Staff member, Hearing Body employee, third-party contractor, or industry stakeholder who satisfies the Compliance Enforcement Authority’s conflict of interest policy and is selected to assist in a proceeding by providing technical advice to the Presiding Officer and/or the Hearing Body.

- (b) For purposes of this Attachment 2--Rules of Procedure and in application to any proceeding brought under these rules, the following terms shall be substituted for the term used in a Chapter 22 rule:

“Administrative law judge” shall mean and refer to the defined term “Presiding Officer.”

“Central records” shall mean “Hearing Body Clerk.”

“Final order” shall mean “final recommendation.”

“Proposal for decision” shall mean “draft recommendation.”

“Public utility” shall mean “party.”

- (c) If a term is defined in this Attachment 2—Rules of Procedure and in Chapter 22, the meaning expressed herein shall prevail.

1.1.6 Interventions Are Not Permitted

The Respondent(s) and Compliance Staff shall be Parties to the proceeding. Unless otherwise authorized by FERC, no other Persons shall be permitted to intervene or otherwise become a Party to the proceeding.

1.1.7. Proceedings Open to the Public

All hearings, oral arguments, and meetings of the Hearing Body shall be open to the public, and every notice, ruling, order or any other issuance of the Presiding Officer or Hearing Body, and any transcript, made in any proceeding shall be publicly released unless a Party has requested that it be kept confidential in accordance with Texas law, and the Presiding Officer or Hearing Body determines that the information should not be released publicly.

1.1.8 Numbering and Docketing System

The Staff of the Compliance Enforcement Authority shall maintain a system of numbering proceedings before they are sent to the Hearing Body for a hearing under these procedures. A numbered proceeding shall be created within the Compliance Enforcement Authority upon the issuance of a notice of Alleged Violation. Unless NERC provides a different docketing system that will be used uniformly by the Compliance Enforcement Authority, proceeding numbers shall be assigned sequentially beginning with a two digit number that relates to the last two digits of the year in which the docket is initiated, followed by a dash ("-"), followed by the letters "[RE]", followed by a dash ("-"), followed by a four digit number that will be "0001" on January 1 of each calendar year and ascend sequentially until December 31 of the same calendar year. If the proceeding is not settled and becomes a contested matter before the Hearing Body, the Hearing Body's numbering and docketing system shall govern the tracking of such filings while under the Hearing Body's administration.

1.2 Hold Harmless

A condition of a Party invoking these Rules of Procedure and participating in a hearing is that the Party agrees that the Compliance Enforcement Authority, including without limitation its members, board of directors or trustees, compliance committee, any other committees or subcommittees, Staff, contracted employees, attorneys and experts (outside or in-house), Hearing Body members, Presiding Officers and Technical Advisors, shall not be liable, and shall be held harmless against the consequences of, or any action or inaction arising out of, the hearing process, or of any agreement reached in resolution of a dispute or any failure to reach agreement as a result of a proceeding. This "hold harmless" provision does not extend to matters constituting gross negligence, intentional misconduct, or breach of confidentiality.

1.3 Initiation of the Hearing Process

Except when contesting a Remedial Action Directive pursuant to section 1.5 of these Rules of Procedure, a Registered Entity may file a response or complaint with the Compliance Enforcement Authority and the Filing Clerk requesting a hearing if:

- (a) The Registered Entity contests a Notice of Alleged Violation as to the existence or scope of the alleged violation, the proposed Penalty, or both; or
- (b) The Registered Entity contests the Compliance Enforcement Authority's rejection of Registered Entity's Mitigation Proposal in whole or in part.

A Registered Entity must file its hearing request within forty (40) days after (i) the Registered Entity files its response to the notice of Alleged Violation; or (ii) the Compliance Staff submits to the Registered Entity its statement identifying a disagreement with the Registered Entity's Mitigation Proposal, whichever is applicable. If the Registered Entity does not file a hearing request within the time period set forth in this Section, then the Registered Entity will be deemed to have agreed and waived any objection to the proposed Penalty, the Alleged Violation or the Compliance Staff's stated position on the Registered Entity's Mitigation Proposal, whichever is applicable.

Either a notice of Alleged Violation issued to a Registered Entity or a Staff statement setting forth its disagreement with a Registered Entity's Mitigation Proposal shall clearly state that the Registered Entity has the option to contest the Alleged Violation, proposed Penalty, or both, or the Compliance Staff's position on the Registered Entity's Mitigation Proposal.

A Registered Entity shall attach to a request for hearing whichever of the following are applicable:

- (a) The Registered Entity's Self-Reporting of a violation;
- (b) The Notice of Alleged Violation and the Registered Entity's response thereto; or
- (c) The Registered Entity's Mitigation Proposal and the Compliance Staff's statement identifying its disagreement with the Registered Entity's Mitigation Proposal.

1.4 General Hearing Procedure

Except as otherwise specified in this Attachment 2—Rules of Procedure, the procedures and timelines set forth in Chapter 22 shall govern the conduct of a hearing arising under these rules.

1.4.1 Hearing Body

The Hearing Body, consisting of a quorum of the Commission, shall hear all proceedings brought under these Rules of Procedure, unless the Commission elects to delegate all or part of the proceeding to a Presiding Officer who is a member of the Commission Staff. The Hearing Body is vested with the exclusive authority to issue a final recommendation to the Board for the resolution of the issue(s) presented. The following procedures shall also apply:

- (a) The Hearing Body or any individual member thereof may, but is not required to, attend any prehearing conference, status hearing or evidentiary hearing, or to submit questions to the Presiding Officer to submit to a Party or any witness at any such hearing. No more than one member of the Hearing Body may be present for any prehearing conference, status hearing, or evidentiary hearing unless the Hearing Body has complied with the Open Meetings requirements of Texas law.
- (b) The Hearing Body shall resolve the issue(s) in every hearing through the issuance of a final recommendation to the Board. In issuing a final recommendation to the Board, the Hearing Body shall consider the Presiding Officer's draft recommendation but shall have the authority to

reject, modify or approve the draft recommendation in whole or in part in issuing its final recommendation.

1.4.2 Technical Advisor

The Presiding Officer or the Hearing Body may elect to use one or more Technical Advisors to assist in any proceeding. Such an election may be made at any time during the course of a proceeding. Any Staff member who serves as a Technical Advisor shall not have been involved in or consulted at any time in regard to any Compliance Staff investigation, initial determination of Alleged Violation or Penalty, or assessment of a Registered Entity's proposed Mitigation Plan that resulted in the proceeding in which technical advice would be rendered, and shall not otherwise participate in the proceeding on which such technical advice would be rendered.

If the Presiding Officer or Hearing Body uses a Technical Advisor to assist in any hearing, the Presiding Officer or Hearing Body shall disclose the identity, employment history and professional affiliations of the Technical Advisor within two (2) days of the Technical Advisor's assignment to the proceeding, and Parties to the hearing may raise objections to the Technical Advisor's participation within 10 business days of disclosure.

1.5 Initiation of Remedial Action Directive Hearing

Staff may issue a Remedial Action Directive to a Registered Entity at any time, including during any proceeding related to an alleged violation of a Reliability Standard. The Compliance Enforcement Authority will notify NERC within two (2) days after its Staff issues a Remedial Action Directive.

The Registered Entity may contest the Remedial Action Directive in accordance with these Rules of Procedure and Delegation Agreement, Exhibit D, Attachment 1, §10, by filing a written notice with the Compliance Enforcement Authority that states that the Registered Entity contests the Remedial Action Directive and that the Registered Entity requests a Remedial Action Directive hearing. The Registered Entity shall attach a copy of the Remedial Action Directive to its written notice. The Registered Entity must provide such notice within two (2) business days following issuance of the Remedial Action Directive. If the Registered Entity does not give written notice to the Compliance Enforcement Authority within the required time period, the Registered Entity shall be deemed to have waived its right to contest the Remedial Action Directive.

The Registered Entity shall simultaneously file with the Hearing Body Clerk a copy of the notice that it is contesting the Remedial Action Directive.

The Hearing Body Clerk shall assign a docket number, and issue a Notice of Hearing that sets forth the date, time and place at which the hearing will convene.

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

Texas RE shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) NERC and Texas RE, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of Texas RE's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require Texas RE (i) to submit to NERC draft(s) of Texas RE's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by Texas RE Board of Directors to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of Texas RE's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The Texas RE business plan and budget submission shall include supporting materials, including Texas RE's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. Texas RE's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(b) NERC shall review and approve Texas RE's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct Texas RE to make such revisions as NERC deems appropriate prior to approval. NERC shall submit Texas RE's approved business plan and budget and proposed assessments to the Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

4-14-2010

Assessments to fund the costs of Texas RE's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. Texas RE shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying Texas RE's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of Texas RE's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used. NERC and Texas RE agree that for purposes of Section 3 and 4 of this Exhibit E, Electric Reliability Council of Texas (ERCOT ISO), as the sole independent system operator and Balancing Authority, is the only load-serving entity or designee in Texas RE's region and shall be invoiced for the entire NERC and Texas RE assessments approved for collection.

4. Collection of Funding

(a) NERC shall submit invoices to the load-serving entities or designees identified by Texas RE covering the NERC and Texas RE assessments approved for collection.

(b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, Texas RE shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, Texas RE is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within Texas RE's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within Texas RE's region.

(c) Upon approval by ERO Governmental Authorities of Texas RE's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay Texas RE's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

4-14-2010

Except as otherwise approved by the Commission, all penalty monies received by Texas RE, other than penalty monies received from an operational function or division or affiliated entity of Texas RE, shall be applied as a general offset to Texas RE's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of Texas RE shall be transmitted to or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.

6. Budget and Funding for Texas RE's Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), Texas RE performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"):

Texas RE does not anticipate auditing or investigating market participants' compliance with ERCOT Protocols and Operating Guides in 2011. Texas RE will, however, need to respond to subpoenas and provide testimony and support to the Public Utility Commission of Texas (PUCT) regarding Texas RE's ERCOT Protocol and Operating Guide compliance and enforcement audits, investigations, and reports from the period in which Texas RE conducted the compliance investigations.

Texas RE shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions:

- A. Texas RE segregates the funding for its statutory activities and non-statutory activities by recording the funding transactions in separate and distinct general ledger accounts, in accordance with Generally Accepted Accounting Principles.
- B. Texas RE utilizes and must maintain a time recording and expense management system under which employee time and expenses incurred in the conduct of non-statutory activities will be tracked to ensure that they are not funded by NERC remittances intended for the funding of statutory activities.
- C. Texas RE has adopted a detailed system of Account Codes, Department Codes and Activity Codes which are used in recording expenses. The Activity Codes are specific to statutory activities and non-statutory activities. The Texas RE Activity Codes are modeled on the NERC Functional Categories. Texas RE shall use Department Codes that are unique to Texas RE to record all costs and expenses incurred by Texas RE for statutory activities and non-statutory activities.

4-14-2010

- D. Texas RE shall use Activity Codes to appropriately track its costs for statutory activities separately from its costs for non-statutory activities.
- E. Where employee time or an expense affects multiple activities, Texas RE will use an accurate basis of allocation of the time or expense between the activities being performed based on specific metrics, such as time tracking, data observations or total cost input. Total cost input relates the portion of the expense to the total expense to establish an appropriate method to allocate.

Texas RE shall provide its budget for such non-statutory activities to NERC at the same time that Texas RE submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. Texas RE's budget for non-statutory activities that is provided to NERC shall contain a detailed list of Texas RE's non-statutory activities and a description of the funding sources for the non-statutory activities. Texas RE agrees that no costs (which shall include a reasonable allocation of Texas RE's general and administrative costs) of non-statutory activities are to be included in the calculation of Texas RE's assessments, dues, fees, and other charges for its statutory activities.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if Texas RE determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, Texas RE shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in Texas RE's approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct Texas RE to make such revisions as NERC deems appropriate prior to approval. NERC shall submit Texas RE's approved amended or supplemental business plan and budget and proposed supplemental assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by Texas RE pursuant to Section 9(h) and (i) of the Agreement. Texas RE shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

REVISED DELEGATION AGREEMENT

WITH

TEXAS RELIABILITY ENTITY

REDLINED AGAINST

REVISED PRO FORMA DELEGATION AGREEMENT

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND ~~REGIONAL~~TEXAS RELIABILITY ENTITY, INC.**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of ~~January 1, 2011~~, between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and ~~REGIONAL ENTITY~~Texas Reliability Entity, Inc. (“Texas RE”), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and ~~REGIONAL ENTITY~~Texas RE may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as ~~REGIONAL ENTITY~~Texas RE provided that:

(A) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, ~~REGIONAL ENTITY~~Texas RE ~~is/is not~~ organized on an Interconnection-wide basis and therefore ~~is/is not~~ entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through ~~REGIONAL ENTITY~~Texas RE to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that ~~{REGIONAL ENTITY}~~Texas RE meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and ~~{REGIONAL ENTITY}~~Texas RE, having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and ~~{REGIONAL ENTITY}~~Texas RE agree as follows:

1. Definitions. The capitalized terms used in this Agreement shall be defined as set forth in the Act, the ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to ~~{REGIONAL ENTITY}~~Texas RE to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. Representations.

(a) For purposes of its Delegated Authority, ~~{REGIONAL ENTITY}~~Texas RE hereby represents and warrants to NERC that:

(i) ~~{REGIONAL ENTITY}~~Texas RE is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. ~~{REGIONAL ENTITY}~~Texas RE is governed in accordance with its bylaws by ~~{select appropriate: an independent board/a balanced stakeholder board/}~~ a combination independent and balanced stakeholder board~~].~~ Pursuant to these bylaws, no two industry sectors can control any ~~{REGIONAL ENTITY}~~Texas RE decision and no single industry sector can veto any ~~{REGIONAL ENTITY}~~Texas RE decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon ~~{REGIONAL ENTITY}~~Texas RE.

(ii) As set forth in **Exhibit C** hereto², ~~{REGIONAL ENTITY}~~Texas RE has developed a standards development procedure, which provides the process that ~~{REGIONAL ENTITY}~~Texas RE may use to develop Regional Reliability Standards ~~{and Regional Variances, if the regional entity is organized on an Interconnection wide basis}~~ that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, ~~{REGIONAL ENTITY}~~Texas RE has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within ~~{REGIONAL ENTITY}~~'s Texas RE's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to ~~{REGIONAL ENTITY}~~Texas RE that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

¹ The **Exhibit B** from ~~{REGIONAL ENTITY}~~Texas RE shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from ~~{REGIONAL ENTITY}~~Texas RE shall meet the requirements contained in **Exhibit C** to this Agreement.

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. Covenants.

(a) During the term of this Agreement, ~~REGIONAL ENTITY~~Texas RE shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of ~~REGIONAL ENTITY~~Texas RE under this Agreement without first obtaining the consent of ~~REGIONAL ENTITY~~,Texas RE, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and ~~REGIONAL ENTITY~~Texas RE shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. Delegation of Authority.

(a) Based upon the representations, warranties and covenants of ~~REGIONAL ENTITY~~Texas RE in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to ~~REGIONAL ENTITY~~Texas RE for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that ~~REGIONAL ENTITY~~Texas RE shall not monitor and enforce compliance with Reliability

Standards for ~~{REGIONAL ENTITY}~~Texas RE or an affiliated entity with respect to reliability functions for which ~~{REGIONAL ENTITY}~~Texas RE or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to ~~{REGIONAL ENTITY}~~Texas RE within, or additions to this delegation of authority to ~~{REGIONAL ENTITY}~~Texas RE beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where ~~{REGIONAL ENTITY}~~Texas RE or an affiliated entity is a Registered Entity, ~~{REGIONAL ENTITY}~~Texas RE shall enter into an agreement with another Regional Entity or NERC for the other Regional Entity or NERC to monitor and enforce ~~{REGIONAL ENTITY}~~'sTexas RE's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit ~~{REGIONAL ENTITY}~~Texas RE from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both ~~{REGIONAL ENTITY}~~Texas RE and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, ~~{REGIONAL ENTITY}~~Texas RE shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, ~~{REGIONAL ENTITY}~~Texas RE shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process

for proposing and adopting Reliability Standards that affords ~~[REGIONAL ENTITY]~~Texas RE reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards ~~and Regional Variances,~~ ~~if Regional Entity is organized on an Interconnection-wide basis~~ through ~~[REGIONAL ENTITY]'s~~Texas RE's process as set forth in **Exhibit C**. Proposals approved through ~~[REGIONAL ENTITY]'s~~Texas RE's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. ~~[REGIONAL ENTITY]~~Texas RE may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, ~~[REGIONAL ENTITY]~~Texas RE shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as

otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and ~~{REGIONAL ENTITY}~~Texas RE agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. ~~{REGIONAL ENTITY}~~Texas RE may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, ~~{REGIONAL ENTITY}~~Texas RE agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) ~~{REGIONAL ENTITY}~~Texas RE shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by ~~{REGIONAL ENTITY}~~Texas RE. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and ~~{REGIONAL ENTITY}~~Texas RE shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by ~~[REGIONAL ENTITY]~~Texas RE of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review ~~[REGIONAL ENTITY]~~'s Texas RE's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by ~~[REGIONAL ENTITY]~~Texas RE in accordance with the NERC Rules of Procedure, NERC directives and Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by ~~[REGIONAL ENTITY]~~Texas RE and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. ~~{REGIONAL ENTITY}~~Texas RE may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of ~~{REGIONAL ENTITY}~~'sTexas RE's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by ~~{REGIONAL ENTITY}~~Texas RE as a result of a decision by ~~{REGIONAL ENTITY}~~'sTexas RE's Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) ~~{REGIONAL ENTITY}~~Texas RE shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) ~~{REGIONAL ENTITY}~~Texas RE shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, ~~{REGIONAL ENTITY}~~Texas RE shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. A Regional Entity may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review ~~{REGIONAL ENTITY}~~'sTexas RE's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices

reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

7. Delegation-Related Activities.

NERC will engage ~~{REGIONAL ENTITY}~~Texas RE on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. ~~{REGIONAL ENTITY}~~Texas RE shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by ~~{REGIONAL ENTITY}~~Texas RE and other Regional Entities. ~~{REGIONAL ENTITY}~~Texas RE shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) **Reliability Assessment and Performance Analysis.** ~~{REGIONAL ENTITY}~~Texas RE shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. ~~{REGIONAL ENTITY}~~Texas RE shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by ~~{REGIONAL ENTITY}~~Texas RE and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) **Event Analysis and Reliability Improvement.** ~~{REGIONAL ENTITY}~~Texas RE shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and ~~{REGIONAL ENTITY}~~Texas RE shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, ~~{REGIONAL ENTITY}~~Texas RE shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) **Training and Education.** ~~{REGIONAL ENTITY}~~Texas RE may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) **Situation Awareness and Infrastructure Security.**

(i) ~~{REGIONAL ENTITY}~~Texas RE shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) ~~{REGIONAL ENTITY}~~Texas RE shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of ~~{REGIONAL ENTITY}~~'s Texas RE's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and ~~{REGIONAL ENTITY}~~Texas RE that matters relating to NERC's oversight of ~~{REGIONAL ENTITY}~~'s Texas RE's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and ~~{REGIONAL ENTITY}~~Texas RE and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with ~~{REGIONAL ENTITY}~~Texas RE and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and ~~{REGIONAL ENTITY}~~'s Texas RE's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. ~~{REGIONAL ENTITY}~~Texas RE shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate ~~{REGIONAL ENTITY}~~'s Texas RE's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate ~~{REGIONAL ENTITY}~~'s Texas RE's performance of its delegated functions and related activities and to provide advice and direction to ~~{REGIONAL ENTITY}~~Texas RE on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, ~~{REGIONAL ENTITY}~~Texas RE and the other Regional Entities, revised if appropriate, and

made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, ~~{REGIONAL ENTITY}~~Texas RE shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of ~~{REGIONAL ENTITY}~~'s Texas RE's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring ~~{REGIONAL ENTITY}~~Texas RE to adopt and implement an action plan or other remedial action, NERC shall issue a notice to ~~{REGIONAL ENTITY}~~Texas RE of the need and basis for an action plan or other remedial action and provide an opportunity for ~~{REGIONAL ENTITY}~~Texas RE to submit a written response contesting NERC's evaluation of ~~{REGIONAL ENTITY}~~'s Texas RE's performance and the need for an action plan. ~~{REGIONAL ENTITY}~~Texas RE may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and ~~{REGIONAL ENTITY}~~Texas RE shall work collaboratively as needed in the development and implementation of ~~{REGIONAL ENTITY}~~'s Texas RE's action plan. A final action plan submitted by ~~{REGIONAL ENTITY}~~Texas RE to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to ~~{REGIONAL ENTITY}~~Texas RE standardized training and education programs, which shall be designed taking into account input from ~~{REGIONAL ENTITY}~~Texas RE and other Regional Entities, for ~~{REGIONAL ENTITY}~~Texas RE personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to ~~{REGIONAL ENTITY}~~Texas RE concerning the manner in which ~~{REGIONAL ENTITY}~~Texas RE shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a collaborative process with ~~{REGIONAL ENTITY}~~Texas RE and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and ~~{REGIONAL ENTITY}~~Texas RE and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), ~~{REGIONAL ENTITY}~~Texas RE and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, ~~{REGIONAL ENTITY}~~Texas RE, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by ~~{REGIONAL ENTITY}~~Texas RE, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without ~~{REGIONAL ENTITY}~~'sTexas RE's agreement, *provided*, that ~~{REGIONAL ENTITY}~~Texas RE shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and ~~{REGIONAL ENTITY}~~Texas RE and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which ~~{REGIONAL ENTITY}~~Texas RE, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power

System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a specific reason for maintaining particular guidance or directions as non-public. ~~[REGIONAL ENTITY]~~, Texas RE, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with ~~[REGIONAL ENTITY]~~, Texas RE, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of ~~[REGIONAL ENTITY]~~, Texas RE performed by NERC shall be limited to an examination of ~~[REGIONAL ENTITY]~~'s Texas RE's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. ~~[REGIONAL ENTITY]~~, Texas RE and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) ~~[REGIONAL ENTITY]~~, Texas RE shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. ~~[REGIONAL ENTITY]~~'s Texas RE's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, ~~[REGIONAL ENTITY]~~, Texas RE to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. ~~[REGIONAL ENTITY]~~'s Texas RE's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) ~~[REGIONAL ENTITY]~~, Texas RE and NERC agree that the portion of ~~[REGIONAL ENTITY]~~'s Texas RE's approved budget for the functions and activities described

in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by ~~[REGIONAL ENTITY]~~Texas RE and approved by NERC and the Commission. If ~~[REGIONAL ENTITY]~~Texas RE proposes to use a formula other than Net Energy for Load beginning in the following year, ~~[REGIONAL ENTITY]~~Texas RE shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and ~~[REGIONAL ENTITY]~~Texas RE to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide ~~[REGIONAL ENTITY]~~Texas RE with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) ~~[REGIONAL ENTITY]~~Texas RE shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of ~~[REGIONAL ENTITY]~~,Texas RE, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund ~~[REGIONAL ENTITY]~~'sTexas RE's performance of its Delegated Authority and related activities in accordance with ~~[REGIONAL ENTITY]~~'sTexas RE's Commission-approved business plan and budget, in the amount of ~~[REGIONAL~~

~~ENTITY~~'s Texas RE's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting ~~REGIONAL ENTITY~~'s Texas RE's approved assessments from end users and other entities and payment of the approved assessment amount to ~~REGIONAL ENTITY~~, Texas RE, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon ~~REGIONAL ENTITY~~ Texas RE that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without ~~REGIONAL ENTITY~~'s Texas RE's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and ~~REGIONAL ENTITY~~ Texas RE fiscal year budget with the actual results at the NERC and Regional Entity levels. ~~REGIONAL ENTITY~~ Texas RE shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) ~~REGIONAL ENTITY~~ Texas RE shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) ~~REGIONAL ENTITY~~ Texas RE shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which ~~REGIONAL ENTITY~~ Texas RE shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of ~~REGIONAL ENTITY~~ Texas RE) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which ~~REGIONAL ENTITY~~ Texas RE shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of ~~REGIONAL ENTITY~~ Texas RE. *Provided*, that, subject to approval by NERC and the

Commission, ~~{REGIONAL ENTITY}~~Texas RE may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. ~~{REGIONAL ENTITY}~~Texas RE may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit ~~{REGIONAL ENTITY}~~Texas RE from contracting with other entities to assist it in carrying out its Delegated Authority, provided ~~{REGIONAL ENTITY}~~Texas RE retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the "Default Notice"). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on ~~{January 1, 2011}~~ (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~{REGIONAL ENTITY}~~Texas RE continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If ~~{REGIONAL ENTITY}~~Texas RE meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that ~~{REGIONAL ENTITY}~~Texas RE continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of ~~{REGIONAL ENTITY}~~Texas RE's Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time ~~{REGIONAL ENTITY}~~Texas RE may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the

Commission, or at such other time as may be mutually agreed by ~~{REGIONAL ENTITY}~~Texas RE and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. ~~{REGIONAL ENTITY}~~Texas RE and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and ~~{REGIONAL ENTITY}~~Texas RE shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the ~~{REGIONAL ENTITY}~~'s Texas RE's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the ~~{REGIONAL ENTITY}~~Texas RE or NERC is found liable for gross negligence or intentional misconduct, in which case ~~{REGIONAL ENTITY}~~Texas RE or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other

directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of ~~{REGIONAL ENTITY}~~Texas RE under this Agreement without first obtaining the consent of ~~{REGIONAL ENTITY}~~Texas RE, which consent shall not be unreasonably withheld or delayed. To the extent ~~{REGIONAL ENTITY}~~Texas RE does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of ~~{REGIONAL ENTITY}~~Texas RE under this Agreement, ~~{REGIONAL ENTITY}~~Texas RE shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one

year following written notice by ~~{REGIONAL ENTITY}~~Texas RE to NERC and the Commission, or at such other time as may be mutually agreed by ~~{REGIONAL ENTITY}~~Texas RE and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and ~~{REGIONAL ENTITY}~~Texas RE (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to ~~{REGIONAL ENTITY}~~'s Texas RE's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. ~~{REGIONAL ENTITY}~~Texas RE shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated

representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however*, that: (i) it is the intent of the Parties that unresolved disputes shall be presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in

writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. Headings. The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. Savings Clause. Nothing in this Agreement shall be construed to preempt or limit any authority that ~~REGIONAL ENTITY~~ Texas RE may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to

the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. Entire Agreement. This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. Execution of Counterparts. This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

Exhibit A — Regional Boundaries

Exhibit A to the delegation agreement for each Regional Entity receiving Delegated Authority shall describe the geographic or electrical boundaries covered by the proposed delegation of authority. **Exhibit A** for each Regional Entity shall reflect coordination with neighboring Regional Entities, as appropriate, to ensure that all relevant areas are either included within the geographic boundaries of a Regional Entity or specifically identified as not being within the geographic boundaries of any Regional Entity. Any exclusions of geographic or electrical areas or of Registered Entities from the scope of the Regional Entity's Delegated Authority within the geographic or electrical boundaries shown on **Exhibit A**, and any additions of geographic or electrical areas or of Registered Entities located outside the boundaries shown on **Exhibit A** to the scope of the Regional Entity's Delegated Authority, shall be specifically stated or described in **Exhibit A**.

EXHIBIT A – REGIONAL BOUNDARIES

The ERCOT Region is the geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas. The ERCOT Region does not interconnect synchronously across state lines to import or export power with neighboring reliability regions. The ERCOT geographic region includes 200,000 square miles, 85% of Texas load, and 75% of Texas land area (does not include the Panhandle, El Paso area, and 2 areas of East Texas). The ERCOT Region includes the following Texas cities and towns: Dallas, Ft. Worth, Houston, San Antonio, Austin, Paris, Tyler, Nacogdoches, Lufkin, Bryan, College Station, Corpus Christi, Harlingen, Brownsville, Laredo, Brownwood, San Angelo, Abilene, Midland, Odessa, Fort Stockton, Monahans, Snyder, Vernon, Wichita Falls, Denton, Garland, Greenville, Waco, Temple, Killeen, Weatherford, and Graham, as indicated on the map below.

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity’s bylaws, which NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

ARTICLE I. DEFINITIONS

Section 1. Definitions. The capitalized terms used in these Bylaws of Texas Reliability Entity, Inc. (the "Corporation" or "Texas RE"), shall have the meanings set forth below, or if not set forth below, shall have the meanings given them in the NERC Rules of Procedure.

(a) "Affiliate" means any entity controlling, controlled by or under common control with the entity under consideration, and includes any entity (i.e., any commercial enterprise) in any of the following relationships: (i) an entity that directly or indirectly owns or holds at least five percent of the voting securities of another entity, (ii) an entity in a chain of successive ownership of at least five percent of the voting securities of another entity, (iii) an entity which shares a common parent with or is under common influence or control with another entity or (iv) an entity that actually exercises substantial influence or control over the policies and actions of another entity. Evidence of influence or control shall include the possession, directly or indirectly, of the power to direct or cause the direction of the management and/or policies and procedures of another, whether that power is established through ownership or voting of at least five percent of the voting securities or by any other direct or indirect means. In cases where the level of control or influence is disputed, the Board shall have discretion to determine whether or not the entities are Affiliates of one another. Membership in Texas RE shall not create an affiliation with Texas RE.

(b) "Board" means the Board of Directors of the Corporation.

(c) "Bulk Power System" or "BPS" means facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof) and facilities generating electric energy as needed to maintain transmission system reliability, but does not include facilities used in the local distribution of electricity.

(d) "Commission" or "FERC" means the Federal Energy Regulatory Commission.

(e) "Delegated Authority" means the authority delegated by NERC to the Corporation to propose and enforce NERC Reliability Standards and perform other reliability-related activities in the ERCOT Region under the Delegation Agreement executed by NERC and the Corporation and approved by FERC, pursuant to Section 215 of the Federal Power Act (16 U.S.C. §824n).

(f) "Delegation Agreement" means the agreement between the Corporation and NERC and approved by the Commission which describes the Delegated Authority and may be amended from time to time.

(g) "Electric Reliability Organization" or "ERO" means the organization that is certified by the Commission pursuant to Section 39.3 of its regulations, and has received recognition by appropriate regulatory authorities in Canada and Mexico, as applicable, to establish and enforce Reliability Standards for the Bulk Power Systems of the respective countries and that has entered into a delegation agreement with the Corporation pursuant to which the Electric Reliability Organization delegates enforcement authority for Reliability Standards for the Bulk Power System in the ERCOT Region. NERC was certified as the ERO on July 20, 2006.

(h) “ERCOT Region” means the geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas.

(i) “Independent Director” means a person who is not (a) an officer or employee of the Corporation; (b) a NERC Registered Entity or Member or an officer, director, or employee of a Member of the Corporation; or (c) an officer, director, or employee of any company or entity that would reasonably be perceived as having a direct financial interest in the outcome of Board decisions or having a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director, as more specifically described in Article IV of these Bylaws.

(j) “Initial Director” means a Director named in the Certificate of Formation and seated for formation of the Corporation.

(k) “Member” means a member of the Corporation pursuant to Article III of these Bylaws.

(l) “NERC” means North American Electric Reliability Corporation, the entity certified by FERC as the ERO on July 20, 2006.

(m) “NERC Rules of Procedure” means the Rules of Procedure that are adopted by NERC and approved by the Commission.

(n) “PUCT” means the Public Utility Commission of Texas.

(o) “OPUC” means the Texas Office of Public Utility Counsel.

(p) “Regional Entity” means an entity with a Delegation Agreement with NERC, as ERO, including the following organizations, in addition to Texas Reliability Entity: Florida Reliability Coordinating Council (FRCC), Midwest Reliability Organization (MRO), Northeast Power Coordinating Council (NPCC), ReliabilityFirst Corporation (RFC), Southeastern Electric Reliability Council (SERC), Southwest Power Pool (SPP), and Western Electricity Coordinating Council (WECC).

(q) “Regional Reliability Standard” means a standard for the ERCOT Region that is proposed and approved in accordance with the Texas RE Standards Development Process, as set forth in Exhibit C to the Delegation Agreement, and either, (i) sets more stringent reliability requirements than a national Reliability Standard, or (ii) covers matters not covered by a national Reliability Standard.

(r) “Registered Entity” means an entity that is registered with NERC and listed on the NERC Compliance Registry (available at www.nerc.com).

(s) “Reliability Standard” means a requirement to provide for Reliable Operation of the Bulk-Power System, which is approved by NERC and the Commission, pursuant to Section 215 of the Federal Power Act and all amendments thereto. This term includes requirements for the operation of existing Bulk-Power System facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for Reliable Operation of the Bulk-Power System.

(t) “Reliable Operation” means operating the elements of the Bulk Power System within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of the Bulk Power System will not occur as a result of a sudden disturbance, including a cybersecurity incident, or unanticipated failure of system elements.

(u) “Sector” means a group of Members of the Corporation that are Bulk Power System owners, operators, or users, as defined in Article III, Section 4 of these Bylaws. Each Sector shall constitute a class of Members for purposes of Chapter 22 (Nonprofit Corporations) of the Texas Business Organizations Code.

ARTICLE II. PURPOSE

Section 1. General Purpose. The purpose of the Corporation is to preserve and enhance reliability in the ERCOT Region. In furtherance of this goal, the Corporation will:

(a) Perform Reliability Standards development, compliance monitoring, compliance enforcement, and other related activities as a Regional Entity, pursuant to 16 U.S.C. §824n, in accordance with the Corporation’s Delegation Agreement with NERC;

(b) Carry out other activities as set forth in the Delegation Agreement, the NERC Rules of Procedure, or as otherwise required or requested by NERC, in support of the Delegated Authority, including but not limited to organization registration and certification, reliability assessment and performance analysis, training and education, and situational awareness and infrastructure security; and

(c) Engage in any other lawful act or activity that is not in conflict with the Corporation’s duties as a Regional Entity and for which non-profit corporations may be organized under the Texas Business Organizations Code.

Section 2. Non-Profit Corporation. The Corporation is a Texas non-profit corporation.

Section 3. Geographic Area. The Corporation will perform its operations primarily within the ERCOT Region. The ERCOT Region includes 200,000 square miles, 85% of Texas load, and 75% of Texas land area (does not include the Panhandle, El Paso area, and 2 areas of East Texas). The ERCOT Region includes the following Texas cities and towns: Dallas, Ft. Worth, Houston, San Antonio, Austin, Paris, Tyler, Nacogdoches, Lufkin, Bryan, College Station, Corpus Christi, Harlingen, Brownsville, Laredo, Brownwood, San Angelo, Abilene, Midland, Odessa, Fort Stockton, Monahans, Snyder, Vernon, Wichita Falls, Denton, Garland, Greenville, Waco, Temple, Killeen, Weatherford, and Graham, and does not interconnect synchronously across state lines to import or export power with neighboring reliability regions.

ARTICLE III. MEMBERSHIP

Section 1. Members. The Corporation is a membership corporation. Membership in the Corporation is voluntary and is open only to any entity that is a user, owner or operator of the ERCOT Region Bulk Power System, registers with the Corporation as a Member, maintains its registration in accordance with this Article III, and complies with the other conditions and obligations of membership specified in these Bylaws. All Members must qualify and be registered in one of the Sectors defined in Article III, Section 4. Membership in the Corporation is not a condition to participating in the development or consideration of proposed Regional Standards.

Section 2. Registration as a Member. Any entity that is eligible to be a Member of the Corporation in accordance with Article III, Section 1 may become a Member by completing and submitting to the secretary of the Corporation a membership registration on a form prescribed by the Corporation. The Member shall designate one representative and an alternative representative with authority to receive notices, cast votes, and execute waivers and consents on behalf of the Member. The secretary of the Corporation shall maintain a current roster of the Members of the Corporation including each Member's designated representative and alternative representative. From time to time, the Board shall establish a date by which Members shall submit their registration renewals. All Members shall be required to renew their registrations annually and within 30 calendar days of a request by an officer of the Corporation, using a registration renewal form prescribed by the Corporation. The secretary of the Corporation shall remove from the roster of Members of the Corporation any Member that has not submitted a registration renewal within 30 days following a date established by the Corporation. The secretary shall inform any Member that is removed from the roster of Members of such removal, by sending notice to such former Member's last known address on the records of the Corporation.

Section 3. Obligations and Conditions of Membership.

(a) Members must agree to promote, support, and comply with Reliability Standards, and assist the Corporation in its compliance with the terms and provisions of the Corporation's Delegation Agreement with NERC. Each Member shall agree, in writing, to accept the responsibility to comply with policies of NERC and the Corporation as set forth in their respective certificates of formation, bylaws, rules of procedure, and Reliability Standards, as applicable, as from time to time adopted, approved, or amended.

(b) As an additional condition of membership in the Corporation, each Member shall be required to execute an agreement with the Corporation, in a form to be specified by the Corporation, that such entity will hold all Directors, officers, employees, and agents of the Corporation, as well as volunteers participating in good faith in the activities of the Corporation, harmless for any injury or damage caused by any act or omission of any director, officer, employee, agent, or volunteer in the course of performance of his or her duties on behalf of the Corporation, other than for willful acts of misconduct.

(c) Consistent with applicable laws and regulations, Members must share nonproprietary information at the Corporation's request as necessary for the furtherance of the Corporation's activities and consistent with NERC, PUCT, or any other applicable rules relating to confidentiality.

Section 4. Membership Sectors. Each Member shall elect to be assigned to one of the following membership Sectors:

(a) **System Coordination and Planning:** An entity that is registered with NERC as a Reliability Coordinator (RC), Balancing Authority (BA), Planning Authority (PA), Resource Planner (RP), or Interchange Authority (IA).

(b) **Transmission and Distribution:** An entity that is registered with NERC as a Transmission Owner (TO), Transmission Planner (TP), Transmission Service Provider (TSP), Distribution Provider (DP), and/or Transmission Operator (TOP) and is not a Cooperative or Municipal Utility.

(c) **Cooperative:** An entity that is (a) a corporation organized under Chapter 161 of the Texas Utilities Code or a predecessor statute to Chapter 161 and operating under that chapter; or (b) a corporation organized as an electric cooperative in a state other than Texas that has obtained a certificate of authority to conduct affairs in the State of Texas; or (c) a cooperative association organized under Tex. Rev. Civ. Stat. 1396-50.01 or a predecessor to that statute and operating under that statute and is registered with NERC for at least one reliability function.

(d) **Municipal Utility:** A municipally owned utility as defined in PURA §11.003 and is registered with NERC for at least one reliability function.

(e) **Generation:** An entity that is registered with NERC as a Generator Owner (GO) or Generator Operator (GOP).

(f) **Load-Serving and Marketing:** An entity that is registered with NERC as a Load Serving Entity (LSE), a Purchasing-Selling Entity, or any newly defined NERC reliability function for demand response.

Section 5. Participation.

(a) There is only one level of Membership, and no company or entity may simultaneously hold more than one Membership.

(b) Members must qualify in and join a Sector.

(c) A Member that is eligible for more than one Sector may join only one Sector and it must be the most appropriate Sector for its business. Any disputes regarding appropriateness of a Member's Sector will be decided by a majority vote of the Board.

(d) A company or entity that is an Affiliate of a Member may hold a separate membership in a different Sector, so long as the legal entities have different NERC Compliance Registry Numbers under which they are currently registered for the applicable NERC reliability function.

(e) A Member must continue to vote in the same Sector for a minimum of the remainder of the fiscal year in which it becomes a Member or until it is no longer eligible to remain in such Sector, and it must give notice to the Corporate secretary when it elects or is required to change Sectors.

(f) The Board may review the Sector qualification of any Member and may determine that a Member does not qualify for, and require them to change Sectors.

(g) A Member which is no longer eligible or not in good standing may not vote on any matters that require membership.

Section 6. Membership Fees. Members must pay an annual Membership Fee of \$250, to offset the expenses of membership qualification, coordination, and meetings, unless the Board waives the fee for any Member for good cause shown. The Board may agree to change the amount or frequency of the Membership Fee, from time to time, by majority vote.

Section 7. Term of Membership. Membership in the Corporation must be renewed on an annual basis and will only be retained as long as a Member meets its respective qualifications, obligations, and conditions of membership as set forth in these Bylaws. Membership is conditioned on the annual payment of Membership Fees, unless the Membership Fees are waived by the Board for good cause shown, as determined in the Board's sole discretion.

Section 8. Removal. No Member or Member representative may be sanctioned, expelled or suspended and no membership in the Corporation may be terminated or suspended except pursuant to a procedure that is fair and reasonable and is carried out in good faith. The Board may, by resolution, establish a procedure to terminate, expel, suspend, or sanction a Member following notice to the Member and exercise of appropriate due process procedures and a determination by the Board in its sole discretion that in its judgment the Member has violated its obligations and responsibilities to the Corporation. In the event that the Board does not adopt procedures, the following procedures shall apply:

(a) Written notice. Written notice of intent to terminate, expel, suspend or sanction a Member shall be delivered at least twenty (20) days in advance of the date when a hearing will be held to determine whether the Member shall be expelled, suspended, terminated or sanctioned. Such notice shall set forth the reasons therefore. Said notice must be given by facsimile (receipt confirmed), e-mail (receipt confirmed) or first class or certified mail sent to the last address of the Member to be expelled, suspended, terminated or sanctioned, as shown in the Corporation's records.

(b) Hearing. An opportunity shall be provided for the Member receiving such notice to be heard by the Board at the hearing, orally and in writing. The Member shall be entitled to have counsel present, and to participate in the hearing, at its own expense, and to present and cross-examine any witnesses.

(c) Liability. A Member which has been sanctioned, expelled, terminated or suspended shall remain liable to the Corporation for fees as a result of obligations incurred or commitments made prior to sanction, expulsion, termination or suspension.

(d) Challenges. Any proceeding challenging an expulsion, suspension, sanction or termination, including a proceeding in which defective notice is alleged, may be submitted to the Board in writing within one year after the effective date of the expulsion, suspension, sanction or termination. If the Board determines to hear such challenge, it shall notify the Member and such proceeding will be subject to the hearing requirements described in subsection (b) above of this Section 8.

Section 9. Resignation. Any other provision of these Bylaws notwithstanding, any Member may withdraw from participation in the activities of the Corporation at any time upon written notice to the chief executive officer or president of the Corporation, whereupon it

shall cease to be a Member, and its representatives shall cease to be entitled or obligated to participate in the activities of the Board or any activities requiring membership.

Section 10. Reinstatement. A former Member may submit a written request for reinstatement of Membership. The Board will reinstate the Membership unless the entity does not meet the Membership qualifications set forth in these Bylaws.

ARTICLE IV. BOARD OF DIRECTORS

Section 1. Board of Directors. The business and affairs of the Corporation shall be managed by the Board. The Board shall consist of (i) four (4) Independent Directors who are nominated and elected in accordance with the requirements and procedures specified in this Article IV (the "Independent Directors"); (ii) the Chairman of the PUCT or another PUCT Commissioner designated by the Chairman, as an *ex officio* non-voting member; (iii) Texas Public Counsel, from OPUC (or another employee of OPUC designated by Texas Public Counsel), as an *ex officio* non-voting member, representing the interests of residential and small commercial electricity consumers; (iv) the CEO of the Corporation as a voting member (the "Management Director"); (v) the chair of the Member Representatives Committee as a voting member; and (vi) the vice chair of the Member Representatives Committee as a voting member. The Directors who are the chair and vice chair of the Member Representatives Committee will be collectively referred to herein as "Affiliated Directors." Each Director, including the Affiliated Directors and excluding the non-voting members of the Board, shall have one (1) vote on any matter brought before the Board for a vote. All Directors are expected to serve the public interest and to represent the reliability concerns of the entire ERCOT Region Bulk Power System.

Section 2. Independent Directors. The Independent Directors shall be elected, shall have the qualifications specified, and shall serve in the manner provided in this Section.

(a) Qualifications:

(1) Experience in one or more of these fields: senior corporate leadership; professional disciplines of finance, accounting, engineering, bulk power systems, or law; regulation of utilities; and/or risk management.

(2) Independence of any NERC registered entity, including ERCOT ISO, and any ERCOT Region Market Participant. Requirements of independence include but are not limited to the following:

(i) Independent Directors and the immediate family (any spouse, mother, father, sibling, or dependent, and any spouse of mother, father, or sibling and including any step and adoptive parents, siblings or children) and household members of Independent Directors and their spouses shall not have current or recent status (within the last two years) as a director, officer or employee of an ERCOT Region NERC Registered Entity or ERCOT Region Market Participant.

(ii) Independent Directors and immediate family and household members of Independent Directors shall not have current status as a director, officer or employee of a non-ERCOT Region NERC Registered Entity.

(iii) Independent Directors and immediate family and household members of Independent Directors shall not have direct business relationships, other than retail customer relationships, with any NERC Registered Entity or Market Participant.

(iv) To the extent that an Independent Director or his or her spouse, dependent child, or any other household member owns stocks or bonds of NERC Registered Entities or Market Participants, these must be divested or placed in a blind trust prior to being seated on the Board.

(v) Independent Directors shall not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Board member, including the Delegated Authority.

(vi) Other criteria as approved by the Board.

(b) Term. Except for the Initial and originally elected Directors, the term for Independent Directors shall be staggered three year terms. An Independent Director may be elected for up to three consecutive terms. Notwithstanding the foregoing, the Directors named as Initial Directors will serve only until the first membership meeting of the Corporation at which Independent Directors are elected. If an Initial Director is qualified to be an Independent Director and elected by the membership, such Director's term as an Initial Director shall not be counted for purposes of term limits. For the originally elected Independent Directors, two positions will have three year terms, one position will have a two year term, and one position will have a one year term. The term for the Affiliated Directors who are chair and vice chair of the Member Representatives Committee shall be one year, and the terms of the *ex officio* Directors will not expire.

(c) Selection.

(1) Except for the selection of the Initial Directors, the Board shall appoint, on an annual basis, or more frequently if needed in the event of a special election pursuant to this subsection, a nominating committee (the "Nominating Committee") to recommend candidates (i) to succeed the Independent Directors whose terms expire during the current year and (ii) to serve the remainder of the term of any Independent Director who ceased to serve as a Director subsequent to the last annual election of Directors. Except for the original Nominating Committee appointed by the Initial Directors ("Initial Nominating Committee"), the Nominating Committee shall consist of all Independent Directors except those whose terms expire during the current year and are seeking re-election and Affiliated Directors and such other persons with such qualifications as the Board shall specify (provided that such other persons may not vote), provided that the Independent Directors shall constitute a majority of the voting members of the Nominating Committee. The Initial Nominating Committee will consist of the Initial Directors except the Management Director (as defined in Article IV, Section 3), and at least two other persons selected by these Initial Directors to represent the interests of the Membership. The PUCT Chair may choose to participate on the Nominating Committee. If any Nominating Committee should have only two eligible Independent Directors for any reason, the requirement that Independent Directors must constitute a majority of the voting members will be removed to allow both Affiliated Directors to participate on the Nominating Committee. The Nominating Committee may retain an executive search

firm to locate and present candidates with the required qualifications, as set forth in Article IV, Section 2(a).

(2) The Nominating Committee shall interview the qualified candidates and select and nominate, by at least a two-thirds majority, qualified candidate(s), consistent with the objectives that the Board as an entirety shall reflect expertise in the areas of technical electric operations and reliability, legal, senior corporate leadership, financial, risk management, and regulatory matters, and familiarity with regional system operation issues in the ERCOT Region, to present to the Membership for its approval.

(3) The Membership shall vote by Sector as described in Article V in favor or against the proposed Independent Director(s). A proposed Independent Director who is approved by a majority of the Sectors shall become an Independent Director.

(d) Director Voting Weights. All voting Directors shall have a single vote each.

(e) Alternates and Proxies. Independent Directors may designate another Independent Director as a proxy if unable to attend a Board meeting. Ex officio Directors may designate a selected proxy or an alternate representative who may attend meetings in the absence of such Director. The chair and vice chair of the Member Representatives Committee may designate each other or may designate an Independent Director as their proxy if unable to attend a Board meeting.

Section 3. Appointment of Management Director. The president and chief executive officer (CEO) of the Corporation shall serve as the Management Director of the Corporation, effective as of the date of his or her appointment by the Board as CEO of the Corporation in accordance with these Bylaws, to serve until such time that he or she ceases to hold the position of CEO. No action of the Members of the Corporation shall be required in connection with the appointment of the CEO as the Management Director of the Corporation.

Section 4. Chair and Vice Chair. Annually, the Board shall elect from the Board's membership, by resolution of the Board, a Chair and a Vice Chair. The Chair and Vice Chair shall each be one of the Independent Directors.

Section 5. Vacancies and Removal.

(a) Should any vacancy on the Board arise from the death, resignation, retirement, disqualification, or removal from office of any Director, or from any other cause, such vacancy shall be filled as follows:

(1) For an Independent Director, by the election of a new Independent Director at the next annual election of Directors to fill the remainder, if any, of the term of the departed Independent Director. provided, that the Board by resolution may in its discretion call a special election to fill any such vacancy for the remainder, if any, of the term of the departed Independent Director.

(2) For the Management Director, by the appointment of a new CEO or interim CEO to fill the vacancy.

(3) For an ex officio Director, by the appointment of a new PUCT Chair or Texas Public Counsel by whomever had the right to appoint such Director.

(4) For an Affiliated Director, by the election of a new chair or vice chair, as applicable, by the Member Representative Committee.

(b) A Director may be removed with or without cause at any time by whomever had the right to appoint such Director (for ex officio Directors), or for the elected Independent Directors, by an affirmative vote of sixty percent (60%) of the Members. In addition, the Board may remove any voting Director for cause, upon at least seventy-five percent (75%) affirmative votes of the eligible, remaining voting Directors. The right to elect Directors may not be assigned, sold, pledged or transferred in any manner.

Section 6. Committees of the Board. The Board shall by resolution create and appoint all committees of the Board as the Board deems necessary to perform its responsibilities. All committees of the Board shall have such duties as are prescribed and delegated by the Board. Committees to which any of the authority of the Board to manage the Corporation is delegated must have at least two Directors, and a majority of the members of the committee must be Directors.

ARTICLE V. MEETINGS OF MEMBERS OF THE CORPORATION

Section 1. Annual and Other Meetings of Members.

(a) An annual meeting of the Members to elect Directors and to conduct such other business as may come before the meeting shall be held on or about December 1 of each year or as soon thereafter as is reasonably practicable.

(b) Meetings of Members of the Corporation may be called for any purpose or purposes by resolution of the Board, by the chair of the Board, the CEO or the secretary of the Corporation, or by a number of Members constituting at least ten (10) percent of all Members on the roster of Members maintained by the secretary of the Corporation, which number shall include Members in at least three of the Sectors. Meetings of Members shall be held at the principal office of the Corporation or at such other place fixed by the Board as shall be specified in the notice of meeting. Meetings shall be called upon written notice of the time, date, place, and purposes of the meeting given to all Members on the roster of Members maintained by the secretary of the Corporation not less than ten (10) nor more than sixty (60) days prior to the date of the meeting. Only Members in good standing with the Corporation, as determined by the Board, have the right to vote at any meeting of the Members. Further, if at any point a Member no longer meets the qualifications for the Sector of which it is a member, the Entity may immediately elect to become a member in any Sector for which it does qualify.

Section 2. Quorum and Voting Requirements for Meetings of Members.

(a) At any meeting of the Members of the Corporation, attendance in person or by proxy by a majority of the Members in each of at least two-thirds of the Sectors on the roster of Members maintained by the secretary of the Corporation shall constitute a quorum.

(b) Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws, or applicable law, Members shall vote by Sector and each Sector shall have one vote.

(c) Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws or applicable law, actions by the Members of the Corporation shall be approved upon receipt of the affirmative vote of a majority of the Sectors of the Corporation at a meeting at which a quorum is present, in person or by proxy. Each Sector's vote shall be determined by the affirmative vote of a majority of the members of the Sector voting at the meeting.

Section 3. Waivers of Notice of Meetings of Members and Member Meeting Adjournments. Notice of a meeting of Members need not be given to any Member who signs a waiver of notice, in person or by proxy, whether before, during, or after the meeting. The attendance of any Member at a meeting, in person or by proxy, without protesting prior to the conclusion of the meeting the lack of proper notice of such meeting, shall constitute a waiver of notice of the meeting by such Member. When any meeting of Members is adjourned to another time or place, it shall not be necessary to give notice of the adjourned meeting if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken, and if at the adjourned meeting only such business is transacted as might have been transacted at the original meeting.

Section 4. Action Without a Meeting of Members. Any action, required or permitted to be taken at a meeting of Members, may be taken without a meeting if the proposed action is posted to all Members (via email to an email distribution list to which Members may subscribe and by posting on the Corporation website) and consented to in writing by the minimum number of Members that would be required to approve the action at a meeting of the Members at which all Members were present. The voting in such a circumstance shall be performed in writing, including via email or other electronic means. The Members shall receive written notice of the results within ten (10) days of the action vote, and all written responses of the Members shall be filed with the Corporate records. The results of such voting will be posted on the Corporation's website.

Section 5. Meetings of the Members to be Open. Notice to the public of the dates, places, and times of meetings of the Members, and all non-confidential material provided to the Members, shall be posted on the Corporation's website at approximately the same time that notice is given to the Members. Meetings of the Members shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the meeting may be held in or adjourned to closed session to discuss matters of a confidential nature, including but not limited to compliance and enforcement matters, personnel matters, litigation, or commercially sensitive or critical infrastructure information of the Corporation or any other entity. The results of any action taken without a meeting, as described above, will be posted on the Corporation's website.

ARTICLE VI. MEETINGS OF THE BOARD OF DIRECTORS

Section 1. Regular Meetings of the Board. Regular meetings of the Board shall be held at least quarterly. By resolution adopted at any meeting of the Board, the Board may provide for additional regular meetings that may be held as needed.

Section 2. Special Meetings of the Board. Special meetings of the Board for any purpose or purposes may be called at any time by the chair or by any two Directors. Such meetings may be held upon notice given to all Directors not less than three (3) days prior to the date of the meeting. Such notice shall specify the time, date, place, and purpose or purposes of

the meeting and may be given by telephone, email or other electronic media, or by express delivery.

Section 3. Quorum and Voting Requirements for Meetings of the Board.

The Board consisting of the Initial Directors (“Initial Board”) may conduct only organizational business of the corporation, including but not limited to approving these Bylaws, authorizing the opening of a bank account, appointing officers, approving the Delegation Agreement and reviewing and approving the Corporation’s business plan and budget. The quorum necessary for transaction of business by the Initial Board shall be a majority of the Initial Directors, either in person or by proxy, at meetings at which a quorum is present. Thereafter, unless otherwise expressly provided in the Corporation’s Certificate of Formation, these Bylaws or applicable law, (i) the quorum necessary for the transaction of business at meetings of the Board shall be a majority of the voting Directors in person or by proxy and at least three Independent Directors, and (ii) actions by the Board shall be deemed approved upon receipt of the affirmative vote of a majority of the Directors present and voting in person or by proxy at a meeting at which a quorum is present but in no case less than four votes.

Section 4. Meetings of the Board to be Open.

Notice to the public of the dates, places, and times of meetings of the Board, and all non-confidential material provided to the Board, shall be posted on the Corporation’s website at approximately the same time that notice or such material is given to the Directors and at least ten (10) business days prior to the scheduled meeting; provided however that the Board may meet on urgent matters on such shorter notice, not less than two (2) hours, as the person(s) calling such meeting may deem necessary or appropriate for urgent matters (emergency conditions threatening health or safety or a reasonably unforeseen situation). Meetings of the Board shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the Board may meet in or adjourn to closed session to discuss matters of a confidential nature, including but not limited to compliance and enforcement matters, personnel matters, litigation, or commercially sensitive or critical infrastructure information of the Corporation or any other entity. Any or all of the Directors or members of a Board committee, may participate in a meeting of the Board, or a meeting of a committee, in person or by proxy, by means of any communications system by which all persons participating in the meeting are able to hear each other.

Section 5. Waivers of Notice of Board Meetings and Board Meeting Adjournments.

Notice of a board meeting need not be given to any Director who signs, or sends an email confirming a waiver of notice, in person or by proxy, whether before, during, or after the meeting, or who attends the meeting without protesting, prior to the conclusion of the meeting, the lack of notice of such meeting. Notice of an adjourned board meeting need not be given if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken and if the period of adjournment does not exceed ten (10) days.

Section 6. Action Without a Meeting.

Any action required or permitted to be taken at a meeting of the Board, or of any committee thereof, may be taken by the Board or by the committee without a meeting if the action is consented to in writing by the number of Directors or members of the committee, as the case may be, entitled to vote on the action that would be required to approve the action at a meeting of the Board or committee with all members of the Board or committee present. The call for action without a meeting of the Board may be initiated by the chair or by any two Directors. Notice of the proposed call for action without a meeting, and all non-confidential material provided to the Board in connection with the call for action without a meeting, shall be posted on the Corporation’s website and sent via email to an email distribution list to which Members and the public may subscribe at

approximately the same time notice of the call for action without a meeting or such material is provided to the Board. The call for action without a meeting of a committee of the Board may be initiated by the chair of the committee or by any two members of the committee. The Directors or members of the committee shall receive written notice of the results of such action within seven (7) days of the action vote. All written responses of the Directors shall be filed with the minutes of the Corporation, and all written responses of members of a committee shall be filed with the minutes of such committee.

ARTICLE VII. OFFICERS

Section 1. Selection of Officers. At a meeting held in accordance with Article VI of these Bylaws, the Board shall elect a CEO and shall approve a corporate secretary and such other officers of the Corporation (collectively, the "Officers") as it shall deem necessary. The CEO shall be nominated and elected by the Board. All of the other Officers shall be selected by the CEO and approved by the Board, and the removal of all Officers shall be confirmed by the Board. The Management Director shall not participate in votes electing, approving, or removing Officers. The duties and authority of the Officers shall be determined from time to time by the Board. Subject to any such determination, the Officers shall have the following duties and authority:

Section 2. Chief Executive Officer ("CEO"). The CEO shall be the chief executive officer of the Corporation. He or she shall be responsible for the day-to-day ongoing activities of the Corporation and shall have such other duties as may be delegated or assigned to him or her by the chair. The CEO may enter into and execute in the name of the Corporation contracts or other instruments not in the regular course of business that are authorized, either generally or specifically, by the Board.

Section 3. Corporate Secretary. The secretary shall maintain the roster of Members of the Corporation, shall cause notices of all meetings to be served as prescribed in these Bylaws, shall keep or cause to be kept the minutes of all meetings of the Members and the Board, and shall have charge of the seal of the Corporation. The secretary shall perform such other duties and possess such other powers as are incident to his or her office or as shall be assigned to him or her by the CEO

Section 4. Chief Financial Officer. If hired and approved, a chief financial officer shall have custody of the funds and securities of the Corporation, shall keep or cause to be kept regular books of account for the Corporation and shall have the duties normally assigned to a treasurer of a corporation. The chief financial officer shall perform such other duties and possess such other powers as are incident to his or her office or as shall be assigned to him or her by the CEO.

Section 5. Vice Presidents. The CEO may select such other Corporate officers as he or she deems appropriate, subject to Board approval. Any such officer shall perform such other duties and possess such powers as are incident to his or her office or as shall be assigned to him or her by the CEO.

ARTICLE VIII. RELIABILITY STANDARDS COMMITTEE

Section 1. Requirement. The Corporation shall have a Reliability Standards Committee, which shall operate in accordance with the Standards Development Process as set

forth in Exhibit C to the Delegation Agreement with NERC and approved by FERC. The chair and vice chair of the Standards Committee must be accepted or approved by the Board, in accordance with said Exhibit C.

ARTICLE IX. MEMBER REPRESENTATIVES COMMITTEE

Section 1. Purpose of Member Representatives Committee. The Corporation shall have a "Member Representatives Committee" that shall provide advice and recommendations to the Board with respect to: annual budgets, business plans and funding mechanisms of the Corporation; other matters relevant to reliability of the ERCOT Bulk Power System; and other matters pertinent to the purpose and operations of the Corporation. The Member Representatives Committee shall provide its advice and recommendation to the Board through its chair and the vice chair, who also serve as the Affiliated Directors on the Board. The Member Representatives Committee may create subcommittees, task forces, or working groups ("subcommittees") as it deems appropriate to study or discuss selected technical or compliance matters and to make recommendations to the Board as requested or required by the Board or as deemed appropriate to its purpose by the Member Representatives Committee. Because it is elected by the Members of the Corporation and not appointed by the Board, the Member Representatives Committee shall not be a standing committee of the Board of Directors of the Corporation, but is authorized to provide advice and recommendations directly to the Board, through its elected chair and vice chair.

Section 2. Composition of the Member Representatives Committee. The Member Representatives Committee shall consist of two representatives from each Sector to serve annually and will annually select a chair and vice chair for the Member Representatives Committee. The representatives of each Sector shall be officers, employees, or directors of Members in that Sector; provided however, except for a Sector that has only one Member, only one officer, employee, or director of a Member in a Sector may be a representative from that Sector. The Board may by resolution create additional non-voting positions on the Member Representatives Committee on its own initiative or at the written request of any group of Members of the Corporation that believes its interests are not adequately represented on the Member Representatives Committee. There shall be no limit on the number of terms that an officer, employee, or director of a Member, may serve on the Member Representatives Committee.

Section 3. Election of Representatives of the Member Representatives Committee. Unless a Sector adopts an alternative election procedure, the annual election of representatives from each Sector to the Member Representatives Committee, and any election to fill a vacancy, shall be conducted in accordance with the following process, which shall be administered by the officers of the Corporation.

(a) During the period beginning no more than ninety (90) days and ending no less than fifteen (15) days prior to an annual meeting, or beginning no more than forty-five (45) days and ending no less than fifteen (15) days prior to a special meeting called in whole or in part to hold an election to fill a vacancy, nominations may be submitted for candidates for election to the Member Representatives Committee. A nominee for election as a Sector representative must be an officer, employee, or director of a Member in that Sector. No more than one nominee who is an officer, employee, or director of a Member may stand for election in any single Sector; if more than one officer, employee, or director of a Member is nominated for election from a Sector, the Member shall designate which such nominee shall stand for election.

The election of representatives shall be conducted over a period of ten (10) days using an electronic process approved by the secretary of the Corporation.

(b) Each Member in a Sector shall have one vote for each Representative to be elected from the Sector in that election and may cast no more than one vote for any nominee. The nominee receiving the highest number of votes in each Sector shall be elected to one Representative position to be filled from that Sector and the nominee receiving the second highest number of votes shall be elected as the second Representative position for that Sector. To be elected on the first ballot, a nominee must receive a number of votes equal to a simple majority of the Members in the Sector casting votes in the election. If no nominee in a Sector receives a simple majority of votes cast in the first ballot, a second ballot shall be conducted which shall be limited to the number of candidates receiving the three (3) highest vote totals on the first ballot. The nominees receiving the two highest totals of votes on the second ballot shall be elected to the Representative positions for the Sector.

(c) A Sector may adopt an alternative procedure to the foregoing to nominate and elect its Representatives to the Member Representatives Committee if the alternative procedure is approved by vote of at least two-thirds of the Members in the Sector, provided, however that any alternative procedure may be reviewed and disapproved by the Board.

(d) A Sector may elect an Alternate to serve in place and at the convenience of the Sector's Member Representatives Committee Representative(s) in the event a Member Representatives Committee Representative cannot attend a Member Representatives Committee meeting.

Section 4. Chair and Vice Chair of the Member Representatives Committee. After the annual selection of its Representatives, the Member Representatives Committee shall select a chair and vice chair from among its voting Representatives by majority vote to serve during the upcoming year and be the Affiliated Directors on the Board. The selected chair and vice chair may not be representatives of the same Sector and may not concurrently serve on the Board of ERCOT ISO. The Board shall be notified of the selection of the chair and vice chair, but the selection will not be subject to approval of the Board. The chair is responsible for ensuring that minutes of the meetings are properly maintained and made available to the public, but the chair may delegate this responsibility to the vice chair or to another Representative of the Member Representatives Committee who may be designated as secretary of the Member Representatives Committee.

Section 5. Vacancies on the Member Representatives Committee. In the event that any Representative of the Member Representatives Committee ceases to serve as a Representative of the Member Representatives Committee as a result of his or her death, resignation, retirement, disqualification, removal, or other cause, the Members in the Sector of which such Representative was a representative shall elect, as soon thereafter as reasonably practicable, and in accordance with the procedures in this Article IX, a new Representative to replace the Representative of the Member Representatives Committee who ceased to serve. For those Sectors that have elected an Alternate, the Alternate will fill a vacancy left by the Sector's Member Representative and a new Alternate will be elected by the Sector.

Section 6. Meetings of the Member Representatives Committee. The Member Representatives Committee will plan and hold quarterly meetings, at a time and place determined by the Member Representatives Committee, normally shortly before the regular meetings of the Board, and posted on the Corporation's website. Except for closed session meetings specifically allowed by this Section, all meetings shall be open to the public. The

Member Representatives Committee shall adopt such procedural rules as are needed to operate in accordance with its purpose and will include procedures for coordinating with employees of the Corporation who provide administrative support, as set forth in subsection 6(c), below.

(a) Notice to the public of the dates, places, and times of meetings of the Member Representatives Committee and any subcommittees thereof, and all non-confidential material provided to the Representatives on the Member Representatives Committee or any subcommittees thereof, shall be posted on the Corporation's website at approximately the same time that notice or such material is given to the Member Representatives Committee, which will normally be at least one week prior to any meeting. Meetings of the Member Representatives Committee shall be open to the public, subject to reasonable limitations due to the availability and size of meeting facilities; provided, that the Member Representatives Committee may meet in or adjourn to closed session to discuss matters of a confidential nature, including but not limited to confidential planning information, critical infrastructure information, or commercially sensitive information of the Corporation or any other entity. Any or all Representatives of, and any other participants in, the Member Representatives Committee may participate in a meeting of the Member Representatives Committee by means of a communications system by which all persons participating in the meeting are able to hear each other.

(b) Special meetings may be called for any purpose or purposes by the chair of the Member Representatives Committee or by any three (3) Representatives of the Member Representatives Committee, which number shall include representatives from at least three Sectors, and require notice given to all Representatives of the Member Representatives Committee not less than seven (7) days prior to the date of the meeting. Such notice shall specify the time, date, place, and purpose or purposes of the meeting and may be given by telephone, facsimile, or other electronic media, or by express delivery.

(c) The Member Representatives Committee shall effectively coordinate with the employees of the Corporation and adopt procedural rules for the voting for Representatives, scheduling of meetings, and public posting of required meeting information and minutes. The chair or vice chair of the Member Representatives Committee shall provide all meeting agendas, material, minutes and other information required or desired to be posted on the Corporation's website to appropriate Corporation employees at least one business day prior to the time such information should be posted.

Section 7. Waivers of Notice of Meetings of the Member Representative Committee and Meeting Adjournments. Notice of a meeting of the Member Representatives Committee need not be given to any member of the Member Representatives Committee who signs a waiver of notice, in person or by proxy, whether before or after the meeting, or who attends the meeting without protesting, prior to the conclusion of the meeting, the lack of notice of such meeting. Notice of an adjourned meeting of the Member Representatives Committee need not be given if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken and if the period of adjournment does not exceed ten (10) days.

Section 8. Quorums and Voting for Meetings of the Member Representatives Committee. The quorum necessary for the transaction of business at meetings of the Member Representatives Committee shall be the presence, in person or by proxy, of two-thirds of the voting Representatives on the Member Representatives Committee entitled to attend. Each voting member of the Member Representatives Committee shall have one (1) vote on any matter coming before the Member Representatives Committee that requires

a vote. Except as otherwise expressly provided in the Corporation's Certificate of Formation, these Bylaws or applicable law, actions by members of the Member Representatives Committee shall be approved upon receipt of the affirmative vote of a majority of the voting members of the Member Representatives Committee present and voting at any meeting at which a quorum is present.

Section 9. Alternates and Proxies. Member Representatives may designate another Member Representative or an employee of the Member Representative's organization as a proxy if both the Member Representative and the Sector Alternate are unable to attend a Member Representatives Committee meeting. A member of the Member Representatives Committee may give a proxy only to a person who is an officer, employee, or director of a Member, registered in the same Sector.

Section 10. Other Procedures of the Member Representatives Committee. The chair of the Board shall preside at the initial meeting of the Member Representatives Committee, until a chair is selected in accordance with Article IX, Section 4. Except as to any matter as to which the procedure to be followed by the Member Representatives Committee is expressly set forth in these Bylaws, the Member Representatives Committee may adopt such additional procedures, not inconsistent with these Bylaws, as it deems appropriate, subject to review and disapproval by the Board.

ARTICLE X. OTHER COMMITTEES AND SUBCOMMITTEES

Section 1. Committees of the Corporation. In addition to those committees specified by these Bylaws, to which the Board shall appoint members in accordance with the requirements of these Bylaws, the Board may by resolution create standing committees of the Corporation; and may in addition by resolution appoint the members of such committees, subcommittees, task forces and Sector-specific forums as the Board deems necessary or desirable to carry out the purposes of the Corporation. The Board shall appoint members to such standing committees and other committees of the Corporation that are representative of Members, other interested parties, and the public, that provide for balanced decision-making and that include persons with sufficient technical knowledge and experience. All committees, subcommittees, task forces and Sector-specific forums shall have such scope and duties, not inconsistent with law, as are specified in these Bylaws and the Rules of Procedure of the Corporation or otherwise determined by the Board.

ARTICLE XI. BUDGETS AND FUNDING

Section 1. Compensation of the Board and Member Representatives Committee. The Board shall have the right to fix from time to time, by resolution adopted by a majority of the Directors including a majority of the Independent Directors then serving as Directors, the amount of the annual retainer fee or other compensation to be paid to the Independent Directors for their services to the Corporation, including any fees to be paid for each meeting of the Board or any Board committee attended by an Independent Director. The Board will evaluate the fee or other compensation at least every three years, to ensure that Director compensation is appropriate. No compensation shall be paid to any Management Director, Affiliated Director, or *ex officio* Director for his or her services on the Board, other than the compensation paid to the Management Director for services as CEO of the Corporation. No compensation shall be paid by the Corporation to any member of the Member Representatives

Committee for his or her services on the Member Representatives Committee. Independent Directors shall be entitled to be reimbursed their reasonable out-of-pocket expenditures for attending meetings and conducting the business of the Corporation.

Section 2. Preparation and Adoption of Annual Budget, Business Plan, and Funding Mechanism. The Board shall require the CEO to prepare for Board approval an annual business plan and budget for the administrative and other expenses of the Corporation, including the expenditures for the fiscal year for any material special projects undertaken by the Corporation and reasonable and proper reserves and provisions for contingencies, in accordance with all NERC and Commission requirements. The annual business plan, budget and funding mechanism of the Corporation shall be for a fiscal year commencing on January 1 and ending on December 31. Each annual business plan, budget, and funding mechanism shall be approved by the Board at a regular meeting or a special meeting of the Board duly called for that purpose. The Board shall approve each annual business plan, budget, and funding mechanism at a time that allows for timely submittal of the approved annual business plan, budget, and funding mechanism to the applicable regulatory authorities.

Section 3. Comments During Preparation of Annual Business Plan and Budget. In preparing the annual business plan and budget, the Board shall require that the CEO post a draft business plan and budget for review and comment by the Members of the Corporation, the Member Representatives Committee, and the standing committees of the Corporation for at least ten (10) days prior to the date of the meeting of the Board at which the annual business plan and budget is to be adopted.

Section 4. Modified or Supplemental Budgets. During the course of a fiscal year, the Board may modify any approved budget or develop and approve a supplemental budget if determined by the Board to be necessary due to such factors as a shortfall in revenues of the Corporation from projected levels, incurred or anticipated expenditures, duties, or new projects not provided for in the annual budget, or such other factors as in the judgment of the Board warrant modification of the budget for the fiscal year or development of a supplemental budget. In preparing a modified or supplemental budget, the Board shall follow the provisions of this Article XI, Section 4 to the extent practicable in the judgment of the Board in light of the urgency of the circumstances necessitating preparation and approval of the modified or supplemental budget. Each modified or supplemental budget shall be approved by the Board at a regular meeting or a special meeting of the Board duly called for that purpose.

Section 5. Submission of Annual Business Plans and Budgets to the Regulatory Authorities. Each annual budget, annual business plan, and annual, modified, or supplemental budget approved by the Board shall be submitted by the Corporation to the ERO and any applicable regulatory authorities for approval in accordance with its regulations, and shall not be effective until approved by the applicable regulatory authorities. If ordered to modify or remand an annual budget, business plan, or annual, modified, or supplemental funding mechanism, the Board shall promptly following such order adopt such modifications to the business plan, budget, or funding mechanism as are required or directed by the order of the ERO and any applicable regulatory authority.

ARTICLE XII. AMENDMENTS TO THE BYLAWS

Section 1. Amendments to the Bylaws. These Bylaws may be altered, amended, or repealed by action of the Membership, as set forth below. Any alteration,

amendment, repeal or adoption of Bylaws shall be subject to any applicable requirements for filing with or approval by the ERO or any other applicable regulatory authority. These Bylaws may be altered, amended, or repealed as follows:

(a) Any Director or Member suggesting amendments to these Bylaws must submit a proposal of the amendment, including any necessary supporting documents, to the CEO.

(b) The CEO shall place the proposal on the agenda for a Board meeting in the time and manner prescribed by the Board and within 95 days of the request.

(c) If the proposal is approved by an act of the Board as set forth in Article VI, Section 3, the Board shall place the proposal on the agenda of the next Annual Meeting of the Corporate Members unless the Board in its discretion calls a Special Meeting of the Corporate Members to vote on the proposal or determines to seek Membership approval without a meeting as provided in Article V, Section 4.

(d) If the proposal is not approved by the Board, the Members of the Corporation may call a meeting, pursuant to Article V, Section 1(b), for the purpose of voting on a proposal not approved by the Board. Any such proposal must be approved by a vote of five of the six Sectors at a meeting of Members called for that purpose or by written consent of five of the Sectors, where the number of votes for and against the proposed alteration, amendment, repeal or adoption of Bylaws shall be determined in accordance with Article V, Section 2.

ARTICLE XIII. INDEMNIFICATION; PROCEDURE; DISSOLUTION

Section 1. Indemnification. The Corporation shall indemnify each person who at any time shall serve, or shall have served, as an officer, Director, employee, or other corporate agent of the Corporation, is or was serving at its request as a director, officer, partner, venturer, proprietor, employee, agent or similar functionary of another foreign or domestic corporation, partnership, joint venture, sole proprietorship, trust, employee benefit plan or other enterprise ("Indemnified Parties"), to the full extent from time to time permitted by the Texas Business Organizations Code and other applicable law. Such right of indemnification shall inure to the benefit of the legal representative of any such Indemnified Party. The foregoing indemnification shall be in addition to, and not in restriction or limitation of, any privilege or power that the Corporation may have with respect to the indemnification or reimbursement of its Indemnified Parties. The Corporation shall also pay or advance reasonable expenses incurred by an Indemnified Party in connection with a proceeding in advance of the final disposition of the proceeding upon receipt of a written affirmation by the Indemnified Party of a good faith belief that the standard of conduct necessary for indemnification under this Article XIII and the Texas Business Organizations Code has been met and a written undertaking by or on behalf of the officer, Director, or other corporate agent to repay the amount if it shall be ultimately determined that the Indemnified Party was not entitled to be indemnified by the Corporation.

Section 2. Parliamentary Rules. In the absence of and to the extent not inconsistent with specific provisions in these Bylaws, meetings or other actions pursuant to these Bylaws shall be governed by procedures that the Board may, from time to time, establish by resolution.

Section 3. Dissolution. Upon dissolution of the Corporation, in accordance with the Certificate of Formation, the remaining assets of the Corporation after payment of debts

shall be distributed in the manner determined by the Board, provided that, (i) no part of the assets shall be distributed to any Director of the Corporation, and (ii) the distribution of assets shall be consistent with the requirements of Section 501(c)(3) of the United States Internal Revenue Code of 1954.

ARTICLE XIV. CONFLICTS OF INTEREST

Section 1. Conflicts of Interest.

(a) Each Director shall have an affirmative duty to disclose to the Board or committee (as the case may be) any actual or potential conflicts of interest of the Director that arise during his or her tenure as a Director where, and to the extent that, such conflicts or potential conflicts directly or indirectly affect any matter that comes before the Board. A Director with a direct or potentially conflicting interest in a matter shall recuse himself from deliberations and actions on the matter in which the conflict arises and shall abstain on any vote on the matter and not otherwise participate in a decision on the matter. Any disclosure of a potential conflict of interest by a Director shall be noted in the minutes of the Board meeting at which the direct interest is disclosed. Mere attendance at the meeting, without participating in discussion of the issue raising the potential conflict, shall not constitute participation.

(b) The Corporation may not make any loan to a Director, committee member or officer of the Corporation. A Member, Director, officer, or committee member of the Corporation may not lend money to, or otherwise transact business with, the Corporation except as otherwise provided by these Bylaws, the Certificate of Formation, and applicable law. A related party transacting business with the Corporation has the same rights and obligations relating to those matters as other persons transacting business with the Corporation, provided the related party nature of the transaction is known to the Board. The Corporation may not borrow money from, or otherwise transact business with, a Member, Director, officer, or committee member of the Corporation unless the transaction is described fully in a legally binding instrument, is in the Corporation's best interests, and is on terms no less favorable to the Corporation than could be obtained in an arms-length transaction. The Corporation may not borrow money from, or otherwise transact business with, a Member, Director, officer, or committee member of the Corporation without full disclosure of all relevant facts and without the Board's approval, not including the vote of any person having a personal interest in the transaction.

Section 2. Prohibited Acts. No Member, Director, officer, or committee member of the Corporation may do any of the below-listed prohibited acts. Engaging in these prohibited acts may lead to sanction, suspension, expulsion or termination after a hearing as described in these Bylaws. The prohibited acts include the following:

- (a) Do any act in violation of these Bylaws.
- (b) Do any act in violation of a binding obligation of the Corporation except with the Board's prior approval.
- (c) Do any act with the intention of harming the Corporation or any of its operations.
- (d) Receive an improper personal benefit from the operation of the Corporation.

(e) Use the Corporation's assets, directly or indirectly, for any purpose other than carrying on the Corporation's business.

(f) Wrongfully transfer or dispose of Corporation property, including intangible property such as goodwill.

(g) Use the Corporation's name (or any substantially similar name) or any trademark or trade name adopted by the Corporation, except on behalf of Corporation in the ordinary course of its business or as a reference to the Corporation or its region.

(h) Disclose any of Corporation's or Members' business practices, trade secrets, or any other confidential or proprietary information not generally known to the business community to any person not authorized to receive it.

Section 3. Loans and Guarantees. Neither participation in the activities of the Corporation nor any provision of these Bylaws or of the Certificate of Formation shall be deemed to constitute a pledge or loan of the credit of any Member for the benefit of the Corporation or a guarantee by any Member of any obligation of the Corporation.

ARTICLE XV. BOOKS AND RECORDS; AUDIT; FISCAL YEAR

Section 1. Access to Books and Records. All Members of the Corporation will have access to the books and records of the Corporation, including financial statements and budgets; however, the Board shall establish procedures by which a Member, upon written demand stating the purpose of the demand may examine and copy the books and records of the Corporation. If necessary to protect the confidential information of the Corporation, a Member requesting examination of any of the Corporation's non-public books and records will be required to sign a confidentiality and non-disclosure agreement before viewing such information. The procedures shall include policies that provide reasonable protection against the unnecessary disclosure of information related to individual employees, including their compensation.

Section 2. Audit. At least annually, an audit of the financial statements of the Corporation shall be performed by the Auditor approved by the Board. The Auditor's opinion and the audited financial statements will be made available to all Members as described in Article XV, Section 1.

Section 3. Fiscal Year. The fiscal year of the Corporation shall be from January 1 through the following December 31, unless otherwise established by resolution of the Board.

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth the Regional Entity’s standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA ~~{add reference to any applicable authorities in Canada and Mexico}.~~ No regional reliability standard shall be effective within the ~~{Regional Entity Name}Texas RE~~ area unless filed by NERC with FERC ~~{and applicable authorities in Canada and Mexico}~~ and approved by FERC ~~{and applicable authorities in Canada and Mexico}.~~

COMMON ATTRIBUTE 2

~~{Regional Entity Name}Texas RE~~ regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A ~~{Regional Entity Name}Texas RE~~ reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

~~{Regional Entity Name}Texas RE~~ regional reliability standards, when approved by FERC ~~{add applicable authorities in Canada}.~~, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the ~~{Regional Entity Name}Texas RE~~ area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of ~~{Regional Entity Name}Texas RE~~, or group within ~~{Regional Entity Name}Texas RE~~, shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the ~~{Regional Entity Name}Texas RE~~ area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

~~**[Reliability Standards or other named] committee****Committee (RSC)** — The ~~**[Regional Entity Name]****[standards] committee****Texas RE RSC** manages the standards development process. The ~~**[standards] committee****RSC** will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The ~~**[standards] committee****RSC** will advise the ~~**[Regional Entity Name]****Texas RE** board on standards presented for adoption.~~~~~~~~~~

COMMON ATTRIBUTE 6

~~*[Alternative 6A: For a Regional Entity that chooses to vote using a balanced stakeholder committee.]*~~

~~The **[standards] committee** is a balanced stakeholder committee, inclusive of all stakeholder interests that provide for or are materially impacted by the reliability of the bulk power system. **[The [standards] committee votes to approve standards.]** See Appendix A for the representation model of the **[standards] committee**.~~

~~*[Alternative 6B: For a Regional Entity that chooses to vote using a balanced ballot body of stakeholders.]*~~

~~f~~

~~**Registered ballot body** — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with **[Regional Entity Name]****Texas RE** as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. **[Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.]** The representation model of the registered ballot body is provided in Appendix A.]~~

COMMON ATTRIBUTE 7

~~**[Regional Entity Name]****Texas RE** will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the **[Regional Entity Name]****Texas RE** and NERC websites.~~

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within ~~{no greater than 60}~~ days of receipt of a completed standard request, the ~~{standards} committee~~RSC shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The ~~{standards} committee~~RSC may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The ~~{standards} committee~~RSC may, at its discretion, expand or narrow the scope of the standard request under consideration. The ~~{standards} committee~~RSC shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the ~~{standards} committee~~RSC rejects a standard request, a written explanation for rejection will be delivered to the requester within ~~{no greater than 30}~~ days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the ~~{standards} committee~~RSC. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the ~~{standards} committee~~RSC.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the ~~{standards} committee~~RSC for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the ~~{Regional Entity Name}~~Texas RE website within ~~{no greater than 30}~~ days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the ~~{standards} committee~~RSC. ~~The {standards} committee~~RSC. ~~The RSC~~ shall approve the drafting

team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the ~~{standards} committee~~RSC, the standards process manager shall facilitate the posting of the draft standard on the ~~{Regional Entity Name}~~Texas RE website, along with a draft implementation plan and supporting documents, for a no less than a {30}-day comment period. The standards process manager shall provide notice to ~~{Regional Entity Name}~~Texas RE stakeholders and other potentially interested entities, both within and outside of the ~~{Regional Entity Name}~~Texas RE area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the ~~{Regional Entity Name}~~Texas RE website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the ~~{standards} committee~~RSC concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the ~~{Regional Entity Name}~~{Texas RE} registered ballot body/~~{standards} committee~~. The vote shall commence no sooner than {15} days and no later than {30} days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

~~[Alternative 17A: For an RE that chooses to vote using a balanced stakeholder committee.]~~

~~The [standards] committee shall give due consideration to the work of the drafting team, as well as the comments of stakeholders and minority objections, in approving a proposed regional reliability standard for submittal to the [Regional Entity Name] board. The [standards] committee may vote to approve or not approve the standard. Alternatively, the [standards] committee may remand the standard to the drafting team for further work or form a new drafting team for that purpose.~~

~~[Alternative 17B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]~~

~~The [Regional Entity Name] Texas RE registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.~~

COMMON ATTRIBUTE 18

~~[Alternative 18A: For an RE that chooses to vote using a balanced stakeholder committee.]~~

~~The [standards] committee may not itself modify the standard without issuing a new notice to stakeholders regarding a vote of the modified standard.~~

~~[Alternative 18B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]~~

~~All members of [Regional Entity Name] are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively:~~

~~Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]~~

COMMON ATTRIBUTE 19

~~[Alternative 19A: For an RE that chooses to vote using a balanced stakeholder committee.]~~

~~Actions by the committee shall be recorded in the regular minutes of the committee.~~

~~[Alternative 19B: For an RE that chooses to vote using a balanced ballot body of stakeholders.]~~

Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%]four (4) of the six (6) Sectors of the members of the [registered ballot body/ballot pool] submitted a ballot.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC ~~and applicable authorities in Canada and Mexico.~~

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the ~~{Regional Entity Name}~~Texas RE bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ~~{Regional Entity Name}~~,Texas RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the ~~{Regional Entity Name}~~Texas RE members and others.

COMMON ATTRIBUTE 23

- **Balanced** - The ~~{Regional Entity Name}~~Texas RE standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the ~~{Regional Entity Name}~~Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public

comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity's Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended

to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	<p>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions.</p> <p>If not applicable to the entire {Regional Entity Name}Texas RE area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</p>
----------------------	--

COMMON ATTRIBUTE 33

Measure(s)	<p>Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.</p>
-------------------	---

COMMON ATTRIBUTE 34

Compliance	Defines for each measure:
-------------------	---------------------------

Monitoring Process	<ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.

I. Introduction

This document defines the fair and open process for adoption, approval, revision, and reaffirmation, of a Regional Reliability Standard (Regional Standard) for the ERCOT Region by Texas Reliability Entity, Inc. (Texas RE). Regional Standards provide for the reliable regional and sub-regional planning and operation of the Bulk-Power System (BPS), consistent with Good Utility Practice within a Regional Entity's (RE's) geographical footprint.

The process for obtaining a Texas RE Regional Variance to a NERC Reliability Standard shall be the same as the process for obtaining a Regional Standard. Throughout this document, where the term Regional Standard is used, the same process will be applied to a Regional Variance.

Due process is the key to ensuring that Regional Standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in a Regional Standard's development.

Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the BPS has a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

Proposed Regional Standards shall be subject to approval by North American Electric Reliability Corporation (NERC), as the electric reliability organization, and by the Federal Energy Regulatory Commission (FERC) before becoming mandatory and enforceable under Section 215 of the FPA. No Regional Standard shall be effective within the Texas RE area unless filed by NERC with FERC and approved by FERC.

Regional Standards shall provide for as much uniformity as possible with reliability standards across the interconnected BPS of the North American continent. A Regional Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the BPS. A Regional Standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

Regional Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable BPS owners, operators, and users within the Texas RE area, regardless of membership in the region.

II. Background

The Texas RE may develop, through its own processes, separate Regional Standards that go beyond, add detail to, or implement NERC Reliability Standards; obtain a Regional Variance; or otherwise address issues that are not addressed in NERC Reliability Standards.

NERC Reliability Standards and Regional Standards are all to be included within the Texas RE's Compliance Program.

Regional Standards are developed consistent with the following philosophies according to the process defined within this document:

- Developed in a fair and open process that provides an opportunity for all interested parties to participate;
- Does not have an adverse impact on commerce that is not necessary for reliability;
- Provides a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and does not have a significant adverse impact on reliability; and
- Based on a justifiable difference between regions or between sub-regions within the Regional geographic area.

The NERC Board of Trustees has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. As these principles are fundamental to reliability and the market interface, these principles provide a constant beacon to guide the development of reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards. Persons and committees that are responsible for the Texas RE Standards Process shall consider these NERC Principles in the execution of those duties.

NERC Reliability Standards are based on certain reliability principles that define the foundation of reliability for the North American BPS. Each Regional Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Regional Standard serves a purpose in support of reliability of the North American BPS. Each Regional Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Regional Standard undermines reliability through an unintended consequence.

While NERC Reliability Standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Regional Standards shall be consistent with the market interface principles. Consideration of the market interface principles is intended to ensure that Regional Standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

III. Regional Standards Definition

A NERC Reliability Standard defines certain obligations or requirements of entities that operate, plan, and use the BPS of North America. The obligations or requirements must be material to reliability and measurable. Each obligation and requirement shall support one or more of the stated reliability principles and shall be consistent with all of the stated reliability and market interface principles.

Texas RE may develop, through its own processes: (1) Regional Standards that go beyond, add detail to, or implement NERC Reliability Standards or that cover matters not addressed in NERC Reliability Standards, and (2) Regional Variances that allow an alternative approach to meeting the same reliability objective as the NERC Reliability Standard and are typically necessitated by physical differences.

IV. Roles in the Texas RE Regional Standards Development Process

Originator – Any person, acting as a representative of an organization that is directly and materially affected by the operation of the ERCOT region BPS is allowed to request that a Regional Standard be developed or an existing Regional Standard modified, or deleted, by creating a Regional Standards Authorization Request (SAR) as described in Appendix B to this document.

Texas RE Board of Directors (Texas RE BOD) – The Texas RE BOD shall act on any proposed Regional Standard that has gone through the process. Once the Regional Standard is approved by FERC, compliance with the Regional Standard will be enforced consistent with the terms of the Regional Standard.

Registered Ballot Body (RBB) – The Registered Ballot Body is comprised of all entities or individuals (whether or not they are Texas RE corporate members) that are ERCOT region BPS owners, operators, and users and qualify for one of the below-listed Texas RE Standards Development Sectors, and are registered with the Texas RE as potential ballot participants.

Registered Ballot Pool (RBP) – Each Regional Standard has its own ballot pool formed of interested members of the Registered Ballot Body. Through the voting process, the RBP will ensure that the need for and technical merits of a proposed Regional Standard are appropriately considered. The RBP will also ensure that appropriate consideration of views and objections are received during the development process.

Reliability Standards Committee (RSC) – A balanced committee comprised of entities representing the six Texas RE Standard Development Sectors. The RSC will consist of two representatives from each Sector (except that Sectors with only one member may only have one representative), as elected by the Sector, and the RSC requires a quorum of at least one representative from at least two-thirds (2/3) of the Sectors to take action. The RSC in coordination with the Reliability Standards Manager will review, participate in, and manage the Texas RE Regional Standards Development Process, and develop Texas RE Regional Standards on a schedule as directed by NERC and as needed per the reliability related needs of the ERCOT Region. Where necessary or appropriate, the RSC will coordinate the development of Texas RE Regional Standards and Regional Variances with the development of national standards appearing in the NERC work plan, and the RSC will coordinate and submit comments as a group, to the extent feasible. The RSC will also review FERC Orders pertaining to standards and standards development activities to ensure directives are addressed in regional standard development.

Reliability Standards Manager (RSM) – A Texas RE employee assigned the task of ensuring that the development, revision or deletion of Regional Standards is in accordance with this document. The RSM works with the RSC to ensure the integrity of the process and consistency of quality and completeness of the Regional Standards. The RSM manages the Regional Standards Development Process, and coordinates and facilitates all actions contained in all steps in the process including the management of the Standard Drafting Teams and the facilitation of RSC meetings.

Reliability Standards Staff – Employees of the Texas RE that work with or for the Reliability Standards Manager.

Standard Drafting Team (SDT) – A team of technical experts, assigned by the RSC, and typically includes a Texas RE employee and the Originator, assigned the task of developing a proposed Regional Standard based upon an approved SAR using the Regional Standard Development Process contained in this document.

Texas RE Standards Development Sectors (Sectors) – The six (6) Texas RE Standards Development Sectors are defined as follows:

- **System Coordination and Planning:** An entity that is registered with NERC as a Reliability Coordinator (RC), Balancing Authority (BA), Planning Authority (PA), Resource Planner (RP), or Interchange Authority (IA)
- **Transmission:** An entity that is registered with NERC as a Transmission Owner (TO), Transmission Planner (TP), Transmission Service Provider (TSP), and/or Transmission Operator (TOP).
- **Cooperative or Utility:** An entity that is (a) a corporation organized under Chapter 161 of the Texas Utilities Code or a predecessor statute to Chapter 161 and operating under that chapter; or (b) a corporation organized as an electric cooperative in a state other than Texas that has obtained a certificate of authority to conduct affairs in the State of Texas; or (c) a cooperative association organized under Tex. Rev. Civ. Stat. 1396-50.01 or a predecessor to that statute and operating under that statute.
- **Municipal Utility:** A municipally owned utility as defined in PURA §11.003 and is registered with NERC for at least one registered function.
- **Generation:** An entity that is registered with NERC as a Generator Owner (GO) or Generator Operator (GOP).
- **Load-Serving and Marketing:** An entity that is registered with NERC as a Load Serving Entity (LSE), a Purchasing-Selling Entity, or any newly defined NERC Function for demand response, and any entity with a direct and material interest in the ERCOT region BPS that is not eligible for membership in any other Sector.

V. Texas RE Regional Standards Development Process

A. Assumptions and Prerequisites

The process for developing and approving Standards is generally based on the procedures of the American National Standards Institute (ANSI) and other standards-setting organizations in the United States and Canada. The Regional Standards development process has the following characteristics:

- **Due process** – Any person representing an organization with a direct and material interest has a right to participate by:
 - a) Expressing an opinion and its basis,
 - b) Having that position considered, and
 - c) Appealing any negative decision
- **Openness** – Participation is open to all organizations that are directly and materially affected by ERCOT region's BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in Texas RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such

requirements. Meetings of SDTs are open to all interested parties. All proposed SARs and Regional Standards are posted for comment on the Texas RE Website.

- **Balance** – The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any single interest category.

B. Regional Standards Development Process Steps

Note: The term “days” below refers to calendar days.

Texas RE will coordinate with NERC such that the acknowledgement of receipt of a Regional Standard request identified in Step 1, notice of comment posting period identified in Step 4, and notice for vote identified in Step 5 below are concurrently posted on both the Texas RE and NERC websites.

Step 1 – Development of a Standards Authorization Request (SAR) to Develop, Revise, or Delete a Regional Standard

Any entity (Originator) that is directly or materially impacted by the operation of the BPS (including all users, owners, and operators of the BPS and regardless of whether the entity is a Texas RE member) within the geographical footprint of Texas RE may request, via a submittal of a Standard Authorization Request (SAR) form, the development, modification, or deletion of a Regional Standard or Regional Variance.

Any such request shall be submitted to the Texas RE RSM, or his or her designee in electronic format. The SAR form may be downloaded from the Texas RE Website.

An acceptable SAR contains a description of the proposed Regional Standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed Regional Standard.

The RSM will verify that the submitted SAR form has been adequately completed. The RSM may offer the Originator suggestions regarding changes and/or improvements to enhance clarity of the Originator’s intent and objectives. The Originator is free to accept or reject these suggestions. Within 15 days the RSM will electronically acknowledge receipt of the SAR.

The RSM will post all adequately completed SARs on the Texas RE Website for public viewing and comment. This initial SAR comment period shall be 15 days. After this initial comment period, the RSM will then forward the SAR to the RSC for its consideration at the next regularly scheduled meeting of the RSC. Within 60 days of receipt of an adequately completed SAR that has been through the initial 15-day comment period, the RSC shall determine the disposition of the SAR and, if the RSC deems necessary, direct the RSM to post the revised SAR again for review and comment for another 15-day period.

The disposition decision process shall use the normal “business rules and procedures” of the RSC then in effect. The RSC may vote to take one of the following actions:

- Accept the SAR as a candidate for development of a new Regional Standard, revision of an existing Regional Standard, or deletion of an existing Regional Standard. The RSC may, in its sole discretion, expand or narrow the scope of the SAR under consideration.

The RSC shall prioritize the development of SARs as may be required based on the number of SARs under development at any time.

- Reject the SAR. If the RSC rejects a SAR, a written explanation for rejection will be delivered to the Originator within 30 days of the decision, and the Texas RE BOD will also be notified with such explanation. The Texas RE BOD may, at its discretion, direct the RSC to reconsider any SAR that has been rejected.
- Remand the SAR back to the Originator for additional work. The RSM will make reasonable efforts to assist the Originator in addressing the deficiencies identified by the RSC. The Originator may then resubmit the modified SAR using the process above. The Originator may choose to withdraw the SAR from further consideration prior to re-submittal to the RSC.

Any SAR that is accepted by the RSC for development of a Regional Standard (or modification or deletion of an existing Regional Standard) shall be posted for public viewing on the Texas RE Website, and their status will be updated as appropriate.

Any documentation of the deliberations of the RSC concerning SARs shall be made available according to normal “business rules and procedures” of the RSC then in effect.

Texas RE Staff shall submit a written report to the Texas RE BOD on a periodic basis (at least quarterly at regularly scheduled Texas RE BOD Meetings) showing the status of all SARs that have been brought to the RSC for consideration.

Step 2 – Formation of the Standard Drafting Team and Declaration of Milestone Date

Upon acceptance by the RSC of a SAR for development of a new Regional Standard (or modification or deletion of an existing Regional Standard), the RSC shall direct the RSM to assemble a qualified balanced slate for the SDT. The RSM will solicit drafting team nominees by announcing the opening of nominations to the stakeholders in the region. The SDT shall consist of a group of people who collectively have the necessary technical expertise and work process skills to draft the standard being requested in the SAR. The RSM shall recommend to the RSC a slate of ad-hoc individuals or a pre-existing task force, work group, or similar group for the SDT. The membership of the SDT shall not include more than one individual from any one entity.

The RSM will manage the SDT to ensure that the Texas RE Standards Development Process is followed, and that the team membership receives all necessary administrative support. This support typically includes a Texas RE staff member and the Originator if he/she chooses to participate. The RSM may develop additional guidelines to assist the SDT, but as a general rule, the RSM will follow the then-current NERC SDT Guidelines and associated NERC SDT procedures in the management of the regional SDTs. The RSC shall appoint the SDT interim chair (should not be a Texas RE staff person). The SDT will elect the permanent Chair and Vice-chair at its first meeting.

The RSM shall submit the proposed list of names of the SDT to the RSC. The RSC will either accept the recommendations of the RSM or modify the SDT slate, as it deems appropriate within 60 days of accepting a SAR for development.

Step 3 – Work and Work Product of the Standard Drafting Team

The RSM will collaborate with the SDT to develop a work plan including the establishment of milestones for completing critical elements. This plan shall be delivered and reported to the RSC, and based upon this work plan, the RSC shall declare a preliminary date on which a completed draft Regional Standard and associated supporting documentation will be available for comment.

The SDT is to meet, either in person or via electronic means (such as Web Ex) as necessary, establish sub-work teams or groups (made up of members of the SDT) as necessary, and performs other activities to address the parameters of the SAR and the milestone date(s) established

The work product of the SDT will consist of the following:

- A draft Regional Standard consistent with the SAR on which it was based.
- An assessment of the impact of the SAR on neighboring regions, and appropriate input from the neighboring regions if the SAR is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Regional Standard (or other regional criteria, protocol, or rule) that may be deleted, in part or whole, or otherwise impacted by the implementation of the draft Regional Standard.
- Technical reports and/or work papers that provide technical support for the draft Regional Standard under consideration.
- The perceived reliability impact should the Regional Standard be approved.
- A draft of recommended Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs), in coordination with Texas RE staff.

Upon completion of these tasks, the SDT shall submit these documents to the RSC, which will verify that the proposed Regional Standard is consistent with the SAR on which it was developed.

The SDT shall regularly (at least once each month) report to and inform the RSC of its progress in meeting the timely completion of the draft Regional Standard. The SDT may request of the RSC, at any point in the Regional Standard Development Process, and change in the scope of the SAR.

The RSC may, at any time, exercise its authority over the Regional Standards Development Process by directing the SDT to move to Step 4 (below) and post the current work product for comment. Any interested entity (including the Originator and the RSM) that contends that the SDT is not effectively progressing on a draft standard or variance may notify the RSC. If any entity contends that the RSC has not taken timely action regarding any requested standard, the entity may file a written complaint with the RSM, who will notify the RSC. If the RSC cannot resolve the complaint within sixty days, the complaining entity may request that its complaint be included on the RSM's report to the Texas RE BOD.

Step 4 – Comment Posting Period

At the direction from the RSC, the RSM shall post the draft Regional Standard, VRFs, and VSLs on the Texas RE Website, along with a draft implementation plan and supporting documents, for a 30-day public comment period. The posting of draft VRFs and VSLs for stakeholder comment can be deferred until a second or later posting of the draft standard as determined by the standard drafting team; however, it is recommended that the VRFs and VSLs be posted for comment with the entire draft Regional Standard as early in the standard development process as possible. The RSM shall also give notice of the posting to all potentially interested entities inside or outside of the ERCOT region of which Texas RE is aware. The RSM will give notice using the typical communication procedures in effect or other means as deemed appropriate.

Within 30 days of the conclusion of the 30-day comment posting period, the SDT shall convene and consider changes to the draft Regional Standard, the implementation plan, supporting technical documents, VRFs, and/or VSLs, based upon comments received. The SDT shall also prepare a formal written response to every comment received. The SDT may then elect to return to Step 3 to revise the draft Regional Standard, implementation plan, and/or supporting technical documentation. If the comments received indicate that the VRFs or VSLs should be changed to better conform to the criteria for establishing those elements, then the SDT, working with Texas RE staff, may make revisions.

The SDT shall prepare a “modification report” summarizing the comments received, the team’s responses to the comments, and the changes made to the draft standard as a result of these comments. The modification report shall also summarize comments that were rejected by the SDT and the reason(s) that these comments were rejected, in part or whole. The RSM shall post responses to all comments on the Texas RE Website no later than the next posting of the revised draft standard.

Step 5 – Posting for Voting by the Registered Ballot Pool

Upon recommendation of the SDT, and if the RSC concurs that all of the requirements for development of the standard have been met, the RSM shall post the proposed standard and implementation plan for ballot and the VRFs and VSLs for poll on the Texas RE Website. The RSM shall also announce the vote to approve the standard and the opportunity to provide input into the VRFs and VSLs, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

The RSM will schedule a vote among the Registered Ballot Pool, which is to be scheduled to commence no sooner than 15 days and no later than 30 days following this posting.

The RSM shall send a notice to every entity in the Registered Ballot Body (RBB) to notify them of an opportunity to become a part of the Registered Ballot Pool for this Regional Standard or Regional Variance. Each member of the RBB will be allowed the opportunity to join a single ballot pool to participate in the determination of the approval of the Regional Standard and to provide input to the “non-binding poll” on the VRFs and VSLs associated with the Regional Standard. This notice should precede the start of the ballot by at least 30 days. The purpose of this notice is to establish a ballot pool to participate in the consensus development process and ballot the proposed action. All members of the Registered Ballot Body are eligible to participate in voting on proposed new Regional Standards, Regional Standard revisions, or Regional

Standard deletions. There shall be one person designated as the primary RBB representative of each entity. Those members of the RBB that sign up for the Ballot Pool become that pool.

The Texas RE Registered Ballot Pool shall be able to vote on the proposed standard and participate in the non-binding poll on the VRFs and VSLs during a 15-day period. Votes shall be submitted electronically, or through other means as approved by the RSC.

Voting is an advisory to the Texas RE BOD. The voting results shall be composed of only the votes from the Registered Ballot Pool members who have responded within the 15-day voting period. Votes may be accompanied by comments explaining the vote, but are not required. All comments shall be responded to and posted to the Texas RE Website prior to going to the RSC or Texas RE BOD.

At least one (1) representative from four (4) of the six (6) Sectors must vote to constitute a quorum. Each Sector shall have two (2) Sector votes.

The “poll” taken on the violation risk factors and violation severity levels is “non-binding.” The results of this poll will be reported to the Texas RE BOD and considered by Texas RE staff in forming its recommendations. The results of the poll are one element for the Texas RE BOD to consider when making a determination of whether to approve the compliance elements of the standards. The results of the poll do not determine whether these compliance elements are “approved.” In addition, if stakeholder comments submitted with the non-binding poll indicate specific improvements that would improve consensus, then the SDT, working with Texas RE staff, will revise the VRFs and VSLs to reflect stakeholder comments before the VRFs and VSLs are submitted to the Texas RE BOD.

Step 6A – Registered Ballot Pool Voting Receives 2/3 or Greater Affirmative Votes of the Texas RE Sectors

If a draft Regional Standard receives 2/3 or greater affirmative votes during the 15-day voting period, the RSC will forward the Regional Standard to the Texas RE BOD for action (Step 7).

Step 6B – Membership Voting Does Not Receive 2/3 Affirmative Votes of the Texas RE Sectors

If a draft Regional Standard does not receive 2/3 or greater affirmative votes during the 15-day voting period, the RSC may:

- Revise the SAR on which the draft Regional Standard was based and remand the development work back to the original SDT or a newly appointed SDT. The resulting draft Regional Standard and/or implementation plan shall be posted for a second voting period. The RSC may require a second comment period prior to a second voting period. The second posting of the draft Regional Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
 - If a draft Regional Standard receives 2/3 or greater affirmative votes during the second voting period, the RSC will forward to the Texas RE BOD for action (Step 7).
 - If a draft Regional Standard does not receive 2/3 or greater affirmative votes during the second voting period, the RSC will refer the draft Regional Standard

and implementation plan to the Texas RE BOD. The RSC may also submit an assessment, opinion, and recommendations to the Texas RE BOD (Step 7).

- Direct the existing SDT to reconsider or modify certain aspects of the draft Regional Standard and/or implementation plan. The resulting draft Regional Standard and/or implementation plan shall be posted for a second voting period. The RSC may require a second comment period prior to the second voting period. The second posting of the draft Regional Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
 - If a draft Regional Standard receives 2/3 or greater affirmative votes on the second voting period, the RSC will forward it to the Texas RE BOD for action (Step 7).
 - If a draft Regional Standard does not receive 2/3 or greater affirmative votes on the second voting period, the RSC will refer the draft Regional Standard and implementation plan to the Texas RE BOD. The RSC may also submit an assessment, opinion, and recommendations to the Texas RE BOD (Step 7).

Step 7 – Action by the Texas RE Board of Directors

A proposed Regional Standard and VRFs and VSLs submitted to the Texas RE BOD for action shall be publicly posted at least 10 days prior to action by the Texas RE BOD. At a regular or special meeting, the Texas RE BOD shall consider adoption of the draft Regional Standard and shall approve the associated VRFs and VSLs for any approved Regional Standard. The Texas RE BOD shall be provided with an “informational package” which includes:

- The draft Regional Standard and any modification or deletion of other related existing Regional Standard(s)
- Implementation Plan (including recommending field testing and effective dates)
- Technical Documentation supporting the draft Regional Standard
- The VRFs and VSLs recommended by Texas RE staff
- A summary of the vote and summary of the comments and responses that accompanied the votes and the non-binding poll on the VRFs and VSLs.

The Texas RE BOD will consider the results of the voting and dissenting opinions. The Texas RE BOD will consider any advice offered by the RSC and may:

- Approve the proposed Regional Standard;
- Remand the proposed Regional Standard to the RSC with comments and instructions;
or
- Disapprove the proposed Regional Standard without recourse.

Under no circumstances may the Texas RE BOD substantively modify the proposed Regional Standard.

Separately, the Texas RE BOD shall consider approval of the VRFs and VSLs for the Regional Standard. In making its determination, the BOD shall consider the following:

-
- The RSC shall present the results of the non-binding poll conducted and a summary of industry comments received on the final posting of the proposed VRFs and VSLs.
 - Texas RE staff shall present a set of recommended VRFs and VSLs that considers the views of the standard drafting team, stakeholder comments received on the draft VRFs and VSLs during the posting for comment process, the non-binding poll results, appropriate governmental agency rules and directives, and VRF and VSL assignments for other Regional Standards to ensure consistency and relevance across the entire spectrum of Regional Standards.

Once a Regional Standard and the associated VRFs and VSLs are approved by the Texas RE BOD, the standard and its associated compliance elements will be submitted to NERC for approval and filing with FERC.

Step 8 – Implementation of a Regional Standard

Upon approval of a draft Regional Standard by the Texas RE BOD, the RSM will notify the membership of such action of the Texas RE BOD through the normal and customary membership communication procedures and processes then in effect. The RSM will take whatever steps are necessary to have a Regional Standard reviewed and/or approved by NERC or any successor organization.

C. Regional Standards Integration

Once the Regional Standard is approved by FERC, the RSM shall notify the stakeholders of the effective date. The RSM will also notify the Texas RE Compliance Staff for integration into the Texas RE Compliance Monitoring and Enforcement Program.

Appendix A – Stakeholder Representation

The Texas RE stakeholder representation for Regional Standards development is as follows:

I. Reliability Standards Committee (RSC)

The Reliability Standards Committee (RSC), comprised of two representatives (except for Sectors with only one member, which will have only one representative) from each of the six Texas RE Standards Development Sectors (System Coordination and Planning; Transmission; Generation; Cooperative Utility; Municipal Utility; Load-Serving and Marketing), is to provide balanced decision-making and due process for Regional Standards and Regional Variances. The RSC will receive, consider, and vote upon requests for new or revised Regional Standards and Regional Variances. The RSC requires a quorum of at least one representative from at least two-thirds of the Sectors.

The RSC will consider any requests for Regional Standards or Regional Variances from parties that are directly and materially affected by the operation of the ERCOT Region BPS that have first been submitted to the RSM for initial review.

II. Texas RE Board of Directors (BOD)

Texas RE is a Texas non-profit corporation that is governed by a combination independent and balanced stakeholder board. The Texas RE Board of Directors (BOD) includes the following directors:

- Four independent directors who are independent of any ERCOT region market participant and any NERC registered entity and are nominated and elected in accordance with the requirements and procedures specified in the Texas RE Bylaws;
- Two directors from different Sectors who are selected by the Texas RE Member Representatives Committee as its chair and vice chair;
- CEO of Texas RE;
- Chairman of the Public Utility Commission of Texas (PUCT) or another PUCT Commissioner designated by the Chairman (as *ex officio* non-voting Director); and
- Texas Public Counsel from the Office of Public Utility Counsel (OPUC) or another employee of OPUC designated by Public Counsel (as *ex officio* non-voting Director).

III. Registered Ballot Body (RBB)

A Registered Ballot Body (RBB) will be comprised of representatives from all the Sectors, to provide balanced decision-making on Regional Standards and Regional Variances. The RBB is eligible to vote on all proposed new or revised Regional Standards or Regional Variances. The RBB requires a quorum of at least one vote from at least two-thirds of the Sectors. At all meetings, each Sector shall have one (1) Sector vote, and each voting entity is entitled to only one vote. Each voting entity participating in the vote, shall receive an equal fraction of its Sector's vote. A Registered Ballot Pool (RBP) will be formed for each proposed Regional Standard or Regional Variance and will be a subset of the RBB. The RBP will vote on a particular standard action.

Appendix B – Principles, Characteristics, and Special Procedures

I. Principles

Due process is the key to ensuring that regional reliability standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in the development of a standard.

The Texas RE develops Regional Standards with due consideration of the following principles, in accordance with the steps outlined in this procedure. The process must ensure that any Regional Standard is technically sound and the technical specifications proposed would achieve a valuable reliability objective.

The standards development process has the following characteristics:

- **Open** – Participation in the development of a Regional Standard shall be open to all organizations that are directly and materially affected by ERCOT BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to ERCOT members and others.
- **Balanced** – The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.
- **Inclusive** – Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the ERCOT BPS in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.
- **Fair due process** – The Texas RE Standards Development Process shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.
- **Transparent** – All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the Texas RE Website.
- Does not unnecessarily delay development of the proposed Regional Standard.

NERC has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are to be used to guide the development of reliability standards, including regional reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards.

Each Regional Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Regional Standard serves a purpose in support of the reliability of the ERCOT BPS. Each Regional Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Regional Standard undermines reliability through an unintended consequence.

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Regional Standards shall be consistent with NERC's market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

II. Regional Standard Characteristics and Elements

a. Characteristics of a Regional Standard

The following characteristics describe objectives to be considered in the development of Regional Standards:

1. **Applicability** – Each Regional Standard clearly identifies the functional classes of entities responsible for complying with the standard, with any specific additions or exceptions noted. Such functional classes include: Reliability Coordinators, Balancing Authorities, Transmission Operators, Transmission Owners, Generator Operators, Generator Owners, Interchange Authorities, Transmission Service Providers, Planning Authorities, Transmission Planners, Resource Planners, Load-Serving Entities, Purchasing-Selling Entities, and Distribution Providers. Each Regional Standard identifies the geographic applicability of the standard. A standard may also identify any limitations on the applicability of the standard based on electric facility characteristics.
2. **Reliability Objectives** – Each Regional Standard has a clear statement of purpose that describes how the standard contributes to the reliability of the ERCOT BPS.
3. **Requirement or Outcome** – Each Regional Standard states one or more requirements, which if achieved by the applicable entities, will provide for a reliable BPS, consistent with good utility practices and the public interest.
4. **Measurability** – Each performance requirement is stated so as to be objectively measurable by a third party with knowledge or expertise in the area addressed by that requirement. Each performance requirement has one or more associated measures used to objectively evaluate compliance with the requirement. If performance can be practically measured quantitatively, metrics are provided to determine satisfactory performance.
5. **Technical Basis in Engineering and Operations** — Each Regional Standard is based upon sound engineering and operating judgment, analysis, or experience, as determined by expert practitioners in that particular field.

6. **Completeness** — Each Regional Standard is complete and self-contained. Supporting references may be provided with standards, but they are not part of the standard and do not impose mandatory requirements.
7. **Clear Language** — Each Regional Standard is stated using clear and unambiguous language. Responsible entities, using reasonable judgment and in keeping with good utility practice, are able to arrive at a consistent understanding of the required performance.
8. **Practicality** — Each Regional Standard establishes requirements that can be practically implemented by the assigned responsible entities within the specified effective date and thereafter.
9. **Consistent Terminology** — To the extent possible, Regional Standards use a set of standard terms and definitions that are approved through the regional standards development procedure.

Although Regional Standards have a common format and process, several types of standards may exist, each with a different approach to measurement:

- **Technical standards** are related to the provision, maintenance, operation, or state of electric systems, and will likely contain measures of physical parameters that are technical in nature.
- **Performance standards** are related to the actions of entities providing for or impacting the reliability of the BPS, and will likely contain measures of the results of such actions or qualities of performance of such actions.
- **Preparedness standards** are related to the actions of entities to be prepared for conditions that are unlikely to occur, but are nonetheless critical to reliability, and will likely contain measures of such preparations or the state of preparedness.

b. Elements of a Regional Standard

To ensure uniformity of regional reliability standards, a Regional Standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

Table 1 – Performance Elements of a Regional Standard

Identification Number	A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference.
Title	A brief, descriptive phrase identifying the topic of the standard.
Applicability	Clear identification of the functional classes of entities responsible for

	complying with the standard, noting any specific additions or exceptions. If not applicable to the entire Texas RE area, then a clear identification of the portion of the BPS to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
Effective Date and Status	The effective date of the standard or, prior to approval of the standard, the proposed effective date.
Purpose	The purpose of the standard. The purpose shall explicitly state what outcome will be achieved or is expected by this standard.
Requirement(s)	Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.
Measure(s)	Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.

Table 2 – Compliance Elements of a Regional Standard

The following compliance elements are developed for each standard by the standard drafting team and are balloted with the regional standard:

Compliance Monitoring Process	<p>Defines for each measure:</p> <ul style="list-style-type: none"> • Compliance Enforcement Authority: The entity that is responsible for evaluating data or information to assess performance or outcomes. • Compliance Monitoring and Enforcement Processes: The processes that will be used to evaluate data or information for the purpose of assessing performance or outcomes. • Data Retention: Measurement data retention requirements and assignment of responsibility for data archiving. • Additional Compliance Information: Any other information related to assessing compliance such as the criteria or periodicity for filing specific reports.
--------------------------------------	--

The following compliance elements are developed by the SDT, working with Texas RE staff, but are not considered to be part of the standard. These elements will be posted for stakeholder comment concurrent with the associated requirements as early in the standard development process as possible. The standard drafting team, working with Texas RE staff will respond to all

comments received. The drafting team, working with Texas RE staff may make modifications to the Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) based on stakeholder comments.

A non-binding poll will be conducted to assess stakeholders' agreement with VRFs and VSLs. If stakeholder comments submitted with the non-binding poll indicate specific improvements that would improve consensus, then the SDT, working with Texas RE staff, will revise the VRFs and VSLs to reflect stakeholder comments.

The RSC will report the results of the poll and a summary of industry comments received on the final posting of the proposed VRFs and VSLs to the Texas RE BOD. Texas RE staff will develop for BOD approval recommended assignments of VRFs and VSLs associated with Regional Standards being presented for approval by the BOD. In developing the recommended VRF and VSL assignments, Texas RE staff will take into consideration the views of the standard drafting team, stakeholder comments received on the draft VRFs and VSLs during the posting for comment process, the non-binding poll results, regulatory directives, and VRF and VSL assignments for other Regional Standards to ensure consistency and relevance across the entire spectrum of NERC Reliability Standards.

The Texas RE BOD has the authority to approve Violation Risk Factors and Violation Severity Levels and may modify the VRF or VSL proposed by Texas RE staff.

<p>Violation Risk Factors</p>	<p>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below:</p> <p>A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to a normal condition.</p> <p>A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning time frame that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.</p>
--------------------------------------	---

	<p>A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning time frame that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.</p>
<p>Violation Severity Levels (VSLs)</p>	<p>Defines the degree to which compliance with a requirement was not achieved. Each requirement must have at least one VSL. While it is preferable to have four VSLs for each requirement, some requirements do not have multiple “degrees” of noncompliant performance and may have only one, two, or three VSLs.</p> <p>Lower Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing a minor element (or a small percentage) of the required performance <p>Moderate Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing at least one significant element (or a moderate percentage) of the required performance. <p>High Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing more than one significant element (or is missing a high percentage) of the required performance or is missing a single vital component. <p>Severe Violation Severity Level:</p> <ul style="list-style-type: none"> • Missing most or all of the significant elements (or a significant percentage) of the required performance.

Table 3 – Supporting Information Elements

Interpretation	Any interpretation of regional reliability standard that is developed and approved in accordance with Section VI “Interpretation of Regional Standards” in Appendix B of this procedure, to expound on the application of the standard for unusual or unique situations or to provide clarifications.
Implementation Plan	Each regional reliability standard shall have an associated implementation plan describing the effective date of the standard or effective dates if there is a phased implementation. The implementation plan may also describe the implementation of the standard in the compliance program and other considerations in the initial use of the standard, such as necessary tools, training, etc. The implementation plan must be posted for at least one public comment period and is approved as part of the ballot of the standard.
Supporting References	<p>This section references related documents that support reasons for, or otherwise provide additional information related to the regional reliability standard. Examples include, but are not limited to:</p> <ul style="list-style-type: none"> • Glossary of terms • Developmental history of the standard and prior versions • Notes pertaining to implementation or compliance • Regional Standard references • Regional Standard supplements • Procedures • Practices • Training references • Technical references • White papers • Internet links to related information

III. Maintenance of the Texas RE Regional Standards Development Process

Significant changes to this process which are not made as part of a Texas RE request for an amendment to the Delegation Agreement shall begin with the preparation of a SAR and be addressed using the same procedure as a request to add, modify, or delete a Regional Standard.

The RSC has the authority to make ‘minor’ changes to this process as deemed appropriate by the RSC and subject to the RSC voting practices and procedures then in effect. The RSM, on behalf of the RSC, shall promptly notify the Texas RE BOD of such changes to this process for their review and concurrence at the next Texas RE BOD meeting.

IV. Maintenance of Regional Standards

The RSM shall ensure that each Regional Standard is reviewed at least once every five years from the effective date of the Standard or the latest revision to the Regional Standard, whichever is the later. The review process shall be conducted by soliciting comments from the stakeholders. If no changes are warranted, the RSM shall recommend to the Texas RE BOD that the Regional Standard be reaffirmed. If the review indicates a need to revise or delete a

Regional Standard, a SAR shall be prepared and submitted in accordance with the standards development process contained in this process.

V. Urgent Action

Under certain conditions, the RSC may designate a proposed Regional Standard or revision to a standard as requiring urgent action. Urgent action may be appropriate when a delay in implementing a proposed standard or revision could materially impact reliability of the BPS. The RSC must use its judgment carefully to ensure an urgent action is truly necessary and not simply an expedient way to change or implement a Regional Standard.

An originator shall prepare a SAR and a draft of the proposed standard and submit to the RSM. The standard request must include a justification for urgent action. The RSM submits the request to the RSC for its consideration. If the RSC designates the requested standard or revision as an urgent action item, then the RSM shall immediately post the draft for pre-ballot review. This posting requires a minimum 30-day posting period before the ballot and applies the same voting procedure as detailed in Step 6.

Any Regional Standard approved as an urgent action shall have a termination date specified that shall not exceed one year from the approval date. Should there be a need to make the standard permanent the standard would be required to go through the full Regional Standard Development Process. All urgent action standards require Texas RE BOD, NERC, and FERC approval, as outlined for standards in the regular process.

Urgent actions that expire may be renewed using the urgent action process again, in the event a permanent standard is not adopted. In determining whether to authorize an urgent action standard for a renewal ballot, the RSC shall consider the impact of the standard on the reliability of the BPS and whether expeditious progress is being made toward a permanent replacement standard. The RSC shall not authorize a renewal ballot if there is insufficient progress toward adopting a permanent replacement standard or if the RSC lacks confidence that a reasonable completion date is achievable. The intent is to ensure that an urgent action standard does not in effect take on a degree of permanence due to the lack of an expeditious effort to develop a permanent replacement standard. With these principles, there is no predetermined limit on the number of times an urgent action may be renewed. However, each urgent action standard renewal shall be effective only upon approval by the Texas RE BOD, and approval by applicable governmental authorities.

Any person or entity, including the drafting team working on a permanent replacement standard, may at any time submit a standard request proposing that an urgent action standard become a permanent standard by following the full standards process.

VI. Interpretations of Regional Standards

All persons who are directly and materially affected by ERCOT's BPS reliability shall be permitted to request an interpretation of a Regional Standard or Regional Variance (collectively referred to as Regional Standard). The person requesting an interpretation shall send a request to the RSM electronically using the Interpretation Request Form explaining the specific circumstances surrounding the request and what clarifications are required as applied to those circumstances. The request should indicate the material impact to the requesting party or others caused by the lack of clarity or a possibly incorrect interpretation of the standard.

The RSM shall assemble a team with the relevant expertise to address the clarification. The Interpretation Drafting Team (IDT) typically consists of members from the original SDT. The RSM shall submit the proposed list of names of the IDT to the RSC. The RSC will either accept the recommendations of the RSM or modify the IDT slate.

As soon as practical (not more than 45 days), the team will meet to draft a written interpretation to the Regional Standard addressing the issues raised. Once the IDT has completed a draft interpretation to the Regional Standard addressing only the issues raised, the team will forward the draft interpretation to the RSM. The RSM will forward the draft interpretation to the Texas RE Chief Executive Officer. The Chief Executive Officer shall assess if the inclusion of the interpretation lessens the measurability of the Regional Standard. Barring receipt of an opinion from the Chief Executive Officer within 21 days, that the interpretation lessens measurability or is not technically appropriate for the Regional Standard, the RSM shall forward the interpretation to the RSC. The RSC shall determine if the interpretation is consistent with the Regional Standard. The RSM, on behalf of the RSC, shall forward the interpretation to the Texas RE BOD for informational purposes as being appended to the approved Regional Standard.

Note: In the event that the Chief Executive Officer determines that measurability is lessened, the Chief Executive Officer shall provide an explanation of his/her reasoning to the RSM and IDT for inclusion in a subsequent reversion. In either case, the IDT and RSM will continue to re-circulate the interpretation as stated above.

The interpretation shall stand until such time as the Regional Standard is revised through the normal process, at which time the Regional Standard will be modified to incorporate the clarifications provided by the interpretation.

VII. Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of a Regional Standard shall have the right to appeal. This Appeals Process applies only to this Regional Standards Process.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The final decisions of any appeal shall be documented in writing and made public.

The Appeals Process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in the appeals process. The appellant submits a complaint in writing to the RSM that describes the substantive or procedural action or inaction associated with Regional Standard or the Regional Standards Process. The appellant describes in the complaint the actual or potential adverse impact to the appellant. Assisted by any necessary staff and committee resources, the RSM shall prepare a written response addressed to the appellant as soon as practical, but not more than 45 days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the issue, both the complaint and response will be made a part of the public record associated with the Regional Standard.

Level 2 Appeal

If after the Level 1 Appeal the appellant remains unsatisfied with the resolution, as indicated by the appellant in writing to the RSM, the RSM shall convene a Level 2 Appeals Panel. This panel shall consist of five members total appointed by the Texas RE BOD. In all cases, Level 2 Appeals Panel Members shall have no direct affiliation with the participants in the appeal.

The RSM shall post the complaint and other relevant materials and provide at least 30 days notice of the meeting of the Level 2 Appeals Panel. In addition to the appellant, any person that is directly and materially affected by the substantive or procedural action or inaction referenced in the complaint shall be heard by the panel. The panel shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal. The panel may in its decision find for the appellant and remand the issue to the RSC with a statement of the issues and facts in regard to which fair and equitable action was not taken. The panel may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections. The panel may not, however, revise, approve, disapprove, or adopt a Regional Standard. The actions of the Level 2 Appeals Panel shall be publicly posted.

In addition to the foregoing, a procedural objection that has not been resolved may be submitted to Texas RE BOD for consideration at the time the Texas RE BOD decides whether to adopt a particular Regional Standard. The objection must be in writing, signed by an officer of the objecting entity, and contain a concise statement of the relief requested and a clear demonstration of the facts that justify that relief. The objection must be filed no later than 30 days after the announcement of the vote on the Regional Standard in question.

Appendix C – Regional Standard Authorization Request Form

The tables below provide a representative example of information in a Regional Standard Authorization Request (SAR). The RSM shall be responsible for implementing and maintaining the applicable form as needed to support the information requirements of the Texas RE Standards Process. The latest version of the form will be downloadable from the Texas RE's Standards Development Web page.

Standard Authorization Request

Texas RE to complete

Telephone:	<input type="checkbox"/> Revision to Existing Regional Standard
Fax:	<input type="checkbox"/> Withdrawal of Existing Regional Standard
Email:	<input type="checkbox"/> Urgent Action

Purpose (Describe the purpose of the proposed regional reliability standard – what the standard will achieve in support of reliability.)

Industry Need (Provide a detailed statement justifying the need for the proposed regional reliability standard, along with any supporting documentation.)
--

Brief Description (Describe the proposed regional reliability standard in sufficient detail to clearly define the scope in a manner that can be easily understood by others.)

Reliability Functions

The Regional Standard will Apply to the Following Functions (Check all applicable boxes.)

<input type="checkbox"/>	Reliability Coordinator	The entity that is the highest level of authority who is responsible for the reliable operation of the BPS, has the Wide Area view of the BPS, and has the operating tools, processes and procedures, including the authority to prevent or mitigate emergency operating situations in both next-day analysis and real-time operations. The Reliability Coordinator has the purview that is broad enough to enable the calculation of Interconnection Reliability Operating Limits, which may be based on the operating parameters of transmission systems beyond any Transmission Operator's vision.
<input type="checkbox"/>	Balancing Authority	The responsible entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a Balancing Authority Area, and supports Interconnection frequency in real time.
<input type="checkbox"/>	Interchange Authority	Authorizes valid and balanced Interchange Schedules.
<input type="checkbox"/>	Planning Authority	The responsible entity that coordinates and integrates transmission facility and service plans, resource plans, and protection systems.
<input type="checkbox"/>	Transmission Service Provider	The entity that administers the transmission tariff and provides Transmission Service to Transmission Customers under applicable transmission service agreements.
<input type="checkbox"/>	Transmission Owner	The entity that owns and maintains transmission facilities.
<input type="checkbox"/>	Transmission Operator	The entity responsible for the reliability of its "local" transmission system, and that operates or directs the operations of the transmission facilities.
<input type="checkbox"/>	Transmission Planner	The entity that develops a long-term (generally one year and beyond) plan for the reliability (adequacy) of the interconnected bulk power transmission systems within its portion of the Planning Authority Area.
<input type="checkbox"/>	Resource Planner	The entity that develops a long-term (generally one year and beyond) plan for the resource adequacy of specific loads (customer demand and energy requirements) within a Planning Authority Area.
<input type="checkbox"/>	Generator Operator	The entity that operates generating unit(s) and performs the functions of supplying energy and Interconnected Operations Services.
<input type="checkbox"/>	Generator Owner	Entity that owns and maintains generating units.
<input type="checkbox"/>	Purchasing-Selling Entity	The entity that purchases or sells, and takes title to, energy, capacity, and Interconnected Operations Services. Purchasing-Selling Entities may be affiliated or unaffiliated merchants and may or may not own generating facilities.

<input type="checkbox"/>	Distribution Provider	Provides and operates the “wires” between the transmission system and the customer.
<input type="checkbox"/>	Load-Serving Entity	Secures energy and transmission service (and related Interconnected Operations Services) to serve the electrical demand and energy requirements of its end-use customers.

Reliability and Market Interface Principles

Applicable Reliability Principles <i>(Check all boxes that apply.)</i>	
<input type="checkbox"/>	1. Interconnected BPSs shall be planned and operated in a coordinated manner to perform reliably under normal and abnormal conditions as defined in the NERC Standards.
<input type="checkbox"/>	2. The frequency and voltage of interconnected BPSs shall be controlled within defined limits through the balancing of real and reactive power supply and demand.
<input type="checkbox"/>	3. Information necessary for the planning and operation of interconnected BPSs shall be made available to those entities responsible for planning and operating the systems reliably.
<input type="checkbox"/>	4. Plans for emergency operation and system restoration of interconnected BPSs shall be developed, coordinated, maintained, and implemented.
<input type="checkbox"/>	5. Facilities for communication, monitoring, and control shall be provided, used, and maintained for the reliability of interconnected BPSs.
<input type="checkbox"/>	6. Personnel responsible for planning and operating interconnected BPSs shall be trained, qualified, and have the responsibility and authority to implement actions.
<input type="checkbox"/>	7. The security of the interconnected BPSs shall be assessed, monitored, and maintained on a wide-area basis.

Does the proposed Regional Standard comply with all of the following Market Interface Principles? *(Select ‘yes’ or ‘no’ from the drop-down box.)*

Recognizing that reliability is an Common Attribute of a robust North American economy:	
1.	A reliability standard shall not give any market participant an unfair competitive advantage. Yes
2.	A reliability standard shall neither mandate nor prohibit any specific market structure. Yes
3.	A reliability standard shall not preclude market solutions to achieving compliance with that standard. Yes
4.	A reliability standard shall not require the public disclosure of commercially sensitive information. All market participants shall have equal opportunity to access commercially non-sensitive information that is required for compliance with reliability standards. Yes

Detailed Description (Provide enough detail so that an independent entity familiar with the industry could draft a standard based on this description.)

EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

~~1.1 Obligations of Texas Reliability Entity~~

~~The Texas Reliability Entity, Inc. (Texas RE), will implement the NERC Compliance Monitoring and Enforcement Program (Appendix 4C to the NERC Rules of Procedure (NERC GMEP)) which for purposes of this section 1.0 shall not include Attachment 2, Hearing Procedures, to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within Texas RE’s geographic or electrical boundaries, and such other scope, set forth on Exhibit A of this Agreement, subject to any deviations from the NERC Compliance Monitoring and Enforcement Program described in Section 1.2 below (the “Compliance Program”).~~

~~1.2 Deviations from the NERC Compliance Monitoring and Enforcement Program~~

~~2.0 A. Hearing Body. Texas RE will use the Public Utility Commission of Texas (PUCT) REGIONAL HEARING OF COMPLIANCE MATTERS~~

~~Texas RE shall establish and maintain a hearing body with authority to conduct and render decisions in compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan, which shall be either Texas RE’s board or a balanced compliance panel reporting directly to Texas RE’s board. Texas RE’s hearing body is the Public Utility Commission of Texas (PUCT).~~

- A. Hearing Body. Texas RE will use the PUCT as its Hearing Body, and the PUCT (as Hearing Body) will issue recommendations to the Texas RE Board of Directors (“Board”) which will make final decisions following regional hearings of compliance matters. The PUCT is comprised of three Commissioners who are appointed by the Governor of the State of Texas. The PUCT has extensive experience in conducting contested case hearings and other adjudicatory proceedings in a manner that assures due process of law to all participants. Texas RE intends to rely upon the PUCT’s experience and expertise in conducting the hearing process under the Delegation Agreement. Texas RE believes that it is more efficient and cost-effective to use existing PUCT procedures than to attempt to establish a redundant hearing process within Texas RE. The PUCT is uniquely well-positioned to perform this function for the ERCOT Region since electric utilities operating in the ERCOT Region do not synchronously interconnect with electric utilities operating outside of Texas, and ERCOT market participants have experience in participating in PUCT proceedings.
- B. ~~B. Public Hearings.~~ The PUCT as Hearing Body will hold public hearings on all matters referred to it by the Texas RE for hearing and recommendation. The PUCT’s performance of Hearing Body responsibilities is fully consistent with the NERC Rules of Procedure and with Section 39.7 of FERC Order 672, with the exception of Section 39.7(b)(4), which requires “[e]ach violation or alleged violation [to] be treated as

nonpublic until the matter is filed with [FERC] as a notice of penalty or resolved by an admission ... or by a settlement or other negotiated disposition.” Because the PUCT is a “governmental body” under the Texas Open Meetings Act (Texas Government Code § 551.002), the PUCT is required to conduct any deliberations and render a decision in a meeting that is open to the public. The Texas Open Meetings Act also requires that any evidence or other submissions concerning a PUCT hearing, except for information that is confidential or privileged under law, be publicly available. Texas Attorney General opinions have determined that the need to consider confidential information does not justify conducting a closed meeting or executive session. Although PUCT hearings, including those contemplated under this Exhibit D, are conducted as open meetings, steps are taken to prevent the disclosure of confidential information during the hearing process. Direct testimony in such cases is generally presented in written question and answer format, with any confidential information redacted, filed under seal and provided to parties pursuant to a protective order. In hearings conducted under these rules, the Hearing Body shall use best efforts to avoid the inadvertent disclosure of confidential information. The Presiding Officer may use the following methods to protect confidential information, in addition to the entry of an appropriate protective order: (1) Requiring the aggregation of confidential information aggregated to eliminate its confidentiality; (2) Permitting or requiring the redaction of testimony where the non-public information is not material to the merits; (3) Closing the public hearings on a temporary basis to those not bound under the terms of any case-specific protective order in place while the specific, confidential data is the subject of testimony or argument; and (4) other reasonable means in the discretion of the Presiding Officer.

Under the Texas Public Utility Regulatory Act (PURA) §39.151(j), market participants in the ERCOT market are required to comply with all scheduling, operating, planning, reliability, and settlement policies, rules, guidelines, and procedures ERCOT establishes. The PUCT is given authority to enforce this obligation through the imposition of penalties, revocation of certifications or other means. In any enforcement proceeding under PURA, PUCT deliberations are conducted in an open meeting in accordance with the procedures outlined above. ERCOT is thus unlike other power regions that may be implementing an enforcement mechanism for the first time. The history of public availability of this information in the ERCOT power region argues in favor of the continued public availability of information considered in enforcement hearings the PUCT conducts as Hearing Body for the Texas RE.

Moreover, elsewhere in Order No. 672, FERC stated that: “If the ERO or a Regional Entity wishes to conduct a public investigation, enforcement audit or permit interventions when determining whether to impose a penalty, the ERO or the Regional Entity must receive advance authorization from the Commission.”¹

In response to the request by Texas RE’s predecessor to be permitted to hold public hearings as outlined herein, FERC issued *In the matter of Delegation Agreement Between the North American Electric Reliability Corporation and Texas Regional Entity, a division of ERCOT*, Docket No. RR07-1-000, *Order Accepting ERO Compliance Filing, Accepting ERO/Regional Entity Delegation Agreements and*

¹ Order 672, ¶511.

Accepting Regional Entity 2007 Business Plans, 119 FERC 61,060 at ¶253 (Issued April 19, 2007)(Delegation Agreement Acceptance Order). The Delegation Agreement Acceptance Order provides for open hearings as requested.

- C. ~~C. **Hearing Administration.**~~ PUCT, as Hearing Body, is authorized to hear cases and render its recommendations through the PUCT Commissioners. The Hearing Body is authorized to use the PUCT staff of Administrative Law Judges (ALJs) and other trained employees to establish the procedures and timelines that will be followed in the regional hearings, including the conduct of hearings and the preparation of draft recommendations. These presiding officers will not, however, have any authority to issue a final recommendation on any alleged violation. The ALJs and staff may preside over hearings before the PUCT, may establish the procedural schedule for these proceedings, take evidence, prepare a draft recommendation, and perform all tasks delegated from the PUCT, except the final rendition and approval of the final recommendation to be provided to the ~~Chief Compliance Officer~~Board.
- D. **Regional Hearing of Compliance Matters.** Texas RE shall establish the PUCT as the hearing body, with authority to conduct compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan. The PUCT will issue a final recommendation to the Board rather than a final order.

~~D. Texas RE shall conduct all compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, proposed Mitigation Plan, or a proposed Remedial Action Directive, in accordance with Attachment 2, Hearing Procedures, to the NERC Compliance Monitoring and Enforcement Program, subject to the following deviations, if any:~~

Detailed Hearing Procedures. The details of the Texas ~~Reliability Entity~~RE Regional Hearing Process are attached hereto as *Attachment 1 and Attachment 2*. *Attachment 1* consists of a summary of the NERC CMEP procedures that must be altered to accommodate Texas RE's request to have the PUCT act as its Hearing Body. *Attachment 1* is a summary of necessary revisions to Attachment 2 of the CMEP, and together with *Attachment 2* hereto and the incorporated PUCT Chapter 22 Procedural Rules, provides the details of the regional hearing process Texas RE has adopted.

In addition to the requested modifications to procedures set forth in Attachment 2 of the CMEP, Texas RE also varies from Section 5.5 of the main body of the CMEP, allowing the Board's decision (instead of the hearing body's decision) to be appealed to NERC. This language is contained as subsection 9.2 of *Attachment 1*: "The Registered Entity may appeal the Board's decision to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410."

- E. ~~E. **Regional Hearing of Compliance Matters.**~~ Texas RE shall establish the PUCT as the hearing body, with authority to conduct compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan. The PUCT will issue a final recommendation to the Board rather than a final order.

~~1.3 Other Decision-Making Bodies.~~

3.0 OTHER DECISION-MAKING BODIES

Texas RE uses only its board as its decision-making body.

ATTACHMENT 1 TO EXHIBIT D – TEXAS RE REGIONAL HEARING PROCESS

1.0 Designation of Hearing Body

All formal compliance hearings shall be held before the Compliance Enforcement Authority's Hearing Body. The Hearing Body shall be the Public Utility Commission of Texas. All hearings shall be conducted under the hearing procedures set forth in Attachment 2 to Exhibit D ("Attachment 2—Rules of Procedure"), supplementing this Attachment 1. As set forth in Attachment 2— Rules of Procedure, the Hearing Body may delegate any hearing-related task to a Presiding Officer, except for the issuance of the final recommendation.

The Compliance Enforcement Authority shall initiate the hearing process following the completion of the Notice of Alleged Violation and proposed sanction and registered entity response processes in accordance with Section 5.1 of the North American Electric Reliability Corporation ("NERC") Compliance Monitoring and Enforcement Program ("NERC CMEP"), as set forth below.

Following the filing of a proceeding contesting an Alleged Violation or a Remedial Action Directive, no person shall engage in ex parte communications with the Hearing Body, including without limitation any appointed Presiding Officer, concerning the matter in dispute until the written decision of the Board of Directors or a compliance committee of the Board of Directors ("Board") is issued pursuant to Section 9.1 is appealed or the deadline for filing an appeal has passed; provided, however, that: (a) a member of the Hearing Body or the Presiding Officer may communicate ex parte with another member of the Hearing Body unless prohibited by other law, and (b) a member of the Hearing Body or the Presiding Officer may communicate ex parte with a Commission employee who has not participated in a hearing in the case for the purpose of using the special skills or knowledge of the agency and its staff in evaluating the evidence.

The Hearing Body may rule on all procedural and discovery matters pursuant to Attachment 2—Rules of Procedure.

The Hearing Body may delegate to a single commissioner, a hearings examiner, or an administrative law judge (a "Presiding Officer") the authority to establish the procedures and dates for the presentation of all materials concerning the alleged violation and the power to hear evidence and to issue a draft recommendation, but the Hearing Body may not delegate its authority to issue a final recommendation on the alleged violation to the Board of the Compliance Enforcement Authority.

In accordance with Attachment 2—Rules of Procedure, the Hearing Body may provide for additional procedures as it deems necessary to effectively carry out a compliance hearing. To the extent permitted by law, any provision in this Attachment 1 may be waived, suspended, or modified by the Presiding Officer or the Hearing Body, as defined in Attachment 2—Rules of Procedure §1.1.5, for good cause shown, either upon the Presiding Officer's or the Hearing Body's own motion or upon the motion of any Party.

2.0 Recusal of Member of Hearing Body

A Hearing Body member, Presiding Officer, or Technical Advisor shall recuse himself or herself if participation in the enforcement proceeding would violate the Compliance Enforcement Authority's Conflict of Interest or Code of Conduct policy.

The Registered Entity may raise an objection to any member of the Hearing Body, a Presiding Officer or Technical Advisor on grounds of a conflict of interest or the existence of other circumstances that could interfere with the that person's impartial performance of his or her duties. Such objections must be provided in writing and filed reasonably in advance of the start of the hearing and the Presiding Officer shall make a decision on the objection promptly. Upon request of the Registered Entity, the Hearing Body (without participation of the Hearing Body member, Presiding Officer, or Technical Advisor) may review the determination and, if so, shall issue a decision on the objection promptly.

3.0 Authorized Representatives

Both the Compliance Enforcement Authority and the Registered Entity shall submit to the Hearing Body the names of the persons authorized to represent them in the Hearing Process pursuant to Attachment 2—Rules of Procedure. Such persons shall be officers or equivalents of the Regional Entity and the Registered Entity that have the authority to act on behalf of the Regional Entity and the Registered Entity, respectively. In addition, a party shall advise the Hearing Body and the other party if the party will be represented by legal counsel.

4.0 Statement of Alleged Violation and Response by Registered Entity

The Registered Entity shall initiate the compliance hearing process in accordance with Section 5.1 of the NERC CMEP and Attachment 2—Rules of Procedure by filing with the Hearing Body Clerk a statement or complaint contesting the written Notice of Alleged Violation and proposed sanction and serving a copy upon the Compliance Enforcement Authority. Specifically, the Registered Entity shall file with the Hearing Body (with service of copies upon the Compliance Enforcement Authority) a written statement of reasons why the Alleged Violation is in error or a written statement of reasons why the proposed penalty or sanction is inappropriate (if applicable in the particular case), along with copies of all documents relied on by the Registered Entity to support its position. If the dispute involves a Registered Entity's proposed mitigation plan ("Registered Entity's Mitigation Proposal") that has not been accepted by the Compliance Enforcement Authority, the Registered Entity may initiate the hearing process by filing a request for hearing with the Hearing Body Clerk and serving a copy upon the Compliance Enforcement Authority.

Within five (5) business days after the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed, the Compliance Enforcement Authority's designated representative shall file with the Hearing Body (with copies to the Registered Entity) a copy of the written Notice of the Alleged Violation and proposed sanction that was originally provided to the Registered Entity, along with copies of any non-privileged or non-exempt documents gathered and reviewed by the Compliance Enforcement Authority in the course of determining an Alleged Violation has occurred and in determining the proposed sanction or penalty.

If the hearing involves the question of whether a Registered Entity's Mitigation Proposal

should be accepted, within twenty (20) days after the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed, the Compliance Enforcement Authority shall file a report stating why the Registered Entity's Mitigation Proposal was not accepted. If the hearing involves a Registered Entity's Mitigation Proposal, the Registered Entity shall file its proposed Mitigation Plan and supporting information stating why the Mitigation Plan should be accepted within thirty (30) days after the date the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed.

5.0 Setting of Hearings and Conferences

The Hearing Body shall set a date for an initial conference within thirty (30) days after the date the request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive is filed. At the initial conference, the Hearing Body shall establish specific procedures for the hearing including (1) any procedures for exchange of additional documents, (2) any written testimony, (3) the hearing date(s), and (4) dates for any briefs. Subject to Section 6.0 and the Attachment 2—Rules of Procedure, each party shall be entitled to (1) present the testimony of witnesses, (2) cross-examination of opposing witnesses, (3) make an oral presentation of position, and (4) file a written post-hearing brief.

The Hearing Body may hold additional conferences. All notices of conferences and hearings shall set forth the date, time and place of hearing. The Hearing Body shall issue a written order setting forth the agreements and rulings made at each conference.

By agreement of the parties or order of the Hearing Body, any conference or hearing may be conducted via teleconference, except that, subject to section 6.0 of this hearing process, witnesses shall personally appear at the hearing.

All prehearing conferences and hearings shall be open to the public, except when the use of a closed meeting is authorized by Texas law.

6.0 Conduct of Hearing

The hearing will be conducted under the provisions of this section 6.0 and the Attachment 2— Rules of Procedure.

The hearing need not be held on consecutive days, and shall be held at the offices of the Hearing Body unless the Hearing Body decides on a different location after consulting with the parties.

The party requesting transcription of the hearing, the Registered Entity or Compliance Enforcement Authority, will arrange and pay for transcription of the hearing.

The Hearing Body shall direct the direct testimony of any witnesses be in written form in accordance with Attachment 2— Rules of Procedure. All witnesses shall be required to appear in person, unless waived by the parties and the Hearing Body. Motions shall be made and decided, evidence shall be presented, and a record shall be made in accordance with Attachment 2— Rules of Procedure.

7.0 Submission of Post-Hearing Briefs

The parties may submit post-hearing briefs on a schedule established by the Hearing Body pursuant to Attachment 2— Rules of Procedure. The parties may, and on request of the Hearing Body shall, submit proposed findings of fact and conclusions of law.

8.0 Record of the Compliance Hearing

If applicable, copies of the following documents shall be maintained by the Hearing Body as the record of the hearing process:

- (1) The written notice that a request for review of the Alleged Violation, penalty, or mitigation plan or Remedial Action Directive has been filed with the Hearing Body Clerk;
- (2) The Notice of Alleged Violation and sanction issued by the Compliance Enforcement Authority and the response filed by the Registered Entity, including in each case all attachments thereto and documents provided therewith;
- (3) If the hearing involves a Registered Entity's Mitigation Proposal, (a) the Registered Entity's Mitigation Proposal and supporting information as to why the Registered Entity's Mitigation Proposal should be accepted and (b) the report of the Compliance Enforcement Authority stating why the Registrant's Mitigation Proposal was not accepted;
- (4) Any requests for recusal of a member of the Hearing Body, a Presiding Officer, or a Technical Advisor, and any responses to such requests;
- (5) All motions, notices and responses filed by the parties during the hearing process;
- (6) All documents that set forth or that summarize any ex parte communications;
- (7) All notices and rulings issued by the Hearing Body during the hearing process;
- (8) All interlocutory orders;
- (9) All written testimony and all exhibits received into evidence;
- (10) All written testimony and documentary exhibits that were proffered but not admitted into evidence;
- (11) Any transcript(s);
- (12) The parties' post-hearing briefs, any exceptions to the draft recommendation, any motions for reconsideration or rehearing, and any other post-decision briefing or motion;
- (13) The draft recommendation of the Presiding Officer, if any; and
- (14) The final recommendation of the Hearing Body.

9.0 Timing of Written Recommendation to the Board

The Hearing Body shall issue its written final recommendation to the Board within thirty (30) days following the submission of post-hearing briefs, or, if briefing is waived, following the conclusion of the hearing. The Hearing Body may in its discretion extend the time for the issuance of the written final recommendation to the Board for up to an additional sixty (60) days. The written final recommendation shall state the opinion of the Hearing Body with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Registered Entity's Mitigation Proposal, the written final recommendation shall either

propose acceptance or rejection of the Registered Entity's Mitigation Proposal. If the proposed Registered Entity's Mitigation Proposal is recommended for rejection, the Hearing Body may specify the provisions of an alternative plan of mitigation that the Registered Entity should be required to implement. The written final recommendation shall explain the reasons for the Hearing Body's conclusions and cite the testimony and exhibits relied on by the Hearing Body in reaching its opinions. Copies of the written final recommendation shall be served electronically and by certified mail on the Registered Entity and on the Compliance Enforcement Authority's designated representative at the time it is issued to the Board.

9.1 Written Decision by the Board

The Board shall issue its written decision accepting, rejecting or modifying the Hearing Body's recommendation, within twenty (20) business days following the issuance of the Hearing Body's written final recommendation. The Board may extend the date for issuance of its written decision for an additional twenty (20) business days in its sole discretion. The Board's written decision shall state the conclusion of the Board with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Registered Entity's Mitigation Proposal, the written decision shall either accept or reject the Registered Entity's Mitigation Proposal. If the proposed Registered Entity's Mitigation Proposal is rejected, the Board may specify the provisions of the Registered Entity's Mitigation Proposal that the Registered Entity should be required to implement, together with other mitigation measures the Board shall require. The written decision shall explain the reasons for the Board's conclusions and cite the testimony and exhibits relied on by the Board in reaching its conclusions. Copies of the written decision shall be served electronically and by certified mail on the Registered Entity, on the Compliance Enforcement Authority's designated representative, and on the Hearing Body.

9.2 NERC Appeal Process

The Registered Entity may appeal an adverse decision of the Board to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410.

10.0 Expedited Hearing Process for Disputes Concerning Remedial Action Directives

A Registered Entity that disputes a Remedial Action Directive issued by a Compliance Enforcement Authority may request an expedited hearing. To facilitate the expedited hearing, the Compliance Enforcement Authority may request that the Hearing Body convene for purposes of the expedited hearing process. The following expedited procedures shall be followed:

- (1) The Registered Entity shall file its written response the Remedial Action Directive and request for emergency hearing with the Hearing Body, with a copy to the Compliance Enforcement Authority's designated representative within two (2) business days after receipt of the Remedial Action Directive. The Hearing Body may appoint a Presiding Officer to conduct all proceedings under this Section 10.0, except for the issuance of a final recommendation to the Board.
- (2) The Hearing Body shall be convened for purposes of a prehearing, and if requested, for interim relief, not less than two (2) nor more than five (5) business days after receipt of the Registered Entity's request for a hearing.

- (3) The Hearing Body shall conduct a hearing on the matter, in person or by teleconference, within thirty (30) days after the Hearing Body is convened. At the hearing, the Compliance Enforcement Authority shall explain why the Remedial Action Directive should be complied with, and the Registered Entity shall explain why the Remedial Action Directive is not necessary or should be modified.
- (4) The Hearing Body shall issue a summary written recommendation to the Board within twenty (20) business days following the hearing, stating whether the Registered Entity should or should not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.
- (5) The Board shall issue a summary written decision within ten (10) business days following the Hearing Body's issuance of its summary written recommendation, stating whether the Registered Entity shall or shall not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.
- (6) If the Board's summary written decision concludes that the Registered Entity is required to comply with the Remedial Action Directive or any modification to such directive (including adjustments to the timetable for implementation), the Registered Entity shall be required to begin implementing the Remedial Action Directive upon receipt of the summary written decision, if it has not already implemented the Remedial Action Directive.
- (7) Within thirty (30) days following issuance of its summary written decision, the Board shall issue a full written decision regarding the Remedial Action Directive to the requirements of Section 9.0, above, that may be appealed consistent with Section 9.2.
- (8) This Section 10.0 provides procedures for the expeditious determination of the propriety of a contested Remedial Action Directive. Nothing in this Section shall be read to impair the Compliance Enforcement Authority's authority to issue a Notice of Alleged Violation and proposed sanction on alleged violations of standards addressed by a Remedial Action Directive or on other alleged violations occurring contemporaneously with the Remedial Action Directive or at any other time using the non-expedited procedures of this Attachment 1 or Attachment 2— Rules of Procedure.

ATTACHMENT 2 TO EXHIBIT D – TEXAS RE RULES OF PROCEDURE

1.1 Applicability, Definitions and Interpretation

1.1.1 Procedure Governed

The provisions set forth in this Attachment 2 to the Texas Reliability Entity, Inc. (“Texas RE” or “Compliance Enforcement Authority”) (“Rules of Procedure”) shall apply to and govern practice and procedure before the Compliance Enforcement Authority and Hearing Board, as defined herein, in hearings in the ERCOT region of the United States conducted into (a) whether Registered Entities within the Compliance Enforcement Authority’s area of responsibility have violated Reliability Standards, and (b) if so, to determine the appropriate Mitigation Plans as well as any remedial actions, penalties or sanctions in accordance with the NERC *ERO Sanction Guidelines* and other applicable penalty guidelines approved by FERC pursuant to 18 C.F.R. Section 39.7(g)(2). Any hearing conducted pursuant to these Rules of Procedure shall be conducted before the Public Utility Commission of Texas (“Commission”), as is further provided herein.

1.1.2 Deviations and Exceptions

- (a) To the extent permitted by law, any provision in these Rules of Procedure may be waived, suspended or modified by the Presiding Officer or the Hearing Body, as defined in Section 1.1.5, for good cause shown, either upon the Presiding Officer’s or the Hearing Body’s own motion or upon the motion of any Party.
- (b) Where an issue is not addressed by the terms of these Rules, the Hearing Body shall use the Chapter 22 Procedural Rules.
- (c) The following provisions of Chapter 22 shall not be applicable to proceedings brought under these Procedural Rules:
 - (1) P.U.C. PROC. R. § 22.32;
 - (2) P.U.C. PROC. R. § 22.33;
 - (3) P.U.C. PROC. R. § 22.35;
 - (4) P.U.C. PROC. R. §§ 22.51-22.54;
 - (5) P.U.C. PROC. R. § 22.56;
 - (6) P.U.C. PROC. R. § 22.71(j);
 - (7) P.U.C. PROC. R. §§ 22.102(a)(3), (4) and (c);
 - (8) P.U.C. PROC. R. §§ 22.103-22.105;
 - (9) P.U.C. PROC. R. §§ 22.125-22.126;
 - (10) P.U.C. PROC. R. § 22.202(e);
 - (11) P.U.C. PROC. R. §§ 22.206-22.207;
 - (12) P.U.C. PROC. R. §§ 22.241-22.246;
 - (13) P.U.C. PROC. R. §§ 22.251-22.252;
 - (14) P.U.C. PROC. R. § 22.263(d); and

(15) P.U.C. PROC. R. §§ 22.281-22.284.

(d) For purposes of this Attachment 2—Rules of Procedure, the following shall supplement the terms of a Chapter 22 Rule, as specified:

(1) P.U.C. PROC. R. § 22.31. The following subsection (d) shall be added:

“(d) The Hearing Body Clerk shall designate each proceeding brought under these rules as a docket.”

(2) P.U.C. PROC. R. § 22.72(e). The following sentence shall be added at the end of this subsection:

“A party or its authorized representative shall also provide in its signature block one or more electronic mail addresses to which service may be made.”

(3) P.U.C. PROC. R. § 22.74(b). The following sentence shall be added at the end of this subsection:

“(b) . . . Service may be made by electronic mail to the email address included in a signature block of a party or its authorized representative.

* * *

“(4) Service by email shall be complete upon transmission of the communication from the electronic mail server of the serving party.”

(e) All proceedings filed under these rules shall be conducted under the Commission’s Chapter 22 Procedural Rules, as modified herein, but may not be referred to the State Office of Administrative Hearings.

1.1.3 Standards for Discretion

The Hearing Body’s discretion under these Rules of Procedure shall be exercised to accomplish the following goals:

- (a) Integrity of the Fact-Finding Process - The principal goal of the hearing process is to assemble a complete factual record to serve as a basis for a correct and legally sustainable ruling, decision or order.
- (b) Fairness - Persons appearing in Compliance Enforcement Authority proceedings should be treated fairly. To this end, Parties should be given fair notice and opportunity to present explanations, factual information, documentation and legal argument. Action shall be taken as necessary to eliminate any disadvantage or prejudice to a Party that would otherwise result from another Party’s failure to act diligently and in good faith.
- (c) Independence - The hearing process should be tailored to protect against undue influence from any Person, Party or interest group.
- (d) Balanced Decision-Making - Decisions should be based solely on the facts and arguments of record in a proceeding and by individuals who satisfy the Compliance Enforcement Authority’s conflict of interest policy.

- (e) Impartiality - Persons appearing before the Hearing Body should not be subject to discriminatory or preferential treatment. Registered Entities should be treated consistently unless a reasonable basis is shown in any particular proceeding to depart from prior rulings, decisions or orders.
- (f) Expedition - Proceedings shall be brought to a conclusion as swiftly as is possible in keeping with the other goals of the hearing process.

1.1.4 Interpretation

- (a) These Rules of Procedure shall be interpreted in such a manner as will aid in effectuating the Standards for Discretion set forth in Section 1.1.3, and so as to require that all practices in connection with the hearings shall be just and reasonable.
- (b) Unless the context otherwise requires, the singular of a term used herein shall include the plural and the plural of a term shall include the singular.
- (c) To the extent that the text of a rule is inconsistent with its caption, the text of the rule shall control.

1.1.5 Definitions

- (a) Unless otherwise defined, as used in these Rules of Procedure (i) definitions in Section 1.1 of the NERC Compliance Monitoring and Enforcement Program shall apply, and (ii) the following terms shall have the following meanings:

“Board” means the Board of Directors of Texas Reliability Entity.

“Bulk-Power System,” for the purposes of these Rules of Procedure, has the meaning set forth in 16 U.S.C. §824o(a)(1).

“Chapter 22” or “Commission Procedural Rules” shall mean the Chapter 22 Procedural Rules of the Commission, 16 TEX. ADMIN. CODE ch. 22., and be cited as “P.U.C. PROC. R. § [].”

“Commission” means the Public Utility Commission of Texas.

“Compliance Enforcement Authority Clerk,” as designated by the Compliance Enforcement Authority.

“Compliance Enforcement Authority” means the Regional Entity, by and through its Chief Executive Officer.

“Compliance Enforcement Authority’s area of responsibility” means the Texas Reliability Entity’s corporate region.

“Critical Energy Infrastructure Information” means specific engineering, vulnerability, or detailed design information about proposed or existing critical infrastructure that: (i) relates details about the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person in planning an attack on critical infrastructure; and (iii) does not simply give the location of the critical infrastructure.

“Critical infrastructure” means existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters.

“Cybersecurity Incident” means a malicious act or suspicious event that disrupts, or was an attempt to disrupt, the operation of those programmable electronic devices and communications networks including hardware, software, and data that are essential to the Reliable Operation of the Bulk-Power System.

“ERO” means the Electric Reliability Organization, currently the North American Electric Reliability Corporation, or any successor organization, certified by FERC pursuant to 18 C.F.R. §39.3.

“FERC” means the Federal Energy Regulatory Commission.

“Filing Clerk” or “Hearing Body Clerk” means the Central Records filing clerk of the Public Utility Commission of Texas.

“Hearing Body” means the Public Utility Commission of Texas.

“Mitigation Plan” means an action plan developed by a Registered Entity to (i) correct a violation of a Reliability Standard and (ii) prevent reoccurrence of the violation. A Mitigation Plan is required when a Registered Entity violates a Reliability Standard as determined by any means including Compliance Enforcement Authority Decision, settlement agreement, or otherwise.

“Party” means any Person who is allowed or required to participate in a proceeding conducted pursuant to these Rules of Procedure. The term “Party” as used herein shall include the members of the Compliance Staff of the Compliance Enforcement Authority that participate in a proceeding.

“Penalty” as used herein includes all penalties and sanctions that may be imposed pursuant to 16 U.S.C. §824o-1 and applicable regulations, including but not limited to a monetary or non-monetary penalty; a limitation on an activity, function, operation or other appropriate sanction; or the addition of the Registered Entity to a reliability watch list composed of major violators. Penalties must be within the range set forth in the NERC *ERO Sanction Guidelines* approved by FERC pursuant to 18 C.F.R. Section 39.7(g)(2), and shall bear a reasonable relation to the seriousness of a Registered Entity’s violation and take into consideration any timely efforts made by the Registered Entity to remedy the violation.

“Person” means any individual, partnership, corporation, limited liability company, governmental body, association, joint stock company, public trust, organized group of persons, whether incorporated or not, or any other legal entity.

“Presiding Officer” or “Hearing Examiner” means an individual employed or contracted by the Hearing Body and designated by the Hearing Body to preside over hearings conducted pursuant to these Rules of Procedure.

“North American Electric Reliability Council” or “NERC” means North American Electric Reliability Corporation.

“Registered Entity” means each user, owner and operator of the Bulk-Power System within the United States that is required to register with the Regional Entity pursuant to 18 C.F.R. § 39.2.

“Regional Entity” means Texas Reliability Entity or Texas RE.

“Reliable Operation” has the meaning set forth in Section 215 of the Federal Power Act.

“Reliability Standards” means standards approved by FERC pursuant to Section 215 of the Federal Power Act and 18 C.F.R. Section 39.5, as such standards are authorized and in effect from time to time.

“Remedial Action Directive” means an action (other than a penalty or sanction) required that (1) is to bring a Registered Entity into compliance with a Reliability Standard or to avoid a Reliability Standard violation, and (2) is immediately necessary to protect the reliability of the Bulk Power System from an imminent threat of harm.

“Respondent” means the Registered Entity who is the subject of the Notice of Alleged Violation or contested Mitigation Plan that is the basis for the proceeding, whichever is applicable.

“Staff” or “Compliance Staff” means individuals employed or contracted by the Compliance Enforcement Authority who have the authority to make initial determinations of Registered Entities’ compliance with or violation of the Reliability Standards and associated Penalties and Mitigation Plans.

“Technical Advisor” means any Staff member, Hearing Body employee, third-party contractor, or industry stakeholder who satisfies the Compliance Enforcement Authority’s conflict of interest policy and is selected to assist in a proceeding by providing technical advice to the Presiding Officer and/or the Hearing Body.

- (b) For purposes of this Attachment 2--Rules of Procedure and in application to any proceeding brought under these rules, the following terms shall be substituted for the term used in a Chapter 22 rule:

“Administrative law judge” shall mean and refer to the defined term “Presiding Officer.”

“Central records” shall mean “Hearing Body Clerk.”

“Final order” shall mean “final recommendation.”

“Proposal for decision” shall mean “draft recommendation.”

“Public utility” shall mean “party.”

- (c) If a term is defined in this Attachment 2—Rules of Procedure and in Chapter 22, the meaning expressed herein shall prevail.

1.1.6 Interventions Are Not Permitted

The Respondent(s) and Compliance Staff shall be Parties to the proceeding. Unless otherwise authorized by FERC, no other Persons shall be permitted to intervene or otherwise become a Party to the proceeding.

1.1.7. Proceedings Open to the Public

All hearings, oral arguments, and meetings of the Hearing Body shall be open to the public, and every notice, ruling, order or any other issuance of the Presiding Officer or Hearing Body, and any transcript, made in any proceeding shall be publicly released unless a Party has requested that it be kept confidential in accordance with Texas law, and the Presiding Officer or Hearing Body determines that the information should not be released publicly.

1.1.8 Numbering and Docketing System

The Staff of the Compliance Enforcement Authority shall maintain a system of numbering proceedings before they are sent to the Hearing Body for a hearing under these procedures. A numbered proceeding shall be created within the Compliance Enforcement Authority upon the issuance of a notice of Alleged Violation. Unless NERC provides a different docketing system that will be used uniformly by the Compliance Enforcement Authority, proceeding numbers shall be assigned sequentially beginning with a two digit number that relates to the last two digits of the year in which the docket is initiated, followed by a dash ("-"), followed by the letters "[RE]", followed by a dash ("-"), followed by a four digit number that will be "0001" on January 1 of each calendar year and ascend sequentially until December 31 of the same calendar year. If the proceeding is not settled and becomes a contested matter before the Hearing Body, the Hearing Body's numbering and docketing system shall govern the tracking of such filings while under the Hearing Body's administration.

1.2 Hold Harmless

A condition of a Party invoking these Rules of Procedure and participating in a hearing is that the Party agrees that the Compliance Enforcement Authority, including without limitation its members, board of directors or trustees, compliance committee, any other committees or subcommittees, Staff, contracted employees, attorneys and experts (outside or in-house), Hearing Body members, Presiding Officers and Technical Advisors, shall not be liable, and shall be held harmless against the consequences of, or any action or inaction arising out of, the hearing process, or of any agreement reached in resolution of a dispute or any failure to reach agreement as a result of a proceeding. This "hold harmless" provision does not extend to matters constituting gross negligence, intentional misconduct, or breach of confidentiality.

1.3 Initiation of the Hearing Process

Except when contesting a Remedial Action Directive pursuant to section 1.5 of these Rules of Procedure, a Registered Entity may file a response or complaint with the Compliance Enforcement Authority and the Filing Clerk requesting a hearing if:

- (a) The Registered Entity contests a Notice of Alleged Violation as to the existence or scope of the alleged violation, the proposed Penalty, or both; or
- (b) The Registered Entity contests the Compliance Enforcement Authority's rejection of Registered Entity's Mitigation Proposal in whole or in part.

A Registered Entity must file its hearing request within forty (40) days after (i) the Registered Entity files its response to the notice of Alleged Violation; or (ii) the Compliance Staff submits to the Registered Entity its statement identifying a disagreement with the Registered Entity's Mitigation Proposal, whichever is applicable. If the Registered Entity does not file a hearing request within the time period set forth in this Section, then the Registered Entity will be deemed to have agreed and waived any objection to the proposed Penalty, the Alleged Violation or the Compliance Staff's stated position on the Registered Entity's Mitigation Proposal, whichever is applicable.

Either a notice of Alleged Violation issued to a Registered Entity or a Staff statement setting forth its disagreement with a Registered Entity's Mitigation Proposal shall clearly state that the Registered Entity has the option to contest the Alleged Violation, proposed Penalty, or both, or the Compliance Staff's position on the Registered Entity's Mitigation Proposal.

A Registered Entity shall attach to a request for hearing whichever of the following are applicable:

- (a) The Registered Entity's Self-Reporting of a violation;
- (b) The Notice of Alleged Violation and the Registered Entity's response thereto; or
- (c) The Registered Entity's Mitigation Proposal and the Compliance Staff's statement identifying its disagreement with the Registered Entity's Mitigation Proposal.

1.4 General Hearing Procedure

Except as otherwise specified in this Attachment 2—Rules of Procedure, the procedures and timelines set forth in Chapter 22 shall govern the conduct of a hearing arising under these rules.

1.4.1 Hearing Body

The Hearing Body, consisting of a quorum of the Commission, shall hear all proceedings brought under these Rules of Procedure, unless the Commission elects to delegate all or part of the proceeding to a Presiding Officer who is a member of the Commission Staff. The Hearing Body is vested with the exclusive authority to issue a final recommendation to the Board for the resolution of the issue(s) presented. The following procedures shall also apply:

- (a) The Hearing Body or any individual member thereof may, but is not required to, attend any prehearing conference, status hearing or evidentiary hearing, or to submit questions to the Presiding Officer to submit to a Party or any witness at any such hearing. No more than one member of the Hearing Body may be present for any prehearing conference, status hearing, or evidentiary hearing unless the Hearing Body has complied with the Open Meetings requirements of Texas law.
- (b) The Hearing Body shall resolve the issue(s) in every hearing through the issuance of a final recommendation to the Board. In issuing a final recommendation to the Board, the Hearing Body shall consider the Presiding Officer's draft recommendation but shall have the authority to

reject, modify or approve the draft recommendation in whole or in part in issuing its final recommendation.

1.4.2 Technical Advisor

The Presiding Officer or the Hearing Body may elect to use one or more Technical Advisors to assist in any proceeding. Such an election may be made at any time during the course of a proceeding. Any Staff member who serves as a Technical Advisor shall not have been involved in or consulted at any time in regard to any Compliance Staff investigation, initial determination of Alleged Violation or Penalty, or assessment of a Registered Entity's proposed Mitigation Plan that resulted in the proceeding in which technical advice would be rendered, and shall not otherwise participate in the proceeding on which such technical advice would be rendered.

If the Presiding Officer or Hearing Body uses a Technical Advisor to assist in any hearing, the Presiding Officer or Hearing Body shall disclose the identity, employment history and professional affiliations of the Technical Advisor within two (2) days of the Technical Advisor's assignment to the proceeding, and Parties to the hearing may raise objections to the Technical Advisor's participation within 10 business days of disclosure.

1.5 Initiation of Remedial Action Directive Hearing

Staff may issue a Remedial Action Directive to a Registered Entity at any time, including during any proceeding related to an alleged violation of a Reliability Standard. The Compliance Enforcement Authority will notify NERC within two (2) days after its Staff issues a Remedial Action Directive.

The Registered Entity may contest the Remedial Action Directive in accordance with these Rules of Procedure and Delegation Agreement, Exhibit D, Attachment 1, §10, by filing a written notice with the Compliance Enforcement Authority that states that the Registered Entity contests the Remedial Action Directive and that the Registered Entity requests a Remedial Action Directive hearing. The Registered Entity shall attach a copy of the Remedial Action Directive to its written notice. The Registered Entity must provide such notice within two (2) business days following issuance of the Remedial Action Directive. If the Registered Entity does not give written notice to the Compliance Enforcement Authority within the required time period, the Registered Entity shall be deemed to have waived its right to contest the Remedial Action Directive.

The Registered Entity shall simultaneously file with the Hearing Body Clerk a copy of the notice that it is contesting the Remedial Action Directive.

The Hearing Body Clerk shall assign a docket number, and issue a Notice of Hearing that sets forth the date, time and place at which the hearing will convene.

Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

~~{Regional Entity}~~Texas RE shall include in its annual budget submission to NERC amounts for costs it will incur in performing its delegated functions and related activities as described in Sections 5, 6 and 7 of the Agreement. These activities shall include:

- Reliability Standard Development
- Compliance Monitoring and Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis (including necessary data gathering activities)
- Event Analysis and Reliability Improvement
- Training and Education
- Situation Awareness
- Infrastructure Security

2. Preparation of Annual Business Plan and Budget

(a) NERC and ~~{Regional Entity}~~Texas RE, in conjunction with the other Regional Entities, shall collaboratively develop an annual schedule for the development, submission, review and approval of ~~{Regional Entity}'s~~Texas RE's business plan and budget. The annual schedule for the preparation of business plans and budgets shall require ~~{Regional Entity}~~Texas RE (i) to submit to NERC draft(s) of ~~{Regional Entity}'s~~Texas RE's proposed business plan and budget and other preliminary documents and information, and (ii) to submit a final proposed business plan and budget that has been approved by ~~{Regional Entity}~~Texas RE Board of ~~Trustees~~Directors to NERC by July 1 or such other agreed date as provides sufficient time for NERC's review, approval and submission of ~~{Regional Entity}'s~~Texas RE's business plan and budget to the Commission 130 days in advance of the beginning of each fiscal year. The ~~{Regional Entity}~~Texas RE business plan and budget submission shall include supporting materials, including ~~{Regional Entity}'s~~Texas RE's complete business plan and organization chart, explaining the proposed collection of all assessments, dues, fees and charges, and the proposed expenditure of the funds to be collected in sufficient detail to justify the requested budgeted expenditures and assessments. ~~{Regional Entity}'s~~Texas RE's business plan and budget and proposed assessments shall provide for reasonable reserve mechanisms for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(b) NERC shall review and approve ~~{Regional Entity}'s~~Texas RE's proposed business plan and budget and proposed assessments for performing the delegated functions and related activities described in Sections 5, 6 and 7 of this Agreement and listed above in Section 1 of this **Exhibit E**, or shall direct ~~{Regional Entity}~~Texas RE to make such revisions as NERC deems appropriate prior to approval. NERC shall submit ~~{Regional Entity}'s~~Texas RE's approved business plan and budget and proposed assessments to the Commission for approval as part of NERC's overall business plan and budget submission, in accordance with the ERO Regulations.

3. Allocation of Costs

Assessments to fund the costs of ~~{REGIONAL ENTITY}'s~~Texas RE's delegated functions and related activities pursuant to the Agreement shall be allocated among all load-serving entities on the basis of Net Energy for Load, unless a different method(s) of allocating and calculating such assessments has been submitted to and approved by NERC and the Commission in accordance with Section 9(b) of the Agreement. ~~{Regional Entity}~~Texas RE shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities or designees within its geographic boundaries that shall be responsible for paying ~~{Regional Entity}'s~~Texas RE's assessment and the load-serving entities' proportionate Net Energy for Load, and such other data and information as is necessary to allocate and calculate the allocation of ~~{Regional Entity}'s~~Texas RE's assessment to the load-serving entities or designees under the method(s) of allocation and calculation that will be used.— NERC and Texas RE agree that for purposes of Section 3 and 4 of this Exhibit E, Electric Reliability Council of Texas (ERCOT ISO), as the sole independent system operator and Balancing Authority, is the only load-serving entity or designee in Texas RE's region and shall be invoiced for the entire NERC and Texas RE assessments approved for collection.

4. Collection of Funding

~~{IF NERC WILL BILL AND COLLECT ASSESSMENTS DIRECTLY FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):}~~

(a) NERC shall submit invoices to the load-serving entities or designees identified by ~~{Regional Entity}~~Texas RE covering the NERC and ~~{Regional Entity}~~Texas RE assessments approved for collection.

~~{IF THE REGIONAL ENTITY WILL ACT AS THE BILLING AND COLLECTION AGENT ON BEHALF OF NERC TO BILL AND COLLECT ASSESSMENTS FROM LOAD-SERVING ENTITIES IN REGIONAL ENTITY'S REGION, USE THE FOLLOWING TEXT FOR SECTION 4(a):}~~

~~(a) NERC and {Regional Entity} agree that {Regional Entity} shall act as the billing and collection agent on behalf of NERC to bill and collect {Regional Entity}'s assessments from load-serving entities and designees (or such other entities as agreed by NERC and {Regional Entity}). {Regional Entity} agrees that it shall (i) issue all invoices to load-serving entities and other entities in a prompt and timely manner after receipt from NERC of the information needed to issue the invoices; (ii) exercise commercially reasonable efforts to collect invoices that are not paid as of the due date(s); and (iii) transfer all funds collected to NERC in a timely manner, as follows: Prior to the start of each calendar quarter, and once per week thereafter until all billings for the quarter are collected, {Regional Entity} will electronically transfer to NERC, in immediately available funds, all payments received by {Regional Entity} from load-serving entities or other entities for payment of invoices.— On the same day that {Regional Entity} makes each electronic transfer of funds to NERC,~~

~~{Regional Entity} shall send an e-mail to the Chief Financial Officer or Controller of NERC detailing the collections being transmitted, including a listing of the load-serving entities or other entities from which payments were collected and the amount collected from each entity. [Note: If NERC and Regional Entity have a different collection and payment arrangement, the preceding two sentences will be modified accordingly to describe it.]~~

~~{Regional Entity} agrees that it shall not in any way use its position as billing and collection agent for NERC to attempt to influence NERC's policies or decisions on matters relating to adoption of Reliability Standards (including Regional Reliability Standards and Regional Variances), administration of the compliance monitoring and enforcement program and other compliance and enforcement matters, determination and imposition of penalties and sanctions, budgeting matters including review and approval of {Regional Entity}'s budgets and business plans, or any other NERC decisions, including by issuing invoices, engaging in collection activities or transferring funds collected to NERC in an untimely manner or other than in accordance with this Agreement.~~

(b) NERC shall pursue any non-payments of assessment amounts and shall request assistance from ERO Governmental Authorities as necessary to secure collection. To the extent reasonably practicable, ~~{Regional Entity}~~Texas RE shall assist NERC in pursuing and collecting any non-payments. Notwithstanding the foregoing, ~~{Regional Entity}~~Texas RE is not responsible and does not assume any liability for recovering non-payments or underpayments of assessment amounts. NERC shall retain sole responsibility for recovering non-payments or underpayments of assessment amounts. NERC shall add the amount of any non-payments by end-users or designees within ~~{REGIONAL ENTITY}'s~~Texas RE's region, that are reasonably determined to be uncollectible, to NERC's assessments for a subsequent year with the amount of such non-payments to be allocated to end-users within ~~{Regional Entity}'s~~Texas RE's region.

(c) Upon approval by ERO Governmental Authorities of ~~{Regional Entity}'s~~Texas RE's annual assessment to fund the costs of its delegated functions and related activities, NERC shall pay ~~{Regional Entity}'s~~Texas RE's annual assessment to Regional Entity in four equal quarterly payments on January 15, April 15, July 15 and October 15 of the budget year.

5. Application of Penalties

Except as otherwise approved by the Commission, all penalty monies received by ~~{Regional Entity}~~Texas RE, other than penalty monies received from an operational function or division or affiliated entity of ~~{Regional Entity}~~Texas RE, shall be applied as a general offset to ~~{Regional Entity}'s~~Texas RE's budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity. Except as otherwise approved by the Commission, any penalty monies received from an operational function or division or affiliated entity of ~~{Regional Entity}~~Texas RE shall be transmitted to

or retained by NERC and shall be used by NERC as a general offset to NERC's budget for its activities as the ERO under the Act for the following year.

6. Budget and Funding for ~~{Regional Entity's}~~Texas RE's Non-Statutory Activities

In addition to its delegated functions and related activities, as specified in Sections 5, 6 and 7 of the Agreement and in Section 1 of this **Exhibit E** (such delegated functions and activities referred to in this Section 6 as "statutory activities"), ~~{Regional Entity}~~Texas RE performs the following other functions and activities (such other functions and activities being referred to in this Section 6 as "non-statutory activities"): ~~{List and describe all non-statutory activities performed by Regional Entity, or state "None".}~~

~~{Regional Entity}~~Texas RE does not anticipate auditing or investigating market participants' compliance with ERCOT Protocols and Operating Guides in 2011. Texas RE will, however, need to respond to subpoenas and provide testimony and support to the Public Utility Commission of Texas (PUCT) regarding Texas RE's ERCOT Protocol and Operating Guide compliance and enforcement audits, investigations, and reports from the period in which Texas RE conducted the compliance investigations.

Texas RE shall employ the following methods and procedures to (i) keep its funding mechanisms for its statutory activities separate from its funding mechanisms for its non-statutory activities, and (ii) record the costs it incurs in the performance of its non-statutory functions separately from the costs it incurs in the performance of its statutory functions: ~~{List and describe the methods and procedures Regional Entity employs to keep costs and funding of statutory activities separate from costs and funding of non-statutory activities, including at a minimum a description of how Regional Entity's bank accounts and receivables/payables procedures are set up for both statutory and non-statutory functions, a description of how Regional Entity ensures each employee involved in both statutory and non-statutory functions keeps accurate time records reflecting his/her activities, and a description of how Regional Entity's general and administrative costs are allocated between statutory activities and non-statutory activities. If the necessary descriptions are lengthy they may be provided in a separate attachment labeled "Attachment E-1", and state here "See Attachment E-1." If Regional Entity has listed no non-statutory functions in the preceding paragraph, state here "Not applicable."}~~

~~{Regional Entity}~~A. Texas RE segregates the funding for its statutory activities and non-statutory activities by recording the funding transactions in separate and distinct general ledger accounts, in accordance with Generally Accepted Accounting Principles.

B. Texas RE utilizes and must maintain a time recording and expense management system under which employee time and expenses incurred in the conduct of non-statutory activities will be tracked to ensure that they are not funded by NERC remittances intended for the funding of statutory activities.

C. Texas RE has adopted a detailed system of Account Codes, Department Codes and Activity Codes which are used in recording expenses. The Activity Codes are specific to statutory activities and non-statutory activities. The Texas RE

Activity Codes are modeled on the NERC Functional Categories. Texas RE shall use Department Codes that are unique to Texas RE to record all costs and expenses incurred by Texas RE for statutory activities and non-statutory activities.

D. Texas RE shall use Activity Codes to appropriately track its costs for statutory activities separately from its costs for non-statutory activities.

E. Where employee time or an expense affects multiple activities, Texas RE will use an accurate basis of allocation of the time or expense between the activities being performed based on specific metrics, such as time tracking, data observations or total cost input. Total cost input relates the portion of the expense to the total expense to establish an appropriate method to allocate.

Texas RE shall provide its budget for such non-statutory activities to NERC at the same time that ~~{Regional Entity}~~Texas RE submits its proposed annual business plan and budget for statutory activities to NERC pursuant to Section 9 of the Agreement. ~~{Regional Entity's}~~Texas RE's budget for non-statutory activities that is provided to NERC shall contain a detailed list of ~~{Regional Entity's}~~Texas RE's non-statutory activities and a description of the funding sources for the non-statutory activities. ~~{Regional Entity}~~Texas RE agrees that no costs (which shall include a reasonable allocation of ~~{Regional Entity's}~~Texas RE's general and administrative costs) of non-statutory activities are to be included in the calculation of ~~{Regional Entity's}~~Texas RE's assessments, dues, fees, and other charges for its statutory activities.

7. Amended or Supplemental Business Plans and Budgets

During the course of the fiscal year, if ~~{Regional Entity}~~Texas RE determines it does not or will not have sufficient funds to carry out its delegated functions and related activities, ~~{Regional Entity}~~Texas RE shall submit to NERC one or more proposed amended or supplemental business plans and budgets and requests for approval of supplemental assessments, reflecting costs, cost increases or funding shortfalls not provided for in ~~{Regional Entity's}~~Texas RE's approved business plan and budget for the fiscal year. NERC shall review and approve the proposed amended or supplemental business plan and budget and proposed supplemental assessment, or shall direct ~~{Regional Entity}~~Texas RE to make such revisions as NERC deems appropriate prior to approval. NERC shall submit ~~{Regional Entity's}~~Texas RE's approved amended or supplemental business plan and budget and proposed supplemental- assessment to the Commission for approval.

8. NERC Review of Regional Entity Financial Statements

NERC shall conduct reviews of the quarterly and annual financial statements submitted by ~~{Regional Entity}~~Texas RE pursuant to Section 9(h) and (i) of the Agreement. ~~{Regional Entity}~~Texas RE shall provide supporting documentation for the quarterly and annual financial statements as reasonably requested by NERC based on its reviews.

April 30, 2010

Mr. David Cook
Vice President and General Counsel
NERC
1120 G Street NW, Suite 990
Washington, DC 20005

RE: REVISED WECC REGIONAL DELEGATION AGREEMENT

Dear David:

The Western Electricity Coordinating Council (WECC) Board of Directors (Board) passed the motion below for the Revised Regional Delegation Agreement at the WECC Board meeting on April 30, 2010.

BE IT RESOLVED: The Western Electricity Coordinating Council (WECC) Board of Directors (1) approves the proposed AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION AND WESTERN ELECTRICITY COORDINATING COUNCIL (the "Agreement") and revised WECC Compliance Monitoring and Enforcement Program (the "WECC CMEP"); (2) directs the Chief Executive Officer (CEO) to execute the Agreement on behalf of WECC and to coordinate with the North American Electric Reliability Corporation the filing of said Agreement and WECC CMEP for Federal Energy Regulatory Commission approval; and (3) authorizes the CEO to make minor, non-substantive edits and corrections to the Agreement and WECC CMEP as necessary.

Please find attached the approved revised WECC Regional Delegation Agreement and revised WECC Compliance Monitoring and Enforcement Program, in clean and redlined versions, for your review and presentation to the NERC Board of Trustees.

Sincerely,

Louise McCarren
Chief Executive Officer

**AMENDED AND RESTATED DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND WESTERN ELECTRICITY COORDINATING COUNCIL**

AMENDED AND RESTATED DELEGATION AGREEMENT (“Agreement”) made as of January 1, 2011, between the North American Electric Reliability Corporation (“NERC”), an organization certified by the Federal Energy Regulatory Commission (“Commission”) pursuant to Section 215(c) of the Federal Power Act to establish and enforce Reliability Standards for the Bulk-Power System, and the Western Electricity Coordinating Council (“WECC”), an organization established to develop and enforce Reliability Standards within the geographic boundaries identified on **Exhibit A** to this Agreement, and for other purposes. NERC and WECC may be individually referred to herein as “Party” or collectively as “Parties.”

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215 to the Federal Power Act (16 U.S.C. § 824n) (hereafter “the Act”), which, among other things, provides for the establishment of an electric reliability organization (“ERO”) to develop and enforce Reliability Standards applicable to all owners, operators, and users of the Bulk-Power System;

WHEREAS, the Commission has adopted regulations for the implementation of the Act, which are set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39 (the “ERO Regulations”);

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance with the Act, establish and enforce Reliability Standards for the Bulk-Power System, subject to certain delegation provisions described below;

WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the ERO Regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities (“Regional Entities”) such as WECC provided that:

(A) The Regional Entity is governed by —

- (i) an independent board;
- (ii) a balanced stakeholder board; or
- (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of Bulk-Power System reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, WECC is organized on an Interconnection-wide basis and therefore is entitled to the rebuttable presumptions accorded such an entity;

WHEREAS, NERC will work through WECC to carry out certain of its activities in furtherance of its responsibilities as the ERO under the Act;

WHEREAS, NERC has concluded that WECC meets all requirements of the Act, the ERO Regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules of Procedure”) necessary to qualify for delegation; and

WHEREAS, NERC and WECC, having operated under a predecessor agreement to this Agreement, have negotiated this amended and restated Agreement so as to incorporate the benefits of their mutual experience and lessons learned while operating under the predecessor agreement and thereby provide for the more efficient and effective execution of their respective responsibilities in a transparent manner that is pursuant to Section 215 of the Act and the ERO Regulations;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and WECC agree as follows:

1. Definitions. The capitalized terms used in this Agreement shall be defined as set forth in the Act, the ERO Regulations, the NERC Rules of Procedure, or the NERC Glossary of Terms Used in Reliability Standards, or, if not so defined, shall be defined as set forth in this Section 1 or elsewhere in the text of this Agreement:

(a) Breach means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

(b) Cross-Border Regional Entity means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

(c) Delegated Authority means the authority delegated by NERC to WECC to propose and enforce Reliability Standards pursuant to the Act and to undertake related activities set forth in this Agreement in furtherance of these delegated functions in accordance with the Act, the ERO Regulations and this Agreement.

2. Representations.

(a) For purposes of its Delegated Authority, WECC hereby represents and warrants to NERC that:

(i) WECC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. WECC is governed in accordance with its bylaws by a combination independent and balanced stakeholder board. Pursuant to these bylaws, no two industry sectors can control any WECC decision and no single industry sector can veto any WECC decision. The relevant portions of such bylaws are attached hereto in **Exhibit B**¹, and as so attached are in full force and effect. No other such corporate governance documents are binding upon WECC.

(ii) As set forth in **Exhibit C** hereto², WECC has developed a standards development procedure, which provides the process that WECC may use to develop Regional Reliability Standards and Regional Variances that are proposed to NERC for adoption.

(iii) As set forth in **Exhibit D** hereto, WECC has adopted the NERC Compliance Monitoring and Enforcement Program, Appendix 4C to the NERC Rules of Procedure, which provides for the enforcement of Reliability Standards within WECC's geographic boundaries as shown on **Exhibit A**.

(b) NERC hereby represents and warrants to WECC that:

(i) NERC is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

(ii) NERC has been certified as the ERO by the Commission pursuant to the Act.

3. Covenants.

¹ The **Exhibit B** from WECC shall meet the requirements contained in **Exhibit B** to this Agreement.

² The **Exhibit C** from WECC shall meet the requirements contained in **Exhibit C** to this Agreement.

(a) During the term of this Agreement, WECC shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend its Regional Entity Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

(b) During the term of this Agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 17 and 18 of this Agreement, NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations or programs of WECC under this Agreement without first obtaining the consent of WECC, which consent shall not be unreasonably withheld or delayed.

(c) During the term of this Agreement, NERC and WECC shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. Delegation of Authority.

(a) Based upon the representations, warranties and covenants of WECC in Sections 2 and 3 above, the corporate governance documents set forth in **Exhibit B**, the standards development process set forth in **Exhibit C**, and the compliance monitoring and enforcement program set forth in **Exhibit D**, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to WECC for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries and such other scope set forth on **Exhibit A**, *provided*, that WECC shall not monitor and enforce compliance with Reliability Standards for WECC or an affiliated entity with respect to reliability functions for which WECC or an affiliate is a Registered Entity. Any exclusions from this delegation of authority to WECC within, or additions to this delegation of authority to WECC beyond, the geographic boundaries set forth on **Exhibit A** are stated on **Exhibit A**.

(b) In circumstances where WECC or an affiliated entity is a Registered Entity, WECC shall enter into an agreement with another Regional Entity or NERC for the other

Regional Entity or NERC to monitor and enforce WECC's or affiliate's compliance with Reliability Standards. Such agreements are subject to NERC and Commission approval.

(c) Nothing in this Agreement shall prohibit WECC from entering into an arrangement between one or more other Regional Entities to perform compliance monitoring and enforcement activities outside of its region, on behalf of NERC and/or other Regional Entities, for Registered Entities that have registered functions monitored by more than one Regional Entity, subject to approval by NERC.

(d) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on **Exhibit A** that is within the United States. Any delegation of authority by ERO Governmental Authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided, however, that both WECC and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(e) As a condition to this delegation of authority and subject to the provisions of Section 17 of this Agreement, WECC shall comply with the applicable provisions of NERC's Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. Development and Proposal of Reliability Standards.

(a) In connection with its Delegated Authority, WECC shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords WECC reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards and Regional Variances through WECC's process as set forth in **Exhibit C**. Proposals approved through WECC's process shall be reviewed by the NERC Board after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule of Procedure 312.3 as it may be amended from time to time. The NERC Board shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying

the rebuttable presumption described in subsection 5(b) of this Agreement if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed Regional Reliability Standard or Regional Variance and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. WECC may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Regional Entity organized on an Interconnection-wide basis shall have the burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Interconnection-wide Regional Entity during NERC's review of the proposal.

6. Enforcement of Compliance with Reliability Standards.

(a) In connection with its delegated authority pursuant to this Agreement, WECC shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth, or as otherwise specified, in **Exhibit A** through the compliance monitoring and enforcement program set forth in **Exhibit D**. NERC and WECC agree that this compliance monitoring and enforcement program meets all applicable requirements of the Act, Order No. 672 of the Commission, and the ERO Regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the ERO Regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the ERO Regulations and the requirements for due process. WECC may not change its compliance monitoring and enforcement program set forth in **Exhibit D** absent NERC's approval, which shall not be unreasonably withheld or delayed, and the approval of the Commission. Subject to the rights and limitations specified in Sections 17 and 18 of this Agreement, WECC agrees to comply with the NERC Rules of Procedure, with any directives issued pursuant to Section 8(c) of this Agreement, and with any guidance and directions issued

by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, in implementing this program.

(b) WECC shall report promptly to NERC any Possible Violation, Alleged Violation, or Confirmed Violation of a Reliability Standard, and its eventual disposition by WECC. Such report shall include the owner's, operator's, or user's name, which Reliability Standard or Reliability Standards were the subject of the Possible Violation, Alleged Violation, or Confirmed Violation, when the Possible Violation, Alleged Violation, or Confirmed Violation occurred, other pertinent facts including circumstances surrounding the Possible Violation, Alleged Violation, or Confirmed Violation with any known risk to the Bulk-Power System, when the Possible Violation, Alleged Violation, or Confirmed Violation was or will be mitigated, the name of a person knowledgeable about the Possible Violation, Alleged Violation, or Confirmed Violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and WECC shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards and summary analyses of such Possible Violations, Alleged Violations, and Confirmed Violations.

(c) Each Possible Violation, Alleged Violation, or Confirmed Violation shall be treated as nonpublic unless the matter is filed with the Commission as a Notice of Penalty, or, if disclosure is required, dismissed. The disposition of each Possible Violation, Alleged Violation, or Confirmed Violation that relates to a Cybersecurity Incident or that would jeopardize the security of the Bulk-Power System if publicly disclosed shall remain nonpublic unless the Commission directs otherwise.

(d) All dispositions by WECC of Possible Violations, Alleged Violations, and Confirmed Violations of Reliability Standards shall be reported to NERC for review and, in the case of Confirmed Violations, penalties or sanctions, and settlements, for approval. Following approval of a disposition by NERC, NERC shall file the disposition with the Commission, if required by, and in accordance with, Section 215(e) of the Act and Section 39.7 of the ERO Regulations. NERC shall review WECC's dispositions based on the following criteria:

(i) whether the disposition is supported by a sufficient record compiled by WECC in accordance with the NERC Rules of Procedure, NERC directives and

Commission requirements, taking into account the nature of the Possible Violation, Alleged Violation, or Confirmed Violation,

(ii) whether the disposition is consistent with any applicable directives issued pursuant to Section 8(c) of this Agreement, any applicable directions or guidance issued by the NERC Board or a Board committee pursuant to Section 8(d) of this Agreement, or other applicable NERC guidance, concerning the Reliability Standards to which the Possible Violation, Alleged Violation, or Confirmed Violation relates,

(iii) if the disposition is a Confirmed Violation or settlement, whether it provides for a penalty or sanction, or a determination of no penalty or sanction, determined in accordance with the NERC Sanction Guidelines, Appendix 4B to the NERC Rules of Procedure, and

(iv) whether the disposition is reasonably consistent with other dispositions by WECC and by other Regional Entities of Possible Violations, Alleged Violations, and Confirmed Violations involving the same or similar facts and circumstances.

NERC may reject any disposition, with an explanation of why NERC believes the disposition does not meet the above criteria. WECC may submit a disposition requiring NERC approval that has been rejected by NERC, or a revised disposition following a rejection, directly to the NERC Board Compliance Committee for approval without revising the disposition to address all the grounds on which NERC originally rejected the disposition. The final approval of WECC's disposition of a Possible Violation, Alleged Violation, or Confirmed Violation shall be made by the NERC Board Compliance Committee, provided, that the NERC Board or NERC Board Compliance Committee may, by appropriate resolution, delegate authority for final approval of dispositions of specified categories of Possible Violations, Alleged Violations, or Confirmed Violations to the NERC President.

(e) All appeals of penalties imposed by WECC as a result of a decision by WECC's Hearing Body shall be filed with, heard by and disposed of by, NERC in accordance with the NERC Rules of Procedure.

(f) WECC shall maintain the capability to conduct investigations of Possible Violations and Alleged Violations of Reliability Standards and to conduct such investigations in a confidential manner.

(g) WECC shall maintain a program of proactive monitoring and enforcement of compliance with Reliability Standards, in accordance with the NERC Compliance Monitoring and Enforcement Program and the annual NERC Compliance Monitoring and Enforcement Program Implementation Plan.

(h) As part of its compliance monitoring and enforcement program, WECC shall maintain a conflict of interest policy that assures the integrity and independence of such program, including the integrity and independence of the persons or decision-making bodies making final determinations in compliance enforcement actions under Section 5.0 of the NERC Compliance Monitoring and Enforcement Program. WECC may have stakeholders lead or participate in its board compliance committee so long as integrity and independence are assured through reasonable and appropriate recusal procedures.

(i) As often as NERC deems necessary, but no less than every five years, NERC shall review WECC's compliance monitoring and enforcement program to determine that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties for violations of Reliability Standards constituting comparable levels of threat to reliability of the Bulk-Power System.

7. Delegation-Related Activities.

NERC will engage WECC on its behalf to carry out certain of its activities that are in furtherance of Bulk-Power System reliability and NERC's responsibilities as the ERO under the Act or in support of the Delegated Authority, as specified in the NERC Rules of Procedure and listed on **Exhibit E**. These delegation-related activities shall include, but are not limited to, those described in subsections (a) through (f), each of which shall be considered a statutory activity:

(a) Certification of Bulk-Power System Entities. The NERC Board shall set criteria for certification in accordance with the NERC Rules of Procedure. WECC shall issue certifications in accordance with the NERC Rules of Procedure.

(b) Registration of owners, operators, and users of the Bulk-Power System as responsible for compliance with requirements of Reliability Standards.

(i) The NERC Board shall develop criteria for registration of owners, operators, and users of the Bulk-Power System as Registered Entities and shall apply the registration criteria to register owners, operators and users of the Bulk-Power System as Registered Entities.

(ii) NERC shall maintain a registration database of Registered Entities, based on data and information provided by WECC and other Regional Entities. WECC shall provide timely and accurate information relating to registrations to NERC, on at least a monthly basis, to enable NERC to maintain a registration database that is accurate and up-to-date.

(iii) The NERC Board Compliance Committee shall hear and decide appeals from owners, operators and users of the Bulk-Power System contesting registration, in accordance with the NERC Rules of Procedure. If the NERC Board Compliance Committee upholds the decision to register an owner, operator, or user, NERC shall defend the decision in any subsequent appeal of the decision by the Registered Entity to the Commission.

(c) Reliability Assessment and Performance Analysis. WECC shall develop assessments of the reliability of the Bulk-Power System, or ensure that data and information are collected, analyzed and provided to NERC in support of the development of reliability assessments, in accordance with the NERC Rules of Procedure. WECC shall also develop and maintain, and collect data in support of the development and maintenance of, reliability performance metrics and assessments of risks to the Reliable Operation of the Bulk-Power System, in accordance with the NERC Rules of Procedure and NERC directives. NERC shall develop data-gathering quality control procedures, forms and reporting mechanisms, which shall be used by WECC and other Regional Entities in carrying out their responsibilities under this subsection (c).

(d) Event Analysis and Reliability Improvement. WECC shall conduct event analysis pursuant to the NERC Rules of Procedure and applicable governmental regulations. NERC and WECC shall coordinate event analysis to support the effective and efficient use of their collective resources, consistency in event analysis, and timely delivery of event analysis reports. In collaboration with NERC, WECC shall disseminate to the electric industry lessons learned and other information obtained or resulting from event analysis.

(e) Training and Education. WECC may provide training and education to Registered Entities, as it deems necessary, in support of its performance of delegated functions and related

activities under this Agreement. NERC may also provide training and education programs to Registered Entities on topics relating to NERC's responsibilities as the ERO.

(f) Situation Awareness and Infrastructure Security.

(i) WECC shall gather and assess situation awareness information provided by Registered Entities pursuant to the NERC Rules of Procedure and applicable governmental regulations, and shall provide other data, information and assistance to NERC in support of NERC's activities in monitoring present conditions, and responding to events, on the Bulk-Power System

(ii) WECC shall collaborate with NERC in its efforts to coordinate electric industry activities to promote critical infrastructure protection of the Bulk-Power System in North America.

8. Oversight of Performance of Delegated Functions and Related Activities.

This Section 8 sets forth processes and procedures which the Parties intend shall be used in NERC's oversight of WECC's performance of its Delegated Authority and related activities pursuant to this Agreement. It is the intent of NERC and WECC that matters relating to NERC's oversight of WECC's performance of its Delegated Authority and related activities shall be established or resolved by collaboration between NERC and WECC and, where applicable, other Regional Entities, to the maximum extent possible, consistent with the construct that NERC and the Regional Entities are operating together in a collaborative manner to carry out the responsibilities of the ERO under Section 215 of the Act and the ERO Regulations.

(a) (i) NERC shall develop, in collaboration with WECC and other Regional Entities, performance goals, measures and other parameters (including, without limiting the scope of such goals, measures and parameters, financial performance goals, measures and parameters), and performance reports, which shall be used to measure NERC's and WECC's performance of their respective functions and related activities. The performance goals, measures and parameters and the form of performance reports shall be approved by the NERC President and shall be made public. WECC shall provide data, information and reports to NERC, in accordance with established schedules, to enable NERC to calculate WECC's performance to the agreed-upon goals, measures and parameters.

(ii) NERC shall use the performance goals, measures and parameters and performance reports to evaluate WECC's performance of its delegated functions and related activities and to provide advice and direction to WECC on performance improvements. The performance goals, measures and other parameters and the values of such goals, measures and parameters, shall be reviewed by NERC, WECC and the other Regional Entities, revised if appropriate, and made public, on the same timeline as the annual business planning and budgeting process described in Section 9 of this Agreement.

(iii) At the request of the President of NERC, WECC shall be required to develop, submit for NERC approval, and implement action plans to address areas of its performance that are reasonably determined by NERC, based on analysis of WECC's performance against the performance goals, measures and parameters, or performance of specific activities, to be unsatisfactory, *provided*, that prior to requiring WECC to adopt and implement an action plan or other remedial action, NERC shall issue a notice to WECC of the need and basis for an action plan or other remedial action and provide an opportunity for WECC to submit a written response contesting NERC's evaluation of WECC's performance and the need for an action plan. WECC may request that the President of NERC reconsider the request, and thereafter may request that the NERC Board review and reconsider the request. NERC and WECC shall work collaboratively as needed in the development and implementation of WECC's action plan. A final action plan submitted by WECC to NERC shall be made public unless the President of NERC makes a written determination that the action plan or specific portions of the plan should be maintained as non-public.

(b) NERC shall make available to WECC standardized training and education programs, which shall be designed taking into account input from WECC and other Regional Entities, for WECC personnel on topics relating to the delegated functions and related activities.

(c) (i) NERC may issue directives to WECC concerning the manner in which WECC shall perform its delegated functions and related activities under this Agreement. The NERC Rules of Procedure, or any other ERO Rule requiring approval of the Commission, shall not be considered "directives." NERC shall initiate the development of a directive through a collaborative process with WECC and, if applicable, other Regional Entities to which the directive will apply. Any directive developed through the collaborative process shall be approved by, and issued under the signature of, the NERC President.

(ii) If after a period of time that is reasonable under the circumstances, NERC and WECC and, if applicable, other Regional Entities are unable to reach agreement on the contents of the directive, NERC may issue the directive with the approval of and under the signature of the NERC President; *provided*, that before the NERC President issues a directive pursuant to this paragraph (ii), WECC and, if applicable, other Regional Entities, shall be given a reasonable opportunity to present their positions on, and a suggested alternative version or versions of, the proposed directive to the NERC President.

(iii) Upon issuance of a directive by the NERC President, it shall be binding upon, and shall be complied with by, WECC, subject to reasonable time periods for adoption, implementation, and funding of any necessary resources. Upon request by WECC, the NERC Board (or a committee of the Board to which the Board delegates appropriate authority) shall review and shall confirm, revise or revoke any directive that was issued by the NERC President without WECC's agreement, *provided*, that WECC shall request such review within thirty (30) days following issuance of the directive by the NERC President unless good cause can be shown for a later request.

(iv) NERC and WECC and, if applicable, other Regional Entities, shall collaborate in deciding whether a directive (whether issued pursuant to paragraph (ii) or paragraph (iii)) shall be made public. If no agreement is reached by the date of issuance as to whether the directive shall be made public, the NERC President shall decide whether the directive will be made public, *provided*, that is the intent of the Parties that the NERC President shall apply a presumption that directives should be made public, unless the NERC President makes a written determination stating a specific reason for maintaining a particular directive as non-public.

(d) In addition to the issuance of directives pursuant to subsection (c), the NERC Board (or a Board committee to which the Board has delegated authority) may issue guidance or directions as to the manner in which WECC, and, if applicable, other Regional Entities, shall perform delegated functions and related activities. The Board or Board committee shall also establish reasonable time periods for the implementation of any such guidance or directions, taking into account the impact on the reliability of the Bulk-Power System and the need for funding of additional resources. Any such guidance or directions shall be stated in writing and shall be public, unless the Board or Board committee makes a written determination stating a

specific reason for maintaining particular guidance or directions as non-public. WECC, either individually or in conjunction with other Regional Entities, may request that the NERC Board or Board committee reconsider or revise the guidance or direction.

(e) NERC shall conduct collaborative reviews with WECC, either individually or in conjunction with one or more other Regional Entities, that provide for the exchange of information on practices, experiences, and lessons learned in the implementation of the delegated functions.

(f) Any audits of WECC performed by NERC shall be limited to an examination of WECC's compliance with this Agreement, NERC's Rules of Procedure, the Compliance Monitoring and Enforcement Program, Commission requirements, and directives that are in effect pursuant to Section 8(c)

9. Funding. WECC and NERC shall ensure, subject to Commission approval in accordance with the ERO Regulations, that the delegated functions and related activities described in Sections 5, 6 and 7 and listed on **Exhibit E** have reasonable and adequate funding and resources by undertaking the following:

(a) WECC shall develop, through a collaborative process with NERC, and propose, an annual business plan and budget, in accordance with ERO Regulations, Commission orders and NERC business planning and budgeting policies and instructions. WECC's proposed business plan and budget shall describe the activities necessary for, and provide a budget with adequate resources for, WECC to carry out its Delegated Authority under this Agreement, including the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E**. WECC's business plan and budget shall show the funding sources and amounts to fund the proposed budget, including as applicable assessments to end users, penalty monies, and other sources of funds.

(b) WECC and NERC agree that the portion of WECC's approved budget for the functions and activities described in Sections 5, 6 and 7 and listed on **Exhibit E** that is to be funded by assessments, will be equitably allocated among end users within the geographic boundaries described in **Exhibit A** and recovered through a formula based on Net Energy for Load, or through such other formula as is proposed by WECC and approved by NERC and the Commission. If WECC proposes to use a formula other than Net Energy for Load beginning in

the following year, WECC shall submit the proposed formula to NERC in sufficient time that NERC may review and approve the proposed formula and file it with the Commission by May 15 for approval, and the proposed formula shall be effective for the following year if approved by the Commission on or before the date the Commission approves the annual business plan and budget submitted by NERC and WECC to the Commission pursuant to the ERO Regulations for such year.

(c) NERC shall determine that the assessments to fund the costs for its statutory functions in its Commission-approved budget are first allocated fairly among the Interconnections and regions according to the applicability of this work to those Interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a Net Energy for Load basis will be presumed to satisfy this equitability requirement.

(d) NERC shall provide WECC with the form or forms for business plan and budget submittal, and any accompanying instructions, in accordance with the schedule for preparation of the business plan and budget developed by NERC and the Regional Entities.

(e) WECC shall submit its proposed annual business plan and budget for carrying out its Delegated Authority functions and related activities described in Sections 5, 6 and 7 and listed on Exhibit E, as well as for all other activities of WECC, to NERC for review and approval in accordance with the annual schedule for the preparation of business plans and budgets which shall be developed collaboratively by NERC and the Regional Entities, as more fully described in **Exhibit E**.

(f) NERC shall fund WECC's performance of its Delegated Authority and related activities in accordance with WECC's Commission-approved business plan and budget, in the amount of WECC's assessments to end users approved by the Commission. **Exhibit E** sets forth the procedures and timing for billing and collecting WECC's approved assessments from end users and other entities and payment of the approved assessment amount to WECC, unless otherwise modified and approved by NERC and the Commission. NERC shall not impose any material obligation or requirement regarding the Delegated Authority upon WECC that has not been provided for in an approved business plan and budget or an approved amended or supplemental business plan and budget, without WECC's consent.

(g) NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission's Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC and WECC fiscal year budget with the actual results at the NERC and Regional Entity levels. WECC shall follow NERC's prescribed system of accounts except to the extent that NERC permits a departure from the prescribed system of accounts. NERC shall make an informational filing with the Commission describing any such waiver it permits and providing an explanation supporting the permitted departure.

(h) WECC shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) WECC shall submit audited financial statements annually, including supporting materials, in a form provided by NERC no later than May 1 of the following year.

(j) **Exhibit E** to this Agreement sets forth the mechanism through which WECC shall offset penalty monies it receives (other than penalty monies received from an operational function or division or affiliated entity of WECC) against its next year's annual budget for carrying out functions under this Agreement, and the mechanism by which WECC shall transmit to NERC any penalty monies received from an operational function or division or affiliated entity of WECC. *Provided*, that, subject to approval by NERC and the Commission, WECC may propose and implement an alternative use of penalty monies to that set forth in **Exhibit E**.

10. Assignment. This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party's sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. WECC may not delegate in whole or in part its Delegated Authority to any other entity without NERC's express consent; provided, however, that nothing in this provision shall prohibit WECC from contracting with other entities to assist it in carrying out its Delegated Authority, provided WECC retains control and responsibility for such Delegated Authority.

11. Default and Cure. Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the “Default Notice”). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; *provided however*, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this Section 11, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 18 of this Agreement to resolve a dispute as to whether a Breach has occurred or been cured. The provisions of this Section 11 will survive termination of this Agreement.

12. Term and Termination.

(a) This Agreement shall become effective on January 1, 2011 (the “Effective Date”).

(b) The term of the Agreement shall be five (5) years from the Effective Date, prior to which time NERC shall conduct an audit pursuant to subsection 6(i) to ensure that WECC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If WECC meets such requirements, this Agreement may be renewed for another five (5) year term. This Agreement may be renewed for successive additional five (5) year renewal terms provided that prior to the end of each renewal term, NERC shall conduct an audit pursuant to subsection 6(i) to ensure that WECC continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. Provided, that either Party may terminate this Agreement as of the end of a term by giving written notice to terminate at least one (1) year prior to the end of the term. If this Agreement is

not renewed or becomes subject to termination for any reason, the Parties shall work to provide for a transition of WECC's Delegated Authority to NERC or to another eligible entity and to provide for the resolution of any wind-up costs associated with termination of this Agreement. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time WECC may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by WECC and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 13), No Third Party Beneficiaries (Section 14) and Confidentiality (Section 15) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

13. Limitation of Liability. WECC and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and WECC shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys' fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the WECC's or NERC's responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the

WECC or NERC is found liable for gross negligence or intentional misconduct, in which case WECC or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys' fees and litigation costs), exemplary, or punitive damages.

14. No Third Party Beneficiaries. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to, any third party.

15. Confidentiality. During the course of the Parties' performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC's Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or the issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient's counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors' employees, and agents to whom Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

16. Amendment. Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

17. Amendments to the NERC Rules of Procedure. NERC shall not adopt amendments to the NERC Rules of Procedure that conflict with the rights, obligations, or programs of WECC under this Agreement without first obtaining the consent of WECC, which consent shall not be unreasonably withheld or delayed. To the extent WECC does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 18 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules of Procedure. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of WECC under this Agreement, WECC shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by WECC to NERC and the Commission, or at such other time as may be mutually agreed by WECC and NERC.

18. Dispute Resolution. In the event a dispute arises under this Agreement between NERC and WECC (including disputes relating to NERC's performance of its obligations under this Agreement and/or disputes relating to WECC's performance of its obligations under this Agreement) which cannot be resolved through discussions between representatives of the Parties in the normal course of operations, the Parties shall use the following procedures ("Dispute Resolution") to attempt to resolve the dispute. WECC shall not suspend performance of any delegated function, and the Parties shall continue to make reasonable, good faith efforts to comply with their obligations under this Agreement, during the pendency of Dispute Resolution. All notices required to be sent pursuant to this Dispute Resolution procedure shall be sent in accordance with Section 19 of this Agreement. This Dispute Resolution procedure is separate from and in addition to all other processes provided for in this Agreement.

(a) The Party invoking Dispute Resolution shall send a notice to the other Party describing the dispute, stating the invoking Party's position with respect to the dispute, stating that the Party is invoking Dispute Resolution, and naming the Party's designated representative

for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the invoking Party.

(b) Within three (3) business days after receipt of the notice invoking Dispute Resolution, the receiving Party shall send a notice to the invoking Party acknowledging receipt of the notice invoking Dispute Resolution, stating the receiving Party's position with respect to the dispute, and naming the Party's designated representative for negotiating a resolution of the dispute. The designated representative shall have authority to resolve the dispute on behalf of the receiving Party.

(c) During the period commencing three (3) business days and ending twenty (20) business days after the date of the receiving Party's notice, the designated representatives shall engage in good faith negotiations to attempt to resolve the dispute, *provided*, that the designated representatives may agree prior to the end of such twenty (20) business day period that the process should move to the next step of Dispute Resolution.

(d) If the designated representatives are unable to arrive at a resolution of the dispute by the end of the time period described in subsection (c), they shall notify the chief executive officers of their respective Parties. The chief executive officers of the Parties shall thereafter engage in good faith negotiations to attempt to resolve the dispute during the period of twenty (20) business days immediately following the time period described in subsection (c), *provided*, that the chief executive officers may agree prior to the end of such twenty (20) business day period that negotiations are at impasse and the process may move to the next step as described in subsection (f). Upon mutual agreement of the Parties, the twenty (20) business day period may be extended to pursue ongoing good faith negotiations.

(e) If a resolution of the dispute is achieved by the Parties, it shall be memorialized in a writing that is acceptable in form and substance to each party and is signed by the designated representative or chief executive officer on behalf of each Party.

(f) If the Parties are unable to resolve the dispute pursuant to the process described in subsections (a) through (e), then either Party may invoke any other available dispute resolution mechanism, including, without limitation, filing a complaint or petition with the Commission requesting resolution of the dispute by the Commission, or filing a complaint for relief in a court having jurisdiction over Parties and the subject matter of the dispute in accordance with Section 20. *Provided, however*, that: (i) it is the intent of the Parties that unresolved disputes shall be

presented to and resolved by the Commission if the Commission has and accepts jurisdiction over the subject matter of the dispute, (ii) the Parties may, by mutual agreement, attempt to resolve the dispute through arbitration, mediation, or other process involving resort to an impartial neutral, and (iii) it is the intent of the Parties that resolution of disputes through Commission proceedings, arbitration, mediation, or other use of an impartial neutral, is preferred over resort to judicial proceedings.

(g) This Section 18 shall not apply to compliance enforcement actions against individual Registered Entities.

19. Notice. Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

If to NERC:

North American Electric
Reliability Corporation
116-390 Village Blvd.
Princeton, NJ 08540-5721
Attn: General Counsel
Facsimile: (609) 452-9550

If to WECC:

Western Electricity Coordinating Council
155 North 400 West, Suite 200
Salt Lake City, Utah 84103
Attn: Louise McCarren
Facsimile: (801) 582-3918

20. Governing Law. When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

21. **Headings.** The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

22. **Savings Clause.** Nothing in this Agreement shall be construed to preempt or limit any authority that WECC may have to adopt reliability requirements or take other actions to maintain reliability of the Bulk-Power System within the geographic boundaries described in **Exhibit A** that are outside the Delegated Authority, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in **Exhibit A** and do not result in a lessening of reliability outside the region described in **Exhibit A**.

23. **Entire Agreement.** This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. **Execution of Counterparts.** This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

NOW THEREFORE, the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the Effective Date.

EXHIBIT A

Exhibit A — Regional Boundaries

WECC's physical boundaries coincide with the boundaries of the Western Interconnection. The Western Interconnection consists of the synchronously operated electric transmission grid in the western part of North America, which includes parts of Montana, Nebraska, New Mexico, South Dakota, Texas, Wyoming, and Mexico and all of Arizona, California, Colorado, Idaho, Nevada, Oregon, Utah, Washington and the Canadian Provinces of British Columbia and Alberta. The WECC region encompasses approximately 1.8 million square miles.

WECC's northern border runs along the northern border of British Columbia and Alberta. The western border extends along the western coast of North America from British Columbia into northern Baja California, Mexico. The southern border traverses northern Baja and extends along the southern United States border to Texas. The eastern border bisects North America from Alberta, Canada through the states of Montana, South Dakota, Wyoming, Nebraska, Texas and New Mexico to the southern United States border.

EXHIBIT B

Exhibit B – Governance

Exhibit B shall set forth the Regional Entity’s bylaws, which NERC agrees demonstrate that the Regional Entity meets the following criteria:

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

Of
The
WESTERN ELECTRICITY COORDINATING COUNCIL

1. Mission.

The Western Interconnection is the geographic area containing the synchronously operated electric grid in the western part of North America, which includes parts of Montana, Nebraska, New Mexico, South Dakota, Texas, Wyoming, and Mexico and all of Arizona, California, Colorado, Idaho, Nevada, Oregon, Utah, Washington and the Canadian provinces of British Columbia and Alberta.

The Western Electricity Coordinating Council (“WECC”) is a Utah nonprofit corporation with the mission to do the following consistent with these Bylaws: 1) maintain a reliable electric power system in the Western Interconnection that supports efficient competitive power markets (“Reliability Mission”); and 2) assure open and non-discriminatory transmission access among Members and provide a forum for resolving transmission access disputes between Members consistent with FERC policies where alternative forums are unavailable or where the Members agree to resolve a dispute using the mechanism provided in Section 11 (“Transmission Access Mission”).

2. Furtherance of the WECC’s Mission

2.1 Activities to Carry Out WECC’s Reliability Mission.

- 2.1.1 Compliance with the Federal Power Act. The WECC will carry out responsibilities and exercise rights of a Regional Entity organized on an interconnection-wide basis pursuant to Section 215 of the Federal Power Act, including any responsibilities and rights delegated to it by the ERO pursuant to a Delegation Agreement.
- 2.1.2 Agreements with Canada and Mexico. The WECC will carry out responsibilities and exercise rights pursuant to International Reliability Agreements with Canadian or Mexican authorities.
- 2.1.3 Regional Coordination. The WECC will act as a coordinating entity for the entire Western Interconnection for activities of regional organizations with responsibilities for reliability and market functions.
- 2.1.4 Standard Setting. The WECC will develop and adopt reliability, operating, and planning standards, criteria and guidelines necessary to maintain the reliable operation of the Western Interconnection’s interconnected bulk power system, including seeking, as appropriate, variances from standards of the ERO (or any

successor organization which may be created by legislation or otherwise), as well as providing a process for regional variances.

- 2.1.5 Certification of Grid Operating Entities. The WECC will certify Grid Operating Entities in the Western Interconnection.
- 2.1.6 Reliability Assessment. The WECC will ensure that interconnected bulk electric system reliability assessments are conducted as needed. The WECC will do this work in conjunction with the Regional Entities to the greatest extent possible. The WECC will also facilitate coordinated reliability assessments among Regional Entities.
- 2.1.7 Compliance Activities. With respect to enforcement of reliability standards, the WECC will:
 - 2.1.7.1 implement the Reliability Management System in effect as of the WECC's formation and as the Reliability Management System may be subsequently modified in accordance with its terms;
 - 2.1.7.2 implement any enforcement mechanisms delegated to it pursuant to Section 215 of the Federal Power Act and any Delegation Agreement with the ERO, or required by any International Reliability Agreement with a Canadian or Mexican authority; and
 - 2.1.7.3 administer any other enforcement mechanisms developed through voluntary processes after the WECC's formation, where the WECC is designated to perform administration.
- 2.1.8 Coordinated Regional Planning. With respect to the coordination of regional planning activities, the WECC:
 - 2.1.8.1 will develop coordinated planning policies and procedures for the Western Interconnection, including facilitation of market-based solutions, consistent with WECC/ERO standards and FERC policy.
 - 2.1.8.2 will review and assess Local Regional Entity planning processes to determine whether WECC planning procedures have been satisfied;
 - 2.1.8.3 will refer planning matters back to the originating Local Regional Entity for revision or other corrective actions when the WECC Board determines that WECC planning procedures have not been satisfied; and
 - 2.1.8.4 may perform other interconnection-wide studies as needed.
- 2.1.9 Coordinated Operations. With respect to coordinating reliable operating activities within the Western Interconnection, the WECC will develop, coordinate and promote

consistent interregional operating policies and procedures for the Western Interconnection, consistent with WECC/ERO standards and FERC policy.

2.1.10 Market Interface Issues. With respect to Market Interface issues the WECC will:

2.1.10.1 facilitate development of compatible and efficient practices across the Western Interconnection; and

2.1.10.2 exercise Backstop Authority where an unresolved Market Interface issue will cause Material External Impacts by taking some or all of the following actions: 1) providing a forum for and coordinating voluntary solutions among Members; 2) recommending specific solutions for voluntary adoption by Members; and 3) if necessary, proposing solutions to an Applicable Regulatory Authority.

2.1.11 Dispute Resolution. The WECC will provide a process for the timely resolution of disputes between WECC Members as set forth in Section 11.

2.2 Activities to Carry Out WECC's Non-Discriminatory Access Mission.

2.2.1 In accordance with Section 10 of these Bylaws, the WECC will ensure the provision of non-discriminatory transmission access between Members.

2.2.2 In accordance with Section 10 of these Bylaws, the WECC will provide for the submission of Open Access Transmission Tariffs (or petitions for exemption) by all Members that own or operate Transmission Facilities.

2.3 Organizational Characteristics.

As the WECC carries out activities to fulfill its mission, it will seek to develop and maintain the following characteristics:

2.3.1 dedication to serving the individuals, businesses, and other organizations that generate, transmit, distribute, market, and use electrical energy in the Western Interconnection;

2.3.2 efficiency in its administration, decision-making, policy and standards development, and dispute resolution processes;

2.3.3 the ability to maintain status as an Interconnection-wide regional reliability entity and be afforded deference and delegation by ERO (or successor organization); and

2.3.4 fair and open processes through which practices, policies, and standards are developed and implemented based on sound technical and policy analysis.

2.3.5 Promote an efficient western electric market by reducing or eliminating conflict, duplication and overlap among electric organizations in the Western Interconnection.

3. Definitions.

3.1 Affiliate.

An Entity that directly or indirectly through one (1) or more intermediaries, controls, or is controlled by, or is under common control with, another Entity. An Entity “controls” any Entity in which it has the power to vote, directly or indirectly, 5% or more of the voting interests in such entity or, in the case of a partnership, if it is a general partner. Notwithstanding the foregoing definition, for purposes of these Bylaws: 1) electric distribution cooperatives that are member-owners of a generation and transmission cooperative are not Affiliates of the generation and transmission cooperative or of each other; 2) an entity controlled by or operating as a unit, agency, or subdivision of a local, state, provincial, or U.S. federal or Canadian or Mexican national government will not be considered an Affiliate of any other entity controlled by or operating as a unit, agency, or subdivision of a local, state, provincial, or federal government; 3) separate agencies of a single state or province, or of the U.S. federal or Canadian or Mexican national government will not be considered Affiliates of each other, regardless of any commonality of political control; 4) members of any joint powers authority, and such joint powers authority, will not be considered Affiliates of each other; and 5) members of an RTO will not be considered Affiliates of such RTO or of each other solely as a result of such membership.

3.2 Annual Meeting.

The annual membership meeting of WECC, as described in Section 5.3.

3.3 Applicable Regulatory Authority.

The FERC or any state or provincial government agency with jurisdiction to regulate or directly affect the transmission of electricity within the Western Interconnection.

3.4 Backstop Authority.

The ability, obligation, or responsibility of the WECC to address an issue when the WECC Board determines that a Local Regional Entity(ies) holding Primary Authority has not resolved an issue, has created incompatible resolutions or has not acted. In each case where these Bylaws authorize the WECC to exercise Backstop Authority, the provisions that authorize Backstop Authority will also specify the conditions necessary to trigger Backstop Authority and the actions that fall within the WECC’s exercise of Backstop Authority.

3.5 Board of Directors (Board).

WECC Board of Directors, collectively, as described in Section 6.

3.6 Canadian Delegation.

Canadian WECC Members.

- 3.7 Canadian Director.**
A member of the WECC Board of Directors that is either a representative from a Canadian Member of WECC or an individual currently residing in Canada and qualified to provide expertise on Canadian interests on the WECC Board of Directors.
- 3.8 Class.**
A grouping of Members described in Sections 4.2.1 through 4.2.7 and 4.3.
- 3.9 Commercial Practices.**
The products and practices involved in trading electricity. The term “Commercial Practices” only refers to an interaction among market entities that does not affect or require assistance from Grid Operating Entities that have grid reliability responsibilities.
- 3.10 Compliance Hearing Body.**
The hearing body formed in accordance with procedures established in the WECC Delegation Agreement with the ERO for the purpose of providing a balanced compliance panel to conduct hearings for the resolution of disputes concerning compliance with or enforcement of Reliability Standards that may arise between WECC (acting as Compliance Enforcement Authority for the Western Interconnection) and a Registered Entity.
- 3.11 Control Area.**
An electric power system (or combination of electric power systems) to which a common automatic generation control scheme is applied in order to: 1) match, at all times, the power output of the generating units within the electric power system(s), plus the energy purchased from entities outside the electric system(s), minus energy sold to entities outside the electric system(s), with the demand within the electric power system(s); 2) maintain scheduled interchange with other Control Areas, within the limits of Good Utility Practice; 3) maintain the frequency of the electric power system(s) within reasonable limits in accordance with Good Utility Practice; and 4) provide sufficient generating capacity to maintain operating reserves in accordance with Good Utility Practice.
- 3.12 Cross-Border Regional Entity.**
A Regional Entity that encompasses a part of the United States and a part of Canada or Mexico, and may therefore be delegated authority to propose and enforce Reliability Standards in Canada or Mexico by virtue of applicable contractual or regulatory mechanisms.
- 3.13 Delegation Agreement.**
An agreement between the ERO and the WECC pursuant to Section 215 of the Federal Power Act by which the ERO delegates to the WECC designated powers, rights and responsibilities regarding the administration within the Western Interconnection of electric Reliability Standards adopted or approved by the ERO and the FERC.
- 3.14 Director.**
An individual member of the WECC’s Board of Directors.

- 3.15 Electric Line of Business.**
The generation, transmission, distribution, or trading of electricity or the provision of related energy services in the Western Interconnection.
- 3.16 Electric Reliability Organization (ERO).**
The organization certified by FERC under 18 C.F.R. §39.3, the purpose of which is to establish and enforce Reliability Standards for the bulk-power system in the United States, subject to FERC review.
- 3.17 Entity.**
Any individual, person, corporation, partnership, association, governmental body or organization of any kind.
- 3.18 FERC.**
The Federal Energy Regulatory Commission or any successor.
- 3.19 Good Utility Practice.**
Any of the practices, methods and acts engaged in or approved by a significant portion of the electric utility industry during the relevant time period, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety and expedition. Good Utility Practice is not intended to be limited to the optimum practice, method, or act to the exclusion of all others, but rather to be acceptable practices, methods, or acts generally accepted in the region.
- 3.20 Grid Operating Entity.**
Any operating entity, such as a control area operator, that is certified pursuant to Section 2.1.5 of these Bylaws to be responsible for reliable operation of a portion of the Western Interconnection.
- 3.21 Participating Stakeholder.**
Any person or entity that is not a WECC Member, but is an interested stakeholder and has applied and been granted, pursuant to Section 8.6.2, the participation and voting rights set forth in Section 8.6.1.
- 3.22 International Reliability Agreement.**
An agreement between the WECC and any appropriate Canadian or Mexican authority related to WECC's powers, rights and responsibilities regarding the administration within the Western Interconnection of electric Reliability Standards.
- 3.23 Local Regional Entity.**
A regional transmission organization or some other formally or informally constituted regional organization or group within the Western Interconnection, including but not limited to a Control Area, a group of Control Areas acting in concert, or a group of Entities that own or operate Transmission Facilities acting in concert. These Local

Regional Entity boundaries can be reevaluated or modified over time.

3.24 Market Interface.

Market Interface involves all interactions among market entities and Grid Operating Entities related to transmission service and physical delivery.

3.25 Material External Impacts (MEI).

Significant effects on another Local Regional Entity or market within the Western Interconnection but outside of the Local Regional Entity or market adopting a policy, standard, practice or procedure, or implementing an action.

3.26 Member.

Any entity that has applied and been accepted for membership in the WECC and is current in the payment of dues.

3.27 Member Class Director.

A Director elected by a Class in accordance with Section 6.4 of these Bylaws.

3.28 Mexican Delegation.

Mexican WECC Members.

3.29 Mexican Director.

A member of the WECC Board of Directors that is either a representative from a Mexican Member of WECC or an individual currently residing in Mexico and qualified to represent Mexican interests on the WECC Board of Directors.

3.30 Non-Affiliated Director.

A Director elected by the Members who satisfies the requirements of Section 6.5.1 of these Bylaws.

3.31 Open Access Tariff.

A tariff offering transmission service which meets the requirements applicable to FERC orders regarding open access.

3.32 Organizing Meeting.

The first formal membership meeting of the WECC.

3.33 Primary Authority.

The ability, obligation, or responsibility of an entity to address an issue in the first instance.

3.34 Regional Entity (RE).

An entity having enforcement authority pursuant to 18 C.F.R. §39.8.

- 3.35 Regional Transmission Organization (RTO).**
An entity approved by the Federal Energy Regulatory Commission as meeting the requirements and performing the functions of a regional transmission organization pursuant to FERC Order 2000 and subsequent related orders.
- 3.36 Registered Entity.**
An owner, operator, or user of the bulk-power system or the entities registered as their delegates for the purpose of compliance in the North American Electric Reliability Corporation Regional Compliance Registry.
- 3.37 Reliability Management System**
The contracts, separate from these Bylaws, by which Members and other parties agree to certain procedures and sanctions intended to enforce specified Reliability Practices to maintain reliable electric service throughout the Western Interconnection.
- 3.38 Reliability Practices.**
Policies, practices and standards designed to ensure the adequacy and security of the Western Interconnection in accordance with applicable reliability criteria (e.g. ERO, WECC, Local Regional Entity criteria).
- 3.39 Reliability Standard.**
A requirement approved by FERC under section 215 of the Federal Power Act, to provide for reliable operation of the bulk-power system in the United States. The term includes requirements for the operation of existing bulk-power system facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity. A Reliability Standard for the Western Interconnection may also be approved by Canadian and Mexican regulatory authorities.
- 3.40 Reliability Standards Development Procedures.**
The Process for Developing and Approving WECC Standards (or its successor) attached as Exhibit C to the Delegation Agreement between WECC and North American Electric Reliability Corporation.
- 3.41 Transmission Facilities.**
Those facilities that are defined as “transmission facilities” by FERC for purposes of the open access requirements of Section 210 and 211 of the Federal Power Act or any facilities which would be so defined if the Member were subject to FERC jurisdiction.
- 3.42 Western Interconnection.**
The geographic area containing the synchronously operated electric transmission grid in the western part of North America, which includes parts of Montana, Nebraska, New Mexico, South Dakota, Texas, Wyoming, and Mexico and all of Arizona, California, Colorado,

Idaho, Nevada, Oregon, Utah, Washington and the Canadian Provinces of British Columbia and Alberta.

4. Members and Membership.

4.1 Voluntary Membership.

Except as otherwise may be required by applicable authority, membership in the WECC is voluntary. A Member may withdraw upon giving the Secretary thirty (30) days' advance written notice. Notwithstanding such notice of withdrawal, all contracts (including any Reliability Management System Agreement), FERC orders, unpaid Member costs, decisions of arbitration and requests for transmission service made to the withdrawing Member in effect or pending as of the date of the written notice of withdrawal will be followed through to completion, pursuant to these Bylaws, by the withdrawing Member; however, pending requests for transmission service to be provided to such withdrawing Member will be void for the purposes of these Bylaws. Nothing herein will relieve any Member withdrawing from the WECC from any obligation it may have under applicable law including, but not limited to, Section 215 of the Federal Power Act. A Member that withdraws is obligated to pay any unpaid dues owed through the remainder of the fiscal year in which its resignation becomes effective. Any Director employed by a withdrawing Member will be deemed to have resigned pursuant to Section 6.8.

4.2 Eligibility for Membership.

Subject to Section 4.5, any Entity that is an interested stakeholder or that meets the criteria for membership in the membership classes described in Sections 4.2.1 through 4.2.7 may be a Member of the WECC:

- 4.2.1 Class 1. Electric Line of Business Entities owning, controlling or operating more than 1000 circuit miles of transmission lines of 115 kV and higher voltages within the Western Interconnection.
- 4.2.2 Class 2. Electric Line of Business Entities owning, controlling or operating transmission or distribution lines, but not more than 1,000 circuit miles of transmission lines of 115 kV or greater, within the Western Interconnection.
- 4.2.3 Class 3. Electric Line of Business Entities doing business in the Western Interconnection that do not own, control or operate transmission or distribution lines in the Western Interconnection, including power marketers, independent power producers, load serving entities and any other Entity whose primary business is the provision of energy services.
- 4.2.4 Class 4. End users of significant amounts of electricity in the Western Interconnection, including industrial, agricultural, commercial and retail entities as well as organizations in the Western Interconnection that represent the interests of a substantial number of end users or a substantial number of persons interested in the impacts of electric systems on the public or the environment.

4.2.5 Class 5. Representatives of states and provinces in the Western Interconnection, provided that such representatives will have policy or regulatory roles and do not represent state or provincial agencies and departments whose function involves significant direct participation in the market as end users or in Electric Line of Business activities.

4.2.6 Class 6. Canadian members of other classes pursuant to Section 4.3.

4.2.7 Class 7. Members at large, that is, entities that are not eligible for membership in the other Member Classes and who have a substantial interest in the purposes of the WECC.

4.3 Designation of Membership Class.

A Member of WECC may not belong to more than one Class except that for purposes of electing Canadian Directors and for populating the Governance and Nominating Committee, there shall be a Class 6 composed of all Canadian Members from any of the Member Classes defined in Section 4.2 except Class 7. An applicant for membership will designate the Class for which it qualifies based upon the criteria for membership set forth in Section 4.2 and these additional requirements: 1) all Members that are Electric Line of Business Entities must belong to Classes 1, 2 or 3; and 2) any Member owning, controlling or operating Transmission Facilities or distribution facilities must belong to Class 1 or 2 unless the Board grants the Member's petition for a change in Member Class pursuant to the provisions of Section 4.4 of these Bylaws. Applications for membership will be submitted to the WECC. WECC staff will review the application to verify eligibility for membership and Member Class designation. An applicant whose application has been rejected or any Member who disputes the WECC staff's determination regarding the appropriate Member Class designation may request review by the Governance and Nominating Committee. If the applicant or any Member disagrees with the Governance and Nominating Committee's decision, the applicant or such Member may appeal this decision to the Board.

4.4 Changes in Membership Class.

Notwithstanding any other provision of these Bylaws, upon a petition from a Member, the WECC staff (subject to review by the Governance and Nominating Committee and appeal to the Board) may allow the Member to change Member Class if the interest of the Member is more closely aligned with the proposed Class than the Member's current Class.

4.5 Affiliates and Distinct Business Entities.

An Affiliate of a Member that satisfies the membership qualifications may also become a Member provided:

4.5.1 The Affiliate applying for membership and the Member disclose to the Chief Executive Officer all Affiliates that are WECC Members and the Classes to which the Affiliates belong. Every Member will promptly notify the Chief Executive Officer whenever it becomes, or ceases to be, an Affiliate of any other Member.

- 4.5.2 Affiliates may be members of the same Class; provided, however, a group of Affiliates within a single Class may only have one vote in any WECC forum. A group of Affiliates within a single Class may, by providing written notice to the Chief Executive Officer, split their single vote pro rata or designate a single Affiliate as the group's voting Member.
- 4.5.3 For good cause shown and with the express approval of the Board, a company or organization containing functionally distinct entities within it may obtain separate memberships for such entities; provided that such entities will be considered Affiliates.
- 4.5.4 The Board may adopt a policy regarding whether Members may share the benefits of membership (including the right to receive information that is only available to Members) with a non-member Affiliate.

4.6

Rights and Obligations of Membership.

Except as otherwise provided in these Bylaws or other applicable authority, Members of the WECC have the following general rights and obligations:

- 4.6.1 The right to elect and remove Directors as described in Sections 6.4, 6.5 and 6.7;
- 4.6.2 The right to amend these Bylaws, and to review and rescind any Board amendment of these Bylaws, in accordance with Section 13;
- 4.6.3 The right to receive appropriate meeting notices, as well as reports and information produced by the WECC;
- 4.6.4 The right to attend, participate and vote in all WECC Member meetings and the right to attend Board meetings (other than closed sessions of Board meetings) and to comment upon all matters considered in such meetings;
- 4.6.5 The right to be a member of, attend meetings of, and to introduce motions, debate and to vote in the deliberations of WECC committees, subject to the limitations of these Bylaws and such other reasonable limitations as the Board may adopt from time to time;
- 4.6.6 The right to obtain non-discriminatory transmission access from other Members in accordance with applicable law and Section 10 of these Bylaws;
- 4.6.7 The right to invoke the dispute resolution provisions of these Bylaws;
- 4.6.8 The right to petition the Board to take any action consistent with applicable law (including Section 215 of the Federal Power Act and implementing orders and regulations), these Bylaws and the articles of incorporation and to have such petition voted upon in a reasonable and timely manner;

- 4.6.9 The obligation to abide by these Bylaws, decisions resulting from the dispute resolution process, and all standards or decisions of the WECC, subject to the exceptions set forth in Section 4.7 and the enforcement provisions of Section 4.8.
- 4.6.10 For Members owning or operating Transmission Facilities, or possessing transmission capacity rights by contract, the obligation to provide non-discriminatory transmission access to other Members through a regional transmission organization, the submittal of an Open Access Tariff with the FERC or in accordance with Section 10 of these Bylaws;
- 4.6.11 The obligation to notify the Chief Executive Officer promptly of changes with respect to Affiliates as provided in Section 4.5.1 of these Bylaws; and
- 4.6.12 The obligation to pay in a timely manner the membership dues pursuant to Section 12.
- 4.6.13 The obligation to provide system data that the Board has determined is necessary for WECC functions and does not impose an undue burden on the Members; provided, however, that the Board shall adopt appropriate limitations on this obligation or procedures that protect, and avoid the unnecessary collection of, confidential, privileged, trade secret, cybersecurity or critical energy infrastructure information or other information that the Board determines merits such protection consistent with applicable law.

4.7

Limitations on Member Obligations.

The obligation of Members pursuant to Section 4.6.9 will not require any Member to take any action which the Member in good faith determines: 1) would exceed the physical capabilities of the Member's electric system (or any part of another's electric system that the Member has the legal right to cause to comply with a WECC action governed by Section 4.6.9); 2) would create serious and immediate risks to public health or safety (provided, however, that the shedding of load shall not in and of itself be deemed a serious and immediate risk to public health and safety for the purpose of this section); 3) would create an immediate risk of serious damage to facilities or equipment within its electric system or cause it to operate any of its electric facilities or equipment in an unsafe manner; 4) would cause the Member to violate or improperly implement an applicable law, regulation, rule, order, FERC license provision or other legal obligation; or 5) would conflict with any non-power requirement applicable to the Member (including without limitation any obligation under environmental laws, regulations, court and administrative decisions or biological opinions).

Each Member shall retain sole control of its facilities and the use thereof, and a Member shall not be required to construct or dedicate facilities for the benefit of any other Member, or be required to take action, or refrain from action, as may be deemed necessary to maintain reliable service to its own customers and/or to fulfill its obligations to third parties; provided, that a Member shall comply with duly-adopted reliability standards applicable to its system and shall comply with any directives under existing security coordination agreements.

Nothing in these Bylaws is intended to preclude application of Section 210 or 211 of the Federal Power Act and Section 10 of these Bylaws. The above limitations shall not be construed as altering a Member's obligation to comply with applicable Reliability Standards or enforcement orders, or any other obligation arising under 18 C.F.R. Part 39.

4.8

Compliance and Enforcement.

The power of the WECC to enforce Member obligations other than compliance with Reliability Standards and other obligations arising under 18 C.F.R. Part 39 and applicable Canadian and Mexican regulatory requirements is limited to suspension or termination of membership as set forth in this Section; provided, however, that: 1) nothing in this Section will limit the power of Members to agree to additional enforcement provisions in separate contracts (such as contracts pursuant to the Reliability Management System); 2) nothing in this Section will limit the power of the WECC to propose solutions regarding Market Interface issues to any Applicable Regulatory Authority as described in Section 2.1.10; and 3) nothing in this Section will limit WECC's delegated authority under Section 215 of the Federal Power Act and 18 C.F.R. Part 39 and applicable Canadian and Mexican regulatory requirements to enforce Reliability Standards and perform other delegated functions within the Western Interconnection. The Board may suspend or, to the extent consistent with applicable law, terminate the membership of any Member for a material failure to meet any obligation of membership set forth in these Bylaws, including, but not limited to: 1) non-payment of dues sixty (60) days after the dues become delinquent; 2) intentionally or repeatedly violating any WECC Bylaw; 3) materially breaching or intentionally violating any FERC order or arbitration decision issued pursuant to these Bylaws; or 4) willfully obstructing any lawful purpose or activity of the WECC. The Board will give the affected Member not less than twenty-one (21) days prior written notice of any proposed suspension or termination, which will include the specific basis for the proposed action and, if applicable, instructions on curing the problem.

4.8.1 Suspension. The suspension of a Member will not affect the Member's rights and obligations other than that the Member, and any Director employed by or affiliated with the Member, will not be entitled to vote at any meeting of the Members, Classes, Directors, or any committee until the suspension is removed except that a suspended Member may vote in WECC committee and subcommittee meetings on proposed Reliability Standards or revisions to Reliability Standards.

4.8.2 Termination. The termination of membership will have the same effect, and be subject to the same continuing obligations, as such Member's withdrawal pursuant to Section 4.1 (including the provision therein regarding resignation of any Director employed by such Member), except that it will be effective immediately upon the noticed date pursuant to Section 4.8.

4.9 **WECC Structure and Governance Review Related to Regional Transmission Organizations.**

At least each five years, the Board of Directors will conduct a thorough assessment of whether the WECC is fulfilling its purposes in a manner that is consistent with: 1) the provisions of Section 2.3 of these Bylaws; and 2) the then-current state and the expected future evolution of the electric power industry within the Western Interconnection. In

particular, the Board will focus on whether the standards, obligations, processes, and decisions the WECC imposes on its Members are timely, fair, effective, and reasonable in view of the commercial, legal, regulatory, and economic needs and objectives of the affected Members. The Board will evaluate the WECC's Board composition, Member Class structure, committee structure and activities, and staff responsibilities as they relate to the foregoing considerations. The assessment required by this Section 4.9 will be accompanied by Board recommendations for any changes the Board determines are warranted by the assessment. The assessment and recommendations prepared by the Board in accordance with this Section 4.9 will be submitted in writing to the Members at the first annual Member meeting held after they are completed.

5. Procedures for Member Decisions.

5.1 Quorum.

Members may conduct business and take votes only at duly noticed Member meetings. Members may not conduct any business of the membership as a whole at any meeting unless a quorum is first established. A majority of all Members, including a majority in at least three (3) Classes, will constitute a quorum for all meetings of the membership as a whole. A majority of the members of a Class will constitute a quorum for all Member Class meetings. Inactive Members, as defined in Section 5.9 of these Bylaws, will not be counted in determining a quorum at membership or Member Class meetings. A quorum, once established, will be deemed to continue for the balance of any Member or Member Class meeting, except that no election of Directors may occur without a quorum being present. Members may designate an alternate representative or submit an absentee ballot in a form consistent with Section 6.6 for any Member or Member Class meeting. No Class may elect Member Class Directors without a majority of the members of the class being present either in person, or by designation of an alternate representative, or by the submission of an absentee vote. At a duly noticed meeting of the membership as a whole where a quorum of the membership has not been established, or at any duly noticed meeting of a Class meeting on its own, a Class may elect Member Class Directors notwithstanding the lack of quorum for action by the membership as a whole, provided a majority of the Members of a Class are present in person, or by designation of an alternate representative, or have submitted an absentee vote.

5.2 General Membership Meetings.

All business of the Members acting as a whole will be conducted at meetings called by advance notice to all WECC Members provided in accordance with Section 5.5. Unless stated otherwise in these Bylaws, decisions at all meetings of the Members or of Member Classes will be by simple majority vote of the Members present or otherwise represented in accordance with these Bylaws, with each Member having one vote. The Chair of the Board will preside over all Member meetings.

5.3 Annual Member Meetings.

The WECC will hold an Annual Meeting of all Members at a time and place determined by the Board. At the Annual Meeting, in addition to such other actions the Members may take, all Member Classes together will elect Non-Affiliated Directors and each Class eligible to do so will elect Member Class Directors.

5.4 Special Member Meetings.

Members may hold special meetings whenever called by the Board. The Board will call special Member meetings whenever a majority of the Members of any Class request a special meeting or at such other times as it deems appropriate. The Chair of the Board will preside over all special Member meetings.

5.5 Member Class Meetings

An individual WECC Member Class, including Class 6 consisting of the Canadian Delegation, may hold a meeting for any purpose relevant to the interests of Class Members, including the election of Member Class Directors by Classes eligible to do so. Such meeting will be initiated by request by one or more Class Member(s), and agreement by at least fifty percent (50%) of Class Members.

5.6 Notice of Member Meetings.

5.6.1 Annual Meeting. The Chief Executive Officer will provide at least thirty (30) days' advance notice to all Members and the Board of the date, place and time of the Annual Meeting of the Members and an agenda of the business to be conducted at such meeting.

5.6.2 Other Member Meetings. The Chief Executive Officer will provide notice of regularly scheduled and special meetings of the Members to the Members not less than fifteen (15) days before the meeting if delivered by first-class mail, or not less than ten (10) days before the meeting if the notice is delivered personally, by telephone, by facsimile, electronic mail or express mail. Notice of meetings may not be sent solely by electronic mail. If mailed, such notice will be deemed given when deposited in the United States mail, with first-class postage thereon prepaid, addressed to a Member. Such notice will state the date, time and place of the meeting and the meeting agenda.

5.6.3 Public and Web Site Notice. Public notice of each meeting of the Members will be placed on WECC's Web site at least ten (10) days before such meeting. In addition, the Chief Executive Officer will provide notice in the same manner and time as set forth in Section 5.6.2 of each meeting to each member of the public who so requests and who has provided appropriate information regarding delivery of notice.

5.7 Open Meetings.

All Membership meetings are open to observation by the public.

5.8 Policymaking Authority.

The Board of Directors may adopt policies for the interpretation and implementation of the meeting and voting procedures established in this Section 5.

5.9 Minimum Participation Requirement.

In order to be counted for quorum purposes at a meeting of the membership as a whole or Class meeting, a WECC Member must actively participate (by attending in person, sending

an alternate, or voting absentee) in at least one WECC meeting (including meetings of the Board, committees and subcommittees) each year. At least two weeks prior to the WECC Annual Meeting, WECC staff will send a notice to any Member that has, according to organizational records, not satisfied this minimum participation requirement within the previous year. The notice will inform the Member that in order to be counted as an active Member of WECC for voting and quorum purposes, the Member must at a minimum either register for an attend the Annual Meeting and associated Class meetings or participate in the Annual Meeting and associated Class meetings by casting an absentee ballot. If the Member does not meet this minimum participate requirement, the Member will be considered an "inactive" Member until its active status is restored by participation in a WECC Annual Meeting. An inactive Member will not be counted toward establishing a quorum of the membership as a whole or of a Class, and an inactive Member will not be entitled to vote at WECC meetings until the Member is reinstated to "active" status by attending in person, sending an alternate or voting absentee at an Annual Meeting and associated Class meetings. An applicant for WECC membership or a WECC Member may at any time self-designate itself an inactive Member. Such designation will be effective until the Member is reinstated to "active" status.

6. Governance.

6.1 Board of Directors.

Subject to those matters expressly requiring approval of the Membership, a Board of Directors elected by the Members will govern the WECC.

6.2 Composition of the Board.

Except as provided in Sections 6.2.1 and 6.2.2, the Board consists of thirty-two Directors as follows: 1) twenty-four (24) Member Class Directors elected by the Member Classes eligible to do so, including Class 6 as defined in Section 6.2.1, (four from Classes 1 through 6); 2) seven (7) Non-Affiliated Directors elected by the WECC Members as a whole (which may include the Chief Executive Officer), and 3) one Mexican Director elected according to Section 6.2.2. As indicated in Section 6.2.1, if there is no Non-affiliated Director whose background and experience would provide the Board expertise on Canadian interests, then the Board size would be increased by one more Director elected by Class 6.

6.2.1 Canadian Interests. For purposes of providing fair and adequate representation of Canadian Interests in numbers that are approximately proportionate to the contribution of net energy for load in that portion of the Western Interconnection located in Canada, the Canadian Delegation shall constitute Class 6 and shall elect four (4) Canadian Directors, provided that at least one of these Canadian Directors must be affiliated with each of Member Classes 1, 3, and 5. Members of the Canadian Delegation shall vote for Directors in this Class 6 and shall not vote in other Member Class elections. In the initial election of these four Class 6 Directors, one shall have a term of four years, one shall have a term of three years, one shall have a term of two years, and one shall have a term of one year. Thereafter all Canadian Directors will serve a term of three years. Class 6 will also elect a fifth Canadian Director if, following the election of Non-Affiliated Directors at the

Annual Meeting, there is no Non-Affiliated Director qualified by virtue of background and experience in Canadian industry or government to provide Board expertise on Canadian interests. This fifth Canadian Director shall serve until the earlier of: 1) the end of a three-year term (provided that this provision will remain in effect and may continue to cause the election of an additional Director); or 2) the election by the Members of a Non-Affiliated Director with the background and experience described in this Section.

6.2.2 Mexican Interests. Whenever there are at least two (2) Members whose head offices and principal place of business are in Mexico or there is one such Member that operates a portion of the Western Interconnection and has signed the Reliability Management System agreement or has agreed to abide by any successor standards compliance system and no person has been elected to the Board by the Classes or Members whose experience or affiliation reflects Mexican interests, the number of Class Member Directors will be expanded by one (1) and the additional Member Class Director will be elected by the Mexican Delegation. This Mexican Director will serve until the earlier of: 1) the end of a three-year term (provided that this provision will remain in effect and may continue to cause the election of an additional Director); or 2) the election by the Members or a Member Class of a person with the experience or affiliation described in this Section.

6.3

Term of Office.

Each Director will hold office for three (3) years. For Directors elected at the Annual Membership Meeting, each three (3) year term shall commence upon the adjournment of the portion of the Annual Member Meeting provided for in Section 5.3, in which all Members are counted for purposes of determining a quorum. Similarly, the three year terms of outgoing Directors shall end upon the adjournment of that portion of the Annual Member Meeting in which all Members are counted for purposes of determining a quorum, whether that results in a longer or shorter term than exactly three years.

6.4

Selection and Compensation of Member Class Directors.

6.4.1 Selection of Member Class Directors. With the exception of Class 7, each Member Class shall be eligible to elect Member Class Directors. Member Class Directors will be elected by Members of their respective Classes of Membership. Each Member Class eligible to elect Member Class Directors may develop its own list of Director candidates or it may ask the Governance and Nominating Committee to develop a list of candidates. If the Governance Nominating Committee is used, it will select at least two (2) candidates for each vacancy for Member Class Director. In addition, in identifying candidates for Member Class Director positions, the Governance and Nominating Committee will seek to produce a slate of candidates who, together with the Directors from all Member Classes standing for election and continuing in office, will reflect the diversity of regional interests and characteristics within the Western Interconnection. The proposed slate of candidates will be mailed to the Members of the Class at least sixty (60) days before each Member Class Meeting at which the elections are to be held. Additional candidates may be added to the slate upon the

submittal of a nomination to the Chief Executive Officer signed by three (3) Members of the Class, or ten percent (10%) of the total number of Members of the Class, whichever is greater. The Chief Executive Officer must receive such nominations at least thirty (30) days before the Member Class Meeting. All candidates identified by the Class (as provided above) or by the Governance and Nominating Committee will be submitted to the Class for election at the Member Class Meeting. Candidates will provide reasonable background information regarding their qualifications and a disclosure statement regarding any affiliations with Electric Line of Business Entities in the Western Interconnection to the Members before each election. The Director candidate(s) receiving the highest number of votes cast by Members of the Class will be elected to the position of Director.

- 6.4.2 Member Class Director Qualifications. Member Classes eligible to elect Member Class Directors may elect any person as a Member Class Director, provided that no Member or group of Affiliated Members may have more than one Director associated with them. Nothing in this Section regarding the election of Directors by Classes of Members is intended to limit, qualify or alter in any manner the fiduciary obligation of Directors to the WECC set forth in Section 6.10.1. A Member Class Director shall notify all Members of the Class from which the Director was elected of any significant change in employment or other significant change in circumstances relevant to the Director's qualifications. Such notice shall be provided in writing as soon as possible and not later than sixty (60) days following the change.
- 6.4.3 Minimum Number of Class Members. Each Class eligible to elect Member Class Directors must have at least four (4) Members to be qualified to nominate and elect representatives to the Board of Directors. If a Class eligible to elect Member Class Directors contains less than four (4) members, then the Director positions for that Class will remain vacant until the first Annual Meeting at which the Class has the minimum number of members, at which time two of the vacant positions will be filled by election to three year terms and two by election to two year terms. If a Class eligible to elect Member Class Directors falls below the minimum number of members after having elected Directors, such Directors will continue to serve out their terms. However, upon expiration of their terms, the Director positions will remain vacant until such time as the Class contains sufficient members.
- 6.4.4 Member Class Director Compensation. Member Class Directors will not be compensated for their service by the WECC. The WECC will reimburse Member Class Directors for reasonable and actual out-of-pocket expenses (such as travel and lodging) that are not subject to reimbursement from any Member or other source.

6.5 Selection and Compensation of Non-Affiliated Directors.

- 6.5.1 Non-Affiliated Director Qualifications.

6.5.1.1 Non-Affiliation. The Non-Affiliated Directors of the Board may not be affiliated with any Entity that is a Member of the WECC or is eligible for membership in Classes 1 through 3 of the WECC, provided that status as a residential electricity customer will not disqualify a person from sitting as a Director. A candidate will not be qualified to serve as a Director if the candidate, or the spouse or a minor child of the candidate, derives any of his or her annual income from a Member of WECC, an Entity that is eligible for membership in Classes 1 through 3, or a bulk power user in the Western Interconnection. The WECC shall maintain a list of such Members and Entities which shall be updated periodically. Non-Affiliated Directors, candidates and others shall be entitled to rely upon the list to determine compliance with these requirements.

6.5.1.1.1 Notwithstanding the provisions of Section 6.5.1.1, a candidate for Non-Affiliated Director will not be disqualified for owning shares in a mutual fund that owns an interest in a Member or an Affiliate of a Member as long as the mutual fund does not specialize exclusively or predominantly in the energy sector. The disqualification standards described in Section 6.5.1.1 will not disqualify a candidate who is receiving payments from a pension plan of a Member or an Affiliate of a Member in a form other than securities of such Member or Affiliate and the pension plan payments bear no relationship to the economic performance of the Member or Affiliate.

6.5.1.1.2 The disqualification standards described in Section 6.5.1.1 will not apply to disqualify a candidate solely by virtue of an employment or contractual relationship with a state that has one or more agencies that are eligible to be Members of Class 5 of WECC, provided that:

1. In the case of a candidate's employment relationship, the employer is not a member of WECC;
2. In the case of a candidate's contractual relationship with a state agency, no member or employee of the state agency is a member of the WECC Board;
3. In the case of a candidate's employment relationship with a contractor to a state agency, no member or employee of the state agency is a member of the WECC Board; and
4. In the case of a candidate's employment or contractual relationship with a state agency which is a WECC Member or employs a WECC Board member, if the Governance and Nominating Committee determines that

the candidate's employment duties do not include significant work for or representation of that state agency.

6.5.1.1.3 Notwithstanding the provisions of this Section 6.5.1.1, a candidate for Non-Affiliated Director will not be disqualified for being affiliated with an organization that represents a substantial number of end users or a substantial number of persons interested in the impacts of electric systems on the public interest or the environment.

6.5.1.2 Expertise. The Governance and Nominating Committee will nominate Non-Affiliated Director candidates with the objective of having at least one Non-Affiliated Director with expertise in electric transmission operations and planning. The Governance and Nominating Committee will also have the objective of nominating persons with: 1) experience in corporate leadership at the senior management or board of directors level; 2) leadership experience in law, finance, economics, accounting, engineering, regulation, natural resources or commercial commodity markets and associated risk management; 3) experience representing a substantial number of end users or a substantial number of persons interested in the impacts of electric systems on the public or the environment; 4) a well-developed understanding of the distinct operational, resource, political, and interest-based characteristics of various regions within the Western Interconnection; and 5) a well-developed understanding of Canadian power systems or Canadian regulatory issues.

6.5.2 Selection of Non-Affiliated Directors.

6.5.2.1 Selection of Non-Affiliated Directors. After the initial election of Non-Affiliated Directors, the Governance and Nominating Committee will make nominations. Before the end of each Non-Affiliated Director's term, the Governance and Nominating Committee may select an independent search firm to provide the Governance and Nominating Committee with a list of qualified candidates for each vacant position. Incumbent Directors, if qualified and willing to serve, may be considered for nomination by the Governance and Nominating Committee. The Governance and Nominating Committee will consider each candidate for Non-Affiliated Director to determine whether that candidate is qualified to stand for election to the Board. From the list of candidates accepted by the Governance and Nominating Committee to stand for election, the Governance and Nominating Committee will select a slate of candidates for the vacant Non-Affiliated Director positions. The Governance and Nominating Committee's slate of candidates will be e-mailed to the Members no later than sixty (60) days prior to the Annual Meeting. Additional candidates may be added to the slate upon the submittal of a nomination to the Chief Executive Officer signed by three (3) Members of any Class, or ten percent

(10%) of the total number of Members of any Class, whichever is greater. The Chief Executive Officer must receive such nomination at least thirty (30) days before the Annual Meeting. The Chief Executive Officer will place such nominations before the Members for possible election unless he or she determines in writing that a proposed nominee does not meet the criteria for eligibility to be a Non-Affiliated Director in these Bylaws.

6.5.2.2 Disclosure Statement. Candidates for Non-Affiliated Director will provide to the Governance and Nominating Committee and, if nominated, to the Members, a statement describing their expertise and disclosing any present or past affiliations, relationships or associations relevant to their qualification to serve as a Non-Affiliated Director. A candidate for Non-Affiliated Director will be required to disclose any economic interest in any Member of the WECC or any Entity eligible for membership in Classes 1 through 3 of the WECC held by themselves, their spouse or their children as well as any such interest known to the candidate held by the candidate's parents, siblings, aunts, uncles, or first cousins.

6.5.2.3 Election. The number of Non-Affiliated Director candidate(s) corresponding to the number of vacant positions receiving the highest number of votes cast at the Annual Meetings of the Members will be elected to the position of Non-Affiliated Director.

6.5.3 Non-Affiliated Director Compensation. The Non-Affiliated Directors will receive a level of compensation as determined from time to time by the Member Class Directors.

6.6 Tie Vote.

In the event of an inability to select Directors due to a tie vote, a second vote will be taken to determine the placement of the tied candidates. The second vote will be limited to the tied candidates, with the candidate(s) receiving the highest number of votes being selected. If another tie vote results, additional votes will be taken (after the elimination of any candidate receiving fewer votes than the tied candidates) until a candidate can be selected. If a tie cannot be resolved pursuant to the foregoing procedures, it will be resolved by lot. For the purpose of such second (and subsequent) votes, absentee ballots shall allow voters to list all candidates in order of preference such that absentee ballots may be counted by striking those candidates not participating in the run-off. Absentee ballots that express an order of preference for fewer than all candidates will be counted if the ballot demonstrates clear preference among the runoff candidates.

6.7 Removal of Directors.

The Members or the Board may remove a Director before completion of the Director's term of office pursuant to the following provisions.

6.7.1 Removal by the Members. Member Class Directors may be removed at will by a vote of at least sixty percent (60%) of the Members of the Class that elected that Director. Non-Affiliated Directors may be removed only for gross negligence,

violation of local, state, provincial, or federal laws, gross misconduct, or failure to meet the fiduciary obligations of Directors. Removal of a Non-Affiliated Director will be by a vote of at least fifty percent (50%) of the entire WECC membership, including a vote of at least fifty percent (50%) of each Class.

6.7.2 Removal by the Board. The Board may remove any Director for gross negligence, violation of local, state, provincial, or federal laws, gross misconduct, or failure to meet the fiduciary obligations of Directors. Such removal will only occur upon the affirmative vote of not less than twenty-one (21) Directors.

6.8 Resignation.

Any Director may resign from his or her office or position at any time by written notice to the Board by delivery to the Chair. Pursuant to Sections 4.1 and 4.8.2, a Director employed by a withdrawing or expelled Member will be deemed to have resigned. The acceptance of a resignation will not be required to make it effective.

6.9 Procedures for Filling Vacant Director Positions.

6.9.1 Member Class Director Vacancies. If the position of any Director elected by a Member Class becomes vacant, the remaining Directors elected by the same Class will promptly choose a successor to that position who will serve until the next Annual Meeting.

6.9.2 Non-Affiliated Director Vacancies. If the position of any Non-Affiliated Director becomes vacant, the remaining Directors may charge the Governance and Nominating Committee with selecting a successor immediately. The Governance and Nominating Committee will follow the requirements set out in Section 6.5.2.1 in its selection of any successor Non-Affiliated Director. Alternatively, if less than one (1) year remains in the term of that Director, the remaining Directors may choose to leave the position vacant for the remainder of the term.

6.9.3 Holdover to Cure Procedural Vacancies. Whenever a vacancy in any Member Class or Non-Affiliated Director position would be created due to expiration of a Director's term combined with a lack of a quorum or other procedural inability to elect a new Director, the expired Director's term shall be extended until such time as a proper election of a new Director can be conducted.

6.10 Duties of Directors.

The Directors will have the following duties:

6.10.1 Fiduciary Obligation to the WECC: All Directors, including Member Class Directors, will have a fiduciary obligation to the WECC consistent with the requirements for Directors of Utah non-profit corporations. Notwithstanding any affiliation with individual Members or Class of membership, Members of the Board will at all times act in conformance with such requirements, these Bylaws and the Standards of Conduct set forth in Appendix A.

6.10.2 Preserve Non-Affiliated Status: Throughout their terms, Non-Affiliated Directors will have a duty to avoid any affiliation that is inconsistent with the standards for Non-Affiliated Directors in Section 6.5.1.1 of these Bylaws. If a Non-Affiliated Director becomes aware of any such affiliation, he/she must either resign or eliminate the affiliation (e.g., dispose of securities) within six (6) months.

6.11 Powers of Directors.

The management of all the property and affairs of the WECC will be vested in the Board of Directors. The Board will hold annual elections to select a Board Chair and to fill any other Board officer positions that may be created by the Board or required by applicable law. The Board may exercise all the powers of the WECC and do all lawful acts and things (including the adoption of such rules and regulations for the conduct of its meetings, the exercise of its powers and the management of the WECC) as are consistent with these Bylaws and the Articles of Incorporation.

6.12 Delegation of Board Authority.

The Board may delegate to the Chief Executive Officer or to any Board Committee formed pursuant to Section 7.7 any or all of its powers and authority except: 1) any power which it may not delegate pursuant to applicable Utah law; 2) the power to adopt any reliability standard; 3) the power to determine when to exercise the Backstop Authority of the WECC; 4) the power to approve budgets; 5) the power to form committees; 6) the power to amend the Bylaws; 7) the power to elect the Chair and other officers of the Board; 8) the power to enter into contracts obligating the WECC to pay an amount exceeding \$50,000; and 9) the power to hire, fire or set the terms of employment of the Chief Executive Officer. The Board may also delegate to any Member committee the power to make specific decisions, subject to the right of any Member to appeal any of such decisions to the Board within 30 days of the committee vote on the decision by writing a letter to the Chief Executive Officer that describes in reasonable detail the grounds for appeal, and requests that the appeal be considered by the Board at its next regularly scheduled meeting, subject to applicable notice requirements. Delegation will be by express decision and will require the affirmative vote of not less than twenty (20) Directors. Any Director may call for a vote to rescind such delegation at any time and such delegation will be rescinded if eight (8) or more Directors vote to do so.

6.12.1 Notice to Members. Within seven (7) days of any decision delegated pursuant to Section 6.12, except for routine decisions of the Chief Executive Officer, Members will be notified of the decision by electronic mail, posting on the WECC Web site and any other means determined appropriate by the Board. Routine decisions of the Chief Executive Officer will be noticed in periodic reports to the Board and Members as determined by the Board, which will be sent to Members by electronic mail and posted on the WECC Web site.

6.12.2 Board Review of Delegated Decisions. Decisions delegated pursuant to Section 6.12 will be reviewed by the Board at the request of any Director, provided such request is lodged with the Secretary within thirty (30) days of the notice. Whenever it determines that a matter requires an urgent decision, the Board may shorten the

deadline for requests for review, provided that: 1) the notice and opportunity for review will be reasonable under the circumstances; and 2) notices to Members will always contain clear notification of the procedures and deadlines for Board review. A request for review of a decision will stay the effect of the decision pending review unless the Board in making the delegation expressly determines otherwise.

7. Procedures for Board Decisions.

7.1 Quorum.

No business will be conducted by the Board unless at least seventeen (17) Directors are present, including at least three (3) Non-Affiliated Directors and at least one Director elected by each of not less than four (4) of the Member Classes; provided, that if all Member Class Director positions for a Class are vacant, or if a Class is not entitled to elect Member Class Directors, then no Director elected by such Class will be required to be present for the Board to conduct business.

7.2 Majority Vote.

A decision of the Board will require an affirmative vote of a majority of Directors present. Directors may not vote by proxy or by absentee ballot, but Directors may participate in Board meetings by telephone as provided in Section 7.3 of these Bylaws.

7.3 Attendance at Board Meetings by Teleconference.

Any or all of the WECC's Directors may participate in any meeting of the Board by telephone conference or any other means of communication that enable all Directors participating in the meeting to simultaneously hear one another. Every Director participating in a meeting in the manner described in the preceding sentence will be deemed to be present in person at that meeting.

7.4 Board Action by Unanimous Consent.

7.4.1 Action Without a Meeting. Unless the WECC's Articles of Incorporation or applicable law provides otherwise, action required or permitted to be taken at a meeting of the Board may be taken without a meeting through one or more written consents describing the action taken. Any Board action taken by written consent must be signed by all Directors in office at the time the action is taken. Such actions must be noticed to Members in accordance with Section 7.5 and Members must be given an opportunity to comment prior to the Board taking such actions through electronic mail, comments on the Web site or other appropriate means. The required notice of such meeting may generally describe the arrangements (rather than the place) for the holding of the meeting. All other provisions herein contained or referred to will apply to such meeting as though it were physically held at a single place. All Board actions by written consent must be filed with the WECC's Board meeting minutes. Action taken under this Section is effective when the last Director signs the consent, unless the consent specifies an earlier or later effective date. Any action by written consent has the same effect as a meeting vote and may be described as such in any document.

7.4.2 **Waiver of Procedures.** For any specific action at any noticed meeting of the Board, and under exigent or unusual circumstances, the Board by unanimous vote of those present may waive any procedural requirement applicable to Board decision-making, including any requirement for notice of a specific potential action, except for the following: 1) the requirement for notice of the time and place of the meeting pursuant to Section 7.5; 2) the quorum and voting requirements of Sections 7.1 and 7.2; and 3) any non-procedural limitation on the power of the Board to make a decision, including, but not limited to, those restrictions in Sections 6.12 (limiting the power to delegate) and 13.1 (limiting the power to amend the Bylaws). Whenever such action is taken, a statement describing the action, the exigent or unusual circumstances, the specific procedure waived, the basis for the waiver and the votes of all Directors present shall be posted on the web site and communicated in writing or by email to all Members within five (5) days.

7.5 Notice of Board Meetings.

- 7.5.1 **Regular Meetings.** Except as set forth in Section 7.5.2 regarding urgent business, all regular business of the Board will occur at the Board meetings, at least twenty-one (21) days' advance notice of which has been provided by the Chief Executive Officer to all Directors and all Members. Notice will include an agenda that will identify those matters on which a vote will be taken at the meeting. The foregoing requirement shall not preclude the Board from taking an action that is different from the specific proposed action identified in the agenda, as long as the relevant subject matter has been reasonably identified in the agenda. The Directors will establish a regular meeting schedule that will be made available to the Members. The schedule will include not less than two meetings of the Board annually.
- 7.5.2 **Special Meetings.** Whenever the Chair of the Board or any three (3) Directors find that there is urgent business requiring Board action before the next regular Board meeting, a special meeting of the Board may be called. Such special meetings will be held upon as much written notice to each Board Member and all Members as is possible under the circumstances, which will not be less than three (3) days. However, this notice of special meetings may be waived if: 1) the waiver is by a writing signed by a quorum of Board members; and 2) as much notice of the meeting as practicable has been given to WECC Members via e-mail and posting on the WECC Web site.
- 7.5.3 **Public and Web Site Notice.** Public notice of each meeting of the Board will be placed on WECC's Web site at least ten (10) days before such meeting (or such lesser time as provided pursuant to Section 7.5.2). In addition, the Chief Executive Officer will provide notice of each meeting by first-class mail, facsimile or electronic mail to each member of the public who so requests and who has provided appropriate information regarding delivery of notice.

7.6 Open Meetings.

Except as provided in Section 7.6.1, all regular and special meetings of the Board will be open to observation by any Member and any member of the public.

7.6.1 Closed Session. Notwithstanding the provisions of Section 7.6, upon an affirmative vote of two-thirds (2/3) of the Directors present, the Board may meet in closed session: 1) to consider the employment, evaluation of performance, or dismissal of an employee of WECC and to deliberate regarding decisions the Board may be called upon to make regarding the nomination, qualification, appointment, or removal of a member of the Board of Directors; 2) to discuss pending or proposed litigation and to receive confidential attorney-client communications from legal counsel; and 3) to receive and discuss any information that is privileged, trade secret, cybersecurity, critical energy infrastructure information (as defined by the FERC), protected from public disclosure by law or that the Board determines should be confidential in order to protect a legitimate public interest.

7.6.1.1 Attendance by an Affected Director. Closed sessions of the Board may not be attended by a Director under the following circumstances: 1) where the qualifications or performance of the Director or the Director's spouse or children are being discussed; 2) where the Director is employed by an entity that is or is likely to become a party to the litigation being discussed; and 3) where the Director or the Board determines that the Director would have a serious and substantial conflict of interest by becoming privy to confidential attorney-client or trade secret information that is to be presented to the Board in closed session.

7.6.1.2 Announcement of Closed Session. Before adjourning into closed session, the Chair of the Board will announce the purpose of the closed session in a manner that provides the public an understanding of the general subject matter to be discussed but which does not reveal sensitive or personal information. The Board will not discuss additional items outside the scope of this description.

7.6.1.3 Confidentiality of Closed Session. All Directors and others present will maintain the confidentiality of discussions and decisions made in closed session. The Board will appoint a secretary for closed session to keep a minute book for the purpose of recording the subject matter discussed in closed session and any actions taken in closed session.

7.7 Board Committees.

7.7.1 Governance and Nominating Committee. The Chair will appoint a Governance and Nominating Committee that shall: 1) return slates of candidates as required by these Bylaws; 2) oversee implementation and amendment of these Bylaws; and 3) address such other issues pertinent to Governance as the Board may choose to delegate to it. The Governance and Nominating Committee will consist of one Director from each

of the six Member Classes eligible to elect such Directors and one Non-Affiliated Director. The Chair will designate one of the appointed Directors to be the Chair of the Governance and Nominating Committee.

7.7.2 Other Board Committees. The Board may appoint such Board committees as it deems necessary from time to time to carry out its business affairs. In appointing such committees, the Board will specify their purpose, membership, voting, notice and meeting procedures and such other direction as the Board may deem appropriate. The Board may appoint one or more Members or other persons to participate in Board committees as full voting members or as non-voting advisory members.

7.7.3 Standards of Conduct for Board Committee Members. Members of Board committees shall comply with the Board Member Standards of Conduct set forth in Appendix A.

8. Member Committees.

8.1 Purpose.

The WECC will have committees composed of its Members to advise and make recommendations to the Board. Such committees will include both standing committees required by these Bylaws and such other committees as the Board may choose to create.

8.2 Standing Committees.

WECC will have the following standing committees:

8.2.1 Planning Coordination Committee. This committee will advise and make recommendations to the Board on all matters within the jurisdiction of the WECC pertaining to maintaining reliability through evaluating generation and load balance and the adequacy of the physical infrastructure of interconnected bulk electric systems within the Western Interconnection.

8.2.2 Operating Committee. This committee will advise and make recommendations to the Board on all matters within the jurisdiction of the WECC pertaining to maintaining reliability through the operation and security of the interconnected bulk western electric systems in the Western Interconnection.

8.2.3 Market Interface Committee. This committee will advise and make recommendations to the Board on the development of consistent Market Interface practices and compatible commercial practices within the Western Interconnection. It will consider matters pertaining to the impact of WECC's reliability standards, practices, and procedures on the commercial electricity market in the Western Interconnection, and facilitate analysis of the impact of electricity market practices on electric system reliability.

8.3 Other Committees.

The Board may create such other committees as it may desire from time to time. The Board will specify the functions, duties and responsibilities of any such committee at the time of its creation. The Board will also specify the membership rules, quorum requirements, voting levels and meeting and notice requirements at the time of creation. Any changes in the membership rules, quorum requirements, or voting levels of a committee, once established by the Board, will require a seventy-five percent (75%) vote of the Board to alter. The specific function or sunset date for a committee will be designated by the Board at the time of the committee's creation. The committee will terminate its activities upon the completion of its function or the expiration of the date set by the Board.

8.4 Committee Assessment and Streamlining.

8.4.1 **Assessment of Standing Committee Activities.** No later than three (3) years following the Organizing Meeting of the WECC, the Board of Directors will conduct a thorough review of the activities of each of the WECC's standing committees (as defined in Section 8.2 of these Bylaws) to assess whether they are effectively furthering the WECC's purposes in a manner that is consistent with: 1) the provisions of Section 2.3 of these Bylaws; and 2) the then-current state and the expected future evolution of the electric power industry within the Western Interconnection. The Board's review will assess whether there are any aspects of the standing committees' functions or procedures that impede development of WECC standards, obligations, processes, and decisions that are timely, fair, effective, and reasonable in view of the commercial, legal, regulatory, and economic needs and objectives of the affected Members. The Board will propose to the membership, at the first annual Member meeting held after completion of the review required by this Section 8.4.1, any changes to standing committee structures, functions, or procedures that the Board determines are warranted by its review.

8.4.2 Dissolution of Additional Member Groups.

8.4.2.1 Except as otherwise provided in Section 8.4.2.2 below, no later than three (3) years following the Organizing Meeting of the WECC, all WECC Member groups other than the WECC's standing committees (as defined in Section 8.2 of these Bylaws) will dissolve automatically. The Member groups to automatically dissolve under this Section 8.4.2.1 will include, without limitation, all WECC Member subcommittees, work groups, and task forces. There will thereafter be no committees, subcommittees, or other groups of WECC Members other than: 1) the WECC's standing committees (as defined in Section 8.2 of these Bylaws); and 2) any established by the Board after it determines that the committee, subcommittee, or other group, when established, will satisfy the terms of assessment for standing committees set forth in Section 8.4.1 above.

8.4.2.2 If, at the time specified for dissolution of Member groups that are not standing committees in accordance with Section 8.4.2.1 above, FERC-

approved Regional Transmission organizations carrying on commercial operations within the Western Interconnection do not cover at least one-half the load in the Western Interconnection, the Board may delay the implementation of the actions specified in Section 8.4.2.1 until no later than six (6) months after FERC-approved regional transmission organizations covering at least one-half the load within the Western Interconnection are in place and carrying on commercial operations.

8.5 Procedures for Committee Decision-Making.

- 8.5.1 Reports to Board of Directors. Action by a committee will be in the form of a recommendation for Board action except in those instances in which the Board has, by resolution, specifically delegated to a committee the power to take action subject to an appeal to the Board by any Member. The recommendation of a committee must be forwarded to the Board for its action along with any minority or dissenting reports filed with the committee Chair or Vice-Chair.
- 8.5.2 Subcommittees, Task Forces and Ad Hoc Groups. Any Board or member committee may create such subcommittees, task forces or other ad hoc groups ("subcommittee") as it deems appropriate to carry out the committee's responsibilities consistent with these Bylaws and the direction of the Board. The composition, responsibilities and procedures of such groups shall be specified by the committee as appropriate; provided, however that: 1) the committee may only delegate to such subcommittee responsibilities that are within the scope of the committee's responsibilities pursuant to these Bylaws and direction of the Board; and 2) the subcommittee may only make recommendations to the committee. A committee may create a subcommittee without prior approval of the Board; provided, however, that the committee shall promptly inform the Board in writing and at the next Board meeting regarding the creation of the subcommittee. The notification to the Board shall include a charter for the subcommittee that describes how members of the subcommittee will be selected, the duties of the subcommittee, and whether the committee has established a sunset date for review of (1) the need for the subcommittee and (2) the charter of the subcommittee.
- 8.5.3 Committee Officers. The Board will appoint the Chair and Vice-Chair of each committee. The Committee Chair or Vice-Chair will preside over all meetings of the committee and will report recommendations of the committee to the Board of Directors. The Chair and Vice-Chair will be responsible for informing the Board regarding minority opinions and other information required by the Board along with overall committee recommendations. Whenever the committee elects to form a subcommittee to represent regions or address specific tasks, the Chair (or in the absence of the Chair, the Vice-Chair) will have the power to appoint the members of such subcommittee from both members of the committees and non-members. Upon resignation of the Committee Chair, the Vice Chair shall serve as Chair until the Board appoints a replacement. Upon resignation of the Vice Chair, the Chair may appoint a temporary Vice Chair to serve until the Board appoints a replacement. Upon resignation of both the Chair and Vice Chair, the Chair of the Board may

appoint one or more temporary replacements to serve until the Board appoints permanent replacements.

8.5.4 Committee Membership. Except as provided in Section 8.5.4.1, any Member of WECC may designate one representative as its committee member to any standing committee or other committee. The WECC Member will have one vote at any committee meeting through that committee member. Any number of other persons may attend a committee meeting, but such persons will have no right to vote without a prior designation of representation by a WECC Member, except that interested stakeholders may, under Section 8.6, vote on proposed Reliability Standards or revisions to Reliability Standards.

8.5.4.1 Dual Representation for Functionally-Separated Members. A Member which has distinct and functionally-separated interests as both a transmission provider and a transmission customer may designate two representatives as committee members to any standing committee, one to represent each functionally separate interest. Each such committee member will have one vote. The privilege granted by this Section is subject to revocation by the Board on a case-by-case basis or generally whenever the Board finds, upon petition from any Member or its own motion, that such dual representation creates unfairness or imbalance within a committee.

8.5.5 Committee Voting and Classes.

8.5.5.1 Classes. For purposes of voting, committees will have three classes of membership:

8.5.5.1.1 Transmission Provider Members or Participating Stakeholders;

8.5.5.1.2 Transmission Customer Members or Participating Stakeholders;
and

8.5.5.1.3 States and Provincial Members (Member Class 5).

8.5.5.2 Voting. Except as provided in Section 4.5.2, each committee member and Participating Stakeholder (if any) will have one vote. In order for a recommendation to be made to the Board, such recommendation must receive a simple majority vote of both: 1) committee members and Participating Stakeholders (if any) present and voting from the Transmission Provider Class; and 2) committee members and Participating Stakeholders (if any) present and voting from Transmission Customer Class. Committees will adopt voting and record-keeping procedures to ensure that committee voting is conducted consistent with these Bylaws. This requirement will also apply where decision making power has been delegated to a committee pursuant to Section 6.12.

8.5.5.2.1 State and Provincial Votes. The position of the state and provincial Class committee members must be recorded, but the failure of a proposed recommendation or decision to obtain a simple majority vote of the state and provincial committee members will not prevent the recommendation or decision from being posted for due process comment or sent to the Board of Directors.

8.5.6 Notice and Review of Committee Recommendations and Decisions (Due Process). Committee recommendations or decisions delegated to a committee pursuant to Section 6.12 will be subject to the due process provisions of this Section. Committee recommendations or decisions related to the development or approval of Reliability Standards will be subject to the provisions of this Section 8.5.6 and Section 8.6. Following a committee's development of a proposed recommendation or decision, the committee will post the proposed recommendation or decision on the WECC Web site for review and comment by other WECC Members, interested stakeholders (if the recommendation or decision concerns a Reliability Standard or revision), and other interested parties. The committee will provide all Members and Participating Stakeholders (if the recommendation or decision concerns a Reliability Standard or revision) e-mail notification of the posting and will allow at least thirty (30) days for comment on the proposal. The committee will consider all such additional input before reaching its final recommendation or decision. If the committee's recommendation or decision changes significantly as a result of comment received, the committee will post the revised recommendation or decision on the Web site, provide e-mail notification to Members and Participating Stakeholders (if the recommendation or decision concerns a Reliability Standard or revision), and provide no less than ten (10) days for additional comment before reaching its final recommendation or decision. Upon reaching its final recommendation or decision, the committee will forward it to the Board. Whenever it determines that a matter requires an urgent decision, the Board may shorten any time period set forth in this Section, provided that: 1) notice and opportunity for comment on recommendations or decisions will be reasonable under the circumstances; and 2) notices to Members will always contain clear notification of the procedures and deadlines for comment.

8.6 Procedures for Developing and Voting on Reliability Standards.

8.6.1 Rights and Obligations of WECC Members and Participating Stakeholders. All WECC Members and interested stakeholders are entitled to participate in the development of and to vote on Reliability Standards or revisions to Reliability Standards, subject to any applicable obligations, limitations and conditions set forth in these Bylaws, and in accordance with the WECC Reliability Standards Development Procedures.

8.6.1.1 Participation. The right to participate in Reliability Standards development and voting includes the right to request the development or revision of a Reliability Standard, the right to receive notice of, attend and participate in

related WECC committee and subcommittee discussions, the right to review information relevant to a Reliability Standard or revision, the right to provide written comments on a proposed Reliability Standard or revision, the right to participate in committee or subcommittee voting on a Reliability Standard or revision and the right to file an appeal requesting review of any committee or subcommittee decision on a Reliability Standard or revision.

8.6.1.2 Voting. The procedures and conditions for voting by WECC Members and Participating Stakeholders are set forth in the Reliability Standards Development Procedures and in Section 8.5.5 and 8.5.5.2 of these Bylaws. A Participating Stakeholder may only vote on a proposed Reliability Standard or revision if they have applied for and been granted Participating Stakeholder status in accordance with Section 8.6.2 below. A Participating Stakeholder is only entitled to vote on Reliability Standards and revisions. A Participating Stakeholder is not entitled to vote in any other WECC committee balloting process or in elections for WECC Directors.

8.6.2 Participating Stakeholder Application Process. Any person or entity that is an interested stakeholder may apply to WECC for Participating Stakeholder status and, upon WECC's acceptance of such application, acquire the participation and voting rights set forth above in Section 8.6.1. WECC staff, under the direction of the CEO, will process applications and make the initial determination of eligibility for Participating Stakeholder status. Denial of Participating Stakeholder status may be appealed to the WECC Governance and Nominating Committee and, if denied by the Governance and Nominating Committee, to the WECC Board. A person or entity's Participating Stakeholder status will be maintained so long as the Participating Stakeholder continues to meet the requirements set forth in Section 3.21 and participates in at least one WECC meeting per year at which a Reliability Standard or revision is discussed and/or voted on. In the event a person or entity's Participating Stakeholder status lapses due to failure to meet the above minimum participation requirement, the person or entity may restore Participating Stakeholder status by re-applying for Participating Stakeholder status and attending a WECC meeting at which a Reliability Standard is discussed and/or voted on.

8.7 Notice of Committee Meetings.

8.7.1 Standing Committees. The committee Chair, with the assistance of the Chief Executive Officer, will ensure that not less than ten (10) days' notice of all standing committee meetings is posted on the WECC Web site and is also provided to: 1) members of the committee; 2) Participating Stakeholders (if the meeting concerns development or approval of a Reliability Standard or revision); and 3) any WECC Member or member of the public requesting notice. A committee may take up any matter at a duly noticed meeting including matters not expressly identified in the notice; provided, however, that a final recommendation to the Board must be made in accordance with Section 8.5.6.

8.7.2 Other Committees. Notice of other committee meetings will be provided in the manner adopted for such notice by the affected Members and in accordance with the requirements of Section 8.6.1.

8.8 Open Meetings.

All committee meetings of the WECC (including Board committees) will be open to any WECC Member and for observation by any member of the public, except as set forth in policies on closed sessions that the Board may adopt for the purpose of preventing public disclosure of information that the Board might consider in closed session pursuant to Section 7.6.1.

9. The Chief Executive Officer, Officers, and Employees.

9.1 Designation of Officers and Terms of Office.

The WECC will have a Chief Executive Officer, a Secretary, and any other officers specified by the Board from time to time. The Chief Executive Officer will also hold the title of President of the WECC if applicable law requires the WECC to have a President. Each officer will be appointed by the Board and will serve for the term of office specified in the Board action appointing the officer and until his or her successor is appointed. Any two or more offices may be held by the same person except the offices of Chief Executive Officer and Secretary.

9.2 Chief Executive Officer Qualifications.

The Chief Executive Officer will be a person with senior management level experience and knowledge of bulk power electric transmission systems reliability, planning and operations.

9.3 Standards Applicable to All Employees.

A person may not be an officer or employee of WECC if: 1) the person is also the employee of or has a contractual relationship with any Entity, or any Affiliate of any Entity, that is eligible for membership in the WECC; or 2) the person has a financial interest that, in the judgment of the Board or the Chief Executive Officer, creates the fact or appearance of bias, undue influence or lack of objectivity regarding any action or decision of the WECC. The Board will adopt Standards of Conduct for officers and employees setting forth their duty of care, duty of loyalty, duty to avoid conflicts of interest and related matters intended to promote their neutrality, objectivity and professionalism. Upon adoption, such standards shall be attached hereto as Appendix B.

9.3.1 Exemptions from the disqualification criteria found in Section 9.3 are as follows:

9.3.1.1 Status as a residential electricity customer will not disqualify a person from employment with WECC.

9.3.1.2 A candidate for Chief Executive Officer or employee of WECC will not be disqualified for owning shares in a mutual fund because the mutual fund owns an interest in a Member or an Affiliate of a Member.

9.3.1.3 The disqualification standards described in Section 9.3 will not apply to disqualify a candidate who is receiving payments from a pension plan of a Member or an Affiliate of a Member in a form other than securities of such Member or Affiliate if the pension plan payments bear no relationship to the economic performance of the Member or Affiliate.

9.3.2 If an officer or employee receives a gift or inheritance of securities in any Member or Affiliate, he/she must resign or dispose of such securities within six (6) months of the date of receipt. Within six (6) months of the time a new Member is added in which an officer or employee owns securities, the officer or employee will resign or dispose of those securities.

9.4 Employment.

The Chief Executive Officer will be employed by the Board of Directors and will serve at the Board's pleasure. Any contract of employment with a Chief Executive Officer will permit the Board to dismiss the officer with or without cause.

9.5 Chief Executive Officer's Duties.

Subject to the Board's direction, the Chief Executive Officer or his/her designees will have the following duties, among others:

9.5.1 Execute policies at the direction of the Board and be responsible to the Board for the performance of the WECC functions described in Section 2;

9.5.2 Hire and fire staff within the constraints of the annual budget;

9.5.3 Perform administrative duties, such as preparing annual budgets for the approval of the Board, making employment decisions and ensuring conformance with regulatory requirements;

9.5.4 Develop and implement employment policies and standards of conduct; and

9.5.5 Accept or reject membership applications in accordance with the criteria of these Bylaws.

9.6 Secretary's Duties.

9.6.1 Maintain Member and Affiliates Lists. The Secretary will maintain continuously updated lists of all Members and Affiliates.

9.6.2 Maintain Official Records. The Secretary will keep minutes of all WECC Board and Member meetings and will receive and maintain minutes of committee meetings and all other official records of the WECC. Within five (5) business days after any vote taken by Members, the Board, a Class or any committee, the Secretary will provide notice to all Members and Interested Stakeholders (if applicable) of the results of

such a vote through postings on the website, email and/or other means of communication.

9.6.3 Maintain Web Site. The Secretary will oversee the creation, maintenance, and updating of the WECC's Web site and the information published through it.

10. Transmission Service Obligations.

10.1 Non-Discriminatory Transmission Access.

All Members owning, controlling or operating Transmission Facilities, or possessing rights to transmission capacity through contract, will provide interconnection and access to available transmission capacity to all other Members in a non-discriminatory manner through one of the following mechanisms: 1) a Regional Transmission Organization approved by the FERC in accordance with FERC Order 2000 and any successor order(s); 2) submission of an Open Access Tariff to the FERC; or 3) provision of non-discriminatory service in accordance with this Section 10.

10.1.1 Regional Transmission Organizations. A Member that is a Regional Transmission Organization approved by the FERC in accordance with FERC Order 2000 and any successor order(s), or a Member whose transmission capacity is controlled or operated by such a Regional Transmission Organization, will be deemed to be in compliance with Section 10 by virtue of its compliance with FERC Order 2000 and any successor order(s) and is exempt from Sections 10.2 through 10.4. Such a member will use the dispute resolution process specified in the bylaws, contracts, or tariffs of the applicable Regional Transmission Organization or other Local Regional Entity, provided that nothing in these Bylaws will prevent such a Member from using the dispute resolution process set forth in Section 11 where authorized or required by the bylaws, contracts, or tariffs of the applicable Regional Transmission Organization.

10.1.2 Members with Open Access Tariffs Filed with FERC. A Member which is not exempt pursuant to Section 10.1.1, but which has an Open Access Tariff which has been accepted for filing by the FERC, will be deemed to be in compliance with this Section 10 by virtue of its compliance with applicable FERC requirements governing its Open Access Tariff. Such Member is exempt from Sections 10.2 and 10.3; provided, however, that such Member must resolve transmission access disputes with other Member(s) in accordance with Sections 10.4, 10.5.2 and 11 of these Bylaws.

10.1.3 Other Members. Any Member subject to Section 10.1, but not eligible for exemption pursuant to Sections 10.1.1 or 10.1.2, will provide non-discriminatory interconnection and transmission access to other Members in accordance with Sections 10.2 through 10.5 of these Bylaws.

10.1.4 Canadian and Mexican Members. At the request of any Canadian or Mexican Member, the Board may adopt alternative provisions to this Section 10 applicable to the requesting Member provided that: 1) the alternative provisions differ from this

Section 10 to the minimum extent necessary to respect the laws and regulatory authorities governing the requesting Member; and 2) the alternative provisions require the requesting Member to provide interconnection and transmission service to other Members that is substantively equivalent to that required by this Section 10.

10.2 Service to be Provided.

Members described in Section 10.1.3 will provide non-discriminatory interconnection and transmission service to other Members comparable to that which would be required of an entity subject to Sections 210 through 213 of the Federal Power Act. The provision of service may be pursuant to an agreement negotiated between such Members, or, if applicable, pursuant to a service agreement under a tariff filed in accordance with Section 10.3. In no event will these Bylaws require a Member to provide transmission service that FERC is precluded from ordering under Sections 212(g) and 212(h) of the Federal Power Act. However, nothing in these Bylaws will be construed as prohibiting any Member from providing retail wheeling voluntarily or pursuant to a state statute or a lawful decision of a regulatory agency or court of law. Nothing in this section is intended to imply that any non-jurisdictional entity Member is subject to FERC jurisdiction.

10.3 Open Access Tariffs.

Except as provided in Section 10.3.1, Members described in Section 10.1.3 will file an Open Access Tariff or Tariffs consistent with Section 10.2 with the Secretary within sixty (60) days of becoming a Member. Upon the request of any Member, a Member subject to this Section 10.3 will provide a copy of its Open Access Tariff or Tariffs. Additionally, any change in any Open Access Tariff or Tariffs previously filed with the Secretary will be promptly filed with the Secretary after its adoption.

10.3.1 Petition for Exemption. Any Member described in Section 10.1.3 may petition the Board for an exemption from Section 10.3. The Board may grant such petition only if it finds that such Member is unlikely to receive a transmission service request. The granting of such a petition will not relieve the Member from the requirement to provide non-discriminatory access pursuant to Section 10.2 if the Member receives a transmission service request. If a Member has been granted an exemption from the filing of an Open Access Tariff by a Local Regional Entity based on criteria equivalent to this Section, such Member will be exempt from Section 10.3 of these Bylaws without the filing of a petition unless the Board determines otherwise.

10.4 Requests Involving Members of Regional Entities.

If a request for transmission service involves only Members who are also members of the same Local Regional Entity and the tariffs or governing documents of such Local Regional Entity provide for a process for requesting interconnection or transmission service, the process of the Local Regional Entity, as opposed to that set forth in this Section 10, will be followed. To the extent the governing documents of the Local Regional Entity establish different principles regarding the provision of interconnection or transmission service than those of the WECC, the principles of the Local Regional Entity will govern as among members of the Local Regional Entity; provided, however, that Members who are members of Regional Entities who receive requests for interconnection or transmission service from

Members who are not members of the same Local Regional Entity will not be precluded from substantively responding to such requests in a manner consistent with the tariffs or governing documents of such Local Regional Entity, provided that such responses will be subject to the dispute resolution provisions of Section 11.

10.5 Request Process and Dispute Resolution.

Members requesting interconnection or transmission service from Members described in Section 10.1.1 or 10.1.2 will do so in accordance with the applicable tariffs of the Member receiving the request. Members requesting such service from Members described in Section 10.1.3 will do so in accordance with this Section 10.5 in lieu of filing for such service pursuant to Sections 210 through 213 of the Federal Power Act.

10.5.1 Request Process and Interpretation of FERC Policy. Members described in Section 10.1.3 receiving requests from another Member for interconnection or transmission service pursuant to these Bylaws will respond to such requests in an expeditious and good faith manner. The Board may adopt procedural requirements regarding the processing of such requests to the extent it deems necessary and appropriate; provided, however, that the Board may not impose substantive obligations for the provision of interconnection or transmission service that are different from the substantive policies of the FERC applicable to such Members pursuant to Section 10.2. For the general guidance of arbitrators and Members and as it deems necessary, the Board may either request statements of policy from the FERC or adopt its own interpretations of FERC policy which will be subject to appeal to the FERC.

10.5.2 Dispute Resolution. Except as otherwise provided in Section 10.4, Members described in Sections 10.1.2 and 10.1.3, and any Member requesting interconnection or transmission service from such a Member, will resolve disputes regarding such requests in accordance with Section 11.

11. Dispute Resolution.

Except as may be otherwise provided herein, and subject to the conditions set forth in Appendix C, Section A.1, disputes between Members and/or the WECC will be resolved pursuant to the WECC Dispute Resolution Procedures set forth in Appendix C. Matters subject to the jurisdiction of the WECC Compliance Hearing Body are not subject to the procedures in Appendix C.

12. Costs and Finances.

12.1 Funding of Reliability Activities.

12.1.1 U.S. Statutory Funding. The WECC shall fund all activities undertaken pursuant to Section 215 of the Federal Power Act in accordance with the funding provisions and procedures of that law and related FERC regulations and orders. The Board shall approve a budget for such activities in time for submission to the ERO and to the FERC for approval of such funding in accordance with applicable requirements.

12.1.2 International Funding. The WECC shall fund reliability activities undertaken pursuant to any agreements with appropriate Canadian or Mexican authorities in accordance with the provisions of those agreements.

12.1.3 Equitable Allocation of Funding. In adopting budgets for the costs of reliability activities, the Board shall endeavor to achieve an equitable allocation as between funding through Sections 12.1.1 and 12.1.2 based upon the net energy to load and other relevant factors consistent with applicable law, the Delegation Agreement and any International Reliability Agreements.

12.2 Dues.

The Board may require Members and Participating Stakeholders to pay nominal annual dues consistent with applicable FERC requirements (or those of International Reliability Agreements as applicable) to cover reasonable costs of membership and/or participation in standards development that are not funded through Sections 12.1.1 or 12.1.2. Initial dues of a Member or Participating Stakeholder will be submitted with a completed application for membership or Participating Stakeholder status and will be for the prorated share of the full annual amount based on the Member's or Participating Stakeholder's actual months of membership or participation in the calendar year. In determining nominal dues, the Board may consider all relevant factors including, but not limited to, the ability of different classes of membership or Participating Stakeholders to pay such dues. The Board may also reduce, defer or eliminate the dues obligation of an individual Member or Participating Stakeholder for good cause shown.

12.3 Funding of Non-Statutory Activities.

To the extent that the WECC elects to fund any activities not eligible for funding pursuant to Sections 12.1.1 and 12.1.2, it shall do so through the use of service fees, charges or dues applicable to the persons or entities that voluntarily participate in such activities. Participation in or funding of such activities shall not be a condition of membership in the WECC.

13. Amendments to these Bylaws.

These Bylaws may be amended by either the Board or by the Members in accordance with the following procedures.

13.1 Amendment by the Board.

Except for those provisions described below, the Board may approve an amendment of the Bylaws after providing not less than thirty (30) days' notice of the proposed amendment to all Members. Approval of such an amendment requires the affirmative votes of not less than two-thirds (2/3) of the Directors in office. Such amendment will become effective sixty (60) days after its approval by the Board unless the vote is appealed to the Members prior to that time. Such an appeal will occur whenever a majority of any Class files a petition with the Secretary seeking such amendment. A vote on the appeal will occur at the next Annual Meeting unless the Board calls a special meeting of the Members beforehand. Upon appeal, the amendment will be deemed approved unless a majority of all Members vote to rescind the amendment. Notwithstanding the foregoing, the Board may not amend Sections 6.2 through 6.10 of the Bylaws, Section 8.4, Appendix C or this Section 13.1 without submitting such amendment to the Members for their prior approval.

13.2 Amendment by the Members.

Upon petition filed with the Secretary by any Member or Director, at any Annual Meeting the Members may amend any provision of these Bylaws; provided: 1) the proposed amendment has first been presented to the Board and not adopted (this provision will not apply to amendments which the Board is prohibited from adopting); 2) Members have received not less than sixty (60) days' notice of the proposed amendment, the reasons there for and a statement of the Board's position regarding it; and 3) the amendment receives the affirmative votes of not less than two-thirds (2/3) of all Members.

13.3 Amendments in Response to Mandatory Membership.

If at any time, pursuant to legislation or otherwise, membership becomes mandatory for some or all Members, upon the request of the affected Member(s) the Board will consider amendments to these Bylaws appropriate to such mandatory membership.

13.4 Amendments proposed by FERC.

FERC, upon its own motion or upon complaint, may propose an amendment to these Bylaws pursuant to 18 C.F.R. § 39.10(b).

14. Termination of Organization.

The WECC may be terminated upon a vote of a majority of the Members in accordance with the provisions of Utah law, the Federal Power Act and the requirements of the Delegation Agreement and applicable International Reliability Agreements. Immediately upon such a vote, the Board will, after paying all debts of the WECC, distribute any remaining assets in accordance with the requirements of Utah law, the Internal Revenue Code and these Bylaws.

15. Miscellaneous Provisions.

15.1 Limitation on Liability.

It is the express intent, understanding and agreement of the Members that the remedies for nonperformance expressly included in Section 4.8 hereof shall be the sole and exclusive remedies available hereunder for any nonperformance of obligations under these Bylaws. Subject to any applicable state or federal law which may specifically limit a Member's ability to limit its liability, no Member, its directors, members of its governing bodies, officers or employees shall be liable to any other Member or Members or to third parties for any loss or damage to property, loss of earnings or revenues, personal injury, or any other direct, indirect, or consequential damages or injury which may occur or result from the performance or nonperformance of these Bylaws, including any negligence, gross negligence, or willful misconduct arising hereunder. This Section 15.1 of these Bylaws applies to such liability as might arise between Members under these Bylaws. This Section 15.1 does not apply to parties to the Agreement Limiting Liability Among Western Interconnected Systems ("WIS Agreement") with respect to matters covered by the WIS Agreement and does not apply to any liability provision in any other agreement.

15.2 Indemnification.

WECC shall indemnify and hold harmless its Directors, officers, employees, agents and advisors against any and all damages, losses, fines, costs and expenses (including attorneys'

fees and disbursements), resulting from or relating to, in any way, any claim, action, proceeding or investigation, instituted or threatened, arising out of or in any way relating to any action taken or omitted to have been taken (or alleged to have been taken or omitted to have been taken) by such person in connection with actions on behalf of WECC, and against any and all damages, losses, fines, costs and expenses (including attorneys' fees and disbursements) incurred in connection with any settlement of any such claim, action, proceeding or investigation unless such action of such person is determined to constitute fraud, gross negligence, bad faith or willful misconduct with respect to the matter or matters as to which indemnity is sought.

15.3 No Third Party Beneficiaries.

Nothing in these Bylaws shall be construed to create any duty to, any standard of care with reference to or any liability to any third party.

15.4 Informal Inquiries for Information.

Nothing in these Bylaws shall preclude: 1) a Member from making an informal inquiry for information outside of the procedures outlined in Section 4.6.13 hereof to another Member and 2) that other Member from responding voluntarily to that informal inquiry, provided, however, that any such response to an informal inquiry for information shall not be binding upon that other Member and shall be used by the Member making the informal inquiry for informational purposes only.

16. Incorporation.

WECC shall organize itself as a non-profit corporation pursuant to the laws of the state of Utah regarding non-profit corporations under the name "Western Electricity Coordinating Council." All Members agree to take no actions that would contravene the ability of the WECC to maintain its status as a non-profit corporation existing pursuant to the Utah Act. The Board shall adopt these Bylaws as the Bylaws of the WECC as a non-profit corporation.

WECC is intended to qualify as an organization described in Section 501(c)(6) of the Internal Revenue Code. No part of any net earnings of the WECC shall inure to the benefit of any Member or individual. Upon liquidation, to the extent consistent with the Internal Revenue Code and Utah law, any monies remaining from assessments paid by Members for the costs of the WECC shall be rebated to Members in proportion to their payments. Any remaining assets of the WECC shall be transferred to another organization exempt from tax under Section 501(a) of the Internal Revenue Code, or government agency, promoting the same purposes as the WECC, as designated by the Board.

17. Governing Law.

Unless otherwise agreed, if any conflict of law arises under these Bylaws among the Members, the laws of the United States of America shall govern, as applicable. The venue for any legal action initiated under these Bylaws which concerns a specific request for transmission service shall be the city and state (or province) in which the headquarters of the Member providing the service is located. The venue for any other legal action initiated under these Bylaws shall be the city and state (or province) in which the headquarters of the WECC is located.

APPENDICES

- A. Board Member Standards of Conduct
- B. Officers and Employees Standards of Conduct
- C. WECC Dispute Resolution Procedures

Appendix A
Standards of Conduct for
Members of the WECC Board of Directors

By accepting appointment to the Board of Directors (the "Board") of the Western Electricity Coordinating Council (the "WECC"), a Director agrees to abide by the duties required of corporate directors and trustees. Utah law (and similar law in other states) imposes quasi-fiduciary duties of care and loyalty on all corporate directors or trustees, including directors and trustees of nonprofit corporations. For as long as he or she remains a member of the Board of Directors of the WECC, a Director will abide by the following standards of conduct.

- I. Duty of care. The Directors of a corporation are bound to use due care and to be diligent in respect to the management and administration of the affairs of the corporation. This duty of care is generally thought to have two components: the time and attention devoted to corporate affairs and the skill and judgment reflected in business decisions.
 - A. Each Director will regularly attend Board of Directors meetings, digest the materials sent to him or her, participate in Board discussions and make independent inquiries as needed.
 - B. In voting on any matter before the Board or otherwise acting in his or her capacity as a Director, each Director will:
 1. make reasonable inquiry to inform himself or herself of the nature and consequences of the matter or action at issue;
 2. exercise, at a minimum, the degree of care, skill, and diligence that an ordinarily prudent business person would exercise under similar circumstances; and
 3. act in a manner the Director, in the exercise of his or her independent judgment, believes to be in the best interests of the WECC and the membership of the WECC, taken as a whole.
 - C. In exercising the duty of care described in paragraphs IA and B above, a Director has the right to rely on statements by the persons immediately in charge of business areas of the WECC, to rely on professionals and experts (such as engineers, accountants and lawyers) and to rely on committees of the WECC, unless facts or circumstances appear which would prompt further concerns of the ordinarily prudent person.
- II. Duty of loyalty. The duty of loyalty imposes on a Director the obligation to remain loyal to the WECC, acting at all times in the best interests of WECC and its Members as a whole and unhampered by any personal pecuniary gain. This duty does not preclude a Director from being employed in a competing or related business so long as the Director acts in good faith and does not interfere with the business of the WECC.
 - A. Each Director will carry out his or her duties as a Director in good faith.

- B. Each Director will refrain from using any influence, access, or information gained through his or her service as a Director to confer any improper personal benefit (financial or otherwise) upon himself or herself, any family member, or any person living in the Director's household.
- C. Each Director will refrain from using any influence, access, or information gained through his or her service as a Director to confer an improper benefit (financial or otherwise) on any organization:
 - 1. for which the Director serves as an officer, director, employee, consultant, or in any other compensated or management position; or
 - 2. in which the Director or any family member or person living in the Director's household has a material financial interest (whether as a shareholder, partner, or otherwise).
- D. To the extent permitted by law, each Director will maintain the confidentiality of:
 - 1. any confidential or proprietary information of the WECC disclosed or available to the Director;
 - 2. any confidential or proprietary information of WECC Member(s) to which the Director has access by virtue of his or her status as Director; and
 - 3. any confidential or proprietary information of third parties that has been provided to the WECC or the Board on condition of confidentiality.
- E. **Conflicts of Interest.** Because conflicts of interest may arise from time to time, specific guidelines are provided. In general, conflicts of interest involving a Director are not inherently illegal nor are they to be regarded as a reflection on the integrity of the Board or of the Director. It is the manner in which the Director and the Board deal with a disclosed conflict that determines the propriety of the transaction.

Directors of nonprofit corporations may have interests in conflict with those of the corporation. The duty of loyalty requires that a Director be conscious of the potential for such conflicts and act with candor and care in dealing with these situations.

The following are guidelines for Directors with actual or potential conflicts of interest:

- 1. Each Director has a responsibility to recognize potential conflicts of interest and to be guided when acting as a Director by his or her independent judgment of what is in the best interests of the WECC and the membership of the WECC, taken as a whole. If any Director has questions about whether a conflict of interest exists, he or she may make inquiry to the Chief Executive Officer of the WECC for advice.

2. Potential conflicts of interest may arise because of a Director's private, individual interests (personal conflicts of interest) or because of relationships the Director may have with other organizations or interest groups (organizational conflicts of interest). Current or past employment or other compensation-based relationships with one or more WECC Members are examples of potential organizational conflicts of interest. Whether a potential conflict of interest is personal or organizational, in all cases involving WECC affairs a Director's conflicting interests are subordinate to those of the WECC and the membership of the WECC, taken as a whole.
3. Personal conflicts of interest.
 - a. Personal conflicts of interest exist if a Director, a member of the Director's family, or a person sharing the Director's household: 1) has a material financial interest in a matter or transaction that comes before the Board for action; or 2) stands to receive a benefit (in money, property, or services) from a transaction involving the WECC to which the person is not legally entitled.
 - b. In cases of personal conflicts of interest, the affected Director's obligations are to:
 - (1) disclose to the Board, before the Board acts with respect to that matter, the material facts concerning the Director's personal conflict of interest; and
 - (2) refrain from voting, and from attempting to influence the vote of any other Director(s), in those matters in which the Director has a personal conflict of interest.
4. Organizational conflicts of interest.
 - a. An organization has a "direct" conflict of interest if a decision by the Board would confer material benefits on that organization that other WECC Members would not share, or impose material detriments or costs on that organization that other WECC Members would not share. The fact that many if not all Members are affected to some extent by Board decisions on core issues such as standards, new transmission lines and their ratings, does not create or constitute a "direct" conflict of interest.
 - b. It is not a "direct" conflict of interest for a Director to be associated with an organization or an interest group that may stand to benefit from decisions made or actions taken by the Board, so long as the Director does not attempt to use his or her position as a Director to confer special benefits on associated organizations or interest groups when other WECC Members would not share in those benefits.

- c. In cases of potential “direct” organizational conflicts of interest, the affected Director’s obligations are to:
- (1) disclose to the Board, before the Board acts with respect to the matter, the material facts concerning the organizational conflict of interest; and
 - (2) refrain from voting and from attempting to influence the vote of any other Director(s) with respect to the proposed action or decision.

Appendix B
Officers and Employee
Standards of Conduct

By accepting employment with the Western Electricity Coordinating Council (the "WECC"), an Employee agrees to abide by these Standards of Conduct. For the purpose of these Standards, an Employee includes each and all officers, employees and substantially full-time consultants and contractors of the WECC.

- I. Duty of care. The Employees of the WECC are bound to use due care and to be diligent in respect to the management and administration of the affairs of the corporation. This duty of care is generally thought to have two components: the time and attention devoted to corporate affairs and the skill and judgment reflected in business decisions.

Employees shall not have any outside employment that limits in any way their ability to fulfill their employment responsibilities to WECC. If an Employee has any question about whether outside employment is consistent with this standard, they should consult with their supervisor.

- II. Duty of loyalty. The duty of loyalty imposes on an Employee the obligation to remain loyal to the WECC, acting at all times in the best interests of WECC and its Members as a whole and unhampered by any personal pecuniary gain. The WECC expects all Employees to avoid adversely affecting the public's confidence in the integrity and reputation of the WECC. Any conduct or activities of any Employee should be capable of being justified and withstanding public scrutiny.

- A. Each Employee will carry out his or her duties as an Employee in good faith, with integrity and in a manner consistent with these Standards and all applicable laws governing the WECC.
- B. Each Employee will refrain from using, or creating the appearance of using, any influence, access, or information gained through his or her service as an Employee to confer any improper personal benefit (financial or otherwise) upon himself or herself, or Family Member.¹ Employees shall not accept gifts or entertainment that would tend to affect, or give the appearance of affecting, the performance of their duties; provided, however, that Employees may accept de minimus food or entertainment or non-cash gifts received as part of a social or special occasion in amounts not to exceed \$1000 per source per year.
- C. Each Employee will refrain from using, or creating the appearance of using, any influence, access, funds or information gained through his or her service as an Employee to confer an improper benefit (financial or otherwise) on any organization. The

¹ For purposes of these Standards, a Family Member includes a spouse, domestic partner, child of the Employee, or a relative living in the same home as the Employee.

obligation to avoid the appearance of impropriety shall apply in particular to any organization:

1. for which the Employee is serving or has in the past served as an officer, director, employee, consultant, or in any other compensated or management position; or
 2. in which the Employee, or Family Member has a material financial interest known to the Employee (whether as a shareholder, partner, or otherwise).
- D. Employees shall not use their WECC position, WECC funds or WECC resources to support any political party, candidate or proposition except as expressly authorized by the Board.
- E. To the extent permitted by law, each Employee shall maintain the confidentiality of:
1. any confidential or proprietary information of the WECC disclosed or available to the Employee;
 2. any confidential or proprietary information of WECC Member(s) to which the Employee has access by virtue of his or her status as Employee; and
 3. any confidential or proprietary information of third parties that has been provided to the WECC or the Board on condition of confidentiality.
- F. Conflicts of Interest. The following conflicts of interest policy shall apply to all WECC Employees. Conflicts of interest may arise from time to time. In general, conflicts of interest involving an Employee are not inherently illegal, nor are they to be regarded as a reflection on the integrity of the WECC or of the Employee. It is the manner in which the Employee and the WECC deal with a disclosed conflict that determines the propriety of the transaction. The following are guidelines for Employees with actual or potential conflicts of interest:
1. In general, personal conflicts of interest exist if an Employee, or a Family Member, has a material financial interest in a matter or transaction that comes before WECC for action, or stands to receive a benefit (in money, property, or services) from a transaction involving WECC to which the person is not legally entitled. For purposes of determining whether stock constitutes a material financial interest, see Paragraph F(6) below.
 2. Organizational conflicts of interest exist if an Employee, or a Family Member, has a relationship with an organization or interest group that would cause a reasonable person to believe such Employee's judgment, loyalty, or objectivity might be influenced in a way that is adverse to the interests of WECC.
 3. Where there is any question about potential conflicts of interest, the Employee shall disclose to the Chief Executive Officer as soon as possible and prior to when

WECC takes action with respect to that matter, the material facts concerning the Employee's personal conflict of interest, and refrain from participating in, or from attempting to influence the action of any Directors or Employee(s) of WECC regarding those matters in which the Employee has a conflict of interest.

4. No Employee may be an employee, director of, or consultant to or provide services to or be associated in any way with any WECC Member without full disclosure to, and written consent of, the Chief Executive Officer. To the extent that an Employee becomes aware that a Family Member is or will in the future be engaged in activity described in this Paragraph F(4), the Employee shall promptly notify the Chief Executive Officer, who shall review all the material facts and determine whether they constitute a conflict of interest pursuant to Paragraphs F(1) and F(2), above.
5. No Employee shall participate in any electric energy transaction other than for ordinary personal use except to the extent necessary to, and consistent with, the functions of WECC. Participation in an energy transaction includes, but is not limited to, purchasing, selling, marketing, or brokering of electricity, ancillary services, electricity transmission or electricity distribution. To the extent that an Employee becomes aware that a Family Member is or will in the future be engaged in activity described in this Paragraph F(5), the Employee shall promptly notify the Chief Executive Officer who shall review all the material facts and determine whether they constitute a conflict of interest pursuant to Paragraphs F(1) and F(2), above.
6. All Employees shall promptly disclose to the CEO and the Chair of the Board any direct or indirect financial interest in excess of \$5,000 (including the direct or indirect ownership of securities) held by the Employee or a Family Member living with the Employee² in any Electric Line of Business entity as defined in Section 3.15 of the Bylaws doing business in the Western Interconnection. Upon such disclosure, the CEO and the Chair of the Board shall determine whether such financial interest constitutes a conflict of interest, or the appearance thereof, in light of the duties of the Employee, the ability to divest such financial interest without undue hardship and the totality of the circumstances. In response to such disclosure, the CEO and the Chair may impose such remedies as are reasonable under the circumstances and consistent with section 9.3 of the Bylaws. Such remedies may include, but are not limited to, restrictions on the Employee's duties or involvement in certain matters, transfer of the Employee to another position, broader disclosure of the financial interest, voluntary or mandatory divestiture of the interest (in whole or in part) or other remedies. Pursuant to section 9.3.2 of the Bylaws, if an Employee (not a Family Member) receives a gift or inheritance of securities

² Nothing in this section shall require an Employee to investigate the financial interests of Family Members not living with the Employee. However, to the extent known to the Employee, the financial interests of a Family Member not living with the Employee may create a potential conflict of interest (or appearance thereof) subject to Sections II(B) and/or II(F)(1) of these standards, in which case disclosure pursuant to Section II(F)(3) is appropriate.

of a Member of the WECC, or if a new Member joins the WECC in which the Employee (not a Family Member) holds securities, the Employee must resign or divest such securities within six months thereafter. For the purposes of this section, none of the following shall constitute a direct or indirect financial interest:

- a. An interest that exists through diversified mutual funds;
- b. An interest that exists for six months following receipt of a gift or inheritance of securities of a Market Participant or acceptance of employment with the WECC, whichever is later (provided that employees of the WSCC shall have two years from the WECC organizational meeting to divest securities in their possession as of that date);
- c. An interest that exists through a pre-existing participation in a qualified defined benefits pension plan or health benefits plan of a Market Participant so long as the benefits under such plan do not vary with the economic performance or value of the securities of such Market Participant.

Appendix C

WECC Dispute Resolution Procedures

C. DISPUTE RESOLUTION.

C.1 Obligation To Comply with Dispute Resolution Procedures. If any dispute concerning one or more issues identified in Section C.2 below arises between a Member and one or more other Members, or between one or more Members and WECC, all of the parties to the dispute shall, to the extent permitted by law, be obligated to comply with the dispute resolution procedures specified in these Bylaws (except to the extent all of the parties to the dispute may agree otherwise as provided in Section C.4 below). Only Members and WECC have the right to invoke the provisions of this Appendix C and, except where all affected parties have separately agreed otherwise with respect to a particular dispute, only Members and WECC are obligated to carry out the dispute resolution procedures set forth herein. Any dispute subject to the provisions of this Appendix C to which WECC is made a party shall be subject to the additional requirements specified in Section C.3 below if the dispute is initiated by a party other than WECC. To the extent permitted by law (and except as otherwise permitted by the provisions of Section C.6.3), no party to a dispute subject to the provisions of this Appendix C may pursue any other available remedy with respect to the dispute until all of the parties to the dispute have fully complied with the dispute resolution procedures specified herein, *provided, however*, that if any party to a dispute subject to the provisions of this Appendix C refuses to comply with the dispute resolution procedures specified herein, all other parties to the dispute shall subsequently be relieved of any further obligation to comply with these dispute resolution procedures before pursuing other remedies in connection with that dispute.

C.2 Issues Subject to Dispute Resolution Procedures. Any dispute between or among the parties identified in Section C.1 above (that the parties to the dispute do not resolve through negotiations between or among themselves) shall be subject to the dispute resolution procedures set forth in this Appendix C if the dispute concerns: (i) the application, implementation, interpretation, or fulfillment of any guidelines, criteria, policies, procedures, or Bylaws of WECC or the North American Electric Reliability Council (or any successor organization); or (ii) any matter specified in Section C.6.2 below; except that any matter that is subject to the jurisdiction of the WECC Compliance Hearing Body is not subject to the requirements of this Appendix C. Notwithstanding the foregoing provisions of this Section C.2, however, neither WECC nor any Member shall be obligated to comply with the dispute resolution procedures of these Bylaws if: (a) the matter in dispute falls within the scope of the dispute resolution procedures set forth in the governing agreements of the Western Regional Transmission Association, the Southwest Regional Transmission Association, or the Northwest Regional Transmission Association to the extent that such organizations continue to exist; (b) the dispute is between two or more Members (or WECC), all of which, at the time of the dispute, are parties to the WECC Reliability Management System Agreement and the matter is within the scope of the dispute resolution procedures set forth in that agreement; or (c) the dispute is between two or more Members, all of which, at the time of the dispute, are parties to a separate agreement or treaty or where an applicable tariff, rate schedule, or other legal obligation of one of the parties provides for the parties to resolve the dispute in a manner other than in accordance with the provisions of this Appendix C of the Bylaws. With regard to a transmission access matter pursuant to Sections 10.1.2, 10.1.3, 10.5 and C.6.2.3, however, members agree that their rights and obligations pursuant to

Sections 210 and 211 of the FPA shall not by themselves supersede or relieve them of their obligation, if any, to participate in the procedures set forth in this Appendix C.

C.3 Limitations on Members' Rights To Make WECC a Party to a Dispute. In addition to the other provisions of this Appendix C of the Bylaws, any dispute (other than a dispute initiated by WECC) to which WECC is made a party shall be subject to the limitations set forth in Sections C.3.1 and C.3.2 below.

C.3.1 Bases for Using Dispute Resolution Procedures To Challenge WECC Action.

Subject to any limitation set forth in these Bylaws or in applicable statute, regulation or FERC order, one or more Members may use the dispute resolution procedures specified in this Appendix C to challenge any final action of WECC only on one or more of the following bases: (i) the action is contrary to applicable law or regulation; (ii) the action is contrary to WECC's Articles of Incorporation or these Bylaws (including WECC's purposes as set forth in those documents); (iii) the action was taken in violation of applicable procedures of WECC governing that action; or (iv) the action encompasses a decision in which there was plain error material to the decision. For purposes of this Appendix C, action taken by WECC shall be deemed final if: (a) the action has been taken or adopted or approved or accepted by WECC's Board of Directors (other than by a motion specifically providing that the action is conditional or will have temporary application not to exceed six months); (b) all conditions specified to make any conditional action of WECC's Board of Directors effective have been fulfilled; or (c) the action has been taken or adopted or approved or accepted by a committee, subcommittee, task force, or other group or person acting under authority of WECC without any provision making the action

subject to further approval or adoption or acceptance by the Board of Directors. Nothing contained in this Appendix C shall limit any rights any Member (or any other party) may have under applicable law or regulation to initiate or participate in an administrative or legal action to which WECC is made a party in accordance with applicable provisions of law or regulation.

C.3.2 Obligation to Bear WECC's Share of Facilitator Costs. If one or more Members initiate a dispute under this Appendix C to challenge an action of WECC, the Member(s) initiating the challenge shall be obligated to bear all of the costs of facilitators' services incurred to comply with the requirement of Section C.5 below, except to the extent WECC agrees to pay a share of the costs of facilitators' services.

C.4 Ability to Modify Dispute Resolution Procedures by Agreement. Any provision of the dispute resolution procedures set forth in this Appendix C may be modified, waived, or omitted by agreement of all of the parties to the dispute. Parties to a dispute subject to these provisions are obligated to comply with its procedures unless all of the parties to the dispute agree to do otherwise. The manner in which the dispute resolution procedures set forth in this Appendix C may be varied include (by way of example and not as limitation): the manner of selecting a facilitator or arbitrator; the procedures or time lines to be followed during mediation or arbitration; the grounds or forum or right to appeal an arbitrator's decision; the manner of allocating fees and costs associated with the dispute; whether the parties are obligated to proceed to arbitration if the dispute is not resolved through mediation; and whether a decision rendered through arbitration is binding on the parties. In addition, any dispute that does not fall within the scope specified in Section C.2 above may

be resolved according to the procedures set forth in Appendix C of these Bylaws if all of the parties to the dispute agree to do so.

C.5 Mediation.

C.5.1 Notice to Other Parties and WECC's Chief Executive Officer. To initiate the dispute resolution process with respect to a dispute governed by the provisions of this Appendix C, the Member or WECC that has elected to initiate the dispute shall deliver to all other parties to the dispute and to WECC's Chief Executive Officer (whether or not WECC is a party to the dispute) written notice invoking the dispute resolution procedures set forth in this Appendix C (a "Dispute Notice").

C.5.1.1 The Dispute Notice shall: (i) include a brief, general description of the matter(s) in dispute; (ii) include a complete list of all other Members the party submitting the Dispute Notice intends to make a party to the dispute; and (iii) state whether or not WECC is to be made a party to the dispute.

C.5.1.2 Within five business days of receiving a Dispute Notice, any party to the dispute may elect to deliver a brief supplemental description of the dispute to WECC's Chief Executive Officer.

C.5.1.3 Within 10 business days of receiving an initial Dispute Notice, WECC's Chief Executive Officer shall: (a) publish (or cause to be published) in WECC's newsletter or on its electronic bulletin board a notice containing a list of the parties to the dispute and a summary of the descriptions of the matter(s) in dispute provided by the parties to the dispute; and (b) deliver to each party to the dispute a copy of WECC's then-current standing list of

qualified facilitators, knowledgeable in the matters addressed by WECC (as approved by the Board of Directors).

C.5.1.4 No person may be listed on WECC's standing list of qualified facilitators unless the person has agreed to: (i) disclose, at any time the person is selected to serve as a facilitator under this Appendix C, any personal or financial interest the facilitator may have with respect to the matter(s) in dispute (including any indirect personal or financial interest that could arise because of interests or relationships affecting any of the facilitator's immediate family members); (ii) disclose any relationship the facilitator may have with any party to the dispute that is not permitted under Section C.5.2 below; and (iii) abide by all applicable provisions of these Bylaws, including restrictions on disclosure of matters discussed and information exchanged during mediation as provided in Section C.5.3 below.

C.5.2 Selection of a Facilitator. Within 10 calendar days after the delivery of a Dispute Notice, the parties to the dispute shall select a neutral facilitator by mutual agreement. If the parties to the dispute cannot agree on a facilitator within 10 calendar days after delivery of a Dispute Notice, the facilitator shall be selected from WECC's standing list of qualified facilitators as follows: The parties to the dispute shall take turns striking names from WECC's standing list of qualified facilitators until there is only one name remaining. (The parties to the dispute shall draw lots to determine the order in which they take turns striking names.) The last person whose name remains on the list shall serve as the facilitator. No facilitator other than a facilitator chosen by agreement of all the parties to the dispute may (i) have a

personal or financial interest in the matter(s) in dispute (including any indirect personal or financial interest that could arise because of interests or relationships affecting any of the facilitator's immediate family members); or (ii) be (or have an immediate family member who is) a past or present director, commissioner, officer, employee, consultant, agent, or other representative of any of the parties to the dispute. If the facilitator selected through the process of striking names specified above is disqualified under the preceding sentence, the facilitator whose name was stricken last shall serve in his or her place. In addition, if WECC is a party to a dispute initiated by one or more Members, turns striking names from the standing list of qualified facilitators shall alternate between WECC on the one hand and all other parties to the dispute on the other.

C.5.3 Mediation Process. The facilitator and representatives of all of the parties to the dispute shall meet within 14 calendar days after the facilitator has been selected and attempt in good faith to negotiate a resolution to the dispute. Each party's representative designated to participate in the mediation process must have the authority to settle the dispute (or, at a minimum, be authorized to negotiate on behalf of the party and make recommendations with respect to settlement of the dispute if final authority to approve a settlement is reserved to a party's board, executive committee, commission, or other governing body). At the parties' initial meeting with the facilitator, the facilitator shall, after soliciting input from the parties to the dispute, set the schedule for further meetings among the parties to the dispute (subject to the 60-day maximum mediation period specified in Section C.5.6 below). The parties to the dispute shall comply with the schedule set by the facilitator and attempt in good faith at every meeting to negotiate a resolution to the dispute. To the

extent permitted by law, neither the facilitator nor any party to the dispute may publicly disclose, rely on, or introduce as evidence in any subsequent arbitration, FERC proceeding, Canadian Regulatory Authority proceeding, proceeding before a Mexican Regulatory Authority, appeal, or litigation concerning the same or any related dispute: (i) any views expressed or suggestions made by another party to the dispute with respect to a possible settlement of the dispute; (ii) admissions made by another party to the dispute in the course of the mediation proceedings; (iii) proposals made or views expressed by the facilitator; or (iv) the fact that another party to the dispute has or has not indicated willingness to accept a proposal for settlement made by the facilitator. In those cases in which a party to a dispute subject to the provisions of this Appendix C of the Bylaws is a membership organization (including WECC, if applicable), nothing in the preceding sentence shall prohibit that organization from reasonably communicating with its members and governing body to share general information about the dispute, such as the parties, status, disputed issues, and positions of each of the parties with respect to the disputed issues.

C.5.4 Referral for Resolution. With the consent of all parties to the dispute, a resolution may include referring the matter to a technical body (such as a technical advisory panel of WECC) for resolution or an advisory opinion, to arbitration, directly to FERC or, in a dispute involving a Canadian Member, directly to the appropriate Canadian Regulatory Authority, or, in a dispute involving a Mexican Member, directly to the appropriate Mexican Regulatory Authority.

C.5.5 Mediation Participation by WECC Staff When WECC Not a Party. If, during the course of mediation to which WECC is not a party, the facilitator or any party to the dispute wishes to solicit the views of WECC concerning the application,

implementation, interpretation, or fulfillment of any guidelines, criteria, standards, policies, or procedures of WECC, the facilitator may request or permit the submission of WECC staff views only if: (i) any participation by WECC staff takes place exclusively in the presence of all parties to the dispute; (ii) participating WECC staff members agree to be equally available upon request to all parties to the dispute; and (iii) participating WECC staff members agree to comply with the restrictions on disclosure contained in Section C.5.3.

C.5.6 Mediation Deemed at Impasse After 60 Days. If the parties to the dispute have met and negotiated in good faith in accordance with the schedule set by the facilitator but have not succeeded in negotiating a resolution of the dispute within 60 calendar days after the first meeting with the facilitator pursuant to Section C.5.3 above, the parties to the dispute shall be deemed to be at impasse and, except as otherwise provided in Section C.5.6.2 below, shall also be deemed to have fulfilled their obligations under Section C.1 of these Bylaws to fully comply with the dispute resolution provisions before pursuing any other available remedy. If any party participating in the mediation process is subject to a contractual or statutory limitations period with respect to the matter in dispute, and the limitations period will expire before the 60-day period for mediation under this Section C.5.6 is completed, then the parties shall be deemed at impasse on the seventh calendar day preceding the expiration of the shortest applicable limitations period.

C.5.6.1 Disputes Not Subject to Provisions of Section C.6.2. Unless the matter in dispute is subject to the provisions of Section C.6.2 below, at any time after the parties to the dispute are deemed at impasse, the dispute may be submitted to binding arbitration in accordance with the procedures set forth in Section C.7 of these Bylaws (but only by agreement of all of the parties to the dispute). If the matter in dispute is subject to the provisions of

Section C.6.2 below, the parties' obligations with respect to submitting the matter to binding arbitration under Sections C.6 and C.7 of these Bylaws shall be as specified in Section C.5.6.2 below. In all other cases, if the parties to the dispute do not agree to submit the dispute to binding arbitration in accordance with the procedures set forth in Section C.7 of these Bylaws, any party to the dispute may at any time thereafter pursue any other remedy available under regulation, law, or equity (subject to the restrictions on disclosure set forth in Section C.5.3 above).

C.5.6.2 Disputes Covered by Section C.6.2. If the parties to a dispute concerning a matter subject to the provisions of Section C.6.2 either: (i) are deemed at impasse after attempting to resolve the matter through mediation as provided in Sections C.5.1 through C.5.6 above; or (ii) have agreed to submit the matter directly to binding arbitration without attempting to resolve the matter through mediation as provided in Sections C.5.1 through C.5.6 above, the parties to the dispute shall submit the matter to binding arbitration in accordance with the procedures set forth in Sections C.6 and C.7 of these Bylaws.

C.5.7 Costs of Facilitator's Services. Except as otherwise provided under Section C.3.2, the costs of the facilitator's services shall be born equally by all parties to the dispute unless the parties to the dispute agree otherwise, but the parties also intend that the costs of mediation should be taken into account in any resolution proposed through the mediation process.

C.5.8 Notice to WECC of Completion of Mediation. Within 10 calendar days after either: (i) reaching a negotiated resolution through the mediation process set forth in Section C.5; or (ii) reaching deemed impasse in accordance with Section C.5.6 above, the parties to the dispute shall jointly deliver to WECC's Chief Executive Officer a written notice briefly describing the outcome of the mediation process. Promptly

after receiving written notice describing the outcome of a mediation conducted in accordance with Section C.5, WECC's Chief Executive Officer shall publish (or cause to be published) in WECC's newsletter or on its electronic bulletin board a brief description of the outcome of the mediation, together with a list of all of the parties to the dispute.

C.6 General Provisions Relating to Binding Arbitration.

C.6.1 Matters for Which Binding Arbitration is Elective. Except with respect to any dispute that concerns one or more matters specified in Section C.6.2 below, the binding arbitration procedures set forth in Section C.7 may be invoked only by agreement of all of the parties to the dispute to be arbitrated and are solely for the convenience of WECC and its Members. If a dispute governed by this Appendix C does not concern a matter specified in Section C.6.2 below, a party to the dispute shall be deemed to have fulfilled its obligations to comply with Appendix C of these Bylaws (irrespective of whether the parties to the dispute agree to proceed with binding arbitration) to the extent that either: (i) that party has fully performed the obligations set forth in Sections C.1 through C.5.8; or (ii) all of the parties to the dispute have agreed to a different process for resolving the dispute and the agreed-upon process has been fully carried out.

C.6.2 Matters for Which Binding Arbitration Is Obligatory. If a dispute is governed by Appendix C of these Bylaws and is not resolved through the process of mediation in accordance with Sections C.5.1 through C.5.6 above, the parties shall be obligated to submit the matter to binding arbitration in accordance with the procedures set forth in Section C.7 (subject to the limitations on the arbitrator's authority set forth in Section C.6.3 below) if the dispute concerns one or more of the following matters:

- C.6.2.1 a decision of WECC's Board of Directors or a Committee of the Board acting on the recommendation of, or on a matter within the jurisdiction of, the Operating Transfer Capability Policy Group ("OTCPG") or successor;
- C.6.2.2 a transmission path rating, or a modification to a transmission path rating, assigned to one or more transmission paths operated by a Member (or jointly operated by more than one Member);
- C.6.2.3 transmission access, pursuant to Sections 10.1.2, 10.1.3, and 10.5; or
- C.6.2.4 any matter that, by vote of both WECC's Board of Directors and WECC's Membership, is designated as a matter to be subject to the provisions of Section C.6.2 of these Bylaws, provided that any matter submitted to WECC's Membership pursuant to this provision must be approved by at least the number of votes required to amend these Bylaws under Section 13.2.

C.6.3 Limitations on Arbitrator's Authority with Respect to Matters Specified in Section C.6.2. Unless all of the parties to a dispute agree otherwise, an arbitrator rendering a decision with respect to any matter specified in Section C.6.2 above shall have no authority to consider or award remedies for past economic harm or damages of any kind, including without limitation actual or direct damages; indirect, consequential, or incidental damages; or exemplary or punitive damages. Nothing in this Section C.6.3 shall: (i) limit any rights that a party to a dispute concerning a matter specified in Section C.6.2 above may have to pursue legal claims for damages or other economic remedies after the arbitrator has rendered his or her decision on that matter (within the scope of his or her authority under this Section C.6.3); or (ii) limit an

arbitrator's authority under Section C.8 below to shift costs or impose monetary sanctions for "good cause" (as that term is defined in Section C.8).

C.6.4 Arbitration Decisions Not To Modify Underlying Rights and Obligations. Unless all of the parties to a dispute agree otherwise, the resolution through binding arbitration of any dispute governed by this Appendix C shall not have the effect of increasing, decreasing, or otherwise modifying WECC's or any Member's obligation to abide by, or ability to enforce or impose penalties or sanctions with respect to, any guidelines, criteria, standards, policies, procedures, decisions, or Bylaws of WECC or any limitation on the foregoing, whether established by law; regulation; judicial, executive, or administrative order, decree, or decision; tariff; contract; course of performance; treaty; or otherwise.

C.6.5 Laws Relating to Binding Arbitration. WECC and its Members recognize that some Members may be subject to laws (including without limitation United States federal or state laws, Canadian or provincial laws, or Mexican laws) that limit or define those Members' ability to agree in advance to be subject to binding arbitration. If a Member has the right or obligation under applicable law to refuse to submit to binding arbitration in connection with any dispute that would otherwise be subject to binding arbitration under Section C.6.2 of these Bylaws, that Member shall not be obligated to comply with the binding arbitration procedures set forth in Sections C.6 and C.7. Any Member subject to any law or other legally binding authority that may limit (or permit the Member to limit) its obligation to comply with the provisions requiring binding arbitration under Sections C.6 and C.7 or to fully comply with a valid arbitrator's decision rendered in accordance with this Appendix C shall provide

notice to this effect to all other disputing parties and WECC's Chief Executive Officer upon initiation of any dispute involving that Member if the dispute is subject to Section C.6.2. Upon receiving a notice under Section C.6.5, any other party to the dispute shall thereafter be relieved of any obligation to comply with the provisions Sections C.6 and C.7 in connection with that dispute, except to the extent that the Member giving notice agrees to be fully bound by procedures governing and results of any arbitration proceeding. If there are more than two parties to a dispute covered by the preceding sentence, however, then all parties to the dispute other than the party giving notice under Section C.6.5 shall make good faith efforts to establish a mutually acceptable approach for resolving among themselves whatever aspects of the dispute can reasonably be resolved through the procedures set forth in this Appendix C without the participation of the party giving notice under Section C.6.5. If any Member fails to submit to binding arbitration, or fails to abide by a valid arbitrator's decision rendered in accordance with this Appendix C, that Member shall thereafter have no right to enforce any of the provisions of Section C.6.2 (concerning obligations to submit specified disputes to binding arbitration) against any other Member or WECC until such time as the WECC Board of Directors, or a delegate designated by the Board, determines that it is appropriate to restore the Member's ability to enforce the provisions of Section C.6.2.

C.6.6 Consistency with Laws, Regulatory Jurisdiction and Orders, Etc. Nothing contained in this Appendix C and no arbitrator's decision rendered in accordance with Section C.7 shall be construed to require or shall otherwise operate to cause any Member or WECC to incur any obligation or take any action that is contrary to: (i) any

applicable law or regulation; (ii) any applicable authority, order, decree, rule, or decision of a regulatory, judicial, administrative, executive, or other governmental body having jurisdiction over one or more of the matters or parties subject to this Appendix C or covered by an arbitrator's decision; or (iii) any applicable rate schedule, tariff, treaty, or valid, pre-existing contractual obligation with which any party subject to this Appendix C or covered by an arbitrator's decision is legally obligated to comply.

C.7 Arbitration Procedures.

C.7.1 Notice to WECC of Initiation of Binding Arbitration. Within 10 calendar days after all of the parties to a dispute have agreed (or become obligated under Section C.6.2 above) to submit the dispute to binding arbitration under Sections C.6 and C.7, the parties to the dispute shall deliver written notice to WECC's Chief Executive Officer (an "Arbitration Notice").

C.7.1.1 The Arbitration Notice shall: (i) include a brief, general description of the issues to be arbitrated; and (ii) identify all parties who have agreed (or become obligated) to submit the dispute to binding arbitration under Sections C.6 and C.7.

C.7.1.2 Within five business days of receiving an Arbitration Notice, WECC's Chief Executive Officer shall: (a) publish (or cause to be published) in WECC's newsletter or on its electronic bulletin board a notice containing a list of the parties to the arbitration and the parties' brief, general description of the issues to be arbitrated; and (b) deliver to each party to the dispute a copy of

WECC's then-current standing list of qualified arbitrators, knowledgeable in matters addressed by WECC (as approved by the Board of Directors).

C.7.1.3 No person may be listed on WECC's standing list of qualified arbitrators unless the person has agreed to: (a) disclose, at any time the person is selected to serve as a arbitrator under this Appendix C, any personal or financial interest the arbitrator may have with respect to the matter(s) in dispute (including any indirect personal or financial interest that could arise because of interests or relationships affecting any of the arbitrator's immediate family members); (b) disclose any relationship the arbitrator may have with any party to the dispute that is not permitted under Section C.7.2 below; (c) assemble a complete record of the arbitration process and the materials received as evidence by the arbitrator if any of the parties to the dispute elect to appeal or contest the arbitrator's decision; and (d) abide by all applicable provisions of and procedures specified by Sections C.6 and C.7.

C.7.2 Selection of an Arbitrator. Within 10 calendar days after all of the parties to a dispute have agreed (or become obligated) to submit the dispute to binding arbitration under Sections C.6 and C.7, the parties to the dispute shall select an arbitrator by mutual agreement. If the parties cannot agree on an arbitrator within 10 calendar days after agreeing to arbitrate their dispute, the arbitrator shall be selected from WECC's standing list of qualified arbitrators as follows: The parties to the dispute shall take turns striking names from WECC's standing list of qualified arbitrators until there is only one name remaining. (The parties to the dispute shall draw lots to determine the order in which they take turns striking names.) The last

person whose name remains on the list shall serve as the arbitrator. No arbitrator other than an arbitrator chosen by agreement of all the parties to the dispute may (i) have a personal or financial interest in the matter(s) in dispute (including any indirect personal or financial interest that could arise because of interests or relationships affecting any of the arbitrator's immediate family members); or (ii) be (or have an immediate family member who is) a past or present director, commissioner, officer, employee, consultant, agent, or other representative of any of the parties to the dispute. If the arbitrator selected through the process of striking names specified above is disqualified under the preceding sentence, the arbitrator whose name was stricken last shall serve in his or her place.

C.7.3 Initial Statements and Proposed Arbitration Decisions. Within 10 calendar days after the selection of an arbitrator under Section C.7.2 above, each party to the dispute shall submit a statement in writing to all other parties to the dispute and to the arbitrator. Each disputing party's statement shall set forth in reasonable detail the nature of the dispute, the issues to be arbitrated, and the party's reasonable, good faith proposal for resolving the dispute. As provided in Section C.5.3 above, to the extent permitted by law, no party to an arbitration conducted under Sections C.6 and C.7 shall publicly disclose, rely on, or introduce as evidence in any arbitration, FERC proceeding, Canadian Regulatory Authority proceeding, proceeding before a Mexican Regulatory Authority, appeal, or litigation concerning the same or any related dispute any information required to be kept confidential by the terms of Section C.5.3.

C.7.4 Procedural Matters. The arbitrator shall determine discovery procedures, how evidence shall be taken, what written submittals may be made, and other such procedural matters, taking into account the complexity of the issues involved, the extent to which factual matters are disputed and the extent to which the credibility of witnesses is relevant to a resolution. Each party to the dispute shall produce all evidence determined by the arbitrator to be relevant and material to the issues presented. If such evidence involves proprietary or confidential information, the party submitting the evidence shall petition the arbitrator for a protective order, and to the extent the arbitrator determines there is good cause the arbitrator shall issue an appropriate protective order and all parties to the dispute shall comply with the protective order. The arbitrator may elect to resolve the arbitration matter solely on the basis of written evidence and arguments.

C.7.5 Out-of-Court Sworn Testimony. At the request of any disputing party, the arbitrator shall have the discretion to allow that party to examine witnesses through sworn out-of-court testimony (referred to in the United States as “deposition” and in Canada as “discovery”) to the extent the arbitrator deems the evidence sought to be relevant and appropriate. In general, out-of-court witness examinations shall be limited to a maximum of three per party and shall be held within 30 calendar days after the making of a request. Each witness examination shall be limited to a maximum of three hours’ duration. The arbitrator shall have the discretion to permit the number and duration of examination sessions allowed under this Section C.7.5 to be increased, and to extend the 30-day time limit, upon request for good cause shown.

All objections are reserved for the arbitration hearing except for objections based on privilege and proprietary or confidential information.

C.7.6 Intervention by Other Parties. Unless all of the parties to the dispute agree otherwise, no one (whether a Member, WECC, or any other entity or person) that is not a party to a dispute at the initiation of arbitration under Sections C.6 and C.7 shall have the right to intervene in the arbitration. Any party wishing to intervene in an arbitration under Sections C.6 and C.7 may petition the arbitrator for permission to intervene, provided that the petition is submitted to the arbitrator not more than 30 calendar days after notice of the arbitration is posted by WECC's Chief Executive Officer in accordance with Section C.7.1. The arbitrator shall have the discretion to permit a party to intervene if the arbitrator determines that the party petitioning to intervene has a direct and substantial interest in the outcome of the arbitration. In exercising his or her discretion concerning a requested intervention, the arbitrator shall also consider any additional complexity or delay that may be caused by allowing the intervention and also any other remedies available to the party requesting intervention. Any party that is granted the privilege of intervening in an arbitration under Sections C.6 and C.7 shall be permitted to intervene subject to the same terms, conditions, limitations, rights, and obligations of all other parties to the dispute, including without limitation the binding effect of arbitrator's decision, limitations on rights of appeal, the obligation to share equally in the costs of the arbitrator, and the obligation to be subject to the provisions of Section C.8.

C.7.7 Consideration of WECC Criteria, Etc. The Arbitrator shall give due consideration to the reliability criteria, standards, guidelines, policies, and procedures of WECC and

the North American Electric Reliability Council (or any successor organization) to the extent they are relevant to resolution of the matter(s) in dispute. If the arbitrator's decision will include interpretation of any of WECC's reliability criteria, standards, guidelines, policies, and procedures, (and WECC is not a party to the arbitration), the arbitrator shall, before rendering his or her decision, consult with WECC (subject to the provisions of Section C.7.10 below) concerning the interpretation of WECC's applicable reliability criteria, standards, guidelines, policies, and procedures.

C.7.8 Evidence and Rebuttal. The arbitrator shall consider all issues material to the matter(s) in dispute. The arbitrator shall take evidence submitted by the parties to the dispute in accordance with procedures established by the arbitrator and may request additional information the arbitrator deems material to the resolution of the dispute. With the consent of all parties to the dispute, the arbitrator's request for additional information may include the opinion of any individual or organization with recognized expertise in the matter(s) in dispute, subject to the following conditions: (i) any verbal communication with an expert consulted by the arbitrator must take place exclusively in the presence of all parties to the dispute and copies of any written communications must be provided to all parties to the dispute; (ii) any expert consulted by the arbitrator must agree to be equally available upon request to all of the parties to the dispute; (iii) any expert consulted by the arbitrator must agree to comply with the restrictions on disclosure contained in Section C.5.3; and (iv) all parties to the dispute shall be afforded a reasonable opportunity to question the expert and to rebut any additional information submitted by the expert at the request of the arbitrator.

C.7.9 Arbitrator's Decision. The arbitrator shall make all reasonable efforts to complete hearings (if applicable) and submissions of written evidence not more than 90 calendar days after receiving initial statements submitted under Section C.7.3 above. As soon as practicable, but in no event more than 30 calendar days after the completion of hearings and evidence submittals, the arbitrator shall render his or her final decision for resolving the dispute. By agreement of all of the parties to the dispute or at the discretion of the arbitrator for good cause, the foregoing deadline for delivery of the arbitrator's decision may be extended. The arbitrator's decision shall be based on the arbitrator's good faith determination of a resolution that will: (i) be consistent with any laws, rules, and regulations applicable to the matter(s) in dispute; (ii) be consistent with any valid pre-existing agreements among the parties to the dispute that bear on the matter(s) in dispute; (iii) not require any party to the dispute to take action that is not in compliance with any of WECC's reliability criteria, standards, guidelines, policies, and procedures; and (iv) best serve to promote or maintain reliable operation of the interconnected bulk power systems of the Western Interconnection, without imposing inequitable burdens or benefits on any of the parties to the dispute or others that may be affected by implementation of the arbitrator's decision. The arbitrator shall deliver to each of the parties to the dispute, along with his or her decision, a written statement including specific findings of fact, conclusions of law (if applicable), and an explanation of the arbitrator's basis for rendering his or her decision. Subject to any protective order that may have been issued under Section C.7.4 above, WECC's Chief Executive Officer shall publish (or cause to be published) in WECC's newsletter or electronic bulletin board a brief

summary of the arbitrator's decision. An arbitrator's decision that is not appealed shall not be deemed to be precedential in any other arbitration related to a different dispute.

C.7.10 WECC Staff Participation in Arbitration When WECC Not a Party. If, during the course of binding arbitration conducted under Sections C.6 and C.7 (in which WECC is not a party) the arbitrator or any party to the dispute wishes to solicit the views of WECC staff concerning the application, implementation, interpretation, or fulfillment of any guidelines, criteria, standards, policies, or procedures of WECC, the arbitrator may request or permit the submission of WECC staff views only with the consent of all of the parties to the dispute and only if: (i) any participation by WECC staff takes place exclusively in the presence of all parties to the dispute; (ii) participating WECC staff members agree to be equally available upon request to all parties to the dispute; and (iii) participating WECC staff members agree to comply with the restrictions on disclosure contained in Section C.5.3.

C.7.11 Compliance and Costs. Unless one or more of the parties to the dispute initiates and notifies all other parties to the dispute that it has initiated a process to contest or appeal the arbitrator's decision under Sections C.9 through C.13, upon the decision by the arbitrator, the parties to the dispute shall, within the time frame specified by the arbitrator, and, subject to Section C.6.6 above, take whatever action is required to comply with the arbitrator's decision to the extent the arbitrator's decision does not require regulatory action. To the extent the arbitrator's decision affects jurisdictional rates, terms and conditions of service, or facilities or otherwise requires local, state, federal, or provincial approval or regulatory action, or a FERC filing or a Canadian

Regulatory Authority filing by a Canadian Member or a Mexican Regulatory Authority filing by a Mexican Member, the affected Member (or WECC, if WECC is the party with the obligation to seek regulatory action) shall, within the time frame specified by the arbitrator, submit the arbitrator's decision or an appropriate filing to implement the arbitrator's decision and support the appropriate authority's acceptance or approval of the arbitrator's decision or implementation filing, except in cases where any party to the dispute has given notice of its intent to contest or appeal the arbitrator's decision. All costs associated with the arbitration (not including costs associated with attorney and expert witness fees incurred by the parties to the dispute) shall be divided equally among the parties to the dispute unless: (i) all of the parties to the dispute agree to an alternate method of allocating costs; or (ii) in rendering his or her decision, the arbitrator exercises his or her discretion under Section C.8 below to assess fees, costs, or other monetary sanctions against one or more of the parties to the dispute for good cause.

C.7.12 Entry of Judgment. At any time after an arbitrator has rendered his or her decision in an arbitration conducted under Sections C.6 and C.7 (provided that the time provided for initiating an appeal under Sections C.11.1 and C.12 below has expired and no appeal or other means of contesting the arbitrator's decision has been initiated), judgment on the decision rendered by the arbitrator may be entered by any court of competent jurisdiction (subject to the provisions of Sections C.6.3, C.6.4, and C.6.6 above). If the award is against the United States, a party to the arbitration may apply to the United States District Court for the district in which the principal office of the

applicable United States department or agency is located for an order confirming the award pursuant to 5 U.S.C. § 580.

C.8 Arbitrator's Discretion to Shift Costs or Impose Sanctions for Cause. Each party to any dispute submitted to arbitration under Sections C.6 and C.7 shall bear its own costs and fees associated with representation and participation in the arbitration process, and shall share equally in the arbitrator's fees except that the arbitrator shall have the discretion, to the extent permitted by law, to require one or more of the parties to the dispute to pay part or all of the costs and fees (including without limitation attorneys' and arbitrator's fees) of one or more other parties to the dispute, or to impose monetary sanctions on some other basis that is reasonable under the circumstances, for good cause. As used in this Section C.8, "good cause" means conduct involving serious abuse of or failure to comply with the dispute resolution process set forth in this Appendix C, willfully undertaken to harass or delay other parties to the dispute or to substantially impede the arbitrator's ability to render a decision consistent with the provisions set forth in Section C.7.9.

C.9 Rights to Appeal Arbitration Decisions. Except to the extent otherwise provided by applicable United States state or federal law, applicable Canadian or provincial law, or applicable Mexican law, a party to a dispute resolved by arbitration under Sections C.6 and C.7 may appeal or contest the arbitrator's decision only on one or more of the bases specified in Section C.9.1 below and only in accordance with the procedures set forth in Sections C.9.2 through C.13.

C.9.1 Grounds for Appealing Arbitration Decisions. A party to a dispute resolved by arbitration under Sections C.6 and C.7 may contest or appeal the arbitrator's decision only on the basis that: (i) the arbitrator's decision is contrary to applicable law or

regulation (including without limitation the FPA or FERC's then-applicable standards or policies, or comparable types of provisions that may apply under applicable Canadian, provincial, Mexican, or other laws and regulations); (ii) the arbitrator's decision is demonstrably arbitrary and capricious and without support in the record assembled during the arbitration; (iii) the arbitrator failed to afford one or more parties to the dispute an opportunity for a fair and meaningful hearing; (iv) the arbitrator engaged in serious misconduct in connection with the arbitration; (v) the arbitrator exceeded the authority conferred upon him or her under this Appendix C or as otherwise established by agreement of all the parties to the dispute; or (vi) the arbitrator's decision is contrary to the provisions of Section C.6.6.

C.9.2 Matter and One or More Parties to Dispute Subject to FERC Jurisdiction. If (i) the subject matter of a dispute arbitrated under Sections C.6 and C.7 is within the jurisdiction of FERC, and (ii) the conditions specified in Section C.12.1 or C.12.2 are satisfied, the rights of the parties to contest or appeal the arbitrator's decision shall be as set forth in Sections C.10 and C.12 below (subject also to the provisions of Section C.9.1 above). Notwithstanding the foregoing, nothing herein shall be construed or operate to require any Canadian or Mexican party or any other party that is not a "public utility" within the meaning of the FPA to make any filing with FERC under Sections 205 or 206 of the FPA.

C.9.3 All Parties and Matters in Dispute Subject to Jurisdiction of a Canadian Regulatory Authority. If all of the parties to an arbitrated dispute are subject to the jurisdiction of a particular Canadian Regulatory Authority, and if all matters in dispute are also subject to the jurisdiction of the same Canadian Regulatory Authority, any disputing

party may appeal an arbitrator's decision to that Canadian Regulatory Authority, where such Canadian Regulatory Authority has jurisdiction to hear the appeal, or to the appropriate Canadian court. Any appeal to a Canadian Regulatory Authority or Canadian court shall be subject to the provisions set forth in Sections C.10 and C.11 below.

C.9.4 All Parties and the Matter in Dispute Subject to Jurisdiction of a Mexican Regulatory Authority. If all of the parties to an arbitrated dispute are subject to the jurisdiction of a particular Mexican Regulatory Authority, and if all matters in dispute are also subject to the jurisdiction of the same Mexican Regulatory Authority, any disputing party may appeal an arbitrator's decision to the appropriate Mexican Regulatory Authority, subject to the provisions set forth in Sections C.10 and C.11 below.

C.9.5 Appeal to Court. If none of the preceding provisions concerning appealing or contesting an arbitrator's decision before FERC, a Canadian Regulatory Authority, or a Mexican Regulatory Authority apply to an arbitrated dispute, any party to an arbitrator's decision rendered in accordance with the provisions of Sections C.6 and C.7 may appeal the arbitrator's decision to a court of competent jurisdiction as provided under Section C.13 below.

C.10 Appealing or Contesting Arbitrator's Decision to FERC or a Presiding Authority. Subject to the conditions specified in Sections C.9.1 through C.9.5 above, any disputing party may appeal or contest an arbitrator's decision to FERC or an appropriate Presiding Authority as follows:

C.10.1 Record on Appeal. Except as otherwise provided in Section C.10.3 below, any appeal or action to contest an arbitrator's decision to FERC or a Presiding Authority

shall be based solely upon the record assembled by the arbitrator. All parties to arbitrations conducted under Sections C.6 and C.7 intend that: (i) the FERC or other Presiding Authority should afford substantial deference to the factual findings of the arbitrator; (ii) the portion, if any, of the arbitrator's decision relating to issues not of first impression (i.e., matters previously decided by the FERC or other Presiding Authority or a court of competent jurisdiction in cases involving comparable facts and circumstances) should be afforded appropriate deference by the FERC or other Presiding Authority; and (iii) the portion, if any, of the arbitrator's decision relating to issues of first impression should be afforded no deference by the FERC or other Presiding Authority.

C.10.2 No Expansion of Record on Appeal. Except as otherwise provided in Section C.10.3 below, no Member, non-Member, or WECC that has been a party to an arbitration under Sections C.6 and C.7 shall seek to expand the factual record before FERC or a Presiding Authority beyond that assembled by the arbitrator.

C.10.3 Exceptions to Limitations on Record on Appeal. If the arbitrator fails to assemble a complete record of the evidence submitted with respect to an arbitrated decision that is appealed pursuant to Sections C.9 through C.13, the parties to the appeal shall, notwithstanding the provisions of Sections C.10.1 and C.10.2 above, have the right to supplement the arbitrator's record before FERC or the Presiding Authority with any materials received into evidence by the arbitrator but omitted from the record assembled by the arbitrator. If an arbitrator's decision is appealed under Section C.9.1(iii) or (iv) above on the grounds that the arbitrator improperly excluded evidence so as to materially prejudice the outcome of the arbitration with respect to

one or more of the parties to the dispute, any party to the appeal may submit the evidence asserted to be improperly excluded, but only as a basis to request that FERC or the Presiding Authority vacate the arbitrator's decision and remand the matter to the arbitrator (or, if FERC or the Presiding Authority determines that the arbitrator engaged in serious misconduct, to a newly selected arbitrator) for reconsideration of the matter with inclusion of the improperly excluded evidence. If an arbitrator's decision is appealed under Section C.9.1(iv) above on the grounds of serious misconduct by the arbitrator, any party to the appeal may offer new evidence relating to the arbitrator's alleged misconduct.

C.11 Procedures for Appeals to Presiding Authority. If any party to an arbitration under Sections C.6 and C.7 desires to appeal an arbitrator's decision to an appropriate Presiding Authority, it shall provide written notice to that effect to all other parties to the arbitration, the arbitrator, and WECC's Chief Executive Officer within 14 calendar days following the date of the arbitrator's decision. If notice of appeal is timely provided:

C.11.1 Within 30 calendar days after the date of the appealing party's first notice of appeal, the party providing notice of appeal shall file its statement of position regarding the appeal with the Presiding Authority, together with the complete evidentiary record of the arbitration and a copy of the arbitrator's decision. The statement of position shall state that the appeal requested has been the subject of an arbitration pursuant to this Agreement.

C.11.2 Within 30 calendar days after the date of the appealing party's first notice of appeal, any other party that was a party to the arbitration may file its statement of position regarding the appeal with the Presiding Authority.

C.11.3 Copies of all materials filed with the Presiding Authority by any party during the course of an appeal shall be delivered to all other parties to the arbitration and to WECC's Chief Executive Officer.

C.11.4 Implementation of the arbitrator's decision shall be deemed stayed pending an appeal unless and until, at the request of a disputing party, the Presiding Authority issues an order shortening or extending the stay of implementation.

C.11.5 WECC's Chief Executive Officer shall publish (or cause to be published) a summary of each appeal in WECC's newsletter or electronic bulletin board.

C.11.6 The Members and WECC intend that any Presiding Authority's order resulting from an appeal under Sections C.9 and C.11 shall be subject to judicial review pursuant to laws governing the Presiding Authority and the matter in dispute that provide for judicial review of Presiding Authority action.

C.12 Procedures for Contesting or Appealing Arbitrator's Decision Before FERC. If any party to a dispute arbitrated under Sections C.6 and C.7 elects, subject to the limitations set forth in Sections C.9.1 through C.9.5 above, to contest or appeal an arbitrator's decision before FERC, the party so electing shall provide written notice to that effect to all other parties to the arbitration, the arbitrator, and WECC's Chief Executive Officer within 14 calendar days following the date of the arbitrator's decision. The provisions contained in Sections C.10.1, C.10.2, and C.10.3 above shall apply with respect to the record of the arbitration submitted to FERC. In addition, the following provisions shall apply:

C.12.1 FERC Filing by Prevailing Party. If the arbitrator's decision requires the prevailing party to take action that must have FERC approval or involves the provision of FERC-jurisdictional service by the prevailing party, the prevailing party shall file the

arbitrator's decision or make an appropriate filing with FERC to implement the arbitrator's decision. Provided that it has given notice as required under Section C.12 above, any non-prevailing party may contest the prevailing party's filing in accordance's with FERC's applicable rules and regulations.

C.12.2 Complaint to FERC by Prevailing Party. If the arbitrator's decision requires a non-prevailing party to take action that must have FERC approval or involves the provision of FERC-jurisdictional service by any non-prevailing party, then, if the non-prevailing party has given notice as required under Section C.12 above, the prevailing party may submit the arbitrator's decision to FERC in the form of a complaint.

C.13 Appeal to Court. If none of the provisions that govern appealing or contesting an arbitrator's decision before FERC, a Canadian Regulatory Authority, or a Mexican Regulatory Authority as set forth in Sections C.9.2, C.9.3, or C.9.4 above apply, any disputing party may appeal an arbitrator's decision to any court of competent jurisdiction, subject to the conditions specified in Section C.9.1 above. Except as otherwise provided in Section C.10.3 above (substituting the words "court of competent jurisdiction" for "FERC or the Presiding Authority"), any appeal to a court shall be based solely upon the record assembled by the arbitrator, and no Member, non-Member, or WECC who is a party to an arbitration under Sections C.6 and C.7 shall seek to expand the factual record before the court beyond that assembled by the arbitrator.

Appendix of Additional Definitions Relating to Alternative Dispute Resolution Provisions

Arbitration Notice has the meaning specified in Section C.7.1 of these Bylaws.

Canadian Regulatory Authority. The agency or agencies established under the laws of Canada or the applicable Provinces of Canada and having jurisdiction over facilities, interconnections, transmission rates, charges, terms, and conditions of service of a Canadian Member.

Dispute Notice has the meaning specified in Section C.5.1 of these Bylaws.

FERC. The Federal Energy Regulatory Commission or a successor agency.

FPA. The Federal Power Act (16 U.S.C. §§ 824 *et. seq.*), as it may be amended from time to time.

Mexican Regulatory Authority. The agency or agencies established under the laws of Mexico or the applicable states of Mexico and having jurisdiction over facilities, interconnections, transmission rates, charges, terms, and conditions of service of a Mexican Member.

Presiding Authority. As used in Sections C.10 and C.11, the term “Presiding Authority” has the following meanings: with respect to an appeal to an appropriate Canadian Regulatory Authority, “Presiding Authority” means the presiding Canadian Regulatory Authority or Canadian court with jurisdiction to hear the appeal; and with respect to an appeal to an appropriate Mexican Regulatory Authority, “Presiding Authority” means the presiding Mexican Regulatory Authority or Mexican court with jurisdiction to hear the appeal.

EXHIBIT C

Exhibit C – Regional Standard Development Procedure

Exhibit C shall set forth WECC’s standards development procedure, which NERC agrees meets the following common attributes:

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA in the United States. In Canada and Mexico, regional standards must be approved by applicable governmental authorities before becoming mandatory in those respective jurisdictions. No regional reliability standard shall be effective within the WECC area unless filed by NERC with FERC, and any applicable authorities in Canada and Mexico, and approved by FERC and any applicable authorities in Canada and Mexico.

COMMON ATTRIBUTE 2

WECC regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A WECC reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

COMMON ATTRIBUTE 3

WECC regional reliability standards, when approved by FERC and applicable authorities in Canada and Mexico, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the WECC area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request and may assist in the development of the standard. Any member of WECC, or group within WECC, shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the

reliability of the bulk power system in the WECC area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

COMMON ATTRIBUTE 5

Standards Request Routing Committee and Lead Standing Committees — The WECC Standards Request Routing Committee (SRRC) manages the standards development process. The SRRC will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The lead standing committee will advise the WECC board on standards presented for adoption.

COMMON ATTRIBUTE 6

Registered ballot body — The registered ballot body comprises all entities or individuals that qualify for one of the stakeholder segments; are registered with WECC as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. Each standard action is balloted by the lead standing committee and any registered Participating Stakeholders. The representation model of the registered ballot body is provided in Appendix A.

COMMON ATTRIBUTE 7

WECC will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 2, notice of comment posting period identified in step 4, and notice for vote identified in step 6 below are concurrently posted on both the WECC and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

COMMON ATTRIBUTE 9

Within 14 days of receipt of a completed standard request, the SRRC shall determine the disposition of the standard request.

COMMON ATTRIBUTE 10

The SRRC may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The SRRC may, at its discretion, expand or narrow the scope of the standard request under consideration. The lead standing committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the SRRC rejects a standard request, a written explanation for rejection will be delivered to the requester within 14 days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the SRRC. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the SRRC.

COMMON ATTRIBUTE 11

Any standard request that is accepted by the SRRC for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the WECC website within 30 days of acceptance by the committee.

COMMON ATTRIBUTE 12

The standards process manager shall submit the proposed members of the drafting team to the lead standing committee and the SRRC. The lead standing committee and the SRRC shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.

COMMON ATTRIBUTE 13

At the direction from the lead standing committee, the standards process manager shall facilitate the posting of the draft standard on the WECC website, along with a draft implementation plan and supporting documents, for a no less than a 30-day comment

period. The standards process manager shall provide notice to WECC stakeholders and other potentially interested entities, both within and outside of the WECC area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the WECC website no later than the next posting of the proposed standard.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the lead standing committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the WECC lead standing committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.

COMMON ATTRIBUTE 17

The WECC registered ballot body shall be able to vote on the proposed standard during a period of not less than 10 days.

COMMON ATTRIBUTE 18

All lead standing committee members of WECC and Participating Stakeholders are eligible to participate in voting on proposed new standards, standard revisions or standard deletions.

COMMON ATTRIBUTE 19

Approval of the proposed regional reliability standard shall require a majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes) by both voting classes of the lead standing committee. Abstentions and non-responses shall not count toward the results.

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC and applicable authorities in Canada and Mexico.

COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the WECC bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in WECC, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the WECC members and others.

COMMON ATTRIBUTE 23

- **Balanced** - The WECC standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

COMMON ATTRIBUTE 24

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the

WECC area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

COMMON ATTRIBUTE 25

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of Participating Stakeholders.

COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity’s Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC’s market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

COMMON ATTRIBUTE 32

Applicability	Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire WECC area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.
----------------------	--

COMMON ATTRIBUTE 33

Measure(s)	Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.
-------------------	--

COMMON ATTRIBUTE 34

Compliance Monitoring Process	Defines for each measure: <ul style="list-style-type: none">• The specific data or information that is required to measure performance or outcomes.• The entity that is responsible for providing the data or information for measuring performance or outcomes.• The process that will be used to evaluate data or information for the purpose of assessing performance or outcomes.• The entity that is responsible for evaluating data or information to assess performance or outcomes.• The time period in which performance or outcomes is measured, evaluated, and then reset.• Measurement data retention requirements and assignment of responsibility for data archiving.
--------------------------------------	--

PROCESS FOR DEVELOPING AND APPROVING WECC STANDARDS

Introduction

This document explains the WECC process for requesting, announcing, developing, revising, withdrawing and approving WECC Standards as defined below (“WECC Standards Process”). The process involves several steps:

- A request to develop a new Standard or revise an existing Standard
- Decision to proceed with development or revision of a Standard and assignment to a Standing Committee and Subgroup
- Public (including members) notification of intent to develop or revise a Standard
- Drafting stage
- Posting of draft for public comment
- Review of all comments and public posting of decisions reached on each comment
- WECC Standing Committee/Participating Stakeholder balloting of proposed Standard
- Consideration of any appeals
- WECC Board of Directors (Board) decision regarding approval, disapproval or remand of proposed Standard
- Forwarding proposed WECC Reliability Standards to ERO

The process for developing and approving WECC Standards includes:

1. Notification of pending Standard change before a wide audience of all “interested and affected parties”
2. Posting Standard change drafts for all parties to review
3. Provision for gathering and posting comments from all parties
4. Provision for an appeals process – both “due process” and “technical” appeals

WECC Standing Committees have the responsibility for developing and balloting WECC Standards. Standing Committee chairs are responsible for ensuring administration of the process and completion of all Standing Committee responsibilities. Standing Committees are assisted by a Standards Request Routing Committee and supported by Subgroups that draft the Standards, ensure the draft Standard is properly reviewed consistent with WECC due process requirements, respond to comments on the draft Standard, and revise the draft Standard in response to these comments. Board approval signifies that WECC has adopted the Standard. WECC staff has the role of tracking the Standard as it moves through the process and facilitating resolution of issues. In accordance with Section 8.6 of the WECC Bylaws, interested stakeholders may participate in Reliability Standard development and vote at the Standing Committee level on Reliability Standards or revisions to Reliability Standards.

WECC Bylaws Controlling

It is the intention of the drafters of the WECC Standards Process that the procedures described herein be interpreted and applied in a manner that is consistent with the WECC Bylaws. Should

any conflict between this WECC Standards Process and the WECC Bylaws arise, the WECC Bylaws will control.

Terms

Days. All references to days in this document refer to calendar days.

Due Process Appeals Committee. The committee that receives all appeals alleging that WECC's due process procedure was not properly followed during the development or revision of a Standard. The Due Process Appeals Committee consists of three Directors appointed by the Board Chair. The WECC Chief Executive Officer or his/her designee will be the staff coordinator for the Due Process Appeals Committee.

Participating Stakeholder. A Participating Stakeholder as defined in Section 3.21 of the WECC Bylaws.

Standard. In the context of this document, the term Standard refers to a Reliability Standard or a commercial Business Practice.

Standard Request Form. The form titled WECC Standards/Business Practice Request Form approved by WECC for the purpose of requesting a new Standard or a revision to an existing Standard.

Standards Request Routing Committee. This committee consists of the chairs of the three Standing Committees or their designees. This Committee is responsible for determining if a Standard Request is within the scope of WECC's activities, and assigning the request to the appropriate Standing Committee(s).

Standing Committee. The Market Interface Committee (MIC), Operating Committee (OC) or Planning Coordination Committee (PCC).¹ MIC, OC, and PCC will coordinate their responsibilities for those Standards that have a combination of market, operating, and planning implications.

Subgroup. A subcommittee, work group, or task force of the MIC, OC, PCC, or a combination of representatives from these committees that is responsible for developing a draft WECC Standard, posting it for review, and addressing public comments on the draft.² Voting members of a Subgroup are the individuals appointed to the group. In addition, one representative of the entity requesting a Standard has the option of joining the Subgroup as a voting member.

Technical Appeals Committee. The committee that receives appeals alleging that a party's technical comments were not properly addressed during the development of a Standard. The Technical Appeals Committee consists of the Vice Chairs of the Market Interface Committee, Operating Committee, Planning Coordination Committee, and a Director appointed by the Board Chair. The WECC Chief Executive Officer or his/her designee will be the staff coordinator for the Technical Appeals Committee. The Director appointed to the committee will act as chair. Replacement of a Technical Appeals Committee member in the event of a

¹ In accordance with WECC Bylaws Section 8.5.4, Membership in WECC's Standing Committees is open to all WECC members.

² Formation of Subgroups is in accordance with the Market Interface Committee's, Planning Coordination Committee's, and Operating Committee's Organizational Guidelines.

conflict of interest will be at the discretion of the Technical Appeals Committee Chair. If the chair has a conflict of interest, the WECC Board Chair will appoint another Director to serve as chair for the duration of the appeal in question.

Normal Process for Standards

Step 1 – Request To Revise or Develop a Standard

Requests to develop or revise a Standard will be submitted to the WECC staff through the use of the WECC Standard Request Form. Requesters may be any individual or organization. WECC membership is not a requirement as long as the requester has an interest in electric system reliability or commercial business practices in the Western Interconnection.

Step 2 – Request Validation and Routing

The Standard Request Form will be reviewed for completeness and assigned a tracking number by the WECC staff. Staff may assist with completing the request, or report to the Standards Request Routing Committee that the request is incomplete and request guidance. When complete, the WECC staff will forward the request to the Standards Request Routing Committee. This committee will confer either in person or via conference call within two weeks of receipt of a completed request to determine whether the request is within WECC's scope.

The WECC staff will maintain a web-based form that tracks all requests through the standard development process, as well as a standards development tracking log that is posted on the WECC website.

Upon ascertaining that a request is within the scope of WECC's activities, the Standards Request Routing Committee will assign the request to the chair of the appropriate Standing Committee(s), who will in turn assign it to a Subgroup. One Standing Committee will be designated as the lead Standing Committee. If the request has implications for any combination of planning, operations, or market issues, the chair of the lead Standing Committee, in consultation with the Standards Request Routing Committee, will evaluate the technical expertise of the Subgroup and may augment membership in the Subgroup for the purpose of drafting the proposed Standard or revision(s) to ensure that the Subgroup includes a composite of individuals having the appropriate planning, operations, and market expertise. Notification of such assignments will be posted on the WECC website and sent to all parties that subscribe to the WECC standards e-mail list. In addition, such assignments will be simultaneously noticed to NERC. The Subgroup will act in accordance with duly approved Subgroup guidelines. Any other interested parties may participate in the deliberations of the Subgroup.

Step 3 – Subgroup Begins Drafting Phase and Announces on WECC Web Site

The Subgroup will begin working on the request at the Subgroup's next scheduled meeting, or no later than a designated number of days following assignment from the Routing Committee, as directed by the lead Standing Committee chair. Notification of Subgroup meetings will be posted on the WECC website and sent to all parties that subscribe to the WECC standards e-mail list at least 30 days prior to the meeting. In addition notification of all Subgroup meetings will be simultaneously noticed to NERC. These meetings will be open to interested

stakeholders. The Subgroup chair will facilitate interested stakeholder participation in the discussion in order to encourage Subgroup understanding of the issues and consensus among the meeting participants. The Subgroup will work to achieve a consensus recommendation.

Standard requesters have the right, and are encouraged to participate in the Subgroup drafting process. Requesters may be called on to provide additional information, supporting studies, and other information to support the requirements of the proposed Standard or revision(s).

All WECC Standards will follow a standard format that refers to the Responsible Entities included in the NERC Functional Model and includes compliance measures according to the WECC standard template. The drafting group will include definitions for any terms included in the Standard or revision(s) that need to be added to the WECC glossary.

In the course of its review, the Subgroup:

- will review the preliminary technical assessment provided by the requester.
- will compare with existing standards to determine whether a the request is better served by drafting a new standard or modifying an existing standard.
- may perform or request additional technical studies, if necessary.
- will complete an impact assessment report as part of its evaluation to assess the potential effects of the request.
- may request from the Board or Standing Committee additional time to study the proposed request if the Subgroup believes it necessary to fully assess the proposed change.

Upon reaching a determination, by majority vote, that the requested Standard or revision to an existing Standard is needed, the Subgroup will announce the proposed Standard or proposed revision(s) in an existing Standard by posting on the WECC website a summary of the Standard or revision(s) it expects to draft, and an explanation as to why the new Standard or revision(s) in an existing Standard is needed. Notice of this posting, and its location on the WECC website, will be sent to all parties that subscribe to the WECC standards e-mail list. In addition these notifications will be simultaneously noticed to NERC.

If the Subgroup determines, by majority vote, that a new or revised Standard is not needed, it will prepare an explanation in consultation with the Standards Request Routing Committee and post it on the WECC website for a specified comment period. The party that submitted the request, parties subscribing to the WECC standards email list, the Standing Committees, and Board will all be notified of the posting and its location on the WECC website.

Step 4 – Draft Standard Posted for Comment

The Subgroup will post the first draft of the new or revised Standard on the WECC website and provide 45 days for comments. Along with the draft, the Subgroup will prepare and post an impact assessment report. Alternatively, the Subgroup may request input from affected parties regarding their estimated cost to implement the draft Standard and will use that data to prepare an impact assessment report, which will be posted for comment when it becomes available. The draft will include all mandatory requirements. In addition, it will include measurements, Violation Risk Factors, and Violation Severity Levels. Notice of this posting and a solicitation for comments on the draft will be sent to all WECC members and all individuals who subscribe

to the WECC standards e-mail list. In addition the notification of posting and solicitation for comments will be simultaneously noticed to NERC. Members of electric industry organizations may respond through their organizations, or directly, or both. All comments will be supplied electronically and will be posted on the WECC website.

Step 5 – Subgroup Deliberates on Comments

Subgroup chairs are responsible for ensuring that comments are addressed in a timely manner. The Subgroup will post its response to comments on the WECC website within 30 days of the close of the comment period. All parties that submit comments are strongly encouraged to participate in Subgroup deliberations.

If the Subgroup determines, by majority vote, any technical comments including those on the draft or the impact assessment report are significant, it will repeat Steps 3 and 4 as many times as considered necessary by the Subgroup to ensure adequate opportunity for interested stakeholder input. All interested stakeholders are strongly encouraged to submit their comments as early in the process as possible. The number of days for comment on each subsequent revision to the draft of the proposed Standard or revision(s) will be 30 days. Parties whose comments have been rejected by a Subgroup may request review of such comments by the Standing Committee and Participating Stakeholders when the proposed Standard or revision(s) is brought before the Standing Committee for a vote (in Step 7).

The Subgroup will attempt to achieve a consensus recommendation on a final draft. A majority vote of the Subgroup is required to approve submitting the recommended Standard or revision(s) to the Standing Committee and Participating Stakeholders. Voting will be conducted in accordance with this WECC Standards Process, the WECC Bylaws, and any other applicable regulatory requirements. Balloting results will be documented. All dissenting voters, as well as others participating in the Subgroup deliberations, will be encouraged to provide dissenting comments and, if possible, specific language that would make the Standard acceptable. If the Subgroup vote fails to capture a simple majority to approve the submittal to the Standing Committee and Participating Stakeholders, and there is no apparent way to reach a majority agreement, the Subgroup will report to and seek guidance from the Standing Committee Chair.

Step 6 – Subgroup Submits Draft for Standing Committee/Participating Stakeholder Vote

The Subgroup's final draft Standard or revision(s) will be posted on the WECC website and the appropriate Standing Committees and Participating Stakeholders will be notified of the Subgroup's recommendation. The posting will include the final Subgroup vote, all comments that were not incorporated into the draft Standard, the impact assessment report and the date on which the Standing Committee and Participating Stakeholders are scheduled to vote on the Subgroup's recommendation. Notice of the posting will be sent to the Standing Committees, all Participating Stakeholders, and the standards e-mail list. In addition the notification of posting for ballot will be simultaneously noticed to NERC.

Step 7 – Standing Committee/Participating Stakeholders Vote on Recommendation to Board

In accordance with Sections 8.5 and 8.6 of the WECC Bylaws, the Standing Committee and Participating Stakeholders will vote on the draft Standard, revision(s) or withdrawal no later than at the next Standing Committee meeting, subject to applicable notice requirements. A minimum of 30 days notice will be provided prior to all Standing Committee meetings at which new or revised Standards will be considered for approval.³ Notification of such meetings will be posted on the WECC website and sent to all parties that subscribe to the WECC standards e-mail list. Whenever it determines that a matter requires an urgent decision, the Board may shorten the time period set forth in this section in accordance with the requirements in the WECC Bylaws.⁴

The Standing Committee and Participating Stakeholders may vote to amend or modify a proposed Standard or revision(s) or remand it back to the Subgroup to propose needed modifications. The reasons for the modification(s) will be documented, posted, and provided to the Board. If any changes are made at the Standing Committee meeting, the roll call of votes for and against the proposal and abstentions will be recorded at the meeting, and the revised proposal will be posted for 10 days for comments.³ The comments will be posted and distributed to the Standing Committee and Participating Stakeholders. All Standing Committee members and Participating Stakeholders, including those who did not vote at the meeting, will be allowed 10 days from the time comments are posted to submit or change their votes, and the Standing Committee/Participating Stakeholder votes will be recounted based on these new and revised votes to determine whether a majority has voted for the proposal. Any parties that object to the modifications may appeal to the appropriate appeals committee as provided in Step 8.

A majority vote of the Standing Committee and Participating Stakeholders, as specified in Section 8.5.5.2 of the WECC Bylaws, is required to approve submitting the recommended Standard or revision(s) to the Board for a vote. In accordance with Section 8.5.5.2 only Standing Committee members and Participating Stakeholders who are present at a meeting of the Standing Committee may vote on a Standard.

Although any of the three Standing Committees (together with Participating Stakeholders) may vote on submitting the recommended Standard or revision(s) to the Board, only the vote of the lead Standing Committee and Participating Stakeholders will determine the course of action. If the Standing Committees do not agree, the lead Standing Committee and Participating Stakeholders will decide whether to return the draft to the Subgroup for further work, to submit the recommended Standard or revision(s) to the Board, or terminate the Standard development activity with the posting of an appropriate notice to the Standards requester, the Subgroup, and the Board (if appropriate). The Standing Committee chairs will coordinate input from their respective Committees and Participating Stakeholders to the lead Standing Committee so that the lead Standing Committee and Participating Stakeholders will have all relevant information when

³ WECC Bylaws, Section 8.5.6 – “If the committee’s recommendation or decision changes significantly as a result of comment received, the committee will post the revised recommendation or decision on the Web site, provide e-mail notification to Members and Participating Stakeholders (if the recommendation or decision concerns a Reliability Standard or revision), and provide no less than ten (10) days for additional comment before reaching its final recommendation or decision.”

voting. Relevant voting information from all Standing Committees will be submitted to the Board for its consideration in determining whether or not to approve the Standard.

If the Standing Committee and Participating Stakeholders approve the Standard or revision(s), the Standing Committee sends its recommendation, together with the proposed Standard or revision(s), and any comments on which the Standing Committee and Participating Stakeholders did not agree, plus minority opinions, to the Board for final approval. To be considered by the Board, any “no” votes on a proposed Standard or revision(s) should be accompanied by a text explaining the “no” vote and if possible specific language that would make the Standard or revision(s) acceptable. Proposed Standards or revision(s) will be posted no less than 30 days prior to the Board vote.⁴ The date of the expected Board vote will also be posted.

Step 8 – Appeals Process

Appeals are available at various levels of the Standards Development Process as follows:

Rejection of a Standards Request by the Standards Request Routing Committee may be appealed to a Standing Committee and Participating Stakeholders, and if necessary, to either a Due Process or Technical Appeal Committee, as appropriate.

Appeals of Subgroup decisions, including Routing Committee decisions, may be made to a Standing Committee and Participating Stakeholders. The Standing Committee will post its findings. The subsequent rejection of such an appeal by a Standing Committee and Participating Stakeholders may be further appealed to an appeals committee. The appeals committee will post and submit its findings and recommendations to the Standing Committee chair who will determine the appropriate course of action. Any submittal to the Board of Directors for approval will include any findings and recommendations of the appeals committee.

A new Standard or revision(s) to an existing Standard recommended by a Standing Committee and Participating Stakeholders may be appealed on either technical or due process grounds. Any due process or technical appeals must be submitted, in writing, to the WECC staff within 15 days of the date the Standing Committee posts a recommendation.

The WECC staff will conduct an investigation and issue a written report of its findings and recommendations to the appealing party and Standing Committee. If the appealing party does not agree with the staff report, it can request that the appeal be referred to the Technical or Due Process Appeals Committee, which will conduct an investigation and issue a report including findings and recommendations. The Technical Appeals Committee will make assignments as necessary to existing WECC technical work groups and task forces, form new technical groups if necessary, and use other technical resources as required to address technical appeals. The appealing party has the burden of proof and must demonstrate that the decision will adversely impact it. The Technical or Due Process Appeals Committee will issue a majority decision.

Each level of appeal will be completed within 30 days. The Board of Directors, at its discretion, may implement the Standard or revision(s) on an interim or emergency basis during the appeals process using the Urgent Action interim Standard Process set forth below.

⁴ WECC Bylaws, Section 7.5.1 – “Except as set forth in Section 7.5.2 regarding urgent business, all regular business of the Board will occur at the Board meetings, at least twenty-one (21) days’ advance notice of which has been provided...”

Step 9 – Board Approval

The WECC Board of Directors will consider the proposed Standard or revision(s) no later than at its next meeting occurring at least 30 days after the lead Standing Committee vote. The Board will consider the Standing Committee’s recommendations and minority opinions, all comments that were not incorporated into the draft Standard or revision(s), the impact assessment report, and inputs from the Due Process and Technical Appeals Committees. The Board will not amend or modify a proposed Standard, except to make nonmaterial changes to the language of a Standard or revision thereto. If approved, the Standard will be posted on the WECC website and all parties notified.

If the new or modified Standard is not approved, the Board may return the Standard to the Standing Committee and Participating Stakeholders for further work, or the Board may terminate the Standard activity with an appropriate notice and explanation to the Standard requester, Standing Committee, and Participating Stakeholders. These Board actions will also be posted.

A majority vote of the Directors present at a Board meeting, as specified in Section 7.2 of the WECC Bylaws, is required to approve the recommended Standard or revision(s).

Step 10 – ERO Review, FERC Approval and Implementation of Reliability Standards

To the extent required under Section 215 of the Federal Power Act, 18 C.F.R. Part 39, and according to procedures established in the delegation agreement between WECC and the Electric Reliability Organization (“ERO”), the Board shall submit new Reliability Standards and revisions to existing Reliability Standards for review by the ERO and approval by FERC. Upon approval by FERC, the Reliability Standards will be made part of the body of NERC reliability standards and enforced upon all applicable bulk power system owners, operators, and users within the WECC region. Parties’ right to participate in the ERO and FERC review processes shall be as established in the applicable regulations and the ERO/WECC delegation agreement. Reliability Standards subject to ERO review shall become effective as approved by FERC or applicable Canadian or Mexican authorities.

Step 11 – Implementation of Standards Not Subject to ERO/FERC/Other Approval

All new and modified Standards not subject to ERO review and FERC, Canadian or Mexican approval as provided in Step 10 shall become effective as ordered by the WECC Board. As of the effective date of such new or modified Standard, all industry participants in the Western Interconnection that such Standard is applicable to are expected to implement and abide by the Standard. Any and all parties to this Process retain the right of appeal to other authorities as the law allows.

Special Procedures

Expedited Process for Urgent Action Interim Standards

In cases requiring urgent action, such as in the development of emergency operating procedures, the Standing Committees and Participating Stakeholders may propose a new or modified interim Standard for approval by the WECC Board through a process that eliminates any or all of the steps outlined above, but only to the extent necessary, and only in a manner that is consistent with the WECC Bylaws. Such interim Standard shall be replaced by a Board-approved permanent Standard, developed using all the steps identified in this document within one year (or such additional time as may reasonably be required to complete all steps) from the date on which the WECC Board approved the interim standard. An interim Standard may be converted to a successor permanent Standard as long as any procedural steps bypassed in developing the interim Standard are completed with respect to the permanent Standard. If necessary, the Board may renew an interim Standard to allow additional time for the development of a successor permanent Standard. Renewal may occur more than once, but a good faith effort must be made to develop a successor permanent Standard.

Interpretation of Regional Standards

Any entity may request an interpretation of a Regional Standard by sending a request through the WECC web portal identifying the standard and requirement or requirements for which additional clarity is sought. The request shall indicate the material impact to the requesting entity or others caused by the actual or potential lack of clarity. An interpretation is limited to clarifying existing requirements in approved reliability standards. Interpretations may not be developed that expand upon a requirement or that provide guidance on how to apply a requirement.

The Director of Standards shall review the request for clarity and completeness and shall work with the requestor to clarify the request or complete any missing elements of the request if needed. The Director of Standards shall forward the request to the Standards Request Routing Committee (SRRC). If the Director believes that the request is intended to change a requirement or is seeking feedback on how to apply a requirement, rather than interpret the requirement, the Director shall note that to the SRRC. If the SRRC agrees by majority vote, the request shall be denied and returned to the requestor with an explanation. If denied, the requestor shall be advised of the appeals process.

Within 10 calendar days after receipt of the request, the SRRC shall assign the interpretation request to the Standing Committee (SC) responsible for creating the Standard. Within 21 days of receiving the request, the SC Chair shall assemble an Interpretation Drafting Team (IDT) with the relevant expertise to address the clarification. The IDT should include members from the original Standard Drafting Team to the extent possible, and may be supplemented as deemed appropriate by the SC Chair, but shall not contain any members representing the entity that submitted the request.

As soon as practicable, but not more than 45 calendar days after the SC assembles the IDT, the IDT shall draft a written interpretation to the Standard providing the requested clarity. The

interpretation shall be posted for a 30-day formal comment period. The IDT shall then have 15 days to respond to the comments and to make any changes to the interpretation. The IDT shall then return the interpretation to the SC which shall then post the interpretation for another 30 days to give entities time to review the interpretation prior to the SC vote. The SC shall vote on the interpretation as soon as practicable after the posting period consistent with the Voting Procedure for WECC Standing Committees. Use of a conference call or web meeting and electronic or e-mail balloting is encouraged to shorten the interpretation process. If the interpretation is approved, the SC shall forward the interpretation to the WECC Board of Directors for approval. If the SC rejects the interpretation, the Director of Standards shall notify the requestor.

The interpretation shall be submitted to NERC for processing with a request that the interpretation be adopted by the NERC Board of Trustees and then filed for approval with FERC and applicable Governmental Authorities in British Columbia, Alberta and Mexico.

Once the interpretation is approved by FERC and applicable Governmental Authorities in British Columbia, Alberta and Mexico, the interpretation shall become effective and shall be appended to the Standard. The interpretation will remain appended to the Standard until such time as the Standard is revised through the normal process incorporating the clarifications provided by the interpretation.

Approved by the WECC Board April 28, 2010
