

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Reactive Power Requirements for Non-Synchronous Generation      Docket Nos. RM16-1-000

Requirements for Frequency and Voltage Ride Through Capability of Small Generating Facilities      RM16-8-000

NOTICE OF EXTENSION OF COMPLIANCE DATES

(August 8, 2016)

The Federal Energy Regulatory Commission hereby extends the dates for compliance with Order Nos. 827<sup>1</sup> and 828<sup>2</sup> to October 14, 2016, and requires a single combined compliance filing as discussed in Order No. 828.<sup>3</sup>

Filers that submitted a filing in compliance with either Order No. 827 or Order No. 828 on or prior to the date of this notice are exempt from the requirement to file a single combined compliance filing.

Nathaniel J. Davis, Sr.,  
Deputy Secretary.
