

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Mandatory Reliability Standards for the Calculation	Docket Nos. RM08-19-000
Available Transfer Capability, Capacity Benefit	RM08-19-001
Margins, Transmission Reliability Margins, Total	RM09-5-000
Commitments and Mandatory Reliability Standards for the Bulk-Power System.	

ERRATA NOTICE

(December 4, 2009)

On November 24, 2009, the Commission issued a Final Rule (Order No. 729) in the above-referenced proceeding.¹ This errata corrects sites in the rule where the word “proposed” is used instead of applicable final rule language. Order No. 729 is corrected as follows:

On first page (Federal Register cover sheet section), in the last sentence of the Summary, change “proposed to “approved.” The sentence should read: “Finally, the Commission directs NERC to retire the existing MOD Reliability Standards replaced by the versions approved here.”

On page 2, paragraph 1, last sentence, change “proposed” to “approved.” The sentence should read: “The retirement of these Reliability Standards will be effective upon the effective date of the approved MOD Reliability Standards.”

On page 184, paragraph 307, change “proposed” to “final.” The sentence should read: “The following collections of information contained in this final rule have been submitted to the Office of Management and Budget (OMB) for review under section 3507(b) of the Paperwork Reduction Act of 1995.”

Kimberly D. Bose,
Secretary.

¹ *Mandatory Reliability Standards for the Calculation of Available Transfer Capability, Capacity Benefit Margins, Transmission Reliability Margins, Total Transfer Capability, and Existing Transmission Commitments and Mandatory Reliability for the Bulk-Power System*, 129 FERC ¶ 61,155 (2009) (Order No. 729).
